To the Honourable S. A. Fisher, M.P.,

Minister of Agriculture.

Sir,—During the past year the work of the Archives Branch has been conducted, as far as possible, on the lines marked out in my report for 1904. The principal task which we have undertaken for the advancement of historical science, is an investigation, or critical examination of the archives of the Dominion, with a view of publishing a book of reference, or general guide, for the service of future enquirers. It would seem that little argument is requisite to prove that the first thing to be done in order to render the information contained in the mass of our records available to the public, is to let the public know what records exist and where they are to be found. Although our investigation, for the purpose of a guide, is at present limited to Canada, I hope that it will be merely the introduction to a work embracing the archives of the United States and Europe, in so far as they relate to this country. From the indications given in such books of reference, selections might be printed under the title of Materials for the History of Canada. In the present volume a summary is printed of the archives found on the Island of Orleans. A similar report has been prepared for many other parishes, but as the information to be derived from the whole Dominion is to be systematically arranged and printed, it is not desirable to give further details here. In the Province of Quebec the examination has been conducted under direction of the Rev. P. M. O'Leary, D.S.O., sometime Professor of History in Quebec. To facilitate the object we have in view, His Grace the Archibishop of Quebec has issued a letter to the clergy of his diocese, inviting them to co-operate in the work of the Branch by giving free access to their papers. In the winter months, when travelling was difficult, the Rev. Mr. O'Leary devoted his time to an examination of the archives of the Bishop's Palace. There is, of course, much work to be accomplished before the whole of the Province can be visited, but the value of what has already been done may be ascertained from the summaries here published. The plan we have adopted appears to meet with the approval of scholars and the custodians of records, and private inviduals have expressed a desire that their collections should be calendared for the public service.

Dr. James Hannay, F.R.S.C., the historian, has been engaged to investigate the Archives of the Maritime Provinces. He has already made several excellent reports on the papers he has examined, and he has also prepared a general report, which is here quoted,—

"Having been selected by the Minister of Agriculture to examine into and report "on the Historical material in the Maritime Provinces, available for a History of Canada, "I proceeded to Halifax in the first week of July, 1905. I selected Nova Scotia as the "most proper field to begin my work because it is the mother colony of the Maritime Pro- "vinces, and also because its Archives have been better attended to than those of either "New Brunswick or Prince Edward Island.

"The term Nova Scotia, is popularly held to be identical with the old French "Province of Acadia and for ordinary purposes this definition is correct enough, but a "reference to the original charters shows very great differences in their meaning and "the words Acadia and Nova Scotia have both represented very different areas of territory "in times past.

"The Acadia which was granted to De Monts in 1603 had no western boundary, "but extended north and south from the 40th to the 46th degree of north latitude. It "therefore included all the territory which now comprises the New England States, "New York and the larger part of Pennsylvania. The French, however, never sought "to enforce the extreme claim and in the first half of the seventeenth century did not "seek to hold any territory farther west than Penobscot.

"But in 1697, Villebon, Governor of Acadia, informed the Governor of Massachusetts "that he claimed the Kennebec to be the western boundary of Acadia and that any "vessel trading east of that river would be seized. Yet very soon after the surrender "of Acadia to Great Britain by the Treaty of Utrecht, the French claimed that Acadia "only meant the Peninsula of Nova Scotia south of the Misseguash River. The French "enforced this claim at a later period by armed occupation, and, in fact, continued to "control the territory now called New Brunswick until after the fall of Quebec. The "Island of Cape Breton was not included in the Acadia surrendered by the Treaty of "Utrecht.

"Nova Scotia, as granted to Sir William Alexander in 1621, had the St. Croix "River for its western boundary and extended as far north as the St. Lawrence, so "that it included not only New Brunswick and Nova Scotia but also the Gaspé "Peninsula. After the capture of Port Royal in 1710, the Governor of Nova Scotia "claimed jurisdiction over all the territory east of the St. Croix and this river continued "to be the boundary of Nova Scotia until 1784 when the territory north of the Misseguash "was separated from it and became the Province of New Brunswick.

"The Island of Cape Breton at the same time had a separate Government, but this "ceased in 1820 when it was united to Nova Scotia and since that time there has been "no change in the boundaries of Sir William Alexander's ancient colony.

"As Nova Scotia was originally colonized by the French, then settled by a colony "of Scotchmen, again occupied by the French, then held by the English during the "Protectorate of Cromwell and the reign of Charles II for sixteen years—again restored "to the French and finally conquered by the English and ceded to them by treaty, it "follows as a matter of course that we must look to many sources for its history. It is "only in recent years that any progress has been made in elucidating that part of its "story which relates to the Scotch colony in Acadia, and much yet remains to be dis-"closed in regard to this interesting period. A great deal of what has been written "in regard to that early time is little better than guess work and most writers are "content to follow Charlevoix who wrote a full century after the Scotch had disappeared. "Yet some members of the Scotch colony undoubtedly mingled their blood with that "of the Acadians and became the founders of Acadian families which still exist in Nova "Scotia and New Brunswick. It is very desirable that further light should be shed "on the story of the Scotch colony.

"Another period of Acadian history which is very obscure is that relating to the "contest between d'Aulnay Charnisay and de la Tour. We know something about the "contest between these two men but not enough to satisfy a reasonable curiosity. The "slightest study of the orders of the King in regard to these rivals will serve to show "that there must have been underlying causes which have not been disclosed to account "for the changes of policy with regard to them. These changes can hardly be under-"stood without a close study of the history of France between 1635 and 1650. This "period included the attainment by Richelieu of the summit of his power, its partial eclipse "and his death in December 1642, the death of Louis XIII a few months later, the "rise of Mazarin to power and the regency of Anne of Austria. These changes of "rulers involved many changes of policy and the internal peace of France was much "disturbed, so that we need not be surprised at the uncertain attitude of the Govern-"ment with regard to the rival chiefs of Acadia. The characters both of la Tour and "his wife have been aspersed by the writings of the Menou family, but their ex parte "statements are hardly to be taken seriously.

"Another period of Acadian history which is only just now becoming better known "is that which relates to the connection of Sir Thomas Temple with the Province. To "make this clear it has been necessary to go not only to the English state papers, the

"records of the Privy Council, but also to the Archives of Massachussetts. These "remarks are made for the purpose of illustrating the difficulties which lie in the way of "a thorough understanding of Acadian history and to show that he who wishes to be "well informed upon it must not be content to merely study the material at his hand, "but must seek many distant fields for the purposes of research.

"It is now more than half a century since the first step was taken in Nova Scotia "to collect and preserve the records of that Province. A commission was appointed by "the Government at the request of the Legislature for the purpose of effecting this "object and by great good fortune Mr. Thomas B. Akins was selected to do the work. "The zeal, industry and energy displayed by Mr. Akins could not have been surpassed, "and the result is a collection of records which, although not complete, is a wonderful "result of the work of one man for a quarter of a century of his life.

"As soon as I arrived at Halifax I placed myself in communication with Mr. Harry "Piers who has the custody of the Archives of the province and who is also the curator "of the Museum. I was received by him with the greatest courtesy and during the "whole period of my stay in Halifax I received from him every attention possible, for "which I wish to express my thanks. Indeed every person in an official position in "Nova Scotia that I met, from the Premier down, seemed anxious to favour my views "and to show me attention. As the Archives are kept in the Province, and the "Museum is the Burns Building, Mr. Piers, who has to remain in the Museum "most of the day, is unable to give much of his time to the Archives. For that reason "the work of collection seems to have come to a standstill in Nova Scotia. But consider- "ing the unwillingness of the average legislature to expend money for such objects, "we ought to be thankful for what has already been accomplished. The room in which "most of the Archives are kept is a Committee room of the Legislative Council and "connected with it. It therefore does not belong exclusively to the keeper of the "Archives, so that he was unable to give me the right to work in it as I wished, and for "several days my work was done in the Legislative Library, which is just opposite, and "into which the books were brought one by one. This arrangement, however, did not "last long. The Hon. M. H. Goudge, the President of the Legislative Council, came "into the Library one day and learning the work I was engaged in at once placed the "room at my disposal so that I was able to consult the Archives with much greater "convenience. In fact, during the months I was in Halifax, that room was practically "my own to be used night or day, and I availed myself to the fullest extent of the "privileges thus obtained, and spent nearly all my evenings in it. It was no small task "to go through about 500 large volumes of documents and obtain an idea of their "contents, but this had to be done to enable me to make a complete report.

"The Archives of Nova Scotia may be divided into four classes—those that relate to "the French occupation of the country; those connected with the purely military occu- "pation of Annapolis from 1710 to 1749; the papers and documents subsequent to the "later date when Halifax became the capital of the Province, and the papers relating to "the Island of Cape Breton. There are only three volumes of French documents in the "collection and these appear to have been obtained from Quebec about fifty years ago. "They are transcripts of the documents originally obtained from the Bureau of Marine "in Paris. The first of these volumes contains papers of the period between 1632 and "1699; the second, papers from 1700 to 1749; about half of them relate to events that "occured prior to the capture of Port Royal in 1710; the third volume contains papers "from 1614 to 1751 including the correspondence of the priests in Acadia with the "authorities of Quebec. It will be seen that these documents are very incomplete in "comparison with the mass of papers that have since been brought to light concerning "Acadia and which are now among the Archives at Ottawa. The most valuable docu- "ments are the letters of the Governors of Acadia between 1692 and 1710, the Diary of "Governor Villebon and the correspondence of DesGoutin, Bonaventure and other offi- "cials with the Minister in Paris.

"There are 24 volumes relating to the affairs in Nova Scotia between 1710 and "1749. At that time there were no English settlements in the Province and the only "places that were held by the British were Annapolis and a small post at Canso. These

"24 volumes include letters to and from the Governors and Lieutenant Governors of Nova "Scotia, letters to and from the Board of Trade, Commission books, Minutes of Coun- "cil, etc., and appear to be quite complete.

"The papers relating to the Island of Cape Breton number 26 volumes beginning "in the year 1773 and extending to the year 1835. Cape Breton was annexed to Nova "Scotia in the year 1820 against the wishes of most of the inhabitants and since then has "lost its identity, and all the other papers relating to it are to be found among the Nova "Scotia documents. There is a very interesting volume, number 26, of the Nova Scotia "Archives, which contains a register of the marriages, births and deaths of Port Royal and "vicinity from the year 1702 to 1728. This volume has already been copied for the "Archives of Canada. Much of the interest connected with it is due to the fact that "autograph signatures of all the leading men of Acadia during the last year of the "French Government of Port Royal, Brouillan, Subercase, Bonaventure, Pontif, "DesGoutins, Charles LaTour, St. Castine the younger, and many others are contained "in it.

"The volumes which relate to the history of Nova Scotia from 1749 upwards num- "ber about 440 and are very complete. They comprise despatches from the Lords of "Trade and Plantations to the Governors of Nova Scotia in the early days of the colo- "nies and from the Governors to the Lords of Trade and to the Secretary of State, Minutes "of Council, miscellaneous documents on special subjects, public accounts, census returns "and many other matters. About one hundred of these volumes were in the vaults of "the Provincial Secretary when I went to Halifax, where, from want of sufficient room "to examine them, they were not available, but at my request the Deputy Provincial Secre- "tary, Mr. Mathers, had them removed to the shelves where the Archives are deposited, "so that all the volumes relating to the history of Nova Scotia are now together, "with the exception of the original Minutes of Council. Copies of the latter down to "the year 1810 are among the other Archives.

"After examining the whole of the five hundred volumes of Archives in the Com- "mittee room of the Legislative Council, I turned my attention to the papers deposited "in boxes in the attics of the Province building. These boxes are sixty-one in number "and in their present condition are not readily accessible. They contain a great variety "of documents, a list of which will be found in my final report. It is to be regretted "that they are not more readily available, but with the present limited accomodation "afforded by the Nova Scotia Province Building, there appears to be no remedy. Mr. "Piers has succeeded in obtaining from the military authorities 270 volumes of letter books, "and order books relating to the garrison in Nova Scotia and New Brunswick. Among "these are 91 volumes of general orders issued at Halifax from 1783 to 1903; two "volumes of general and garrison orders, 68 volumes of garrison orders issued between "1814 and 1903, 6 volumes of other orders, 16 volumes of general orders issued at "Fredericton, and 6 volumes of district and garrison orders also issued at Fredericton, "2 volumes of memorandums, 18 volumes of general orders issued at Halifax, and District "Orders at St. John; 4 volumes of garrison orders issued at St. John and 1 volume of "army medical correspondence.

"A complete list of the contents of these 270 volumes will be found in my final "report.

"These are but a portion of the military correspondence that was at one time in "Nova Scotia. I understand that many of the other volumes are now in the depart- "ment of Archives at Ottawa. There are also in care of the Nova Scotia Archivist, "332 Military Maps and plans connected with the fortifications and garrisons in Nova "Scotia and New Brunswick, some of them of ancient date. A list of these will be "found in my report.

"Having disposed of this collection I turned my attention to the Crown Land "Office where all the grants issued in Nova Scotia were registered up to the year 1854. "Since then such grants have been recorded in the Office of the Registrar of Deeds of "the County where the land granted is situated. These grant books are in perfect "order and easily accessible and the Officer in charge of them, Mr. Austin, is always "ready to show them to those who have reason to consult them. Among the other

"Halifax establishments which I visited were the offices of the Registrar of Deeds and "the Prothonotary, and the office of the Register of Probates. I made a complete list "of all the volumes in these offices. But perhaps the most notable collection of histor- "ical material is what is known as the Akins collection, which was gathered by the late "Mr. Akins, the Nova Scotian Archivist, in the course of his long life. This collection "is now the property of the Nova Scotian Historical Society and is kept in a room at "Dalhousie College, but at present it is not in such a condition as to be easily accessible. "A mere catalogue of this collection would fill a large volume, so that I contented my- "self with copying out that portion of it which more immediately relates to the three "Maritime Provinces and even this condensed catalogue would make a large pamphlet. "There are not many manuscripts, but almost every thing in the shape of a book "or pamphlet which relates to the history of the three provinces is to be found here. "There are also many newspaper files. The late Governor of Nova Scotia, Hon. Alfred "Jones, had made a large collection of portraits of persons connected with Nova Scotia "nnmbering 200 or more and these are kept at Government House. I made a list of "them for the benefit of persons who may wish to obtain copies of the portraits of our "famous men. Mr. J. J. Stewart, editor of the Halifax Herald, has also a large collect- "ion of portraits and of pamphlets. There are also a considerable number of portraits "in the Province building and in the Provincial Museum.

"In November I took a trip to Sydney and examined the Records of the Registry "Office there and likewise the Register of the Parish of St. George at Sydney which "contains the births, deaths and marriages beginning in 1785. St. George remained "the only parish in Cape Breton until 1828. This register is in the possession of the "Rector, the venerable Archdeacon Smith, D.D. The first record book ends in the "year 1805. This register is complete to the present day with the exception of the "baptisms from May 1849 to January 1852. While in Sydney I was fortunate enough "to have an opportunity to examine a valuable private collection that of the late Judge "Dodd. These were the papers of his grandfather, the first Chief Justice of Cape Breton, "who was a notable figure in the public life of that colony. A full account of the "contents of these papers will be found in my final report. As the season was not "favorable for travelling in Cape Breton, I returned to Halifax and on my way back "stopped off at Antigonish where I examined the books of the Office of the Register of "Deeds which begin in 1874. I also visited the College and made arrangements to "obtain a list of the records.

"Among the valuable historical material in Halifax, are the files of the Acadian "Recorder newspaper from the year 1813 to the present time. This paper is still in "existence and the files are well preserved by the proprietor, Mr. Blackadar. There "are also numerous files of newspapers in the Legislative Library a full list of which "will be found in my report.

"Among the most important records to be found in Halifax are those connected "with St. Paul's Church. This church was founded immediately after the settlement "of Halifax in 1749 and it was the only place of worship of the Church of England in "Halifax until the year 1827. It was for 92 years the garrison church for the army "and navy stationed in Halifax and the church itself has been the burial place of a "great many distinguished persons connected with the early history of Nova Scotia. "The books of the church contain a record of nearly twenty-three thousand baptisms, "ten thousand marriages, and sixteen thousand burials. There are thirty-six volumes "of records connected with the church forming one of the most complete and interesting "series of books to be found in connection with the history of any province. When I "left Halifax to begin work in Fredericton, it was by no means because my researches "there were completed, but I had examined and catalogued everything that was "immediately available and in sight, and the work that remained to be done there "required more research and a greater degree of patience, because it is impossible for a "mere sojourner in a strange city to obtain access to private documents and records "which might be made available for historical purposes. To do this is a work of time "and I felt that for some time I would be better employed in examining into the "material in Fredericton in connection with the history of New Brunswick which

"could be reached at once. In both provinces there are collections of private docu-
"ments especially relating to the period of the Revolution which it will be necessary
"to take an account of before the history of the two provinces can be fully told.

"Having disposed of most of the material immediately available in Halifax I went
"to Fredericton and addressed myself to the difficult task of examining the historical
"documents in the possession of the Provincial Government. Unlike Nova Scotia, the
"Province of New Brunswick has never made any systematic attempt to take care of
"its Archives, so that my work not only included examining them but discovering their
"whereabouts.

"Up to the year 1784 when it became a separate province the history of New
"Brunswick is included in that of Nova Scotia, but as the French claimed that the
"limits of Acadia as surrendered by the Treaty of Utrecht, were confined to the Penin-
"sula of Nova Scotia, they continued to hold a more or less efficient possession of the
"territory of New Brunswick until the fall of Quebec. Therefore many of the records
"connected with the territory now known as New Brunswick are to be found in the
"French documents relating to Quebec and Cape Breton. It was to New Brunswick
"that many of the Acadian refugees fled after the expulsion of 1755, and more than
"80,000 of their descendants live in the province to-day.

"About half a century ago three volumes of French documents relating to the
"early history of the province were obtained from Quebec, being transcripts of docu-
"ments in the Bureau of Marine in Paris. Of these I have made a complete list or
"calendar. Since then hardly anything has been done in the way of preserving the
"Archives of the Province, some portions of which are allowed to remain in private
"hands for months and even years at a time. In 1902 and 1903 I made an index of
"the Legislative papers of the Province from the meeting of the first Legislature in
"1786 down to the year 1858. This index fills two large volumes and by means of it
"reference can be had to any papers between these dates. The papers themselves are
"kept in cabinets in a large vault, safe from fire and properly arranged. Previous to
"this time a Mr. Miner had collected and put in order a number of papers which were
"in the garrets of the Departmental Building and these, with the permission of the
"Government, I have brought down to a room, in the Parliament Building where they
"are accessible, and I have also made a list of them. These papers relate to the offices
"of the Provincial Secretary, Board of Works, and Surveyor General and many of them
"are of great importance. The papers of the Executive Council were also kept in the
"garret of the Provincial Secretary's office, but have been removed by the Clerk of the
"Executive Council to a more suitable location and are being properly catalogued.

"These papers, of course, contain the inner history of the Province and supplement
"the minutes of the Executive Council, which in some cases are quite full and in others
"very meagre. The Legislative papers and the papers of the Executive Council must
"be read together for the purpose of reaching a proper understanding of the facts of any
"case which came before the House of Assembly. For instance at the first election
"which was held in 1785, in the city of St. John, there were two sets of candidates, the
"nominees of the more aristocratic element and those of the democracy. As no legis-
"lative enactment fixing the qualifications of a voter was in existence, the Governor in
"Council dealt with that matter and gave a vote to all persons who had resided for
"three months in the province. At the close of the poll it was found that the Demo-
"cratic candidates had a large majority of the votes cast. A scrutiny was immediately
"demanded and was held by the Sheriff, Mr. Oliver, who struck off 180 votes from each
"of the six men who had a majority of the votes cast and declared the nominees of the
"aristocratic element elected. As the men whose votes were objected to and struck off
"had been residents as long as the others, the whole affair looks like a high handed out-
"rage. The defeated candidates petitioned the Legislature for redress but received
"none, the technical ground being raised that they should have objected to the proceed-
"ings of the Sheriff. The Legislative papers give the petitions, but on reference to the
"Executive Council papers the whole story is made more clear, because there are to be
"found the various documents that passed between the Sheriff and the candidates
"reciting the facts, and also the statement of the Sheriff thereon. The sequel to this

"extraordinary proceeding was singular enough. The Legislature, determined not to be "annoyed by any more petitions, passed an act making it a criminal offence to present "a petition asking for any change in the government or the settled order of things, "unless approved of by the Grand Jury at the Quarter Session or by three or more "magistrates. It would seem from this that election frauds are not a modern invention, "but flourished in full vigor in the eighteenth century and among a people whom we "have sometimes been taught to regard as examples to be followed.

"With reference to my work in Fredericton, which is now practically completed, I "may say in a general way that I have made lists of all documents that I have been "able to reach and had them placed in such a position that they will be available for "the students of Canadian history. Nor am I without hope that the Provincial govern- "ment may at some not distant day establish a department of Archives and gather all "these precious documents together in some building where they will be safe from fire "and be properly cared for.

"The work that remains to be done in the Maritime Provinces is to obtain a list of "the historical documents possessed by the Government of Prince Edward Island, and "to visit each county seat for the purpose of obtaining the details of the historical material "there. Add to this the discovery of documents in private hands, the examination of "Church registers and the copying of inscriptions on ancient tombs where they relate to "the leading incidents of a man's life and enough will have been said to show that there "is still much work to be accomplished before our records will be complete."

An examination of the archives has been commenced in Western Canada by Mr. Laidlaw, a member of our staff, with the able assistance of Dr. Bain of the Toronto Public Library. It is desirable however, that more extensive operations should be conducted in every part of the Dominion, because this enquiry has the effect of directing attention to the importance of preserving both public and private records.

The number of historical enquirers is increasing; and it may be that we are beginning to feel the influence of the activity manifest by the people of the United States in everything which concerns their history—a history which for many years runs parallel with our own. Or, possibly, we may trace the revival of interest in our midst to the more ample leisure many now enjoy as a result of the general prosperity of the country. To whatever cause we attribute the movement, it is evident that there is a taste for a higher order of historical literature, and that scholars are turning their attention towards the construction of history on scientific principles. This is a most hopeful sign. But, before our students can reap the full advantage of the splendid heritage bequeathed to them by departed centuries, a great work has to be undertaken by the State, the magnitude of which is not at present realized. The volumes on our shelves, accessible to the public, are inadequate, either for the purposes of general history or of constitutional archaeology, not only in number, but in the nature of their contents. It has been our custom to pay little attention to documents that do not relate to matters within our present territorial limits. We cannot, however, treat Canada merely from the standpoint of the local historian. The scope of our research needs to be enlarged so as to bring together all the records illustrating every phase of our history. We find little in our Archives concerning the remarkable growth of the colonies, which at length provoked the jealousy of the two leading powers in Europe, and brought about the colonial struggle between England and France; and yet this period is of absorbing interest, and it affected our national development long before the history of the United States had a coherence of its own.

It is true that the archives of various countries have been only partially explored on our behalf, even within the limitations I have mentioned. There is, possibly, a

still richer field in which we have scarcely commenced to work. Under the French régime and under the English domination, we find a long list of illustrious persons whose careers were intimately bound up with Canada. In the hands of the descendants of many of these families there are priceless treasures, which must find a place in our archives before we are in a position to offer to our students the material for a comprehensive history. Some progress has been made during the past year towards collecting records of this nature. A few months ago an examination was made by Mr. Biggar of the Selkirk collection in Scotland, and over three thousand private papers were found which throw a flood of light on the state of Canadian society between 1810 and 1830. The Durham papers, which, no doubt, will prove of special value, have been placed at our disposal for transcription, and the present Earl of Durham has generously offered to present some original documents to the Archives Branch. Two other important collections, the Townshend and Chatham papers, have also been removed to the Public Record Office in London, in order that they may be examined by our representatives, and some originals were sent from the Archives of the Department of Finistère to Paris to facilitate our work.

These are instances of what may be brought to light by research ; but the efforts that we are able to put forth in this direction are not in accordance with our requirements. To carry out an extensive scheme for the collection of Canadian archives would seem to be a noble and patriotic work, well worthy of the serious consideration of the Government and of the members of both Houses. The adoption of such a plan would involve an increased expenditure for a time, but the outlay would be trifling compared with the advantages, immediate and future, to be derived therefrom. I think therefore that it should be our desire and our duty to gather the material for the student which will enable him to trace the progress of the centuries ; to record the trials we have undergone and the triumphs we have achieved ; to bring out in relief the characters and passions which the ages have developed; to mark the institution of reforms and the exercise of energies, and to distinguish the opposing elements through which we have struggled towards political freedom. It may be argued that there is no undue haste for the acquisition of these records, since the sources may be available to us in years to come. We should not, however, overlook the fact that fire annually consumes countless records, and that many of them have already suffered from damp and other agencies. But the strongest plea that can be urged for immediate action is, that students in Canada are at a disadvantage when compared with the students of Europe or the United States. In England, from time to time, Select Committees of the House have been charged with an investigation of everything concerning the preservation and publication of archives. After enquiries lasting for months, and taking the evidence of scholars and experts, the Committees have reported that the Public Records afford the most pure and ample sources of history, the best evidence of the progress of civilization, of the growth of institutions, and of the manners and customs of the country. They have also urged the necessity of increasing the knowledge of archives and of extending access to them. As a result of these investigations, students have the privilege of consulting the magnificent series of State Papers published by authority, and also the exceedingly useful volumes published by the Historical Manuscripts Commission, to which additions are made annually. The publication of these, and similar papers, has led to the revision of much of the history of England.

In the course of an examination by a Select Committee of the British House of Commons many years ago, the chairman put the following question to a well known author, "Do you think that owing to those causes a work so inaccurate as Hume's "History of England, would find the currency in the present day that it did at the "time it was published?" The answer given, was:—"I do not think it would. I wish "to speak with the highest respect of Robertson and Hume, two most eminent men. I "have heard that the demand for their works is much diminished, and I believe the fact "is so, but I think that it is to be ascribed, not to there being no demand for higher "historical literature, but to these authors not having gone to the best sources from "which historical truth was to be drawn: these sources were not opened to them, at "least not so open that they could easily consult them, and therefore I do not mean to "say, they are to be blamed. Hume, I have heard, was shown the stores in the State "paper Office, or some other of the great Record Offices after he had gained a great "reputation by the publication of his first volumes. He was in London, and about to "continue his work, but his time was limited; he looked on the uncatalogued array of "manuscripts in despair and contented himself with those printed materials which were "accessible."

In most instances, I suppose, we derive our knowledge of the past through the medium of printed books; but if the books were written with an imperfect knowledge of the facts, we are, of course, only imperfectly informed of what has gone before. It is no longer possible to leave research entirely in the hands of the individual, since this task has for a long time been accepted by great countries as the duty of the State. In France and the United States large series of papers are published annually which aid the cause of historical literature. The Provinical Governments have from time to time printed valuable collections of papers. In the Dominion Archives, to which students should naturally turn, we have only calendars, many of which refer to papers not yet transcribed. These volumes are undoubtedly useful, although the student has often to seek abroad for what he might reasonably suppose would be found in our custody. Our literary men, for the most part, are able to devote only a portion of their time to building up a national literature, and the least that we should do is to furnish them with documents of a public character. In the Archives building there are about four thousand volumes of manuscripts, originals and transcripts, and when the papers now deposited in various buildings are arranged, there will be probably ten thousand volumes. Of these ten thousand volumes there will not be possibly more than five hundred which relate exclusively to the French régime. In my previous report I have referred to what I consider the mistaken policy of expending large sums on the preparation of calendars abroad. The persons directing our copying in foreign countries are capable of determining what papers are of interest to Canada; and moreover the calendars which we now possess of French documents, do not exhaust the papers of value to us, in the volumes from which they have been drawn. In calendars published twenty years ago papers have been referred to which have not yet been copied. When we have transcribed the whole of the documents, not selections, from any given collection relating to Canada, a summary can be prepared for publication much more expeditiously from fair copies here, than from the originals, which are often difficult to decipher. There is now an accumulation of documents to be copied in France, a large portion of which were calendared years ago. I therefore beg to suggest that means be provided to increase our work in this respect. In the city of Quebec, in Three Rivers

and in Montreal there are collections of papers which should be transcribed. For one hundred and fifty years our history is French, and it is only reasonable that English and French students should seek the fullest information in the Dominion archives concerning this period. The seventeeth century is, indeed, the spring time of our history. It concerns an age when old world customs and institutions were transplanted to these shores; and since the proportion of our records concerning the English domination is so overwhelmingly large, I trust that special consideration may be given to my suggestions. By a systematic effort, and a liberal expenditure for one year, valuable additions might be made to our French Records. In the collection, preservation, and classification of archives we are achieving something beyond meeting the demands of historical inquirers. These records are of benefit to the whole community. In the administration of Justice; in the determination of civil rights; plans and papers from our archives are frequently indispensable.

In a country of such vast proportions as Canada, it is not possible to render the accumulations of the Archives Department accessible to all those who are, or who might be interested in them. It is desirable, therefore, to bring some of the representative documents bearing on the more important periods and problems of our history, within the reach of the rapidly increasing number of both Canadians and others who are manifesting an interest in our history and institutions.

The first volume prepared for this purpose contains documents relating to the Constitutional History of Canada, from the Cession to the Constitutional Act of 1791.

The documents though arranged as nearly as possible in chronological order, may be classified under three groups.

I. Purely formal or legal documents, such as terms of capitulation, treaties, proclamations, ordinances, and Imperial statutes, establishing or amending the constitution of the country.

II. Documents expressing the wishes and aspirations of the inhabitants of the country as to their future government; as also those discussing, shaping or setting forth the policy of Britain with reference to the government of Canada. These include petitions from the various classes and interests among the inhabitants of the country, reports from Governors, and declarations of policy on the part of the Home Government.

III. Special Reports of an official nature, setting forth the actual condition of the country in its various interests, as a basis of information for those shaping the colonial policy and framing constitutional measures for the government of Canada.

Several of the documents included are, of course, already in print, though not always in authentic form and some in such rare issues as to be found in only a few libraries. In all cases care has been taken to furnish accurate copies of the documents in their original form.

Certain parts of some of the treaties, reports, &c., have only an indirect bearing on constitutional questions; but it is considered advisable to give the documents in full, rather than to mar their completeness by presenting the essential portions only, in the form of extracts.

These original sources, it is hoped, will furnish the more essential materials, not only for determining the actual constitution under which Canada was governed, but for arriving at an independent judgment as to the various sources of interest and policy, which gave to that constitution the shape which it actually took, as well as for estimat-

ing the validity and expediency of alternative proposals which were discarded in adopting the course which was ultimately followed.

Foot-notes have been furnished as to necessary matters of facts connected with persons, places or events, and also giving references to further sources of information, but no attempt has been made to interpret any of the documents. The index which has been prepared, will, it is hoped, increase the value of this volume.

My own contribution to this useful work is very slight, I have merely collected and collated the documents, prepared the index, and made suggestions as to the method of arrangement. The editing of the volume, the valuable introduction and the notes, are the work of Professor Adam Shortt, M.A., F.R.S.C., of Queen's University.

The hearty co-operation accorded to the Archives Branch during the past year by scholars in the Dominion and the United States, will, I trust, extend to an organized co-operation in all parts where materials for history are to be found. There is evidently a desire for the exchange of information upon a reciprocal basis for the advancement of historical knowledge, and if this spirit is fostered, Canadian literature will benefit thereby, and expense will be saved to the country. During my visit to the South and Mexico I found the authorities of the Universities and of Historical Societies, eager to give access to the Canadian records they possess, in return for information we may be able to offer them concerning their own special field of enquiry.

The summary here printed has been prepared by the Rev. P. M. O'Leary. The report refers only to a small portion of the papers I met with during the short time I was able to devote to this work. It is sufficient, however, to warrant future excursions in search of records. For access to the Kaskaskia papers I am indebted to Professor Alvord, of Urbana. Records of Kaskaskia and of Cahokia have been found from time to time in different places, but a large portion was believed generally to have been lost. The story of the re-discovery of these documents by Professor Alvord, is here given in his own words, forming part of an address delivered before the Illinois State Historical Society, a few months ago :

"It is as an agent of the Illinois State Historical Library that I am here this "morning to make a report, containing an announcement of interest and importance to "students of the history of the Northwest, and particularly of that of Illinois. The "Kaskaskia records long supposed to have been destroyed have been found.

"Found is perhaps too strong a word, for they never were lost, but the tradition "of their total destruction has been given such wide currency by Mr. E. G. Mason in "his publications on "John Todd" and John Todd's Record Book," and so deservedly "high has been the estimate placed on his historical statements, that for all practical "purposes they were lost.

"Last summer the trustees of the State Historical Library sent me into Southern "Illinois to spend a month searching for historical materials. Much of interest was "found, but the recovery of these supposedly destroyed Kaskaskia papers was the most "unexpected and important find. Some information had reached me, before setting "out, that my search in Chester would not be unrewarded, for I learned from several "sources that record books and papers dating from the eighteenth century were in the "office of the circuit clerk, and I cherished the hope that where some were, others "might not be far off.

"My task was far easier than I could have anticipated. After looking over three "old French record books, which were in plain sight on the shelves, search was made "for further papers. No occult science was required. On top of the cases in the cir-"cuit clerk's office, behind a cornice which surmounts them, were found three large "sacks and four paper packages full of old papers. Upon investigation half of them

"proved to be French records written during the years 1720 and 1790. These number "2,950, according to the count of the committee appointed by the commissioners of "Randolph county to make an inventory of the documents before sending them to the "University of Illinois for my further study. Since many of the documents contain "enclosures, not counted by the committee, their number is probably nearer 3,500.

"Since the seat of government in Illinois was removed in 1772 by the British com- "mandant from Fort de Chartres to Kaskaskia, at which time the archives were "removed, we have in this collection papers drawn up both at the fort and at Kaskas- "kia. From 1772 until the year 1848 these papers remained in the latter town, when "they were removed to Chester, that city having become the county seat of Randolph "county. For many years the older papers, including the French ones, remained in the "dry goods boxes in which they had been brought from Kaskaskia. They stood for "about ten years in an aisle of the court house and then were placed upon the landing "place of the staircase. Here they remained until about the year 1878, when the "deputy circuit clerk tied them in the packages and placed them where they were found "last summer. This disposal of the old French documents was soon forgotten, for when "Mr. Mason appeared in Chester the next year, he was informed that all had been "destroyed except the record book of John Todd, which, he says, was found in a recep- "tacle for fuel in the county clerk's office.

"You will naturally be interested in learning what proportion of the old Kaskas- "kia records have been preserved. For making such an estimate there exists data of "two kinds, neither of which will give exact results, but which will yield us some idea "how great the loss has been. There is in "Record A" of the Recorder's office in Belle- "ville a copy of a receipt given by the first territorial recorder of St. Clair County, "William St. Clair, to François Charbonneaux of the Virginia Court of Kaskaskia for "documents deposited by the latter in the archives of the recorder of the newly founded "territory. The receipt is dated at Kaskaskia, June 12, 1790. In it St. Clair describes "six record books all of them more or less mutilated and four bundles of papers entitled "" Papier Terrier" and 1,308 bills of sale.

"Unfortunately St. Clair limited himself to the external description of the record "books without describing their contents. At Chester there were found three registers, "but, since hard usage during the last century has left the books in a worse condition "than when delivered to the United States Government, I have been able to identify "only one among those described by St. Clair. Whether the other two are remains of "the books of his receipts I have no means of telling. Of the four bundles of "Papier "Terrier," which were lists of the land holdings on the royal domain drawn up in the "fourth decade of the eighteenth century, only a few sheets have been preserved. "Judging from the number of sales in the collection it is probable that very few have "been lost.

"The second date made it possible to estimate the number of documents that were "originally deposited in the archives of Illinois during the eighteenth century, from "which we may judge what proportion has been preserved. One of the books of record "found in Chester is a series of indices of notarial acts drawn up at different periods. "The earliest list is alphabetical and covers the years from 1720 to 1756: but since, "many pages have been lost from the indices of the earliest notaries in Illinois, we "must base our estimate upon that of Barrois for the years 1737 to 1756, which has "been preserved in its entirety. He has indexed for these years 2,089 instruments, "either redacted by himself or deposited in his bureau by others. This gives an aver- "age of 106 a year. Since very few acts were drawn up in 1720 and 1721, I shall "reckon from the year 1722. If the average of 106 was maintained from 1722 to 1790 "there were 7,208 notarial acts redacted during those years.

"Two serious objections may be made to this estimate. The years from 1737 to "1756 were the most prosperous in the history of the eighteenth century, so that such a "high average for this kind of act could not have been maintained throughout the "period. The second objection is that the index includes only notarial acts and leaves "out court records, depositions, papers drawn up by other officials, letters of instruc- "tion, official correspondence, etc. Possibly these two errors may approximately offset "each other, but I believe my total is too small, rather than the reverse.

"Another part of the index is of somewhat different character, for it contains a "list of papers received by the clerk of the court, arranged by years. In this case the "clerk has not separated his duties as notary and clerk, so that the index includes "papers of all kinds. Only a few years of the record have been preserved; but since "these represent different periods, we have data up on which to base an average. By "years the number of acts is: 1737, 180 acts; 1752, 105 acts; 1758, 72 acts; 1783, "85 acts; 1794, 82 acts. This gives an average of 105 acts each year, which is only "one less than obtained from the other data. Since this number does not include the "official correspondence of commandants and judges, or military papers of any kind, or "all the documents drawn up by the numerous officials of the governments, we must con- "clude that our estimate is too low, and that the total number was over 8,000. Since "the papers discovered in Chester will not exceed 3,500, between 50 and 60 per cent, "of the Kaskaskia papers have been lost.

"Although I have not as yet made a careful study of these papers, it is possible to "indicate their character. The great majority of them are notarial minutes of instru- "ments drawn up in Fort de Chartres or Kaskaskia. They are almost all in the French "language and follow the formulæ of the French law. The royal French notary was a "far more important official than the notary public of English law, for his acts had all "the legal force of a judgment of an American Court. In all affairs of life he was as "frequently present as the parish priest. He, in fact, plays the counterpart in civil "life to that of the priest in ecclesiastical. Like the latter he participates in marriages "and is found almost as frequently at the side of the dying. His assistance is required "at the formation of partnerships, at the loan of money, at the return of the same, for "drawing up leases, at the settlement of estates, at the taking of inventories, at auctions, "at all contracts whether for the delivery of goods or for labour, and this last includes "apprenticeship. Thus his points of contact with the business and social communities, "in which he moved, were almost limitless, and his was one of the most familiar figures "in any French town or village. In the Kaskaskia collection are examples of almost "every kind of act redacted by these officials.

"No great addition to the sum of our knowledge of Illinois history has been made "by the finding of hundreds of such documents as these. Relatively little is to be made "out of their tiresome repetition of 'Before the royal notary in the Illinois.' Still "they are not to be neglected for careful study will reveal much. Their information in "regard to family histories, to business methods, about the whole business and social "life of these Frenchmen is by no means small.

"The notarial instruments, although the most numerous, are by no means the most "important. The palm must be given to the court records, whether in books or loose "papers. With the aid of these, and they are fortunately numerous, may be traced the "changing forms of government in this region as has never been done up to this time. "Among the papers are many petitions for justice and for the assignment of land dating "from all periods of the eighteenth century. Also depositions before various magist- "rates, reports of trials and the final executions of the decisions of the court are not "lacking. There are twenty pages of a record of the sessions of the court under the "French regime, very fragmentary in character, for so many pages have been lost. The "first record is of a Session in the year 1737, the last in 1765. For the English period "there is no similar document, for whatever court records had been spared by time were "carried years ago to the Wisconsin Historical Library. There is evidence that the "Virginia court founded by John Todd at Kaskaskia found difficulty in supplying its "clerk with blank books, for the records of the sessions of the court are found scattered "on loose sheets, and the blank pages of registers kept by previous clerks; but there is "nothing among the Kaskaskia papers for the Virginia period comparable to the full "record of the Cahokia court preserved at Belleville.

"Another class of papers corresponds to the books kept by our recorders. They "contain the registry of promissory notes, donations, agreements of all kinds, occasion- "ally an ordinance or proclamation, letters of instruction, and action taken by the com- "munity. For the French period there is a record book in which were kept the registry

"of the appointment of guardians for minors and of the renunciation of community of "goods by wives or widows. The book contains 68 pages, but only 32 were used by the "French court, the remaining being utilised by a clerk of the Virginia court as a "record of deeds. The best preserved of this class of books is the one kept during the "English period. There were originally 444 pages in it, but 41 are now missing. It "contains copies of many documents of the previous periods, as well as newly redacted "acts. Some of these latter are in English but most of them are in French.

"Still another class of papers is formed by letters, generally written to the magis- "trates in reference to legal matters, but they are not all of this character. The num- "ber from the French period is very small, from the British much larger and the same "is true of the latter period. There are several letters from the Spanish commandant "in St. Louis to the British commander and later to the Virginia Justices of the "Peace.

"The last class of documents can only be called miscellaneous. It is impossible to "make any general statement in regard to their general character; but some of them are "the most interesting and valuable papers of the collection. I call your attention to "the earliest election returns in the Northwest. It is the announcement of the election "of two justices of the peace in May, 1779, at Prairie du Rocher. Another is a com- "bined voting list and ballot used in the election of 1781 at Kaskaskia. There were 16 "candidates and 27 voters. There is also the paper containing the oath taken by the "people of Vincennes on July the 24th, 1778, renouncing their allegiance to George the "Third and taking oath to Virginia. 183 signed this paper, the great majority of them "making their mark. A paper from the British period is perhaps the most interesting "of all for it is a draft of a civil government for Illinois with certain popular elements. "The paper has neither date, place nor signature, but evidently emanated from the "military government about the year 1775.

"From the description you see that the papers are for the most part private papers, "such as contracts, deeds, etc., with a large number of court documents of all kinds and "with a smaller number of documents issuing from the administrative officers of the "Government. To the layman such a collection might well appear as curious but hardly "of much historical value. But the historian sees in them valuable monuments of the "past, true remains of a past society. From these may be reconstructed the political, "social and economic structure of the community from which they have come. They "are for him what the footprints and bones of extinct animals in the strata of the rocks "are to the paleontologist. From the Kaskaskia papers, therefore, we may hope to "follow the changing fate of these French settlements of the Mississippi valley year by "year, as has never been done up to the present time.

"Such are the Kaskaskia papers. Their recovery must be regarded as an import- "ant event in the history of Illinois historical studies, since they throw light on every "period of the eighteenth century. But their importance must not be exaggerated, "interesting as they are as records of a romantic period of our past; for in reading the "crabbed hand-writing of these earliest documents of the northwest, the historian can- "not but feel that his enthusiasm is akin to that of the antiquarian, for from these "French settlers did not spring the forces that have made Illinois one of the great "states of our Union. Our true history begins with the coming of the Virginians, and "in so far as the Kaskaskia papers shed light on that event, they are of great historical "value. Only incidentally are the events connected with the names of Boisbriant, D' "Artaguiette and Delaloere Flancour of interest to the historian, his interest springing "from the love of truth and accuracy and his desire to know exactly what did occur "before the coming of the builders of the State; but as soon as he reads in these papers "the names of Thomas Brady, of John Edgar and of Shadrach Bond, he realizes that "now he is studying live forces incarnated in the men who have assisted in the winning "of the west."

PAPERS IN THE POSSESSION OF MR. C. M. BURTON, OF DETROIT.

In an appendix to this Calendar the full text of certain documents has been printed with the permission of Mr. Burton.

This collection is of special local interest. It consists of originals and copies, letters, letter books, diaries, military orders and order books, Indian and French deeds and contracts covering more than two centuries in the history of Michigan and the Lake Region.

The Cadillac papers (1669-1745) are copied from the Archives in Paris and relate to affairs connected with the early history of Detroit, missions among the Indians, wars and English troubles, &c., &c. These papers are now being published in the Michigan Historical and Pioneer Society's Transactions Vols. 33 and 34.

The Montreal papers which are copied from the records of notaries and courts in Montreal from 1682-1804 are accounts of agreements made with soldiers, interpreters, traders and merchants to go into the land of the Indian, establishing trading posts and missions, strengthening those already there and later representing mercantile firms of Montreal and Detroit. Some of these papers relate to Cadillac.

Next in importance and historical sequence are copies of the Records of St. Ann's Catholic Church, the first mission established in Detroit and still in existence and of the Church of the Assumption, a Huron Mission established on the Canadian side of the Detroit river. These records (20 vols.) cover the period from 1704 to 1842, giving dates of baptisms, marriages and burials of French Catholics and converted Indians.

Following these come the original letters, papers, &c., belonging to several of the oldest French and English families in this part of the country. Among these are the Askin papers, containing the correspondence of two generations, accounts of fur

trade, Indian troubles and land dealings. John Askin was a resident of Sandwich township, Province of Ontario, a merchant and fur trader. He served in the British Army but was retired when the war of 1812 broke out. He proudly boasts in one of his letters that he has four sons, ten grandsons and three sons-in-law in actual service, but he does not say that some of them were on the American side. He married into one of the old French families at Detroit and his papers and diaries give a curious picture of French, English and American interests from the standpoint of an Englishman and British subject. Alexander Henry, the explorer, was a personal friend of his and they carried on a lively correspondence. He was closely related, in affairs of real estate, with Isaac Todd and James McGill, founder of McGill University, Montreal. Many prominent names appear in this collection: Arent Schuyler de Peyster, Jonathan Schiefferlin, Wm. Dummer Powell, Arthur St. Clair, George Washington, James Wilkinson, William H. Harrison, Jos. Brant, the Indian, and Leisberger and Heckerwelder, Moravian Missionaries.

The Williams papers contain interesting material on the war of 1812 and the Black Hawk War, both of which, together with the Askin papers on the War of 1812, have been published in the Michigan Pioneer Collection.

John R. Williams was born in Detroit in 1782 and died in 1854. He prepared the first charter of the city and was its first Mayor. He was interested in military affairs, real estate, trade, &c., and held a social position among the first families. His papers are most valuable in connection with the industrial and social growth of Detroit, and among them are found such interesting names as Lewis Cass, Chas. J. Lanman, Charles Larned, Judge James and B. F. H. Witherell, Abraham Edwards, Austin E, Wing, Gabriel Richards, Henry Rowe Schoolcraft, Solomon Van Rensselaer of N. Y, and Elias Boudinot.

The Woodbridge papers are the letters, law briefs, account books, &c. of William Woodbridge, Governor of Michigan, 1840-41. They extend through his college days at Litchfield, &c, his law career in Ohio where he was admitted to the bar in 1806, his appointment as secretary of the Territory of Michigan in 1814, up to the time of his death in 1861. He married Juliana Trumbull, daughter of Judge Jonathan Trumbull of Connecticut, author of McFingal, and a number of Mr. Trumbull's papers and unpublished stories are also found in this collection. His accounts kept while collector of Customs, his papers while he was superintendent of Indian affairs are of interest and value to the student of the political growth of Michigan. His close association with Lewis Cass is shown by their extensive correspondence. Among these papers are found some of the most interesting letters in the whole collection, from William Hull, R. J. Meigs of the war of 1812, James Madison, James Monroe, John Adams, John Quincy Adams, Gabriel Duval, Sam'l. P. Hildreth, Albert Gallatin, Gen. Nathaniel Greene, Harman Blennerhasset and many others.

The papers of James Abbott, first postmaster, of Detroit, of Ferdinard C. Rivard, of Denis and Theo. Campeau, a few scattered Beaubien, Godfroy Piquette and Bisselle papers give an interesting picture of the old French families and the early French church.

A collection, mostly of law briefs, is that of Halmer H. Emmons and his partners A. Emmons, James A. Vandyke and Ebenezer Harrington. Mr. Emmons practiced law in Detroit from 1840 to 1877 and was appointed judge of the U. S. Circuit Court of Michigan in 1870. He was attorney for several railroads and settled a number of

interesting real estate questions. These papers are of interest in studying the political questions of that period of Michigan history.

The papers of Senator Jacob M. Howard who took an active part in the "Toledo War" and of Ross Wilkins, Federal Judge of the Territory of Michigan, are full of social and political interest between the dates 1832-1870.

A copy of the Records of the Supreme Court of the Territory of Michigan, 1805-1814 and minutes of the meetings of the Board of Trustees of the Corporation of the town of Detroit, 1803-1804, in the quant hand of Peter Audrain, Clerk of the Supreme Court of the Territory : copies of the Papers and Records of the Territory, North-west of the Ohio River, from 1790-1813 the originals of which are in Washington D.C., all are of great value in the study of the early political situation in the North-west.

Besides these documents of purely local interest, the collection contains original letters from General Wayne and General Wilkinson to Qrtr. Mr. Gen. John Wilkins 1796-1798 which will soon be published in the Michigan Pioneer collection : a copy of the "Orderly Books of Anthony Wayne and Gen. Wilkinson 1792-1797;" Brig. Gen'l Winchester's original "General Order Book" in the war of 1812 (Sept. 12, 1812-Jan. 11th 1813) printed in the Pioneer Historical Society's Reports; the original "General Order Book" kept by Adj. Gen'l Ed. Baynes, a British Officer in the war of 1812, at Quebec, Fort George and Chambly; the original "Order Book" of Col. Prince in the Patriot War 1837; Copies of the life and letters of Jacob B. Varnum, nephew of James M. Varnum and many others.

The Cadillac papers—12 vols.—copied in their original from the Archives in Paris. They are of very great importance covering the period between 1669-1745. There are among them some documents of a still earlier period : one dated in 1646. This collection has been translated, also in 12 vols., and is being published in English, in the Michigan Pioneer and Historical Series. The Cadillac papers are composed mostly of official documents signed by many of the Governors and Intendants of New France, Frontenac, Beauharnois, Talon, &c., &c., also quite a number of very interesting letters bearing on the events of the period.

The "Montreal papers" 22 volumes 1682–1804.

The far greater part of this collection is taken up with bills of lading, invoices, deeds of sale, of partnership and engagement, official appointments, and occasionally personal correspondence. They have not the value of the Cadillac papers, though they give one a good insight into the trading in the far west at that time.

The Askin papers :—18 in 4 quarto Folios. They relate principally to matters of local interest, but contain a lot of private correspondence with people of distinction in Canada—James McGill, Todd, and others. A few documents here and there refer to Canadian matters, and so do quite a number of letters from his son Charles, serving during the war of 1812, in the operations along the frontier. These letters go into minute details of the several actions fought between the British and Americans, and are very interesting, gving, as they do, names of officers with their commands, numbers of troops engaged, killed, wounded, missing and prisoners taken on either side. Some of these letters have been published in the Michigan Pioneer and Historical Series.

Friday, 16th Oct. "Battle of Tuesday last ..... we took 800 prisoners, 65 of whom are officers, and we killed and wounded I think about 200 more. We took one of their standards also, and a six pounder. It would have been a great victory had we not lost our gallant General Brock, who was killed when animating the 49th Regt. and urging them to charge the enemy, who had just then taken our Battery on the Mountain. Soon after the General was killed, his Aid de Camp Col. McDonnell received a wound of which he died two days after. He was a very promising young man. Both he and the poor General were just now (buried) interred. The procession was grand; the Indians forming part of it.

We have had a cessation of hostilities for three days by agreement"....&c., &c.

Your faithful and affectionate son,

Askin, John Jr. Extracts from letter to his father dated from Michilimakinac, 19th July 1812.

My dear father,—Your favour of the 21st ult. reached me the 16th inst. About an hour before I left St. Joseph's with my detachment of Indians, composed of Ottawas and Chippewas, consisting of 280 men for the purpose of taking this place. We left St. Joseph's on the 16th at 10 o'clock A.M. with a fleet of 50 canoes 10 warriors in each, 12 barges with 200 Canadians, two iron six pounders and 40 men of the 10th R. V. Battalion, scaling ladders, ammunition, &c., &c.

The element was propitious to our undertakings. Having the command of the left wing, I landed one hour before day break in the rear of the Island and formed at day break. The centre composed of the Canadians and veterans landed and formed, so did the Right wing. Our ordinance was landed and dragg'd with velosity (!) thro woods, swamps, hills, and at 10 o'clock our six pounder was erected and placed on a rising ground which had the entire command of the Fort. The Right wing composed of 103 Sioux, Folavoines & Waynebegos commanded by Mr. Dixon was formed in order, mine was composed of Ottawas & Chippewas, and about 50 men, who joined me at my taking position as ordered by our worthy Capt'n Roberts. The Indians were like devils to storm the place, they even advanced in spite of all my exertions & of six or seven interpreters & volunteers near the Fort Pickets and would have killed Capt. Hanks (I was told) had they not been prevented, for he was within gun shot. At 10 o'clock a flag of truce was sent for the besieged to capitulate which they did, and at 11 o'clock the Fort was put in possession. Previous to the capitulation, Mr. Abbot Howard, Stone Jones & all the citizens of the U.S gave themselves up prisoners of war; the vessels in port were likewise given up. The commanding officer has since the capitulation given up all private property:—the officers and men to be sent down on parole until exchanged. The Fort is a beautiful place and what does honour to those who had the command, is that not a single person has been injured nor a single fowl killed, belonging to any person whatever. Happy thing for the Americans that they did not fire a shot, for, had they fired and wounded any person, not a soul would have been saved from the Hatchet. I assure you I never saw so determined a set of people; they would not have spared man, woman or child. Johny was my right hand man and deserves credit for his exertions in preventing the Indians from committing improper acts. * *

Couillard, Guillaume—Petition addressed to M. de Montmagny, Governor of Canada, by Guillaume Couillard, praying that a family council be called to advise him as tutor to the minor children of the late Guillaume Hébert and Hélène Desportes, his widow, wife of Noël Morin.

A Monsieur le Gouverneur.

Supplie humblement Guillaume Couillard tuteur des enfants mineurs de feu Guillaume Hébert et d'Hélène Desportes sa veuve, à présent femme de Noël Morin, habitant de Québec, déclarant que le dit feu Hébert à laissé entre autres biens, aux dits mineurs un méchant corps de logis, les pans en bois, qui menace ruine. Et d'autant qu'il coûterait beaucoup plus qu'il ne vaut pour les réflections qu'il y conviendrait faire, étant besoin de la rebatir tout de nouveau, si l'on veut s'en servir ce qui n'apporterait aucun profit aux dit mineurs ; et même qu'il n'y a aucun fonds entre ses mains qui leur appartienne et dont il puis le faire batir. Ce considéré, il vous plaise ordonner que les parents des dits mineurs seront appelés devant vous pour donner avis au dit tuteur sur ce que dessus, et ferez bien.

Procès Verbal de l'assemblée dont il est question.

Aujourd'hui meme jour, le douz'm de Juin mil six cents quarante quatre, ont comparu devant nous, Guillaume Hubou, habitant de Québeq, à cause de Marie Rollet, sa femme, grand'mère des dits mineurs ; Noël Morin, habitant de Quebeq, à cause d'Helène Desportes sa femme, mère des dits mineurs, Olivier de Tardif, à cause de feu Louise Couillard, jadis sa femme, cousine des dits Mineurs, Réné Maheu, aussi habitant de Québeq, cousin des dits mineurs du coté paternel, Abraham Martin, à cause de Marguerite Langlois sa femme, tante maternelle des dits mineurs, Etienne Racine, à cause de Marguerite Martin, sa femme, cousine maternelle des dits mineurs, de feu Guillaume Hébert et d'Helène Desportes à présent femme du dit Noel Morin. Appellés à la requète de Guillaume Couillard

tuteur des dits mineurs, Lequel nous a demandé que les dits parents eussent à lui donner avis sur le contenu de la requete par lui à nous faite le douz'me du present mois et an ci-dessus.

Lesquels après serment que nous leur avons fait faire de donner l'avis qu'ils jugeront le meilleur pour le bien des dits Mineurs, ont tous unanimement reconnu la ruine imminente de la dite maison et qu'il n'y a aucune espérance de la faire rebatir pour le présent au point de l'utilité qu'en retireraient les dit mineurs, vu que celà est beaucoup éloigné de leur terre défrichée, et même que l'on ne peut faire bâtir en ce pays qu'avec de très grandes dépenses ; sont d'avis que le tuteur vende tant les dits bâtiments que la place où ils sont et (la) terre adjacente, qui ne pourrait monter en tout qu'à douze perches ou environ, pour employer les deniers qui en proviendront à faire défricher les terres à l'avantage des dit mineurs.

Ouy, lequel avis, nous avons ordonné, vu que le nombre des parents n'est pas suffisant, que le dit tuteur fera appeller d'autres parents ou des voisins et amis des dits mineurs et poura...présent ordonnons ce que dessus.

" boust, Ecuier, Sieur des Musseaux, tant en son nom comme héritier, que
" ce faisant et portant pour les cohéritiers en cas qu'il s'en présente, en la
" succession de défunct Messire Louis D'Ailleboust, Chevalier, seigneur de

" Boulougne, veuve du dit défunct, en son nom, tant à cause de la commu-
" nauté qui était entre le dit défunct et elle, que comme donataire mutuelle
" en usufruit des biens du dit défunct."

Résumé de la suite de ce document qui est très long.

Le Sieur des Musseaux demande la moitié des biens laissés par son père et que partage en soit fait entre la dite Ve D'Ailleboust et lui. En qu'en ce faisant elle lui rende compte du fruits perçus depuis le décès du dit Sr. Louis D'Ailleboust. Il prétend qu'elle n'a pas fait faire d'inventaire après la mort de M. D'Ailleboust. Ce qui a été cause de la perte de certaines sommes dues à la communauté par les habitants du pays, qu'elle aura même laissé dépérir les batiments de Coulonge et d'Argentenaye, quoiqu'elle fut obligée à leur entretien. De plus il réclame un certain montant—sa paye—pendant trois ans, dans un camp volant que le Sieur D'Ailleboust avait mis sur pied.

La veuve D'Ailleboust prétend que s'il y avait manqué de quelque formalité c'était dans l'appréhension de biens à elle laissés par son défunct mari, en vertu d'un acte notarié (1652), qu'elle a toujours agi de bonne foi et même a appelé le Sr. de Musseau en son conseil, comme il appert par l'inventaire fait devant Paul de Chomedy, Sieur de Maisonneuve, et par la sentence rendue en conséquence, le dit Sr. des Musseaux étant présent et ayant signé au bas de la dite sentence.—Suit la sentence—que quant à ce qui a éte allégué qu'on avait laissé dépérir les batiments de Coulonge et d'Argentenaye, il ne fallait pas lui attribuer la faute, mais aux batiments mêmes—d'autant plus que les incursions continuelles des Iroquois obligèrent le dit défunct et la dite dame de les abandonner. Qu'en 1664, le 29 Oct., elle avait donné ordre de démolir le grand Logis de Coulonges pour en faire un petit à loger le fermier ; ce qui fut fait qu'à Argentenaye. Elle en fit autant, 1664, 3 Dec.

Le conseil Jacques Perrot dit Vieildaigre, Pierre L'Oignon, Gabriel Gosselin et Guillaume Bauger dit Morency, tous le l'Ile d'Orléans. Néanmoins la dite Veuve consent à un partage réclamant cependant l'exécution de ses droits antérieurs à la mort de son mari, accordé par jugement de Jean Levasseur dit Lavigne, Greffier au Conseil Souverain, Jean Hamonet, témoin. Et outre cette offre du dit de La Salle de rembourser la somme de dix mille livres à laquelle

monte la dépense qui a été faite pour construire le Fort Frontenac, d'entretenir le dit fort en bon état et la garnison nécessaire pour la défence d'icelui, laquelle ne peut être moindre que celle du fort de Montréal ; d'entretenir vingt hommes pendant deux années pour le défrichement des terres qui leur seront concédées et en attendant qu'il ait fait bâtir une église, d'entretenir un prêtre ou religieux pour faire le service divin et administrer les sacrements, desquels entretiens et autres choses, le dit de La Salle fera seul les frais et dépens jusqu'à ce qu'il se soit établi au dessus du Long Sault, nommé Taran8oi, quelque particulier avec semblable concession, que celles qu'il demande. Auquel ceux qui auront obtenu les dites concessions seront tenus de contribuer aux dits entretiens, en proportion des terres qui leur seront concédées. Et ouy le rapport du Sieur Colbert, conseiller ordinaire au Conseil Royal et conseiller général des finances, Sa Majesté en son conseil a accepté et accepte les offres du dit Sieur de La Salle et en conséquence Sa Majesté lui accorde la propriété du dit Fort appellé de Frontenac et quatre lieues de pays adjacent, à compter deux mille toises pour chacune lieues le long des lacs et rivières au dessus et au dessous du dit Fort et d'une demie lieue ou mille toises au dedans des terres ; les îles nommées Gau8k8enon et les îles adjacentes, avec les droits de chasse et de pêche sur le dit Lac Ontario et rivières circonvoisines, le tout en titre de fief et en toute seigneurie et justice, à condition de faire passer incessamment en Canada, tous les effets qu'il a en ce royaume, qui ne pourront être moins que la somme de dix mille livres en argent ou effets, de rapporter certificat du Sieur comte de Frontenac, Lieutenant Général pour Sa Majesté au dit pays et rembourser la somme de dix mille livres pour la dépense faite pour la construction du dit Fort ; l'entretenir et le mettre en bon état de défense ; payer et soldoyer la garnison nécessaire pour la garde et défense d'icelui, laquelle ne peut être moindre que celle du Fort de Montréal ; comme aussi d entretenir vingt hommes, pendant deux années pour le défrichement des terres qui lui seront concédées, lesquels ne pourront être employés à autre usage pendant le dit terme:—de faire bâtir une église pendant les dix premières années de sa concession et en attendant d'y entretenir un prêtre ou religieux pour administrer les sacrements ; comme aussi d'y faire venir des sauvages, leur donner les habitations et y former des villages ensemble des français, auxquels il donnera part des dites terres ou des friches, toutes lesquelles terres seront défrichées et mises à valeur, dans le temps et espace de vingt années, à compter de la prochaine (1676). Le dit temps passé, Sa Majesté pourra disposer des terres qui n'auront point été défrichées ou mises en valeur.

Veut sa Majesté, que les appellation de justice qui seront établies par le dit de la Salle dans l'étendue des dits pays concédés par Sa Majesté, ressortent par devant le Lieutenant Général de Québec Et à cette fin, veut Sa Majesté que toutes lettres de dons et concessions nécessaires soient expédiées au dit de La Salle, ensemble celles du dit Gouvernement du Fort Frontenac, et des lettres de noblesse pour lui et sa postérité.

LaSalle, Robert Cavelier Sieur de—

Lettre patentes de noblesse.

Louis, par la grâce de Dieu, Roy de France et de Navarre, à tous, présente et à venir, Salut :

Notre cher et bien aimé Robert Cavelier Sieur de La Salle, nous a très humblement fait remontrer qu'il s'est habitué depuis quelques années dans le pays de la Nouvelle France, où il a fait passer une partie des effets qu'il avait en ce royaume et comme l'exposant pouvait augmenter son établisse-

ment en concédant des habitations dans le pays de la Nouvelle France, il nous a représenté qu'il s'y porterait volontiers s'il nous plaisait lui accorder des terres en titre de fief et de seigneurie et quelques autres avantages pour l'indemniser des dépenses qu'il sera obligé de faire pour le défrichement des terres. A ces causes, désirant et voulant contribuer de tout notre pouvoir à l'augmentation des colonies qui se sont établies en notre dit pays de la Nouvelle France, et traiter favorablement le dit Cavalier, nous lui avons fait et faisons don par ces présentes signées de notre main, des propriétés fonds et superficies du fort appellé de Frontenac, bâti sur le lac Ontario ou de Frontenac situé dans notre pays de la Nouvelle France, avec quatre lieues de pays, chacune lieue composée de deux milles toises, le long des lac et rivière, audessus et audessous du dit fort, et d'une demi lieue en dedans des terres, ensemble les îles Gau8k8enon et Ka8enego et islets adjacents avec le droit de chasse et de pêche.

