CENTRAL BRIDGE AND - - - - ENGINEERING COMPANY,

(LIMITED)

Peterborough, Ont.

WM. H. LAW, Manager and Engineer.

MANUFACTURER OF

RAILWAY AND HIGHWAY BRIDGES

Viaducts, Piers, Roofs, Turntables and Girders in Steel and Iron.

Tension members forged without welds. Riveting done by hydraulic or compressed air machines. Specialties: Good workmanship and strict adherence to specifications and drawings.

CAPACITY: 2,000 TONS PER ANNUM.

Prices of Building Materials.

CONDITION OF THE MARKET.

TORONTO: The market remains steady, with possibly a slight improvement. In general hardware the demand is mostly for small lines, such as locks, nails, etc. A satisfactory trade is reported in iron pipe, but the prices are being cut very fine. Galvanized iron is quiet the lighter gauges only being in demand. Nothing to report in lead pipe and discounts unchanged. Plumbing supplies are firmer, and a slight improvement is noticed in city trade. Business is brisk in window glass and paints and oils, as a result of the closing of the season's work. Cement remains the same.

MONTREAL: The market is quiet, with few changes to note. The cement season is about over, and all the large orders have been placed, consequently importers do not expect much activity. It is said to have been an unsatisfactory season for cement dealers, both as regards volume of business and low prices. The stock of English brands handled is fully 50,000 barrels short of last year. Prices remain unchanged. Fire bricks are selling at $16 to $22. Window glass is firm at $1.25 for first break. Paints and oils are steady, with no change in quotations
