Portland Town Council.

The Portland Town Council met last evening, and the Police Committee submitted its report on the charges made against the force of sleeping in the Station, etc. The committee found the charges from the evidence of those who had given publicity to them, and from other witnesses, entirely unfounded. The committee complained of a little "laxity of supervision that has tended to create a want of discipline among the force." After a lengthy discussion the report was sent back to the committee with power to make such arrangements as would secure better discipline. On recommendation of the proper committee the Treasurer's hours were made from 9 a. m. to 12 noon, and from 2 to 5 p. m., and the salary of that office was increased from $1000 to $1250. It was resolved to expend $100 for improvements on the Indiantown wharf. Coun. Jordan submitted Mr. W. Murdoch's report on the Main street sewer. The entire cost, according to his estimate, would be $9,105. It was resolved to let the sewerage question rest until the inhabitants of the Town petition for it.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs.

AMONG the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the sudden and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tens of lungs need this defence; and it is unwise to do without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centered on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured. Prepared by

SIXTEENTH ANNUAL REPORT.

THE REPORT and ACCOUNTS for the year 1873, presented to the Shareholders at the ANNUAL MEETING, on TUESDAY, 26th May, 1874, at which BERNARD HALL, ESQ., presided, showed, in the

FIRE BRANCH,

That the Premiums for 1873, after deducting re-insurances, amounted to £295,140, and the Losses to £162,117, or 54.09 per cent.

LIFE BRANCH.

The Reports of the Actuary of the Company, and by Mr. Samuel Brown, showed the Surplus in the Life Fund to be £30,419 after providing for all Liabilities on a 3 per cent. pure Premium Valuation.

NOTE.—Three-fourths of this amount belongs to the participating policy-holders, and the necessary calculations for its allocation among them, according to their various interests, are now being proceeded with.

The amount at the credit of the Life Fund was shown to be over 67 per cent. of the entire net premiums received on every policy now in existence.

Mr. Samuel Brown concludes his Report as follows:—

"Comparing the condition of the Life Branch of the Company now and at the last Quinquennial Division of Profits, it is evident that every satisfactory progress has been made.

"The precautions which have been taken not to anticipate any of the future profits of the Company, and by using the tables on which the premiums are based at a very low rate of interest to strengthen its position at all future divisions, are sure to lead to the confidence and support of the public.

"It seems to me that such results as those above shown are likely to lead to a great influx of business during the next Quinquennial period."

The Surplus on the Year's Account, including £7,604, the Proprietors' one-fourth share of Life Profits, was shown to be £24,633, which was appropriated by the increase of the Reserve Fund by £11,938, thus raising that fund to £130,000; to the payment of a Dividend and Bonus at the rate together of 15 per cent. per annum absorbing £26,975; the Balance, £13,719, being carried forward.

FUNDS AND SECURITIES.

The Funds of the Company stand as follows:

Capital paid up	£179,830	Annuity Fund	£7,352
Fife Fund	£177,933	Reserve Fund and bal. carried forward	£143,719

The Company has paid, in satisfaction of Claims, £1,348,314. Funds in hands, £612,301.