Voulons et nous plait, que le dit Cavalier, ses hoirs, successeurs ou ayants cause jouissent en titre de fief, de tout droit et hommage ; que le dit Cavalier, ses hoirs, successeurs ou ayants cause seront tenus de nous rendre à chaque mutation, comme de tout relevant de nous et de notre couronne et de payer les droits et redevances accoutumés suivant la coutume de la Prévosté et vicomté de Paris et que les appellations au siège de la Seigneurie qui sera établie au dit Fort de Frontenac, ressortiront pardevant le Lieutenant Général à Québec.

Voulons aussi que le dit Cavalier soit et demeure pour nous, Gouverneur du dit Fort de Frontenac sous les ordres de Notre Lieutenant Général au dit pays de la Nouvelle France, et pour effet, que ces présentes lui serviront de toutes provisions à ce nécessaire. Et pour faire connaitre combien nous est agréable l'augmentation des colonies des dits pays, nous, en considérations des soins et dépenses que le dit Cavalier a fait et fera ci après, avons ici lui enobli et enoblissons, voulons à cette fin que toutes lettres de noblesse lui soient expédiées ; permettons néanmoins à tous les habitants des dits pays et autres qui s'y établiront ci-après de traiter avec les sauvages, en la manière accoutumée, suivant les règlements de police et arrêts de notre conseil de Québec. Sans que sous prétexte de la présente concession l'exposant puisse les en empêcher en quelque sorte et manière que ce soit. Laquelle concession nous avons Accordée au dit Cavalier, aux charges, clauses et conditions portées par l'arrêt de notre Conseil.

Donné, nous y étant, en date de ce jourd'hui attaché sous le contre scel de notre chancellerie.

Si, donnons en mandement à nos amis et féaux les gens tenant notre Conseil Souverain à Québec et autres nos justiciers et officiers à qui il appartiendra, que ces présentes de dons et concessions les aient à faire lire et enrégistrer, et du contenu en icelles faire jouir et user le dit Cavelier, ses hoirs, successeurs ou ayants cause, pleinement, paisiblement et perpétuellement, cessant et faisant cesser tout trouble et empêchement qui pourront leur être mis ou donnés au contraire :—car tel est notre plaisir, Et afin que le soit chose ferme et stable à toujours, nous avons fait mettre notre scel à les dites présentes.

Donné à Compiègne le treizième jour de May, l'an de grâce 1675, et de notre règne le trente troisième.

Par le Roy (Signé) LOUIS.

Concession de terres faite au Sieur Jacques Bourdon.

Robert Cavalier, Ecuier, Sieur de la Salle, seigneur et Gouverneur du Fort Frontenac en la Nouvelle France et du Fort St. Louis dans la Louisiane. * * * * *

Avons donné et concédé, donnons et concédons à Jacques Bourdon, Sieur d'Autray, seigneur d'Autray, en la Nouvelle France, en reconnaissance des services qu'il a rendus tant dans la construction du Fort St. Louis, où il a bien servi et s'est acquitté de son devoir avec honneur :— cent vingt six arpents de long à commencer au ruisseau au bord du quel nous avons hiverné en remontant le long de la rivière des Illinois, du coté du sud avec l'ile qui est au millieu de la dite Rivière des Illinois au dessus du premier écart du grand Rocher, que la rivière baigne du coté du Nord, environ une lieue au dessus du dit ruisseau, sur quarante deux arpents de profondeur allant du nord ouest et sud est, le tout à titre de fief et seigneurie avec droit de chasse et de pêche sur l'étendue de la dite terre et dans la rivière des l'Illinois devant la dite concession, sans pouvoir néanmoins traverser la dite rivière ou y faire aucune pêche à demeure qui peut incommoder la navigation ; mais seulement y tendre des lignes, filets et seines et sans pouvoir empêcher nous et nos successeurs non plus que ceux qui s'établiront vis-à-vis de lui de faire semblable pêche ou chasse et à nous tel que bon nous semblera, à la charge de foi et hommage qui y seront rendus par le dit Jacques Bourdon, sieur d'Autray, ses successeurs et ayant cause en notre Fort St Louis à Rochefort, comme les dites terres en relèvent, et de payer par chaque an, le jour et fête de St. Louis, la somme d'un denier de cens par chaque arpent et cinq sols de rente seigneuriale pour toute la dite terre et les droits de quint et requint à chaque mutation & autres quand le cas y écherra, selon la coutume des fiefs en la vicomté et prévosté de Paris,

qui sera suivi dans ce pays, comme aussi, seront tenus les habitants et autres à qui le dit Sieur d'Autray, ses successeurs et ayants cause donneront ci-après partie des terres à lui par nous concédés présentement, à titre de cens et rente seigneuriales ; cens, lods & ventes et autres droits quels qu'ils en soient, que le dit Sieur d'Autray, ses hoirs et ayants cause exigeront d'eux à raison des dites terres, et seront au guet et garde de guerre au dit Fort St. Louis, comme les habitants qui en relèvent immédiatement que s'il se fait une église à l'avenir sur l'étendue des dites terres pour être la paroisse des habitants qui y demeureront, le patronage nous en demeurera :—pour le dit Sieur d'Autray ses hoirs ou ayants cause, faire bâtir un moulin sur la dite terre pour son usage et (celui) de ses habitants seulement, lesquels pourront aussi moudre au nôtre quand il y en aura de bâti. Donnons au dit Sieur d'Autray et ses successeurs etc., les droits de colombier, de pressoir, de maison forte, de basse justice ; de conserver trois cents arpents en bois de haute futaie au lieu qu'il nous indiquera dans l'année, auquel l'on ne pourra toucher sans son consentement, sauf le droit à nous et à nos successeurs ou ayants cause, de prendre le bois dont nous aurions besoin pour bâtir es logis et autres bâtiments du dit Fort St. Louis seulement et non pour autre usage. Pourrons aussi prendre la pierre, ardoise et terre pour faire brique, tuiles, &c., dont nous aurions besoin et qui se trouveront dans les dites terres, pourvu qu'il ne soit point nécessaire pour les tirer de terre, de gâter celles qui en seront ensemencés ou plantées de fruitiers ou de haute futaie, ou les prendre dans l'enclos de ses bâtiments, ce qu"il ne sera obligé de souffrir.

Toutes les causes mues (?) en l'étendue des dites terres se plaideront devant le juge de la Seigneurie du Fort St. Louis.

Sera tenu souffrir les chemins et chantiers jugés nécessaires par nous et nos successeurs, pour la commodité publique, de même des égouts et déviations des eaux :—et que les bestiaux de nous et de nos successeurs aillent partie dans l'étendue des dites, terres, tandis qu'elles ne seront point ensemencées à la réserve de celles que lui et les habitants réserveront pour faire faucher et celles qui seront plantées ou environnées de clôtures : de plus, nonobstant le privilège que Sa Majesté nous a donné pour le commerce des peaux de bœufs sauvages, ou autres que nous pourrions prétendre, à raison des frais et dépenses que nous avons faits pour la dite découverte et jusqu'à la construction du dit fort St. Louis, nous consentons pour nous et nos successeurs que le dit Sieur d'Autray puisse commercer avec tous les sauvages qui seront établis dans les terres dépendantes du dit fort, à la charge de leur fournir les denrées dont ils auront besoin, pour cela, au magasin de la compagnie des Illinois, et d'y apporter toutes les pelleteries de quelque sorte qu'elles puissent être qui lui seront payées en denrées ou en argent, au prix qu'on conviendra, tous les deux ans, jusqu'à ce qu'il viennes des navires de la dite compagnie par le fleuve Colbert, auquel temps ils pourront aller porter leurs (denrées) ? chasses, au magasin qui sera établi au bas du dit fleuve, et y acheter ce qu'ils auront besoin et non ailleurs, à peine de déchoir de la présente concession ; à la charge, néanmoins que dans vingt ans la présent obligation de se fournir au dit magasin sera finie. De plus, nous avons concédé et concédons au dit Sieur d'Autray ses hoirs ou ayants cause, la quantité de vingts pieds de terre carrés dans le dit Fort St. Louis pour y bâtir une maison, à la charge de l'achever au plus tôt, d'y tenir feu et lieu et de nous payer pour icelle un sol de rente seigneuriale par chaque an et un dernier de cens ; et que lorsqu'on bâtira le bourg ailleurs, nous et nos successeurs pourront reprendre la dite terre et maison bâtie dessus en rendant au dit Sieur d'Autray et à ses quatre associés, savoir :—Nicolas Doyon, Pierre Prudhomme, André Héno et Jean Filiatrault, une pareille quantité de terre et une maison dessus, en l'état que sera celle qu'ils ont présentement bâtie dans le dit Fort, dans la place ou sera bâtie le dit bourg,

aux mêmes charges que celle qui leur est présentement accordée, toutes lesquelles terres et maisons demeurant au dit Sieur d'Autray, ses successeurs, ou ayants cause en pleine propriété et paisible jouissance sans pouvoir néanmoins les aliéner en quelque façon que ce puisse être, ni même les louer avant le terme de cinq années, si ce n'est à d'autres qui relèvent de notre dit Fort. En cas qu'ils la quittent, alienent ou louent à d'autres sans notre consentement par écrit, ils seron déchus de la présente concession et ne pourront rien prétendre à raison des travaux qu'ils y pourraient avoir faits. De plus, ne pourront à jamais, lui, ses associés ou ayants cause, vendre, louer, donner, céder, transporter, ni engager, à quelque titres que ce puissent être à gens de mainmorte, la dite maison ou les dites terres au partie d'icelles, à peine d'y rentrer de plein droit, par nous ou nos ayants cause sans rembourser aucun prix.

De quoi, tout ce que dessus, sommes convenus savoir :—nos dit Sieur de LaSalle et le dit Sieur d'Autray, en présence des témoins soussignés. De plus, convient le dit Sieur d'Autray qu'en cas qu'il quitte la dite succession avant trois années prochaines expirées, elle nous reviendra de plein droit sans que nous soyons tenus de payer les travaux qu'il aura faits dessus, la jouissance des fruits qu'il y aura recuellis passant pour les travaux, vue la grande facilité qu'il y a à cultiver les campagnes. De plus, sera tenu le dit Sieur d'Autray à faire le commerce avec les sauvages au dit Fort ou au lieu où sera bâtie à l'avenir l'habitation ; qui sera réglé sans pouvoir donner à l'envie (ennui) ? des autres à meilleur marché, ni appeller les sauvages chez lui, ni aller au devant de ceux qui seront habitués près du dit Fort.

Car ainsi sommes convenus au dit Fort St. Louis les jour et an que dessus, comme aussi que les mines, minières et mineraies qui s'y pourraient se trouver sur les dites terres, le dit Sieur d'Autray ses hoirs ou ayants cause ne pourront rien prétendre à notre préjudice et que nous y aurons le même droit qui si elles avaient été trouvées sur nos terres ou que si celles que je lui ai présentement concédées ne lui appartenaient point.

1683. 26 Avril. Avons ajouté cette clause au dit lieu, le vingt sixième Avril mil six cent quatre vingt trois.

La Salle, Robert Cavelier, Sr. de.

Lettre autographe datée de Chicagou le 1er Sept. 1683, lorsqu'il était sur le point de laisser le pays des Illinois pour la dernière fois pour rejoindre ses compagnons au fort St. Louis.

A Chicagou le 1er Sept. 1683.

Messieurs,—Je vous aurais écrit à tous séparément si j'avais eu le papier pour le faire, afin de vous remercier de la fermeté que vous montrez en ce rencontre. Vous me connaissez assez pour vous persuader que j'en serai reconnaissant. Je vous promets qu'après que j'aurai dissipé comme je l'espère, le petit orage, vous en recevrez des marques effectives. Je vous donnerai pendant deux ans les marchandises à la moitié du prix que je les ai promises, et vous ferai tous les avantages que je pourrai pour cette année. Je m'en tiendrai à ce que je vous avais promis, étant obligé de les acheter bien cher, mais les marchandises vous n'en manquerez certainement pas.

Rolland m'attend à Michillimakinac, avec une bonne cargaison, J'y emmène La Fontaine, Laviolette, le Sieur d'Autray et les deux Chaouenons, que je renverrai de là pour vous en apporter. Je mettrai pour cela le tout pour le tout et quand je devrai acheter un congé (?) je vous en enverrai le printemps. En attendant mon de retour de France d'où vous devez vous promettre notre parfait établissement. Que rien ne vous étonne et ne vous pressez point d'acheter. Vous avez travaillé sous les ordres du Roy, vous

vous êtes établis de bonne foi sans avoir contrevenu en rien à ses volontés. C'est le plus grand et le plus juste Prince du monde, de qui vous avez lieu d'attendre que les récompenses dues au courage que vous avez fait paraître dans la découverte et l'établissement de ce poste. Il aura égard à l'obéissance que vous avez rendu à ses ordres dans le temps que tout le Canada lui désobéissait, et quand je lui aurai rendu compte des raisons que j'ai eues de m'établir où je suis, il verra bien que je n'ai pu, en celà, faire tort au Canada puisque tous les sauvages l'avaient abandonné longtemps avant et que ceux qui y demeurèrent n'y ont jamais été en traite. Travaillez donc sûrement puisque le gain de votre cause et de la mienne dépend de votre établissement. Soyez tous de grand cœur et s'il reste quelque chose à faire au fort, travaillez y comme à une chose (nécessaire à) vos véritables intérêts. Je sais de bonne part que toutes (ces contrariétés) s'en iront en fumée : même quand tout réussirait ici à mes ennemis, ce que je ne crois pas. Je reviendrai par mer ce printemps et dès l'automne vous aurez des marchandises et vos besoins, et peut-être de quoi boire à ma santé. Ayant appris que Rolland m'a gardé un baril d'eau de vie vous devez juger par ce que je ferai cet automne de ce qui arrivera du printemps. Ainsi travaillez à de grands desseins d'où dépendra votre sûreté, (ils) vous serviront de garants. J'apprends que les corbeaux ou les étourneaux n'ont fait aucun dommage aux bléds des Pepikakias qui ont semé dans les campagnes, cela justifie bien la pensée que j'avais, ... qui y a passé me l'a dit. Vivez, je vous prie, en union ensemble et ayez pour Mons. Tonty la reconnaissance que mérité la générosité avec laquelle il prend mes intérêts et les vôtres. J'espère qu'il ne me sera pas nécessaire d'effectuer les offres qu'il vous fait, mais vous en avez toute l'obligation aussi bien que moi. Vous réussirez, si vous êtes bien unis et si vous suivez ses conseils et ses ordres. Vous voyez si j'avais raison de presser l'achèvement du Fort. Tous vos travaux seraient perdus si l'établissement n'était pas fait et je prévoyais bien ce qui est arrivé quand il nous .....a ..... Il reste encore une chose qui nous est de grande conséquence, à quoi je vous prie de vous appliquer ; c'est d'amasser le plus de peaux de bœufs que vous pourrez. M. Boisrondit, les prendra pour deux castors les grandes et les petites pour un. Tuez-en et en faites tuer par les sauvages. Quelque droit que vous ayez, parlez toujours avec grand respect de Monsieur le Gouverneur, et soyez fort ponctuel à obéir à ses ordres, quand même il vous commanderait de descendre ; quittez tout pour vous y rendre labàs mais auparavant faites un mémoire de l'état où vous laisserez les choses et le présenter à signer à celui qui vous apporterait ses ordres, puis à M. de Tonty et à tous vos confrères. Il ne faut pas faire un mémoire pour tous en commun parce que celà sent la cabale, mais un pour chacun en particulier et ne les présentez pas tous ensemble, mais l'un après l'autre. Enfin ne faites rien qui ressente le complot et la faction. Vous gagnerez en obéissant et vous perdrez en murmurant.

Je vous recommande aussi le respect pour M. le Chevalier de Baugy, et pour moi, la continuations de votre amitié, comme je n'oublierai jamais vos bons services, ni l'affection avec laquelle,

Je suis, Messieurs,

Votre très humble et très affectueux serviteur,

1686. 2 Nov. D'Allonne, Mlle Madeleine Roybon.—Letter written her at Fort Frontenac, by Joseph Michaud asking her permission to sell some property he has there. It also gives news of LaSalle. Dated Lachine, 2 Nov. 1686.

Extract :—" Je vous dirai que j'ai reçu des nouvelles certaines de M. " de La Salle qui viennent de France et qui sont apportées par les Espa- " gnols. Il a fait un fort de le nouveau Mithsy (Mitsy ?) avec le * * * " des sauvages qui habitent ces cartiers, ainsi nous espérons, Dieu aidant, le " voir en peu de temps triomphant dans ses entreprises."

Note.—Mlle de Roybon d'Allonne, daughter of Jacques de Roybon d'Allonne, settled at Fort Frontenac when he first established himself there. Later her property was erected into a "fief". During a raid by the Iroquois everything was destroyed and she herself made prisoner. She was three years younger than La Salle and was hardly twenty-five when, though of a distinguished family and having means of her own, she elected to settle at Fort Frontenac. Does this cover a Romance ?

D'Allonne, Mlle Madeleine de Roybon.—Letter to Intendant Raudot, claiming compensation from the Company. 17th Oct. 1707.

1707. Oct. 17. A Monseigneur l'Intendant.

Supplié humblement Demoiselle Madeleine de Roybon d'Allonne et vous remontre qu'ayant fait plusieurs dépenses considérables et employé tous ses soins à l'établissement premier du Fort Frontenac, M. de La Salle pour lors seigneur et gouverneur du dit lieu, en considération de ses peines et du grand établissement qu'elle avait fait lui accorda une terre de deux lieues de front sur une de profondeur, en fief et seigneurie à prendre de la rivière de Tioneguinon vers l'anse au Baril, sur laquelle seigneurie elle a fait des travaux considérables aussi bien que sur quatre habitations qu'elle a acquises près du Fort qu'elle n'aurait point abandonnées sans la guerre des Iroquois, qui firent quitter les habitants de ces lieux là par leurs fréquentes incursions dans ces mêmes quartiers et emmenèrent la dite suppliante prisonnière, après avoir brulé sa maison entièrement, ses bléds, bestiaux et marchandises.

La compagnie ayant changé, et les fermes de ce païs ayant été données aux bourgeois et habitants d'iceluy, se sont emparé des biens appartenant à la succession du dit feu Sieur de la Salle, quoique Sa Majesté ne leur en avait accordé la possession qu'à condition qu'ils paieraient ses dettes, ce qu'ils n'ont pas fait ; En sorte que la dite demoiselle n'a point été satisfaite d'environt deux mille livres, dont elle avait produit l'obligation suivant l'intention de la cour et l'ordre de M. de Callières pour lors gouverneur Général. Depuis la paix faite, après avoir demandé de monter au Fort de Frontenac, elle s'était mise en chemin, dans la vue de continuer son établissement, ce dont elle fut détournée et arrêtée, luy ayant saisi les effets qu'elle portait avec elle, ce qui fut fait par Messieurs de la Compagnie qui se servirent de l'autorité de Monsieur le Gouverneur. Dans la crainte et juste appréhension où elle est et par l'opposion présente, elle a recours à vous.

Ainsi ce considéré, Monseigneur, ni les titres cy-joints concernant la terre en question, il vous plaise ordonner que les dits sieurs Directeurs comparaissent par devant vous pour dire les raisons qu'ils ont de s'opposer à son établissement au dit lieu de Tioneguinon et soient condamnés de remettre tout ce qu'ils ont fait saisir et se voir faire défence de l'empêcher et la troubler en icelui et vous ferez justice.

De Vaudreuil, Philippe de Rigaud, Marquis de—

Letters patent to Sieur Quéret fils to trade on the Upper Lakes, under certain conditions.

Philippe de Rigaud, Marquis de Vaudreuil, commandeur de l'ordre Royal et Militaire de St. Louis, gouverneur et Lieut. Général pour le Roy en toute la Nouvelle France.

Sa Majesté par son ordre du 1er Mars dernier ayant permis au Sieur Quéret, fils, de lever en ce pays, vingt hommes pour conduire quatre canots avec 10,000 livres de marchandises, achats de France, à l'établissement que le Sieur Crozat fait faire à Ouabaché, nous pour nous conformer à l'ordre de Sa Majesté et à ses intentions, nous permettons au dit Sieur Quéret, fils, de lever les dits vingt hommes pour Ouabaché, dont il nous donnera le noms avants son départ, ou à M. de Ramesay en notre absence. Mais comme l'intention de Sa Majesté est que l'on fasse la guerre aux Sauvages Renards et que tous ceux qui monteront en haut servent à cette guerre sous les ordres des officiers qui seront envoyés à cet effet à Michilimakinac, nous ordonnons au dit Sieur Quéret, étant arrivé à Michilimakinac avec ses 4 canots, 20 hommes et 10,000 livres de marchandises, achat de France, de laisser les dites marchandises en entrepot au dit lieu de Michilimakinac jusqu'à ce que lui, et les vingt hommes qui seront avec lui aient servi à la guerre contre les Sauvages Renards, et qu'il n'y soit plus jugé nécessaire par les commandants ; attendu qu'il est également important à cette colonie et à celle de Louisianne que cette guerre qui empêche la communication qui doit être entre elles soit entièrement terminées.

Et pour la plus grande certitude de la quantité de marchandises qui seront chargées sur les quatre canots du Sieur Quéret, nous ordonnons au dit Sieur Quéret avant son départ de nous fournir et à M. l'Intendant et en notre absence à M. de Ramesay une déclaration des marchandises qu'il désirera embarquer avec copie de la facture des dites marchandises pour en connaitre le prix.

Défendons au dit Sieur Quéret d'embarquer d'autres que celles qui lui seront permises, à peine de confiscation et d'autres procédés contre lui, en cas de contrevenue suivant la rigueur des ordonnances.

Vaudreuil, Philippe de Rigaud, Marquis de—

Despatch to the Minister giving an account of what took place in this Government during the year 1716. Reference is made to transactions between Governor Hunter of New York and Governor Ramesay of Montreal.

1716, 14 Oct.

A QUÉBEC le 14 Octobre 1716.

Le Conseil est instruit par les lettres de 1715 écrites par le Sieur de Ramesay de ce qui s'est passé jusqu'au mois de Novembre de cette année dernière. Le Marquis de Vaudreuil va lui rendre compte de ce que s'est passé pendant les premiers mois de celle-ci suivant les mémoires, qui lui ont été

remis par le dit Sieur de Ramesay et celà, article par article. Mais comme la maladie qui le tient alitté ne lui permet pas d'entrer dans le détail de toutes les affaires au départ du vaisseau du Roy, le *St-François*, il se réserve à le faire par les derniers vaisseaux, espérant être entièrement rétabli, avant leur départ.

1er *Article.*

COLONIE ANGLAISE.

Le Sieur Hunter, gouverneur de la Nouvelle York semble par ses réponses au Sieur de Ramesay entrer dans les mêmes sentiments qu'a ce dernier sur le commerce respectif des Anglais et des Français, ne le trouvant pas utile à aucune des deux nations. L'intervention des sauvages sera toujours cause que l'on ne pourra pas l'abolir entièrement. Les ordres donnés au Sieur de Vaudreuil sur ce commerce seront ponctuellement exécutés. Le Sieur de Ramesay a fait faire une confiscation de huit pièces d'ecarlatine qui étaient en dépôt chez les Iroquois du Sault St-Louis et qui appartenaient aux Anglais. L'adjudication a été faite et le tiers donné aux sauvages dépositaires pour ne point les aliéner. Plusieurs Anglais venus sous passeport ont été renvoyés immédiatement après leur arrivée, n'ayant couché qu'une nuit à Montréal, où ils ont été gardés à vue pour les empêcher de s'aboucher ni de commercer avec aucun Français et sauvage. Il est pourtant bien difficille s'il n'est absolument impossible d'empêcher que les sauvages qu'aillent chercher de ces écarlatines chez les Anglais, parce que celles des Sieurs Neret et Guyot, outre qu'elles ne sont pas si belles, content aux sauvages quarante livres de castor par pièce plus cher que celles des Anglais.

Nous vivons extérieurement fort bien avec les gouverneurs des colonies Anglaises. Le Marquis de Vaudreuil expliquera au Conseil dans les Articles qui regardent les Iroquois et autres nations sauvages quelques affaires secrètes, qui se sont passées; mais que l'on doit espérer n'auront point de suite à moins que la guerre avec les Anglais ne vienne à recommencer.

Il fut présent au traité de Ryswick et " chargé des notices (?) et mémoires qui servirent à fixer les limites respec- " tives des territoires de la France et de l'Angleterre entre l'Acadie, le " Canada et la Baie d'Hudson. " 1690. Je fus fait cadet dans les troupes de la Marine en Canada.

" 1692. Je fus fait enseigne m'a commission est du 23 Juin.

" 1694. Je fus détaché et fait enseigne sur le vaisseau du Roy *Le Soli* (Lessoly ?), commandé par M. d'Iberville. Nous fûmes hiverner à la baie d'Hudson, où nous prismes le Fort Bourbon sur les Anglais

1695. Nous revimmes en France

1696. Je fus rembarqué pour enseigne sur le vaisseau du Roy *Le Dragon* commandé par M. de Sérigny ; nous retournâmes à la baie d'Hudson ou ayant trouvé quatre vaisseaux de guerre Anglais qui s'étaient emparé de l'embouchure de la rivière nous ne pûmes donner de secours au fort.

M. de Sérigny me détacha dans son canot avec quatre hommes seulement ayant le vent bon. A la faveur de la nuit je passai à travers les ennemis qui me tirèrent nombre de coups de canon, n'osant pas me faire suivre par leur chaloupe, à cause de courants et de l'obscurité. Je me rendis dans le fort. Ayant ensuite été à bord des vaisseaux ennemis, leur porter la réponse à leur sommation, ma présence fut cause que nous fismes une capitulation telle que nous voulusmes, parceque sachant que je venais d'Europe, comme eux, ils crurent que votre vaisseau pouvoit avoir arrivé quelques semaines avant eux et donné au Fort les secours nécessaires, ce qui l'aurait rendu imprenable pour eux. Mais lors qu'après la reddition ils virent qu'il n'y avait dedans ni poudre, ni plomb, ni vivres, ils rompirent la capitulation et nous menèrent comme prisonniers de guerre. D'ore ayant porté nos plaintes au Roy Guillaume, on me fit passer à Londres avec le gouverneur du Fort qui ne savait ni lire ni écrire. Le reste de la garnison fut conduit à St. Malo.

1697. Etant à Londres sous la garde d'un huissier et sachant que la paix se traitait à Ryswick je passai en Hollande, auprès des Plénipotenciers

de France qui m'ayant entendu, écrivirent en cour et reçurent des ordres pour demander raison du voilement de la capitulation. Ce qui donna lieu au 8me Article du traité de Ryswick entre la France et l'Angleterre, tel qu'on peut le voir, et ils me renvoyèrent sous garde de mon huissier à Londres d'où je m'étais échappé.

1698. Sur la fin de l'année, je fus envoyé à Londres par ordre de la cour, pour donner à M. le comte de Tallard (?) et à M. le Marquis d'Herbault les mémoires nécessaires tant au sujet de cette capitulation que pour l'estimation des effets y compris, qui n'étaient plus en nature conformément au traité de paix ; et encore pour leur donner les mémoires nécessaires sur les limites à mettre entre les deux nations à l'Acadie et à la Baie d'Hudson.

1700. Je revins en France, rapportant la valeur des effets accordée par la capitulation. La paix étant faite on lâcha tous les officiers neufs de la marine, et n'ayant point de bien, je pris le parti du commerce maritime en gros, permis au noble.

1705. Je fus fait Major garde—côte de la capitainerie de Castel-alion où j'ai servi près de trente ans sans interruption.

1735. J'ai été fait capitaine général de la capitainerie de Marans.

Beauharnois, Charles, Marquis de.

Lettres Patentes de " la compagnie des Sioux ".

Charles Marquis de Beauharnois, chevalier de l'ordre royal et militaire de St. Louis, Gouverneur et Lieut. Général pour le Roy en toute la Nouvelle France.

Nous, en vertu des ordres à nous adressés par le mémoire du Roy, du 4 May 1726, concernant l'établissement d'un commandant et de deux missionnaires chez les Sioux pour satisfaire aux intentions de Sa Majesté, avons en la présence de M. de Longueuil, gouverneur de cette ville de Montréal, de M. d'Aigremont, commissaire ordonnateur, et de M. de la Corne, Lieutenant du Roy de la ville de Montréal, réglé et arrêté les articles d'engagements et demandes des soussignés intéressés dans la compagnie des Sioux de la manière et ainsi qu'il en suit, Savoir :—

Art. I. Que le commerce de tout le pays des Sioux sera accordé et permis aux soussignés purement et simplement pour trois années entières et consécutives, exclusivement à tous autres quels qu'ils puissent être, en sorte qu'il ne soit permis à personne d'y aller ou * * * un ou plusieurs canots sans le consentement de la compagnie. Et si quelqu'un de quelque qualité on de condition qu'il puisse être y allait en commerce, qu'il sera permis et même enjoint à l'officier commandant de faire confisquer ses effets pour être distribués suivant les ordres que nous jugerons à propos de donner, et que la moitié des dites confiscations appartiendra à la compagnie.

Que les dits intéressés ne pourront faire la traite n'y aller en chasse du coté de la pointe de Chay8amigon ailleurs que dans les pays de chasse où vont les Sioux Et que du coté de la Baie (des Puants) ils ne pourront pareillement aller que dans le pays de chasse des Sioux sans qu'il leur soit permis de traiter dans l'Ouisconsing ni au portage par lequel ils doivent passer, pour se rendre aux Sioux qui servira de borne aux uns et aux autres.

Art. II. Qu'ils ne pourront bâtir de forts ni de maisons équivalentes dans les endroits de chasse, mais seulement, dans le lieu ou l'officier commandant fera son établissement.

Art. III. Qu'il sera permis aux dits intéressés de faire monter au dits pays ses Sioux dans les deux années suivantes, tel nombre de canots qu'ils jugeront à propos, si l'espérance de profit à faire dans le commerce devient plus grande, et pour les engager à augmenter le nombre des marchandises et des canots à y envoyer ; la part que chacun des associés a présentement augmentera à proportion de l'augmentation de tout le commerce en général ainsi, si le commerce qui est à présent de neuf canots, devient ensuite de douze, chacun pourra augmenter d'un quart aú dessus de ce qu'il a eu en commerce.

Art. IV. Qu'on leur accordera la préférence au bout de trois ans sur le plus haut et dernier enchérisseur, si ce commerce est donné au plus offrant ou si nous jugeons à propos d'en fixer nous-même le prix, qu'ils soient préférés à tous autres s'ils veulent accepter.

Art. V. Qu'en cas qu'il soient arrêtés en chemin, dans le pays des Renards ou plus loin, ou qu'étant arrivés au pays des Sioux, ils soient contraints cette année, par une force majeure de s'en revenir, il leur soit permis de traiter leur marchandises où bon leur semblera, sous les ordres de l'officier commandant qui aura le pouvoir de faire la destination d'un chacun de la manière qu'il jugera le plus convenable ou bien du service du Roy et de la colonie.

Art. VI. Qu'il sera libre à ceux des dits Intéressés qui auront des raisons particulières et incommodités ou d'intérêts domestiques d'abandonner et de revenir avant les trois ans expirés, de telle sorte néanmoins qu'aucun d'eux ne puisse quitter le pays des Sioux, sans une permission expresse et par écrit de l'officier commandant.

Art. VII. Qu'aucun des associés ne pourra céder sa part en tout ou en partie qu'à des personnes de bonnes moeurs, éloignées de tout scandale et incapables de mettre un obstacle à l'établissement de la Religion parmi ce grand nombre de peuples barbares, afin d'attirer la bénédiction de Dieu, sur leur personnes et sur leur commerce.

Art. VIII. Qu'il soit défendu à qui que ce soit des associés et de ceux qu'ils auront à leurs gages de s'éloigner du fort qui sera construit, soit pour revenir à Montréal, soit pour aller en quelqu'autres endroit, même pour aller à la chasse, sans une permission expresse de M. le commandant.

Art. IX. Que les dits Associés s'obligent à laisser le printemps prochain dans le fort deux hommes par canot qui font dix-huit hommes, sans y comprendre les domestiques de Messieurs les officiers et des dits missionnaires, et qu'il puissent employer les autres à apporter leurs Pelleteries jusqu'à Montréal pour en rapporter des marchandises ; ce qui doit s'entendre également des deux dernières années.

Art. X. Que quand ils quitteront le dit Poste il leur sera libre de vendre les maisons qu'ils auront fait construire pour eux et leur compte particulier. Et pour l'effet des demandes cy-dessus, les dits intéressés s'engagent.

Art. I. A construire un fort de pieux, une chapelle, une maison pour l'officier commandant et une pour les missionnaires, le tout dans le lieu et de la manière qu'il sera réglé par l'officier commandant, auquel ils promettent d'obéir et entendre en tout ce qu'il leur commandera pour l'avancement de la Religion, le bon ordre du Poste et le bien de la colonie.

Art. II. Ils s'engagent en outre à faire porter gratuitement d'ici au pays des Sioux ce qu'il leur sera donné, soit pour l'officier commandant soit pour les missionnaires jusqu'à la pesanteur de six cents livres sur chaque canot, sçavoir trois cent livres pesant pour le commandant et autant pour les missionnaires, ce qui doit s'entendre de telle sorte que le canot qui portera l'officier commandant ne sera point compris, pour cette année seulement, dans le nombre de ceux qui s'obligent à porter les six cents livres pesant ; non plus que le canot qui mènera l'officier en second et les deux canots qui mèneront

les deux missionnaires avec leurs vivres, chapelle, lits, &c., porteront chacun trois cents livres pesant.

Art. III. Les années suivantes, ils seront tenus absolument de faire porter au dit pays des Sioux dans le fort construit et à la maison de l'officier commandant les rafraichissements et autre choses nécessaire et utiles jusqu'à la pesanteur de treize cents cinquante livres par chacune des dites deux années, mais supposé que le commerce ne réussit pas, et qu'on ne peut faire descendre ici qu'un petit nombre de canots, en ce cas ils ne seront tenus de porter que mille livres pesant pour l'officier commandant.

Art. IV. Ils s'engagent pareillement à faire porter de Montréal au dit pays des Sioux, jusqu'à la maison des missionaires ce qu'on leur donnera pour eux, chacune des deux années jusqu'à la pesanteur de mille livres, soit qu'il y ait beaucoup de canots à venir ici ou non.

Art. V. Ils s'engagent en outre à acheter trois ou quatre canots de surplus quand ils seront arrivés à Michilimakinac pour passer plus facilement dans la Rivière des Renards, et dans celle du Ouisconseing et de charger sur ces canots six cent livres pesant pour les missionnaires et transporter les dits effets pesant six cent livres de Michilimakinac au dit pays des Sioux, sans y comprendre les sacs de blé d'Inde qu'ils s'engagent de porter pour la subsistance des dits missionnaires, non seulement cette première année mais les suivantes.

Enfin on est convenu avec un des associés nommé François Campeau, qu'il aura la liberté de travailler de son métier de forgeron et armurier, pour tous ceux qui voudront l'employer en le payant. Moyennant quoi ; le dit Campeau s'engage à donner par chacune des dites trois années à la dite compagnie, la somme de quatre cent livres en pelleteries ou en argent monayé à son choix et de fournir outre celà gratuitement trente vices et autant de graines (?)

De tous ce que dessus sont convenus tous les associés et ont consenti que si quelqu'un d'entre eux contrevenait à un seul des articles cy-dessus énoncés, il fut puni sévèrement et déchu de tous ses droits.

Et lecture faite des articles de demande et d'engagement cy-dessus les dits associés dans la compagnie des Sioux, ont consenti d'exécuter tout ce qui est contenu et ont accepté et agrée toutes les charges, clauses et conditions y énoncées. A l'effet de quoi, ils ont tous signé avec nous et les dénommés cy-dessus.

Articles of Capitulation of Detroit, 16 Aug. 1812.

General Orders :—

Head Quarters at Detroit, 16 Aug. 1812.

It is with pain and anxiety that Brig. Genl. Hull announces to the North Western Country that he has been compelled from a sense of duty to agree to the following articles of capitulation.

1. Fort Detroit with all the Troops, Regular as well as Militia will be immediately surrendered to the British Forces under the command of Major General Brock, and will be considered prisoners of war, without excepting such of the Militia of the Michigan Territory who have not joined the Army.

2. All public stores, arms and all public documents including every thing else of a public nature will be immediately given up.

3. Private property & persons of every description will be respected.

4. His Excellency Genl. Hull having expressed a desire that a deserter from the State of Ohio on the way to join his army, as well as one from Fort Detroit under the command of Col. McArthur should be included in the above stipulation, it's accordingly agreed to. It's however to be understood that such part of the Ohio Militia as hav'nt joined the Army, will be prevented to return home ; on condition of them not serving during the war ; their arms however will be delivered up, if belonging to the public.

5. The Garrison will march out at the hour of twelve o'clock, this day and the British forces will take possession of the fort.

AT THE COUNCIL CHAMBER,

WHITEHALL, the 6th day of October, 1763.

Privy Council Register, Geo. III, p. 112.

By the Right Honourable the Lords of the Committee of Council for Plantation Affairs, &c.

Present:

Earl of Sandwich — Earl of Halifax.
Earl of Hillsborough

Comicons—Report of the Lords of the Committee upon the Draughts of Commissions for the Governors of Quebec, East Florida, West Florida and the Granades.

Your Majesty having been pleased by Your Order in Council of the 5th of this Instant to referr unto this Committee a Representation from the Lords Commissioners for Trade and Plantations, setting forth, "that in obedience to Your Majesty's Commands signified to them in "a Letter from the late Earl of Egremont dated the 14th July, last, "they have prepared Draughts of Commissions for the Honourable "James Murray, Esq., to be Governor of Quebec, James Grant, Esq., to "be Governor of East Florida, George Johnston, Esq., to be Governor "of West Florida, and Robert Melvil, Esq., to be Governor of Gren-"ada, Dominico and Tobago. That in the Description of the Govern-"ments of Quebec, East Florida, and West Florida, they have "conformed to the Limits and Bounds which Your Majesty has been "pleased to direct and approve, and as they conceived it to be Your "Majesty's Royal Intention, that the Form and Constitution of Gov-"ernment in these new Colonies, should be as near as may be similar "to what has been established in those Colonies, which are under "Your Majesty's immediate Government, they have therefore prepared "these Commissions accordingly, by which the Governors are im-"power'd and directed so soon as the Circumstances of the Colonies "will admit thereof, to summon and call General Assemblys of the "Freeholders in their respective Governments in such manner as is "practised in Your Majesty's other Colonies; That they have omitted "in these Commissions any Power that it may be necessary to grant to "the Governors and Councils of Your Majesty's said new Colonies to "make Temporary Regulations until Assemblys can be called, because "they were of opinion that an immediate and publick Declaration of the "intended permanent Constitution, and an Insertion in the first Com-"missions of the Power of calling Assemblys so soon as the Circums-"tances will admit, is expedient for Your Majesty's Service, and will "give Confidence and Encouragement to such of Your Majesty's Sub-"jects as shall incline to settle in Your said new Colonies, and because "such Power of making temporary Regulations may be given in the "General Instructions which they shall prepare and lay before Your "Majesty with all possible Dispatch. That there are in the Commis-"sions to the Governors of Your Majesty's other Colonies some clauses "respecting the Power of suspending and comptrolling the Council, "but as they conceive these matters may be more properly and regu-"larly provided for in the Instructions under those Articles which "direct the Nomination of the Council, ascertain their Authority and "point out their Duty and Methods of Proceedings, they have there-"fore omitted these Clauses in the present Draughts in order to insert "them in the Instructions."

p. 113.

The Lords of the Committee in Obedience to your Majestys said Order of Reference this day took the said Representation and Draughts of Commissions into their Consideration, and are of opinion, that in order to make the said Commissions agreeable to the Instructions to

be given to the said Governors the following Addition should be made to each of the said Commissions at the End of that Article whereby the said Governors are empowered to make Grants of Land—Viz :

"Provided the same be made conformable to the Instructions here-"with delivered to you, or to such other Instructions as may hereafter "be sent to you under Our Signet and Sign Manual, or by Our Order "in Our Privy Council."—And the Lords of the Committee having accordingly caused the said Addition to be made in each of the said Draughts do agree humbly to lay the same so amended before your Majesty for your Royal Approbation.

p. 114.

Committee Report upon the Draught of a Comicon for Montagu Wilmot, Esqr. to be Govr.

Your Majesty having been pleased by your Order in Council of the 5th of this Instant to referr unto this Committee a Representation from the Lords Commissioners for Trade and Plantations setting forth, "that in Obedience to your Majesty's Commands signified to them by a Letter from the Earl of Halifax, dated the 27th of last month they have prepared, and humbly lay before your Majesty, the Draught of a Commission appointing Montagu Wilmot Esqr. Governor of Nova Scotia, in which Draught they have so described the Northern and Eastern Limits of this Province, as to make it conformable to what has been already approved in respect to the Southern boundary of the Province of Quebec, and to comprehend the Islands of Cape Breton and St. Johns, that they have also made the River St. Croix the Boundary to the Westward, for although it be true that the ancient Limits of this Province, as it was possessed by France under the Treaties of Breda and Ryswick and ceded to Great Britain by the Treaty of Utrecht under the name of Acadia, did extend as far West as the River Pentagoet or Penobscot, yet as it appears to have been determined in the year 1732, upon a full examination of the claims of the Province of the Massachusets Bay, as well by the Attorney and Sollicitor General, as by this Board, and finally by His Majesty in Council, that the said Province had a right of Jurisdiction and property under the Limitation of the Charter, to the Country between the Rivers Sagadehock and St. Croix and as in consequence of this Examination, the Instructions given to Colonel Dunbar, and to the Governor of Nova Scotia to make Settlements within that Tract were revoked, and it was Ordered that the Province should not be disturbed in the possession they claim to have of this Country it does not appear to them that this question is for the present open to a New Discussion : But as they conceive there are many material circumstances in favour of Your Majesty's Right to the Country as far Westward as the River Penobscot which were not stated in the Case laid before the Attorney and Sollicitor General in 1732, upon which Case their Opinion and the Dicision of the Council were founded, they do not think it adviseable that this Restriction of the Western Bounds of Nova Scotia to the River St. Croix should pass without some reservation of Your Majesty's Right to the Country between that River and Penobscot, being entered upon the Council Books ; And they rather humbly proposed this to your Majesty, as it may be a means of hereafter removing any objection which may be taken on the part of the Province of Massachusets Bay to the Southern Line of Quebec, as far as it concerns their Northern Limits, for if such Objection should be made, and it should appear upon examination they have any just grounds of Complaint, it will be in Your Majesty's power to make them a reasonable Compensation, by allowing their Jurisdiction to extend as far Eastward as the River St. Croix, between which and the River Penobscot they have lately made some considerable Settlements.

p. 115.

The Lords of the Committee in Obedience to your Majesty's said Order of Reference this day took the said Representation and Draught of a Commission into their consideration, and being of opinion that your Majesty's Right to the country between the River St. Croix, and the River Penobscot (the ancient Limits of the said Province) ought to be reserved in a more public manner than by an entry in the Council Books, do therefore propose that the following alteration should be made in the said Draught of a Commission for that purpose. Vizt After the appointment of Montagu Wilmot to be Captain General and Governor in Chief in and over the Province of Nova Scotia, the description of the Boundarys of the said Province to be left out, and the following words inserted in lieu thereof: "Which we have thought "proper to restrain and comprise within the following limits. Vizt "to the Northward, Our said Province shall be bounded by the South- "ern Boundary of Our Province of Quebec as far as the Western ex- "tremity of the Bay des Chaleurs; to the Eastward by the said Bay "and the Gulf of St. Lawrence, to the Cape or Promontory called Cape "Breton in the Island of that Name including that Island, the Island "of St. Johns, and all other Islands within Six Leagues of the Coast; "To the Southward by the Atlantic Ocean from the said Cape to Cape "Sable, including the Island of that name, and all other Islands with- "in forty Leagues of the Coast, with all the Rights, Members and Ap- "purtenances whatever thereunto belonging; and to the westward "altho' Our said Province hath anciently extended, and doth of Right "extend as far as the River Pentagouet or Penobscot, it shall be "bounded by a line drawn from Cape Sable across the entrance "of the Bay of Fundy, to the mouth of the River St. Croix, "by the said River to its source, and by a line drawn due north from "thence to the Southern Boundary of Our Colony of Quebec." And their Lordships are further of opinion that it will be proper to make the following addition at the end of the Article empowering the said Governor to make Grants of Lands. Vizt "Provided the same be "made comformable to the Instructions herewith delivered to you, or "to such other Instructions as may hereafter be sent to you under "Our Signet and Sign Manual, or by Our Order in Our Privy Council."

These boundaries are the same as those described in Montagu Wilmot's Com. dated 21 Nov., 1763.

The Lords of the Committee have therefore caused the said alteration and Addition to be made in the said Draught of a Commission accordingly, and do agree humbly to lay the same before your Majesty for your Royal Approbation.

(From the Public Record Office, London.)

Since the publications of the earlier instructions to Governors in last year's report, there has been a public demand made in the press for copies of the whole series of Instructions to the date of Confederation. A second part is therefore published this year from the text of the original documents recently acquired by the Archives Branch.

The Journal and Census of Ile Royale, made by the Sieur La Roque in 1752, and the small plan accompanying it, are of special interest to the Maritime Provinces. To this is added the Journal of *Le Formidable* and the Journal of *L'Inflexible* in 1757, for which the Department is indebted to M. de la Rogerie, of Quimper.

The Imperial Orders in Council, and the documents concerning the distribution of lands in Prince Edward Island, here printed, are from the original papers transferred to the Archives Branch by Lord Minto. They are of considerable importance for the early history of the Island, and I believe it would be advisable to make further selections. At the present time there are numerous enquiries for a plan of Toronto showing the position of the fortifications. The facsimile of the original plan of York in 1823, prepared for this volume, will no doubt serve a useful purpose.

Through the kind offices of M. de la Rogerie and of M. René de Kerallain, we have been furnished with copies of an interesting series of letters of M. Dumas and the Marquis de Vaudreuil, relating to events immediately preceding the operations of Lévis and Murray in 1760. A facsimile of the original plan of the battle of Ste. Foy, signed by the chief engineer of the British Army in the Campaign of 1759-60, has been prepared to follow the letters.

The summary of French documents, printed in the present volume, has been arranged from the notes received from the family of the late M. Richard. This completes the work undertaken by M. Richard in Paris. It should be observed that the documents included in this summary, and in that of last year, have not yet been transcribed; and owing to the accumulation of material in France it will be many years before the work is complete. If the appropriation for copying is increased, Mr. Tantet will be authorized to employ more copyists. Since this report was written I have received a copy of the genealogy of the families of Beauce, and it is therefore included in this volume.

As a part of the report for this year, I have printed a collection of pre-Cartier documents discovered by Mr. Biggar, before his connection with this Department. These will prove of special interest to scholars engaged in the history of the early voyages to our shores.

The Archives Branch has profited by the excellent work of Mr. Biggar, both in connection with research, in the examination of family papers to which we have directed his attention, and in the supervision of the transcripts made in the Public Record office, in the General Post Office and in the head office of the Hudson's Bay Company.

For the last ten years Mr. Biggar has been engaged in independent research in the Archives of France, of Italy and of Spain; he has become thoroughly familiar with the methods employed in different countries, and he has a personal acquaintance with the custodians of the records in most instances. Few men are better qualified for the requirements of the service than he, either as a scholar or as a linguist.

With the hearty cooperation of scholars interested in the advancement of historical science, work abroad is much easier than formerly, and with the assistance of Mr. Tantet, no other appointment in Europe is necessary or desirable, at the moment. Our most pressing need is in connection with the copying of documents which are constantly brought to light.

If effect is given to the plan which I have suggested, of searching for documents in the hands of the descendants of prominent officials connected with the early history of Canada, I think it would be advisable to entrust the work to Mr. Biggar.

Amongst the original papers transferred to the Archives branch by His Excellency the Governor General, in October, 1904, there is a series of despatches, orders in council, and letters concerning Prince Edward Island, British Columbia and Manitoba, besides the Upper and Lower Canada papers, of which we had already copies. As soon as the records can be examined after their removal to the new building a complete catalogue will be prepared. In the meantime a list of the volumes is given.

Last year, at your request, the Archives Branch assumed, in a measure, the direction of the work in connection with Acadian Genealogies, which for a long time past has been conducted by Mr. Placide Gaudet. The ultimate object of gathering this information, I believe, is for the publication of a genealogical dictionary. So far as I can ascertain, however, it will be impossible to prepare even a reasonably complete dictionary in alphabetical order, for many years. Our research in Europe and the United States during the last twelve months has brought to light a number of registers which are indispensable to Mr. Gaudet; but there are a great many gaps to be filled before any final arrangement can be made.

It would appear that a systematic search should be instituted in several districts in the United States, especially in the State of Louisiana, where much information is to be gleaned. For the present volume Mr. Gaudet has prepared the genealogies of three Acadian families, and it is his desire to supplement his work each year by the publication of the genealogies of other families, as they may be completed. If the work is finally to assume the form of an alphabetical dictionary, the matter now printed, and the annual additions, would have to be reset for the complete work.

Owing to the publication of this additional matter and the variety of the information, I have found it more convenient to issue the report in three parts. I have no desire to establish a precedent for the annual publication of three volumes; but owing to the fact that in the year 1902 and also in 1903 the report of the department was limited to a list of books and pamphlets, it was necessary to increase the size this year to maintain the average of the series.

The three volumes of the report for this year are presented to the House in English, and consequently at least a year will elapse before they can be published in French. Last year, as there was only one volume, it was published first in French and the English version was issued six months later. I think therefore in the interest of our students both French and English that it would be advisable to present the report alternately in French and in English, so that there would be no cause for complaint on the part of those who are only familiar with one language.

If the plan that I have suggested is carried out, the report of next year will include a selection of the Selkirk, Durham, and Bagot papers—These are exceedingly instructive, and I believe it would prove more useful and economical to print the full text of the documents, than to publish a summary of them.

In the new Archives Building ample space is provided for conveniently arranging the collections of papers that are at present deposited in numerous buildings in the city.

The task of classifying so large a mass of records cannot be accomplished within a reasonable time without a temporary increase of our staff. As there is a demand for a number of records which are at the moment inaccessible, I beg to suggest that a staff be engaged sufficient to establish order as early as possible.

Numerous persons interested in research, particularly students and teachers, have expressed regret that they are debarred from access to the archives on account of their occupation, which does not permit them to visit the building during the usual office hours. I therefore think that a useful purpose would be served if the office were open until eight or nine o'clock at least one evening in the week during the winter months.

Considerable progress has been made with the card index of the volumes on our shelves, and a complete catalogue has been prepared of all the printed books which now form a valuable collection of historical works.

Documents are now being copied in New Orleans under the direction of Mr. William Beer, of the Howard Memorial, to whom the department is particularly indebted for the facilities he offered to me in the course of my investigations. Arrangements have been made whereby copies of all Canadian documents found in the Mexican Archives will be calendared for our use, but it will be some time before a complete report can be made of these archives, in so far as they concern Canada, or of the other voluminous collections in the South. In the meantime I desire to acknowledge the services rendered to the Department by the Hon. Justice Breaux, of the Supreme Court of Louisiana, Judge Douglas of St. Louis, Principal James, and Professor Alvord of the University of Illinois, Professor Fortier and the Members of the Louisiana Historical Society, the Council of the Chicago Historical Society, and the Librarian, Miss McIllvaine, for the resolution passed by the Society authorizing the preparation of the calendar here printed ; to Mr. C. M. Burton, for the many occasions on which he has permitted his collection to be examined on our behalf, and to Professor Jameson, Professor Justin Smith and Professor Garrison.

I also desire to acknowledge the generous aid which has been given to the archives by the Government, and to express my thanks to the Deputy Minister and the officers of the Department, as well as to the members of the staff for their hearty cooperation in the work which is being carried out by this Branch.

Last year I made a suggestion regarding the publication of a documentary history of Canada and as the suggestion has met with the approval of a large number of students, I reprint a passage from my report of 1904.

"There are many students in each Province of the Dominion who are engaged in "independent research ; men who have kept in touch more or less with the work done "by my predecessor, and by others in a smaller way. Each must have felt the need of "a national history, based upon the most ample documentary evidence. The inaugur- "ation of a work of this nature by the Universities, with the co-operation of the "Government, might possibly commend itself as a fitting movement to mark the passing "in 1908, of the third century of the birth of Canada, What we need at present are "facilities which will permit the location and collection of documents now scattered "throughout the Dominion and in foreign lands. These records would enable the "student to prepare exhaustive monographs ; and when we have gathered the stones "Canada will not be wanting in master craftsmen capable of hewing them into shape "and of giving them artistic form—of converting them into a history worthy of the "Canadian people and of their splendid heritage."

There are several questions affecting the archives, which require a larger experience than I possess. It appears to me that legislation is necessary in some instances, or that regulations should be in force concerning the care and custody of collections of papers. So far as I have been able to ascertain there is no provision made for the transference

of records of the Crown to a central place of deposit, when such records are no longer in current use. The disposal by individuals of records that may be of service to the country; the necessity of custodians of papers reporting to the Government when their buildings do not afford suitable protection; the selection of documents for publication; questions of translation; the purchase of documents; the co-operation of institutions engaged in research in other countries and the distribution of information, are matters which I think might be entrusted to an honorary advisory board, having the functions of an Historical Manuscripts Commission.

I have given some thought to this subject, and I have taken the advice of several eminent men interested in the intellectual development of Canada; but at the present I merely offer the suggestion with the hope that it may be of service to my successor, as I have already expressed the desire that my active connection with the Archives Branch may terminate on the presentation of this report.

I have the honour to be, Sir,

Your obedient servant,

THE DOMINION ARCHIVIST AND
KEEPER OF THE RECORDS.

OTTAWA, June 22nd, 1906.

1st. With these Our Instructions you will receive Our Commission under Our Great Seal of Great Britain constituting you Our Captain General and Governor in Chief in and over Our Provinces of Upper Canada and Lower Canada, bounded as in Our said Commission is particularly expressed. In the Execution therefore of so much of the Office and Trust We have reposed in you as relates to Our Province of Lower Canada, you are to take upon you the Administration of the Government of the said Province, and to do and execute all things belonging to your Command according to the several Powers and Authorities of Our said Commission under Our Great Seal of Great Britain and of the Act passed in the present year of Our Reign therein recited, and of these Our Instructions to you and according to such further Powers and Instructions as you shall at any time hereafter receive under Our Signet and Sign Manual or by Our Order in Our Privy Council.

2. And you are with all due Solemnity, before the Members of Our Executive Council, to cause Our said Commission to be read and published, which being done, you shall then take and also administer to each of the Members of Our said executive Council, the Oaths mentioned in an Act passed in the first year of His late Majesty King George the first, intituled:—"An Act for the further Security of His Majesty's Person "and Government, and the Succession of the Crown in the Heirs of the late Princess "Sophia, being Protestants; and for extinguishing the hopes of the pretended Prince of "Wales, and his open and secret Abettors," as altered and explained by an Act passed in the Sixth year of Our Reign intituled, "An Act for altering the Oath of Abjuration "and the Assurance, and for amending so much of an Act of the Seventh year of Her "late Majesty, Queen Anne," intituled, "An Act for the Improvement of the Union "of the two Kingdoms, as after the time therein limited requires the delivery of certain "Lists therein mentioned to Persons indicted for High Treason, or Misprision of

"Treason," and also make and subscribe, and cause the Members of the said Executive Council to make and subscribe the Declaration mentioned in an Act of Parliament made in the Twenty-fifth Year of the Reign of King Charles the Second, intituled "An "Act for preventing the dangers which may happen from Popish Recusants" and you and every of them are likewise to take an Oath for the due Execution of your and their Places and Trusts with regard to your and their equal and impartial Administration of Justice, and you are also to take the Oath required by an Act passed in the Seventh and Eighth years of the Reign of King William the third, to be taken by Governors of Plantations, to do their utmost that the Laws relating to the Plantations be duly observed.

3. You shall also administer or cause to be administered the Oaths appointed in the aforesaid recited Acts, to all Persons, except as hereafter mentioned, that shall be appointed to hold or exercise any Office, Place of Trust or Profit in Our said Province, previous to their entering on the Execution of the Duties of such Office; and you shall also cause them to make and subscribe the Declaration mentioned in the aforesaid Act of the Twenty-fifth year of the Reign of King Charles the Second—But in cases where any such Office, Place of Trust or Profit within Our said Province of Lower Canada shall be conferred on any of Our Subjects who may profess the Religion of the Church of Rome, you shall, so often as any such Person shall or may be admitted into any Such Office, Place of Trust or Profit, administer or cause to be administered to him the Oath prescribed in and by an Act of Parliament passed in the 14th year of Our Reign, intituled "An Act for making more effectual Provision for the Province of Quebec in North America" and also the usual Oath for the Execution of such Office, Place of Trust or Profit in lieu of all other Tests and Oaths whatsoever.

4. Whereas, We have thought fit that there should be an executive Council for assisting you, or Our Lieutenant Governor or Person administering the Government of Our said Province of Lower Canada for the time being; We do hereby by these Presents nominate and appoint the undermentioned Persons to be of the executive Council of Our said Province, vizt.: William Smith, Paul Roc de St. Ours, Hugh Finlay, François Baby, Thomas Dunn, Joseph de Longueuil, Adam Mabane, Pierre Panet and Adam Lymburner, Esquires—And Whereas, by an Ordinance passed in the Province of Quebec, the Governor and Council of the said Province were constituted a Court of Civil Jurisdiction for hearing and determining Appeals in certain Cases therein specified; And Whereas by an act passed in the present year of Our Reign, it is declared, that the Governor, Lieutenant Governor, or Person administering the Government of the said Province, together with such executive Council, shall be a Court of Civil Jurisdiction within Our said Province for hearing and determining Appeals within the same in the like Cases, and in the like manner and form, and subject to such appeal therefrom, as such Appeals might have been before the passing of the above recited Act have been heard and determined by the Governor and Council of Quebec.—In order therefore, to carry the said Act into Execution, Our Will and Pleasure is, that you do in all civil Causes, on application being made to you for that purpose permit and allow Appeals from any of the Courts of Common Law in Our said Province, unto you and the Executive Council of the said Province of Lower Canada in manner prescribed by the above mentioned Act; and you are for that purpose to issue a Writ as nearly in the accustomed manner before the passing of the above mentioned Act in respect of such appeals as the case will admit, returnable before Yourself and the Executive Council of the said Province, who are to proceed to hear and determine such Appeal Wherein such of the said Executive Council as shall be at that time Judges of the Court from whence such Appeal shall be so made to you Our Captain General, and to Our said executive Council as aforesaid, shall not be admitted to vote upon the said Appeal, but they may nevertheless be present at the hearing thereof, to give the reasons of the Judgment given by them in the causes wherein such Appeal shall be made, provided nevertheless, that in all such Appeals, the Sum or Value appealed for do exceed the Sum of Three hundred Pounds Sterling, and that Security be first duly given by the Appellant, to answer such Charges as shall be awarded in case the first Sentence be affirmed, and if either Party shall not rest satisfied with the Judgment of you and such executive Council as aforesaid, Our Will and Pleasure is that they may then Appeal unto Us in Our

Privy Council, provided the Sum or Value so appealed for unto Us, do exceed Five hundred Pounds Sterling, and that such Appeal be made within Fourteen days after Sentence, and good Security be given by the Appellant, that he will effectually prosecute the same, and answer the condemnation, as also pay such costs and Damages as shall be awarded by Us, in case the Sentence of you and the Executive Council be affirmed: Provided nevertheless where the matter in question relates to the taking or demanding any Duty payable to Us, or to any Fee of Office or annual Rents or other such like matters or thing where the Rights in future may be bound, in all such Cases you and the said Executive Council are to admit an Appeal to Us in Our Privy Council, though the immediate Sum or Value appealed for be of a less value; and it is our further Will and Pleasure, that in all Cases where by your Instructions you are to admit Appeals unto Us in Our Privy Council, Execution shall be suspended until the final Determination of such Appeal, unless good and sufficient Security be given by the Appellee to make ample restitution of all that the Appellant shall have lost by means of such Decree or Judgment, in case upon the determination of such Appeal, such Decree or Judgment should be reversed, and restitution ordered to the Appellant—You and Our Executive Council are also to permit appeals unto Us in Our Privy Council, in all Cases of Fines imposed for Misdemeanours, provided the Fines so imposed amount to or exceed the Sum of One hundred Pounds Sterling, the Appellant first giving good Security that he will effectually prosecute the same, and answer the Condemnation, if the Sentence by which such Fine was imposed in your Government shall be confirmed.

5. And that We may be always informed of the names and Characters of Persons fit to supply the Vacancies which may happen in Our Said Executive Council, You are in case of any *Vacancy* in the said Council to transmit to Us by one of Our principal Secretaries of State, the Names and characters of such three Persons, Inhabitants of Our said Province of Lower Canada whom you shall esteem the best qualified for fulfilling the Trust of such Executive Councillor.

6. And in the Choice and Selection of such Persons proposed to fill such Vacancy in Our said Executive Council, as also of the Chief Officers, Judges Assistants, Justices of the Peace and other Officers of Justice, you are always to take Care that they be men of good Life, well affected to Our Government, and of abilities suitable to their Employments.

7. And, Whereas We are sensible, that effectual Care ought to be taken to oblige the Members of Our Executive Council to a due Attendance; it is Our Will and Pleasure in order to prevent the many inconveniences which may happen for want of a Quorum of the Council to transact Business as occasion may require, that if any of the Members of Our said Executive Council residing in Our said Province, shall hereafter willingly absent themselves from the Province, and continue absent above the Space of Six Months together, without leave from you first obtained under your hand and Seal; or shall remain absent for the Space of one Year without Our Leave given them under Our Royal Signature, their Places in the said Executive Council shall immediately thereupon become void—And We do hereby will and require you, that this Our Royal Pleasure be signified to the several Members of Our said Executive Council, and that it be entered in the Council Books of the said Province as a standing Rule.

8. And to the end that Our said Executive Council may be assisting to you in all affairs relating to Our Service, you are to communicate to them such and so many of these Our Instructions, wherein their advice is mentioned to be requisite; and likewise all such others from time to time, as you shall find convenient for Our Service to be imparted to them.

9. You are also to permit the Members of our said Executive Council to have and enjoy Freedom of Debate and Vote in all Affairs of Public Concern, which may be debated in the said executive Council.

10. And Whereas We have thought fit to declare by Our Order in Council bearing date the 24th day of August last, that the Division of Our Province of Quebec shall commence on the——day of December next, and that from thenceforth the Lands and Territories therein described shall be two separate Provinces and be called the Province of Upper Canada and the Province of Lower Canada; you are, as soon as

may be after such Division shall take place, to summon by an Instrument under the Great Seal of Our Province of Lower Canada, to the Legislative Council of that Province, the following persons whom We hereby authorize and direct you so to summon to Our said Legislative Council of Lower Canada ; vizt William Smith, J. G. Chaussegros de Léry, Hugh Finlay, Picotté de Belestre, Thomas Dunn, Paul Roc de St. Ours, Edward Harrison, Francis Baby, John Collins, Joseph de Longueuil, Adam Mabane, Charles de Lanaudière, George Pownall, R. Amable de Boucherville, and John Frazer, Esqrs.—

11. And Whereas by the aforesaid recited Act passed in the present year of Our Reign, it is provided that the Seats of the Members of Our Legislative Council shall become vacant in certain Cases mentioned in the said Act, It is Our Will and Pleasure, that if any Member of Our said Legislative Council shall at any time leave Our said Province and reside out of the same, you shall report the same to Us by the first opportunity through one of Our Principal Secretaries of State—And you are also in like manner to report whether such member of the said council is absent by your permission, or by the Permission of Our Lieutenant Governor or Commander in Chief of the said Province for the time being ; and you are also in like manner, to report, if it shall come to your knowledge, that any such Member shall at any time take or have taken any Oath of Allegiance or Obedience to any foreign Prince or Power, or shall be attainted for treason in any court of Law within any of Our Dominions, that We may take measures thereupon as We shall think fit—And you are to take especial Care that the several Provisions of the said Act respecting the several Cases in which Persons may or may not be entitled to receive Writs of Summons to the said Legislative Council, or to hold their Places therein shall be duly executed.

12. And for the Execution of so much of the Powers vested in you by Our said Commission, and by virtue of the said Act, as relates to the declaring that you assent in Our Name to Bills passed by the Legislative Council and House of Assembly, or that you withold Our Assent therefrom, or that you reserve such Bills for the Signification of Our Royal Pleasure thereon, It is Our Will and Pleasure that you do carefully observe the following Rules, Directions, and Instructions vizt

That the Style of enacting all the said Laws, Statutes and Ordinances, shall be by Us, Our Heirs, or Successors, by and with the Advice and Consent of the Legislative Council and Assembly of Our Province of Lower Canada, constituted and assembled by virtue of, and under the authority of an Act passed in the Parliament of Great Britain, entitled "An Act to repeal certain Parts of an Act passed in the fourteenth year of His Majesty's Reign" intituled "An Act for making more effectual Provision for the Government of the Province of Quebec in North America, and to make further Provision for the Government of the said Province ;" and that no Bill in any other form shall be assented to by you in Our Name.

That each different matter be provided for by a different Law, without including in one and the same Act such Things as have no proper Relation to each other.

That no Clause be inserted in any Act or Ordinance which shall be foreign to what the Title of it imports, and that no perpetual Clause be part of any temporary Laws.

That no Law or ordinance whatever be suspended, altered, continued, revived, or repealed by general Words ; but that the Title and date of such Law or Ordinance be particularly mentioned in the enacting part.

That in case any Law or ordinance respecting private Property, shall be passed without a saving of the right of Us, Our Heirs and Successors and of all Persons or Bodies Politic or Corporate ; except such as are mentioned in the said Law or Ordinance, You shall declare that you withold Our Assent from the same ; and if any such Law or Ordinance shall be passed without such Saving you shall in every such Case declare that you reserve the same for the signification of Our Royal Pleasure thereon.

That in all Laws or Ordinances for levying Money or imposing Fines, Forfeitures or Penalties, express mention be made that the same is granted or reserved to Us, Our Heirs, and Successors for the Public Uses of the said Province, and the Support of the Government thereof, as by the said Law shall be directed, and that a Clause be inserted declaring that the due Application of such Money pursuant to the Directions of such

Law shall be accounted for unto Us through Our commissioners of Our Treasury for the time being in such manner and form as We shall direct.

13. And Whereas We have by Our said Commission given you full Power and Authority subject as therein is specified, and to these Our Instructions in that behalf to issue Writs of Summons and Election, and to call together the Legislative Council and Assembly of Our said Province of Lower Canada, and for the purpose of electing the Members of the Assembly of Our said Province of Lower Canada, have also given you full power and Authority to issue a Proclamation dividing Our said Province of Lower Canada into Districts or Counties, or Circles, and Towns or Townships, and declaring and appointing the number of Representatives to be chosen by each of such Districts or Counties, or Circles and Towns or Townships; now, Our Will and Pleasure is, that you shall issue such Proclamation as soon as may be, allowing nevertheless a reasonable time between the issuing thereof and the time of issuing the Writs of Summons and Election above mentioned.

14. That all Laws assented to by you in Our name, or reserved for the Signification of Our Pleasure thereon, shall, when transmitted by you, be fairly abstracted in the Margins, and accompanied with very full and particular Observations upon each of them, that is to say, whether the same is introductory to a New Law, declaratory of a former Law, or does repeal a Law then before in being; And you are also to transmit in the fullest manner the Reasons and occasion for proposing such Laws, together with fair copies of the Journals and Minutes of the Proceedings of the said Legislative Council and Assembly, which you are to require from the Clerks or other proper Officers in that behalf, of the said Legislative Council and Assembly.

15. And Whereas in the said Act it is provided that in certain Cases, Acts passed by the Legislative Council and Assembly of the Province, shall previous to any Signification of Our assent thereto, be laid before both Houses of Our Parliament of Great Britain; And Whereas it is also provided in the said Act, that in certain Cases Provision may be made by Acts of the Legislative Council and Assembly of the Province assented to by Us, Our Heirs or Successors (thereby reserving the power of giving such Assent to Us, Our Heirs, or Successors only) you are to take special Care, that in every such Case you are to declare that you reserve such Bills for the Signification of Our Pleasure thereon; And you will likewise reserve for such signification every other Bill which you shall consider to be of an extraordinary or unusual Nature, or requiring Our special consideration and decision thereupon, particularly such as may affect the Property, Credit, or dealings of such of Our Subjects as are not usually resident within the said Province, or whereby duties shall be laid upon British or Irish Shipping, or upon the Product or manufactures of Great Britain or Ireland.

16 And Whereas Laws have formerly been enacted in several of Our Plantations in America, for so short a time, that Our Royal Assent or Refusal thereof could not be had before the time for which such Laws were enacted did expire, You shall not assent in Our name to any Law that shall be enacted for a less time than two years, except in Cases of imminent necessity, or immediate temporary expediency; and you shall not declare Our assent to any Law containing Provisions which shall have been disallowed by Us, without express Leave for that purpose first obtained from Us, upon a full representation by you to be made to Us by one of our principal Secretaries of State, of the reasons and necessity for passing such Law.

17. Whereas We have thought fit by Our Orders in Our Privy Council to disallow certain Laws passed in some of Our Colonies and Plantations in America, for confirming the Privileges of Naturalization on Persons being Aliens, and for divorcing Persons who have been legally joined together in Holy Marriage—And Whereas Acts have been passed in others of Our said Colonies, to enable Persons who are Our liege Subjects by Birth or Naturalization, to hold and inherit Lands, Tenements, and Real Estates, altho' such Lands, Tenements, and real Estates had been originally granted to, or purchased by Aliens antecedent to Naturalization—It is Our Will and Pleasure, that you do not upon any pretence whatsoever give your Assent to any Bill or Bills that may hereafter be passed by the Legislative Council and Assembly of the Province under your Government for the Naturalization of Aliens, nor for the Divorce of Per-

sons joined together in Holy Marriage nor for establishing a Title in any Lands, Tenements and real Estates in Our said Province originally granted to, or purchased by Aliens antecedent to Naturalization.

18. You are to give Warrants under your hand for the issuing of Public Monies for all Public Services, and We do particularly require you to take care that regular Accounts of all Receipts and Payments of Public Monies be duly kept, that the same from time to time be audited by Our executive Council, and that Copies thereof attested by you be transmitted every half year or oftener if there should be occasion to Our Commissioners of Our Treasury, or to Our High Treasurer for the time being, and Duplicates thereof by the next conveyance, in which Accounts, shall be specified every particular Sum raised or disposed of, to the end that We may take such Measures as We may deem necessary for the examination of the said Accounts, and that We may be satisfied of the right and due Application of the Revenue of Our said Province of Lower Canada, and with the Probability of the increase of or diminution of it under every head and Article thereof.

19. Whereas by an Act of Our Parliament of Great Britain passed in the fourth year of Our Reign, intituled "An Act to prevent Paper Bills of Credit hereafter to be issued in any of His Majesty's Colonies or Plantations in America, from being declared to be a legal Tender in payments of Money, and to prevent the legal Tender of such Bills as are now subsisting, from being prolonged beyond the Periods limited for calling in and sinking the same," it is enacted that no Paper Bills or Bills of Credit should be created or issued by any Act, Order, Resolution, or Vote of Assembly in any of Our Colonies or Plantations in America, to be a legal tender in payment, and that any such Act, Order, Resolution or Vote for creating or issuing such Paper Bills or Bills of Credit, or for prolonging the legal tender of any such then subsisting and current in any of the said colonies or Plantations, should be null and void—And Whereas by another Act of our said Parliament passed in the Thirteenth Year of Our Reign, intituled, "An Act to explain and amend the above recited Act passed in the Fourth year of Our Reign as aforesaid" it is enacted that any Certificates, Notes, Bills, or Debentures, which shall or may be voluntarily accepted by the Creditors of the Public within any of the Colonies in America as a Security for the Payment of what is due and owing to the said Public Creditors, may be made and enacted by the General Assemblies of the said Colonies respectively to be a tender to the Public Treasurers in the said Colonies, for the Discharge of any Duties, Taxes, or other Debts whatever due to, and payable at or in the said Public Treasuries of the said Colonies, in virtue of Laws passed within the same, and in no other Case Whatsoever—It is Our Will and Pleasure that you do in all things conform yourself to the Provisions of the said Recited Acts both with respect to the not assenting to any Bills which may be presented to you for the purpose of issuing or creating Paper Bills or Bills of Credit, to be a legal Tender in payment, and the assenting to any Bills by which certificates, Notes or Debentures which may be voluntarily accepted in payment by the Public Creditors shall be made a legal Tender to the Treasury for Taxes, Duties, and other Payments to the Public Treasury.

20. You shall not remit any Fines or Forfeitures whatsoever above the Sum of Ten Pounds, nor dispose of any Forfeitures whatsoever, until upon signifying unto the Commissioners of Our Treasury or Our High Treasurer for the time being, the nature of the Offence, and the occasion of such Fines and Forfeitures, with the particular Sums or Value thereof (which you are to do with all Speed) you shall have received Our Directions thereon, but you may in the meantime suspend the payment of the said Fines and Forfeitures.

21. And you are on every occasion to transmit to Us by one of Our principal Secretaries of State with all convenient Speed, a particular Account of all New Establishments of Jurisdictions, Courts, Offices and Officers, Powers, Authorities, Fees, and Privileges granted and settled within Our said Province of Lower Canada; as likewise an Account of all the Expenses (if any) attending the Establishment of the said Courts and Offices.

22. It is Our further Will and Pleasure that all Commissions to be granted by you to any Person or Persons, to be Judge, Justice of the Peace, or other necessary Offices be granted during Pleasure only.

23. You are not to suspend any of the Members of Our said Executive Council, or to suspend or displace any of the Judges, Justices, Sheriffs, or other Officers or Ministers within Our said Province of Lower Canada without good and sufficient Cause, and in case of such Suspension or Removal, you are forthwith to transmit your reasons for the same to one of Our Principal Secretaries of State.

24. And Whereas frequent complaints have been made of great delays and undue proceedings in the Courts of Justice in several of Our Plantations, whereby many of Our good Subjects have very much suffered, and it being of the greatest Importance to Our Service, and to the Welfare of Our Plantations that Justice be everywhere speedily and duly administered, and that all disorders, delays, and other undue practices in the administration thereof be effectually prevented ; We do particularly require you to take especial Care that in all Courts where you are authorized to preside, Justice be impartially administered ; and that in all other Courts established within Our said Province, all Judges and other Persons therein concerned do likewise perform their several duties without delay or partiality.

25. You are to take care that no Court of Judicature be adjourned but upon good Grounds, as also that no orders of any Court of Judicature be entered or allowed which shall not be first read and approved of by the Justices in open Court, which Rule you are in like manner to see observed with relation to all Proceedings of Our Executive Council of Lower Canada, and that all orders there made, be first read and approved in such Council before they are entered upon the Council Books.

26. You are to take Care that all Writs within Our said Province of Lower Canada be issued in Our Name.

27. You shall take care with the Advice and Assistance of our Executive Council, that such Prisons as may at any time be necessary, be erected, and that the same or any other already erected be kept in such a Condition as may effectually secure the Prisoners which now are or may hereafter be confined therein.

28. You shall not suffer any Person to execute more Offices than one *by Deputy*.

29. You shall not by Colour of any Power or Authority hereby or otherwise granted or mentioned to be granted unto you, take upon you to give, grant, or dispose of any Place or Office within Our said Province, which now is or shall be granted under the Great Seal of this Kingdom, or to which any Person is or shall be appointed by *Warrant under Our Signet* and Sign Manual, any further than that you may upon the Vacancy of any such Office or Place, or upon the *Suspension of any* such officer by you as aforesaid, put *in any fit* Persons *to officiate* in the Interval, till you shall have represented the matter unto Us through one of Our principal Secretaries of State, which you are to do by the first opportunity, and till the said Office or Place is disposed of by Us, Our Heirs or Successors, under the great Seal of this Kingdom, or until some Person shall be appointed thereunto under Our Signet and Sign Manual, or until Our further Directions be given therein ; and it is Our express Will and Pleasure, that you do give reasonable Support unto the Patent Officers in the Enjoyment of their legal and established Fees, Rights, Privileges, and Emoluments, according to the true Intent and meaning of their respective Patents.

30. And Whereas several Complaints have been made by the Officers of Our Customs, in Our Plantations in America, that they have frequently been obliged to serve on Juries, and personally to appear in Arms whenever the Militia is drawn out, and thereby are much hindered in the Execution of their Employments, Our Will and Pleasure is, that you take effectual Care and give the necessary Directions, that the several Officers of Our Customs be excused and exempted from serving on any Juries, or personally appearing in Arms in the Militia, unless in Cases of absolute necessity, or serving any Parochial Offices which may hinder them in the Execution of their Duties.

31. And Whereas nothing can more effectually tend to the speedy settling of Our said Province of Lower Canada, the Security of the Property of our Subjects and

the advancement of Our Revenue, than the disposal of such Lands as are Our Property upon reasonable terms, and the establishing of a regular and proper method of Proceeding, with respect to the passing of Grants of such Lands—It is therefore Our Will and Pleasure, that all and every Person and Persons who shall apply for any Grant or Grants of Land, shall previous to their obtaining the same, make it appear that they are in a condition to cultivate and improve the same, and in case you shall, upon a consideration of the Circumstances of the Person or Persons applying for such Grants, think it advisable to pass the same, you are in such Case to cause a Warrant to be drawn up directed to the Surveyor General or other Officers, impowering him or them to make a faithful and exact Survey of the Lands so petitioned for, and to return the said Warrant within Six Months at farthest from the date thereof, with a Plot or Description of the Lands so surveyed thereunto annexed, and when the Warrant shall be so returned by the said Surveyor, or other proper Officer the Grant shall be made out in due form, and the Terms and Conditions required by these Our Instructions be particularly and expressly mentioned therein—And it is Our Will and Pleasure that the said Grants shall be registered within Six Months from the date thereof in the Register's Office, and a Docket thereof be also entered in Our Auditor's Office, Copies of all which Entries shall be returned regularly by the proper Officer to Our Commissioners of Our Treasury.

32. And for the further Encouragement of Our Subjects, It is Our Will and Pleasure that the Lands to be granted by you as aforesaid, shall be laid out in Townships, and that each Inland Township shall, as nearly as Circumstances shall admit, consist of Ten Miles Square; and such as be situated upon a navigable River or Water shall have a front of Nine Miles, and shall be Twelve Miles in Depth, and shall be sub-divided in such manner as may be found most advisable for the accomodation of the Settlers, and for making the several Reservations for Public Uses and particularly for the Support of the Protestant Clergy agreeably to the above recited Act passed in the present year of Our Reign.

33. And Whereas great Inconveniences have heretofore arisen in many of the Colonies in America from the granting excessive Quantities of Land to particular Persons who have never cultivated or settled the same, and have thereby prevented others more industrious from improving such Lands—In order therefore to prevent the like inconveniences in future, it is Our Will and Pleasure that you observe the following Directions and Regulations in all Grants to be made by you as aforesaid; vizt

That no Town Lot shall be granted to any one Person being Master or Mistress of a Family in any Township to be laid out as aforesaid which shall contain more than one Acre of Land.

That no Park Lot shall be granted to any one Person being Master or Mistress of a Family in any Township so to be laid out, which shall contain more than Twenty-four Acres.

That no Farm Lot shall be granted to any one Person being Master or Mistress of a Family in any Township so to be laid out, which shall contain more than 200 Acres.

It is Our Will and Pleasure, and you are hereby allowed and permitted to grant unto every such Person or Persons such further Quantity of Land as they may desire, not exceeding one Thousand Acres over and above what may have heretofore been granted to them, and in all Grants of Land to be made by you as aforesaid, you are to take care that due regard be had to the quality and comparative Value of the different parts of Land comprized within any Township, so that each Grantee may have as nearly as may be a proportionable quantity of Lands of such different Quality and comparative value, as likewise that the breadth of each Tract of Land to be hereafter granted be one third of the length of such Tract, and that the length of such Tract do not extend along the Banks of any River, but into the main Land, that thereby the said Grantees may have each a convenient Share of what accommodation the said River may afford for navigation or otherwise.

34. And as a further Encouragement to Our Subjects who shall become Settlers as aforesaid, It is Our Will and Pleasure that the said Townships and the respective Allotments within the same, together with the Lands to be reserved as aforesaid, shall be run and laid out by Our Surveyor General of Lands for the said Province, or some

skilful Person authorized by him for that purpose, which Surveys together with the Warrants and Grants for the respective Allotments shall be made out for and delivered to the several Grantees free of any Expense or Fees whatsoever other than such as may be payable to the different Officers according to the Table of Fees already established upon Grants of Land made in the said Province.

35. And in order to prevent any Persons disaffected to Us and Our Government from becoming Settlers in Our said Province of Lower Canada, It is Our Will and Pleasure that no Warrants for surveying Lands be granted by you or the Lieutenant-Governor or Person administering the Government for the time being, unless the Person or Persons applying for the same, do, at the time of making such application, besides taking the usual Oaths directed by Law, also make and subscribe the following Declaration in your or his presence, or in the presence of such Person or Persons as shall by you or him be appointed for that purpose ; vizt

"I, A : B : do promise and declare that I will maintain & defend to the utmost "of my Power the Authority of the King in His Parliament as the Supreme Legislature "of this Province."

36. Whereas the reserving such Bodies of Land within Our Province of Lower Canada, where there are considerable Growths of Timber fit for the use of Our Royal Navy, is a matter of the utmost importance to Our Service,—It is Our Will and Pleasure that no Grants whatever be made of Lands within any District or Tract in Our said Province of Lower Canada until Our Surveyor General of Woods or his Deputy lawfully appointed shall have surveyed the same and marked out as reservation to Us, Our Heirs and Successors such parts thereof as shall be found to contain any considerable growth of masting or other Timber fit for the use of Our Royal Navy, and more especially upon the Rivers, and you are hereby instructed to direct our Surveyor general of Lands in Our said Province from time to time with all due diligence to compleat the Surveys and mark out the Reservations as aforesaid in the most convenient Parts of Our said Province ; and you are from time to time to report the number, extent and Situation of such Reservations, and you are further to direct Our Surveyor General not to certify any Plots of Land ordered and Surveyed for any Person or Persons whatever, in order that Grants may be made out for the same, until it shall appear to him by a Certificate under the hand of Our said Surveyor of Woods or his Deputy, that the Land so to be granted is not part of or included in any District marked out as a Reservation for Us, Our Heirs and Successors as aforesaid for the purpose herein before mentioned, and in order to prevent any deceit or fraud from being committed by the Persons applying for Lands in this respect, It is Our Will and Pleasure, that in all Grants to be hereafter made for Lands within Our said Province of Lower Canada, the following Proviso and exception be inserted vizt "and provided also that "no part of the Parcel or Tract of Land hereby granted to the said "and his Heirs be within any Reservation heretofore made and marked for Us, "Our Heirs, and Successors by Our Surveyor General of Woods, or his lawful "Deputy, in which Case, this Our Grant for such part of the Land hereby "given and granted to the said and his Heirs forever as aforesaid, "and which shall upon a Survey thereof being made, be found within any such Reser-"vation, shall be null and void, and of non-Effect, any thing herein contained to the "contrary notwithstanding."

37. And Whereas it is necessary that all Persons who may be desirous of settling in Our said Province, should be fully informed of the Terms and Conditions upon which Lands will be granted within Our said Province of Lower Canada in manner prescribed in and by the said Act passed in the present year of Our Reign, you are therefore as soon as possible to cause a Publication to be made by Proclamation or otherwise, as you in your discretion shall think most adviseable of the said Terms and Conditions respecting the granting of Lands : in which Proclamation it may be expedient to add some short description of the natural Advantages of the Soil and Climate and its peculiar conveniences for Trade and Navigation.

38. And it is Our further Will and Pleasure that all the foregoing Instructions to you, as well as any which you may hereafter receive relative to the passing Grants of Lands in conformity to the said Act passed in the present year of Our Reign, be entered upon record for the Information and Satisfaction of all Parties whatever that may be concerned therein.

39. And Whereas it hath been represented unto Us that many parts of the Province under your Government are particularly adapted to the Growth and Culture of Hemp and Flax, It is therefore Our Will and Pleasure, that in all Surveys for Settlement, the Surveyor be directed to report whether there are any or what quantity of Lands contained within such Survey fit for the Production of Hemp & Flax.

40. And Whereas it hath been represented to Us, that several Parts of Our Province of Lower Canada have been found to abound with Coals, It is Our Will and Pleasure that in all Grants of Land to be made by you, a Clause be inserted, reserving to Us Our Heirs, and Successors all Coals, and also all Mines of Gold, Silver, Copper, Tin, Iron and Lead which shall be discovered upon such Lands.

41. You shall cause a Survey to be made of all the considerable Landing Places and Harbours in Our said Province, in case the same shall not have already been done, and report to Us by one of Our Principal Secretaries of State, how far any Fortifications be necessary for the Security and Advantage of the said Province.

42. And Whereas it appears from the Representations of Our late Governor of the District of Trois-Rivières, that the Iron Works at St. Maurice in that District are of Great Consequence to Our Service—It is therefore Our Will and Pleasure that no part of the Lands upon which the said Iron Works were carried on, or from which the Ore used in such Iron Works was procured, or which shall appear to be necessary or convenient for that Establishment either in respect to a free passage in the River St. Lawrence, or for producing a necessary Supply of Wood, Corn and Hay, or for Pasture for Cattle, be granted to any Private Person whatever; and also, that as large a District of Land as conveniently may be adjacent to, and lying round the said Iron Works, over and above what may be necessary for the above purpose, be reserved for Our Use, to be disposed of in such manner as We shall hereafter direct and appoint.

43. Whereas the Establishment of proper Regulations in matters of Ecclesiastical Concern is an Object of very great Importance, it will be your indispensible Duty to take Care that no arrangements in regard thereto be made, but such as may give full satisfaction to Our New Subjects in every point in which they have a right to any Indulgence on that head, always remembering that it is a Toleration of the free Exercise of the Religion of the Church of Rome only to which they are entitled, but not to the Powers and Privileges of it as an established Church, that being a Preference which belongs only to the Protestant Church of England.

44. Upon these Principles therefore, and to the end that Our just Supremacy in all matters Ecclesiastical as well as civil may have its due Scope and Influence; It is Our Will and Pleasure

First, That all Appeals to or Correspondence with any Foreign Ecclesiastical Jurisdiction of what nature or kind soever, be absolutely forbidden under very severe Penalties.

2ndly. That no Episcopal or Vicarial Powers be exercised within Our said Province by any Person professing the Religion of the Church of Rome, but such only as are essentially and indispensably necessary to the free Exercise of the Romish Religion, and in those Cases, not without a License and Permission from you under the Seal of Our said Province for and during Our Will and Pleasure, and under such other Limitations and Restrictions as may correspond with the Spirit and Provisions of the Act of Parliament of the 14th year of Our Reign, "for making more effectual Provision for the Govern- "ment of the Province of Quebec;" and no Person whatever is to have holy Orders conferred upon him, or to have the Cure of Souls, without a Licence for that purpose first had and obtained from you.

3rdly. That no Person professing the Religion of the Church of Rome, be allowed to fill any Ecclesiastical Benefice, or to have and enjoy any of the Rights or Profits belonging thereto, who is not a Canadian by Birth (such only excepted as are now in

possession of any such Benefice) and who is not appointed thereto by Us, or by or under Our Authority, and that all Right or Claim of Right in any other Person whatever to nominate, present, or appoint to any vacant Benefice, other than such as may lay Claim to the Patronage of Benefices as a Civil Right, be absolutely abolished, no Person to hold more than one Benefice, or at least not more than can reasonably be served by one and the same Incumbent.

4thly. That no Person whatever professing the Religion of the Church of Rome be appointed Incumbent of any Parish in which the Majority of the Inhabitants shall solicit the Appointment of a Protestant Minister; In such Case, the Incumbent shall be a Protestant, and entitled to all Tythes payable within such Parish: But nevertheless, the Roman Catholics may have the use of the Church for the free exercise of their Religion at such times as may not interfere with the Religious Worship of the Protestants; And in like manner the Protestant Inhabitants in every Parish where the Majority of Parishioners are Roman Catholics, shall notwithstanding have the use of the Church for the Exercise of their Religion at such times as may not interfere with the Religious Worship of the Roman Catholics.

5thly. That no Incumbent professing the Religion of the Church of Rome appointed to any Parish, shall be entitled to receive any Tythes for Lands or Possessions occupied by a Protestant; but such Tithes shall be received by such Persons as you shall appoint, and shall be reserved in the hands of Our Receiver-General as aforesaid for the Support of a Protestant Clergy in Our said Province to be actually resident within the same, and not otherwise, according to such Directions as you shall receive from Us in that behalf, and in like manner all growing Rents and Profits of a vacant Benefice shall during such Vacancy be reserved for, and applied to the like Uses.

6thly. That all Persons professing the Religion of the Church of Rome, who are already possessed of, or may hereafter be appointed to any Ecclesiastical Benefice, or who may be licensed to exercise any power or authority in respect thereto, do take and Subscribe before you in Council, or before such Person as you shall appoint to administer the same, the Oath required to be taken and subscribed by the aforesaid act of Parliament, passed in the Fourteenth Year of Our Reign, intituled "An Act for "making more effectual Provision for the Government of the Province of Quebec in "North America."

7thly. That all Incumbents of Parishes professing the Romish Religion not being under the Ecclesiastical Jurisdiction of the Bishop of Nova Scotia, shall hold their respective Benefices during their good Behaviour, subject however, in case of any conviction for criminal Offences, or upon due Proof of seditious Attempts to disturb the Peace and tranquility of Our Government to be deprived or suspended by you.

8thly. That such Ecclesiastics as may think fit to enter into the holy state of Matrimony, shall be released from all Penalties to which they may have been subjected in such Cases by any Authority of the See of Rome.

9thly. That Freedom of the Burial of the Dead in the Churches and Church yards be allowed indiscriminately to every Christian Persuasion.

10thly. That the Royal Family be prayed for in all churches and Places of holy Worship in such manner and Form as is used in this Kingdom, and that Our Arms and Insignia be put up, not only in all such Churches and Places of holy Worship, but also in all Courts of Justice; and that the Arms of France be taken down in every such Church or Court where they may at present remain.

11thly. That the Society of Romish Priests called the Seminaries of Quebec and Montreal shall continue to possess and occupy their houses of Residence, and all other Houses and Lands to which they were lawfully entitled on the 13th of September 1759. and it shall be lawful for those Societies to fill up vacancies, and admit new Members according to the Rules of their Foundations, and to educate Youth in order to qualify them for the Service of Parochial Cures as they shall become vacant.—It is nevertheless Our Will and Pleasure, that not only those Seminaries, but all other Religious Communities, so long as the same shall continue, be subject to Visitation by you Our Governor, or such other Person or Persons as you shall appoint for that

purpose, and also subject to such Rules and Regulations as you shall, with the advice and Consent of Our Executive Council think fit to establish and appoint.

12thly. It is also Our Will and Pleasure that all other Religious Seminaries and Communities (that of the Jesuits only excepted) do for the present, and until We can be more fully informed of the true state of them, and how far they are or are not essential to the free Exercise of the Religion of the Church of Rome, as allowed within Our said Province, remain upon their present Establishment, but you are not to allow the Admission of any new Members into any of the said Societies or Communities (the Religious Communities of Women only excepted) without Our express orders for that purpose: That the Society of Jesuits be Suppressed or dissolved and no longer continued as a Body Corporate or Politic, and all their Rights, Possessions, and Property shall be vested in Us for such Purposes as We may hereafter think fit to direct and appoint; But We think fit to declare Our Royal Intention to be, that the present members of the said Society as established at Quebec shall be allowed sufficient Stipends and Provisions during their natural Lives, that all Missionaries amongst the Indians, whether established under the Authority of, or appointed by the Jesuits, or by any other Ecclesiastical Authority of the Romish Church, be withdrawn by Degrees, and at such times, and in such manner as shall be satisfactory to the said Indians, and consistent with the public Safety, and Protestant Missionaries appointed in their places—That all Ecclesiastical Persons whatsoever of the Church of Rome be inhibited upon Pain of Deprivation, from influencing any Person in the making of a Will, from inveigling Protestants to become Papists, or from tampering with them in matters of Religion, and the Romish Priests be forbidden to inveigh in their Sermons against the Religion of the Church of England.

45. Whereas We did by Our Commission under the Great Seal of Great Britain, bearing date the 1st day of August 1787, appoint the Right Rev. Father in God, Charles Inglis, Doctor in Divinity, to be Bishop of the Province of Nova Scotia, and thereby give to him and his Successors in the said See, Jurisdiction Spiritual and Ecclesiastical, in and throughout the said Province of Nova Scotia and its Dependencies, according to the Laws and Canons of the Church of England, which are lawfully made and received in England in the several Causes and Matters particularly expressed and set forth in the said Commission and no other:

And Whereas by another Commission We did also give and grant to the said Bishop of Nova Scotia full Power and Authority by himself or his sufficient Commissary or Commissaries, to exercise the like Spiritual and Ecclesiastical Jurisdiction within the Provinces of Quebec, of New Brunswick, and the Islands of St. John, Cape Breton, and Newfoundland, as is set forth in the said Commission—We do hereby order and and enjoin you, that you do give all fit support and Countenance to the said Bishop in the Exercise of his Jurisdiction Spiritual and Ecclesiastical, according to the Laws of this Realm, and the Laws of the Province of Lower Canada, and to the Tenor of the said Commission, It is nevertheless Our Will and Pleasure to reserve to you the granting of Licenses for Marriages, Letters of Administration, and Probates of Wills, as heretofore exercised by you, and your Predecessors, and also to reserve to you and to all others to whom it may lawfully belong, the Patronage and Right of Presentation to Benefices; but it is Our Will and Pleasure, that the Person so presented, shall be instituted by the Bishop or his Commissary duly authorized by him as directed by Our said commission.

46. You are to permit Liberty of Conscience, and the free Exercise of all such modes of Religious Worship as are not prohibited by Law, to all Persons who inhabit and frequent the Province of Lower Canada, provided they be contented with a quiet and peaceable Enjoyment of the same, without giving Offence or Scandal to Government.

47. You are to take especial Care that God Almighty be devoutly and duly served throughout your Government, that the Lord's Day be duly kept, and that the Services and Prayers appointed by and according to the Book of Common Prayer be publicly and solemnly read and performed throughout the year.

48. You are to be careful that the Churches which are or may be hereafter erected in Our said Province of Lower Canada be well and orderly kept.

49. You shall recommend to the Legislative Council and General Assemblies of the Province of Lower Canada, to settle the Limits of Parishes in such a manner as shall be deemed most convenient.

50. You are to use your best Endeavours that every Minister be constituted one of the Vestry in his respective Parish, and that no Vestry be held without him, except in case of Sickness, or that, after notice given of a Vestry he omit to come.

51. It is Our Will and Pleasure that you recommend to the Legislative Council and Assembly of Our said Province of Lower Canada to make due Provision for the erecting and maintaining of Schools, where youth may be educated in competent Learning, and in knowledge of the Principles of the Christian Religion.

52. And it is Our further Will and Pleasure that no Person shall be allowed to keep a School in the Province of Lower Canada, without your License first had and obtained; In granting which you are to pay the most particular attention to the Morals and proper Qualifications of the Persons applying for the same, and in all cases where the School has been founded, instituted, or appointed for the Education of members of the Church of England, or where it is intended that the School Master should be a Member of the Church of England, you are not to grant such Licences, except to Persons who shall first have obtained from the Bishop of Nova Scotia, or one of his Commissaries, a Certificate of their being properly qualified for that purpose.

53. And it is Our further Will and Pleasure, that in order to suppress every Species of Vice, Profaneness and Immorality, you do forthwith cause all Laws already made against Blasphemy, Profaneness, Adultery, Fornication, Polygamy, Incest, Profanation of the Lord's Day, Swearing, and Drunkenness, to be strictly put in execution in every part of the Province of Lower Canada, and that for this purpose you do Direct that the Constables and Church Wardens of the several Parishes do make Presentment upon Oath of any of the Vices before mentioned to the Justices of the Peace in their Session, or to any of the other Temporal Courts: And you are earnestly to recommend to the Legislative Council and Assembly to provide effectual Laws for the Restraint and Punishment of all such of the aforementioned Vices against which no Laws are as yet provided, or in cases where the Laws already made are found to be insufficient. And in order to discountenance Vice and promote the practice of Virtue to the utmost of your power We do hereby strictly command and enjoin you to appoint no Person to be a Justice of the Peace, or to any trust or Employment, whose notorious ill Life or Conversation may occasion Scandal.

54. You are not to present any Protestant Minister to any Ecclesiastical Benefice within Our said Province, by virtue of the said Act passed in the present year of Our Reign and of Our Commission to you, without a proper Certificate from the Bishop of Nova Scotia or his Commissary, of his being conformable to the Doctrine and Discipline of the Church of England.

55. And you are to take especial Care that a Table of Marriages established by the Canons of the Church of England be hung up in all Places of Public Worship according to the Rites of the Church of England.

56. It is Our Royal Intention that the Peltry Trade of the Interior Country shall be free and open to all Our Subjects, Inhabitants of any of Our Colonies, who shall, pursuant to what was directed by Our Royal Proclamation of 1763 obtain trading Licences from the Governors of any of Our said Colonies under Penalties to observe such Regulations as shall be made by Our Legislature of Our Province of Lower Canada for that Purpose—These Regulations therefore, when established, must be made Public throughout all Our American Possessions; and they must have for their Object the giving every possible facility to that Trade which the nature of it will admit, and which may be consistent with fair and just dealing towards the native Indians with whom it is carried on; The fixing stated times and places for carrying on the Trade and adjusting Modes of settling Tarriffs of the Prices of Goods and Furrs, and above all the restraining the Sale of Spirituous Liquors to the Indians, will be the most probable and effectual Means of answering the ends proposed.

57. The Fisheries on the Coast of Labrador and the Islands adjacent thereto, are Objects of the greatest Importance, not only on account of the Commodities they produce,

but also as Nurseries of Seamen upon whom the Strength and Security of Our Kingdom depend.

58. Justice and Equity demand that the real and actual property and possession of the Canadian Subjects which existed at the time of the Cession of the said Province on that Coast, should be preserved entire, and that they should not be molested or hindered in the Exercise of any Sedentary Fisheries they may have established there.

59. Their Claims however extend to but a small district of the Coast, on the greatest part of which District, a Cod Fishery is stated to be impracticable.

60. On all such parts of the Coast where there are no Canadian possessions, and more especially where a valuable Cod Fishery may be carried on, it will be your Duty to make the Interest of Our British Subjects going out to fish there in Ships fitted out from Great Britain, the first Object of your Care, and as far as circumstances will admit to establish on that coast the Regulations in favour of British fishing Ships which have been so wisely adopted by the Act of Parliament passed in the Reign of King William the Third, for the Encouragement of the Newfoundland Fishery, and by the several Acts passed in the 15, 26, 28 and 29 years of Our Reign for that purpose; And you are on no Account to allow any Possession to be taken, or Sedentary Fisheries to be established upon any parts of the Coast that are not already private Property by any Persons whatever, except only such as shall produce annually a certificate of their having fitted out from some Port in Great Britain.

61. Whereas it will be for the general Benefit of our Subjects carrying on the Fishery in the Bay of Chaleurs in Our Province of Lower Canada, that such Part of the Beach and Shore of said Bay as is ungranted, should be reserved to Us, Our Heirs, and Successors, it is therefore Our Will and Pleasure that you do not in future direct any Survey to be made or Grant to be passed for any part of the ungranted Beach or Shore of the said Bay of Chaleurs, except such parts thereof as by Our Orders in Council dated the 29th of June and 21st of July 1786 are directed to be granted to John Shoolbred of London, Merchant, and to Messrs. Robin, Pipon and Company of the Island of Jersey Merchants, but that the same be reserved to Us, Our Heirs and Successors, together with a Sufficient Quantity of Wood Land adjoining thereto, necessary for the purpose of carrying on the Fishery; The Limits of such Wood Land so to be reserved to be determined upon and ascertained by you and Our Executive Council for Our said Province of Lower Canada, in such manner as from the most authentic Information shall appear to you and them most convenient and proper for that purpose—It is nevertheless Our Intention, and We do hereby signify to you Our Will and Pleasure, that the free use of such Beach or Shore, and of the Wood Land so to be reserved, shall be allowed by you or any Person authorized by you, to such of our Subjects as shall resort thither for the purpose of carrying on the Fishery in such proportions as the number of Chaloups he or they shall respectively employ may require; Provided that, if any Fishermen who shall have permission to occupy any part of the said Beach or Shore, and Wood Land for the purpose of said Fishery, shall not during any one Season continue so to occupy and employ any part of the said Beach or Shore, and Wood Land so allotted to him, you or any Person authorized by you as above may and shall allow the use of such part to any other Fisherman who shall apply for the same for the purpose of carrying on the Fishery. And Whereas it may be necessary to establish local Regulations to prevent Abuses as well as disputes and Misunderstandings between the Fishermen resorting to the said Beach or Shore, it is Our Will and Pleasure that you, by and with the Advice and Consent of Our Executive Council, do frame such Regulations from time to time as to you shall appear necessary to answer those salutary purposes, and that you transmit the same to Us through one of Our principal Secretaries of State for Our Pleasure therein, and Copies thereof to Our Committee of Our Privy Council for Trade and Foreign Plantations by the first opportunity.

62. And Whereas it is expedient for Our Service that We should from time to time be informed of the state of the Trade and Fisheries, as well as of the Population of Our said Province of Lower Canada, It is Our Will and Pleasure, that you do transmit to Us through one of Our Principal Secretaries of State, and to Our Committee of Our Privy Council for Trade and Foreign Plantations for their Information, yearly and

every year, a full and particular Account of the State of the Fur and Peltry Trade, The nature and Extent of the several Fisheries carried on by Our Subjects or others, either on the Coasts Lakes or Rivers of the said Province, the State of the Cultivation, particularly specifying the Quantity of Grain, Hemp, and Flax produced, and of any other important Branch of Trade which may in your opinion be undertaken and advantageously carried on by Our Subjects; the number of Inhabitants, distinguishing them under different heads, of Men, Women, and Children, inserting in such Account the number of Persons born, christened, and buried, and any extraordinary Influx, or Emigration from Our said Province, specifying at the same time the number of Slaves, and the number of Our Subjects capable of bearing Arms in the Militia, The Number and Tonnage of Shipping and Craft employed upon the Lakes or Rivers in or contiguous to the Province of Upper Canada, and of the Number and Tonnage of the Shipping entering inwards or clearing outwards from the Ports of Our Province of Lower Canada; together with any other Information on these or any other points of the like nature which may be proper to be communicated to Us.

63. And Whereas for some years past, the Governors of some of Our Plantations have seized and appropriated to their own use, the produce of Whales of several kinds taken upon those Coasts, upon pretence that Whales are Royal Fishes, which tends greatly to discourage that Branch of Fishery in Our Plantations, and to prevent Persons from settling there—It is therefore Our Will and Pleasure that you do not pretend to any Claim nor give any manner of Discouragement to the Fishery of Our Subjects upon the Coasts of the Province under your Government, but on the contrary that you give all possible Encouragement thereto.

64. And Whereas you will receive from Our Commissioners for executing the Office of High Admiral of Great Britain, and of the Plantations, a Commission constituting you Vice Admiral of Our said Province of Lower Canada, you are required and directed carefully to put in execution the several Powers thereby granted you.

65. And Whereas We are desirous that Our Subjects in the Plantations should have the same ease in obtaining the Condemnation of Prizes there as in this Kingdom, You are to signify Our Will and Pleasure to the Officers of Our Admiralty Court in Lower Canada, that they do not presume to demand or exact other Fees than what are taken in this Kingdom, which amount to about Ten Pounds for the Condemnation of each Prize, according to the List of such Fees.

66. And there having been great Irregularities in the manner of granting Commissions in the Plantations to private Ships of War, you are to govern yourself whenever there shall be occasion according to the Commission and Instructions granted in this Kingdom, but you are not to grant Commissions of Marque or Reprisal against any Prince or State in amity with Us to any Person whatsoever, without Our Special Command, and You are to oblige the Commanders of all ships having private Commissions to wear no other Colours than such as are described in an Order in Council of the 7th January 1730, in relation to Colours to be worn by all Ships of War.

67. Whereas Commissions have been granted unto several Persons in Our respective Plantations in America for trying Pirates in those parts pursuant to the several Acts for the more effectual Suppression of Piracy; and a Commission will be prepared empowering You as Our Captain General and Governor in Chief of Our Province of Lower Canada, with others therein mentioned to proceed accordingly in reference to the said Province; Our Will and Pleasure is, that in all matters relating to Pirates, you govern yourself according to the Intent of the said Acts.

68. Whereas it is absolutely necessary that We be exactly informed of the State of Defence of all Our Plantations in America, as well as in relation to the Stores of War that are in each Plantation, as to the Forts and Fortifications there, and what more may be necessary to be built for the Defence and Security of the same—You are from time to time to transmit an Account thereof with relation to Our said Province of Lower Canada in the most particular manner, and you are therein to express the present State of the Arms, Ammunition, and other Stores of War belonging to the said Province either in any Public Magazines or in the hands of private Persons, together with a State of all Places either already fortified or that you may judge necessary to be fortified for the Security of Our said Province, and you are to transmit the said accounts to us by one

of Our Principal Secretaries of State, and also Duplicates thereof to Our Master General or Principal Officers of Our Ordnance, which Accounts are to express the particulars of Ordnance Carriages, Balls, Powder, and all other Sorts of Arms and Ammunition now in Our public Stores, and so from time to time of what shall be sent to you or bought with the Public money, and to specify the time of the disposal and the occasion thereof, and other like accounts half yearly in the same manner.

69. And in case of Distress of any other of our Plantations, you shall upon Application of the respective Governors thereof to you, assist them with what aid, the Condition and Safety of Our said Province under your Government can spare.

70. If any thing shall happen which may be of Advantage or Security to Our Province under your Government, which is not herein or by your Commission provided for; We do hereby allow unto you with the Advice and Consent of Our said Executive Council, to take order for the present therein, provided nevertheless that what shall be done be not repugnant to the said Acts passed in the 14th and in the present year of Our Reign, giving unto Us, by one of Our Principal Secretaries of State speedy notice thereof, that you may receive Our Ratification if We shall approve the same, Provided always that you do not by Colour of any Power or Authority hereby given you, commence or declare War without Our knowledge and particular Commands therein, except it be for the purpose of preventing or repelling Hostilities, or unavoidable Emergencies wherein the consent of Our Executive Council shall be had, and speedy notice given thereof to Us, by one of Our Principal Secretaries of State.

71. And Whereas We have by the first Article of these Our Instructions to you directed and appointed that your Chief Residence shall be at Quebec; You are nevertheless frequently to visit the other parts of Your Government in order to inspect the management of all Public affairs, and thereby the better to take Care that the Government be so administered that no disorderly Practice may grow up contrary to Our Service and the Welfare of Our Subjects.

72. And Whereas We are desirous that a proper Provision should be made for the support of Our Government within Our said Province of Lower Canada, We do therefore hereby declare it to be Our Royal Intention that the following Annual Salaries and Allowances be discharged and paid out of any Revenues arising to Us within the same, or out of such monies as shall be granted or appropriated to the Uses and Services of Our said Province of Lower Canada, that is to say :—

74. And Whereas great Prejudice may happen to Our Service, and to the Security of Our said Province by the Absence of you Our Governor in Chief, or Our Lieutenant Governor for the time being, you shall not upon any pretence whatsoever come to Europe without having first obtained leave for so doing from Us under Our Sign Manual and Signet, or by Our Order in Our Privy Council.

75. And Whereas We have thought fit by Our Commission to direct that, in case of Your Death or Absence from Our said Province, and in case there be at that time no Person commissionated or appointed by Us to be Our Lieutenant Governor, the eldest Executive Councillor who shall be at the time of Your Death or Absence residing within Our said Province of Lower Canada, subject to such other Nomination and appointment by you under the Great Seal of Our said Province as in Our said Commission is in that behalf mentioned, shall take upon him the Administration of the Government, and execute Our said commission and Instructions and the Several Powers and Authorities therein contained in the manner therein directed—it is nevertheless Our express Will and Pleasure, that in such case the said President shall forbear to assent to any Acts but what are immediately necessary for the Welfare of Our said Province without Our particular order for that Purpose, and that he shall not take upon him to dissolve the Assembly then in being, nor to remove or to suspend any of the Members of Our said Executive Council, nor any Judge, Justices of the Peace or other Officer Civil or Military without the Advice and Consent of the majority of the said Executive Council ; and the said President is by the first opportunity to transmit to Us by one of Our Principal Secretaries of State, the reasons for such Alterations signed by him and Our Council—And Our Will and Pleasure is, that the above instructions with respect to such President shall also be equally observed by and binding upon such other Executive Councillor as may be nominated and appointed by you under the Great Seal of Our said Province, by virtue of our said Commission in that behalf.

Emoluments granted to them and arising from the respective Governments in as full and ample a manner as if the said Governments were under distinct Governors in Chief; it is therefore Our Will and Pleasure that you shall not at any time or times when you shall be resident and commanding in chief in either of Our said Provinces of Upper Canada, Nova Scotia, and New Brunswick have or receive any part of the said Salaries, Perquisites or Emoluments, but that the same shall continue to be paid and satisfied to the Lieutenant Governors of the said Provinces respectively in like manner as they usually are during your Absence therefrom.

77. And you are upon all occasions to send to Us by one of Our Principal Secretaries of State a particular Account of all your Proceedings and of the Condition of Affairs within Your Government. G. R.

Endorsed : Instructions for the Right Honourable
Lord Dorchester, Governor of Lower Canada.
Dated 16th September, 1791.

[L.S.]
GEORGE R.

C. O. Instructions, Quebec, 1786–1791.

ORDERS AND INSTRUCTIONS to Our Right Trusty and Welbeloved Guy Lord Dorchester, Knight of the Most Honourable Order of the Bath, Our Captain General and Governor in Chief in and over Our Province of Lower Canada, in Pursuance of several Laws relating to the Trade and Navigation of Our Kingdoms of Great Britain and Ireland and Our Colonies and Plantations in America. Given at Our Court at St. James's the Sixteenth Day of September 1791, In the Thirty first Year of Our Reign.

First. You shall inform yourself of the several Laws relating to the Plantation Trade, and for the Encouragement of the Trade & Navigation of Our Kingdoms of Great Britain and Ireland, and shall take the Oath ordained by Law, to do your utmost, that all the Clauses Matters and Things therein contained, or which shall be enacted in any Act of Parliament hereafter to be made, relating to Our Plantation, or to the Trade & Navigation of Our said Kingdoms, be punctually and bonâ fide observed according to the true Intent and meaning thereof, and in particular you are to take especial Care, that the several Acts of Parliament of Great Britain for allowing the Importation & Exportation, of certain Goods, Wares, and Merchandize into and from Our Kingdom of Ireland, from and to Our Plantations in America, in like manner as the same are exported & imported from and into Our Kingdom of Great Britain from the said Plantations be strictly complied with in your Government.

2. And whereas an Act was passed in the Twenty-sixth Year of Our Reign, intituled, "An Act for the further Increase and Encouragement of Shipping and "Navigation" It is Our Will and Pleasure that you do cause the Provisions of the said Act to be strictly enforced within your Government; And you are to be particularly attentive to such Duties as are therein required to be done and performed by you, so that the Regulations thereby made and enacted be punctually complied with.

3. And whereas the Colonies and Provinces of New Hampshire, Massachusets' Bay, Rhode Island, Connecticut, New York, New Jersey, Pensylvania, the three lower Counties on the Delaware, Maryland, Virgina, North Carolina, South Carolina and Georgia, were by the provisional Articles of Peace concluded at Paris, on the 30th of November 1782, and also by the Definite Treaty signed on the 3rd of September, 1783, declared free and Independent States, by the Name of the United States of America; And whereas by an Act made in the Twenty third Year of Our Reign, intituled, "An "Act for preventing certain Instruments from being required from Ships belonging to "the United States of America, and to give to His Majesty for a limited time certain "Powers for the better carrying on Trade and Commerce, between the Subjects of His "Majesty's Dominion, and the Inhabitants of the said United States." It was enacted

that during the Continuance of that Act, it should be lawful for Us in Council, by Order, or Orders to be issued and published from time to time, to give such Directions, and to make such Regulations with respect to Duties, Drawbacks, or otherwise for carrying on the Trade & Commerce between the People and Territories belonging to Our Crown, & the People and Territories of the said United States, as to Us in Council should appear most expedient and salutary, any Law, Usage, or Custom to the contrary notwithstanding; the Provisions of which said recited Act have been continued & enforced by several other Acts since passed; And Whereas in pursuance of the Powers vested in Us, by the Acts of Parliament aforesaid, We by several Orders issued by Us, in Our Council, have made such Regulations and given such Directions, for regulating the Trade between Our Dominions & the said United States, as the Interest and Welfare of Our Subjects, & the Preservation and Encouragement of the Trade and Navigation of Our Kingdoms, have from time to time made necessary and expedient and particularly by that of the 4th of April, 1787, by which We did make certain Regulations with respect to the Importation of Goods & Merchandize the Growth and Produce of the United States of America, into Our Territories and Islands in the West Indies, It is therefore Our Will and Pleasure, that you do in all things conform yourself, as well to the Provisions of the above mentioned Acts of Parliament, as to the Regulations and Directions contained in Our said Orders in Council; or such further Regulations and Directions, as may be contained in any future Order or Orders made by Us in Council, for the purposes aforesaid, & that you do give the proper Orders to the several Officers concerned, that due Obedience be paid thereunto.

4. You shall take Care that the Naval Officers within your Government, do give such Security to the Commissioners of Our Customs, for the true and faithful Performance of their Duty, as is by law required.

5. And whereas it is necessary for the greater Convenience of Merchants and others, that the Naval Officers and the Collectors of the Customs should reside at the same Ports or Towns, you are therefore to take Care that this Regulation be observed, and to consult with the surveyor General of Our Customs in what Place, it may be most convenient to have the Custom House fixed, for the Dispatch of Business, if the same shall not have been already done, and to take Care that the Collector and Naval Officer reside within a convenient Distance of the Custom House.

6. You shall every three Months or oftener, as there shall be Opportunity of Conveyance, transmit to the Commissioners of Our Treasury, or Our High Treasurer for the time being, and to the Commissioners of Our Customs in London, a List of all the Ships and Vessels trading in your Government according to the Schedule hereunto annexed, together with a List of the Bonds taken in pursuance of the several Acts herein before mentioned; And you shall cause Demand to be made of every Master, at his clearing of an Invoice, of the Contents and Quality of Lading &c., according to the Schedule hereunto also annexed; And you shall moreover direct the several Naval Officers within your Government, to furnish you with Quarterly Lists of such Ships and Vessels, together with the Tonnage and the Names of the Masters and Owners thereof, and of the Cargoes according to the Schedule before mentioned, which you are to transmit to Us thro' one of Our principal Secretaries of State, by the first Opportunity that shall offer, after the Expiration of such Quarter; And it is Our Will and Pleasure, that you be particularly attentive to Our Directions in this respect, and that you do take due Care, that the several Naval Officers do strictly comply therewith.

7. You shall give Directions that the Surveyor General of the Customs for the District in which Your Government lyes, be permitted to have recourse to the said Bonds, as well as to the Book or Books, in which they are, or ought to be entered, & to examine, as well whether due Entry be made, as whether they are regularly taken & discharged; And where it shall appear that Bonds are not regularly discharged, you are to order that such Bonds be put in suit.

8. You shall not Assent to any Act of Assembly, or allow any Usage to prevail within Your Government, which shall be repugnant to the Acts of Parliament herein before mentioned, or to any that may hereafter be made, as far as the same relate to Our Plantations in America.

9. You shall be aiding and assisting to the Collectors, & other Officers of Our Customs appointed or who shall hereafter be appointed by the Commissioners of Our Customs in this Kingdom, by and under the Authority and Direction of the Commissioners of Our Treasury, or Our High Treasurer for the time being; and also to the Officers of the Court of Vice Admiralty in your Government appointed, or who shall hereafter be appointed, by Our High Admiral of Great Britain, or Commissioners for executing the office of High Admiral, or by you, or Our Commander in Chief for the time being, as Vice Admiral within your said Government, in putting in Execution the several Acts of Parliament before mentioned; And you shall cause due Prosecution of all such Persons as shall anyway resist, or hinder any of the said Officers of Our Admiralty, or Customs, in the Performance of their Duty.

10. Whereas the Commissioners appointed for collecting the Six Pence per Month, from Seamen's Wages for Our Royal Hospital at Greenwich, pursuant to the Act of Parliament for that purpose, have given Instructions to their Receivers in foreign Parts for their Conduct therein, It is Our Will and Pleasure, that you be aiding and assisting to the said Receivers in your Government, in the due Execution of their Trusts.

11. You shall take Care that upon any Actions, Suits and Informations that shall be brought, commenced or entered in any Court within your Government, upon any Law, or Statute, concerning Our Duties, or Ships, or Goods to be forfeited, by reason of any unlawful Importation, or Exportation, there be not any Jury impannelled, but of such as are Natives of Great Britain, Ireland, or some of Our Plantations and entitled by Law, to the Privileges of British Subjects.

12. You shall from time to time advise the Commissioners of Our Customs in London of all Failures, Neglects, Frauds and Misdemeanors of any of the Officers of Our Customs within your Government, and shall also communicate to them, all occurences which you may think necessary for their Information, relating either to any of the Acts hereinbeforementioned, or to Our Revenue, under their Management.

13. If you shall discover that any Persons, claiming Right or Propriety in any Island, or Tract of Land in America, by Charter, Letters Patent, or other Grant, shall at any time hereafter, alien, sell, or dispose of such Right, or Propriety other than to Our natural born Subjects of Great Britain, Ireland or Our Plantations in America, without the License or Consent of Us, Our Heirs & Successors, signified by Our or Their Order in Council first had and obtained, you shall give Notice thereof to Us, thro' one of Our principal Secretaries of State, and to the Commissioners of Our Treasury, or Our High Treasurer of Great Britain for the time being.

14. And whereas notwithstanding the many good Laws made from time to time, for preventing Frauds in the Plantation Trade, it is manifest that very great Abuses have been, and still continue to be practised, to the Prejudice of the same, which Abuses must needs arise either from the Insufficiency, or Insolvency of those Persons who are accepted as Securities, in Bonds required by Law, or from the Remissness, or Connivance of Our Governors, who ought to take due Care that those Persons who execute such Bonds should be sued for Breaches of the Conditions of such Bonds, you are to take Notice that We consider the Good of Our Plantations and the Improvement of the Trade thereof, by a strict and punctual Observance of the several Laws in force concerning the same, to be of so great Importance to the Benefit of this Kingdom, and to the advancing of the Revenue of Our Customs, that, if We shall hereafter be informed that at any time there shall be any Failure in the due Observance of those Laws, and of these present Instructions, by any wilful Neglect or Fault on your Part, we shall esteem such Neglect to be a Breach of the same; And We think proper to apprize you, that it is Our fixed and determined Will and Intention, to remove you, or Our Commander in Chief for the time being, from your Employments, for any such offence, and that We will strictly levy and inflict as well the Fine of One Thousand Pounds, imposed by an Act passed in the Seventh & Eighth of King William the Third, Chap: 22d as all other Fines, Forfeitures, Pains and Penalties, to which you shall for such Offence be liable by any Acts of Parliament now in force, or otherwise—And that you will further on the same account receive the most rigourous Marks of Our Highest Displeasure.

5th. And that We may always be informed of the Names and Characters of Persons fit to supply the Vacancies which may happen in Our said Executive Council, you are, in case of any Vacancy in the said Council, to transmit to Us, thro' One of Our Principal Secretaries of State, the Names and characters of such three Persons, Inhabitants of Our said Province of Lower Canada whom you may esteem the best qualified for fulfilling the trust of such Executive Councillor.

6th. And in the choice and selection of such persons proposed to fill such Vacancy in Our said Executive Council as also of the Chief Officers, Judges, Assistants, Justices of the Peace, and other Officers of Justice, you are always to take care that

they be Men of Good Life, well affected to Our Government and of Abilities suitable to their Employments.

7th. And Whereas We are Sensible that effectual care ought to be taken to oblige the Members of Our Executive Council to a due attendance It is Our Will and Pleasure in order to prevent the many inconveniences which may happen for want of a Quorum of the Council to transact Business as occasion may require that if any of the Members of Our said Executive Council residing in Our said Province, shall hereafter wilfully absent themselves from the Province, and continue Absent above the Space of six Months together, without leave from you first obtained under your hand and seal, or shall remain absent for the space of One year without Our Leave, given them under Our Royal Signature their places in the said Executive Council shall immediately thereupon become Void, And We do hereby Will and require you that this, Our Royal Pleasure be signified to the several Members of Our said Executive Council, and that it be entered in the Council Books of the said Province as a standing Rule.

8th. And to the end that Our said Executive Council may be assisting to you in all Affairs relating to Our Service, you are to communicate to them such, and to many of these Our Instructions wherein their advice is mentioned to be requisite, and likewise all such others, from time to time, as you shall find it convenient for Our Service to be imparted to them.

9th. You are also to permit the Members of Our said Executive Council to have and enjoy freedom of Debate and Vote in all Affairs of Public concern which may be debated in the said Executive Council.

10th. Whereas by the aforesaid recited Act passed in the 31st Year of Our Reign it is provided that the Seats of Our Members of Our Legislative Council shall become vacant in certain cases mentioned in the said Act, It is Our Will and Pleasure, that if any Member of Our said Legislative Council shall at any time leave Our said Province and reside out of the same, You shall report the same to Us by the first opportunity thro' One of Our Principal Secretaries of State and you are also in like manner to report whether such Member of the said Council is absent by your permission, or by the permission of Our Lieutenant Governor, or Commander in Chief of the said Province for the time being; and you are also, in like manner to report, if it shall come to your knowledge that any such Member shall at any time take or have taken the Oath of Allegiance or obedience to any foreign Prince or Power or shall be attainted for Treason in any Court of Law within any of our Dominions, that We may take such Measures thereupon as We shall think fit And you are to take especial care that the several Provisions in the said Act respecting the several Cases in which Persons may or may not be entitled to receive Writs of Summons to the said Legislative Council, or to hold their places therein shall be duly executed.

11th. And for the Execution of so much of the Powers vested in you by Our said Commission, and by virtue of the said Act as relates to the declaring that you assent, in Our Name, to Bills passed by the Legislative Council and House of Assembly, or that you withhold an assent therefrom, or that you reserve such Bills for the signification of Our Royal Pleasure thereon. It is Our Will and Pleasure that you do carefully observe the following Rules, directions and Instructions, vizt

That the Style of enacting all the said Laws Statutes and Ordinances, be by Us Our Heirs and Successors by and with the advice and Consent of the Legislative Council and Assembly of Our Province of Lower Canada, constituted and assembled by virtue and under the Authority of an Act passed in the Parliament of Great Britain Intituled An Act to repeal certain parts of An Act passed in the 14th year of His Majesty's Reign Intituled "An Act for making more effectual Provision for the Gov- "ernment of the Province of Quebec in North America, and to make further Provision "for the Government of the said Province," and that no Bill in any other form shall be assented to by you in Our Name.

That each different Matter be provided for by a different Law, without including in One and the same Act such things as have no proper relation to each other.

That no Clause be inserted in any Act or Ordinance which shall be foreign to what the Title of it imports, and that no perpetual Clause be part of any temporary Law.

That no Law or Ordinance whatever be suspended, altered, continued, revived or repealed by General Words, but that the Title and Date of such Law or Ordinance shall be particularly mentioned in the enacting part.

That in case any Law or Ordinance respecting private Property shall be passed without a saving of the Right of Us, Our Heirs and Successors and of all Persons or Bodies Politic or Corporate except such as are mentioned in the said Law or Ordinance, you shall declare that you withhold your Assent from the same; and if any such Law or Ordinance shall be passed without such Saving, you shall in every such Case declare that you reserve the same for the Signification of Our Royal Pleasure thereon.

That in all Laws or Ordinances for levying Money or imposing Fines, Forfeitures or Penalties, express mention be made that the same is granted or reserved to Us, Our Heirs and Successors for the Public uses of the said Province, and the support of the Government thereof, as by the said Law shall be directed, and that a Clause be inserted declaring that the due Application of such Money, pursuant to the directions of such Law, shall be accounted for unto Us, thro' One of Our Own Secretaries of State for the time being, in such manner and form as We shall direct.

12th. And Whereas We have by Our said Commission given you full Power and Authority, subject as therein is specified, and to these Our Instructions, in that Behalf to issue Writs of Summonses and Election, and to call together the Legislative Council and Assembly of Our said Province of Lower Canada, and for the purpose of electing the Members of the Assembly of Our said Province of Lower Canada, have also given you full Power and Authority to issue a Proclamation dividing the said Province of Lower Canada into districts and Counties, or Circles and Towns, or Townships and declaring and appointing the Number of Representatives to be chosen by each of such districts or Counties, or Circles and Towns or Townships, Now Our Will and Pleasure is that You shall issue such Proclamation as soon as may be, allowing nevertheless a reasonable time between the issuing thereof, and the time of issuing the Writs of Summons and Election above mentioned.

13. That all Laws assented to by you in Our Name, or reserved for the signification of Our Royal Pleasure, thereon shall, when transmitted by you, be fairly abstracted in the Margins, and accompanied with very full and particular observations upon each of them, that is to say whether the same is introductory to a new Law, declaratory of former Law, or does repeal a Law then before in being. And you are also to transmit, in the fullest manner, the reasons and occasion for proposing such Laws, together with fair Copies of the Journals and Minutes of the Proceedings of the said Legislative Council and Assembly, which you are to require from the Clerks, or other proper Officers in that behalf of the said Legislative Council and Assembly.

14th. And Whereas in the said Act it is provided that, in certain cases Acts passed by the Legislative Council and Assembly of the Province shall, previous to any signification of Our Assent thereto, be laid before both Houses of Our Parliament of this Kingdom, And Whereas it is also provided in the said Act that in certain cases Provision may be made by the Acts of the Legislative Council and Assembly of the Province, assented to by Us, Our Heirs and Successors, (thereby reversing the Power of giving such Assent to Us, Our Heirs and Successors, only) you are to take especial care that in every such Case, you are to declare that you reserve such Bills for the signification of Our Pleasure thereon and you will likewise reserve for such signification every other Bill which you shall consider of an extraordinary or unusual Nature, or requiring Our special consideration and decision thereupon, particularly such as may affect the Property, Credit and Dealings of such of Our Subjects as are not usually resident within the said Province or whereby duties shall be laid upon British or Irish Shipping, or upon the products or manufactures of Great Britain and Ireland.

15. And Whereas Laws have formerly been enacted in several of Our Plantations in America, for so short a time, that Our Royal Assent or Refusal thereof could not be had before the time for which such Laws were enacted did expire, you shall not Assent in Our Name to any Law that shall be enacted for a less time than two years, except in Cases of imminent necessity or immediate temporary expediency; and you shall not declare your Assent to any Law containing Provisions which shall have been dis-

allowed by Us without express leave for that purpose first obtained from Us upon a full representation by you to be made to Us, thro' One of Our Principal Secretaries of State, for the reasons and necessity for passing such Law.

16. Whereas We have thought fit by Our Orders in Our Privy Council to disallow certain Laws passed in some of Our Colonies and Plantations in America for confirming the Privileges of Naturalization on Persons being Aliens, and for divorcing persons who have been legally joined together in Holy Marriage, And Whereas Acts have been passed in others of Our said Colonies to enable Persons who are Our Liege Subjects by birth or Naturalization to hold and execute Lands, Tenements and real Estates, Although such Lands, Tenements and real Estates had been originally granted to, or purchased by Aliens antecedent to Naturalization, It is Our Will and Pleasure that you do not upon any pretense whatsoever give your Assent to any Bill or Bills that may hereafter be passed by the Legislative Council and Assembly of the Province under your Government, for the Naturalization of Aliens nor for the divorce of Persons joined together in Holy Marriage, nor for establishing a Title in any Persons to Lands Tenements and real Estates in Our said Province, originally granted or purchased by Aliens antecedent to Naturalizatlon.

17. 18th. Whereas by An Act of Our Parliament of Great Britain passed in the 4th year of Our Reign Intituled "An Act to prevent Paper Bills of Credit hereafter to be issued in any of His Majesty's Colonies or Plantations in America from being declared to be a legal Tender in payment of Money and to prevent the legal Tender of such Bills as are now subsisting from being prolonged beyond the periods limited for calling in and sinking the same" it is enacted that no Paper Bills, or Bills of Credit should be created or issued by any Act, Order Resolution or Vote of Assembly in any of Our Colonies or Plantations in America to be a legal Tender in payment; and that any such Act, Order, Resolution or Vote for creating or issuing such Paper Bills, or Bills of Credit, or for prolonging the legal Tender of any such then subsisting and current in any of the said Colonies or Plantations, should be null and void: And Whereas by Another Act of Our said Parliament, passed in the 13th year of Our Reign, Intituled "An Act to explain and amend the above recited Act passed in the fourth year of Our Reign as aforesaid," It is enacted that any Certificates, Notes, Bills or Debentures which shall or may be voluntarily accepted by the Creditors of the Public within any of the Colonies in America as a security for the payment of what is due and owing to the said Public Creditors may be made and enacted by the general Assemblies of the said Colonies respectively to be a Tender to the Public Treasurers in the said Colonies for the discharge of any Duties, Taxes or other debts whatsoever due to & payable at or in the said Public Treasuries of the said Colonies, in virtue of Laws passed within the same, and in no other case whatsoever, It is Our Will and Pleasure that you do in all things conform yourself to the Provisions of the said recited Acts, both with respect to the not assenting to any Bills which may be presented to you for the purpose of issuing or creating Paper Bills or Bills of Credit to be a legal Tender in payment, and the assenting to any Bills by which Certificates, Notes or Debentures which may be voluntarily accepted in payment by the Public Creditors, shall be made a legal Tender to the Treasury for Taxes, Duties and other Payments to the Public Treasury.

20th. And you are on every occasion to transmit to Us thro' one of Our Principal Secretaries of State with all convenient Speed, a particular Account of all new Establishments of Jurisdiction, Courts, Offices and Officers Powers, Authorities Fees and Privileges granted and settled within Our said Province of Lower Canada, as likewise An Account of all the Expenses (if any) attending the Establishment of the said Courts and Offices.

23rd. And Whereas frequent Complaints have been made of great delays and undue proceedings in the Courts of Justice in several of Our Plantations, whereby many of Our good Subjects have very much suffered, and it being of the greatest Importance to Our Service, and to the Welfare of Our Plantations that Justice be everywhere speedily and duly administered, and that all disorders, delays and other undue practices in the Administration thereof be effectually prevented, We do particularly require you to take especial care, that in all Courts where you are authorized to preside, Justice be impartially administered, and that in all other Courts established within Our said Province All Judges and other Persons therein concerned, do likewise perform their several duties without delay or partiality.

24th. You are to take care that no Courts of Judicature be adjourned but upon good Grounds, as also that no Order of any Court of Judicature be entered, or allowed, which shall not be first read & approved of by the Justices in open Court. Which Rule you are in like manner to see observed with relation to all Proceedings of Our Executive Council of Lower Canada, and that all Orders there made be first read and approved in such Council before they are entered upon the Council Books.

25th. You are to take care that all Writs within Our said Province of Lower Canada be issued in Our Name.

26th. You shall take care, with the Advice and Assistance of Our Executive Council, that such Prisons as may at any time be necessary, be erected, and that the same, or any other already erected, be kept in such a Condition as may effectually secure the Prisoners which now are, or may hereafter be confined therein.

reasonable support unto the Patent Officers in the enjoyment of their legal and established Fees Rights Privileges and Emoluments according to the true Intent and Meaning of their respective Patents.

29th. And Whereas several Complaints have been made by the Officers of Our Customs in Our Plantations in America that they have frequently been obliged to serve on juries and personally to appear in Arms whenever the militia is drawn out and thereby are much hindered in the Execution of their several Employments, Our Will and Pleasure is, that you take effectual Care, and give the necessary directions, that the several Officers of Our Customs be excused and exempted from serving on any Juries or personally appearing in Arms in the Militia, unless in cases of absolute necessity, or serving any parochial Offices, which may hinder them in the Execution of their duties.

30th. And Whereas nothing can more effectually tend to the speedy settling of Our said Province of Lower Canada, the Security of the Property of Our Subjects and the advancement of Our Revenue than the disposal of such Lands as are Our Property upon reasonable Terms and the establishing of a regular and proper Method of Proceeding with respect to the passing of Grants of such Lands It is therefore Our Will and Pleasure that all and every Person and Persons who shall apply for any grant or Grants of Land shall previous to their obtaining the same, make it appear that they are in a Condition to cultivate and improve the same and in case you shall upon a consideration of the Circumstances of the Person or Persons applying for such Grants think it adviseable to pass the same you are in such Case to cause a Warrant to be drawn up directed to the Surveyor General or other Officers empowering him or them to make a faithful and exact Survey of the Lands so petitioned for and to return the said Warrant within Six Months at farthest from the date thereof With a Plot or description of the Lands so surveyed thereunto annexed And when the Warrant shall be returned by the said Surveyor or other proper Officer the Grant shall be made out in due form and the Terms and Conditions required by these Our Instructions be particularly and expressly mentioned therein And It is Our Will and Pleasure that the said Grants shall be registered within Six months from the date thereof in the Register's Office and a Docket thereof be also entered in Our Auditor's Office Copies of all which Entries shall be returned regularly by the proper Officer to Our Commissioners of Our Treasury.

32nd. And Whereas great Inconveniences have heretofore arisen in many of the Colonies in America from the granting excessive quantities of Land to particular Persons who have never cultivated or settled the same and have thereby prevented others more Industrious from improving such Lands. In order therefore to prevent the like Inconveniences in the future It is Our Will and Pleasure that you observe the following directions and regulations in all Grants to be made by you as aforesaid that is to say

That no Town Lot shall be granted to any one Person being Master or Mistress of a Family in any Township to be laid out as aforesaid which shall contain more than One Acre of Land.

It is Our Will and Pleasure and you are hereby allowed and permitted to grant unto every such Person or Persons such further quantity of Land as they may desire not exceeding One Thousand Acres over and above what may have heretofore been granted to them and in all Grants of Land to be made by you as aforesaid you are to take care that due regard be had to the Quantity and comparative Value of the different parts of Land comprised within any Township so that each Grantee may have as nearly as may be a proportionable Quantity of Lands of such different quantity and comparative Value as likewise that the Breadth of each Tract of Land to be hereafter granted be one third of the Length and that the Length of such Tract do not extend along the Banks of any River but towards the main Land that thereby the said Grantee may have such a convenient share of what accommodation the said River may afford for Navigation or otherwise.

33rd. And as a further Encouragement to our Subjects who shall become Settlers as aforesaid It is Our Will and Pleasure that the said Townships and the respective Allotments within the same together with the Lands to be reserved as aforesaid shall be run and laid out by Our Surveyor General of Lands for the said Province or some Skilful Person authorized by him for that purpose which Surveys together with the Warrants and Grants for the respective Allotments shall be made out for and delivered to the several Grantees free of any Expense or Fees whatever other than such as may be payable to the different Officers according to the Table of Fees established upon Grants of Land made in the said Province.

34th. And in order to prevent any persons disaffected to Us and to Our Government from becoming Settlers in Our said Province of Lower Canada It is Our Will and Pleasure that no Warrants for Surveying Lands be granted by you or the Lieutenant Governor or person administering the Government for the time being unless the Person or Persons applying for the same do at the time of making such Application besides taking the Usual Oaths directed by Law also make and subscribe the following declaration in your or his presence of such Person or Persons as shall by you or him be appointed for that purpose that is to say I "A B do promise and declare that I will maintain and defend to the Utmost of my power the Authority of the King in His Parliament as the Supreme Legislature of this Province."

37th. 38th. 41st. And Whereas it appears from the representations of Our late Governor of the District of Trois-Rivières that the Iron Works at Saint-Maurice in that District are of great Consequence to Our Service It is therefore Our Will and Pleasure that no part of the Lands upon which the said Iron Works were carried on or from which the Ore used in such Iron Works was procured or which shall appear to be necessary or convenient for that Establishment either in respect of a free passage in the River Saint Lawrence or for producing a necessary supply of Wood Corn and Hay or for Pasture of Cattle be granted to any private person whatever and also that as large a District of Land as Conveniently may be adjacent to and lying round the said Iron Works over and above what may be necessary for the above purposes be reserved for Our Use to be disposed of in such manner as We shall direct and appoint.

42nd. Whereas the Establishment of proper Regulations in Matters of Ecclesiastical concern is an object of very great importance it will be your Indispensable Duty to take care that no Arrangements in regard thereto be made but such as give full satisfaction to Our New Subjects in every point in which they have a right to any Indulgence on that head always remembering that it is a Toleration of the free Exercise of the Religion of the Church of Rome only to which they are entitled but not to the Powers and Privileges of it as an Established Church that being a preference which belongs only to the Protestant Church of England.

70th. You shall as often as you shall judge it Expedient Visit the other parts of your Government in Order to Inspect the Management of all Public Affairs and thereby the better to take Care that the Government be so administered that no disorderly practice may grow up contrary to Our Service and the welfare of Our Government.

71st. And Whereas We have made sufficient provision for the support of Our Lieutenant Governor of Our said Province of Lower Canada for the time being It is Our Will and Pleasure when it shall appear that you shall be absent from Our said Province that no part of the Salary or any Perquisites and Emoluments which are due unto you, shall during the time of your absence be claimed by or paid and satisfied to such Lieutenant Governor and it is Our further Will and Pleasure that if Our Lieutenant Governor of Our said Province of Lower Canada should happen to die during your Absence and the administration of the Government thereby or otherwise devolve on the President or Senior Member of Our Executive Council or on such other Executive Councillor as by Virtue of this our Commission in that behalf shall be appointed by you under the Great Seal of Our Province to the Administration of the Government thereof such President or Councillor shall during his Continuing in the said Command receive the Salary or Allowance hereby provided for Our Lieutenant Governor and no other allowance Perquisite or Emolument whatever.

3rd. And Whereas in pursuance of the Power vested in Us by an Act made in the Twenty third year of Our Reign Intituled "An Act for preventing certain Instru- "ments from being required from Ships belonging to the United States of America" and to give His Majesty for a limited Time certain Powers for the better carrying on Trade and Commerce between the Subjects of His Majesty's Dominions and the Inhabitants of the said United States "the Provisions of which said recited Act have been continued and enforced by other Acts since passed We by several Orders passed by Us in Our Council have made such Regulations and given such directions for regulating the Trade between Our Dominion and the United States of America as the Interest and Welfare of Our Subjects and the preservation and Encouragement of the Trade and Navigation of Our Kingdoms have from time to time made necessary and expedient it is therefore Our Will and Pleasure that you do in all Things conform yourself as well to the Provisions of the above mentioned Acts of Parliament as to the regulations and direction contained in Our said Orders in Council or such further Regulations and Directions as may be contained in any future Order or Orders made by Us in Council for the purposes aforesaid And that you do give the proper Orders to the several Officers concerned that due Obedience be paid thereunto.

4th. You shall take care that the Naval Officers within Your Government do give such Security to the Commissioners of Our Customs for the true and faithful performance of their Duty as is by Law required.

5th. And Whereas it is necessary for the greater convenience of Merchants and others that the Naval Officers and the Collectors of the Customs should reside at the same Ports or Towns you are therefore to take care that this Regulation be observed and to consult with the Collector of the Customs in what Places it may be most convenient to have the Custom House fixed for the Despatch of Business if the same shall not have been already done and to take care that the Collector and Naval Officer reside within a convenient distance of the Custom House.

6th. You shall every three Months or oftener as there shall be opportunity of Conveyance transmit to the Commissioners of Our Treasury or Our High Treasurer for the time being and to the Commissioners of Our Customs in London a List of all Ships and Vessels Trading in your Government according to the Schedule hereunto annexed together with a List of the Bonds taken in pursuance of the several Acts hereinbefore mentioned and you shall cause demand to be made of every Master at his Clearing of an Invoice of the Contents and Quality of his Lading &c. according to the Schedule hereunto also annexed and you shall moreover direct the several Naval Officers within your Government to furnish you with Quarterly Lists of such Ships and Vessels together with the Tonnage and Names of the Masters and Owners thereof and of the Cargoes according to the Schedule before mentioned which you are to transmit to Us through One of Our Principal Secretaries of State by the first opportunity that shall offer after expiration of each Quarter And it is Our Will and Pleasure that you be particularly attentive to Our directions in this respect and that you do take due care that the several Naval Officers do strictly comply therewith.

7th. You shall give Directions that the Collector of the Customs within your Government be permitted to have recourse to the said Bonds as well as to the Book or Books in which they are or ought to be entered and to examine as well whether due Entry be made as whether they are regularly taken and discharged And where it shall appear that Bonds are not regularly discharged you are to order that such Bonds be put in Suit.

8th. You shall not assent to any Act of Assembly or allow any Usage to prevail within your Government which shall be repugnant to the Acts of Parliament hereinbefore mentioned or to any that may hereafter be made as far as the same relate to Our Plantations in America.

9th. You shall be aiding and assisting to the Collectors and other Officers of Our Customs appointed or who shall hereafter be appointed by the Commissioners of Our

Customs in this Kingdom by and under the Authority and Direction of the Commissioners of Our Treasury or Our High Treasurer for the time being and also to the Officers of the Court of Vice Admiralty in your Government appointed or who shall hereafter be appointed by Our High Admiral of Our United Kingdom of Great Britain and Ireland or the Commissioners for executing the Office of High Admiral or by you or Our Commander in Chief for the time being as Vice Admiral within your said Government in putting in Execution the several Acts of Parliament before mentioned and you shall cause due prosecutions of all such Persons as shall any way resist or hinder any of the said Officers of Our Admiralty or Customs in the Performance of their Duty.

10th. 13th. If you shall discover that any Person claiming Right or Propriety in any Island or Tract of Land within your Government by Charter Letters Patent or other Grant shall at any time hereafter alien sell or dispose of such Right or Propriety other than to Our Natural born Subjects of Great Britain Ireland or Our Plantations in America without the Licence or consent of Us Our Heirs and Successors signified by Our or Their Order in Council first had and obtained you shall give notice thereof to Us through one of Our Principal Secretaries of State and to the Commissioners of Our Treasury or Our High Treasurer of Great Britain for the time being.

14th. And Whereas notwithstanding the many good Laws made from time to time for preventing Frauds in the Plantation Trade it is manifest that very great Abuses have been and still continue to be practised to the prejudice of the same which Abuses must needs arise either from the insufficiency or Insolvency of those Persons who are accepted as Securities in Bonds required by Law or from the remissness or Connivance of Our Governors who ought to take due care that those Persons who execute such Bonds should be sued for breaches of the Conditions of such Bonds you are to take notice that We consider the Good of Our Plantations and the Improvement of the Trade thereof by a strict and punctual observance of the several Laws in force concerning the same to be of so great Importance to the Benefit of this Kingdom and to the advancing of the Revenue of Our Customs that if We shall hereafter be informed that at any time there shall be any failure in the due observance of those Laws and of these present Instructions by any Wilful Neglect or Fraud on your part We shall esteem such Neglect to be a Breach of the same and We think it proper to apprize you that it is Our fixed and determined Will and Intention to remove you or Our Commander in Chief for the time being from your Employments for any such Offence and that We will strictly levy and inflict as well the Fine of One Thousand Pounds imposed by an Act passed in the seventh and eighth of King William the 3rd Cap. 22 as all other Fines Forfeitures Pains and Penalties to which you shall for such Offence be liable by any Acts of Parliament now in force or otherwise and that you will further on the same account receive the most rigorous Marks of Our Highest Displeasure.

UPPER CANADA

INSTRUCTIONS TO GOVERNORS

1791-1839

From Colonial Office, London.

C. O. Instructions, Quebec, 1786–1791.

[L.S.]

GEORGE R.

INSTRUCTIONS to Our Right Trusty and Wellbeloved Guy Lord Dorchester, Knight of the Most Honorable Order of the Bath, Our Captain General and Governor in Chief, in and over Our Province of Upper Canada. Given at Our Court at St. James's the Sixteenth day of September 1791, In the Thirty First of Our Reign.

1st. With these Our Instructions You will receive Our Commission under Our Great Seal of Great Britain, constituting You Our Captain General and Governor in Chief in and over Our Provinces of Upper Canada and Lower Canada bounded as in Our said Commission is particularly expressed. In the execution therefore of so much of the Office and Trust We have reposed in You as relates to Our Province of Upper Canada, You are to take upon you the Administration of the Government of the said Province, and to do and execute all things belonging to Your Command, according to the several Powers and Authorities of Our said Commission under Our Great Seal of Great Britain, and of the Act passed in the present Year of Our Reign therein recited, and of these Our Instructions to you and according to such further Powers and Instructions as you shall at any time hereafter receive under Our Signet and Sign Manual, or by Our Order in Our Privy Council.

2. And You are, with all due Solemnity, before the Members of Our Executive Council, to cause Our said Commission to be read and published, which being done, You shall then take, and also administer to such of the Members of Our said Executive Council, the Oaths mentioned in an Act passed in the first Year of His late Majesty King George the First, intituled, "An Act for the further Security of His Majesty's "Person, and Government, and the Succession of the Crown in the Heirs of the late "Princess Sophia, being Protestants and for extinguishing the hopes of the pretended "Prince of Wales, and his open and secret Abettors"; as altered and explained by an Act passed in the Sixth Year of Our Reign, intituled, "An Act for altering the Oath "of Abjuration and the Assurance, and for amending so much of an Act of the Seventh "Year of Her late Majesty Queen Anne, intituled 'An Act for the Improvement of the "Union of the two Kingdoms, as after the time therein limited requires the delivery of "certain Lists therein mentioned to Persons indicted for High Treason or Misprision of "Treason'"; and also make and subscribe and cause the Members of the said Executive Council to make and subscribe the Declaration mentioned in an Act of Parliament made

in the Twenty fifth Year of the Reign of King Charles the Second, intituled, "An Act "for preventing the Dangers which may happen from Popish Recusants," and You and every of them are likewise to take an Oath for the due execution of Your and Their Places and Trusts, with regard to your and their equal and impartial administration of Justice, and You are also to take the Oath required by an Act passed in the Seventh and Eighth Years of the Reign of King William the Third, to be taken by Governors of Plantations, to do their utmost that the Laws relating to the Plantations be duly observed

3. You shall also administer or cause to be administered the Oaths appointed in the aforesaid recited Acts to all Persons, except as hereafter mentioned, that shall be appointed to hold or exercise any Office, Place of Trust or Profit, in Our said Province, previous to their entering on the execution of the Duties of such Office, and you shall also cause them to make and subscribe the Declaration mentioned in the aforesaid Act of the Twenty-fifth year of the Reign of King Charles the Second. But in cases where any such Office, Place of Trust, or Profit within Our said Province of Upper Canada shall be conferred on any of Our Subjects who may profess the Religion of the Church of Rome, You shall, as often as any such Person shall or may be admitted into any such Office, Place of Trust or Profit, administer, or cause to be administered to him, the Oath prescribed in and by an Act of Parliament passed in the 14th year of Our Reign, intituled, "An Act for making more effectual provision for the Province of Quebec, in "North America"; and also the usual Oath for the execution of such Office, Place of Trust or Profit, in lieu of all other Tests and Oaths whatsoever.

4. Whereas We have thought fit that there should be an Executive Council for assisting you, or Our Lieutenant Governor, or Person administering the Government of Our said Province of Upper Canada for the time being, We do hereby by these Presents, nominate and appoint the undermentioned Persons to be of the Executive Council of Our said Province, viz.: Willim Osgoode, William Robertson, Alexander Grant, and Peter Russell, Esquires. And Whereas by an Ordinance passed in the Province of Quebec, the Governor and Council of the said Province were constituted a Court of Civil Jurisdiction for hearing and determining Appeals in certain Cases therein specified; And whereas by an Act passed in the present Year of Our Reign, it is declared that the Governor, Lieutenant Governor, or Person administering the Government of the said Province, together with such Executive Council shall be a Court of Civil Jurisdiction, within Our said Province for hearing and determining Appeals within the same, in the like cases, and in the like manner and form, and subject to such Appeal therefrom, as such Appeals might have been before the passing of the above recited Act, heard and determined by the Governor and Council of Quebec. In order therefore to carry the said Act into execution, Our Will and Pleasure is, that you do in all Civil Causes, on application being made to you for that purpose, permit and allow Appeals from any of the Courts of Common Law in Our said Province, unto you and the Executive Council of the said Province of Upper Canada, in manner prescribed by the abovementioned Act, and you are for that purpose to issue a Writ, as nearly in the accustomed manner before the passing of the abovementioned Act, in respect of such Appeals, as the Case will admit, returnable before yourself and the Executive Council of the said Province, who are to proceed to hear and determine such Appeal, wherein such of the said Executive Council, as shall be at that time, Judges of the Court from whence such Appeal shall be made to you Our Captain General and to Our said Executive Council as aforesaid, shall not be admitted to vote upon the said Appeal, but they may nevertheless be present at the hearing thereof, to give the reasons of the Judgment given by them, in the Causes wherein such Appeal shall be made, provided nevertheless, that in all such Appeals, the Sum or Value appealed for, do exceed the Sum of Three hundred Pounds Sterling, and that Security be first duly given by the Appellant to answer such Charges, as shall be awarded in case the first Sentence be affirmed, and if either Party shall not rest satisfied with the Judgment of you and such Executive Council as aforesaid, Our Will and Pleasure is, that they may then Appeal unto Us, in Our Privy Council, provided the Sum or Value so appealed for unto Us, do exceed Five Hundred Pounds Sterling, and that such Appeal be made within Fourteen days after Sentence and good Security be given

by the Appellant, that he will effectually prosecute the same and answer the Condemnation, as also pay such Costs and Damages as shall be awarded by Us, in case the Sentence of You and the Executive Council be affirmed; Provided nevertheless, where the matter in question relates to the taking, or demanding any Duty payable to Us, or to any Fee of Office, or Annual Rents, or other such like matters or thing where the Rights in future may be bound, in all such Cases you and the said Executive Council are to admit an Appeal to Us in Our Privy Council, though the immediate Sum or Value appealed for be of a less value; and it is Our further Will and Pleasure, that in all cases, where by your Instructions, you are to admit Appeals unto Us in Our Privy Council, execution shall be suspended until the final determination of such Appeal, unless good and sufficient Security be given by the Appellee, to make ample restitution of all that the Appellant shall have lost by means of such Decree or Judgment, in case upon the determination of such Appeal, such Decree or Judgement should be reversed and restitution ordered to the Appellant. You and Our Executive Council are also to permit Appeals unto Us, in Our Privy Council, in all Cases of Fines imposed for Misdemeanors, provided the Fines so imposed amount to, or exceed the Sum of One Hundred Pounds Sterling, the Appellant first giving good Security, that he will effectually prosecute the same, and answer the Condemnation, if the Sentence, by which such Fine was imposed in Your Government shall be confirmed.

5. And that We may be always informed of the Names and Characters of Persons fit to supply the Vacancies, which may happen in Our said Executive Council, You are in case of any Vacancy in the said Council, to Transmit to Us, by one of Our principal Secretaries of State, the Names and Characters of such three Persons, Inhabitants of Our said Province of Upper Canada, whom you shall esteem the best qualified for fulfilling the Trust of such Executive Councillor.

6. And in the choice and selection of such Persons proposed to fill such Vacancy in Our said Executive Council, as also of the Chief Officers, Judges, Assistants, Justices of the Peace, and other Officers of Justice, you are always to take care that they may be Men of good Life, well affected to Our Government, and of Abilities suitable to their Employments.

7. And whereas We are sensible that effectual Care ought to be taken to oblige the Members of Our Executive Council to a due attendance, It is Our Will and Pleasure, in order to prevent the many inconveniences, which may happen for want of a Quorum of the Council, to transact Business as occasion may require, that if any of the Members of Our said Executive Council, residing in Our said Province shall hereafter wilfully absent themselves from the Province and continue absent above the space of Six Months together without leave from you first obtained under Your hand and Seal, or shall remain absent for the space of One year without Our Leave given them, under Our Royal Signature, their Places in the said Executive Council shall immediately thereupon become void. And We do hereby will and require you, that this Our Royal Pleasure be signified to the several Members of Our said Executive Council, and that it be entered in the Council Books of the said Province as a standing Rule.

8. And to the end that Our said Executive Council may be assisting to You in all Affairs relating to Our Service, You are to communicate to them, such and so many of these Our Instructions, wherein their Advice is mentioned to be requisite; and likewise all such others from time to time as you shall find convenient for Our Service to be imparted to them.

9. You are also to permit the Members of Our said Executive Council to have and enjoy Freedom of Debate and Vote in all Affairs of Public concern, which may be debated in the said Executive Council.

10. And whereas We have thought fit to declare by Our Order in Council bearing date, the 24th day of August last, that the Division of Our Province of Quebec shall commence on the —— day of December next, and that from thenceforth the Lands and Territories therein described, shall be two separate Provinces, and be called the Province of Upper Canada, and the Province of Lower Canada; You are as soon as may be after such division shall take place to summon, by an Instrument under the Great Seal of Our Province of Upper Canada, to the Legislative Council of that Province, the

following Persons, whom We hereby authorize and direct You, so to summon to Our said Legislative Council of Upper Canada, viz. William Osgoode, Richard Duncan, William Robertson, Robert Hamilton, Richard Cartwright Junior, John Munro, Alexander Grant and Peter Russell Esquires.

11. And whereas by the aforesaid recited Act passed in the present year of Our Reign, it is provided that the Seats of the Members of Our Legislative Council shall become vacant in certain Cases mentioned in the said Act, It is Our Will and Pleasure, that if any Member of Our said Legislative Council shall at any time leave Our said Province and reside out of the same, You shall report the same to Us, by the first opportunity, through One of Our Principal Secretaries of State ; And you are also in like manner to report whether such Member of the said Council is absent by your permission, or by the permission of Our Lieutenant Governor, or Commander in Chief of the said Province for the time being ; And you are also in like manner to report if it shall come to your knowledge, that any such Member shall at any time, take, or have taken any Oath of Allegiance, or Obedience to any Foreign Prince or Power, or shall be attainted for Treason, in any Court of Law within any of Our Dominions, that We may take measures thereupon, as We shall think fit : And you are to take especial care, that the several Provisions of the said Act, respecting the several Cases in which Persons may, or may not be entitled to receive Writs of Summons to the said Legislative Council, or to hold their Places therein, shall be duly executed.

12. And for the execution of so much of the Powers vested in you, by Our said Commission and by Virtue of the said Act, as relates to the declaring that you assent in Our Name to Bills passed by the Legislative Council and House of Assembly, or that you withold Our Assent therefrom, or that you reserve such Bills for the signification of Our Royal Pleasure thereon. It is Our Will and Pleasure, that you do carefully observe the following Rules, Directions and Instructions, Vizt

That the Style of enacting all the said Laws, Statutes and Ordinances shall be by Us, Our Heirs or Successors by and with the Advice and Consent of the Legislative Council and Assembly of Our Province of Upper Canada constituted and assembled by Virtue of and under the Authority of an Act passed in the Parliament of Great Britain intituled, "An Act to repeal certain parts of an Act passed in the Fourteenth year "of His Majesty's Reign, intituled, "An Act for making more effectual Provision for "for the Government of the Province of Quebec in North America" and to make fur- "ther provision for the Government of the said Province," and that no Bill in any other form shall be assented to by you, in Our Name.

That each different matter be provided for by a different Law, without including in one and the same Act such things as have no proper relation to each other.

That no Clause be inserted in any Act or Ordinance which shall be foreign to what the Title of it imports, and that no perpetual Clause be part of any temporary Law.

That no Law or Ordinance whatever be suspended, altered, continued, revived or repealed by general Words, but that the Title and Date of such Law or Ordinance be particularly mentioned in the enacting Part.

That in case any Law or Ordinance respecting private property shall be passed without a saving of the Right of Us, Our Heirs and Successors and of all Persons, or Bodies Politic or Corporate, except such as are mentioned in the said Law or Ordinance, You shall declare that you withold Our Assent from the same ; and if any such Law or Ordinance, shall be passed without such saving, You shall in every such case declare that You reserve the same for the signification of Our Royal Pleasure thereon.

That in all Laws, or Ordinances for levying Money, or imposing Fines, Forfeitures or Penalties, express mention be made, that the same is granted or reserved to Us, Our Heirs and Successors for the Public Uses of the said Province, and the support of the Government thereof, as by the said Law shall be directed, and that a Clause be inserted declaring that the due application of such Money, pursuant to the directions of such Law, shall be accounted for unto Us through our Commissioners of Our Treasury for the time being in such manner and form as We shall direct.

13. And Whereas We have by Our said Commission given You full Power and Authority subject as therein is specified, and to these Our Instructions in that behalf,

to issue Writs of Summons and Election, and to call together the Legislative Council and Assembly of Our said Province of Upper Canada; and for the purpose of electing the Members of the Assembly of Our said Province of Upper Canada, have also given you full Power and Authority to issue a Proclamation dividing Our said Province of Upper Canada into Districts or Counties, or Circles and Towns, or Townships, and declaring and appointing the number of Representatives to be chosen by each of such Districts or Counties, or Circles and Towns or Townships; now, Our Will and Pleasure is, that you shall issue such Proclamation, as soon as may be, allowing nevertheless a reasonable time, between the issuing thereof, and the time of issuing the Writs of Summons and Election above mentioned.

14. That all Laws assented to by You in Our Name, or reserved for the signification of Our Pleasure thereon, shall when transmitted by You, be fairly abstracted in the Margins and accompanied with very full and particular Observations upon each of them, that is to say, whether the same is introductory to a new Law, declaratory of a former Law, or does repeal a Law then before in being; And You are also to transmit in the fullest manner, the Reasons and Occasion for proposing such Laws, together with fair Copies of the Journals and Minutes of the Proceedings of the said Legislative Council and Assembly, which you are to require from the Clerks, or other proper Officers in that behalf, of the said Legislative Council and Assembly.

15. And whereas in the said Act, it is provided that in certain cases, Acts passed by the Legislative Council and Assembly of the Province, shall previous to any signification of Our Assent thereto, be laid before both Houses of Our Parliament of Great Britain; And whereas it is also provided in the said Act, that in certain cases, Provision may be made by Acts of the Legislative Council and Assembly of the Province assented to by Us, Our Heirs or Successors, (thereby reserving the power of giving such Assent to Us, Our Heirs or Successors only) You are to take especial care that in every such Case, You are to declare that You reserve such Bills for the signification of Our Pleasure thereon; And you will likewise reserve for such signification every other Bill, which you shall consider to be of an extraordinary or unusual Nature, or requiring Our special consideration and decision thereupon, particularly such as may affect the property, credit or dealings of such of Our Subjects as are not usually resident within the said Province or whereby Duties shall be laid upon British or Irish Shipping or upon the product or Manufactures of Great Britain or Ireland.

16. And whereas Laws have formerly been enacted in several of our Plantations in America, for so short a time, that Our Royal Assent or Refusal thereof could not be had before the time for which such Laws were enacted did expire, you shall not assent in Our Name to any Law that shall be enacted for a less time than Two years, except in Cases of imminent necessity, or immediate temporay expediency; And you shall not declare Our Assent to any Law containing Provisions which shall have been disallowed by Us, without express leave for that purpose first obtained from Us, upon a full representation by you to be made to Us thro' one of Our Principal Secretaries of State, of the reasons and necessity for passing such Law.

17. Whereas We have thought fit by our Orders in our Privy Council to disallow certain Laws passed in some of our Colonies and Plantations in America for conferring the privileges of Naturalization on Persons being Aliens & for divorcing Persons who have been legally joined together in Holy marriage, And Whereas Acts have been passed in others of Our said Colonies to enable Persons who are our liege Subjects by Birth or Naturalization to hold and Inherit Lands Tenements & Real Estates, altho' such Lands, Tenements & Real Estates had been originally granted to, or purchased by Aliens antecedent to Naturalization. It is Our Will and Pleasure, that you do not upon any pretence whatsoever give your Assent to any Bill or Bills that may hereafter be passed by the Legislative Council and Assembly of the Province under your Government for the Naturalization of Aliens, nor for the divorce of Persons joined together in Holy Marriage, nor for establishing a Title in any Persons, to Lands Tenements and Real Estates in our said Province originally granted to, or purchased by Aliens antecedent to Naturalization.

18. You are to give Warrants under your hand for the issuing of Public Monies for all public Services, and We do particularly require you to take care that regular Accounts of all Receipts and Payments of Public Monies be duly kept, that the same from time to time be audited by our executive Council, and that Copies thereof attested by you be transmitted every half year or oftener if there should be occasion to our Commissioners of Our Treasury, or to our High Treasurer for the time being, and Duplicates thereof by the next conveyance in which Accounts shall be specified every particular Sum raised or disposed of, to the end that We may take such Measures as We may deem necessary for the examination of the said Accounts, and that We may be satisfied of the right and due application of the Revenues of our said Province of Upper Canada, and with the probability of the increase or diminution of it under every head and article thereof.

19. Whereas by an Act of Our Parliament of Great Britain passed in the fourth year of our Reign intituled "An Act to prevent Paper Bills of Credit, hereafter to be "issued in any of His Majesty's Colonies or Plantations in America, being declared to "be a legal tender in Payments of Money, & to prevent the legal Tender of such Bills "as are now subsisting, from being prolonged beyond the periods limited for calling in and sinking the same" it is Enacted that no Paper Bill or Bills of Credit should be created or issued by any Act, Order Resolution or Vote of Assembly in any of Our Colonies or Plantations in America to be a legal tender in payment, and that any such Act, Order, Resolution or Vote for creating or issuing such Paper Bill or Bills of Credit, or for prolonging the legal tender of any such then subsisting and current in any of the said Colonies or Plantations, should be null and Void And Whereas by another Act of Our said Parliament, passed in the thirteenth year of our Reign intituled "An Act "to explain and amend the above recited Act passed in the fourth year of Our Reign as aforesaid" it is enacted that any Certificates, Notes Bills or Debentures, which shall or may be voluntarily accepted by the Creditors of the Public within any of the Colonies in America as a Security for the Payment of what is due and owing to the said Public Creditors may be made and enacted by the general Assemblies of the said Colonies respectively to be a tender to the Public Treasurers in the said Colonies for the discharge of any duties, Taxes or other Debts whatever due to & payable at or in the said Public Treasuries of the said Colonies, in virtue of Laws passed within the same, and in no other case whatsoever; It is Our Will and Pleasure, that you do in all things conform yourself to the provisions of the said Recited Acts, both with respect to the not assenting to any Bills which may be presented to you for the purpose of issuing or creating Paper Bills or Bills of Credit, to be a legal tender in payment, & the assenting to any Bills by which Certificates, Notes or Debentures, which may be Voluntarily accepted in payment, by the public Creditors shall be made a legal Tender to the Treasury for Taxes duties & other Payments to the public Treasury.

20. You shall not remit any Fines or forfeitures whatsoever above the Sum of Ten pounds, nor dispose of any Forfeitures whatsoever, until upon signifying unto the Commissioners of our Treasury, or our High Treasurer for the time being, the nature of the Offence and the occasion of such Fines and Forfeitures with the particular Sums or value thereof (which you are to do with all speed) you shall have received our Directions thereon, And you may in the mean time suspend the payment of the said Fines & forfeitures.

21. And you are on every occasion to transmit to Us thro' one of our Principal Secretaries of State with all convenient speed, a particular Account of all new Establishments of Jurisdictions, Courts, Offices & Officers, Powers and Authorities, Fees & privileges granted and settled within Our said Province of Upper Canada, as likewise an Account of all the Expenses (if any) attending the Establishment of the said Courts and Offices.

22. It is our further Will and Pleasure that all Commissions be granted by you to any Person or Persons, to be Judge, Justice of the Peace, or other necessary Offices be granted during Pleasure only.

23. You are not to suspend any of the Members of Our said executive Council, or to suspend or displace any of the Judges, Justices, Sheriffs, or other Officers or Ministers within our said Province of Upper Canada, without good & sufficient cause, and in

case of such Suspension or Removal you are forthwith to transmit your reasons for the same to one of our Principal Secretaries of State.

24. And whereas frequent Complaints have been made of great delays and undue proceedings in the Courts of Justice in several of our Plantations whereby many of Our good Subjects have very much suffered, and it being of the greatest importance to Our Service and to the Welfare of our Plantations that Justice be everywhere speedily & duly administered, and that all disorders, delays & other undue practices in the Administration thereof be effectually prevented, We do particularly require you to take especial Care that in all Courts where you are authorized to preside, Justice be impartially administered, and that in all other Courts established within Our said Province, all Judges and other Persons therein concerned do likewise perform their several Duties without delay or partiality.

25. You are to take care that no Court of Judicature be adjourned but upon good grounds, as also that no Orders of any Court of Judicature be entered or allowed which shall not be first read and approved of by the Justices in open Court, which Rule you are in like manner to see observed with relation to all proceedings of Our Executive Council of Upper Canada, and that all Orders there made be first read and approved in such Council before they are entered upon the Council Books.

26. You are to take care that all Writs within Our said Province of Upper Canada be issued in Our Name.

27. You shall take care with the Advice & Assistance of Our executive Council that such Prisons as may at any time be necessary, be erected, and that the same or any other already erected be kept in such a Condition as may effectually secure the Prisoners which now are or may hereafer be confined therein.

28. You shall not suffer any Person to execute more Offices than one by Deputy.

29. You shall not by colour of any Power or Authority hereby or otherwise granted or mentioned to be granted unto you, take upon you to give, grant, or dispose of any Place or Office within Our said Province, which now is, or shall be granted under the great Seal of this Kingdom, or to which any Person is or shall be appointed by Warrant under Our Signet and Sign Manual, any further than that you may, upon the Vacancy of any such Office or Place, or upon the suspension of any such Officer by you as aforesaid, put in any fit Person to Officiate in the interval, 'till you shall have represented the matter unto Us, through one of our Principal Secretaries of State which you are to do by the first opportunity, and till the said Office or place is disposed of by Us Our Heirs or Successors under the Great Seal of this Kingdom, or until some person shall be appointed thereunto under Our Signet and Sign Manual or until Our further directions be given therein ; And it is Our express Will and Pleasure, that you do give reasonable support unto the Patent Officers in the enjoyment of their legal and established Fees, Rights, Privileges & Emoluments, according to the true intent and meaning of their respective Patents.

30. And Whereas several complaints have been made by the Officers of our Customs in our Plantations in America, that they have frequently been obliged to serve on Juries, and personally to appear in Arms, whenever the Militia is drawn out, and thereby are much hindered in the execution of their employments. Our Will and Pleasure is that you take effectual care, and give the necessary directions that the several Officers of our Customs be excused and exempted from serving on any Juries, or personally appearing in Arms in the Militia, unless in cases of absolute necessity, or serving any Parochial Offices which may hinder them in the Execution of their Duties.

31. And Whereas nothing can more effectually tend to the speedy settling of our said Province of Upper Canada, the Security of the Property of our Subjects and the advancement of our Revenue, than the disposal of such Lands as are our Property upon reasonable terms, and the establishing of a Regular and proper method of proceeding with respect to the passing of Grants of such Lands. It is therefore Our Will and Pleasure that all and every Person and Persons who shall apply for any Grant or Grants of Land, shall, previous to their obtaining the same, make it appear that they are in a condition to cultivate and improve the same, and in case you shall upon a consideration of the circumstances of the Person or Persons applying for such Grants,

think it advisable to pass the same, you are in such Case, to cause a Warrant to be drawn up, directed to the Surveyor General, or other Officers, impowering him or them to make a faithful and exact Survey of the Lands so petitioned for and to return the said Warrant within six Months at farthest from the date thereof, with a Plot or Description of the Lands sc surveyed thereunto annexed, and when the Warrant shall be so returned by the said Surveyor, or other proper Officer, the Grant shall be made out in due form, and the Terms and Conditions required by these Our Instructions be particularly and expressly mentioned therein. And it is Our Will and Pleasure, that the said Grants shall be registered within Six Months from the date thereof in the Register's Office, and a Docket thereof be also entered in Our Auditors Office, Copies of all which Entries shall be returned regularly by the proper Officer, to Our Commissioners of our Treasury.

32. And for the further encouragement of Our Subjects, It is Our Will and Pleasure that the Lands to be granted you as Aforesaid shall be laid out in Townships, and that each Inland Township shall as nearly as circumstances shall admit consist of Ten Miles Square and such as shall be situated upon a Navigable River or Water shall have a front of Nine Miles, and be twelve Miles in depth, and shall be subdivided in such manner as may be found most advisable for the Accommodation of the Settlers aud for making the several reservations for Public Uses and particularly for the support of the Protestant Clergy agreeably to the above recited Act passed in the present year of Our Reign.

33. And Whereas great inconveniences have heretofore arisen in many of the Colonies in America from the granting excessive quantities of Land to particular Persons who have never cultivated or settled the same & have thereby prevented others more industrious from improving such Lands ; In order to prevent the like inconveniences in the future, it is Our Will and Pleasure that you observe the following directions and Regulations in all Grants to be made as aforesaid vizt :

That no Town Lot shall be granted to any one Person being Master or Mistress of a Family in any Township to be laid out as aforesaid which shall contain more than One Acre of Land.

That no Park Lot shall be granted to any one Person being Master or Mistress of a Family in any Township so to be laid out which shall contain more than Twenty four Acres.

That no Farm Lot shall be granted to any one Person being Master or Mistress of a Family in any Township so to be laid out which shall contain more than 200 Acres.

It is Our Will and Pleasure, and you are hereby allowed and permitted to grant unto every such Person or Persons such further quantity of Land as they may desire, not exceeding one thousand Acres over and above what may have heretofore been granted to them, and in all grants of Land to be made by the aforesaid you are to take care that due regard be had to the quality and comparative value of the different parts of Land comprised within any Township so that each Grantee may have as nearly as may be a proportionable quantity of Lands of such different quality and comparative value, as likewise that the breadth of each Tract of Land to be hereafter granted be one third of the length of such Tract, and that the length of such Tract do not extend along the Banks of any River, but into the main Land, that thereby the said Grantees may have each a convenient share of what accommodation the said River may afford for Navigation or otherwise.

34. And as a further encouragement to Our Subjects who shall become Settlers as aforesaid, It is Our Will and Pleasure that the said Townships & the respective allotments within the same together with the Lands to be reserved as aforesaid shall be run and laid out by Our Surveyor General of Lands for the Province, or some skilful Person authorized by him for that purpose, which Surveys together with the Warrants & Grants for the respective Allotments shall be made out for and delivered to the several Grantees free of any Expense or fees whatsoever, other than such as may be payable to the different Officers according to the Table of Fees to be established upon Grants of Land made in the said Province.

35. And in order to prevent any Persons disaffected to Us and Our Government from becoming Settlers in Our said Province of Upper Canada. It is Our Will and Pleasure that no Warrants for Surveying Lands be granted by you, or the Lieutenant Governor or Person administering the Government for the time being unless the Persons or Persons applying for the same do at the time of Making such application besides taking the usual Oaths directed by Law also make and subscribe the following Declaration in your or his presence, or in the presence of such Person or Persons as shall by you or him be appointed for that purpose, viz: "I. A. B. do promise and declare that I will Maintain "and defend to the utmost of my power the Authority of the King in His Parliament "as the Supreme Legislature of this Province."

36. Whereas the reserving such Bodies of Land within Our Province of Upper Canada where there are considerable Growths of Timber fit for the use of Our Royal Navy, is a matter of the utmost importance to Our Service. It is Our Will and Pleasure that no Grants whatever be made of Lands within any district or Tract in Our said Province of Upper Canada until Our Surveyor General of Woods or his Deputy lawfully appointed shall have Surveyed the same and marked out as reservations to Us, Our Heirs & Successors such Parts thereof as shall be found to contain any considerable Growth of Masting or other Timber fit for the use of Our Royal Navy, and more especially upon the Rivers. And you are hereby instructed to direct Our Surveyor General of Lands in Our said Province from time to time with all due diligence to compleat the Surveys and mark out the Reservations as aforesaid in the most convenient parts of Our said Province, and you are from time to time to report the number, extent & Situation of such Reservations, and you are further to direct Our Surveyor General not to certify any Plotts of Land ordered and Surveyed for any Person or Persons whatever in order that Grants may be made out for the same, until it shall appear to him by a Certificate, under the hand of our said Surveyor of Woods or his Deputy, that the Land so to be granted is not part of, or included in any district marked out as a Reservation for Us Our Heirs and Successors as aforesaid for the purpose herein before mentioned, and in order to prevent any deceit or fraud from being committed by the Persons applying for Lands in this respect, It is Our Will and Pleasure that in all Grants to be hereafter made for Lands within Our said Province of Upper Canada the following proviso and Exception be inserted viz: "and provided also that no part of "this Parcel or Tract of Land hereby granted to the said.....and his Heirs be within "any reservation heretofore made and marked for Us, Our Heirs and Successors by Our "Surveyor General of Woods, or his lawful Deputy in which case this Our Grant for "such part of the Land hereby given and granted to the said.....and his Heirs "for ever as aforesaid and which shall upon a Survey thereof being made, be found "within any such Reservation shall be null and void and of none effect, any thing herein contained to the contrary notwithstanding.

37. And Whereas it is necessary that all Persons who may be desirous of settling in Our said Province should be fully informed on the Terms and Conditions upon which Lands will be granted within our said Province of Upper Canada in manner prescribed in and by the said Act passed in the present year of our Reign, you are therefore as soon as possible to cause a Publication to be made by Proclamation or otherwise as you in Your discretion shall think most adviseable of the said Terms and Conditions respecting the granting of Lands in which Proclamation it may be expedient to add some short description of the natural advantages of the Soil and Climate and its peculiar conveniences for Trade and Navigation.

38. And it is Our further Will and Pleasure that all the foregoing Instructions to you as well as any which you may hereafter receive relative to the passing Grants of Land in conformity to the said Act passed in the present year of Our Reign, be entered upon record, for the Information and Satisfaction of all Parties whatever that may be concerned therein.

39. And Whereas it hath been represented unto Us, that many parts of the Province under Your Government are particularly adapted to the growth and culture of Hemp and Flax, It is therefore Our Will and Pleasure that in all Surveys for Settlement the Surveyor be directed to report whether there are any or what quantity of Lands, contained within such Survey fit for the Production of Hemp and Flax.

40. And Whereas it hath been represented to Us, that several Parts of Our Province of Upper Canada have been found to abound with Coals, It is Our Will and Pleasure that in all Grants of Land to be made by you, a Clause be inserted reserving to Us, Our Heirs and Successors all Coals, and also all Mines of Gold, Silver, Copper, Tin, Iron and Lead which shall be discovered upon such Lands.

41. You shall cause a Survey to be made of all the considerable Landing Places and Harbours in Our said Province, in case the same shall not have already been done, and report to Us by One of Our Principal Secretaries of State, how far any Fortifications be necessary for the Security and Advantage of the said Province.

42. Whereas the Establishment of proper Regulations in Matters of Ecclesiastical Concern is an object of very great Importance, it will be your indispensible Duty to take Care that no arrangements in regard thereto be made, but such as may give full Satisfaction to our new Subjects in every Point in which they have a right to any Indulgence on that Head, always remembering that it is a Toleration of the free Exercise of the Religion of the Church of Rome only, to which they are entitled, but not to the Powers and Privileges of it as an established Church, that being a Preference which belongs only to the Protestant Church of England.

43. Upon these Principles therefore and to the end that Our just Supremacy in all matters Ecclesiastical as well as Civil may have its due Scope and Influence, It is Our Will and Pleasure

First. That all Appeals to, or Correspondence with any Foreign Ecclesiastical Jurisdiction of what nature or kind soever, be absolutely forbidden under very severe Penalties.

Secondly. That no Episcopal or Vicarial Powers be exercised within Our said Province by any Person professing the Religion of the Church of Rome, but such only as are essentially and indispensibly necessary to the free Exercise of the Romish Religion and in those Cases not without a Licence and Permission from you under the Seal of Our said Province for and during Our Will and Pleasure, and under such other Limitations and Restrictions as may correspond with the Spirit and Provisions of the Act of Parliament of the 14th Year of Our Reign "for making more effectual Provision for "the Government of the Province of Quebec" and no Person whatever is to have Holy Orders conferred upon him or to have the Cure of Souls without a Licence for that purpose first had and obtained from you.

Thirdly. That no Person professing the Religion of the Church of Rome be allowed to fill any Ecclesiastical Benefice, or to have or enjoy any of the Rights or Profits belonging thereto who is not a Canadian by Birth (such only excepted as are now in Possession of any such Benefice) and who is not appointed thereto by Us, or by or under Our Authority, and that all Right or Claim of Right in any other Person whatever to nominate, present or appoint to any vacant Benefice, other than such as may lay Claim to the Patronage of Benefices as a Civil Right, be absolutely abolished, no Person to hold more than one Benefice, or at least not more than can reasonably be served by one and the same Incumbent.

Fourthly. That no Person whatever professing the Religion of the Church of Rome be appointed Incumbent of any Parish in which the Majority of the Inhabitants shall solicit the Appointment of a Protestant Minister; In such Case the Incumbent shall be a Protestant, and be entitled to all Tythes payable within such Parish; But nevertheless the Roman Catholicks may have the use of the Church for the free exercise of their Religion at such Times as may not interfere with the Religous Worship of the Protestants, and in like manner the Protestant Inhabitants in every Parish where the Majority of Parishoners are Roman Catholicks shall notwithstanding have the use of the Church for the Exercise of their Religion at such times as may not interfere with the Religious Worship of the Roman Catholicks.

Fifthly. That no Incumbent professing the Religion of the Church of Rome appointed to any Parish, shall be entitled to receive any Tythes for Lands or Posessions occupied by a Protestant, but such Tythes shall be received by such Persons as you shall appoint, and shall be reserved in the Hands of Our Receiver General as aforesaid for the Support of a Protestant Clergy in Our said Province to be actually resident within

the same and not otherwise according to such Directions as you shall receive from Us in that behalf and in like manner all growing Rents and Profits of a vacant Benefice shall during such Vacancy be reserved for and applied to the like uses.

Sixthly. That all Persons professing the Religion of the Church of Rome, who are already possessed of or may hereafter be appointed to any ecclesiastical Benefice, or who may be licenced to exercise any Power or Authority in respect thereto do take and subscribe before you in Council, or before such Person as you shall appoint to administer the same, the Oath required to be taken and subscribed by the aforesaid Act of Parliment passed in the Fourteenth year of Our Reign intituled "An Act for making more effectual Provision for the Government of the Province of Quebec in North America."

Seventhly. That all Incumbents of Parishes professing the Romish Religion not being under the Ecclesiastical Jurisdiction of the Bishop of Nova Scotia shall hold their respective Benefices during their good behaviour, subject however in case of any conviction for Criminal Offences or upon due proof of Seditious Attempts to disturb the Peace and Tranquillity of Our Government to be deprived or suspended by You.

Eighthly. That such Ecclesiasticks as may think fit to enter into the Holy State of Matrimony shall be released from all Penalties to which they may have been subjected in such Cases by any Authority of the See of Rome.

Ninthly. That Freedom of the Burial of the Dead in the Churches and Church Yards be allowed indiscriminately to every Christian Persuasion.

Tenthly. That the Royal Family be prayed for in all Churches and Places of Holy Worship in such manner and form as is used in this Kingdom, and that Our Arms and Insignia be put up, not only in all such Churches and Places of Holy Worship, but also in all Courts of Justice, and that the Arms of Frace be taken down in every such Church or Court where they may at present remain.

44. Whereas We did by Our Commission under Our Great Seal of Great Britain bearing date the 1st. day of August 1787, appoint the Right Reverend Father in God, Charles Inglis, Doctor in Divinity to be Bishop of the Province of Nova Scotia, and thereby give to him and his Successors in the said See, Jurisdiction, Spiritual and Ecclesiastical, in and throughout the said Province of Nova Scotia, and its Dependencies according to the Laws and Canons of the Church of England, which are lawfully made and received in England in the several Causes and Matters particularly expressed and set forth in the said Commission and no other; And Whereas by another Commission We did also give and grant to the said Bishop of Nova Scotia, full Power and Authority by himself, or his sufficient Commissary or Commissaries to exercise the like Spiritual and Ecclesiastical Jurisdiction, within the Provinces of Quebec of New Brunswick and the Islands of St. John, Cape Breton and Newfoundland, as is set forth in the said Commission; We do hereby order and enjoin you, that you do give all fit support and countenance to the said Bishop in the exercise of his Jurisdiction Spiritual Ecclesiastical, according to the Laws of this Realm and the Laws to be established in Our Province of Upper Canada, and to the Tenor of the said Commissions. It is nevertheless Our Will and Pleasure to reserve to you, the granting of Licences for Marriages, Letters of Administration and Probates of Wills as heretofore exercised by you and your Predecessors; And also to reserve to you, and to all others to whom it may lawfully belong the Patronage and Right of Presentation to Benefices, but it is Our Will and Pleasure that the Person so presented shall be instituted by the Bishop, or his Commissary, duly authorized by him, as directed by Our said Commission.

45. You are to permit liberty of Conscience and the free exercise of all such Modes of Religious Worship, as are not prohibited by Law, to all Persons who inhabit and frequent the Province of Upper Canada, provided they be contented with a quiet and peaceable enjoyment of the same without giving Offence or Scandal to Government.

46. You are to take especial Care that God Almighty be devoutly and duly served throughout Your Government, that the Lord's Day be duly kept, and that the Services and Prayers appointed by, and according to the Book of Common Prayer, be publicly and solemnly read and performed throughout the year.

47. You are to be careful that the Churches which are or may be hereafter erected in Our said Province of Upper Canada be well and orderly kept.

48. You shall recommend to the Legislative Council and General Assembly of the Province of Upper Canada to settle the Limits of Parishes in such a manner as shall be deemed most convenient.

49. You are to use Your best endeavours that every Minister be constituted one of the Vestry, in his respective Parish, and that no Vestry be held without him, except in case of his sickness, or that after Notice given of a Vestry he omit to come.

50. It is Our Will and Pleasure, that you recommend to the Legislative Council and Assembly of Our said Province of Upper Canada to make due provision for the erecting and maintaining of Schools, where Youth may be Educated in competent Learning, and in knowledge of the Principles of the Christian Religion.

51. And it is Our further Will and Pleasure that no Person shall be allowed to keep a School in the Province of Upper Canada, without Your Licence first had and obtained, In granting which You are to pay the most particular Attention to the Morals and proper Qualifications of the Persons applying for the same, and in Cases where the School has been founded, instituted or appointed for the Education of Members of the Church of England, you are not to grant such Licenses, except to Persons who shall first have obtained from the Bishop of Nova Scotia, or One of his Commissioners, a Certificate of their being properly qualified for that purpose.

52. And it is Our further Will and Pleasure, that in order to suppress every Species of Vice, Profaneness and Immorality, You do forthwith cause all Laws already made against Blasphemy, Profaneness, Adultery, Fornication, Polygamy, Incest, Profanation of the Lord's Day, Swearing and Drunkenness, to be strictly put in execution, in every part of the Province of Upper Canada, and that for this purpose you do direct that the Constables and Church Wardens of the several Parishes do make Presentment upon Oath of Any of the Vices beforementioned to the Justices of the Peace in their Session, or to any of the other Temporal Courts: And you are earnestly to recommend to the Legislative Council and Assembly, to provide effectual Laws for the Restraint and Punishment of all such of the aforementioned Vices, against which no Laws are as yet provided, or in cases where the Laws already made, are found to be insufficient; And in order to discountenance Vice and promote the practice of Virtue to the utmost of Your Power, We do hereby strictly command and enjoin you to appoint no Person to be a Justice of the Peace, or to any Trust or Employment, whose notorious ill Life or Conversation may occasion Scandal.

53. You are not to present any Protestant Minister to any Ecclesiastical Benefice within Our said Province by virtue of the said Act passed in the present Year of Our Reign, and of Our Commission to you without a proper Certificate from the Bishop of Nova Scotia, or his Commissary of his being comformable to the Doctrine and Discipline of the Church of England.

54. And you are to take especial Care that a Table of Marriages established by the Canons of the Church of England, be hung up in all places of Public Worship, according to the Rites of the Church of England.

55. It is Our Royal Intention that the Peltry Trade of the Interior Country shall be free and open to all Our Subjects Inhabitants of any of Our Colonies who shall pursuant to what was directed by Our Royal Proclamation of 1763 obtain trading Licenses from the Governors of any of Our said Colonies under Penalties to observe such Regulations as shall be made by Our Legislature of Our Province of Upper Canada for that purpose. These Regulations therefore when established, must be made public throughout all Our American possessions, and they must have for their object the giving every possible facility to that Trade which the nature of it will admit, and which may be consistent with fair and just dealing towards the native Indians with whom it is carried on; the fixing stated times and places for carrying on the Trade and adjusting Modes of settling Tariffs of the prices of Goods and Furs and above all the restraining the Sale of Spirituous Liquors to the Indians, will be the most probable and effectual Means of answering the ends proposed.

56. And Whereas it is expedient for Our Service, that We should from time to time be informed of the State of the Trade and Fisheries, as well as of the Population of Our said Province of Upper Canada; It is Our Will and Pleasure that you do

transmit to Us through One of Our Principal Secretaries of State, and to Our Committee of Our Privy Council for Trade and Foreign Plantations for their Information yearly and every Year a full and particular Account of the State of the Fur and Peltry Trade; The nature and extent of the several Fisheries carried on by Our Subjects or others either on the Lakes or Rivers of the said Province, the state of the Cultivation particularly specifying the quantity of Grain, Hemp, and Flax produced, and of any other important branch of Trade which may in your opinion be undertaken and advantageously carried out by Our Subjects, The Number of Inhabitants distinguishing them under different heads of Men, Women and Children, inserting in such Account the number of Persons born, christened and buried, and any extraordinary influx or emigration from Our said Province, specifying at the same time the number of Slaves, and the number of Our Subjects capable of bearing Arms in the Militia; the number and Tonnage of Shipping and Craft employed upon the Lakes and Rivers in, or contiguous to the Province of Upper Canada together with any other Information on these, or any other points of like nature, which may be proper to be communicated to Us.

57. And Whereas you will receive from Our Commissioners for executing the Office of High Admiral of Great Britain and of the Plantations, a Commission constituting You Vice Admiral of Our said Province of Upper Canada, You are required and directed carefully to put in execution the several Powers thereby granted you.

58. And Whereas We are desirous that Our Subjects in the Plantations should have the same ease in obtaining the Condemnation of Prizes there as in this Kingdom, You are to signify Our Will and Pleasure to the Officers of Our Admiralty Court in Upper Canada, that they do not presume to demand or exact other Fees than what are taken in this Kingdom, which amount to about Ten Pounds for the Condemnation of each Prize according to the List of such Fees.

59. And there having been great Irregularities in the manner of granting Commissions in the Plantations to private Ships of War, You are to govern yourself whenever there shall be occasion according to the Commissions and Instructions granted in this Kingdom, but You are not to grant Commissions of Marque or Reprisal against any Prince or State in Amity with Us to any Person whatsoever, without Our special Command, and You are to oblige the commanders of all Ships having private Commissioners to wear no other Colours than such as are described in an Order in Council of the 7th Jauuary, 1730, in relation to Colours to be worn by all Ships of War.

60. Whereas Commissions have been granted unto several Persons in Our respective Plantations in America, for trying Pirates in those Parts, pursuant to the several Acts for the more effectual suppression of Piracy, and a Commission will be prepared empowering You, as Our Captain General and Governor in Chief of Our Province of Upper Canada with others therein mentioned, to proceed accordingly in reference to the said Province; Our Will and Pleasure is, that in all Matters relating to Pirates, you govern yourself according to the Intent of the said Acts.

61. Whereas it is absolutely necessary that We be exactly informed of the State of Defence of all Our Plantations in America as well in relation to the Stores of War that are in each Plantation, as to the Forts and Fortifications there, and that more may be necessary to be built for the Defence and Security of the same, you are from time to time to transmit an Account thereof with relation to Our said Province of Upper Canada in the most particular manner, and You are therein to express the present State of the Arms, Ammunition and other Stores of War belonging to the said Province either in any Public Magazines, or in the hands of private Persons, together with a state of all Places either already fortified, or that You may judge necessary to be fortified for the Security of our said Province, and You are to transmit the said Accounts to Us, by one of Our Principal Secretaries of State, and also Duplicates thereof to Our Masters General or Principal Officers of Our Ordnance, which Accounts are to express the particulars of Ordnance, Carriages, Balls, Powder and all other Sorts of Arms and Ammunition now in Our Public Stores, and so from time to time of what shall be sent to you, or bought with the public Money, and to specify

the time of the disposal, and the occasion thereof, and other like accounts half yearly in the same manner.

62. And in case of Distress of any other of Our Plantations, You shall upon Application of the respective Governors thereof to You, assist them with what Aid the Condition and Safety of Our said Province under your Government can spare.

63. If any thing shall happen which may be of advantage or Security to Our Province under your Government, which is not herein, or by Your Commission provided for; We do hereby allow unto you with the Advice and Consent of Our said Executive Council to take order for the present therein, provided nevertheless that what shall be done be not repugnant to the said Acts passed in the 14th and in the present year of Our Reign, giving unto Us by One of Our Principal Secretaries of State speedy notice thereof, that you may receive Our Ratification, if We shall approve the same, Provided always that you do not by colour of any Power or Authority hereby given you commence or declare War without Our knowledge and particular Commands therein, except it be for the purpose of preventing or repelling Hostilities, or unavoidable emergencies wherein the Consent of Our Executive Council shall be had and speedy Notice given thereof to Us, by One of Our Principal Secretaries of State.

64. And Whereas great prejudice may happen to Our Service, and to the Secretary of Our said Province by the Absence of you, Our Governor in Chief, or Our Lieutenant Governor for the time being, You shall not upon any pretence whatsoever come to Europe, without having first obtained Leave for so doing from Us, under our Sign Manual and Signet, or by Our Order in Our Privy Council.

65. And Whereas We have thought fit by Our Commission to direct, that in case of your Death or Absence from Our said Province, and in case there be at that time no Person commissionated or appointed by Us to be Our Lieutenant Governor, the eldest Executive Councillor who shall be at the time of Your Death or Absence residing within Our said Province of Upper Canada subject to such other nomination and appointment by you under the Great Seal of Our said Province as in Our said Commission is in that behalf mentioned, shall take upon him the administration of the Government, and execute Our said Commission and Instructions and the several Powers and Authorities therein contained in the manner thereby directed; It is nevertheless Our express Will and Pleasure that in such Case the said President shall forbear to assent to any Acts but what are immediately necessary for the Welfare of Our said Province without Our particular Order for that purpose, and that he shall not take upon him to dissolve the Assembly then in being, not to remove or suspend any of the Members of Our said Executive Council, nor any judges, justices of the Peace or other Officers Civil or Military without the Advice and Consent of the Majority of the said Executive Council, and the said President is by the first Opportunity to transmit to Us by One of Our Principal Secretaries of State, the reasons for such alterations signed by him and Our Council. And Our Will and Pleasure is, that the above Instructions with respect to such President shall also be equally observed by and binding upon such other Executive Councillor as may be nominated and appointed by you under the Great Seal of Our said Province, by virtue of Our said Commission in that behalf.

66. And Whereas by Our different Commissions We have appointed You to be Our Governor and and Commander in Chief of Our Province of Upper Canada, Lower Canada and of Our Province of Nova Scotia, including the Islands of St. John and Cape Breton, as well as Our Province of New Brunswick, and it is Our Intention that the Lieutenant Governors commanding in the said Provinces of Nova Scotia and New Brunswick and Upper Canada should have and enjoy the full Salaries, Perquisites and Emoluments granted to them and arising from the respective Governments in as full and ample a manner as if the said Governments were under distinct Governors in Chief, it is therefore Our Will and Pleasure that you shall not at any time or times when you shall be resident and Commanding in Chief in either of Our said Provinces of Upper Canada, Nova Scotia and New Brunswick, have or receive any part of the said Salaries, Perquisites or Emoluments, but that the same shall continue to be paid and satisfied to the Lieutenant Governors of the said Provinces respectively in like manner as they usually are during Your Absence therefrom.

67. And You are upon all Occasions to send to Us by One of Our Principal Secretaries of State a particular Account of all Your Proceedings, and of the Condition of Affairs within Your Government.

That no clause be inserted in any Act or Ordinance which shall be foreign to what the Title of it imports and that no perpetual clause be part of any temporary Law.

That no Law or Ordinance whatever be suspended altered continued revived or repealed in general Words but that the Title and date of such Law or Ordinance shall be particularly mentioned in the enacting part.

That in case any Law or Ordinance respecting private Property shall be passed without saving of the Right of Us Our Heirs and Successors and of all persons bodies Politic or Corporate except such as are mentioned in the said Law or Ordinance you shall declare that you withhold Our Assent from the same and if any such Law or Ordinance shall be passed without such saving you shall in every such case declare that you reserve the same for the signification of Our Royal Pleasure thereon.

That in all Laws or Ordinances for Levying Money or imposing Fines Forfeitures or Penalties express mention be made that the same is granted or reserved to Us Our Heirs and Successors for the Public Use of the said Province and the support of the Government thereof as by the said Law shall be directed and that a clause be inserted declaring that the due application of such Money pursuant to the directions of such Law shall be accounted for unto Us through Our Commissioners of Our Treasury for the time being in such manner and form as We shall direct.

13th. That all Laws assented to by you in Our Name or reserved for the signification of Our Royal Pleasure thereon shall when transmitted by you be fairly abstracted in the Margins and accompanied with very full and particular observations upon each of them, that is to say, whether the same is introductory to a new Law declaratory of a former Law or does repeal a Law then before in being And you are also to transmit in the fullest manner the reasons and occasions for proposing such Laws together with fair Copies of the Journals and Minutes of the proceedings of the said Legislative Council and Assembly which you are to require from the Clerks or other proper Officers in that behalf of the said Legislative Council and Assembly.

Whereas We have thought fit by Our Orders in Our Privy Council to disallow certain Laws passed in some of Our Colonies and Plantations in America for conferring the privileges of Naturalization on persons being Aliens and for divorcing persons who have been legally joined together in Holy Marriage And Whereas Acts have been passed in others of Our said Colonies to enable persons who are Our liege Subjects by Birth or Naturalization to Hold and inherit Lands Tenements and real Estates although

such Lands Tenements and real Estates had been originally granted to or purchased by Aliens antecedent to Naturalization. 17th. You are to give Warrants under your Hand for the issuing of Public Monies for all public Services and We do particularly require you to take care that regular Accounts of all receipts and payments of Public Monies be duly kept that the same from time to time be Audited by Our Executive Council and that Copies thereof attested by you be transmitted every half Year or oftener if there should be occasion to Our Commissioners of Our Treasury or to Our High Treasurer for the time being and duplicates thereof by the next conveyance in which Accounts shall be specified every particular Sum raised or disposed of to the end that We may take such measures as we may deem necessary for the examination of the said Accounts and that We may be satisfied of the right and due application of the Revenues of Our said Province of Upper Canada and with the probability of the increase or diminution of it under every head and article thereof.

18th. Whereas by an Act of Parliament of Great Britain passed in the fourth year of Our Reign intituled "An Act to prevent paper Bills of Credit hereafter to be issued "in any of His Majesty's Colonies and Plantations in America from being declared to "be a legal tender in payment of Money and to prevent the legal tender of such Bills "as are now subsisting from being prolonged beyond the periods limited for calling in "and sinking the same" it is Enacted that no paper Bills or Bills of Credit should be created or issued by any Act order resolution or Vote of Assembly in any of Our Colonies or Plantations in America to be a legal tender in payment and that any such Act Order Resolution or Vote for creating or issuing such Paper Bill or Bills of Credit or for prolonging the legal tender of any such then subsisting and current in any of the said Colonies and Plantations should be null and void And Whereas by another Act of Our said Parliament passed in the 13th year of Our Reign intituled "An Act to explain and "amend the above recited Act passed in the fourth Year of Our Reign as aforesaid" It is enacted that any Certificates Notes Bills or Debentures which shall or may be voluntarily accepted by the Creditors of the Public within any of the Colonies in America as security for the payment of what is due and owing to the said public Creditors may be made and enacted by the General Assemblies of the said Colonies respectively to be a tender to the Public Treasurers in the said Colonies for the discharge of any duties charges or other debts whatsoever due to and payable at or in the said Public Treasuries of the said Colonies in virtue of Laws passed within the same and in no other case whatsoever It is Our Will and Pleasure that you do in all things conform yourself to the provisions of the said recited Acts both with respect to the not assenting to any Bills which may be presented to you for the purpose of issuing or creating paper Bills or Bills of Credit to be a legal tender in payment and the Assenting to any Bills by which such Certificates Notes or Debentures which may be voluntarily accepted in payment by the Public Creditor shall be made a legal tender to the Treasury for Taxes Duties and other Payments to the Public Treasury.

19th. You shall not remit any Fines or Forfeitures whatsoever above the Sum of Ten Pounds nor dispose of any Forfeitures whatsoever until upon signifying unto the Commissioners of Our Treasury or Our High Treasurer for the time being the nature of the Offence and the occasion of such Fines and Forfeitures with the particular Sums or value thereof (which you are to do with all speed) you shall have received Our directions thereon but you may in the mean time suspend the payment of the said Fines and Forfeitures.

20th. And you are on every occasion to transmit to Us through one of Our Principal Secretaries of State with all convenient speed a particular account of all new Establishments of Jurisdictions Courts Offices and Officers' powers Authorities Fees and

Privileges granted and Settled within Our said Province of Upper Canada as likewise an Account of all the expenses (if any) attending the Establishment of the said Courts and Offices.

21st. It is Our further Will and Pleasure that all Commissions to be granted by you to any Person or Persons to be Judge Justice of the Peace or other necessary Officer be granted during Pleasure only.

22nd. You are not to suspend any of the Members of the said Executive Council or to suspend or displace any of the Judges Justices Sheriffs or other Officers or Ministers within Our said Province of Upper Canada without good and sufficient cause and in case of such suspension or removal you are forthwith to transmit your reasons for the same to one of Our Principal Secretaries of State.

23rd. And Whereas frequent complaints have been made of great delays and undue proceedings in the Courts of Justice in several of Our Plantations whereby many of Our good Subjects have very much suffered and it being of the greatest importance to Our Service and to the welfare of Our Plantations that Justice be every where speedily and duly Administered and that all disorders delays and other undue practices in the Administration thereof be effectually prevented We do particularly require you to take especial care that in all Courts where you are authorized to preside Justice be impartially Administered and that in all other Courts established within Our said Province all Judges and other Persons therein concerned do likewise perform the several duties without delay or partiality.

24th. You are to take care that no Court of Judicature be Adjourned but upon good grounds as also that no Orders of any Court of Judicature be entered or allowed which shall not be first read and approved of by the Justices in open Court which Rule you are in like manner to see observed with relation to all proceedings of Our Executive Council of Upper Canada and that all Orders there made be first read and approved in such Council before they are entered upon the Council Books.

25th. You are to take care that all Writs within the said Province of Upper Canada be issued in Our Name.

26th. You shall take care with the Advice and assistance of Our Executive Council that such Prisons as may at any time be necessary be erected and that the same or any other already erected be kept in such a condition as may effectually secure the Prisoners which now are or may hereafter be confined in them.

27th. You shall not suffer any Person to execute more Offices than one by Deputy.

28th. You shall not by Colour of any power or Authority hereby or otherwise granted or mentioned to be granted unto you take upon you to give grant or dispose of any place or Office within Our said Province which now is or shall be granted under the Great Seal of this Kingdom or to which any person is or shall be appointed by Warrant under Our Signet and Sign Manual any further than that you may upon the Vacancy of any such Office or Place or upon the suspension of any such officer by you as aforesaid put in any fit person to officiate in the interval till you shall have represented the Matter unto Us through one of Our Principal Secretaries of State which you are to do by the first opportunity and till the said Office or Place is disposed of by Us Our Heirs or Successors under the Great Seal of this Kingdom or until some person shall be appointed thereunto under Our Signet and Sign Manual or until Our further directions be given therein And it is Our express Will and Pleasure that you do give reasonable support unto the Patent Officers in the enjoyment of their Legal and established Fees Rights Privileges and Emoluments according to the true intent and meaning of their respective Patents.

29th. And Whereas several Complaints have been made by the Officers of Our Customs in Our Plantations in America that they have frequently been obliged to serve on Juries and personally to appear in Arms whenever the Militia is drawn out and thereby are much hindered in the execution of their employments Our Will and Pleasure is that you take effectual care and give the necessary directions that the several Officers of our Customs be excused and exempted from serving in any Juries or personally appearing in Arms in the Militia unless in cases of absolute necessity or serving any particular Offices which may hinder them in the execution of their duties.

30th. And Whereas nothing can more effectually tend to the speedy Settling of Our said Province of Upper Canada the security of the property of Our Subjects and the Advancement of Our Revenue than the disposal of such Lands as are Our Property upon reasonable terms and the establishing of a regular and proper method of proceeding with respect to the passing of grants of such Lands It is therefore Our Will and Pleasure that all and every Person or Persons who shall apply for any grant or grants of Land shall previous to their obtaining the same make it appear that they are in a condition to cultivate and improve the same and in case you shall upon a consideration of the circumstances of the person or persons applying for such grants think it advisable to pass the same you are in such case to cause a Warrant to be drawn up directed to the Surveyor General or other Officer empowering him or them to make a faithful and exact Survey of the Lands so petitioned for and to return the said Warrant within six Months at farthest from the date thereof with a Plot or description of the Land so Surveyed thereunto annexed and when the Warrant shall be returned by the said Surveyor or other proper Officer the Grant shall be made out in due form and the terms and conditions required by these Our Instructions be particularly and expressly mentioned therein and it is Our Will and Pleasure that the said Grants shall be registered within six Months from the date thereof in the Register's Office and a Docket thereof be also entered in Our Auditor's Office Copies of all which entries shall be regularly returned by the proper Officer to Our Commissioners of Our Treasury.

31st. And for the further encouragement of Our Subjects It is Our Will and Pleasure that the Lands to be granted by you as aforesaid shall be laid out in Townships and that each inland Township shall as nearly as circumstances will admit consist of ten Miles Square and such as shall be situated upon a Navigable River or Water shall have a front of nine Miles and be twelve Miles in depth and subdivided in such manner as shall be found most adviseable for the accommodation of the Settlers and for making the several reservations for Public Uses and particularly for the support of the Protestant Clergy agreeably to the above recited Act passed in the thirty first Year of Our Reign.

32nd. And Whereas great inconveniences have heretofore arisen in many of Our Colonies in America from the granting excessive quantities of Land to particular persons who have never cultivated or settled the same and have thereby prevented others more industrious from improving such Lands in order therefore to prevent the like inconveinences in future It is Our Will and Pleasure that you observe the following directions and regulations in all grants to be made by you as aforesaid that is to say

That no Town Lot shall be granted to any one person being Master or Mistress of a family in any Township so to be laid out which shall contain more than one Acre.

That no Park Lot shall be granted to any one person being Master or Mistress of a Family in any Township so to be laid out which shall contain more than twenty four Acres.

That no Farm Lot shall be granted to any one person being Master or Mistress of a family in any Township so to be laid out which shall contain more than two hundred Acres.

It is Our Will and Pleasure and you are hereby allowed and permitted to grant unto every such person and persons such further quantity of Land as they may desire not exceeding one Thousand Acres over and above what may heretofore have been granted to them and in all grants of Land to be made by you as aforesaid you are to take care that due regard be had to the quality and comparative value of the different parts of Land comprised within any Township so that each Grantee may have as nearly as may be a proportionate quantity of Lands of such different quality and comparative value as likewise that the breadth of such Tract of Land to be hereafter granted be one third of the length of such tract and that the length of such tract do not extend along the Banks of any River, but into the Main Land that thereby the said Grantees may have each a convenient share of what accommodation the River may afford for Navigation or otherwise.

33rd. And as a further accommodation to Our Subjects who shall become Settlers as aforesaid it is Our Will and Pleasure that the said Townships and the respective

allotments within the same together with the Lands to be reserved as aforesaid shall be run and laid out by Our Surveyor General of Lands for the said Province or some skilful person authorized by him for that purpose which Surveys together with the Warrants and Grants for the respective allotments shall be made out for and delivered to the several Grantees free of any expense or fee whatever other than such as may be payable to the different Officers according to the Table of Fees established upon Grants of Land made in the said Province.

34th. And in Order to prevent any persons disaffected to Us and Our Government from becoming Settlers in Our said Province of Upper Canada It is Our Will and Pleasure that no Warrants for Surveying Lands be granted by you or the Lieutenant Governor or person Administering the Government for the time being unless the person or persons applying for the same do at the time of making such application besides taking the usual Oaths directed by Law also make and subscribe the following declaration in your or his presence or in the presence of such person or persons as shall by you or him be appointed for that purpose that is to say. "I A.B.—do promise and declare "that I will maintain and defend to the utmost of my power the Authority of the King "in his Parliament as the Supreme Legislature of this Province."

35th. Whereas the reserving such Bodies of Land within Our Province of Upper Canada where there are considerable growths of Timber fit for the use of Our Royal Navy is a matter of the utmost importance to Our Service it is Our Will and Pleasure that no grants whatever be made of Lands in any district or tract of Our said Province of Upper Canada until Our Surveyor General or his deputy lawfully appointed shall have Surveyed the same and marked out as Reservations to Us Our Heirs and Successors such parts thereof as shall be found to contain any considerable growth of Masting or other Timber fit for the use of Our Royal Navy and more especially upon the Rivers and you are hereby instructed to direct Our Surveyor General of Lands in Our said Province from time to time with all due diligence to complete the Surveys and mark out the Reservations as aforesaid in the most convenient parts of Our said Province and you are from time to time to report the number extent and situation of such Reservations And you are further to direct Our Surveyor General not to Certify any plots of ground ordered and Surveyed for any person or persons in order That grants may be made out for the same until it shall appear to him by a Certificate under the hand of Our said Surveyor General of Woods or his deputy that the Land so to be granted is not part of or included in any District marked out as a Reservation for Us Our Heirs and Successors as aforesaid for the purpose herein before mentioned and in order to prevent any deceit or fraud from being committed by the persons applying for Lands in this respect It is Our Will and Pleasure that in all grants to be hereafter made for Lands within Our said Province of Upper Canada the following Proviso and exception be inserted that is to say "and provided also that no part of the parcel or tract of land hereby "granted to the said.....and his heirs be within any Reservation heretofore "made and marked for Us Our Heirs and Successors by Our Surveyor General of Woods "or his lawful deputy in which case this Our grant for such part of the Land hereby "given and granted to the said .... and his Heirs for ever as aforesaid and which "shall upon a Survey thereof being made be found within any such reservation shall be "null and void and of none effect any thing herein contained to the contrary notwithstanding."

36th. And whereas it is necessary that all persons who may be desirous of Settling in Our said Province should be fully informed of the Conditions and Terms upon which Lands will be granted within Our said Province of Upper Canada in the manner prescribed in and by the said Act passed in the first Year of Our Reign You are therefore as soon as possible to cause a Publication to be made by Proclamation or otherwise as you shall in your discretion think most adviseable of the said Terms and Conditions respecting the granting of Lands in which Proclamation it may be expedient to add some short description of the natural advantages of the Soil and Climate and its peculiar convenience for Trade and Navigation.

37th. And it is Our further Will and Pleasure that all the foregoing instructions to you as well as any which you may hereafter receive relative to the passing grants of

Lands in conformity to the said Act passed in the Thirty first year of Our Reign be entered upon Record for the information and satisfaction of all parties whatever that may be concerned therein.

38th. And Whereas it hath been represented to Us that many parts of the Province under your Government are particularly adapted to the Growth and Culture of Hemp and Flax it is therefore Our Will and Pleasure that in all Surveys for Settlements the Surveyor be directed to report whether there are any or what quantity of Lands contained within such Surveys fit for the production of Hemp and Flax.

39th. And Whereas it hath been represented to Us that several parts of Our Province of Upper Canada have been found to abound with Coals It is Our Will and Pleasure that in all grants of Land to be made by you a clause be inserted reserving to Us Our Heirs and Successors all Coals and also all Mines of Gold Silver Copper Tin Iron and Lead which shall be discovered upon such Lands.

40th. You shall cause a Survey to be made of all considerable Landing Places and Harbours in Our said Province in case the same shall not have already been done and report to Us by one of Our Principal Secretaries of State how far any Fortifications be necessary for the security and advantage of the said Province.

41st. Whereas the establishment of proper regulations on matters of Ecclesiastical concern is an object of very great importance it will be your indispensable duty to take care that no arrangements in regard thereto be made but such as may give full satisfaction to Our New Subjects in every point in which they have a right to any indulgence on that head always remembering that it is a toleration of the free exercise of the Religion of the Church of Rome only to which they are entitled but not to the powers and privileges of it as an Established Church that being a preference which belongs only to the Protestant Church of England.

42nd. And upon these principles therefore and to the end that Our just supremacy in all matters ecclesiastical as well as Civil may have its due scope and influence it is Our Will and Pleasure

First that all Appeals to or correspondence with any Foreign Ecclesiastical Jurisdiction of what nature or kind soever be absolutely forbidden under very severe Penalties.

Secondly that no Episcopal or Vicarial Powers be exercised within Our said Province by any Person professing the Religion of the Church of Rome but such only as are indispensably and indisputably necessary for the free exercise of the Romish Religion and in those cases not without a licence and permission from you under the Seal of Our said Province for and during Our Will and Pleasure and under such other limitations and restrictions as may correspond with the spirit and provisions of the Act of the fourteenth year of Our Reign "for making more effectual provision for the Govern- "ment of the Province of Quebec" and no person whatever is to have Holy Orders conferred upon him or have the cure of Souls without a licence for that purpose first had and obtained from you.

Thirdly that no person professing the Religion of the Church of Rome be allowed to fill any Ecclesiastical benefice or to have and enjoy any of the Rights or Profits belonging thereto who is not a Canadian by birth (such only excepted as are now in possession of any such benefices) and who is not appointed thereto by Us or under Our Authority and that all right or claim of right in any other person whatever to nominate present or appoint to any vacant benefice other than such as may lay claim to the Patronage of benefices as a Civil right be absolutely abolished no person to hold more than one benefice or at least not more than can reasonably be served by one and the same incumbent.

Fourthly that no person whatever professing the Religion of the Church of Rome be appointed incumbent of any Parish in which the majority of the Inhabitants shall solicit the Appointment of a Protestant Minister in such case the Incumbent shall be a Protestant and entitled to all Tythes payable within such Parish but nevertheless the Roman Catholics may have the use of the Church for the free exercise of their Religion at such time as may not interfere with the Religious Worship of the Protestants and in like manner the Protestant Inhabitants in every Parish where the majority of Parish-

ioners are Roman Catholics shall notwithstanding have the free use of the Church for the exercise of their Religion at such times as may not interfere with the Religious Worship of the Roman Catholics.

Fifthly that no Incumbent professing the Religion of the Church of Rome appointed to any Parish shall be entitled to receive any Tythes for Lands or possessions occupied by a Protestant but such Tythes shall be reserved in the hands of Our Receiver General as aforesaid for the support of a Protestant Clergy in Our said Province to be actually resident within the same and not otherwise according to such directions as you shall receive from Us in that behalf and in like manner all growing Rents and Profits of a vacant benefice shall during such vacancy be reserved for and applied to the like uses.

Sixthly that all Persons professing the Religion of the Church of Rome who are already possessed of or may hereafter be appointed to any Ecclesiastical benefice or who may be licenced to exercise any power or authority in respect thereto do take and subscribe before you in Council or before such person as you shall appoint to Administer the same the Oath required to be taken and subscribed by the aforesaid Act of Parliament passed in the fourteenth year of Our Reign intituled "An Act for making more "effectual provision for the Government of the Province of Quebec in North America".

Seventhly that all incumbents of Parishes professing the Romish Religion not being under the Ecclesiastical Jurisdiction of the Bishop of Quebec shall hold their respective benefices during their good behavour subject however in case of any convict tion for criminal Offences or upon due proof of Seditious attempts to disturb the peace and tranquility of Our Government to be deprived or suspended by you.

Eighthly that such Ecclesiastics as may think fit to enter into the Holy State of Matrimony shall be released from all penalties to which they may have been subjected in such cases by any Authority of the See of Rome.

Ninthly that freedom of the Burial of the Dead in the Churches and Church Yards be allowed indiscriminately to every Christian Persuasion.

Tenthly that the Royal Family be prayed for in all Churches and places of Public Worship in such manner and form as is used in this Kingdom and that Our Arms and Insignia be put up not only in all such Churches and places of holy Worship but also in all Courts of Justice and that the Arms of France be taken down in any such Church or Court where they may at present remain.

43rd. You are to permit liberty of conscience and the free exercise of all such modes of Religious Worship as are not prohibited by Law to all persons who may inhabit and frequent the Province of Upper Canada provided they be contented with a quiet and peaceable enjoyment of the same without giving offence or scandal to Government.

44th. It is Our Will and Pleasure to reserve to you the granting of Licenses for Marriages Letters of Administration and Probates of Wills as heretofore exercised by you and your predecessors and also to reserve to you and all others to whom it may lawfully belong the patronage and right of presentation to Benefices but it is Our Will and Pleasure that the person so presented shall be instituted by the Bishop or his Commissary duly authorized by him.

45th. You are to take especial care that God Almighty be devoutly and duly served throughout your Government that the Lords day be duly kept and the Services and Prayers appointed by and according to the Book of Common Prayer be publicly and solemnly performed throughout the year.

46th. You are to take care that the Churches which are or may be hereafter erected in Our said Province of Upper Canada be well and orderly kept.

47th. You shall reccommend to the Legislative Council and General Assembly of the Province of Upper Canada to settle the limits of Parishes in such manner as shall be deemed most convenient.

48th. You are to use your best endeavour that each Minister be constituted one of the Vestry in his respective Parish and that no Vestry be held without him except in case of Sickness or that after notice given of a Vestry he omit to come.

49th. It is Our Will and Pleasure that you recommend to the Legislative Council and Assembly of Our said Province of Upper Canada to make due provision for the

erecting and maintaining of Schools where youth may be educated in competent learning and in knowledge of the principles of the Christian Religion.

50th. And it is Our further Will and Pleasure that no persons shall be allowed to keep a School in the Province of Upper Canada without your Licence first had and obtained in granting of which you are to pay the most particular attention to the Morals and qualifications of the persons applying for the same and in all cases where the School has been instituted or appointed for the Education of Members of the Church of England or where it is intended that the Schoolmaster should be a Member of the Church of England you are not to grant such Licences except to persons who shall first have obtained from the Bishop of Quebec or one of his Commissaries a Certificate of their being properly qualified for that purpose.

51st. And it is Our further Will and Pleasure that in order to suppress every species of Vice profaneness and immorality you do forthwith cause all Laws made against Blasphemy profaneness Adultery Fornication Polygamy Incest profanation of the Lord's day Swearing and Drunkenness to be strictly put in execution in every part of the Province of Upper Canada and that for this purpose you do direct that the Constables and Churchwardens of the several Parishes do make presentment upon Oath of any of the Vices beforementioned to the Justices of the Peace in their Session or to any other of the Temporal Courts and you are earnestly to recommend to the Legislative Council and Assembly to provide effectual Laws for the restraint and punishment of all such of the aforementioned Vices against which no Laws are as yet provided or in cases where the Laws already made are found to be insufficient and in order to discountenance Vice and to promote the practice of Virtue to the utmost of your power We do hereby strictly command and enjoin you to appoint no person to be a Justice of the Peace or to any trust or employment whose notorious ill life or conversation may occasion scandal.

52nd. You are not to present any Protestant Minister to any Ecclesiastical Benefice within Our said Province by virtue of the said Act passed in the thirty-first year of Our Reign and of Our Commission to you without a proper Certificate from the Bishop of Quebec or his Commissary of his being conformable to the doctrine and discipline of the Church of England.

53rd. And you are to take especial care that the Table of Marriages established by the Canons of the Church of England be hung up in all places of Public Worship according to the Rites of the Church of England.

54th. It is Our Royal intention that the Peltry Trade of the interior Country shall be free and open to all our subjects inhabitants of any of Our Colonies who shall pursuant to what was directed by Our Royal Proclamation of 1763 obtain trading Licenses from the Governor of any of Our said Colonies under Penalties to observe such regulations as shall be made by Our Legislature of Our Province of Upper Canada for that purpose these regulations therefore when established must be made public throughout all Our American Possessions and they must have for their object the giving every possible facility to that Trade which the nature of it will admit and which may be consistent with fair and just dealing towards the Native Indians with whom it is carried on. The fixing stated times and places for carrying on the Trade and adjusting modes of Settling Tarriffs of the price of Goods and Furs and above all the restraining the Sale of Spirituous Liquors to the Indians will be the most profitable and effectual means of answering the ends proposed.

55th. And Whereas it is expedient for Our Service that We should from time to time be informed of the State of the Trade and Fisheries as well as of the Population of the said Province of Upper Canada it is Our Will and Pleasure that you do transmit to Us through one of Our Principal Secretaries of State and to Our Committee of Our Privy Council for Trade and Foreign Plantations for their information yearly and every year a full and particular Account of the Fur and Peltry Trade the nature and extent of the several Fisheries carried on by Our Subjects or others either on the Lakes or Rivers of the said Province the state of the cultivation particularly specifying the quantity of Grain hemp and Flax produced and of any other important branch of Trade which may in your opinion be undertaken and advantageously carred on by Our Subjects. 57th. Whereas it is absolutely necessary that We be exactly informed of the state of defence of all Our Plantations in America as well in relation to the Stores of War that are in each Plantation as to the Forts and Fortifications there and what more may be necessary to be built for the defence and security of the same you are from time to time to transmit an Account thereof with relation to Our said Province of Upper Canada in the most particular manner and you are therein to express the present state of the Arms Ammunition and other Stores of War belonging to the said Province either in any Public Magazine or in the hands of private persons together with a state of all places either already forfeited or that you may judge necessary to be forfeited for the security of Our said Province and you are to transact the said Accounts to Us by one of Our principal Secretaries of State and also Duplicates to Our Master General or principal Officers of Our Ordnance which Accounts are to express the particulars of Ordnance Carriages Balls Powder and all other sorts of Arms and Ammunition now in Our Public Stores and so from time to time of what shall be sent to you or bought with the Public Money and to specify the time of the disposal and the occasion thereof and other like Accounts half yearly in the same manner.

Given at Our Court at Carlton House the "13th Day of April 1820, in the First Year of Our Reign.

"First. With these Our Instructions you will receive Our Commission under "Our Great Seal of Our United Kingdom of Great Britain and Ireland constituting "you Our Captain General and Governor in Chief in and over Our Provinces of Upper "Canada and Lower Canada, bounded as in Our said Commission is particularly ex- "pressed: In the Execution, therefore, of so much of the Office and the Trust We have "reposed in you as relates to Upper Canada, you are to take upon you the Admini- "stration of the Government of the said Province, and to do and execute all Things be- "longing to your Command, according to the several Powers and Authorities of Our said "Commission under Our Great Seal of Our United Kingdom of Great Britain and "Ireland, and of the Act passed in the Thirtyfirst Year of the Reign of Our dearest Father "His late Majesty King George the Third, therein recited, and of these Our Instruc- "tions to you, and according to such further Powers and Instructions as you shall at "any Time hereafter receive under Our Signet and sign Manual, or by Our Order in "Our Privy Council, or through one of Our Principal Secretaries of State.

"Second. And you are, with all due Solemnity, before the Members of Our Exe- "cutive Council, to cause Our said Commission to be read and published; which being "done, you shall then take, and also administer to each of the Members of Our said "Executive Council, the several Oaths, and subscribe to the Declaration therein re- "quired.

"Third. You shall also administer or cause to be administered the Oaths men- "tioned in Our said Commission to all Persons, except as hereafter mentioned, that shall "be appointed to hold or exercise any Office, Place of Trust, or Profit in Our said "Province, previous to their entering on the Duties of such Office, and you shall also "cause them to make and subscribe the aforesaid Declaration; but in Cases where any "such Office, Place of Trust, or Profit in Our said Province of Upper Canada shall be "conferred on any of Our Subjects who may profess the Religion of the Church of "Rome, you shall, so often as any such Person shall or may be admitted into any such "Office, Place of Trust, or Profit, administer or cause to be administered to him the "Oath prescribed in and by an Act of Parliament passed in the Fourteenth Year of the "Reign of His late Majesty King George the Third, intituled 'An Act for making "more effectual Provision for the Government of the Province of Quebec in North "America,' and also the usual Oath for the Execution of such Office, Place of Trust, or "Profit, in lieu of all other Tests and Oaths whatsoever.

"Fourth. Whereas We have thought fit that there should be an Executive Coun- "cil for assisting you or Our Lieutenant Governor or Person administering the Govern- "ment of Our said Province of Upper Canada for the Time being; We do by these "Presents nominate and appoint the under-mentioned Persons to be of the Executive "Council of Our said Province; viz., William Drummer Power, [Dummer Powell] "Esquire, Our Chief Justice, or the Chief Justice of Our Province for the the Time "being; Jacob Lord Bishop of Quebec; James Baley [Baby]; Samuel Smith; The "Reverend John Strachan, D.D.; and William Clans [Claus] Esquire: And whereas "by an Order passed in the Province of Quebec the Governor and Council of "the said Province were constituted a Court of Civil Jurisdiction for hearing "and determining Appeals in certain Cases therein specified: And whereas, by "an Act passed in the Thirty-first Year of the Reign of Our dearest Father "His late Majesty King George the Third it is declared, that the Governor, "Lieutenant Governor, or Person administering the Government of the said Province, "together with such Executive Council, shall be a Court of Civil Jurisdiction "within Our said Province for hearing and determining Appeals within the same, in

" the like Cases, and in the like Manner and Form, and subject to such Appeal there-
" from, as such Appeals might have been, before the passing of the above-recited Act,
" heard and determined by the Governor and Council of Quebec ; in order, therefore,
" to carry the said Act into execution, Our Will and Pleasure is, that you do in all Civil
" Causes, on Application being made to you for that Purpose, permit and allow Appeals
" from any of the Courts of Common Law in Our said Province unto you and the
" Executive Council of the said Province of Upper Canada, in Manner prescribed by
" the above-mentioned Act, and you are for that Purpose to issue a Writ, as nearly in
" the accustomed Manner before the passing of the above mentioned Act, in
" respect of such Appeals as the Case will admit, returnable before yourself
" and the Executive Council of the said Province, who are to proceed to
" hear and determine such Appeal, wherein such of the said Executive Council as
" shall be at that Time Judges of the Court from whence such Appeal shall be so made
" to you and to Our said Executive Council as aforesaid shall not be admitted to vote
" upon the said Appeal, but they may nevertheless be present at the Hearing thereof,
" to give the Reasons of the Judgments given by them in the Causes wherein such
" Appeal shall be made ; provided nevertheless, that in all such Appeals the Sum or
" Value appealed for do exceed the Sum of Three hundred Pounds Sterling, and that
" Security be first duly given by the Appellant to answer such Charges as shall be
" awarded, in case the first Sentence be affirmed ; and if either Party shall not rest
" satisfied with the Judgment of you and such Executive Council as aforesaid Our Will
" and Pleasure is, that they may then appeal unto Us in Our Privy Council, provided
" the Sum or Value so appealed for unto Us do exceed the Sum of Five hundred Pounds
" Sterling, and that such Appeal be made within Fourteen Days after such Sentence,
" and good Security be given by the Appellant that he will effectually prosecute the
" same and answer the Condemnation, as also pay such Costs and Damages as shall be
" awarded by Us, in case the Sentence of you and the Executive Council be affirmed :
" Provided, nevertheless, where the Matter in question relates to the determining any
" Duty payable to Us, or to any Fee of Office or annual Rents, or other such like
" Matters or Things, where the Rights in future may be bound, in all such Cases you
" and the said Executive Council are to admit an Appeal to Us in Our Privy Council,
" though the immediate Sum or Value appealed for be of a less Value : And it is Our
" further Will and Pleasure, that in all Cases where, by your Instructions, you are to
" admit Appeals unto Us in Our Privy Council, Execution shall be suspended until the
" final Determination of such Appeal, unless good and sufficient Security be given by
" the Appellee to make ample Restitution of all that the Appellant shall have lost by
" means of such Decree or Judgment ; in case, upon the Determination of such Appeal,
" such Decree or Judgment should be reversed and Restitution awarded to the Appel-
" lant, you and Our Executive Council and also to permit Appeals unto Us in Our
" Privy Council in all Cases of Fines imposed for Misdemeanors, provided the Fines so
" imposed amount to or exceed the Sum of One hundred Pounds Sterling, the Appellant
" first giving good Security that he will effectually prosecute the same, and answer the
" Condemnation, if the Sentence by which the Fine was imposed in your Government
" shall be confirmed.

" Fifth. And that We may be always informed of the Names and Characters of
" Persons fit to supply the Vacancies which may happen in Our said Executive Council,
" you are, in case of any Vacancy in the said Council, to transmit to Us, through one
" of Our Principal Secretaries of State, the Names and Characters of such Three
" Persons, Inhabitants of Our said Province of Upper Canada, whom you may esteem
" best qualified for fulfilling the Trust of such Executive Councillor.

" Sixth. And in the Choice and Selection of such Persons proposed to fill such
" Vacancy in Our said Executive Council, as also of the Chief Officers of Justice ; you
" are always to take care that they be Men of good Life, well affected to Our Govern-
" ment, and of Abilities suitable to their Employment.

" Seventh. And whereas We are sensible that effectual Care ought to be taken to
" oblige the Members of Our Executive Council to a due Attendance ; it is Our Will
" and Pleasure, in order to prevent the many Inconveniences which may happen for

" Want of a Quorum of the Council to transact Business as Occasion may require, that " if any of the Members of Our said Executive Council residing in Our said Province " shall hereafter wilfully absent themselves from the Province, and continue absent " above the Space of Six Months together, without Leave from you first obtained under " your Hand and Seal, or shall remain absent for the Space of One Year without Our " Leave given them under Our Royal Signature, their Places in the said Executive " Council shall immediately thereupon become void. And We do hereby will and " require you, that this Our Royal Pleasure be signified to the several Members of " Our said Executive Council, and that it be entered in the Council Books as a stand- " ing Rule.

" Eighth. And to the end that Our said Executive Council may be assisting to " you in all Affairs relating to Our Service, you are to communicate to them such and " so many of these Our Instructions wherein their Advice is mentioned to be requisite, " and likewise all such others, from Time to Time, as you shall find convenient for Our " Service to be imparted to them.

" Ninth. You are to permit the Members of Our said Executive Council to have " and enjoy Freedom of Debate and Vote in all Affairs of public Concern which may be " debated in the said Executive Council.

" Tenth. And whereas by the aforesaid recited Act passed in the Thirty-first " Year of the Reign of Our dearest Father His late Majesty King George the Third it " is provided, that the Seats of the Members of Our Legislative Council shall become " vacant in certain Cases mentioned in the said Act; it is Our Will and Pleasure that " if any Member of Our said Legislative Council shall at any Time leave Our said " Province and reside out of the same, you shall report the same to Us through one of " Our Principal Secretaries of State; and you are also in like Manner to report whether " such Member of the said Council is absent by your Permission or by the Permission " of Our Lieutenant Governor or Commander in Chief of the said Province for the " Time being; and you are also in like Manner to report if it shall come to your " Knowledge that any such Member shall at any Time take or have taken the Oath of " Allegiance or Obedience to any Foreign Prince or Power, or shall be attainted for Trea- " son in any Court of Law within any of Our Dominions, that We may take such " Measures thereupon as We shall think fit; and you are to take especial Care that the " several Provisions of the said Act respecting the several Cases in which Persons may " or may not be entitled to receive Writs of Summons to the said Legislative Council, " or to hold their Places therein, shall be duly executed.

" Eleventh. And for the Execution of so much of the Powers vested in you by " Our said Commission and by virtue of the said Act as relates to the declaring that " you assent in Our Name to Bills passed by the Legislative Council and House of " Assembly, or that you withhold Our Assent therefrom, or that you reserve such Bills " for the Signification of Our Royal Pleasure thereon, it is Our Will and Pleasure that " you do carefully observe the following Rules, Directions, and Instructions, namely, " That the Style of enacting all the said Laws, Statutes, and Ordinances be, by Us, " Our Heirs and Successors, by and with the Advice and Consent of the Legislative " Council and Assembly of Our Province of Upper Canada, constituted and assembled " by virtue and under the Authority of an Act passed in the Parliament of Great " Britain, intituled 'An Act to repeal certain Parts of an Act passed in the Fourteenth " Year of His Majesty's Reign, intituled 'An Act for making more effectual Provision " for the Government of the said Province of Quebec in North America,' and to make " further Provision for the Government of the said Province,' and that no Bill in any " other Form shall be assented to by you in Our Name: That each different Matter " be provided for by a different Law, without including in one and the same Act such " Things as have no proper relation to each other: That no Clause be inserted in any " Act or Ordinance which shall be foreign to what the Title of it imports, and that no " perpetual Clause be Part of any temporary Law: That no Law or Ordinance whatever " be suspended, altered, continued, revived, or repealed in general Words, but that the " Title and Date of such Law or Ordinance shall be particularly mentioned in the " enacting Part: That in case any Law or Ordinance respecting private Property shall

" be passed without a Saving of the Right of Us, Our Heirs and Successors, and of all " Persons or Bodies Politic or Corporate, except such as are mentioned in the said Law " or Ordinance, you shall declare that you withhold Our Assent from the same; and if " any such Law or Ordinance shall be passed without such Saving you shall in every " Case declare that you reserve the same for the Signification of Our Royal Pleasure " thereon: That in all Laws or Ordinances for levying Money, or imposing Fines, " Forfeitures, or Penalties, express Mention be made that the same is granted to Us, " Our Heirs and Successors, for the public Uses of the said Province, and the Support " of the Government thereof, as by the said Law shall be directed, and that a Clause " be inserted, declaring that the due Application of such Money, pursuant to the " Directions of such Law, shall be accounted for unto Us, through Our Commissioners " of Our Treasury for the Time being, in such Manner and Form as we shall direct.

" Twelfth. And whereas We have by Our said Commission given you full Power " and Authority subject as therein specified, and to these Our Instructions in that " Behalf, to issue Writs of Summons and Election, and to call together the Legislative " Council and Assembly of Our said Province of Upper Canada; and for the Purpose " of electing the Members of the Assembly of Our said Province of Upper Canada, have " also given you full Power and Authority to issue a Proclamation dividing Our said " Province of Upper Canada into Districts or Counties or Circles and Towns or Town- " ships: Now, Our Will and Pleasure is, that you shall issue such Proclamation as " soon as may be, allowing nevertheless reasonable Time between the issuing thereof " and the Time of issuing the Writs of Summons and Election above-mentioned.

" Thirteenth. That all Laws assented to by you in Our Name, or reserved for the " Signification of Our Royal Pleasure thereon, shall, when transmitted by you, be fairly " abstracted in the Margins, and accompanied with very full and particular Observa- " tions upon each of them, that is to say, whether the same is introductory to a new " Law, declaratory of a former Law, or does repeal a Law then before in being; and " you are also to transmit in the fullest Manner, the Reasons and Occasion for pro- " posing such Laws, together with fair Copies of the Journals and Minutes of the Pro- " ceedings of the said Legislative Council and Assembly, which you are to require from " the Clerks or other proper Officers in that Behalf of the said Legislative Council and " Assembly.

" Fourteenth. And whereas in the said Act it is provided that in certain Cases " Acts passed by the Legislative Council and Assembly of the Province shall previous, " to any Signification of Our Assent thereto, be laid before both Houses of Our " Parliament of this Kingdom: And whereas it is also provided in the said Acts, " that in certain Cases Provision may be made by the Acts of the Legislative Council " of the Assembly of this Province, assented to by Us, Our Heirs and Successors " (thereby reserving the Power of giving such Assent to Us, Our Heirs or Successors, " only); you are to take especial Care that in every such Case you are to declare that " you reserve such Bills for the Signification of Our Pleasure thereon, and you will like- " wise reserve for such Signification every other Bill which you shall consider to be of " an extraordinary or unusual Nature, or requiring Our especial Consideration and " Decision thereupon, particularly such as may affect the Property, Credit, or Dealings " of such of Our Subjects as are not usually resident within Our said Province, or " whereby Duties shall be laid upon British or Irish Shipping, or upon the Produce or " Manufactures of Great Britain or Ireland.

" Fifteenth. And whereas Laws have formerly been enacted in several of Our " Plantations in America for so short a Time that Our Royal Assent or Refusal thereof " could not be had before the Time for which such Laws were enacted did expire; you " shall not assent in Our Name to any Law that shall be enacted for a less Time than " Two Years, except in Cases of imminent Necessity or immediate temporary Expe- " diency; and you shall not declare Our Assent to any Law containing Provisions " which shall have been disallowed by Us, without express Leave for that Purpose first " obtained from Us, upon a full Representation by you, to be made to Us through One " of Our Principal Secretaries of State, of the Reasons and Necessity of passing such " Law.

"Sixteenth. Whereas We have thought fit by Our Orders in Our Privy Council, "to disallow certain Laws passed in some of Our Colonies and Plantations in America, "for conferring the Privileges of Naturalization on Persons being Aliens, and for divorc- "ing Persons who have been legally joined together in holy Marriage: And whereas "Acts have been passed in others of Our said Colonies to enable Persons who are Our "liege Subjects by Birth or Naturalization to hold and inherit Lands, Tenements, and "Real Estates, although such Tenements and Real Estates have been originally granted "to or purchased by Aliens antecedent to Naturalization; it is Our Will and Pleasure, "that you do not, upon any Pretence whatsoever, give your Assent to any Bill or Bills "that may hereafter be passed by the Legislative Council and Assembly of the said "Province under your Government, for the Naturalization of Aliens, nor for the Divorce "of Persons joined in holy Marriage, nor for establishing a Title in any Person to "Lands, Tenements, and Real Estates in Our said Province originally granted or pur- "chased by Aliens antecedent to Naturalization.

"Seventeenth. You are to give Warrants under your Hand for the issuing of "Public Monies for all Public Services; and We do particularly require you to take care "that regular Accounts of all Receipts and Payments of Public Monies be duly kept; "that the same from Time to Time be duly audited by Our Executive Council, and that "Copies thereof, attested by you, be transmitted every Half Year, or oftener if there "should be Occasion, to Our Commissioners of Our Treasury or to Our High Treasurer "for the Time being, and Duplicates thereof by the next Conveyance; in which "Accounts shall be specified every particular Sum raised or disposed of, to the end that "We may take such Measures as We may deem necessary for the Examination of the "said Accounts, and that We may be satisfied of the right and due Application of the "Revenues of Our said Province of Upper Canada, and with the Probability of the "Increase or Diminution of it under every Head and Article thereof.

"Eighteenth. And whereas by an Act of Parliament of Great Britain passed in "the Fourth Year of the Reign of Our dearest Father His late Majesty King George "the Third, intituled 'An Act to prevent Paper Bills of Credit hereafter to be issued in "any of His Majesty's Colonies and Plantations in America from being declared a legal "Tender in Payment of Money, and to prevent the legal Tender of such Bills as are "now subsisting from being prolonged beyond the Periods limited for calling in and "sinking the same,' it is enacted that no Paper Bills or Bills of Credit should be created "or issued by an Act, Order, Resolution, or Vote of Assembly in any of Our Colonies "or Plantations in America to be a legal Tender in Payment, and that any such Act, "Order, Resolution, or Vote for creating or issuing such Paper Bills or Bills of Credit, "or for prolonging the legal Tender of any such then subsisting and current in any of "the said Colonies and Plantations, should be null and void: And whereas by another "Act of Our said Parliament passed in the Thirteenth Year of the Reign of Our dearest "Father His late Majesty King George the Third, intituled 'An Act to explain and "amend the above recited Act passed in the Fourth Year of Our Reign as aforesaid, it "is enacted, that any Certificates, Notes, Bills, or Debentures which shall or may be "voluntarily accepted by the Creditors of the Public within any of the Colonies in "America as Security for the Payment of what is due and owing to the said public "Creditors may be made and enacted by the General Assemblies of the said Colonies "respectively to be a Tender to the public Treasurers in the said Colonies for the Dis- "charge of any Duties, Charges, or Debts whatsoever due to and payable at or in the "said public Treasuries of the said Colonies in virtue of Laws passed within the same, "and in no other Case whatsoever; it is Our Will and Pleasure that you do in all things "conform yourself to the Provisions of the said recited Acts, both with respect to the "not assenting to any Bills which may be presented to you for the Purpose of issuing "or creating Paper Bills or Bills of Credit to be a legal Tender in Payment, and the "assenting to any Bills by which such Certificates, Notes, or Debentures which may be "voluntarily accepted in Payment by the public Creditor shall be made a legal Tender "to the Treasury for Taxes, Duties, and other Payments to the public Treasury.

"Nineteenth. You shall not remit any Fines or Forfeitures whatsoever above the "Sum of 10*l*., nor dispose of any Forfeiture whatsoever, until, upon signifying unto the

"Commissioners of Our Treasury or Our High Treasurer for the Time being the Nature "of the Offence, and the Occasion of such Fines and Forfeitures, with the particular "Sums or Value thereof (which you are to do with all Speed,) you shall have received "Our Directions thereon, but you may in the meantime suspend the Payment of the "said Fines and Forfeitures.

"Twentieth. And you are, on every Occasion, to transmit to Us, through one of "Our Principal Secretaries of State, with all convenient Speed, a particular Account of "all new Establishments of Jurisdictions, Courts, Offices and Officers, Powers, Authori- "ties, Fees, and Privileges granted and settled within Our said Province of Upper "Canada, as likewise an Account of all the Expenses (if any) attending the Establish- "ment of the said Courts and Offices.

"Twenty-first. It is Our further Will and Pleasure that all Commissions to be "granted by you to any Person or Persons to be Judge, Justice of the Peace, or other "necessary Officer, be granted during Pleasure only.

"Twenty-second. You are not to suspend any of the Members of the said Execu- "tive Council, or to suspend or displace any of the Judges, Justices, Sheriffs, or other "Officers or Ministers within Our said Province of Upper Canada, without good and "sufficient Cause; and in case of such Suspension or Removal, you are forthwith to "transmit your Reasons for the same to one of Our Principal Secretaries of State.

"Twenty-third. And whereas frequent Complaints have been made of great De- "lays and undue Proceedings in the Courts of Justice in several of Our Plantations, "whereby many of Our good Subjects have very much suffered; and it being of the "greatest Importance to Our Service and to the Welfare of Our Plantations that Just- "tice be everywhere speedily and duly administered, and that all Disorders, Delays and "other undue Practices in the Administration thereof be effectually prevented, We do "particularly require you to take especial Care that in all Courts where you are author- "ized to preside Justice be impartially administered, and that in all other Courts estab- "lished within Our said Province all Judges and other Persons therein concerned do "likewise perform the several Duties without Delay or Partiality.

"Twenty-fourth. You are to take care that no Court of Judicature be adjourned "but upon good Grounds, as also that no Orders of any Court of Judicature be entered "or allowed which shall not be first read and approved of by the Justices in open Court; "which Rule you are in like Manner to see observed with relation to all Proceedings of "Our Executive Council of Upper Canada, and that all Orders there made be first read "and approved in such Council before they are entered upon the Council Books.

"Twenty-fifth. You are to take care that all Writs within the said Province of "Upper Canada be issued in Our Name.

"Twenty-sixth. You shall take care, with the Advice and Assistance of Our "Executive Council, that such Prisons as may at any Time be necessary be erected, "and that the same, or any other already erected, be kept in such a Condition as may "effectually secure the Prisoners which now are or may hereafter be confined in them.

"Twenty-seventh. You shall not suffer any Person to execute more Offices than "One by Deputy.

"Twenty-eighth. You shall not, by Colour of any Power or Authority hereby or "otherwise granted or mentioned to be granted unto you, take upon you to give, grant, "or dispose of any Place or Office within Our said Province which now is or shall be "granted under the Great Seal of this Kingdom, or to which any Person is or shall be "appointed by Warrant under Our Signet and Sign Manual, any further than that you "may upon the Vacancy of any such Office or Place, or upon the Suspension of any "such Officer by you as aforesaid, put in any fit Person to officiate in the Interval till "you shall have represented the Matter unto Us, through one of Our Principal Secre- "taries of State, which you are to do by the first Opportunity, and till the said Office "or Place is disposed of by Us, Our Heirs or Successors, under the Great Seal of this "Kingdom, or until some Person shall be appointed thereunto under Our Signet and "Sign Manual, or until Our further Directions be given therein; and it is Our express "Will and Pleasure that you do give reasonable Support unto the Patent Officers in

"the Enjoyment of their legal and established Fees, Rights, Privileges, and Emolu-
"ments, according to the true Intent and Meaning of their respective Patents.

"Twenty-ninth. And whereas several Complaints have been made by the Officers
"of Our Customs in Our Plantations in America that they have frequently been obliged
"to serve on Juries, and personally to appear in Arms whenever the Militia is drawn
"out, and thereby are much hindered in Execution of their Employments; Our Will
"and Pleasure is, that you take effectual Care, and give the necessary Directions that
"the several Officers of Our Customs be excused and exempted from serving in any
"Juries, or personally appearing in Arms in the Militia, unless in Cases of absolute
"Necessity, or serving any particular Offices which may hinder them in the Execution
"of their Duties.

"Thirtieth. And whereas nothing can more effectually tend to the speedy settling
"of Our said Province of Upper Canada, the Security of the Property of Our Subjects,
"and the Advancement of Our Revenue, than the Disposal of such Lands as are Our
"Property upon good and reasonable Terms, and the establishing of a regular and
"proper Method of proceeding with respect to the passing of Grants of such Lands; it
"is our Will and Pleasure that all and every Person or Persons who shall apply for any
"Grant or Grants of Land shall, previous to their obtaining the same, make it appear
"that they are in a Condition to cultivate and improve the same; and in case you shall
"upon a Consideration of the Circumstances of the Person or Persons applying for such
"Grants, think it advisable to pass the same, you are in such a Case to cause a War-
"rant to be drawn up, directed to the Surveyor General or other Officer, empowering
"him or them to make a faithful and exact Survey of the Lands so petitioned for, and
"to return the said Warrant within Six Months at farthest from the Date thereof, with
"a Plot or Description of the Land so surveyed thereunto annexed, and when the War-
"rant shall be returned by the said Surveyor or other proper Officer the Grant shall be
"made out in due Form, and the Terms and Conditions required by these Our Instruc-
"tions be particularly and expressly mentioned therein; and it is Our Will and Plea-
"sure that the said Grants shall be registered within Six Months from the date thereof
"in the Registrars Office, and a Docket thereof be also entered in Our Auditors Office,
"Copies of all which Entries shall be regularly returned by the proper Officers to our
"Commissioners of Our Treasury.

"Thirty-first. And for the further Encouragement of Our Subjects it is Our Will
"and Pleasure that the Lands to be granted by you as aforesaid shall be laid out in
"Townships, and that each inland Township shall, as nearly as Circumstances will ad-
"mit, consist of Ten Miles square, and such as shall be situated upon a navigable River
"or Water shall have a Front of Nine Miles, and be Twelve Miles in Depth, and sub-
"divided in such Manner as shall be found most advisable for the Accommodation of
"the Settlers, and for making the several Reservations for public Uses, and particularly
"for the Support of the Protestant Clergy, agreeably to the first-recited Act passed in
"the Thirty-first Year of the Reign of Our dearest Father His late Majesty King
"George the Third.

"Thirty-second. And whereas great Inconveniences have heretofore arisen in
"many of Our Colonies in America from the granting excessive Quantities of Land to
"particular Persons who have never cultivated or settled the same, and have thereby
"prevented others more industrious from improving such Lands; in order therefore to
"prevent the like Inconveniences in future, it is Our Will and Pleasure that you ob-
"serve the following Directions and Regulations in all Grants to be made by you as
"aforesaid; that is to say, That no Town Lot shall be granted to any one Person, being
"Master or Mistress of a Family, in any Township so to be laid out, which shall con-
"tain more than One Acre: That no Park Lot shall be granted to any One Person,
"being Master or Mistress of a Family, in any Township so to be laid out, which shall
"contain more than Twenty-four Acres: That no Farm Lot shall be granted to any
"One Person, being Master or Mistress of a Family, in any Township so to be laid out
"which shall contain more than 200 Acres. It is Our Will and Pleasure, and you are
"hereby allowed and permitted, to grant unto every such Person or Persons such
"further Quantity of Land as they may desire, not exceeding 1,000 Acres, over and

"above what may heretofore have been granted to them; and in all Grants of Land "to be made by you as aforesaid you are to take care that due Regard be had to the "Quality and comparative Value of the different Parts of Land comprised within any "Township, so that each Grantee may have, as nearly as may be, a proportionate "Quantity of Lands of such different Quality and comparative Value, as likewise that "the Breadth of such Tract of Land to be hereafter granted be One Third of the Length "of such Tract, do not extend along the Bank of any River, but into the main Land, "that thereby the said Grantees may have each a convenient Share of what Accommo- "dation the River may afford for Navigation or otherwise.

"Thirty-third. And as a further Accommodation to Our Subjects who shall have "become Settlers as aforesaid, it is Our Will and Pleasure that the said Townships and "the respective Allotments within the same, together with the Lands to be reserved as "aforesaid, shall be seen and laid out by Our Surveyor General of Lands for the said "Province, or some skilful Person authorized by him for that Purpose, which Surveys, "together with the Warrants and Grants and the respective Allotments, shall be made "out for and delivered to the several Grantees free of any Expense or Fee whatever, "other than such as may be payable to the different Officers according to the Table of "Fees established upon Grants of Land made in the said Province.

"Thirty-fourth. And in order to prevent any Persons disaffected to Us and Our "Government from becoming Settlers in Our said Province of Upper Canada, it is Our "Will and Pleasure that no Warrants for surveying Lands be granted by you or the "Lieutenant Governor, or Person administering the Government for the Time being, "unless the Person or Persons applying for the same do, at the Time of making such "Application, besides taking the usual Oaths directed by law, also make and subscribe "the following Declaration in your or his Presence, or in the Presence of such Person or "Persons as shall by you or him be appointed for that Purpose; that is to say,—I "A.B. do promise and declare, that I will maintain and defend, to the utmost of my "Power, the Authority of the King in his Parliament as the Supreme Legislature of "this Province.

"Thirty-fifth. Whereas the reserving such Bodies of Land within Our Province "of Upper Canada, where there are considerable Growths of Timber fit for the Use of "Our Royal Navy, it is a Matter of the utmost Importance to Our Service; it is Our "Will and Pleasure that no Grants whatever be made of Lands in any District or Tract "of Our said Province of Upper Canada until Our Surveyor General or his Deputy law- "fully appointed shall have surveyed the same and marked out as Reservations to Us, "Our Heirs and Successors, such Parts thereof as shall be found to contain any con- "siderable Growth of Masting or other Timber fit for the Use of Our Royal Navy, and "more especially upon the River; and you are hereby instructed to direct Our Surveyor "General of Lands in Our said Province, from Time to Time, with all due Diligence, to "complete the Surveys, and mark out the Reservations as aforesaid in the most con- "venient Parts of Our said Province; and you are from Time to Time to report the "Number, Extent, and Situation of such Reservations; and you are further to direct "Our Surveyor General not to certify any Plots of Ground ordered and surveyed for "any Person or Persons in order that Grants may be made out for the same, until it shall "appear to him, by a Certificate under the Hand of Our Surveyor General of Woods, or "his Deputy, that the Land so to be granted is not Part of or included in any District "marked out as a Reservation for Us, Our Heirs and Successsors as aforesaid, for the "Purpose herein-before mentioned: And in order to prevent any Deceit or Fraud from "being committed by the Persons applying for Lands in this respect, it is Our Will and "Pleasure that in all Grants to be hereafter made for Lands within Our said Province "of Upper Canada the following Proviso and Exceptions be inserted; that is to say, "(And provided also, that no Part of the Parcel or Tract of Land hereby granted to the "said and his Heirs be within any Reservation heretofore made and marked for "Us, Our Heirs and Successors, by Our Surveyor General of Woods, or his lawful "Deputy, in which Case this Our Grant for such Part of the Land hereby given and "granted to the said and his Heirs for ever as aforesaid, and which shall, "upon a Survey thereof being made, be found within any such Reservations, shall be

"null and void and of none Effect, any thing herein contained to the contrary notwith-
"standing.'

"Thirty-sixth. And whereas it is necessary that all Persons who may be desirous "of settling in Our said Province should be fully informed of the Conditions and Terms "upon which Lands will be granted within Our said Province of Upper Canada, in the "Manner prescribed in and by the said Act passed in the Thirty-first Year of the Reign "of Our dearest Father His late Majesty King George the Third; you are therefore, as "soon as possible, to cause a Publication to be made, by Proclamation or otherwise, as "you shall in your Discretion think most advisable, of the said Terms and Conditions "respecting the granting of Lands; in which Proclamation it may be expedient to add "some short Description of the natural Advantages of the Soil and Climate, and its "peculiar Convenience for Trade and Navigation.

"Thirty-seventh. And it is Our further Will and Pleasure that all the foregoing "Instructions to you, as well as any which you may hereafter receive, relative to the "passing Grants of Lands, in conformity to the said Act passed in the Thirty-first Year "of the Reign of Our dearest Father His late Majesty King George the Third, be en-"tered upon Record, for the Information and Satisfaction of all Parties whatever that "may be concerned therein.

"Thirty-eighth. And whereas it hath been represented to Us that many Parts of "the Province under your Government are particularly adapted to the Growth and "Culture of Hemp and Flax; it is therefore Our Will and Pleasure that in all Surveys "for Settlements the Surveyor be directed to report whether there are any or what "Quantity of Lands contained within such Surveys for the Production of Hemp and "Flax.

"Thirty-ninth. And whereas in hath been represented to Us that several Parts of "Our Province of Upper Canada have been found to abound with Coals; it is Our Will "and Pleasure that in all Grants of Lands to be made by you a Clause be inserted, re-"serving to Us, Our Heirs and Successors, all Coals, and also all Mines of Gold, Silver, "Copper, Tin, Iron, and Lead, which shall be discovered upon such Lands.

"Fortieth. You shall cause a Survey to be make of all considerable Landing Places "and Harbours in Our said Province, in case the same shall not have already been done, "and report to Us, through one of Our Principal Secretaries of State, how far any "Fortifications be necessary for the Security and Advantage of the said Province.

"Forty-first. Whereas the Establishment of proper Regulations on Matters of "Ecclesiastical Concern is an Object of very great Importance; it will be your in-"dispensable Duty to take care that no Arrangements in regard thereto be made, but "such as may give full Satisfaction to Our new Subjects in every Point to which they "have a Right to any Indulgence on that Head, always remembering that it is a "Toleration of the free Exercise of the Religion of the Church of Rome only to which "they are entitled, but not to the Powers and Privileges of it as an Established Church, "that being a Preference which belongs only to the Protestant Church of England.

"Forty-second. And upon these Principles therefore, and to the end that Our just "Supremacy in all Matters Ecclesiastical as well as Civil may have its due Scope and "Influence, it is Our Will and Pleasure,—First, that all Appeals to a Correspondence "with any Foreign Ecclesiastical Jurisdiction, of what Nature or Kind soever, be "absolutely forbidden under very severe Penalties: Secondly, that no Episcopal or "Vicarial Powers be exercised within Our said Province by any Person professing the "Religion of the Church of Rome, but such only as are indispensably and indisputably "necessary to the free Exercise of the Romish Religion, and in those Cases not without "a Licence and Permission from you, under the Seal of Our said Province, for and "during Our Will and Pleasure, and under such other Limitations and Restrictions "as may correspond with the Spirit and Provisions of the Act of the Fourteenth Year "of the Reign of Our dearest Father His late Majesty King George the Third, 'for making "more effectual Provision for the Government of the Province of Quebec;' and no Per-"son whatever is to have Holy Orders conferred upon him, or have the Care of Souls, "without a License for that Purpose first had and obtained from you: Thirdly, that no "Person professing the Religion of the Church of Rome be allowed to fill any Ecclesias-

"tical Benefice, or to have or to enjoy any of the Rights or Profits belonging thereto, "who is not a Canadian by Birth (such only excepted as are now in possession of any "such Benefices), and who is not appointed thereto by Us or under Our Authority, and "that all Right or Claim of Right in any other Person whatever to nominate, present, "or appoint to any vacant Benefice, other than such as may by Claim to the Patronage "of Benefices as a Civil Right, be absolutely abolished; no Person to hold more than "One Benefice, or at least not more than can reasonably be served by one and the same "Incumbent: Fourthly, that no Person whatever professing the Religion of the Church "of Rome be appointed Incumbent of any Parish in which the majority of the Inhabi- "tants shall solicit the Appointment of a Protestant Minister; in such Case the In- "cumbent shall be a Protestant, and entitled to all Tithes payable within such Parish, "but nevertheless the Roman Catholics may have the Use of the Church for the free "Exercise of their Religion, at such Time as may not interfere with the Religious "Worship of the Protestants; and in like Manner the Protestant Inhabitants in every "Parish, where the Majority of the Parishoners are Roman Catholics, shall notwith- "standing have the free Use of the Church for the free Exercise of their Religion, at "such Times as may not interfere with the Religious Worship of the Roman Catholics: "Fifthly, that no Incumbent professing the Religion of the Church of Rome appointed "to any Parish shall be entitled to receive any Tithes for Lands or Possessions occupied "by a Protestant, but such Tithes shall be received by such Persons as you shall appoint, "and shall be reserved in the Hands of Our Receiver General as aforesaid for the Support "of a Protestant Clergy in Our said Province, to be actually resident within the same, and "not otherwise, according to such Directions as you shall receive from Us in that Behalf; "and in like Manner all growing Rents and Profits of a vacant Benefice shall, during such "Vacancy, be reserved for and applied to the like Uses: Sixthly, that all Persons pro- "fessing the Religion of the Church of Rome, who are already possessed of or may here- "after be appointed to any Ecclesiastical Benefice, or who may be licensed to exercise "any Power or Authority in respect thereto, do take and subscribe before you in Coun- "cil, or before such Person as you shall appoint to administer the same, the Oath "required to be taken and subscribed by the aforesaid Act of Parliament passed in the "Fourteenth Year of the Reign of Our dearest Father His late Majesty King George "the Third, intituled 'An Act for making more effectual Provision for the Government "of the Province of Quebec in North America': Seventhly, that all Incumbents of "Parishes, professing the Romish Religion, not being under the Ecclesiastical Jurisdic- "tion of the Bishop of Quebec, shall hold their respective Benefices during their good "Behaviour, subject, however, in case of any Conviction for criminal Offences, or upon "due Proofs of seditious Attempts to disturb the Peace and Tranquility of Our Gov- "ernment, to be deprived or suspended by you: Eighthly, that such Ecclesiastics as may "think fit to enter into the holy State of Matrimony shall be released from all Penalties "to which they may have been subjected in such Cases by any Authority of the See of "Rome: Ninthly, that Freedom of the Burial of the Dead in the Churches and Church- "yards be allowed indiscriminately to every Christian Persuasion: Tenthly, that the "Royal Family be prayed for in all Churches and Places of Public Worship, in such "Manner and Form as is used in this Kingdom; and that Our Arms and Insignia be "put up, not only in all such Churches and Places of holy Worship, but also in all "Courts of Justice, and that the Arms of France be taken down in any such Church "or Court where they may at present remain.

"Forty-third. You are to permit Liberty of Conscience, and the free exercise of "all such Modes of Religious Worship as are not prohibited by Law, to all Persons "who may inhabit and frequent the Province of Upper Canada, provided they be con- "tent with a quiet and peaceable Enjoyment of the same, without giving Offence or "Scandal to the Government.

"Forty-fourth. It is Our Will and Pleasure to reserve to you the granting of "Licenses for Marriages, Letters of Administration, and Probates of Wills, as hereto- "fore exercised by you and your Predecessors; and also to reserve to you, and to all "others to whom it may lawfully belong, the Patronage and Right of Presentation to

"Benefices; but it is Our Will and Pleasure that the Person so presented shall be in-
"stituted by the Bishop or his Commissary duly authorized by him.

"Forty-fifth. You are to take especial Care that God Almighty be devoutly and
"duly served throughout your Government, that the Lord's Day be duly kept, and the
"Services and Prayers appointed by and according to the Book of Common Prayer be
"publicly and solemnly performed throughout the Year.

"Forty-sixth. You are to take care that the Churches which are or may be here-
"after erected in Our said Province of Upper Canada be well and orderly kept.

"Forty-seventh. You shall recommend to the Legislative Council and General
"Assembly of the Province of Upper Canada to settle the Limits of Parishes in such
"Manner as shall be deemed most convenient.

"Forty-eighth. You are to use your best Endeavour that each Minister be consti-
"tuted one of the Vestry in his respective Parish, and that no Vestry be held without
"him, except in case of Sickness, or that, after Notice given of a Vestry, he omit to
"come.

"Forty-ninth. It is Our Will and Pleasure that you recommend to the Legislative
"Council and Assembly of Our said Province of Upper Canada to make due Provi-
"sion for the erecting and maintaining of Schools where Youth may be educated in
"competent Learning, and in Knowledge of the Principles of the Christian Religion.

"Fiftieth. And it is Our further Will and Pleasure that no Person shall be
"allowed to keep a School in the Province of Upper Canada without your License first
"had and obtained, in granting of which you are to pay the most particular Attention
"to the Morals and Qualifications of the Persons applying for the same; and in all
"Cases where the School has been instituted or appointed for the Education of Mem-
"bers of the Church of England, or where it is intended that the Schoolmaster should
"be a Member of the Church of England, you are not to grant such Licenses except to
"Persons who shall first have obtained from the Bishop of Quebec, or one of his Com-
"missaries, a Certificate of their being properly qualified for that Purpose.

"Fifty-first. And it is Our further Will and Pleasure that, in order to suppress
"every Species of Vice, Profaneness and Immorality, you do forthwith cause all Laws
"made against Blasphemy, Profaneness, Adultery, Fornication, Polygamy, Incest, Pro-
"fanation of the Lord's Day, Swearing, and Drunkenness to be strictly put in execution
"in every Part of the Province of Upper Canada, and that for this Purpose you do
"direct that the Constables and Churchwardens of the several Parishes do make Pre-
"sentment upon Oath of any of the Vices before mentioned to the Justices of the Peace
"in their Session, or to any other of the temporal Courts; and you are earnestly to
"recommend to the Legislative Council and Assembly to provide effectual Laws for the
"Restraint and Punishment of all such of the afore-mentioned Vices against which
"no Laws are as yet provided, or in Cases where the Laws already made are found to
"to be insufficient; and in order to discountenance Vice and promote the Practice of
"Virtue to the utmost of your Power, We do hereby strictly command and enjoin you
"to appoint no Person to be a Justice of the Peace, or to any Trust or Employment,
"whose notorious ill Life or Conversation may occasion Scandal.

"Fifty-second. You are not to present any Protestant Minister to any Ecclesias-
"tical Benefice within Our said Province by virtue of the said Act passed in the Thirty-
"first Year of the Reign of His late Majesty King George the Third, and of Our Com-
"mission to you, without a proper Certificate from the Bishop of Quebec, or his Com-
"missary, of his being conformable to the Doctrine and Discipline of the Church of
"England.

"Fifty-third. And you are to take especial Care that the Table of Mar-
"riages established by the Canons of the Church of England be hung up in
"all Places of Public Worship according to the Rites of the Church of England.

"Fifty-fourth. It is Our Will and Intention that the petty [peltry] Trade of the inte-
"rior Country shall be free and open to all Our Subjects, Inhabitants of any of Our Colo-
"nies, who shall, pursuant to what was directed by the Royal Proclamation of 1763, obtain
"Trading Licenses from the Governor of any of Our said Colonies, under Penalties to
"observe such Regulations as shall be made by Our Legislature of Our Province of

"Upper Canada for that Purpose; these Regulations therefore, when established, must "be made public throughout all Our American Possessions, and they must have for "their Object the giving every possible Facility to that Trade which the Nature will "admit and which may be consistent with fair and just Dealing towards the native "Indians with whom it is carried on. The fixed stated Times and Places for carrying "on the Trade and adjusting Modes for settling Tariffs, the Price of Goods and Furs, "and, above all, the restraining the Sale of Spirituous Liquors to the Indians will be "the most profitable and effectual Means of answering the Ends proposed.

"Fifty-fifth. And whereas it is expedient for Our Service that We should from "Time to Time be informed of the State of the Trade and Fisheries, as well as of the "Population, of the said Province of Upper Canada, it is Our Will and Pleasure that "You do transmit to Us, through one of Our principal Secretaries of State, and to Our "Committee of Our Privy Council for Trade and Foreign Plantations for Information, "yearly and every Year, a full and particular Account of the State of the Fur and "Peltry Trade, the Nature and Extent of the several Fisheries carried on by Our Sub-"jects or others either on the Lakes or Rivers of the said Province, the State of the "Cultivation, particularly specifying the Quantity of Grain, Hemp, and Flax produced, "and of any other important Branch of Trade which may, in your Opinion, be under-"taken and advantageously carried on by Our Subjects, the Number of Inhabitants, "distinguishing them under different Heads of Men, Women, and Children, inserting "in such Accounts the Number of Persons born, christened, and buried, and any extra-"ordinary Influx or Emigration from Our said Province; specifying at the same Time "the Number of Slaves and the Number of Our Subjects capable of bearing Arms in "the Militia, the Number and Tonnage of Shipping and Craft employed upon the Lakes "and Rivers in or contiguous to the Province of Upper Canada, together with any "Information on these or any other Points of the like Nature which may be proper to "be communicated to Us.

"Fifty-sixth. And whereas you will receive from Our Commissioners for executing "the Office of High Admiral of Our United Kingdom of Great Britain and Ireland and "of the Plantations a Commission constituting you Vice Admiral of Our said Province "of Upper Canada; you are required and directed carefuly to put in execution the "several Powers thereby granted to you.

"Fifty seventh. Whereas it is absolutely necessary that We be exactly informed "of the State of Defence of all Our Plantations in America, as well in relation to the "Stores of War that are in each Plantation as to the Forts and Fortifications there, and "what more may be necessary to be built for the Defence and Security of the same; "you are from Time to Time to transmit an Account thereof, with relation to Our said "Province of Upper Canada, in the most particular Manner, and you are therein to "express the present State of the Arms, Ammunition, and other Stores of War belong-"ing to the said Province, either in any public Magazine or in the Hands of private "Persons, together with a State of all Places either already fortified or that you may "judge necessary to be fortified for the Security of Our said Province; and you are to "transmit the said Accounts to Us through one of Our Principal Secretaries of State, and "also Duplicates to Our Master General or principal Officers of Our Ordnance; which "Accounts are to express the Particulars of Ordnance, Carriages, Balls, Powder, and "all other Sorts of Arms and Ammunition in Our Public Stores, and so from Time to "Time of what shall be sent to you or bought with the Public Money, and to specify "the Time of the Disposal, and the Occasion thereof, and other like Accounts half-yearly "in the same Manner.

"Fifty-eighth. And in case of Distress of any other of Our Plantations, you shall, "upon Application of the respective Governors thereof to you, assist them with what "Aid the Condition and Safety of Our said Province under your Government can "spare.

"Fifty-ninth. If any thing shall happen which may be of Advantage or Security "to Our Province under your Government which is not herein or by your Commission "provided for, We do hereby allow unto you, with the Advice and Consent of Our said "Executive Council, to take Order for the present therein, provided nevertheless, that

"what shall be done be not repugnant to Our Commissions and Instructions, and to the "said Acts passed in the Fourteenth and Thirty-first Years of the Reign of Our dearest "Father His late Majesty King George the Third, giving unto Us, through one of Our "Principal Secretaries of State, speedy Notice thereof, that you may receive Our Ratifi- "cation, if We shall approve the same: Provided always, that you do not, by Colour of "any Power or Authority hereby given you commence or declare War without Our "Knowledge and particular Commands therein, except it be for the Purpose of prevent- "ing or repelling Hostilities or unavoidable Emergencies, when the Consent of Our said "Executive Council shall be had, and speedy Notice given thereof to Us through one of "Our Principal Secretaries of State.

"Sixtieth. And whereas great Prejudice may happen to Our Service, and to the "Security of Our said Province, by your Absence, or the Absence of Our Lieutenant "Governor for the Time being; you shall not, upon any Pretence whatever, come to "Europe without having first obtained Leave for so doing from Us, under Our Signet "and Sign Manual or by Our Order in Our Privy Council.

"Sixty-first. And Whereas We have thought fit by Our Commission to direct that "in case of your Death or Absence from Our said Province, and in case there be at that "Time no Person commissioned or appointed by Us to be our Lieutenant Governor or "appointed by Us to administer the Government within the Province in the event of "the Death or Absence of you and of Our Lieutenant Governor of the said Province, "the senior Member of the Executive Council who shall be at the Time of your "Death or Absence residing within Our said Province of Upper Canada (sub- "ject to such other Nomination and Appointment by you under the Great Seal "of Our said Province as in Our said Commission is in that Behalf mentioned) "shall take upon him the Administration of the Government, and execute Our said "Commission and Instructions, and the several Powers and Authorities therein con- "tained, in the Manner thereby directed; it is nevertheless Our express Will and "Pleasure that in such Case the Person so administering the Government shall forbear to "assent to any Acts but what are immediately necessary for the Welfare of Our said "Province, without Our particular Orders for that Purpose; and that he shall not take "upon him to dissolve the Assembly then in being, nor to remove or suspend any of the "Members of Our said Executive Council, nor any Judges, Justices of the Peace, or "other Officers, Civil or Military, without the Advice and Consent of the Majority of "the said Executive Council; and he is, by the first Opportunity, to transmit to Us, "through one of Our Principal Secretaries of State, the Reasons of such Alterations, "signed by him and the Council; and Our Will and Pleasure is, that the above Instruc- "tions with respect to such senior Councillor shall also be equally observed by and "binding upon such other Executive Councillor as may be nominated and appointed by "you under the Great Seal of Our said Province by virtue of Our said Commission in "that Behalf.

"Sixty-second. And whereas by Our different Commissions We have appointed "you to be Our Governor and Commander in Chief of Our Provinces of Upper Canada "and Lower Canada, Our Province of Nova Scotia, Our Island of Prince Edward, "as well as of Our Province of New Brunswick; and it is our Intention that the "Lieutenant Governors commanding in Our said Provinces of Upper Canada, New "Brunswick, and Nova Scotia, and the Island of Prince Edward, should have and enjoy "the full Salaries, Perquisites, and Emoluments granted to them and arising from their "respective Governments, in as full and ample a Manner as if the said Governments "were under distinct Governors in Chief; it is therefore Our Will and Pleasure that "you shall not, at any Time or Times when you shall be resident and commanding in "chief in either of Our said Provinces of Upper Canada, Nova Scotia, or New Brunswick, "or the Island of Prince Edward, have or receive any Part of the said Salaries, "Perquisites, or Emoluments, but that the same shall continue to be paid and satisfied "to the Lieutenant Governors of Our said Provinces and Island respectively, in the like "Manner as they usually are during your Absence therefrom.

"Sixty-third. And you are upon all Occasions to send to Us, through one of Our "Principal Secretaries of State, a particular Account of all your Proceedings, and of the "Condition of Affairs within your Government."

And whereas His late Majesty King William the Fourth did, by certain Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland, bearing Date at Westminster the 24th Day of November 1830, in the First Year of His Reign, constitute and appoint Matthew Lord Aylmer to be Captain General and Governor in Chief in and over the said Provinces of Upper and Lower Canada, and did thereby command him the said Matthew Lord Aylmer to execute his said Commission and the Trust thereby reposed in him, so far as the same related to the Province of Upper Canada, according to the said general Instructions, herein-before at length recited, addressed to the said George Earl of Dalhousie.

And whereas certain Parts of the said general Instructions to the said George Earl of Dalhousie (herein-before at length recited) were subsequently revoked and amended by certain additional Instructions addressed by His said late Majesty under the Royal Sign Manual and Signet to the said Matthew Lord Aylmer, in the following Words; that is to say,

"Additional Instructions to Our right trusty and well-beloved Matthew Lord "Aylmer, Knight Commander of the Most Honourable Military Order of the "Bath, Lieutenant General of Our Forces, Our Captain General and Governor "in Chief in and over Our Province of Upper Canada, or in his Absence to "Our Lieutenant Governor or Commander in Chief of Our said Province for "the Time being. Given at Our Court at St. James's this 8th Day of Feb- "ruary 1835, in the Fifth Year of Our Reign.

And whereas His said late Majesty King William the Fourth did, by certain other Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland, bearing Date at Westminster the 2d Day of April 1835, in the Fifth Year of Our Reign, revoke and determine the said last-recited Letters Patent appointing the said Matthew Lord Aylmer Captain General and Governor in Chief in and over the said Provinces of Upper and Lower Canada, and constitute and appoint William Pitt Earl Amherst to be Captain General and Governor in Chief in and over the said Provinces: And whereas by certain Instructions under the Royal Sign Manual and Signet which accompanied the said last-recited Letters Patent the said William Pitt Earl Amherst was commanded to execute his said Commission, and the Trust thereby reposed in him so far as related to the Province of Upper Canada, according to the said general Instructions, herein-before recited, addressed to the said George Earl of Dalhousie, as the same stand amended by the said additional Instructions (herein-before also recited) addressed to the said Matthew Lord Aylmer.

Third. And Whereas We did bythe said Commission declare Our Pleasure to be that there should be an Executive Council for the Affairs of Our said Province of Canada, Now We do hereby command you that you do forthwith transmit to Us the names of such Persons as may in your opinion be most fit and proper to be appointed Members of Our said Executive Council. And in order that no inconvenience may arise to the Public Service, We do hereby authorize you from time to time to appoint such and so many Persons as may appear to you requisite, to be Members of that Board subject to the Signification of Our Pleasure thereupon, and to administer to each of the Persons so appointed such of the Oaths mentioned or referred to in Our said recited Commission, as shall be applicable to the case of the Individual to whom the same shall be administered, and We do further authorize you, should it in your opinion be necessary for the public Service, to remove or suspend any of the Members of Our said Executive Council whether appointed provisionally by you or in conformity with a Warrant under Our Sign Manual;—but in that case you will immediately report to Us through One of Our Principal Secretaries of State, the causes of such removal or suspension as the case may be.

Fourth. And to the end that Our said Executive Council may be assisting to you in all affairs relating to Our Service, you are to communicate to them such and so many of these Our Instructions wherein their advice is mentioned to be requisite, and likewise all such others from time to time as you shall find convenient for Our Service to be imparted to them.

Fifth. You are to permit the Members of our Said Executive Council, to have and enjoy freedom of Debate and Vote in all Affairs of Public Concern which may be debated in the said Executive Council.

Sixth. And We do hereby declare and it is Our Pleasure that Our said Council shall not proceed to the despatch of business unless duly summoned by your Authority; nor unless one third of the Members of the said Council be present and assisting at any meetings at which any such business shall be despatched And it is Our further Pleasure that no question shall be brought before Our Said Executive Council for their advice or decision excepting only such questions as may be proposed by you for that purpose. Provided nevertheless and it is Our Will and Pleasure that if any Members shall deem it expedient that any question should undergo the deliberation of the said Executive Council, and shall by application in writing to you request and propose that such question should be so discussed, it shall be competent to any such member to enter on the minutes of the said Council such his written application to you, together with the answer which may be returned by you, to the same. And We do further direct that if in any case you see sufficient cause to dissent from the opinion of the major part or of the whole of Our said Executive Council upon any question brought by you under their consideration, it shall be competent to you upon any such occasion to execute the powers and Authorities vested in you by Our said Commission and by these Our Instructions in opposition to such their opinions, it being nevertheless Our Pleasure that in every case it shall be competent to any Members of our Said Council to record at length on the Minutes of Our Said Council the grounds and reasons of any advice or opinion he may give upon any question brought under the consideration of such Council.

Seventh. And it is Our Pleasure, and you are hereby authorized by an Instrument under the Great Seal of the Province to appoint one Member of Our Said Executive Council to preside in your absence, and to remove him and appoint another in his stead,—and if during your Absence the Member so appointed shall also be absent, then the Senior

Member of the Council actually present shall preside,— the Senority of the Members of the said Council being regulated according to the order of their respective appointments.

Eighth. And We do further direct and command that a full and exact Journal or Minute be kept of all the deliberations, Acts, Proceedings, Votes and Resolutions, of our said Executive Council, and that at each Meeting of the said Council the Minutes of the last preceding Meeting shall be read over, confirmed or amended as the case may require before proceeding to the despatch of any other business.

Ninth. And We do further direct that twice in each year a full transcript of all the Minutes of the Executive Council of the preceding half year be transmitted to Us through One of Our Principal Secretaries of State.

Tenth. And for the Execution of so much of the powers vested in you by Our said Commission, and by virtue of the said Act passed in the Third and Fourth years of Our Reign as aforesaid, as relates to the declaring that you assent in Our Name to Bills passed by the Legislative Council aud House of Assembly, or that you withhold Our Assent therefrom, or that you reserve such Bills for signification of Our Royal Pleasure thereon, it is Our Will and Pleasure that you do carefully observe the following Rules, Directions, and Instructions namely; That each different matter be provided for by a different Law, without including in one and the same act such things as have no proper relation to each other. That no clause be inserted in any Act or Ordinance which shall be foreign to what the title of it imports,—and that no perpetual clause be part of any temporary law.—That no Law or Ordinance whatsoever be suspended, altered, continued, revised or repealed in general words, but that the Title and Date of such Law or Ordinance shall be particularly mentioned in the enacting part.

Eleventh. And you are expressly enjoined not to propose or assent to any Act whatever whereby any person may be impeded or hindered from celebrating or attending the Worship of Almighty God in a peaceable and orderly manner, although such Worship may not be conducted according to the Rites and Ceremonies of the Church of England.

Twelfth. And We do further enjoin you not to propose any act whereby Our Prerogative might be diminished or in any respect infringed, without Our Special permission previously obtained—and if any Bill having such an effect shall be presented to you for your assent, you shall declare that you reserve it for the signification of Our Pleasure.

Thirteenth. And we do further direct that you do not propose or assent to any Act whatever whereby Bills of Credit, or other Negotiable Securities of Whatever nature may be issued in lieu of money on the Credit of the Said Province, or whereby any Government Paper Currency may be established therein, or whereby any such Bills or any other Paper Currency or any Coin, save only the Legal Coin of the Realm, may be made or declared to be a legal tender, unless a clause be inserted therein suspending its operation until Our Pleasure be Known, or unless special permission from Us in that behalf have been first obtained.

Fourteenth. And it is Our further Pleasure that you do not propose or assent to any Act whatever for raising Money by the Institution of any Public or Private Lotteries.

Fifteenth. And it is Our further Will and Pleasure that you do not propose or assent to any act whatever for the Divorce of persons joined together in Holy Matrimony.

Sixteenth. And We do further direct that you do not propose or assent to any Act whatever whereby any Grant of Money or Land or other Donation or Gratuity may be made by the said Legislative Council and Assembly to you.

Seventeenth. And We do further direct that you do not propose or assent to any private act whereby the Property of any Individual may be affected, in which there is not a saving of the Rights of Us, Our Heirs and Successors, and of all Bodies Politic and Corporate, and of all other persons—excepting those at whose instance, or for whose especial benefit such Act may be passed, and those claming, by, from, through and under them.

Eighteenth. And it is Our Will and Pleasure that you do not propose or assent to any act whatever to which our assent has once been refused, without express leave for that purpose first obtained from Us.

Nineteenth. You are to take care that in all acts to be passed by you and the said Legislative Council and Assembly of Our said Province in any Case for levying Money or imposing Fines, Forfeitures and Penalties, express mention be made that the same are granted to Us Our Heirs and Successors for the Public Uses of Our said Province, and for the support of the Government thereof as by the said Act shall be directed.

Twentieth. You are to reserve for the Signification of Our Pleasure thereon every Bill which you shall consider to be of an extraordinary or unusual nature, or requiring Our especial consideration and decision thereupon, particularly such as may affect the property, credit or dealings of such of Our Subjects as are not usually resident within Our said Province, and whereby duties shall be laid upon Shipping of the United Kingdom of Great Britain and Ireland, or upon the produce or Manufacture of Great Britain and Ireland.

Twenty-first. And Whereas laws have formerly been enacted in several of our Plantations in America for so short a time, that Our Royal Assent or Refusal thereof could not be had before the time for which such Laws were enacted, did expire; you shall not assent in Our Name to any Law that shall be enacted for a less time than one year, except in cases of imminent necessity or immediate temporary expediency.

Twenty-second. You shall take care that all Laws assented to by you in Our Name or reserved for the Signification of Our Royal Pleasure thereon, shall, when transmitted by you, be fairly abstracted in the Margins, and accompanied with observations upon each of them, that is to say, whether the same is introductory to a new Law, declaratory of a former Law, or does repeal a Law then before in being; and you are also to transmit the reasons and occasions for proposing such Laws, together with fair copies of the Journals and Minutes of the Proceedings of the said Legislative Council and Assembly, which you are to require from the Clerks or other proper Officers in that behalf, of the said Legislative Council and Assembly.

Now We do hereby require and enjoin you to call upon the Judge presiding at the trial of any offenders to make to you a written Report of the cases of all persons who may from time to time be condemned to suffer death by the Sentence of any Court within Our said Province, and such Reports of the said Judge shall by you be taken into consideration at the first meeting thereafter which may be conveniently held of Our said Executive Council, at which Meeting the said Judge shall be specially summoned to attend; and you shall not pardon any such offender unless it shall appear to you expedient so to do upon receiving the advice of Our said Executive Council therein;—but in all such cases you are to decide whether to extend or withhold a Pardon according to your own deliberate judgment whether the Members of Our said Executive Council concur therein or otherwise, entering nevertheless on the Minutes of said Council, a Minute of your reasons at length, in case you should decide any such question in opposition to the Judgment of the Majority of the Members thereof.

Twenty-fourth. It is Our further Will and Pleasure that all Commissions to be granted by you to any person or persons to be Judge, Justice of the Peace, or other necessary Officer, be granted during Our Pleasure only, except in cases where provision is made to the contrary by any express Law in force within our said Province or any part thereof.

Twenty-fifth. And Whereas nothing can more effectually tend to the speedy settling of Our said Province of Canada, the Security of the Property of Our Subjects, and the advancement of Our revenue than the disposal of such lands as are Our Property upon good and reasonable terms, and the establishment of a regular and proper method of proceeding with respect to the passing of grants of such lands; It is Our Will and Pleasure that you do strictly conform to the provisions of any Law for the regulation of such matters which is or shall be in force in the said Province of Canada or any part thereof, or if there shall be no such Law then to such Instructions in this respect as you may from

time to time receive from Us under Our Signet and Sign Manual, or through One of Our Principal Secretaries of State.

Twenty-sixth. And it is Our further Will and Pleasure, that there shall be at the Seat of Government, and at any other Stations within Our said Province of Canada where it may be desirable for general convenience, Land Officers for the transaction of all business connected with the Settlement of the Public Lands.

Twenty-seventh. And it is Our Will and Pleasure that at the principal Office at the Seat of Government, Charts shall be kept for Public Inspection, exhibiting all Lands open for sale within Our said Province of Canada, and Registers of all such Lands as may hereafter from time to time be appropriated ; and it is Our Pleasure that such Charts and Registers shall be kept in such form and manner as to convey as far as possible to all persons applying for the same full and authentic information of all appropriations of Land, and all surveyed Lands not appropriated.

Twenty-eighth. And We do further direct that similar Charts and Registers be kept at the subordinate Land Offices which may be created at other Stations besides the Seat of Government ; provided, however, that in each such case the Charts and Registers are only to include Lands belonging to the District or Division of which the particular Station may have been chosen as the Central Place for purposes connected with Land.

Twenty ninth. And it is Our Pleasure that arrangements may be made so far as shall be practicable, for enabling Our Subjects to purchase Lands either by application at the principal Office at the Seat of Government, or else at the Office of the District or division within which such Lands may be situate. Provided always that the necessary Regulations be established for preventing the disposal in this manner of the same land to any two or more Parties at the same time.

Thirtieth. And We do further direct that the Grants of all Lands to be purchased as aforesaid shall after the payment of the price thereof be issued to the Purchaser under the Great Seal of our said Province with all practical speed.

Thirty-first. And it is Our Will and Pleasure that all Regulations concerning the acquisition of Land be published and generally diffused throughout the Province in a convenient form.

* Thirty-second. And it is Our Pleasure that nothing herein contained shall be construed to affect the privileges which have been granted or which shall from time to time be granted with Our Authority to Military and Naval Settlers, nor to prevent such free Grants as may be authorized by Us, through One of Our Principal Secretaries of State, to meet the Exigencies of Settlers in indigent circumstances.

Thirty-third. And We do further declare Our Pleasure to be that anything hereinbefore contained to the contrary notwithstanding, no Lands shall be sold in any part of the said Province which it shall be deemed proper to reserve for Public Roads, and other internal communications, whether by Land or Water, or as the Sites of Towns, Villages, Churches, Schoolhouses, or Parsonage Houses, or as places for the interment of the dead, or as places for the future extension of any existing Towns or Villages, or as places fit to be set apart for the recreation and amusement of the Inhabitants of any Town or Village or for promoting the health of such Inhabitants, or for the promotion of Fisheries, or as the Sites of Quays or Landing Places which it may at any future time be expedient to erect, form or establish on the sea coast or in the neighbourhood of streams or which it may be desirable to reserve for any other purposes of Public Convenience, Utility, Health or Enjoyment, and all tracts or parcels of land so reserved are to be specially distinguished in the Charts before mentioned.

Thirty-fourth. It is Our Will and Pleasure to reserve to you the granting of Licenses for Marriages, Letters of Administration, and Probates of Wills as heretofore exercised by you and your Predecessors, and also to reserve to you, and to all others to whom it may lawfully belong the patronage and right of presentation to benefices ; but it is Our Will and Pleasure that the person so presented shall be instituted by the Bishop, or his Commissary duly authorized by him.

Thirty-fifth. And whereas you will receive through one of our Principal Secretaries

Now We do hereby signify Our Pleasure that all such returns be accurately prepared and punctually transmitted to Us, through one of our Principal Secretaries of State, and that no Officer within our said Province within whose Department it may be to contribute any Return or Returns for the purposes aforesaid, or to prepare the same when so contributed, shall be entitled to receive, or shall receive, from you any Warrant for the payment of his Official Salary which may become due and payable to him so long as such duty as aforesaid shall be in arrear, or remain unperformed.

Thirty-sixth. If anything shall happen which may be of advantage or Security to Our Province under your Government which is not herein or by your Commission provided for, We do hereby allow unto you with the advice and consent of Our said Executive Council, to take order for the present therein, provided nevertheless that what shall be done be not repugnant to Our Commisssions and Instructions and to the said Acts passed in the Fourteenth and Twenty-first years of the Reign of His late Majesty King George the Third, and in the Third and fourth years of Our Reign; giving unto Us through One of Our Principal Secretaries of State speedy notice thereof, that you may receive our ratification if We approve the same.

Thirty-seventh. And you are upon all occasions to send to Us through One of Our Principal Secretaries of State a particular account of all your proceedings, and of the condition of Affairs within your Government.

Addl. Instructions
Canada.

(C. O. Canadas 1840–1860.)
In Secy. of State's despatch
No. 269 of 24 August, 1848.

Additional Instructions to Our Right Trusty and Right Well-beloved Cousin James Earl of Elgin and Kincardine, Our Captain General and Governor in Chief in and over Our Province of Canada, or in his absence to Our Lieutenant Governor, or the Officer administering the Government of the said Province for the time being. Given at Our Court at Osborne House, Isle of Wight, this 24th day of August 1848 in the Twelfth year of Our Reign.

Whereas by a Commission under the Great Seal of Our United Kingdom of Great Britain and Ireland, bearing date the 16th day of March 1846 in the 9th year of our Reign, we did constitute and appoint our Right Trusty and Wellbeloved Cousin Charles Murray, Earl Cathcart to be during Our Pleasure Our Captain General and Governor in Chief in and over Our Province of Canada, And Whereas we did thereby authorize empower and command him the said Earl Cathcart in due manner to do and execute all things that should belong to his said Command, and the Trust we thereby reposed in him according to the several powers, provisions and directions granted or appointed him by virtue of Our said Commission, and of a certain Act of Parliament made and passed in the fourth year of Our Reign intituled "An Act to re-unite the Provinces "of Upper and Lower Canada, and for the Government of Canada," and according to such Instructions as should be herewith given to him or which might from time to time be thereafter given to him in respect to the said Province of Canada, under Our Signet and Sign Manual or by Our Order in Our Privy Council, or by Us through one of Our Principal Secretaries of State, and according to such Laws as were then or should be in force with the Provinces of Upper and Lower Canada, or in Our Province of Canada.

And whereas in pursuance of Our said Commission We did on the 16th day of March 1846 in the 9th year of Our reign issue, to the said Earl Cathcart, Instructions accompanying and referred in the said recited Commission.

And whereas by a Commission under Our Great Seal aforesaid bearing date the 1st day of October 1846 in the tenth year of Our reign We have constituted and appointed you, the said Earl of Elgin and Kincardine to be during Our Pleasure Our Captain General and Governor in Chief in and over Our Province of Canada, and having thereby authorized required and commanded you to do and execute all things that shall belong to your said Command and the Trust We have thereby reposed in you, according to the several powers, provisions and directions granted or appointed you, by virtue of Our said Commission and of a certain Act of Parliament made and passed in the 10th year of Our reign, intituled "An Act to re-unite the Provinces of Upper and Lower "Canada" and according to such Instructions as should be therewith given to you, or which might from time to time be thereafter given to you in respect to the said Province of Canada under Our Signet and Sign Manual or by Our Order in Our Privy Council, or by Us through one of Our Principal Secretaries of State, and according to such Laws as in the said Commission are mentioned or referred to.

And Whereas We did by certain Instructions under Our Sign Manual and Signet in pursuance of the said last recited Commission bearing date on the First day of October 1846 being the Instructions referred to in and accompanying the said Commission, require and enjoin that until We should signify to you our further pleasure therein you should in the execution of Our said Commission conform to Our said recited Instructions bearing date the 16th day of March 1846 and so addressed as aforesaid to the said Earl Cathcart save only so far as the same Instructions to the said Earl Cathcart were in any respect repugnant or opposed to, or inconsistent with Our said recited Commission to you to which extent We declared Our Pleasure to be that Our said recited Instructions were thereby revoked.

Provided Nevertheless that no grants of Offices so made by you under Letters Patent as aforesaid shall be valid in the Law unless the same shall be in all respects conformable to the provisions of an Act passed in the 22nd years of the reign of Our Royal Grand Father King George the 3rd Cap. 75, entituled "An Act to prevent the "granting in future any Patent Office to be exercised in any Colony or Plantation now, "or at any time hereafter belonging to the Crown of Great Britain, for any longer term "than during such time as the Grantee thereof or person appointed thereto, shall "discharge the duty thereof in Person and behave well therein."

And provided also that all such Grants as aforesaid which shall be made without Our previous Warrant shall be provisional only and subject to Our Confirmation or disallowance to be signified by Us through one of Our Principal Secretaries of State, but shall nevertheless be valid to all intents and purposes until Our Pleasure respecting the same shall have been so signified to you.

Whereas by Our Commission under the Great Seal of Our United Kingdom of Great Britain and Ireland, bearing even date herewith, We have constituted and appointed you the said Sir Edmund Walker Head, to be, during Our pleasure, Our Captain General and Governor in Chief in and over Our Province of Canada: And Whereas We have thereby authorized, empowered, required, and commanded you, in due manner to do and execute all things that shall belong to your said command, and the trust We have reposed in you according to the several powers, provisions, and directions granted or appointed you by virtue of Our said Commission, and of a certain Act of Parliament made and passed in the fourth year of Our reign intituled, "An Act to "re-unite the Provinces of Upper and Lower Canada and for the Government of Canada" and according to such instructions as should be therewith given to you, or which might from time to time be thereafter given to you in respect of the said Province of Canada, under Our Signet and Sign Manual, or by Our order in Our Privy Council, or by Us through one of Our Principal Secretaries of State, and according to such Laws as were or should be in force within the former Provinces of Upper and Lower Canada, or in Our Province of Canada: And whereas, it is by the said recited Act, amongst other things enacted, that all powers and authorities expressed therein, to be given to the Governor of the Province of Canada, shall be exercised by such Governor, in conformity with, and subject to, such orders, instructions, and directions, as We shall from time to

time see fit to make or issue: Now, therefore We do hereby, in pursuance of the said Act of Parliament, and of all other powers in Us in that behalf vested, make and issue these Our instructions for your guidance, in the exercise of the powers and authorities vested in you by the said Act of Parliament, and by Our said Commission.

By these Our instructions, under Our Sign Manual and Signet, so referred to in and accompanying Our said Commission, We do declare Our Will and pleasure to be that you the said Sir Edmund Walker Head, as soon as may be after the publication of Our said Commission, do take the Oaths appointed to be taken by an Act passed in the first year of the reign of King George the First intituled, "An Act for the further "security of His Majesty's person and Government, and the succession of the Crown "in the heirs of the late Princess Sophia, being Protestants, and for extinguishing the "hopes of the pretended Prince of Wales, and his open and secret abettors;" as altered and explained by an Act passed in the sixth year of the reign of King George the Third intituled "An Act for altering the Oath of Abjuration and the Assurance, "and for amending so much of an Act of the seventh year of the Reign of Her late "Majesty Queen Anne, intituled 'An Act for the improvement of the Union of the "two Kingdoms,' as after the time therein limited requires the delivery of certain lists "and copies therein mentioned to persons indicted of high treason, or misprision of "treason;" or in lieu thereof, the Oath required to be taken by an Act passed in the tenth year of the reign of King George the Fourth, intituled "An Act for the relief "of His Majesty's Roman Catholic subjects," according as the said former Acts or the said last mentioned Act shall be applicable to your case; and likewise that you take the usual Oath for the due execution and performance of the Office and Trust of Our Captain General and Governor in Chief of Our said Province of Canada, and for the due and impartial administration of justice; which said Oaths the Chief Justice and puisine judges of Our Supreme Courts of Record of Upper and Lower Canada, or any three or more of them, have hereby full power and authority, and are required to tender and administer unto you.

Second. And We do hereby give and grant unto you the said Sir Edmund Walker Head, full power and authority from time to time, and at any time hereafter, by yourself, or by any other person to be authorized by you in that behalf, to administer to all and every person or persons as you shall think fit, who shall hold office or place of trust or profit or who shall at any time or times pass into Our said Province of Canada, or who shall be resident or abiding therein, the Oath commonly called the Oath of Allegiance, save only in cases wherein any other Oath or Oaths is or are prescribed by the Statutes in that behalf made or by any of these Statutes, in which cases it is Our pleasure, and We do hereby direct, that you, the said Sir Edmund Walker Head, do administer to such persons such other Oath or Oaths as aforesaid.

Third. And Whereas We have, by the said Commission, declared Our pleasure to be that there shall be an Executive Council for the affairs of Our said province of Canada, and that the said Council shall consist of such persons as you may nominate and appoint to be Members thereof: We do authorize you, should it in your opinion be necessary for the public Service, to remove or suspend any of the Members of Our said Executive Council; but in that case you will immediately report to Us, through one of Our Principal Secretaries of State, the causes of such removal or suspension as the case may be.

Fourth. And to the end that Our said Executive Council may be assisting to you in all affairs relating to Our Service, you are to communicate to them such and so many of these Our Instructions, wherein their advice is mentioned to be requisite, and likewise all such others from time to time as you shall find convenient for our service to be imparted to them.

Fifth. You are to permit the Members of Our said Executive Council to have and enjoy freedom of Debate and vote in all affairs of public concern, which may be debated in the said Executive Council.

Sixth. And We do hereby declare, and it is Our pleasure, that Our said Council shall not proceed to the despatch of business unless duly summoned by your authority, nor unless one third of the Members of the said Council be present and assisting at any meetings at which any such business shall be dispatched. And We do further direct,

that if in any case you see sufficient cause to dissent from the opinion of the major part or of the whole of said Executive Council, upon any question brought by you under their consideration, it shall be competent to you upon any such occasion to execute the powers and authorities vested in you by Our said Commission, and by these Our Instructions, in opposition to such their opinions; it being, nevertheless, Our pleasure, that in every case it shall be competent to any Member of Our said Council to record at length on the Minutes of Our said Council, the grounds and reasons of any advice or opinion He may give upon any question brought under the consideration of such Council.

Seventh. Eighth. And We do further direct and command that a full and exact Journal or Minute be kept of all the deliberations, acts, proceedings, votes and resolutions of Our said Executive Council; and that at each Meeting of the said Council the Minutes of the last preceding Meeting shall be read over, confirmed, or amended, as the case may require, before proceeding to the dispatch of any other business.

Ninth. And for the execution of so much of the powers vested in you by Our said Commission, and by virtue of the said Act passed in the Fourth year of Our Reign as aforesaid, as relates to the declaring that you assent in Our name to Bills passed by the Legislative Council and House of Assembly, or that you withhold Our assent therefrom, or that you reserve such Bills for the signification of Our Royal pleasure thereon, it is Our will and pleasure that you do carefully observe the following rules directions and instructions, viz: that each different matter be provided for by a different Law, without including in one and the same Act such things as have no proper relation to each other; that no clause be inserted in any Act which shall be foreign to what the title of it imports, and that no perpetual clause be part of any temporary law.

Tenth. And you are expressly enjoined not to propose or assent to any Bill whatever whereby any person may be impeded or hindered from celebrating or attending the worship of Almighty God in a peaceable and orderly manner, although such worship may not be conducted according to the rites and ceremonies of the Church of England.

Eleventh. And We do further enjoin you not to propose or assent to any Bill whereby Our prerogative might be diminished or in any respect infringed, without Our special permission previously obtained. And if any Bill having such an effect shall be presented to you for your assent, you shall declare that you reserve it for the signification of Our pleasure.

Twelve. And We do further direct that you do not propose or assent to any Bill whatever whereby Bills of Credit or other Negociable securities of whatever nature, may be issued in lieu of money on the credit of the said province, or whereby any Government Paper currency may be established therein, or whereby any such Bill or any other paper currency, or any coin save only the legal coin of the Realm may be made or declared to be a legal tender, unless special permission from Us in that behalf have been first obtained.

Thirteenth. And it is Our further pleasure, that you do not propose or assent to any Bill whatsoever for raising Money by the institution of any public or private lotteries.

Fourteenth. And it is Our further will and pleasure that you do not propose or assent to any Bill whatever for the divorce of persons joined together in Holy Matrimony.

Fifteenth. And We do further direct that you do not propose or assent to any Bill whatever whereby any grant of money or land, or other donation or gratuity, may be made by the said Legislative Council and Assembly to you.

Sixteenth. And We do further direct that you do not propose or assent to any private Bill whereby the property of any individual may be affected, in which there is not a saving of the rights of Us, Our heirs and successors, and of all bodies politic and corporate, and of all other persons excepting those at whose instance or for whose especial benefit such Bill may be passed, and those claiming by, from through, and under them.

Seventeenth. And it is Our will and pleasure that you do not propose or assent to any Bill whatever to which Our assent has once been refused, without express leave for that purpose first obtained from Us.

Eighteenth. And We do further direct that if any Bill which you are by these Our instructions prohibited from proposing or assenting to, shall be presented to you for such assent, you shall (unless you think fit to withhold such assent) reserve the same for the signification of Our pleasure thereon.

Nineteenth. You are to take care that in all Acts to be passed by you and the said Legislative Council and Assembly of Our said Province in any case for levying money, or imposing fines, forfeiture, and penalties, express mention be made that the same are granted to Us, Our heirs and successors, for the public uses of Our said Province, and for the support of the Government thereof, as by the said Acts shall be directed.

Twentieth. You are to reserve for the signification of Our pleasure thereon every Bill which you shall consider to be of an extraordinary or unusual nature, or requiring Our especial consideration and decision thereupon, particularly such as may affect the property, credit, or dealings of such of Our subjects as are not usually resident within Our said Province, or whereby duties should be laid upon shipping of the United Kingdom of Great Britain and Ireland or upon the produce or Manufactures of Great Britain or Ireland.

Twenty-first. You shall take care that all laws assented to by you in Our name, or reserved for the signification of Our Royal pleasure thereon, shall when transmitted by you, be fairly abstracted in the margins and accompanied with explanatory observations upon each of them ; and you are also to transmit the reasons and occasion for proposing each law, together with fair copies of the Journals and Minutes of the proceedings of the said Legislative Council and Assembly, which you are to require from the Clerks or other proper officers in that behalf of the said Legislative Council and Assembly.

Twenty-fourth. And whereas nothing can more essentially tend to the speedy settling of Our said Province of Canada, the security of the property of Our subjects, and the advancement of Our revenue, than the disposal of such lands as are Our property upon good and reasonable terms, and the establishment of a regular and proper method of proceeding with respect to the passing of the grants of such lands ; It is Our will and pleasure that you do strictly conform to the provisions of any law for the regulation of such matters which is or shall be in force in the said Province of Canada, or any part thereof, or if there shall be no such Law, then to these Our Instructions hereinafter contained or to such Instructions in this respect as you may from time to time receive from Us under Our Signet and Sign Manual, or through one of Our Principal Secretaries of State.

Twenty-fifth. And it is Our further will and pleasure that there shall be at the seat of Government, and at any other stations within Our said Province of Canada where it may be desirable for general convenience, Land Offices for the transaction of all business, connected with the settlement of the public lands.

And it is Our will and pleasure that at the principal Office at the Seat of Government Charts shall be kept for public inspection, exhibiting all Lands open for sale within Our said Province of Canada and Registers of all such lands as may hereafter from time to time be appropriated. And it is Our pleasure that such Charts and Registers shall be kept in such form and manner as to convey as far as possible to all persons applying for the same, full and authentic information of all appropriations of Land and all surveyed Lands not appropriated.

Twenty-seventh. And We do further direct that similar Charts and Registers be kept at the subordinate land offices, which may be created at other stations besides the seat of Government: Provided however that in each such case the Charts and registers are only to include Lands belonging to the district or division of which the particular station may have been chosen as a centre place for purposes connected with Land.

Twenty-eighth. And it is Our pleasure that arrangements may be made so far as may be practicable, for enabling Our subjects to purchase Lands, either by application at the principal Office at the Seat of Government, or else at the Office of the district or division within which such land may be situate. Provided always that the necessary regulations be established for preventing the disposal, in this manner, of the same land to any two or more parties at the same time.

Twenty-ninth. And We do further direct that the grants of all lands to be purchased as aforesaid, shall, after the payment of the price thereof, be issued to the purchaser under the Great Seal of Our said Province with all practicable speed.

Thirtieth. And it is Our will and pleasure that all regulations concerning the acquisition of land be published, and generally diffused throughout the province in a convenient form.

Thirty-first. And We do further declare Our pleasure to be that no lands shall be sold in any part of the said Province which it shall be deemed proper to reserve for public Roads and other internal communications, whether by land or water; or as the sites of Towns, Villages, Churches, School houses, or parsonage houses; or as places for the interment of the dead; or as places for the future extension of any existing Towns or Villages; or as places fit to be set apart for the recreation and amusement of the Inhabitants of any Towns or Villages, or for promoting the health of such Inhahitants; or for the promotion of Fisheries; or as the sites of quays or landing places, which it may at any future time be expedient to erect, form or establish on the Sea Coast or in the neighbourhood of streams or which it may be desirable to reserve for any other purposes of public convenience, utility, health or enjoyment; and all tracts or parcels of land so reserved are to be specially distinguished in the Charts before mentioned.

Thirty-second. It is Our will and pleasure to reserve to you the granting of Licenses for Marriages, Letters of Administration and probates of Wills, as heretofore exercised by your predecessors, and also to reserve to you, and to all others to whom it may lawfully belong, the patronage and right of presentation to benefices: but it is Our Will and pleasure that the person so presented shall be instituted by the Bishop or his Commissary duly authorized by him.

Thirty-fourth. If anything shall happen which may be of advantage or security to Our said Province under your Government, which is not herein or by Our Commission provided

for, We do hereby allow unto you, with the advice and consent of Our said Executive Council, to take order for the present therein; provided nevertheless that what shall be done be not repugnant to Our Commission and instructions, and to the said Acts passed in the fourteenth and thirty first years of the reign of His late Majesty King George the Third, and in the fourth year of our reign, giving unto Us, through one of Our Principal Secretaries of State, speedy notice thereof, that you may receive Our ratification if We approve the same.

LETTERS OF VAUDREUIL, LÉVIS AND DUMAS

In 1760

PART IV

3.

LETTERS OF VAUDREUIL, LÉVIS AND DUMAS IN 1760.

COPIED FROM THE ORIGINALS IN THE POSSESSION OF M. DE LA ROGERIE.

MONTREAL, February 29th, 1760.

SIR,—I have decided to form two companies of grenadiers, drawing them from the soldiers of our troops, to march at their head, so as to give them more the appearance of a battallion ; and, as I propose to organize one of them here, I request that you will form the other at Jacques Cartier, for which purpose you can select men both from your own garrison and from the force at Point aux Trembles. Thoroughly versed as you are in such matters, I will not tell you the *kind* of men to which preference should be given. You will attach to your company two sergeants, three corporals and three lance-corporals, all colonials. As to the Officers I shall name them myself. You understand better than anyone else the good effect which this arrangement will produce in the expedition in question, and that it cannot fail to excite emulation between our troops and the land forces ; for I am persuaded that these new grenadiers will hold their own in every respect with the old ones ; and in order to place them on an equal footing with the latter you will be supplied with what is necessary to provide them with clothing and an advance of pay ; moreover they will receive one sol (per diem) of extra pay.

I have the honour to be, most sincerely, your very humble and obedient servant

VAUDREUIL.

M. DUMAS.

MONTREAL, 1st March, 1760.

SIR,—I have received the letter which you did me the honour to write me on the 28th of last month.

I see with regret that we have to abandon the idea of drawing provisions from the south shore. I am going to make a levy of oxen, and you will receive your share without delay.

M. de Bourlamaque has written to me about all these matters, and informs me that he will despatch M. de Niverville with some Indians and a few smart, active soldiers into the interior of the country towards the south, to observe the operations of the English in that region, also to prevent the inhabitants from carrying supplies to Quebec, and capture any English who may be sent to gather supplies, if they are few in number, or escape through the woods if any considerable body is sent against them. This is, practically, all we can do circumstanced as we are at present. It is to be hoped the officer mentioned will not find too serious obstacles in the way of the fulfilment of his mission. You will enjoin on him to send you news as frequently as possible of what he is doing, and you will transmit all such information to me in exact terms.

As M. de Bourlamaque will probably not make a long stay at Jacques Cartier, I rely wholly on you for all that concerns that frontier, as regards the carrying out of such instructions as that Brigadier may leave you when he shall take his departure. I am persuaded you will always do your best ; rest equally assured, I beg, of the justice I render you.

M. de Villejoin has no doubt handed to the storekeeper, Garand, the packet of nails, because it was directly addressed to him. He did not forget it ; he put it in his valise.

Although the branches of the trees are frozen, that should not delay the gathering of fascines. The habitants should cut the branches all the same, and as fast as they thaw, let them work at the fascines. This work is pressing.

I learn that you have brought up and stored in Pichet's barn the flour left at Germain's; but as, by the time we shall require it, the condition of the roads will be such as to make it impossible to transport it to the foot of the hill, I beg that you will only keep enough flour in your fort to do you till the end of April, and to convey the rest back to Germain's, placing a guard over it, according to my previous directions. We need not fear that the English will send out a detachment to burn it; should they do so, our advance posts, or the inhabitants of the south shore, if they took that route, would discover the movement, and it might cost them dear.

I have the honour to remain,
Sir, most sincerely,
Your very humble and obedient servant,

VAUDREUIL.

M. DUMAS.

Endorsed: A Monsieur
Monsieur Dumas,
Major General Inspecteur des troupes de la Colonie à Jacques Cartier.
Vaudreuil.

MONTREAL, 4th March, 1760.

SIR,—M. de Bourlamaque returned from Jacques Cartier yesterday evening, and has made a report of everything, including the measures he has taken with respect to that frontier. I am satisfied that you will carry them out with exactness, and I leave everything in your hands

I was all the time under the impression that you had carried off the meal from the mill at St. Augustin, then in so much greater quantity, and within so much easier reach than what was in the mill at Lotbinière; nevertheless I have learnt with regret that the English got the benefit of it. I beg, Sir, that you will give orders as soon as you receive this letter to M. de Repentigny, to seize any grindings that have been made or that are yet to be made at the said mill, and to remove whatever there may be. It is to be conveyed at once to Pointe aux Trembles, where the Commissary's clerk will pay for it at 15 deniers a bushel, and three sols per league for transport.

You will see that orders are given at the same time to the miller not to part with the ground meal; his mill will be the gainer in the end. The captain should also be instructed to keep a daily check, and to have the product transported at the end of every month to the stores of the Commissary at Pointe aux Trembles. You will also tell M. de Repentigny to keep a watch and see that the miller does not practise any fraud.

I have the honour to remain, Sir, your very humble and obedient servant.

M. DUMAS. VAUDREUIL.

I send herewith a letter for M. de Repentigny, which I beg you will let him have at once. It encloses a packet addressed to the secretary of General Murai of which I know the contents. M. de Repentigny should deliver it by the first opportunity without appearing to have had anything to do with it.

MONTREAL. 7th March, 1760.

SIR,—You will receive this letter by Mr. Martin. He has informed me of the object of his journey. It is to be hoped that he will have the success he has been led to expect, as anything he can get out of Quebec is greatly needed for the service. I have myself urged him to lose no time, and spare no effort, in carrying out this operation; consequently Mr. Martin is to have complete liberty to go to Pointe aux Trembles, St. Augustin and even to Quebec, as may best suit his purposes, and you will besides give him all necessary facilities for obtaining a sufficiency of harness for the carting of

PLAN of the Battle fought the 28th of April 1760 upon the Height of Abraham near Quebec, between the Brittish Troops Garrison'd in that place and the French Army that came to beseige it. The whole effectives of the Garrison amounted to about 3000 men only, They were Commanded by the Honorable Brigadier General *MURRAY GOVERNOR*. The French army was Commanded by the *CHEVALIER* de *LEVI*, and amounted to upwards of 12000 men of which there were ten Battalions of Regulars, the rest were Canadians and Indians. The British came out in two Columns one by St. Johns gate, the other by St. Lewiss gate, the French came along the road from St. Fois, and would have been attacked before they could form, if the difficulty's of the Snow and ground had not retarded the advancing of our Cannon which deprived us of a great advantage.

C. Ten Companys of French grenadiers and three of Canadians sent forward early in the morning probably to seize the advantages of the ground and to watch our motions. upon our lines advancing a little way from A. they retreated without disputing the ground. Six Companys of grenadiers went round to the St. Fois road where they took possession of a house and windmill to keep that road open for their troops coming up: the remaining Companys retired into the woods a little way. where a part of their army was now gathering

The first forming of the French army drawn up four deep. they got into this position when our army had got about two thirds of the way between A. and B. they remained in it but a short time when they advanced into the position E in which they were favoured by the woods to conceal their movements and by the snow and slipperyness of the ground that kept back our Cannon and saved their being attacked sooner.

The action which lasted full three hours was chiefly upon the Flanks, there the Enemy made all their Efforts without making scarce any attempt towards the center, Tho' their numbers were sufficient to make a push there likewise; But even upon the Flanks we for some time gained considerable advantages. Upon the right our light Infantry beat back their grenadiers from the house and windmill, but they unluckily pursued too far to be Sustained, and suffered accordingly, they were beat back in their turn and with such a loss as to appear no more in action. upon our left we gained a good deal of ground, the volunteers and grenadiers of the 28th drove the enemy out of the two redoubts, y and z. they kept possession of them for some time but being at length Surrounded, they were oblig'd to force their way back.

The Enemy had now over powerd our flanks with such superior numbers as left us no more hopes of succes, a retreat began of its own accord in which it must be observed that the Redoubt w. was of great service and kept the Enemy at bay for above ten minutes which saved our rear and many of our wounded from being cut off from the Town: this was raised only a few Fascines high on account of the frosts, but there being two pickets left there during the action it deceived the enemy as a compleat work, we brought off only two pieces of Artillery, it was impracticable to bring off the rest on account of the Snow. x.y.z. are Redoubts raised by us at the Siege 1759, but were not thought of consequence enough to be demolished when the other works were

his goods from Quebec. As, notwithstanding that, all communication must be interrupted between Quebec and Pointe aux Trembles, you will furnish him with vehicles from St. Augustin; it will be his business to see that they are not stopped at Quebec. When the stuff gets to St. Augustin, you will procure for him all the means and facilities in your power for having them conveyed to Jacques Cartier. I am writing a similar letter to M. de Repentigny. It is important to remove all obstacles in the way of the accomplishment of Mr. Martin's intentions, and I fully expect that in any matter under your control you will neglect nothing to that end.

I have the honour to be, Sir, most sincerely your very humble and obedient servant,

VAUDREUIL.

M. DUMAS.

M. de Levis is writing to you about the fascines. I can only refer you to his letter and recommend you to spare the habitants of Lotbinière so as not to prejudice the work being done by a man called Houl who has a contract for building material.

Endorsed: A Monsieur
Monsieur Dumas,
Commandant à Jacques Cartier.
(Vaudreuil).

MONTREAL, 7th March, 1760.

SIR,—You will find herewith a letter I am writing to Mr. Murai which I beg you will forward with those which Mr. Martin may write to Quebec.

I have the honour to be very sincerely, Sir, your very humble and obedient servant,

VAUDREUIL.

M. DUMAS.

MONTREAL, 10th March, 1760.

SIR,—I am replying to the letters that you did me the honour to write me on the 6th and 7th of this month.

We are really not in a position properly to equip our troops, still we shall do our best for our companies of grenadiers.

M. de Repentigny has forwarded me the letter written to him by M. Hertel: that officer understands his mission very well.

I am delighted with the good will of the habitants with whom you have placed Acadians. I shall not forget it, but will give them credit for it when the time comes. I am to observe that you had better send only the women and children of the Acadians to the people of Beauce and the remoter parishes further on the south side, as the men might not be able, or might not be inclined, to return when required to join the army.

As regards the stores of food at Germain's, I must leave the matter in your hands. Admitting that there is some danger, you know that we are compelled to leave these provisions in the depot in question, because there they are nearer at hand for embarkation, and because it would not be possible to move them in spring time.

M. de Repentigny has informed me of the increase of force which the enemy have sent to Lorette. We shall soon know what their intentions are. However things may turn out, I place great reliance on your vigilance and that of M. de Repentigny.

It is necessary that you should officially inspect the stables of Sieur Langy, and, remove all the horned cattle not absolutely required for the cultivation of the land. Please to execute the order already given to you in this matter.

You acted quite properly in sending to Three Rivers a soldier who was caught in the act of doing violence to a girl.

I learn that M. Desrobert refused to hold an inspection of the day labourers receiving rations as being employed upon engineering works. You will be so good as to instruct him in my name to make the inspection. It is a simple matter of duty and I am surprised that he made any objection to it.

As it is a matter of absolute necessity to preserve the horned cattle of the country as a last resource, you will take them from the neighbouring parishes as you require them, observing the regulations previously communicated to you on the subject.

I have the honour to be Sir, most sincerely, your very humble and obedient servant,

VAUDREUIL.

M. DUMAS.

MONTREAL, 12th March, 1760.

SIR,—The two Acadians who will hand you this letter are quartered at St. Pierre le Becquet with their families. They complain, both on their own behalf and on that of the other families in the same parish, that the captain is sending them away. The inhabitants of the locality throw the blame on the captain, and the captain throws it on the inhabitants. The Acadians state that this captain is supporting his relatives ; that there are two other persons, Louis Bary and François Brisson, who have some (Acadians) with them, but who could support several more, as they are selling wheat. Besides there is the widow Baril, as well as the two sons-in-law of the captain, who have nobody billeted on them, and who are well able to support a certain number.

I beg, Sir, that you will look into the matter and sharply reprimand the captain if he deserves it. You will also transfer the Acadians who are now in the houses of the poor to those of the well-off. These Acadians have told me further that the captain was making much of what he says you told him, that you did not trouble yourself about the billeting of the Acadians. I find it hard to believe this because in all your letters you expatiate on the attention you give to the matter.

I have the honour to be, Sir,

Very sincerely, your very humble and obedient servant.

VAUDREUIL.

MONTREAL, 14th March 1760.

SIR,—This letter will be handed to you by Sieur Imbert junior whom the Intendant has appointed as paymaster at Jacques Cartier. As he is a very good fellow, gentle and sociable in disposition, I recommend him to you. I am persuaded he will neglect no means of winning your esteem.

I have the honour to be, Sir,

most sincerely, your very humble and obedient servant.

VAUDREUIL.

M. DUMAS.

MONTREAL, 16 March, 1760.

Sir,—I have received the letter you did me the honour to write me on the 13th of this month.

The Commissary is going to send some oxen to Jacques Cartier, so that the animals belonging to the inhabitants in your neighborhood will not be touched until the army is on the move.

It is very annoying that nine soldiers should have deserted from us in three days. I have spoken to the Intendant with regard to what you mention as to the discontent of some of the soldiers. He replied that M. Kerdision had paid what remained due to the garrisons of Jacques Cartier and Pointe aux Trembles, and that, in consequence of what M. de Repentigny had written to him on the subject, he had requested that officer to send him a list, company by company, of the soldiers who were complaining marking opposite each man's name his demands and the reasons given by him. You will have to take the trouble of making a similar list of your men, which please send to me by the first despatch. I see no other plan for removing all discontent.

Beyond doubt Mr. Muray knows positively what the detachment of M. Hertel consists of, that is to say if it is true that he spent three days at Point Levis.

Yesterday morning certain private parties who received letters from Three River are circulating the statement that English have been seen back of Nicolet, and that they seemed to wish to make their way to Quebec. This I find hard to believe for Is have had no direct information of it. Supposing it to be true, you must have been advised of it at once in accordance with the orders given by me to M. de Longueuil for just such an emergency; and I feel assured that you will have taken your measures diligently for intercepting the enemy.

I have the honour to remain, Sir,

most sincerely, your very humble and obedient servant.

VAUDREUIL.

THREE RIVERS, May 27, 1760.

answered 29.

You will find, my dear Dumas, fifty guns with bayonets at Three Rivers, in case you may require them. If you find yourself obliged to evacuate, be careful to distribute amongst the troops the shoes in store; there are 150 pairs of French shoes in the store at Three Rivers, and we are having some tanned ones made.

You must gather all the coasting pilots from Cap Rouge River to Dechambeau; the sooner the better, and send them immediately on board *La Marie*. You will detail Augustin Dusau as pilot for that ship. The reason which obliges me to call them in is that it might do us harm if the English captured them.

M. de Cornilland is to send his boat to take two cannons remaining at St. Augustin. The officer sent for that purpose will go to you for orders. M. Landrieve will hand to you a statement of what remains on our frontier at that point.

I have directed M. de Longueuil to keep batteaux at the Chenaux (St. Maurice River) and other rivers and to assemble all those that are dispersed along the river. I saw whilst passing at Grondines two jacobit boats batteaux; see what you can do with them; I think they may be useful to you if you had them repaired.

You know, my dear Dumas, the sentiments of affection with which I have the honour to be your most humble and most obedient servant,

Answered, 29.

I have received, my dear Dumas, your letter and the despatches from Quebec. Your remarks are very good and I think as you do. Any one may make conjectures, time will reveal the truth. I have handed the letters for the General Hospital to M. de la Roche Beaucourt and I believe I told him to send them only when you were at Pointe aux Trembles. I am sending you letters for M. M. de Malartic and Bellecombe which I date from Jacques Cartier.

I enclose to you, herewith, the statement of oxen forwarded to me by M. Cadet. It would appear by his reckoning that you have enough of them to last more than one month. He told me that they weighed over 2000 lbs. on the average; he assures me positively that you will not run short. You cannot be too attentive to see that no improper consumption of meat takes place.

I think you had better conceal as much as possible the army and cause it to be believed that I am at Jacques Cartier or at Three Rivers. I am leaving without anxiety in regard to anything that may happen on your side; the business is in good hands.

You know, my dear Dumas, the sentiments of affection with which I have the honour to be your most humble and most obedient servant.

MONTREAL, June 3, 1760.

Received 5th, in the evening, answered 6th.

I have received, my dear Dumas, your letter of the 1st instant. Nothing could be better than the arrangements you have made in regard to your supplies and the various military precautions you have taken. I have reported on the subject to the General who has approved of everything and considering all the circumstances he is not uneasy about what may happen ; he is as much persuaded as I am that our affairs could not be in better hands.

I enclose you a letter for M. Murai which I beg you will forward to him ; I enclose you a copy of it in order that you be informed of all matters concerning your frontier. I date the letter from Three Rivers ; spread the rumor that I am there. It must appear as if M. de Vaudreuil had no knowledge of my letter to M. Murai.

I beg you will request M. de Montbeillard to send me a statement of the artillery and ammunition remaining on your frontier.

M. le Marquis de Vaudreuil writes to you. There is nothing new here.

MONTREAL, June 4, 1760.

SIR,—I have been much surprised to learn that, against the faith of the cartel, you keep as prisoners the sick and wounded left at the General Hospital, and what astonishes me still more is that, contrary to law of nations and of all civilized people, you also keep as prisoners the police guard which I had left at said Hospital, in equal number to the one which you had during the siege. I declare, sir, that after what you did me the honour to write and what had been told me of your views I did not expect such proceedings. To crown such conduct all that remains for you to do is to restore the officers taken prisoners on April 28 whom by a sentiment of humanity I left at the General Hospital, accepting their word of honour, because they were wounded.

As I am not positively informed of all I have the honour to mention, I will entertain doubts as to your having taken such extreme measures until you inform me of the fact yourself. I should be sorry if things were as they have been been represented to me, on account of the consequence that might ensue both on this continent and in Europe. A guard of 15 or 20 men and a few unfortunate wounded left in an hospital where your own people were, on the faith of the cartel, cannot have any influence upon the destiny of this colony, nor can such a class of prisoners be considered a trophy for the arms of His Britannic Majesty.

Awaiting the honour of a reply from you, I have the honour to be, with perfect esteem &c.

MONTREAL, June 5, 1760.

I have received, my dear Dumas, your letter of the 2 June. It is very problematical whether the enemy will or will not move. You must always keep yourself ready as if they were to move, and nothing is better than the precautions you are taking with that in view. In the position you occupy you must make war without dividing your forces except to the extent that the enemy divides his. Your mission is to serve as guard and to follow the enemy's movements whether up or down the river. I quite understand that if the enemy resorts to manœuvring, you will be compelled to take some risk ; I am persuaded that you will do it with wisdom and precaution.

In the circumstances in which you are placed you will have to take the course that you judge to be the best for the service, and whatever that may be count on my approval of it.

M. le marquis de Vaudreuil writes to you and intimates to you his intentions relative to what I have just said to you.

I do not know if they have been able to remove the cannons from *L'Atalante* at Pointe aux Trembles; these could be used to arm *La Marie*. Make arrangements in regard to this matter with M. de Moubeillard. It is an essential to have her well armed; we are having six gun carriages made which will be sent to her.

I use strong language every day in order to forward the work and the departure of the second galley, and in spite of everything she cannot go before Tuesday or Wednesday. Militiamen are also to be sent to you without delay to relieve those of Pointe aux Trembles; also we send you tools and duplicate pieces to occupy 4 armourers, whom you will select from your own force; there is one of them in the picket of La Reine.

I have the honour to be with a sincere affection, my dear Dumas, your most humble and most obedient servant

I have received my dear Dumas, the letter you did me the honour to write to me on the 6th instant. I strongly approve your plans in the event of the enemy having passed you and attempting to ascend the river. As he cannot go up the Richelieu during the night, as every one asserts, you will be able to estimate his force and make arrangements accordingly to follow them. If you decide to withdraw from Pointe aux Trembles it would still be well to leave a small detachment there with one officer, in order to keep the habitants under arms, and in case of the enemy coming down the river again it will be much easier for you to resume possession of all your posts.

I think it would be a very good thing also to send some officer to the south shore to keep the habitants under arms and warm them that the English intend to burn down their houses, and therefore that they must be on their guard.

I am well convinced that you neglect no precaution for anticipating the enemy in any movements he may make. When a man does all he can no one should complain; it is the Master of Life who decides all events. M. de Pontleroy thinks that the mortar which is at Dechambeau would be of more use at Three Rivers; it is for you to decide the matter and do what you think proper. The same remark applies to certain pieces of artillery which M. Cornillo wants to have exchanged.

Nothing new here. I hope the enemy will leave us quiet all this month. We will fight during the next, and we shall have peace in August.

You know, my dear Dumas, the sentiments of sincere affection with which I have the honour to be your most humble and most obedient servant.

Received 3, answered immediately.

I have received, my dear Dumas, your letter of the 29. M. le Marquis de Vaudreuil has approved all the arrangements I have made on our frontier and also my instructions to you.

I am surprised to see by the statement furnished by a clerk of the commissary that five hundred rations per diem have been drawn at Pointe aux Trembles; we had only calculated on 400; it is true that these rations were taken at that point before your arrival. I am persuaded that you have put everything in proper shape there. Rations must be issued to effective combatants only. You cannot be economical enough in the matter of meat, because notwithstanding what the commissary says, I fear that you will run short of it.

M. le Marquis de Vaudreuil is having orders given to send militiamen to relieve those who have remained at Pointe aux Trembles. You may tell them it will be done without delay.

They are hard at work at the galley but I do not think that she can be finished for a week yet. I know how necessary she is for you and I will hurry her departure as much as possible.

I am still uneasy about the crossing of Jacques Cartier River; you cannot too strongly urge upon M. de Repentigny to be on the look out and station there all the boats he can get hold of. It is very essential that you should collect as many batteaux as possible for your use; you understand as well as I do how very important this is.

I strongly approve your idea to construct rafts for the crossing of rivers St. Anne, Batiscan and Champlain, if it can be done, and even at Jacques Cartier, if possible. I have recommended M. de Longueuil to see to the crossing of the Chenaux (St. Maurice). I have also directed Magés to do so.

I do not know what can be done with the prize of M. Meinvieille; to bring it by water does not seem to be possible; by land it would be difficult; it is essential, however, to get the pork; see if you can find means to make something of it.

M. le Marquis de Vaudreuil and I are much surprised that that news was divulged; you see the consequences of it. Several persons wrote about it to people here, for example M. Dauzat; tell him not to take it into his head to write news in future; the same advice should be taken by all the gentlemen of the land troops; as for those of the marine you can teach them their duty. M. Imbert also talked about this matter. I will do my best to have them put in confinement, but I doubt whether the General will consent.

Nothing new on the frontiers. We must await events. We shall strike hard the first chance we get.

Adieu, my dear Dumas, you are aware of the sentiments of sincere affection with which I have the honor to be your most humble and most obedient servant.

I have received, my dear Dumas, the letter you did me the honor to write; I strongly approve the round of inspection which you have made; you will better understand the ground. If you have to retire and should any difficulty arise you will be in a position to overcome it.

You have acted very wisely in removing the cannons of *L'Atalante* and I quite approve of the distribution you have made of them. Men are at work building gun carriages for *La Marie* and I will have others made next for the remaining pieces.

It would be of a great advantage for your post if you could establish bridges of rafts; I hope you will neglect no means to make them a success because safe communication would thus be established between all your posts and you would have an easy means of retiring in case you might have to do so.

As for the robbery of the treasury it is an unfortunate affair. The public can not put the blame on you; it is impossible to guard completely against such accidents, and the only thing you can reproach yourself with is having allowed the treasurer to absent himself.

I write to M. de Pontleroy to cast cannon balls for the artillery you have removed from *L'Atalante*. You must have received the armourer's tools and the medicines for the hospital. I expect that the galley will sail tomorrow to join you ; see to providing a crew for her as best you can, either with Acadian militiamen or regular sailors. Request M. Grandrivière not to compromise his situation because his galleys may be of great use to us above the Richelieu and in the further retreat we might be compelled to make.

You know, my dear Dumas, the sentiments of sincere affection with which I have the honour to be your most humble and most obedient servant .

MONTREAL, June 30, 1760.

A prodigious accumulation of correspondence has been the cause, my dear Dumas, of my not having sooner answered the letter you did me the honour to write, but that has not prevented me from attending to what you mentioned concerning your promotion : I have spoken of it several times to M. de Vaudreuil who is very well disposed towards you and, as far as that goes, only does you justice, but I have not succeeded in persuading him to recommend you as brigadier ; he mentions, however, all your merits to the court. For my part it has given me very great pleasure to do you justice and make known all your worth. I like the idea you put forward and I feel that you have a chance of fortune in a military sense ; I think that you might through solicitations, obtain that promotion at the end of the war, that is to say at the termination of this campaign, because I have no doubt we shall have peace by the end of August. Be persuaded, my dear Dumas, that on all occasions I shall have very great satisfaction in co-operating in anything which may be agreeable to you. Therefore, you can always make use of me with the certainty that I will do all that depends on me in that respect. I wish much that the month of July may pass as quietly as this one has done. General Amherst has answered us ; he is on the frontier of Lake Champlain ; I prefer him to be there than on the St. Lawrence. If the garrison of Quebecreceives no reinforcement M. Muray will not be in a position to do much. I assume that you have had time to put all your batteaux in as good a condition as was possible. You cannot too strongly advise your galleys not to run undue risks. I am in constant apprehension of their capture. I am going to make a visit to Isle aux Noix ; if there as no movement in that direction I shall be able also to go and see you.

You know, my dear Dumas, the sentiments of sincere affection with which I have the honour to be your most humble and most obedient servant.

I have received, my dear Dumas, the letter you did me the honour to write. Nothing can be better than what you have done situated as you are. The Marquis of Vaudreuil strongly approved of your arrangements. He answers you on every point so as to relieve you of anxiety in regard to anything that may happen. It is very

essential that you maintain your position as long as possible. There is reason to think that the enemy in your region are only trying to create a diversion, and if they land they probably will only do it in places where they do not see any armed force. That is why it is most important to keep all the shore under arms and to show our men everywhere as much as possible. I realise how critical our position is but you cope with difficulties better than any one else and the duty cannot be in better hands.

You know, my dear Dumas, the sentiments of affection and friendship with which I have the honour to be your most humble and most obedient servant.

MARCH 6th, 1760.

Sir,—I answer the letters you did me the honour to write me on the 28th and 29th of February and on the 1st of March.

We are taking measures every day for having boards and planks made; branches will also be got ready for making fascines according to your order.

I went to Pointe aux Trembles the day before yesterday to draw the men for a grenadier company. I was not able to complete it on account of the absence of a number of the best men who are employed all the time in scout duty. I instructed M. de Repentigny to finish the work. I intend to go to Pointe aux Trembles to morrow to have another look at the company. It will be far from presenting a very fine appearance, though I have taken the best and best looking men we have.

M. de Maloise has informed me that we must not count on any portion of their clothing being provided, because there is nothing of the kind in the King's stores. In that case it will be a pretty ragged brigade. They must at least have head-gear and it would be well to choose the highest kind, otherwise the troop will not be presentable. They also want uniform leggings or else *Mitasses*.

M. de Hertel writes to me from St. Michel. He seems to have properly seized the object of his mission. The inhabitants continue to be very well disposed and will receive some of the Acadians if I can send them on. They are in dread, however, of being burnt out by the enemy, threats having been made to that effect.

In conformity with the arrangement made by M. de Bourlamaque I am sending to Beauce 88 Acadians, so far relieving the parishes of St. Jean, Lotbiniére and St. Croix. The inhabitants of Beauce have in this matter given evidence of the utmost good will. The missionary was at the point of death; by this time he must be dead.

M. de Bourlamaque will have reported to you, Sir, the alarm we had in regard to Germain's store, and the order that was given for transferring all the provisions to another place. The interest at stake is of such a nature that the slightest danger causes alarm; but on the second day after, the difficulties involved in embarking the supplies caused a change of opinion, and things remained as before.

A guard has been on duty there since your first order on the subject, Sir, and on that day it was not changed owing to insufficiency of men in the fort, but I have seen to that matter since.

As regards risk there may, Sir, be a certain amount of it, for what takes place on the river is not visible from our advanced posts; and if M. de Repentigni were pressed, as he might be at any moment, then indeed there could be no safety.

The enemy has been making movements on a large scale towards his advanced posts during the last three days. What the object is I cannot divine. M. de Repentigni is keeping a sharp watch, but it does not appear that it is his post they are aiming at, for they would not in that case so distinctly warn him to be on his guard. What is going on may possibly be the result of the visit of M. de Bourlamaque and of the sending of some pieces of artillery to Pointe aux Trembles.

I have always forgotten to mention to you, Sir, that M. de Langy resisted your last order, as he did the first, and would not allow an inspection of his stables; but more excuse may be made for him than for another man, for he is of weak intellect and does not know the mischief he is doing.

A soldier of Benoit's company was caught in the act of doing violence to a young girl. I am going to have him taken to Three Rivers.

It is my earnest hope, Sir, that you were satisfied with the report M. de Bourlamaque made to you of the state of things on this frontier. I will pay close attention to all the arrangements made and all the orders given to him.

7 March, 1760.

SIR,—It was not by my orders that the mills were stopped but by those of the Chevalier de Levis, but I confess that I made no enquiry about the one at St. Augustine. It was embraced naturally in the special instructions to M. de Repentigni, as those of the south were in those of M. de Celoron. I ought no doubt to have taken cognizance of it, but I was misled through the confidence which I reposed in M. de Repentigni, and my belief that he had given the necessary instructions. All that, Sir, does not do away with the fact that I am in the wrong. I am giving all the orders that are consequently necessary, and I answer for it that they will be executed. Your letter for M. de Repentigni is being sent at once.

The Chevalier de Levis has done me the honour to write that your intention is to re-establish correspondence with Quebec in order to get from there a quantity of things that we have need of, and to facilitate it as much as possible while taking all necesary precautions in order that the enemy may not be informed of our interior movements.

That may perhaps be difficult, but I will use my best endeavours in the matter. The planks and other sizes of wood, as well as the fascines, will soon be well under way.

9th March, 1760.

I have the honour to report that the Acadians and the inhabitants with whom they are lodged alike refuse to make the journey into Beauce. After this first clearing out I was intending to make a second for the lower parishes, the inhabitants of which had accepted the burden with the best grace in the world; but the difficulties in the way of the first will have still greater force in regard to another.

Do me the honour, Sir, of imforming me whether this transmigration is to be effected by force. In that case there is reason to fear that the enemy will get word of it, and will oppose its being carried into effect.

Herewith, Sir, you will find a copy of the instruction I gave to Sieur Seuillt, and of the letter which he wrote me from Lotbinière, after which he returned not having succeeded any better at St. Croix

I received the two letters which you did me the honour to write me on the 7th, with the one enclosed for M. de Murrai. M. Martin will find here all the facilities which it rests with me to furnish, and I will follow your instructions in every detail.

He will leave tomorrow for Pointe aux Trembles, and, conjointly with M. de Repentigni, he will send forward the letters for M. Murrai.

I could have wished, Sir, that you could have fixed the number of men to be employed by Houle on the basis of the extent of the undertaking he has in hand. He is just the kind of man to abuse his privilege, and extend it to all the parishes of the south shore. He has already talked to me of 200 men to be entirely exempted from military demands. If he absolutely requires that number there is no use in expecting gabions or fascines in this part of the country. It is reported that the ice-bridge has given way as far as opposite the powder magazine. The enemy is making a redoubt at Point Levi with the wood of the building shed, and yesterday they dragged in twelve cannon; it is said they mean to mount twenty-two.

13th March, 1760.

SIR,—I received at midnight the letter you did me the honour to write me on the 10th. M. Desrobert will be guided by your instructions; those you gave me for a new levy of cattle are in course of execution. I could say a thousand things to you, Sir, on this subject; but I can no longer do aught than obey. At the same time I must observe

that it is absolutely impossible to follow out in this levy the second article of your instructions on this subject, signed by yourself and the Intendant under date the 9th September, 1759.

In the first levy which was made at that time the article in question was not followed out either, owing to the impossibility of doing so ; and I had the honour to report the matter to you by my letter of the 20th of December. The census made subsequently by Sieur Perrault, confirmed by statement of the case, and the levy made accordingly with your approbation would have rendered the thing more difficult still, if impossibility admits of a less or a more.

I am convinced that the orders I have given are at once the most prudent and the most in conformity with the spirit which you bring to the task of government ; and I flatter myself that the inhabitants will not make any opposition ; but, Sir, we are only destroying the live stock of the country without assuring our subsistence. In my letter of the 5th ulto. I had the honour of informing you that 125 horned cattle had only yielded 14,550 pounds of meat. The quality is bad, the soldiers do not like it ; and, even so, it will fall short unless a supply arrives from Montreal without delay ; for when the roads are broken up it will be impossible for any to come down. Then we shall have to begin on the horses which are the one resource of the country people for getting their land sown ; but would it not be better, Sir, if there is anything left to levy on these regions, that these animals should be kept alive, so as to serve later for the subsistence of the army than to kill them now. I beg you, Sir, not to regard this as a remonstrance for your order is in course of fulfilment at the very moment I write. It is true at the same time that, as the levy can only be made after the inspection, you will still have time to send another courier. It is to be hoped that M. de Langi will comply with the order given.

Within the last three days nine men of the colonial troops have deserted. At first I attributed this desertion to the lack of proper food ; most of the soldiers who board with the farmers complain greatly of the fare. M. de Repentigni assures me, however, that their dissatisfaction is on account of their pay. It is difficult in fact for a captain to keep accurate account with his soldier at a distance of fifty leagues. Every man complains of some mistake, in regard to which no one here can give any explanation, and consequently regards himself as wronged, protests against the injustice with which he is treated and goes away discontented.

The form for payments on account proposed by me to M. de Guerdissien, for which he obtained the approval of the Intendant and of which you yourself, Sir, approved, was doubtless the best. I don't know why M. de Guerdissien did not insist on having it followed. It was for him as Commissioner entrusted with the police of the troops to make such representations on the subject as circumstances demanded.

Some serious harm may result from this lack of system. I am fully persuaded that he did not foresee the consequences of it, but that arrangement having been made with me, he ought to have apprised me of the change he was making, and I should then have had the honour of making representations to you and to the Intendant, founded on reasons so solid, that I cannot doubt you would both have felt their force. A remedy must, however, be found for the mischief already done, so as to obviate disastrous consequences ; I cannot myself think of anything in the way of a suggestion.

It is said that M. Murrai has spent two or three days at Point Levi. They are working as hard as they can at that post. This multiplication of posts does not imply weakness in the garrison though it may result from weakness of administration.

All the works ordered for next month are in progress. All hands are busy, and not a moment will be lost ; but we have not enough hands and the quantity will fall short. Everything is being prepared so that as soon as the streams are running the mills between here and St. Augustin will turn out the requisite planks.

15th March, 1760.

On the strength of a letter from M. de Longueuil informing me of a detachment of the enemy that has started from Lake Champlain in order to push on to Quebec I at once despatched M. Le Borgne with a detachment of 300 men, of whom 150 were sold-

iers from Pointe aux Trembles and an equal number militiamen chosen from all the parishes in the upper part of the government of Quebec. That officer will get what news he can at St. Nicolas, and will proceed to occupy the passages over the Chaudière near the falls ; while M. de Fleurimont with his scouts will explore the parishes to the south so as to be able to apprise M. Le Borgne of the route the enemy is following and of the moment of his arrival.

I would have given orders for occupying a position on the Duchêne river, had I not been afraid that the enemy would already have crossed it when my detachment arrived.

All the work in hand suffers by these movements, for the yards are all upset, but it is impossible to do any better.

This morning the bakery caught fire and in a moment the whole of that building which contained also the magazines was wrapped in flame. Very little was saved for as the powder magazine was surrounded by flames, owing to the north wind driving them towards it, the people were all obliged to withdraw to a distance. We were expecting an explosion when the wind changed. Then M. Dameville with great bravery got some men to work with himself to extinguish the hot cinders that were covering and surrounding the powder magazine. The powder was saved but it was a kind of miracle.

M. de Landrieve is sending to the Intendant a statement of what we have left after having made an exact search everywhere in order to remedy the thefts which always take place in like circumstances.

You will have seen by the letter which I had the honour to write you on the 15th that the least military movement had a very injurious effect on the works that have been begun.

On the receipt of your orders of the same day I would have detached 100 men from Pointe aux Trembles to proceed to the reinforcement of M. Hertel's detachment, although M. Le Borgne already has 150 men from there with him, but M. de Repentigni has since yesterday been in the midst of an alert. I subjoin copy of a letter that I have just received from him. I sent to him at once all the Hurons that were left and 60 men taken from the two pickets of regular troops (troupes de terre.)

If M. de Repentigni's alert does not amount to anything, as soon as I am enlightened on the point, I will detach the 100 men for Hertel. You will not have a chance, Sir, again to give me the same order twice. These 100 men will have to be taken from the garrison of Pointe aux Trembles, because there are neither Canadians nor Acadians who are not employed on making fascines or gabions, or in squaring timber for necessary purposes. They had to be divided into squads working gangs for making gabions and pickets, so that when you take away one man you disturb four.

If we weaken M. de Repentigni in this fashion would it not be prudent to withdraw the two cannon from the fort. They seem to me much exposed ?

18th March, 1760.

Sir,—I am allowing the inspection of stables to proceed. It has been going on in the parishes since the receipt of your last orders on the subject. It will furnish accurate information as to the supplies we may count on when the army arrives, whether we have to take all or only a part.

All the troops of the colony are at point aux Trembles. You are aware, Sir, that there remain here only the two pickets of the land forces (regular army). M. de Repentigny is doubtless sending the return asked for by the Intendant.

I had the honour, Sir, of reporting to you that acting on information from M. de Longueuil, I had sent off a detachment ; a further letter informs me that the alarm was a false one. I have instructed M. Le Borgne to detach 100 men to join M. de Hertel and return to Pointe aux Trembles.

A man from Quebec has assured me that, the day before yesterday, 800 men left the town and crossed over to the South shore with three pieces of artillery. That, no doubt, is what caused the alert at Pointe aux Trembles. The report, however, needs confirmation, because M. Taché who left Ste. Foi in the evening of the day before yesterday knew nothing of it.

The slightest movements (and they are frequent) cause work to be suspended; but everyone is busy, and all that is possible will be done.

M. Senbertt arrived yesterday. All, Sir, who bear your recommendation will be well treated wherever they go.

19th. March.

SIR,— By the letter you did me the honour to write me on the 17th it appears that others as well as myself gave you an account of our fire. My story was short, succinct, but true; the style was the style of a man whose conscience testifies that he has done his duty. He who apoligizes in making his statement feels that he has need to do so. On the occasion in question our great peril was in the beginning. As soon as the roof had fallen in and the wind had changed, it was possible to approach the powder magazine, not without risk but with hope of success. M. Danserville arrived at that time, whereas when I ordered all to go away, there was nothing left to do, but everything to risk. Moreover all precautions were taken, Sir, to save the goods and prevent stealing; and as to that there was so little of it that I have not heard the thing mentioned, except in explaining the reason for the disposition I made of the guard. As to the construction of the powder-magazine I had the honour to say something about it to you in a letter of the 29th November, but I now furnish more precise details.

A square excavation was made on the slope of the cape, ten feet from the bakery, in the middle of which there rises a frame work of planks on end, forming the sides, by no neans straight and showing light through in many places. The covering remains. You can judge, Sir, from this brief description that when a whirlwind of flame was surrounding such a magazine, there was very little that could be done to save it. But I only withdrew the garrison when that was the condition of things. Officers, artillerymen, soldiers, workmen, all alike did their duty. M. M. La Noix de Noyelle and little La Naudière, who by chance were on the spot, worked like the rest.

There was never any question, Sir, of transferring to the fort the flour from Germain's place; but had it been done there would have been no risk on the occasion referred to, the shed of the commissary being far removed from the main building which was consumed. If, Sir, it is owing to dread of fire that our supplies of flour have been kept outside, such a precaution might have been more usefully taken in respect to our powder, which is to say the least, as scarce, and at the present moment quite as precious as our food supplies, to say nothing of what might happen in case of accident. I only say this by way of reply to reiterated fault finding on the subject of the flour-supplies. I may add that M. Bourlamaque was here at the time, and that nothing was done without his approval; that the countermand was given before receipt of your letter; and finally that a subaltern is in great luck when he sees with the aid of reflection what his superior takes in at the first glance. Is he to be held guilty for having less experience and perspicacity than his master?

M. Le Borgne returned to Pointe aux Trembles after having detached 100 men to join M. de Hertel under the orders of M. Montmidi. Seven or eight Hurons acted as their guides. I misunderstood the letter that you did me the honour to write me on the 14th; I thought you meant only Indians from a distance who might happen to be at Pointe aux Trembles. I have just explained your intentions to Father Giraud, who, I undertake to say, will do his best in the matter. The Indians however are so tired out this winter, subject as they are to continual alerts at Pointe aux Trembles, that I fear it will be difficult to raise more than a small number of them.

There is no confirmation of the reported sortie from Quebec southward. I am quite in the dark about it.

A sentry has been placed on the bakery which is now outside the fort. I do not neglect any precaution and have never neglected any. M. Laudrieve watches the rations most scrupulously.

I have the honour to represent to you, Sir, that it has become very necessary that there should now be a superior officer here. The works are pressing and they are not making progress. I do what I can, but a superior officer with more power, more authority, more self-confidence, could surmount difficulties before which I am powerless.

I should be in despair were I to be held responsible for the delays which there is great cause to apprehend. The request I have the honour of making would spare me that mortification. The officer who comes need only bring a bed with him ; the rest of his baggage can come with the army. This matter, Sir, surely merits your attention, for I have no hesitation in saying that facts prove that the works ordered will scarcely be finished by the end of April, with the number of men now employed and the alerts that are continually taking them off their work.

20th March.

SIR,—The advance guards of M. de Repentigni were attached this morning. They were drawn by a feint towards the Brulé village and while they were posting themselves there Le Calvairé was carried by another column. Thereupon I sent him reinforcements of 180 men and ordered that the garrison of the fort should be strengthened, after which I went to Pointe aux Trembles. M. de Repentigni, I found, was on the land of Joseph Doré, in about as good a position as a place admits of where you can be driven out by a flank attack. We conferred together and agreed that if the enemy advanced to-morrow, he would defend the ground inch by inch, and that I should see that as he lost ground he should get fresh men.

The habitants reported to M. de Repentigny that the enemy numbered 1500, that they had vehicles laden with provisions, ammunition, and tools. It does not appear, however, that any cannon were used in the attack on Le Calvaire ; while two prisoners made by our scouts a little before the attack report that only 500 men left Quebec with three days provisions but without any other preparations ; but they speak of a second corps commanded by Colonel Owelet (?) which was led to Ste. Foi, of which they know very little, but which left with the same object. It may now be there to support the first in case of need, or even to undertake a more important expedition, which however, I can hardly believe. There again are our works abandoned owing to the continual necessity of raising the militia. Permit me, Sir, to renew the request that I made to you yesterday to send a superior officer here. Circumstances absolutely demand it. As long as I could suffice for the work I did my best; but assuredly your expectations would not be fulfilled if the business remained longer in my hands. I will continue to give all my attention to it under the orders of another.

The prisoners report that no detachment has been made for the south, and that the ordinary guard at Point Levi is of the same strength as those at Ste. Foi and Lorette.

Our deserters give as the ground of their discontent the pay and the rations. It was a man named Lafleur, a soldier of the colony, who led the enemy to Le Calvaire. M. de Repentigny is afraid there have been a good many other desertions on this occasion.

21st March.

SIR,—I send a courier specially to inform you that the enemy retired this morning after having burnt the mill at St. Augustin and the sawmill.

M. de Repentigni has resumed his position at Le Calvaire. I am not yet fully informed of what took place. M. Naume who will leave to-morrow will bring you a statement.

22 March, 1760.

I reply to the letter which you did me the honour to write to me on the 18th.

In sending two cannoners to Pointe aux Trembles I detailed for working them two naval officers, two gunners and eight sailors. These are all the officers I can send there, M. Danseville being alone (here). I have but one gunner for each cannon and since the (defence) works were started I have had to attach one to each company of the militia to see to the distribution of the work.

I was unable to send more than ten soldiers with the detachment of 100 men ordered to reinforce M. Hertel. The letter you did me the honour to write on the 14 is worded as follows : "In order to increase this detachment by 100 good men to be taken from your troops and from amongst the Acadians who are not employed in making fascines and gabions" ; now, Sir, there is not in the whole Quebec government a single Acadian or Canadian who has not his assigned task.

I have the honour, Sir, to repeat that all the preparations ordered are infinitely delayed by continual alerts, and, most certainly, we must not expect that these works will be ready by the date appointed. Nevertheless the presence of a superior officer might create a more vigorous activity.

M. Taché received permission to take out some liquor from Quebec. M. Martin proposed to me to send him there again for the purpose of his mission; and he had a hand in this arrangement as might he supposed considering the deep interest he takes in the public service.

Your letter for M. de Murrai was sent to M. de Repentigny while the enemy was at Le Calvaire. This could have been used by him as a pretext to reconnoitre their position; their retreat will, however, have rendered anything of that nature superfluous.

I have received by an Acadian a letter which you did me the honour to write me on the 16, relative to the parish of St. Pierre Le Béquet. I am going to send an officer with instruction to settle their difficulties. The captain had come to me to state that his parish was not in a position to feed the number of Acadians quartered on it, and I had referred him to M. de Longueuil who might possibly afford the necessary relief by sending part of the Acadians to the upper portion of his government. All my letters, Sir, have referred only to the Acadians quartered in the government of Quebec. Those in the government of Three Rivers have not as yet given me any anxiety. I thought it would have shown a want of respect to M. de Longueuil if I had done the smallest thing in that part of the country; the only advantage I took of your orders was to ask the captains to perform the most indispensable service on the frontier of the two governments.

March 22, 9 P.M.

SIR,—I have the honour no transmit to you a letter from M. de Repentigny who writes you the detailed report of that last affair. You will see that it cost us about eighty men. The grenadier is reduced to 33; and we cannot so much as complete it from what we have here. M. Lenoir, who will leave to-morrow morning, will tell you the pretexts for desertion alleged by our soldiers when they get to Quebec.

M. de Repentigny asks for permission to keep 25 men of the pickets of Bearn saying he cannot do without them; How are we to manage? I shall not have enough men left here to furnish a guard for the flour depot and three sentries for the Fort. Yet one is absolutely required at the guard-house, one at the powder magazine and one at the treasury. You will order, Sir, what you judge advisable in this matter. I enclose, herewith, a statement just received from M. Hertel. At the moment of writing I receive a note from M. de Repentigny who informs me that the enemy is marching to make a fresh attack upon him. If this is correct M. de Murrai has no doubt determined to dislodge him, and this can only be upon the report of our deserters who will have fully explained his position and his weakness. The militiamen I had assembled to go to his relief the last time are discharged. It is hard to say how long it would take to get them together again. If he is to be attacked it will be at day break. There is nothing to fall back on. Herewith is a copy of the letter I am writing (to M. de Repentigny.) I do not doubt, Sir, that you will despatch M. de Bourlamaque on the receipt of my letter. His presence here is positively necessary. You must have a view of the situation through his eyes.

March 23.

SIR,—M. de Repentigny is informed that the enemy is marching through the woods either to turn his position or to come straight here. On the upper part of River Jacques Cartier traces of snow-shoes have just been discovered showing that the River was crossed but that the parties turned back without having ascended the farther bank. I sent some scouts at once to follow these tracks.

It is reported that there are at Ste Foi 7 cannons and one mortar with 50 or 60 sleighs loaded with ammunition and provisions..

M. de Repentigny is directed to send scouts into the back country and to keep himself ready to withdraw in case he learns that the enemy has gone beyond him, or at the first notice from myself.

I am asking M. de Longueuil for two pickets from the regiment of Languedoc and I am ordering out all the militiamen. M. de Bourlamaque would be a good man to have here at this moment.

March, 24, noon.

SIR,—Neither the scouts of M. de Repentigny nor mine have yet returned. The cure of Pointe aux Trembles is leaving for Montreal, and I give him this letter in order that no one may arrive without bringing you news from me. As soon as I get a clearer view of the situation I will send a courier. I must not conceal the fact that there are whole parishes where everybody is sick, and you will easily judge that all these movements cause the works we have in hand to be neglected.

The sieur Houle could not find in Lotbinière or any where round there suitable wood for his business sufficiently close at hand. He came to ask the authority of M. de Longueuil to try elsewhere and I have sent him to that officer.

March 24, near midnight.

SIR,—The alarm was a false one neither the scouts of M. de Repentigny nor mine have discovered anything. The difficulty is over for the present. The enemy turned out 1,500 in number solely to repulse our advance-guards, which would here cost us almost nothing had it not been for the shocking desertion that ensued. A scotch detachment sent to Lorette upon the false information that an Indian party was there, the terror amongst the inhabitants, the preoccupation of the day before—these were the source of all the false reports. The snow-shoe tracks at River Jacques-Cartier end at some beaver huts, M. de Fleurimont who scoured the woods to within two leagues of Lorette reports that the route is a splendid one. The loss sustained by M. de Repentigny in the last affair, the bad temper of our troops, our manifest weakness, the discouragement of the militia of Pointe-aux-Trembles and St. Augustin have decided me to wait for the two pickets I have asked for from the Languedoc regiment. I have, furthermore, ordered 150 men of the militia, to be carefully chosen from all the companies. I have directed M. de Fournoire to make the levy and have expressly enjoined upon him to see that the militiamen bring with them the largest supply of provisions they can, from ten, twelve, fifteen to twenty days rations, even, in flour, which I shall order the clerks of the commissary to take over without delay. This little reinforcement will probably restore confidence, although it may not quite enable Pointe aux Trembles to resist the attacks the enemy may make on its advanced posts.

M. de Repentigny, likewise, who knows now better than ever the weakness of his situation, is very desirous, Sir, that you should send him three hundred militiamen from Montreal, the elite of the voyagueurs, with whom he would hope to take down the pride of the Scotch, in case they should again come swaggering around his lines. This would seem to me, Sir, all the more necessary owing to the fact that it is very important to show a respectable front, in order to allow those in the rear time to labour on the works that have been ordered the delay of which may cause a more important matter to miscarry. I do not know, Sir, whether my conduct will obtain your approbation, but here are my principles : A small measure of credence for the various rumors which reach me, coupled with the habit of not wholly overlooking any one of them, but of comparing one with another, always considering the advantage or the loss the enemy may hope or fear in an operation ; the knowleage he may have ; what it is natural he should be ignorant of ; and in a defensive situation taking no risks. Now on this occasion in question all the advices pointed to the same thing. The route by which our position is turned could not be a better one ; our weakness and the dissatisfaction of our troops are known by the report of 50 deserters who, interrogated separately, will all have told the same story. To delay our preparations for the opening of the campaign is the advantage which the enemy would hope to gain by dislodging M. de Repentigny, but they do not know the succour that we may receive nor the time necessary for that. Under such circumstances, measures of precaution and an attitude of distrust are, in my opinion, called for.

I have the honour to enclose to you, Sir, a letter written to M. Hertel and his reply thereto. He had previously written to me on that subject, and through an am-

bigious expression I had been left in doubt whether he had allowed 500 bushels of wheat to pass to the Ladies of the General Hospital, or whether he had retained them. I answered him on this in conformity with his instructions and I see now that he did not depart from them. I have sent him shoes, a few pounds of vermillion, and other small necessaries for his detachment. This officer is constantly asking for reinforcements. He finds it hard to comply with that article of his instructions which orders him to retreat if he is attacked by a superior force. It would appear that the works the enemy is building at Point Levi are not of great consequence ; there are three redoubts and three cannons, but all for plunging fire, with what range is the question.

I received this evening the letter you did me the honour to write on the 22. I caused the two prisoners to leave the same day for Three Rivers ; circumstances hardly allowed me to interrogate them except in regard to the movements going on at the time; I am writing to M. de Longueuil to have them sent on promptly to Montreal. I sent away at the same time a sailor called Joseph who has been guilty of disgraceful conduct and who, through shame, would certainly have gone over to the enemy ; he is on educated man and might do a good deal of harm. As there is no complaint against him, I am not sending him away as a criminal, but as a suspect, and one who ought to be kept in confinement.

I am very sensible, Sir, of the kindness you show me. If you are convinced that I am doing my best you do me justice ; but do not suppose that the arrival of M. de Bourlamaque would be disagreeable to me ; I would serve under him with more satistion than I do now in full command, and I am entirely persuaded that his presence would have a good effect here. In any case I will omit nothing to respond to your confidence.

It is now midnight as I conclude this, and I hear that the alert is renewed at Pointe aux Trembles. M. de Repentigny writes me that he gets the same advices from all quarters. Always the same double project of turning his position and coming here by the rear. I can hardly persuade myself that M. de Murai would announce such an expedition in advance, if he desired to attempt it.

It is reported that the enemy has a boat ready for Louisbourg. It is said that they are going to make some entrenchments on the Island of Orleans. So many things are said that it is very difficult to get at the truth.

March 26.

Sir,—I am in receipt at this moment of a letter from Quebec. I am assured positively that the plan of M. de Murai is to attack Pointe aux Trembles and Jacques-Cartier. My informant adds : " Keep on your guard day and night, if you do not want to be burned." I judge that the scheme is to send one corps through the woods, whilst another will amuse Pointe aux Trembles without decidedly aiming at forcing out M. de Repentigny. I will have scouts constantly on the move. M. de Repentigny will have some also, and when we know that the enemy is marching by the rear with a certain force, I will order the troops at Pointe aux Trembles to fall back.

All the works are suspended here, but M. de Longueuil has ordered the militia captains of his government not to take off any of the men engaged in moving earth with wheelbarrows or in any other engineering work ; as all the best men of the parishes are so employed, I cannot depend on that government for anything. I am still asking for the two pickets of the Languedoc regiment. For want of men everything here is in peril, both the post and the flour depot ; it is time to think seriously of it.

I am asking M. de Longueuil for two other pickets from the Languedoc Regiment, and 25 grenadiers commanded by a lieutenant. That will give us a little more solidity and, this movement of land forces (regular troops) if the enemy is informed of it, will perhaps make an impression on them.

March 27.

M. Legris has arrived and my letters are not ready ; not to detain him too long, I will send a courier during the day. Things are in the same situation. I have provided to the best of my ability for the safety of every thing. I shall have the honour to furnish you with a detailed statement, this afternoon. I await the night news from Pointe aux Trembles.

March 28.

SIR,—I have received the letter which you did me the honour to write on the 26th. If the advices which I receive are correct, the first sally of the enemy was for the purpose of dislodging M. de Repentigny; but the excessive cold which prevailed the day they attacked our advance guards, prevented them going farther, many of their men being frost-bitten in that first operation. I could not understand what induced M. Murrai to put 1,500 men into the field for so slight an object, and with artillery which was not used; but no doubt he reserved that for the later results of the expedition. It is reported that, on the 24th, a similar detachment marched out for the same object, but that before reaching Lorette, news having come that M. de Repentigny had been reinforced considerably, a courier was sent to M. de Murrai, who ordered them to return after sending on 8 men to reinforce the post at Lorette. This is further confirmed as I write by a man from Quebec. Nevertheless the enemy is always willing and ready to turn out in force, either to oppose our enterprises or to resume his own, if, according to that custom of ours upon which M. de Murrai has already made many pleasantries, we send back our reinforcements as soon as the alert is over.

I had the honour to report to you, Sir, that I was asking for four pickets from the Languedoc regiment and 25 or 30 grenadiers. This is about the whole of the regiment; there will remain with the flags little more than the officers.

Three of these pickets have already arrived; of these two go on to-day to Pointe aux Trembles. The two others will be lodged in the six houses nearest to Germain's store; they will furnish a guard for it and will patrol it every night to prevent any attempt on that depot. I would never have taken the responsibility, Sir, of removing the provisions which it contains after your reiterated reproach to me for having thought of doing so, and in view of your express order of the first March to leave them where they are, in which you even contemplated the case of steps being taken by the enemy to burn them. I say nothing, Sir, of many private letters in which the writers arrogate to themselves the right to criticise my slightest movements. At present, Sir, it is very uncertain what is the best course to take relative to the removal. It would seem that the enemy wishes to turn our position by marching through the woods, and the route he would follow in that case is the best imaginable, the distance being only two leagues from Charlesbourg to the Jacques-Cartier River, which brings them here on a fine ice road. Their artillery however will not come by that route. Their advance will dislodge M. de Repentigny, naturally, and from that moment the regular road is open. In that case the provisions would be in greater peril in the Bois de l'Ail than at Germain's, and we have no room for them in the Fort. The only thing to do is to have them protected by the troops.

The alert is not yet over, Sir; we are close to the month of April, and by the 10th for 12th of April the army is to be on the march. How can I send back the pickets? A retrograde movement like that would only tire and harass. The troops also would not have time to rest before starting again, and who might be wanted here meanwhile. As I have had the honour to tell you Sir, M. de Murrai knows perfectly well that the relief we afford to Pointe aux Trembles is there one day and away the next; and if its arrival arrested the expedition, its departure might very well cause operations to be resumed. To this must be added that, so long as our advanced posts lack a certain consistency, we cannot expect any engineering work to be done. The inhabitants of the neighbourhood are almost out of their wits. Everything is done spasmodically, and everybody's brain is in a whirl. The number of militiamen raised in each parish is very small. I did not care to take any but the best men, and nearly all declared they were sick, so that a parish whose quota should be 15 men only furnishes 4. But they have all brought rations for ten days. I shall have the honour to forward to you by the next courier a statement of our force and of the mouths to be supplied both here and at Pointe aux Trembles. Enclosed herewith, is the census of the cattle with a statement of the levy which seemed practicable. It must be observed that all these animals are pitifully lean.

I still hope, Sir, that M. de Bourlamaque will soon come to take the command of the frontier; the business is important enough to justify his presence; but I pray

you not to believe that I find it absolutely beyond my own strength. No doubt I shall get infinitely less advantage out of it than he would ; but it may be just as well in my hands as in anyone else's, and I only wish to hand it over to him because calumny has been too readily listened to this winter, and because a thousand people useless for any good purpose have dared and are still daring to speak against me. Informers of this class find influential persons to encourage them, and any man who slanders me is sure to be well received. When such a state of feeling exists it is painful to be in a position of responsibility in a place where matters may at any moment become critical. It is not in your judgement or in that of M. de Levi, nor even in that of the Court that I have any anxiety as to justifying my conduct past or to come : but how am I to subdue the monster, Envy ! you alone, Sir, possess the power to strangle it, but unfortunately what concerns me is a matter of indifference to you. The time has flown when your kindness and your confidence made up to me for all contrarieties.

At this moment I am told that the English, having a number of sick, have tried sending some of them into the neighbouring parishes to see whether the country air would restore them to health, but that the experiment has not succeded. All the information I get is to the effect that sickness is making more serious ravages with them at present than it has done at any time during the winter. They bury the dead with their clothes on to prevent contagion. They have requisitioned blankets in Beauport and Charles bourg, paying nine livres apiece for them.

All the news contained in this letter is again confirmed as I write by two men whom I had sent by the rear as far as Charlesbourg, and who went on to Montmorency Falls. They add that the inhabitants of the island of Orleans are ordered to evacuate by April 15.

I sent yesterday a deserter from Point Levi who came from the South. To-day I gave another one from Quebec to M. Legris.

March 31.

SIR,—The distribution of the Languedoc regiment made as I had the honour to inform you on the 28th. I have in the Fort 83 men for sentry duty belonging to the land forces :

As above....	83	130 men
Colonials....	8	
Acadians....	26	
Canadians...	13	

This number divided by three gives 43 sentries for the guard, who have to furnish five sentinels during the day and eleven at night. This is quite insufficient to defend the post which, according to appearances, is not at present in danger of attack ; but it is strong enough to watch against surprise or fire, the latter a thing always to be dreaded, since two or three men, induced by a high recompense, might attempt it and, even succeed in it, if we were not upon our guard. According to the distribution of the troops at Pointe aux Trembles, as communicated to me by M. de Repentigny that post is still only safe through the belief in its strength. In point of fact M. de Repentigny will never muster more than three hundred men to oppose the enemy ; he asks me for the two last pickets of the Languedoc regiment, which I really think in that case he requires ; but who will guard the food depot ? Who will furnish the guard for Deschambaut at the artillery depot ? In the mean time I am obliged to recall the militia from Cap Santé. The multiplicity of the posts and the number of saw mills in that parish, which are working for the King, require hands ; then besides, a certain quantity of fascines already begun must be completed. I have not yet made up my mind about all this, but between now and to-morrow I shall take the course that seems the most suitable under present circumstances.

It has always been contrary to military theory that M. Murai should have come to attack me here ; but we often see a General setting theory aside in order to act out his own character, especially when there is a chance of doing it with no little éclat as well as profit.

You have seen, Sir, by the letter which I had the honour to write you on the 28th that I anticipated your desires in the matter of reconnoitering. It appears that the English have built blockhouses at Point Levi, less for the purpose of occupying them than to ensure the embarkation of their detachment when we march against it with artillery.

Everything points to the conclusion that M. Muray meditates a retreat to the Island of Orleans. In that case he will move as soon as the season permits, or else he will prepare for doing so the moment he knows his defenses are undermined; on either supposition it is to be expected that he will blow up the place.

The ice bridge on the river will not last long. A fall of snow that we had yesterday, and which is melting fast will cover it with water. M. Hertel has not yet been disturbed; judging by appearances, he is not likely to be; the ice bridge once gone, the bad roads only will prevent him from sending us provisions; we shall see whether that obstacle will be insurmountable.

M. Lenoir had no doubt political motives for speaking in Montreal differently from what he had done here concerning the desertion of our soldiers. I could repeat to you, the very terms he used, but what is the use? Besides, Sir, the desertion was no conjecture of mine, although it was antecedently probable and I had the honour of mentioning it to you entirely upon the faith of what M. de Repentigny told me and the confirmation of people from Quebec; but if there is no truth in it all, it is better to have had prisoners taken than to have lost the same number through desertion.

April 1.

SIR,— I cannot help sending M. de Repentigny one of the two pickets on duty at the flour depot; the other one will have to furnish the guard there as well as at the artillery depot at Deschambault. In two days now the ice wil be so soft that no danger need be apprehended by that road; but soon afterwards the opening of navigation will give the enemy a new facility no less dangerous to us than the first one. In these circumstances shall we evacuate the Germain store and transfer the flour to the barn of widow Pichet, where it would be out of danger, because the enemy will no longer be able to come by the rear; or shall we leave things as they are, and send one of those pickets to Pointe aux Trembles? If the army is to come down immediately after the opening of navigation, we might risk it; but if there is any delay in its coming, that plan would be too hazardous in my opinion, since two barges well armed could come and burn your store, and the whole affair would be over before there was time to think of preventing it. Give such commands, Sir, as you judge most suitable. I do not think that there can be any risk before the return of the courier.

I have sent on two sailors belonging to a Spanish ship, deserters from Quebec, tolerably educated, who confirm anew the sickness and mortality, prevailing there; and in general that information comes from all sides. The spring season must have produced a singular revolution. I am despatching tomorrow a trusty man whom I will send as far as Orleans Island. I am interested in penetrating the intentions of the enemy in relation to that Island.

April 3.

SIR,— M. de Repentigny kept me waiting some days for a statement of the number of mouths at his post and yesterday he fell sick with a high fever. He was bled at once and today again he has been bled twice. I have the honour to forward to you simply the statement of the consumption at this place.

If the sickness of M. de Repentigny were to become serious it would be necessary for replacing him. I beg that you will give me your orders on that point. If before I receive your orders the state of M. de Repentigny should become so much worse as to justify it, I will ask M. de Longueuil to send M. de Montesson.

We have no more shoes. There was unavoidably a certain consumption of them at Pointe aux Trembles, and the detachment of M. Hertel, in addition has totally exhausted the stock.

I have the honour to enclose to you, herewith, a letter written to me by M. Hertel. His Indians have really left him; some of them have already passed this way.

M. de Figueri sent me two boxes containing portraits of your family. I sent them on immediately to M. de Longueuil. I am waiting for news from Quebec; I hope to hear something reliable. Up to the present moment we may infer from the hasty way in which the English are burying their dead that they do not intend to remain in the town.

The works have been resumed and are getting on pretty well, but we must wait until the small rivers are free to start the saw mills; in the mean time we are providing them with logs according to their several capacities.

M. Martin has succeeded in getting out fifty bushels of salt which have been put in the stores of the commissary general at Pointe aux Trembles. He sent back M. Taché yesterday, and is making it his chief business to procure all the articles which have been asked for.

April 4, 1760.

SIR,—I am sending under the direction of Sieurs Rouffio and du Saut a man named Thomelet, citizen of Quebec, whose family is divided, half having taken refuge at St. Augustin, while the other half remains in St. John suburb. Continual comings and goings between the two halves of the family, and the many acquaintances they have made with the enemy have brought these people under suspicion. I suspect this man of having been sent towards Three Rivers to spy out our movements. These suspicions may be without foundation, but several persons confirm them, and it is best to be on the safe side.

I am just back from Pointe aux Trembles where there was an alert last night. The English had turned out 500 men, no doubt upon an alert they had had themselves. They retired and so did we.

I have learned that M. Murrai received couriers from General Amherst the day before yesterday. It would appear that it is a reply to the advices sent by him to the effect that he was in danger of being attacked, because the first question asked by the couriers when they arrived at Point Levi was if Quebec was taken.

I learned that these couriers brought to M. Murrai a commission as colonel. It would seem that they have no other news than what they received in reply to dispatches sent after the taking of Quebec.

M. de Repentigny is still sick, but I hope the sally of last night gave him a chance for the better; at least it looked like that when the men returned.

The Indians of M. Hertel have left him. To-morrow I will send him eight from here, and I write to M. de Longueuil to try to send him ten or twelve; it is to be hoped that this will enable him to hold on.

April 5.

SIR,—The two men I sent to Orleans Island have returned; they say that the rumour which was current respecting an order for the evacuation of the Island was founded on nothing more than a remark made by a certain officer, who, happening to be at St. François said to the inhabitants: "If our squadron arrives you may prepare "to evacuate, because there will be no chance for you to do your sowing"; moreover, that no order was issued by M. de Murrai on that subject; and not only so but that the fascines made by the inhabitants are to be transported to town at once.

The same men assure me positively that M. Murrai has caused the arms taken from the inhabitants of Château-Richer and l'Ange-Gardien to be returned to them, and that those inhabitants not understanding the motive of that proceeding are very anxious, fearing that it is intended to shut them up in the town. Their anxiety appears to me without foundation; at least it is not a correct conclusion to draw from the conduct of the enemy, who would not need to arm them in advance for that purpose.

The alert of the preceding night took place under the precise circumstances I had the honour to explain in my last letter. The enemy thought M. de Bourlamaque had arrived here, and that he was marching in force against their posts. I am assured that only the ordinary guards remained in the town.

Yesterday, again, a few barrels of salt arrived here.

April 7.

The works ordered are now making good progress; I hope that everything will be ready to embark on the arrival of the army; but as I have already had the honour to observe, we shall not have any joists before the small rivers are free.

M. de Monbeillard has communicated to me a statement of the horses required for the field artillery, and he puts the number at 91; I have taken the strictest measures to comply with this requirement but if these parishes have to meet the demand they will be ruined. However everything will be ready in case of need. But as to the subsistence of these horses that cannot be procured here. In brief, Sir, I hope that the advance of the army will not be delayed by anything depending on my foresight, because I am busy day and night trying to facilitate its progress.

M. le Chevalier de Levi does me the honour to signify to me that you have determined that the flour shall be embarked. As soon as the ice is gone I will at once send the two pickets guarding the flour to Pointe aux Trembles.

The English have still 500 men at Lorette. This keeps our posts in a state of apprehension, hence arise false alarms. M. de Repentigny had another one yesterday morning. The health of that officer is much improved.

I do not know how M. Hertel will manage; the departure of his Indians makes me anxious; the very utmost I could do was to send him four. It is to be hoped that M. de Longueuil will be able to do better than that. The St. François Indians as they passed here were in an ugly temper; taking offence at a moderate reproach I addressed to them for having left M. Hertel they went out in an abrupt manner, and I learn that they killed some pigs on their way home; they are quite capable of doing worse. Those from Becancour behaved better, but they are all gone back to their village. I have no news from Quebec, but to-morrow I will send a man who has my confidence, and who always brings me correct information.

M. de Monbeillard will no doubt enter into the detail of the work he has done for M. le Chevalier de Levi; he has found no obstacle in connection with any matter in which help was to be expected from me. He is going to have a pontoon constructed on two boats for the crossing of the Jacques-Cartier River, although all the inhabitants of the locality on being consulted, declare that it will not answer the purpose.

I do not know, Sir, if you will take part in the campaign, but I cannot express the desire I have to see you, to pay my respects daily, and to repeat to you a thousand times the wish I have long entertained.

I am not writing to M. de Rigaud. I entreat you to remember me to him and also to Madame la Marquise.

April 12.

Sir,—An act of burglary and theft was committed last night in the Germain store, by two soldiers of the Languedoc regiment, one of whom, being on sentry, favoured the operations of the other. A patrol coming up, the robber took to flight. A barrel of flour was found in a sleigh on the ice and a barrel of peas broken open in the store; nothing therefore was lost. When the provisions are put on board the schooner this trouble will cease, but we shall have to look out for the barges. I arrested the entire guard in order to discover the guilty parties. One of them is under arrest; search is being made for the other. I will await your orders in regard to this. Hereafter one officer will go on duty with the guard at this depot.

The river is free opposite Quebec from Anse des Mères on the North to Chaudière Falls on the south. If the mild weather had continued there would be no ice left; but the four days we have had of severe cold have consolidated it, and no matter what the weather may be there will be ice for eight or ten days yet; if the cold keeps on it may even last longer.

M. de Repentigny has entirely recovered. I should not have thought of M. de Montesson to take his place if M. Le Borgne had been senior to the captains of the land forces at Pointe aux Trembles. He is a reliable officer in every respect and I fully recognize him as such.

I do not see that M. Hertel can expect a new supply of Indians. M. de Longueuil, whom I asked to send at least a dozen, writes me that Launière? is with their band, but

that they are all dispersed in the woods making sugar. I understand, Sir, all the importance of M. Hertel's mission, but how can we help him? Shall I send him soldiers without shoes? His own detachment is short of them, and besides we shall experience the same inconveniences again as we did last winter.

I have the honour to enclose to you, Sir, one of his letters together with a manifesto from M. Murai. I will put M. Hertel in a position to refit his boats, provided that he finds oakum. I have sent him some rosin. I assume that he will find some calkers near there; if not I will send him some as soon as our boats are in order.

I do not see any greater probability of the enemy's attacking us at present than during the winter. Their operations would be more hazardous on account of the disembarking; and if it were done at Point Levi they would have more trouble in following our detachment by land, because of the bad roads, than they would have had this winter on snowshoes. Furthermore, if all that is said be true, M. Murrai has very few men left; I believe he finds it very hard to keep up a good show. All the news received for the last three weeks tells the same story of sickness and mortality. No body denies that, no one says the picture is overdrawn; and if we allowed ourselves to trust common rumour we should conclude that there are not at present in Quebec 2,000 men under arms. I think it is politic to appear to credit this information, and, I do so accordingly to the best of my ability; but in sending it on to you, Sir, I feel it my duty to say that we should be on our guard against the exaggerated reports of a people who are blinded by their misfortunes and their desires. I have the honour to submit to you an exact account of the reports made to me. It is for you, Sir, to make such abatement as your prudence may suggest. I expect the arrival in a few days of M. Gautier who is a man of good sense; from him I may perhaps receive some light, having sent word to him to try to bring me some news of interest. I gave notice to M. Hertel of the approaching arrival of the army, and I added that I had no doubt that the inhabitants would help him if he should be attacked, since they are on the eve of being delivered from all their fears.

The English make frequent movements at Lorette and Ste. Foi; most of them are occasioned by false alarms which they receive, and which in turn they communicate to our advanced posts.

I sent off this morning a prisoner or deserter from whom I have not been able to obtain any positive information, but generally sickness and mortality.

It is reported that the enemy are transporting their fascines to the Côte d'Abraham. Their movements indicate much disquiet, and if they continue we might well meet them in whole or in part at their advanced posts. It is even said that they venture to boast of it, and it would be giving us a great advantage. M. Murrai, I think, is too good a military man to do that.

It was said to me, in fact, that arms had been returned to the inhabitants of Château-Richer and Ange-Gardien, but that a few days later they had been reclaimed. I do not believe a word of all that.

The manifesto which I have the honour to enclose to you was published at Charlesbourg by M. Cugnet. The inhabitants showed so little interest in it that M. Cugnet had the reading of it all to himself. Then he ran after them and spoke in exaggerated terms of the mildness of the British government, the goodness and the power of the King of England; but he was told that they had no need of all that; that all they asked was to be allowed to live in peace and await the decision of events.

The people are working as hard as they can, at making gabions and fascines. It is quite possible something may be behind hand on the arrival of the army, but the utmost will have been done. Any shortage will more likely be in fascines than in any thing else, because they are being made at Point aux Trembles where the inhabitants are called off their work.

We had been assured that the saw-mills would be going a week before the opening of navigation, nevertheless everything is at a stand still. I am asking to-day for sawyers from the troops to do the work.

M. Landrieve submits to the Intendant a statement of our consumption; I see that we shall eat the cattle of the neighbourhood before the arrival of the army; when I say the neighbourhood I mean between here and Three Rivers.

I am anxious to know, Sir, what you have decided on relative to horses for the artillery; if they must be raised in this part of the country I do not know how the sowing will be done.

There is no possibility of keeping a single Acadian; they not only desert but, what is worse, carry off the rifles belonging to the service.

April, 14.

SIR,—The news concerning the prisoners captured by M. de Langy being sent to M. Martin, he communicated it to his associate in the hope that that indication of peace would determine M. Murai to allow more freedom in leaving the city. I did not think there could be any harm in that. According to the reply received by M. Martin it would appear that M. Murrai is without news from Europe; he begs M. Martin to ascertain the names of these officers, to furnish them with money, and to learn from them whether some promotions have not been granted to the officers of the garrison at Quebec. He is persuaded that if a Congress has been assembled we shall have peace. Consequently the facilities of getting out are renewed.

Since my last letter the news is that sickness is diminishing in Quebec. The enemy continues to make sorties in force upon the least alarm. The depot of their fascines is inside and outside St. Louis Gate. The weather keeps cold; people are still crossing the river on ice everywhere without danger.

April 14.

SIR,—I have received the letter you did me the honour to write on the 10. If we can manage to leave the horses with the inhabitants some more sowing will be done.

You will have seen, Sir, by the letter I had the honour to write to you on the 12th, that I was unable to reinforce M. Hertel, for want of shoes. The need in that respect is so pressing that it is hardly possible to patrol around the advanced posts. It is to be hoped that he will not be attacked. In our present situation we are compelled to trust a little to good luck.

The horned cattle that we levy in the parishes, in accordance with the note I had the honour to write you, are so lean that they furnish next to nothing. What we obtain in that way does not suffice for our daily consumption, and we have eaten the 22 oxen which were marked, so that on the arrival of the army, supplies of this nature will be exhausted as far as Ste. Anne, and there will be nothing left but the animals of the upper parishes whence we have not been able to bring them on account of the giving away of the ice which happened while the operation was in progress. We must adopt the plan of leaving only one cow per house from Ste. Anne to here. This will give about 130 cows, which will make up perhaps for the 80 oxen that you want and I will immediately issue orders for the necessary levy.

You have given your orders, Sir, throughout the whole government of Montreal and that of Three Rivers for the marching of the militia.

In what manner do you mean to have it carried out in this government? The best plan, I think, would be to enlist none but good men, so as to avoid having useless mouths, and at the same time leave in the parishes some one to do the sowing. I beg you will direct me on this point and indicate approximately the date for mustering.

Ah! how I long to be on the road to Quebec. I am anxious about the passage of the army at this point; the least thing may delay it here and the worry this causes me is inexpressible; but still I flatter myself that, in such a case, you and M. le Chevalier de Levis will do me the justice to believe that I have done my best.

April 18.

SIR,—I had the honour to intimate to you on the 14th that I was giving orders to levy 130 cows to take the place of the 80 oxen that you wished to be reserved at the Pointe aux Trembles for the subsistence of the army. At the same time we were raising for this garrison the cattle noted in the census made on the north side by M. de Rigoville. The loss of a number of the animals during the winter and the excessive leanness of the remainder,—one third of the beasts at least were too weak to stand—have reduced the produce of this levy to almost nothing, and we are on the point of beginning to eat the 130 cows destined for the army, which will not last beyond the end

of this month, because a third, as before, will have to be deducted, while the excessive leanness of the remainder produces only a very small amount of meat.

I am sending M. de Fournoire, Sir, expressly to represent this matter to you because I believe that it is absolutely necessary to embark oxen at Montreal in the storeships to follow the army, otherwise it runs the risk of not finding one ounce of meat upon arriving here. M. Landrieve reports upon this matter to the Intendant.

Not less necessary is it, Sir, to bring down the number of horses required for the artillery, with hay and oats to feed them, as well as for the cavalry, because every thing is exhausted in these parts.

I have no news from Quebec, but I have sent a man there and I expect him back to-morrow evening.

M. de Repentigny has had an attack of indigestion and his fever returned yesterday. He hopes, however, that it will not amount to anything. I would have gone today to Pointe aux Trembles but for the incessant and imperative demands upon my time caused by the preparations necessary in order that the army may not be detained on arriving here.

The patrols of the enemy gave an alert yesterday again to our advanced posts; the latter are wide awake and do not mean to be taken by surprise.

It would not be suitable for me, Sir, to ask you to dismiss a militia captain belonging to M. de Longueuil's government, but I am laying my complaints before that officer, in order that he may make the application to you himself. Seven militiamen of River Batiscan deserted from Pointe aux Trembles, led by Sieur Jean Trépanier, aide-major. On the complaint of M. de Repentigny I sent a sergeant and a few soldiers to look them up in their parish. The captain allowed them to hide themselves, and deceived me by stating that they had not been seen; I know positively that this was false and at a critical time like the present, I consider it important to arrest the stream of desertion amongst the militiamen. Consequently, I have begged M. de Longueuil, to request of you, Sir, the dismissal of Sieur Villeneuv, captain, and Jean Trépanier, aide-major.

The ice begins to break away. Perhaps it may move during the night, but embarkation will not be practicable for a week yet on account of the shore ice.

M. le Général, 29 May 1760.

Sir,—The schooner commanded by the Sieur Minviel has taken three prizes off the Pèlerins. I have the honour of forwarding you packages of letters that have reached me by a courier sent from Cape Mourasca and by Sieur Durand Dumer who found me at Pointe aux Trembles. I have seen with pain in one of these letters written in French that peace is not near. It would be very acceptable to this colony.

I do not see, Sir, that it would be possible to defend with fewer men the district between Pointe aux Trembles and this place. However when you have conferred with M. le Chevalier de Levis, you will be better informed. What can I tell you that he has thought of?

I must nevertheless inform you that notwithstanding the strict search I have had made for boats available on both sides of the St. Lawrence, I know not how to procure the number necessary for the passage of the rivers behind us, for that of river Jacques-Cartier, for the depot to be made at river Ste. Anne; and consequently they will not be sufficient for making a bridge at Jacques-Cartier. If the enemy should reach the river and our detachment be forced back, what would become of it? But we are today more than ever obliged to trust to luck.

You are now aware, Sir, that M. Volf was only placed at Pointe aux Trembles, while awaiting M. de la Roche Beaucout. The latter is established there and I think the business is in good hands.

In making my recent round of inspection I cut off, conformably to the orders of M. de Levis, all useless consumers. The commanding officers here will carry out the instructions and I will myself see to everything here and elsewhere.

There is no news of any other vessel down the river. The English are having oars made on the Isle of Orleans. They continue to shut themselves up in the town. It is said however, that the English commandant will allow the women to enter the town. I will do my best to discover news of what is going on there, notwithstanding all difficulties. I believe that M. Martin would be very useful at this place in more than one way.

I cannot express to you, Sir, with what satisfaction I have seen the renewal of your confidence. The assurances you do me the honour to give me, are all that I could wish. I wish everything had been perfectly satisfactory to you, but in war everything depends on circumstances and the public always judges after the event. I shall be too happy, whether I lose or win, if you are persuaded of my good intentions and of my desire to do well, and also of the desire I shall ever cherish to merit the continuation of your goodness.

P. S.—I have given to Sieur Seville, who left before the courier, the letters from Sieur Durand du Nièvre to the Commissary General.

31st May.

I have the honour of addressing you a note from M. Duparquet to M. de la Roche Beaucourt by which you will learn all that we know ourselves.

M. de la Roche informs me, and I hear it from other quarters, that the English pillage and greatly ill-treat the inhabitants of the environs of Quebec, and it is greatly feared that the neighbouring parishes will soon be burned.

News reaches me from several quarters that the convalescents and the guard of the General Hospital have entered Quebec, and we are assured that there are seven vessels at Ile aux Coudres, four of which, are large. We are as yet unable to do anything for lack of boats to maintain communications but we will fight. I do not think that until the arrival of reinforcements the enemy will dare to pass me and make a fight at Three Rivers. Should he do so, however, I should be forced to recall my advanced posts and send them to protect the parishes of this extensive government. Then I would rest my left on the Ste. Anne river, extending along the shore up the river, as I do here. Were I forced to fall back, would you, Sir, approve of this disposition? I am doing all I can to collect and calk the boats; but it is slow work.

It is said that the sick at the General Hospital, as well as the guard, have been made prisoners of war, that Captain St. Charles was hung, and that M. Tropes Martin is much embarrassed. His servant has this moment arrived, and leaves with the courier.

We have here too large a store of provisions in the present state of affairs. I have decided to leave with Germain supplies for only 13 days each for Jacques Cartier and Pointe aux Trembles, and as much for this place.

The remainder will be put on board a schooner which will anchor above the Richelieu. I think this is the wisest course.

It is stated that the prizes taken by M. Mainviel are the cause of the embarrassment in which M. Tropes Martin finds himself.

2nd June, 1760.

M. le Général,

Sir,—I am sending to M. le Chevalier de Lévis letters addressed to him by M. de Malartic. You will see what they contain. I will only add that M. de Murrai has determined to move forward immediately without awaiting the arrival of reinforcements. He cannot be ignorant, despite all our precautions, that M. de Lévis has left and that the troops are dispersed. By a letter written to M. de La Naudière it seems that his project is to proceed direct to Three Rivers. Do me the honour to give me your orders, I beg of you, in case he takes this course.

You will have seen by the letter I had the honour to write yesterday to M. le Chevalier de Lévis the measures I am taking to avoid being obliged to abandon much of the provisions in the event of the manoeuvres of the enemy forcing me to retreat. They will be carried into effect but it requires a little time and favourable weather. I am very anxious, Sir, that this arrangement should meet your approval.

The manoeuvres of the enemy by the river are the only ones that cause me any uneasiness; for, as for landing in front of us, I do not believe he will dare attempt it, and if he should, he might perhaps regret it. We would defend the position with obstinacy.

The merchants of whom you have done me the honour to speak in your letter of.....arrived yesterday. I did not judge it advisable under present circumstances to allow them to proceed further.

M. de Murrai has adopted a tone of violence which impresses and frightens every one. He has only to arrest these people under some pretext, and from that moment, to prove they are not your spies, they will become his. Thus he will gain a knowledge of everything in the colony and the distance between our different corps. He is sufficiently clever to take advantage of everything.

I will await fresh orders from you before allowing the merchants to proceed further.

Continue I pray, Sir, to be persuaded of my good will, of my desire to act for the best, of my eagerness to merit your approbation, and of my inviolable attachment to you.

I am &c.,

P.S.—I have only enough sailors to man the first galley, and I despair of finding enough for the other. I am asking for guns from Three Rivers for the crews. I count on the first galley sailing immediately.

I am writing to M. de Longueuil, as to what transpires from the General Hospital so that he may hold himself in readiness, and establish signals so that all his government may take to their arms at the first alarm.

3rd June, 1760.

SIR,—I reply to the letter that you did me the honour to write me on the 1st inst. I was at Pointe aux Trembles when I learned the news of the prizes taken by Sieur Mainvielle by the agency of Sieur Dunièvre. During that time a courier coming by the South shore had crossed to Jacques Cartier where I found the news known, the following day on my arrival.

I am aware of the importance of *this news* under the circumstances, but such news travels fifty leagues before it reaches me. There should be reliable persons everywhere, but this is not possible. However, all practicable measures must be taken. All our boats are in such a bad state, that eight calkers working industriously can only repair one a day. I am chiefly engaged with the question of the passage of the rivers, but I am afraid the object will be ill accomplished.

The day after to-morrow I count on going to Ste. Anne, to see if a floating bridge can be made. There and at Batiscan, the timbers are on the spot. I believe this will soon be done.

I shall employ a man named Houle from Lotbinière, who is the man to do the work when I have given him the idea of what is required.

The only useless mouths we now have are the wives of the soldiers who have neither hearth nor home. Can they be sent away without provisions for their subsistence elsewhere?

The severity of M. de Murray intimidates every body; but we always have some one on the look out for news.

I have here, Sir, only the number of sailors required for the first galley.

I could send you, nevertheless, eight or nine men, but should not then have one left for the second galley. Being uncertain as to what would be most agreeable to you, am I to let them go?

I believe that M. Lenoir's boat passed this morning, before the arrival of the courier, carrying a flag. My sentinels having received no reply to their signals, fired on it. I will send M. de Malartic the vehicles he may ask.

I immediately despatched the Sieur Deslandes with all you did me the honour to prescribe. These men have left but I believe they are making a useless journey.

M. de Murray has been apprised of our prizes by the crew which have arrived at Quebec on the boat which Sieur Niaudière allowed them to have, and immediately set out to recapture them.

I even learned that his expedition had recaptured the first prize and that it was going further down to attempt to retake the others, and it was reported to me that he had sent a large detachment by land.

One labours with much confidence, Sir, when one enjoys that of his general. Never have I been so much at my ease, for I see you are disposed not to hold me responsible for events beyond my control, and that as long as I do my best, I shall be held blameless.

Rest assured I pray you, I neglect nothing, but the means are altogether wanting.

I am &c.

If M. Cadet does not take immediate measures to send us meat, we shall certainly be short in our supplies, for he has made a mistake in his estimates. If my orders are executed, I shall render an exact account.

We have no other news than what you will receive from the officers who have left the General Hospital.

Two inhabitants of the neighbourhood of Quebec have been arrested by M. de la Roche Beaucourt as spies of the enemy.

Four English prisoners, deserters from Montreal, have crossed to the south shore; two have been arrested at St. Jean Dechaillon. The inhabitants are in pursuit of the others. I will send them by the first opportunity. I wrote to M. de Longueuil to inform him of the need you are in of sailors. He has none, for he is not able to supply me with those I require, but he may be able perhaps to send you some Acadians.

DESCHAMBEAU, June 5, 1760.

SIR,—I am sending in strict custody, from post to post, two English prisoners, deserters from Montreal, who have been arrested on the south shore, and following them, three inhabitants, two of whom, from the neighbourhood of Quebec, have been arrested as spies. They are named Joseph Bergue and François Liberge. M. de la Roche Beaucourt will have the honour of reporting to you on the matter.

The third is one named Joseph Chorette, resident of Ste. Foy, who threatened his captain with making a complaint against him to M. Murray, of having prevented his carrying thirty bushels of wheat to Charlesbourg, an order that the captain had received from me. He added to this threat a great deal of abuse. The fact has been certified by an officer who was at the time on the south shore. I am sending him to Montreal as a suspect. Should not such conduct be repressed?

With regard to inhabitants who shall refuse to take arms when the enemy appears, I believe they must be most rigorously treated, and I shall act accordingly.

I am &c.

June 7, 1760.

SIR,—I have received the letters you did me the honour to write to me, on the 2nd and 3rd instant. M. de Malartic will have given you an account of all we are able to learn from Quebec. Last night, M. de la Roche Beaucourt received information that, in the morning, 14 sail had arrived, and had anchored at the upper end of the Isle of Orleans. The information is, as yet, neither confirmed nor disproved.

By the instructions left me by M. le Chevalier de Lévis, I am directed to recall my advanced posts and make my retreat, when the enemy appears in force on the river, but that can only be when he receives reinforcements, for until then he has only a thousand or twelve hundred men to land and I have enough to face him everywhere. Therefore, Sir, if he undertook to leave me behind him and march to Three Rivers, I would immediately retake Pointe aux Trembles and leaving the garrison of Jacques Cartier as it is, I would post here three pickets and with the rest of my men, march to the assistance of Three Rivers, with the utmost diligence. This it seems to me, Sir, is the best

military disposition. I wish very much that you will approve of this, and that it will have the success I anticipate.

My present position would become useless if the enemy proceeded to ravage the center of the colony above me; and if, to march to the succour of that part of the country, I were to call in my two principal supports, I should be deprived of all means and all resources for returning to my present position where it is important to maintain myself as long as the enemy is not in greater force.

The night of the 5th, to the 6th, the King's money chest, containing a considerable sum, was stolen. M. Landriève, who occupies a room in my house, had left for Pointe aux Trembles. The chest was in this room, the window of which, was unfastened by somebody, and the chest carried off. I did not perceive the loss until about eight o'clock, the coffer was discovered forty or fifty paces from the house by a grenadier who came to notify me of it. I confess, Sir, that all my suspicions fell upon this company of grenadiers, whose camp is flanking my house with two lines of tents of which one faces the front and the other the rear in such a manner that I cannot understand how such a thing could take place without the camp knowing it; the sentinel placed at the head of the camp must necessarily see all that happens over the whole space at the rear of my house. In consequence, I caused one man from each tent to be arrested and have made all possible investigations, but without success. If a sort of political discourse I have caused to be circulated produces no effect, the only remaining resource would be to see what light could be thrown on the matter by an investigation made on the spot by an officer of justice. I am deeply grieved by the occurrence. The sentinel at my door could not see what was being done at the back of my house. A company of grenadiers covering it should, it seems to me, have rendered it secure.

M. de Lendriève reports on this affair to M. l'intendant.

I am &c.

P.S. M. de Lévis will tell you that I am having bridges built on all the rivers. I have not enough paper to furnish a more detailed statement.

June 9th, 1760.

SIR,—I have received two letters which you did me the honour to write to me on the 4th and on the 7th.

I do myself the honour of thinking as you do on the present state of affairs. The arrangements that I had the honour of submitting to you under date of the 7th, will no doubt, appear to you as relative to the existing situation. I like to anticipate events and to have a definite plan for those I have foreseen. The most embarrassing situation is when things turn in an unexpected manner and it is necessary to take a sudden decision.

It will I think be very difficult not to say impossible to bring the militia of the district of Quebec and of Three Rivers as far as Montreal. How can these people be induced to abandon their families at the moment the enemy is rendering himself master of their homes? I venture to say, Sir, that it would be useless for me to transmit your orders to this effect, the more so, perhaps, that pressed by the approach of the enemy, I should without doubt have no time to compel obedience by ordinary methods, and he who should desert when I went beyond his parish would find himself safe from any search I could make. Thus I believe, Sir, we must not count on the inhabitants of all the country we leave behind us. They will be like all those who have already submitted to the enemy, and I know no means by which this can be changed. In the mean time, Sir, you may rely upon it that I will forget nothing to secure success.

I believe that the flute *La Marie* had better remain at Three Rivers. If I cannot obtain a complete crew for the two feluccas I will ask the master for some sailors. I will endeavour to procure some five-pounders for the flute. We are in want only of cannon balls. Great difficulties are found in the way of providing the floating bridges for lack of means. The continued north-east winds have up to the present prevented me from proceeding to the spot, but I expect to leave to-morrow morning and will push on to Three Rivers. There is some foundation it appears to me for the fears entertained by M. de Longueuil in regard to Three Rivers. There is no one in that

miserable place. It will take more then twenty-four hours to gather the militia, no matter what previous arrangements he may make. Not one officer, not the least defensive work, the finest landing place in the world, four rivers, of which three are very considerable, separating M. de Longueuil from myself, and a distance of six leagues ; in addition to all that, the wind and tide favouring the enemy, for he will know how to take advantage of both, or a night march that will conceal his movements. I will reassure M. de Longueuil as best I can, and will not speak to him as I am now doing to you, but I cannot prevent myself from seeing that his situation is very critical, for if the enemy acts quickly, I defy him to oppose a shadow of resistance,

The two militia suspects of whom I have the honour to write to you are not the men who were with M. Vauclain. They were, on the contrary, shut up in the town during the siege with a number of others from Ste. Fois whom M. de Murrai held with their accoutrements. They did not leave here until after the 5th. The same day I sent the two English prisoners arrested at St. Jean, and I have learnt that the two others have reached Quebec.

A letter has reached me, sent by Sieur Le Gris, addressed to M. Cadet. I opened it to ascertain what was taking place below. I know by advices from different quarters that fourteen sail arrived at Quebec on the 6th, but these advices do not agree as to the total number that are at present in the roads.

Some say twenty two to twenty five, and others thirty three. If the first surmise be correct, some of them must have been going to and fro and been counted more than once. It is known that several have come down and they have perhaps gone up again. But generally the reports agree that they carry no troops. One soldier only, of the Berri regiment, who has left the hospital, has told me the contrary.

The courier from Sieur LeGris confirms the report that the enemy had retaken possession of the prize that Sieur Mainviel had left in the rivière du Sud and thence they went to Rivière du Loup, where our people had already burnt one of the other two prizes, that they had taken there, and he added that the third would without doubt meet the same fate.

I have the honour to send you a statement of the mouths at each post, to which I have joined one respecting our position with regard to meat.

THREE RIVERS, June 11th, 1760.

Sir,—I have been to Ste. Anne, Batiscan and Champlain. Impossible to place bridges on the two first-named rivers for the want of cables of sufficient size not to mention other inconveniences that cannot be overcome for want of means. A bridge is being constructed on the Champlain river, which, notwithstanding its small size, will give enough trouble by reason of the difficulties it presents. In a few days I shall have six boats at St. Anne, seven at Batiscan and nine in the channels where they are constantly ready with men to convey my people across by night or day.

I have come as far as this place to confer with M. de Longueuil, see his dispositions and agree on further action. I have found an epaulment traced in front of the Lower Town and some other works that appeared to me very useful. M. de Longueuil has taken measures for carrying on these works promptly without consumption of his provisions. I am going to cause the cannon of La Talente to be passed to him, but he has no gun-carriages,and it is not possible to make any here for lack of the proper kind of wood and of coal to prepare the iron work. It is necessary to procure these from Montreal. I will also have the mortar which is at Deschambault, placed here, as I believe it will be more useful here than at that place. If the enemy allows us to do this, Sir, I believe that Three Rivers will be safe until such time as the enemy begins serious operations, because, as he is today, the enemy will not attack us rashly, or rather he will only land where he sees no appearance of opposition. In any case he will have certain preparations to make and this will give the militia time to arrive.

But if, owing to circumstances and events which cannot now be foreseen, the enemy should become master of the place before my arrival, and establish himself there, what course shall I adopt? I know it does not seem likely, but in war, possibilities must be taken into consideration.

Three gunners and one bombardier must be sent from Montreal. If the supplies of provisions at all permitted, it would be very useful to assemble and camp the Languedoc reigment here, leaving at Ste. Anne the company of grenadiers only.

I beg you, Sir, to regard the observations which I have the honour to address to you as the effect of my zeal and my good intentions. I know how to subject my opinion to that of my superiors ; only, I like, and perhaps a little too much, to discuss the details.

June 15th.

Sir,—I have received the letters to which you did me the honour to write to me on the 11th and on the 12th. If the information which I receive is true, the English have only 24 vessels in the roads, and from time to time, they send, during the night, some of them down the river ; these afterwards come up again.

Circumstances are even reported to me that tend to prove that it is their interest to impose upon us and they are acting accordingly. But the people who can be employed in scouting have not sufficient intelligence to justify absolute reliance on their reports.

I would already have sent two officers to the south shore, for I knew how necessary it was, but I have not enough officers, and those whom I might detail are not suited for this kind of work. There are only M. Bayeuil and M. Hertel, who are both at fort Jacques Cartier. The first named is very ill and to take them away from the garrison of M. de Repentigny would involve me in a quarrel with the latter, who does not like to have his command diminished. Besides, Sir, things are in such a state to-day, that the militia can be used only in so far as one has a body of troops sufficient to give an air of authority. There should be at least fifteen soldiers for each of the officers, without which, I assure you, our labour is lost. If you would detail M. Rousseau de Villejoint with 30 men, and send me an order for M. Hertel, for I would not like to quarrel with M. de Repentigny, I will dispose of these two officers in such a manner that they will be most useful on the south shore between this and Montreal.

M. Imbert only left this place on receipt of a letter from the Intendant to M. Landriève and one that M. LaRochelle had written to me on the subject. Messieurs Pertuis and Bernard arrived to-day. I will give every facility at my disposal to enable them to procure the information desired.

I have sent to Montreal all the soldiers of the first battalion who deserted from the Quebec prisons. Those of the second are gone to Three Rivers, because they were all naked and I believe that for the same reason, M. de Longueuil will have them sent to Montreal.

I greatly fear, Sir, that the feluccas will not be of much service. They are not very fast and they make a good deal of leeway ; but we will make the best of them. Anyway, they can dispute the passage of nothing but barges, without exposing themselves ; but being chased, they could use their stern-chasers. I have already given instructions to M. de Grandrivière to that effect, a copy of which I shall have the honour of sending to you but I have no copy now.

If the English know anything whatever about our movements, when they ascend the St. Lawrence, they will know that I have boats to cross the rivers ; it will not, indeed, be difficult for them to guess it ; so it will be their object to take possession of the boats before I can reach them. That again will be easy to do. In the mean time, I have given an order to the two companies at Ste. Anne and to the two at Batiscan to post themselves on guard at their boats at the first alarm ; to that of Champlain, to guard their bridge ; and to that at the Cape, at the boats that are in the channels ; but it is to be feared the enemy will come with boats well armed and that they will soon succeed in putting to flight such weak guards.

M. Cadet has sent me a letter for Sieur Grandin. I sent it on at once. There was none for M. LeGris.

The armourer's tools have not yet arrived, nor the remedies for the hospital. You cannot realise, Sir, how painfully we are in need of them. Half the pickets want to repair their arms, and M. Drouillon, who arrived yesterday, has brought a detachment, a good half of which requires to be armed. Moreover, Sir, this detachment is not worth much. Three fourths of these militiamen are mere children and in the whole

number, there is not a single militia officer. M. de la Roche Beaucourt, who received them to-day, will I believe be greatly dissatisfied with them. The detachment is 175 strong. If you wish to put Pointe aux Trembles in some state of defence, another 160 men, troops or militia, will be required. In the mean time I am persuaded that M. de la Roche Beaucourt will send back no more militiamen than he receives.

It is impossible to send him reinforcements from this place. This position is already too weak with regard to its extent. The officers who begin to understand the situation have already made representations to me in this respect. In fact, if the enemy attacked us, one picket would be defeated before it could receive the least aid from the other, but one must hope for the best. Never should we act with more confidence than when everything is desperate.

I could wish, Sir, that you had received the best news in the world. That would be peace, or some powerful help. I hope for neither, but I none the less try to sustain the confidence of the people. It is always something to have received direct news.

M. de Murrai is clearing away the rubbish from the town. Work is being done on the preparation of thirty large rowboats containing ninety to one hundred men ; and the work of unloading the ships has commenced.

I have the honour to send you the roll of militiamen who have deserted. I greatly fear that their remaining unpunished may lead the rest to desert also.

June 18th, 1760.

SIR,—I have received the letter which you did me the honour to write to me on the 16th.

Messieurs Aubert and LaBruère have not arrived.

The English have received intelligence of our vessels and according to my advices they have already despatched one of their largest ships down the river.

During the past few days, their engineers have surveyed the shore at Beauport, from the Petite Rivière to the falls of Montmorenci. It is alleged that they are constructing a redoubt at the Falls.

The 15th M. de la Roche Beaucourt was informed that a detachment of one hundred men was advancing to reconnoitre his outlying pickets. He reinforced them immediately, and with his troops took to horse. This detachment of the enemy was found, in fact, to be only 32 strong, and had already retreated whilst M. de la Roche was moving towards them. He followed the enemy until close to the town and made three prisoners, two of whom had stopped at the house of M. Lafontaine. The other was taken by the troopers at the entrance of the faubourg St. Roch. I sent them immediately, under escort, from post to post, and a few days before two deserters, one of them, a self confessed deserter, taken a few days before.

Before receiving this letter, Sir, you will have seen Sieur Dusant, pilot, escaped from the Quebec roads, who arrived here yesterday evening and left this morning for Montreal. It would be superfluous to repeat to you all that he told me. His report should be more reliable than the advices I receive from different quarters, because he has seen things with the eyes of a man of the calling.

Only ten oxen out of the fifty you advised, have reached me.

The English sent on board ship, the curé of Charlesbourg, and some Jesuits who who were in this parish, have received the same treatment. The curé of Lorette has taken refuge here.

June 20th, 1760.

SIR,—On the 17th, M. de Murrai sent a detachment of 300 men to the church of Ste. Foi, where it is said, he entrenches himself.

On the 18th, a frigate, accompanied by about 15 barges, ascended to Cap Rouge, where she anchored. She might well have had some other object than merely covering this detachment, which without that, might be taken in the rear; and these 300 men are perhaps only there to cover the sallies of M. de Murrai respecting which I had formed a project that I find much deranged by these precautions.

I have nobody to send to the south shore, although it is very necessary to have some one there.

M. de Meloises and M. de Mézières are altogether unfit. I would be glad if the first named were removed.

We have in other respects nothing new. If the barges of Cap Rouge should take to landing men, M. de la Roche-Beaucourt might perhaps successfully ambush them. I intend to go and see him to-morrow morning.

I am very anxious, Sir, to know something more definite as to the intentions of the Court. It is always something that it is satisfied with us. Since it does not care to give money, it is to be hoped that it will give something else. It is for you, Sir, to influence its favours. Your goodness encourages me to hope that I shall not be forgotten.

I am, &c.

June 21st, 1760.

SIR,—I send the courier, though I have nothing interesting to communicate, as it is necessary that the courier should return to you.

The frigate which had ascended to Cap Rouge has gone back. I have just made arrangements to send M. Simblin and M. Hertel to the south shore. One will be stationed below Ste. Croix and the other above Lotbinière. I will give them their instructions in conformity with the orders I have received from you, Sir.

To supply these thirty men I have not thought it advisable to draw on all the pickets but only on those belonging to the colony. The regular soldiers do not like to be detached for service under officers of the marine, and in detachments of this kind, it is necessary that the private soldier should be satisfied. I at first drew from the pickets of the colony all in excess of 60 men, which gave me 16, then I took three men from the pickets in turn and two from that of the first battalion ; that gave me 14 more, completing the required 30 men. This means that the three pickets at Jacques Cartier and the two of the colony at Deschambault will each be 57 strong.

I know very well that M. Repentigni will protest, for this will reduce his garrison to two officers and 18 men, but he will still have 8 officers and 171 men besides a number of workmen, and I believe that this is sufficient. I should like an officer not to think of himself only. The duties of one are always closely related to those of the others, and it is important to attain all our objects. When one side of the edifice gives way, the whole mass collapses.

Some barrels of pork have been found at Jacques Cartier which it was feared would not keep long ; we have therefore had it distributed at the rate of two ounces for each ration as the equivalent of four ounces of beef. The soldiers of the cclony were satisfied but those of the regiment de la Reine, and of the Royal Roussillon, who draw their rations from this fort, have refused it, claiming the right to a quarter of a pound of pork, the same as they have to a quarter of a pound of beef. I beg of you, Sir, to let know whether, in the face of the extreme scarcity to which we are reduced, the proportion of rations should be maintained when there is a change in kind, or, if we must give a quarter of a pound of pork where we before gave a quarter of a pound of beef.

I flatter myself, Sir, that if you write to the Court, you will kindly remember me, but I hardly dare tell you what I should desire.

June 24th, 1760.

M. LE GÉNÉRAL,—I have the honour to forward to you a letter from Petite Rivière, Baye St. Paul, written to M. Cadet, that brings us some good news, that seems to be confirmed by a report that M. Murrai mentioned it at the General Hospital. I have also been told that three days ago two vessels arrived, dismasted and otherwise very badly damaged.

Yesterday a frigate ascended above Pointe aux Trembles with very few barges around her. I have just been told she is now under sail with a good north-east wind. Unless she is better accompanied it can not signify much.

Messieurs Simblin and Hertel have gone over to the south shore. The report has just reached me that the English have retired from Ste. Foy, but that the same number of tents which were there are now seen at St. Nicolas. What is certain is that they have ordered the inhabitants of that parish to cut wood for them at the Falls of the Chaudière, but, that they are encamped on this side of the river, requires confirmation.

26th. June, 1760.

SIR.—I am very sorry that I cannot confirm the news respecting the alleged squadron. I cannot understand why M. Le Gris gives us no sign of life for I begged him to write me frequently, whether he had news or not.

The frigate that ascended the river to this point after taking soundings and making observations returned yesterday to Pointe aux Trembles, where she still is.

The English are entrenching themselves at Ancien Lorette at Noel Alin on the heights opposite the Suede road. They are also entrenching at St. Foi.

On Sunday last, three Americans and two Englishmen arrived at St. Nicholas coming up the River. There they met a detachment of 80 men from the frigate who at once went on board with them.

It is rumoured that there are six vessels at Quebec armed for going up the river, and 30 boats several of which carry cannon. No one affirms however that the enemy has received any reinforcement of troops.

I believe that we have sufficient provisions to last until the 20th. of next month. By the next courier I will have the honour of forwarding you a statement.

Today I sent away Jain Chagrin, sergeant of the Company de Lanaudière, accused or rather convicted of having plundered the baggage of the Regiment de la Saare on the south shore where he had been detached for service under the orders of M. de Bayeuil, and have had him escorted by grenadiers to M. Deisquebelle, who will have him taken to Three Rivers to be transferred thence to Montreal.

M. de Muns forwards to M. des Perrier adjutant of the Regiment de la Saare, the proofs of the crime.

The felucca arrived on Sunday last and the "Anie" at Levi yesterday. They are both privateering. These boats do not sail well, they do not stand up to the wind, besides this they are very inconvenient; no cooking can be done on board, and every day a landing must be made for the purpose. I am afraid that they will not be of much use to us.

27th. June.

SIR,—I have the honour to forward you several letters from le Sr. Le Gris to the Commissary General. I am very sorry that they do not confirm the news from Sr. Gradin. The people of St. Croix refuse to mount guard. I have threatened them that I will burn their property. They have replied that they may as well be burned out by us as by the enemy, who would not fail to burn everything if we fell back. All this is very embarrassing and I believe we shall have much trouble in taking the militia of the north and south shores to Montreal.

It has been reported to me that on the nights of the 25th. 26th. a barge belonging to the inhabitants of St Antoine was carried off.

MONTREAL, 24 May, 1760.
Answered the 29th.

SIR,—I have received the letter you did me the honour to write to me on the 21st inst.

I attributed your silence entirely to your being much occupied. I was, besides, convinced that you felt very keenly the necessity under which M. le Chevalier de Levis found himself of raising the siege of Quebec. This is one of those events which can in no way reflect on the merit of the campaign, and the Court will doubtless appreciate our efforts as much as if they had been crowned with the most complete success. It is a fact beyond dispute that we have done the utmost in our power. In whatever circumstances we may find ourselves there are no measures I do not take and no efforts I do not put forth to preserve the loyalty of the colony. I remain firmly confident that we shall either have peace or powerful assistance, for it is not likely that the King has certainly abandoned this colony.

All the prisoners whom we have taken from time to time since last autumn, agree in saying that we have had considerable successes in Europe; they expect us to make an attack by sea; they count on peace, and they attribute to that the delay in receiving news from the Court in London which they expected by the packet boat. In time we shall know more certainly, what the real facts of the case are.

I have strong expectation of receiving more certain intelligence by the prisoners from Chouagin Carillon, or St. Frederic as we have Indians at each of these places.

I shall be greatly pleased to see you, but M. le Chevalier de Levis, who is aware of my confidence in you, must have handed over to you the entire command of the frontier. The information you possess, your zeal and your experience, I regard as the best security that you will acquit yourself of your command to the best advantage. You will have his instructions on every point. I can only rely on them and on your carefulness in carrying them into effect. You will besides write to me often, and that will give me an opportunity of telling you how things strike me from time to time.

When you have a little more leisure I beg you to acquaint me with anything of interest, entering into such details as you consider necessary, and telling me freely in writing whatever you might have kept back with the intention of telling me in person. You cannot doubt that I will eagerly use everything that may help to secure justice for our battalions, and our militia, and to satisfy the desire I shall always have to procure for you fresh favours from the King.

You know the extent and strength of the sentiments with which I have the honour to be.

SIR,
Your very humble and very obedient servant,

VAUDREUIL.

M. DUMAS.

P. S.—Madame de Vaudreuil is extremely gratified at your remembrance of her, and desires me to say a thousand good things to you for her.

Endorsed, à Monsieur,
Monsieur Dumas,
Commandant la Frontieré a Jacques Cartier,
Vaudreuil.

MONTREAL, 26th May, 1760.

SIR,—I have received the letter which you have done me the honour to write to me on the 23rd of this month. You will have seen from my preceding letter that the position assigned to you by M. le Chevalier de Levis is in conformity with my wishes, and that I am quite confident that nobody will acquit himself of the duty better than yourself; in saying this I simply render justice to your zeal and to the knowledge that you have acquired of the country on our front.

I must leave you free to act as you judge best under the instructions which M. le Chevalier de Levis will give you.

I have written to M. le Chevalier de Levis that considering the scarcity of provisions it was not possible for us to maintain a strong garrison at the front. I see by your last letter that it was fixed at 1,200 men, of whom 300 are Canadians. It would have been most desirable to have sent back the latter, but if they are indispensably necessary an arrangement should be made to replace them by other good men.

I approve of your uniting the flags of the second battalion of marine with those of the first since you are obliged to form the second battalion in pickets. I know that M. le Chevalier de La Corne, M. de Nassau and all our officers in general have done marvels. I assure you that I will neglect nothing to call attention to their merits and procure favours for them from the King.

No matter, what your position may be, I am convinced you will make the most of it, and do the best possible. I shall always do you the justice due to your sentiments, and I shall never feel more pleased than when I am able to give you proofs of the vivacity and strength of those with which I have the honour to be, Sir, your very humble and very obedient servant.

VAUDREUIL.

M. DUMAS.

A thousand Compliments to all your officers.

MONTREAL, 27th May, 1760.

Replied to on the 29th.

SIR,—As M. le Chevalier de Levis informs me of his approaching departure from Jacques Cartier, I reply direct to you, on certain portions of the letter that he has written to me concerning the front. I can but approve his plans and am persuaded that you will follow the instructions he will have left you with exactness.

I have only to observe that I have seen by the letter from M. Landriève to M. l'Intendant that the consumption of victuals for the front amounts to 1800 rations per day, and that comparing the calculations we have made of the rations with the available food supply, we have clearly seen that it will not be possible to furnish subsistence for so many men without speedily exhausting our resources. It is an observation that I make to you alone. I beg of you to give it most serious attention, and not to speak of it to anyone, but let me know what plan you think would be best to diminish the number of men that M. le Chev. de Levis has decided to leave on the front. An arrangement of this nature seems to me the more feasible, having regard to our limited means, owing to the fact that, when you judge the step necessary, you can re-unite with your forces the militia of your neighbourhood, those of Three Rivers, and the troops which are quartered there. These observations are necessitated by the extreme scarcity of everything and they merit, as I have first said, the most serious attention. So important is it to think in good time of the further developments of the campaign, that unless we do the Colony will collapse of itself.

I am at work raising a levy of 300 good militia men, whom I will send without delay, to relieve those who have stayed with you. Pray assure the latter of this, and also of my satisfaction at their zeal and willingness. Notify them that in consideration of this they will be spared more than the others should future calls to service be made.

I count also on sending you during the week the second felucca, which will sail as soon as the Provençal who is to take charge of her arrives. He is now on the pilot felucca which I assume you will have despatched before the receipt of this letter.

I have learned that M. Wolfe, an officer accustomed to irregular troops has been appointed to the command at Pointe aux Trembles. He is a very good officer, but has the reputation of being rough, and this is not what is wanted to obtain the best services from the Canadians, who will probably form the larger part of their garrison. M. Wolfe is a German, who can scarcely make himself understood in French. I give you my opinion, it is for you to weigh the matter and do what you deem to be most advisable. I am only concerned with results ; I do not care whether this M. Wolfe or any other officer commands at Pointe aux Trembles, as long as it is for the good of the service.

I have no anxiety as to any failure on your part to employ all possible means and devices to secure frequent news from Quebec and particularly from the mouth of the river. It is to be hoped that you can depend on the advices you receive.

Several merchants of Quebec have represented to me that their presence there was necessary for the preservation of their property, but although I have given them my permission you will judge whether to be governed by it, if you think that their return will be prejudicial to our interests.

I have the honour to be, with the most sincere sentiments, Sir, Your very humble and very obedient Servant.

VAUDREUIL.

M. DUMAS.

MONTREAL, 1st June, 1760.

Received the 3rd, answered the same evening.

SIR.—I have received the letter that you have done me the honour to write to me, on the 29th of last month.

I have been surprised at the intelligence that you sent me being spread over the town as soon as it was known to me. You will be so good in future as to take the strictest measures to prevent such a thing occurring again.

It is important under existing circumstances that all the intelligence from the lower St. Lawrence or any other part that you wish to communicate to me should be an impenetrable secret, and I beg you not to hesitate in punishing the couriers or other persons who may speak indiscreetly of the news they carry. Have the goodness to write the couriers to that effect and inform them that I shall severely punish those who offend in the manner stated.

The letters that you have sent me do not settle anything, as there does not appear to have been any news from Europe that you sent me as recent as what arrived at Quebec, and the whole aspect of affairs may change at any moment. Peace is indeed strongly to be desired. I do not lose hope of it, but, no matter which way things turn, we will continue to do our best. Canada is nearing the end of her troubles and misfortunes, and everything should prompt us to put forth new and more powerful efforts so as not to lose the fruits of the negotiations for peace that are certainly now in progress.

M. le Chevalier de Lévis has supplied me with a copy of the instructions he has given to you as well as to M. de Repentigny and to M. de la Rôche Beaucourt, and they are all that could be wished, and are shaped with reference to such movements in force as the English might make. I have no fear but that you will not be found wanting on your part in coping with the unforeseen, but will do your utmost to make the enemy pay dearly for any ground he may gain from you.

Continue, I beg, your search for boats which are so very scarce with us and for which we have the most pressing need. It would be very unfortunate if we were to lose a single one through negligence.

When you have the boats you will have them distributed as you judge best to assure the passage of the river both above and below us. I shall be anxious to know how many you secure.

It seems from the letters that you have sent me that the English at Quebec will receive no help, that their forces will remain in the state in which they are, that Louisbourg must by this time be demolished, but that the garrison of that place is not to come to Quebec ; thus there is every ground for presuming that the English will not attempt any considerable movement.

The subsistence of our troops occupies me greatly. I fear that we have not provisions sufficient for any length of time ; and therefore beg you to continue to reduce the number of useless mouths that may be found in your own troops or among these outposts.

Do not cease to employ every effort that your zeal is able to suggest to procure frequent information from Quebec. If the English have allowed some women to enter the town, they will gradually become less watchful. I am glad that you are well convinced of the confidence I have in you. I shall be infinitely pleased whenever I may be able to give you satisfactory proofs of it. I render full justice to your zeal, and your experience, and I am very sure that no matter in what situation you may find yourself you will do your very best.

Please return to me all the sailors you have in excess of the requirements of the galleys. It is indispensable that you should despatch at least 20 to me with the utmost possible promptitude, as they are needed for our vessels on Lake Ontario.

I beg you to send them under command of a reliable officer who might have business here, if you can find one immediately after this letter reaches you.

I inform you, Sir, that I am going to send back to Quebec in the Commissary's canoe, commanded by le Sieur Mezières, two English officers who will be accompained by M. Lenoir. When the boat arrives at Batiscan, it will cross over to the south shore and continue the journey to Quebec, to prevent these two officers observing, or having any knowledge of our posts.

I also inform you that these two Englishmen have several commissions to fulfil for the officers who are staying in that city, and that M. Lenoir, for his part should endeavour to obtain some provisions. I am sure that M. Murray will not hesitate to grant him a passport. M. Melartic will send it to you, and will ask for conveyances in accordance with the passport. You will please send them immediately to Quebec, by schooners or boats in charge of some trusty person.

I think, as you do, that M. Martin would do well at Quebec, and to that end we will work.

Should you have given any particular employment to Sieur le Sage, no matter what, I beg you will immediately return him to the Commissary who sends him orders in the letter which he is writing to him.

I beg you also to give orders to Sieur Dussault, Seigneur des Ecureüils, to leave immediately with Sieur Delandes, and take with him another pilot of his own choice. The Commissary writes him to this effect.

You will receive this letter by the said Sieur Delandes, whom, as well as les Sieurs Le Sage and Dussault, and the other pilot, I beg you will leave entirely free to proceed to their destination, and carry out the orders the Commissary has given them. You will procure them all the food and other necessaries they may require, and facilitate their prompt passage to the South shore.

You know the extent and the strength of the sentiments with which I have the honour to be, Sir, your very humble and very obedient servant,

VAUDREUIL.

M. DUMAS.

M. Cugnet has reported to me what you wrote to him. The project in question is a very delicate one. Find out whether Abbé Moriceau will undertake the negotiation. Anyway, take the course that will be best suited to the welfare of le Sieur Cugnet's family, in which I am much interested.

VAUDREUIL.

MONTREAL, 2nd June, 1760.

Received on the 5th, answered on the evening of the 7th.

SIR,—I have received the letter that you did me the honour to write me on the 31st of last month, with that of M. Duparquet to M. de la Roche Beaucourt which was sent with it.

If the English really pillage and maltreat the English (sic. Canadians ?) they falsify the promises contained in General Murray's proclamation.

I cannot believe that this general will hold as prisoners of war the guard that we had at the General Hospital. He would contravene, not only the cartel, but the law of nations.

M. le Malartic will certainly uphold our rights in this respect. We shall soon know if the statement is correct, and if the English also hold our wounded. May they not have made them as well as the guard, enter the town, in order to embark them on the schooner that M. le Chevalier de Levis has sent there ?

The English who reached Quebec have no doubt incorrectly reported what M. de Minvielle told them in speaking about M. Martin, for neither directly or indirectly, nor in any way whatever was he the owner of the schooner.

Always pay particular attention, I beg of you, to getting frequent news from down the river. I am surprised that neither le Sieur Legris nor M. Nolle LePage write to me.

The seven vessels that you were assured were at Ile aux Coudres are without doubt English ; still I do not despair of our having news from Europe, and even powerful aid, if we do not have peace.

It is very unfortunate that despite all your efforts you have not yet been able to collect the boats, and that your arrangements are consequently delayed.

I have had all the English letters and papers you sent me interpreted. They confirm what I have already told you, that the garrison at Quebec will receive no succour. I do not think that General Murray will expose himself to the risk of making a sortie in force. However it is only prudent to hold yourself in readiness as circumstances may require. On this point I cannot give you any positive directions, and can only rely on you, confident that you will act for the best in every respect. The essential point is that you should have the most accurate information obtainable concerning the enemy's movements, so that you may not make any mistake in your own.

The precaution, taken by you, of leaving at Germain's only 15 days rations for your main force and your advanced posts is very wise and I can but approve of it.

It would be very prudent to send to Three Rivers for safety the provisions that you propose to load on board the schooner, as the enemy by ascending the Richelieu in boats could surprise her. You would always be able to get what you wanted in half a day.

I will immediately send the militiamen I previously mentioned for the purpose of relieving those who have remained with you out of good will.

I have the honour always to be, with the warmest and most sincere sentiments, Sir, your very humble and very obedient servant.

VAUDREUIL.

M. DUMAS.

MONTREAL, 3rd June, 1760.

Received on the 5th. in the evening, answered on the 7th.

SIR,— I have received the letter that you have done me the honour to write me on the 30th of last month. I already knew Messieurs de Celauron and Rousseau de Villejoint to be excellent officers. The good account you give me of their zeal cannot but increase the desire I have to oblige them.

The soldiers of the First Batallion whom you have sent back here arrived at the same time. Enclosed you will find circular letters, which I beg you will promptly send to the captains of militia on the south shore, commencing with the parish that is opposite Deschambault, as far as and including that which is opposite Point anx Trembles. I have left one unsealed that you may make yourself acquainted with its contents. The courier carries similar letters for the north shore as far as Pointe aux Trembles. I beg you to be good enough to see to it, that all these captains strictly comply with these orders, and that they lose no time in getting the arms of their militiamen which are not in good condition, repaired. This is of the greatest importance as at any moment we may be obliged to put the militia on the march.

I am, still confident nevertheless that we shall have peace, or powerful assistance.

I have the honor to be, very sincerely, Sir, your very humble and very obedient servant.

VAUDREUIL.

M. DUMAS.

MONTREAL, 3rd June, 1760.

Received on the 5th in the evening, replied to the 7th.

SIR,—I inform you that Sieur Martin is forwarding, to you, a despatch for General Murray which I have read so that you may allow it to go forward, as well as the courier whom he is sending for that purpose.

I have the honour to be as ever, Sir, your very humble and very obedient servant,

M. DUMAS. VAUDREUIL.

MONTREAL, 4th June, 1760,

Answered on the 9th.

SIR,—I have received the letter that you did me the honour to write me on the 2nd instant.

M. de Malartic's letter which you forwarded to M. le Chevalier de Levis reached him at the same time.

The garrison of Quebec is probably not more than 1,800 or 2,000 men and as I have already mentioned they do not expect reinforcements. Therefore I cannot believe that General Murray will employ the greater part of his force in making any serious movement.

Having a great advantage through the vessels at his command, he may simply have been sending frigates, schooners and barges up and down the river without having any distinct purpose of effecting a landing. I know very well that these manœuvres cannot but cause you anxiety, but it is for you, Sir, to employ all means for procuring precise information of the enemy's intentions and then to weigh them and regulate your own plans and dispositions accordingly. I am unable to prescribe anything more

definite in this respect, everything depending on the more or less favourable circumstances in which you may find yourself.

I must only observe that it would be very dangerous if you made any false movements that might involve grievous results. So I pray you to employ both reflection and prudence. The great thing is to get frequent news from Quebec. Neglect and spare nothing, I pray you, to that end.

You know how important it is that you maintain your position, and how dangerous it would be to abandon it, on false information, in order to go, without absolute necessity to the support of Three Rivers. The English will perhaps manœuvre in such a way as to alarm you for that town; their whole object being to get you to move. I flatter myself that you will find out positively what you may depend on so as to be in a position to take action only with a full knowledge of the situation. If the enemy's forces should be considerably reinforced, and he decided to penetrate to the heart of the colony, leaving you in your present position, then you should not hesitate to call in all your outposts, to muster the militia of your environs, that of the lower part of the district of Three Rivers, the soldiers of the Languedoc regiment quartered there, and then proceed to join M. de Longueuil, and the army assembled by him at Three Rivers, to oppose the landing which the enemy might attempt to effect there, or, if he proceeded further, to follow him as far as this town.

I am writing to M. de Longueuil to establish a system of signals, and to make such arrangements beforehand as will enable him to assemble instantly the militia of the upper part of his district and the soldiers of the Languedoc regiment. I am instructing him to remain at Three Rivers, and offer the most obstinate resistence to the enemy's landing, and to maintain his position there until you join him, and also that he follow the English with you if they pass beyond.

Sir, I give you my opinion on the subject. You are on the spot and it is for you to act as may be most advisable under the more or less favorable circumstances in which you may be placed. In any case I must rely entirely on the zeal and the experience of which you have given so many evidences.

M. de Longueuil has been able to collect nine boats only. We have none here. Therefore use every effort to get possession of any that remain in your neighborhood.

You will have seen by my last letter that I strongly approved the arrangements you had made for the preservation and protection of your provisions in case of your being obliged to retreat.

The captain of the transport flute La Marie, has had orders from M. de Levis to join M. de Grand Rivière at Batiscan, or at Grondines. As this captain has a lot of observations to make I requested him to communicate them to you by this courier and to await your orders for his departure, and his movements, which I beg you will give him accordingly. I am very glad that you did not allow the traders, to whom I gave permission to go to Quebec, to pass. In doing so you used the liberty which I allowed you in my letter of the 27th of last month, and which I beg you to continue to exercise.

I am very sorry that you have not even the sailors whom you need for your own purposes. What can have become of them? They are perhaps scattered in the neighboring parishes. Try to assemble them and send me those I asked you for, after, that is to say, completing the number you yourself require.

I am most desirous that you should receive guns from Three Rivers, as they are very scarce here.

I have not yet been able to get the English papers that you sent me, translated. If they contain anything of interest I shall have the honour of communicating it to you.

Neglect nothing to secure frequent intelligence from Quebec, and to find out the number of ships of the line, frigates and other vessels that they have in the roads. Endeavour also to procure news from down the river, and of the vessels that may be in the river, English or French. On Sunday I will send the detachment of Canadians who are to replace those who are with you. The officer who will be in charge of that detachment will bring the others back. You will be so good as to announce this to them.

You know the warmth and sincerity of the sentiments with which I have the honour to be, Sir, your very humble and very obedient servant.

VAUDREUIL.

M. DUMAS.

MONTREAL, 7th June, 1760.

SIR,—I have received the letter which you did me the honour to write to me on the 3rd of this month.

I hope you will be able to make some sure arrangement for the passage of your rivers, supplying the lack of boats by the pontoons which you will cause to be constructed. I shall be fully appreciative of all your efforts in this matter.

It is of course necessary that you should furnish rations to the wives of the soldiers who have remained with you, since they have no homes of their own but might you not reduce them to half rations, or withhold beef? I beg you to do all you can in this respect, on account of our very scanty supplies.

Upon careful reflection these exhibitions of liveliness on M. Murray's part can only be attributed to his weakness. We know how he is situated and that he is unable to undertake anything really serious.

All that M. de Longueuil hears of the menaces of that General makes him anxious for Three Rivers. Between ourselves he seems too ready to believe reports. It is for this reason I desire you to let him know what you think, when you communicate to him your own news from Quebec. I reiterate to him the order already given him to defend himself as long as he has a man left, no matter in whatever position he may find himself. You may retain the 8 or 9 sailors that you have left to man the second galley. I have written M. de Longueuil to send you any sailors, or Acadien navigators whom he can get together. Let him know the number you will require. The captain of the flute *La Marie* has more sailors than he requires. He will let you have some, in addition you can take soldiers or Canadians to fill up vacancies. It is important that you place these galleys in a serviceable condition as soon as possible.

The Commissary is giving orders to his clerk at Three Rivers to send you 50 oxen.

M. de la Roche did well to have the two habitants whom he suspected arrested. They have been forwarded to me. They are not guilty at all. They were amongst the sailors that M. de Vauquelin put ashore before surrendering.

I hope the two English deserters have been arrested. As soon as these and the ones already arrested are forwarded to me, I will have them closely examined. Nothing can be added to the confidence I have reposed in you. I shall never feel more pleased than when able to furnish you with new proofs of this, as well as of the warm and sincere sentiments with which I have the honour to be, Sir, your very humble and very obedient servant.

VAUDREUIL.

M. DUMAS.

MONTREAL, 11th June, 1760.

Answered on the 15th.

SIR,—I have received the letter that you did me the honour to write to me on the 7th of this month.

M. de Malartic has informed me of all his Quebec news.

It is important to know, positively, if any English vessels carrying troops have arrived, and to know their strength, and I beg that you will omit no means of advising me on the point.

There is nothing better than your project for the succour of Three Rivers in the event, contrary to my expectations, of General Murray's receiving considerable reinforcements, and thus being enabled to ascend the river in force. I strongly approve of your arrangement in this respect, as well as of your measures for holding Jacques Cartier and your present position. The reflections you make on this subject are entirely correct.

It would be a very good thing if you had a trusted Officer with a detachment on the South shore, to strengthen the confidence of the militia of that region, and cause them to take arms if the English should come to burn the farm houses. I can only refer to what the Chevalier de Levis is writing to you on this subject.

I have learnt with great regret of the theft of the King's chest. You have personally still deeper cause for regret in the fact that the instructions given to you by the Chevalier de Levis stated that the paymaster's clerk was left to you; consequently you could have asked M. Landriève not to allow him to absent himself. Besides that, the moment M. Landriève left you could have had the chest carried into your room. since your sentinel was neither able nor in a position to watch that occupied by M. Landriève. It is most unfortunate that your investigations have all been fruitless. The Intendant will send an Officer of Justice to make a formal inquiry, it being of the utmost importance that the affair be followed up. I desire you to afford to this Commissioner all the facilities and help which he may require. I earnestly hope we may be able to discover the author of this robbery.

M. de Repentigny has informed me of the escape of several of our soldiers who were prisoners at Quebec. I beg that you will let them know how gratified I feel at their zeal in rejoining their country, and assure them that I will not forget it.

The detachment of M. de Langy was unable to perform its mission. At Pointe aux Fers they met a party of about 300 Indians and rangers who were apparently on their way to our village of Chateaugué, or to la Tortüe. Our Indians attacked them, fighting for five hours, nor did they cease the combat until they had entirely exhausted their ammunition. We had two Indians killed and two wounded. Sr. Laforce was shot through the chest, and another Frenchman was slightly wounded. The English loss is estimated at over 50 men. They retreated. I am making arrangements to have some prisoners from this party here, and am also expecting some from Chouaguin. Their reports will be interesting, for it is time the movements of General Amherst were known; he cannot put off their discovery much longer. I will acquaint you with what we learn from the prisoners.

I have the honour to be always, with the warmest and most sincere sentiments, Sir, your very humble and very obedient servant.

VAUDREUIL.

M. DUMAS.

MONTREAL, 12th June, 1760.

Answered on the 15th.

SIR,—I have received the two letters that you did me the honour to write to me on the 9th and the 11th of this month.

I am very glad that you agree with my plans and views relative to the movements of the English on the river in case they should receive reinforcements and decide on attacking Three Rivers. The arrangements you have made in pursuance thereof fit in perfectly with my intentions.

It is truly the part of wisdom and prudence to make timely preparation for events, notwithstanding that we still have reason to believe that the English will make no serious movement, unless they receive considerable re-inforcements.

M. de Longueuil, and M. de Pontleroy, have reported to me respecting the entrenchment and other works on which they are engaged. I highly approve of them.

I am very glad that you have conferred with the first named, and am persuaded that you did not absent yourself from your command at the front without being absolutely certain that the enemy would make no movement.

The cannon of "La Valente" and a mortar will be very useful at Three Rivers. I am writing to M. de Pont Leroy to have the gun-carriages built, as we could not possibly make them here for want of iron.

If the English were to render themselves masters of Three Rivers before you had joined M. de Longueuil, I give orders to the latter to keep the field so as to be prepared at all times to harass the enemy and prevent him from executing the defensive works that would be indispensable if he wished to maintain his position. You would remain with M. de Longueuil and do your best to dislodge the English. In fine you would take up and hold the most advantageous position possible until the arrival of the army which I would immediately despatch hence to confront the English.

t the latter went past Three Rivers you would follow them with M. de Longueuil and gradually effect a junction with the army mentioned.

I am explaining my views to M. de Longueuil on every supposed case.

You would not fail to dispute the advance of the English with your two feluccas without, however, risking them too much as they will be of great use to us from time to time on the river. These feluccas will follow the English, and pass them, if possible, to warn M. de Longueuil of their coming.

You are aware that we are far from being able to keep troops encamped at Three Rivers.

In regard to the militia of the Government of Quebec and that of Three Rivers, I hope they will be ready to follow you with equal activity and zeal in case of need. The circular letter which I sent them will have inclined them in that direction. All other considerations must give way to the safety of the Colony. There lies the true interest of all in general and of each in particular. Besides I count a great deal on the confidence which you will inspire in the militia, at least of your own neighbourhood. It is a matter in regard to which I beg you not to relax your efforts. You have my consent to keep the transport *La Marie* at Three Rivers, as you will have to draft sailors, from it for the two feluccas. M. de Longueuil has sent you 15 Acadians who are seamen. M. Sauvage has got together some sailors. There are some also in the hospital at Three Rivers. The former, and such of the latter as have recovered, will embark on the second felucca when she passes that place. She will leave immediately.

It is a capital idea of yours to place eight pounders on this transport. M. de Pont le Roy will make ball of this calibre. I am also writing him to have the gun-carriages built.

I depend greatly on your exertions and resources to ensure a prompt passage of the rivers and channels for your troops.

The two Englishmen you sent me have arrived. I am having them closely examined.

You will find enclosed herewith replies to the letters of Sieurs Grandin and Legris. I beg you to send back their couriers at once, and tell them that they will be well paid on delivering the letters.

I have seen the statement of the number you have to feed at the front. I very much doubt if our provisions will suffice for their subsistence for any considerable time. It is very desirable that circumstances should admit of your decreasing this number. Do all you can in this direction, but above all take measures so as not to keep any useless mouth. You saw by my last that oxen were to be sent to you from Three Rivers.

The Intendent has forwarded to you some armourers tools. See that your militia have their arms put in good order promptly.

You will follow the same order of march as was followed in the Quebec campaign; that is to say the Militia who were attached the Languedoc regiment will march with them and form a separate corps.

Do not forget that these militia must keep their rations and those of their soldiers ready for the campaign. You know how esential this is.

I am going to send M. de Longueuil three gunners and one bombardier.

I have the honour to be with the strongest and most sincere regard, your very humble and very obedient servant,

VAUDREUIL.

M. DUMAS.

MONTREAL, 16th June, 1760.

Answered on the 18th.

SIR,—At last some of that news from France that we have been so long desiring has reached us. It is regretable that the vessels that brought it did not arrive sooner; we should have been pefectly at ease; with no lack of provisions, munitions, merchandise, etc., nor need we have had any anxiety as to the preservation of the colony. The letters I have received from the Minister assure me on the one hand that we shall have peace towards the middle of the Campaign, and on the other that, provided we can hold out against the English forces now in North America, we need fear nothing, as the

enemy can not reinforce them in any way, at least not in the matter of troops ; and that we are going to make the most powerful efforts to crush him in Europe. I send you a copy of the promotion list. The Court greatly praises our troops and the Canadians, but defers the arrangement, I had proposed, for these two corps to the close of the Campaign, that is to say the conclusion of peace. I expect other advices from the vessels at any moment. It was M. de St. Simon who brought me the first letters and I know that Messieurs Aubert and La Bruer should bring me duplicates and triplicates.

I desire you not to make known this ship news so as not to start the English in search of the vessels where they lie in the Baye des Chaleurs.

I shall communicate fuller details to you in a few days when I shall have all my letters.

I have the honour to be, with the warmest and most sincere sentiments, Sir, your very humble and very obedient servant.

VAUDREUIL.

M. DUMAS.

I have acted as you desired with the person you named. I did not spare him, but he appeared to me firm. I gave him 24 hours for reflection, after which I intimated to him that it would be too late to change his mind. It will be well to make all possible enquiries without any mincing of matters.

(An incomplete sentence follows : "Il vous ———— plusieurs———— sous votre protection et quelqu'un pour vous,")

All the letters I have received by ———— are very satisfactory.

MONTREAL, 18 June, 1760.

SIR,—I have received the letter you did we the honour to write to me on the 15 of this month.

It is very desirable that you find persons sufficiently well posted to be at all times acquainted with the strong and the weak points of the enemy's marine forces, but I know you cannot do the impossible.

It is for you, Sir, to select the officers whom you believe to be best fitted to command on the south shore. I am writing accordingly to M. de Repentigny that you will require M. Hertel, and also another officer of his garison. M. de Bayeul being sick cannot be sent. With regard to the troops it is necessary as a matter of fact that there should be some, so as to give tone to the inhabitants. You can draw them from the several pickets.

M. Rousseau is not here. He commands the detachment which escorts the English prisioners to St. Frederic.

I have no objection to your giving orders to these officers on all points connected with their mission.

We must turn our two feluccas to the best possible account.

There is nothing to add to the measures which you have taken to secure boats for the passage of the rivers.

You should by this time have received the armourer's tools, and the medicines.

I am about to increase the number of your militia from this district to 250 men, as I have previously informed you. Considering our scarcity of provisions it is impossible for me to make the number greater.

I will cause the militia men who deserted from your command to be punished.

I have already sent you the list of promotions. I do not know whether I stated that the pensions and gratuities I had asked for have been deferred to the end of the year. The Minister assures me that they will not be forgotten. I am very well satisfied with the letters he has written to me. Although we have not received the aid I requested, the King has none the less at heart the preservation of the colony. He counts much on the efforts that we will put forth, and expects that peace will come to our relief in the course of the campaign. This is an accurate summary of what I have learned that is of interest.

We have no information as to the enemy's movements on our front. One of his pickets on the 15 of this month penetrated as far as the portage of St. Thérése. They

burned one store with a few houses, and took several prisoners. I think that it is the same party which M. de Lange met recently.

Our two corverts are well armed and in a commanding position on Lake Ontario.

You know the sincerity and strength of the sentiment with which I am, Sir, Your very humble and very obedient servant,

VAUDREUIL.

M. DUMAS,

Monsieur Dumas,
Commandant sur la frontiére

Vaudreuil.

MONTREAL, 21st June, 1760.

SIR,—I have received the letter you did me the honour to write me on the 18th of this month.

MM. Aubert and La Bruyère should arrive before long ; they were to leave six days after M. de St. Simon, but they are not as good walkers as he is.

I hardly think the English will send their largest vessels to attack ours which have arrived at Restigouche ; nevertheless I will warn the latter so that they may be cautious.

I do not see of what use the redoubt which the English are erecting at Montmorency Falls can be to them. Can they have had recent news from Europe? Are they afraid that a fleet is coming to our assistance? For my part I am more inclined to believe in peace than in anything else.

The prisoners and deserters mentioned in your report have not yet arrived. The lively chase that M. Laroche Beaucour gave to the English detachment which came to reconnoitre his advance guard was a very creditable feat, and one that must have impressed the enemy considerably.

Sieur Dussault who deserted from Quebec has arrived. I should have been pleased, however, if you had given me a detail of all that he said. I beg that you will keep this in mind in future ; because, with your letters at hand containing such information, I am able to recall all facts of interest.

You are not going to run short of beef. On the very day on which you wrote a lot of oxen were sent from Three Rivers. I am surprised that the English should have put the priests you mention on ship board, because in so doing they are violating the principal articles of the capitulation.

The instruction you gave to Sieur de Grande Rivière is all right. I feel sure that our post at Pointe aux Trembles has taken proper measures with respect to the three hundred men whom the English have placed at Ste. Foi. There is no news of interest here.

I have the honour to be, Sir, most sincerely, your very humble and obedient servant

VAUDREUIL.

M. de Longueuil will send you some pilots, whom I beg you will employ as you may judge best.

MÉMOIRE SUR LA NAVIGATION DU CANADA

PAR

PELLEGRIN.

De tous les tems la navigation du Canada a été regardée comme une navigation très épineuse, elle l'Est effectivement ; mais ce n'est que les brumes qui la rendent telle, les dangers réels, c'est à dire les hauts fonds, iles et Batures dangereuse, ne commencent que bien avant dans le fleuve, ce qui ne demande pas une pratique de longue haléne mais depuis le grand banc jusqu'au bic il faut une pratique qui ne peut s'acquérir que par une navigation de plusieurs années et une attention singulière pour connaitre les différents fonds des bancs qu'on a à traverser, leurs étendues et leur distances respectives ; afin de pouvoir régler sa route lorsqu'on veût profiter du beau temps et donner dans le golfe, comme dans la rivière en tems de brume, ont sent bien d'abord qu'il est nécessaire d'avoir une bonne carte[1], mais outre une bonne carte il faut encore la connaissance des qualités et quantités des fonds dans différents bancs, et une combinaison de vents qui ont régnés ou qui se forment subitement après un calme de 24 heures et plus, les Baies immenses qu'il y a dans la partie du sud de l'ile de terre neuve et de St Laurent vous attirent considérablement lorsque sur tout les vents ont régnés depuis le N. O. jusqu'au N. E. et qu'ils viennent à se ranger au S. E. Sud, au S. O. on sent bien qu'alors il faut de toute nécessité que les eaux qui les ont sorties de ses baies et golfes y rentrent sur tout lorsqu'elles sont poussées par un vent du large j'en ai vû des expériences surtout dans le golfe en 9bre 1740 en retournant de québec en france ayant essuyé un coup de vent de S. E. entre Gaspay et les iles aux oiseaux, nous eumes un calme de 24 heures et la brume ne dissipa que lorsque le vent se renvoya à Ouest, après le coup de vent nous nous faisions par notre estime environ à 10 lieues au Nord des dittes iles aux oiseaux, mais j'assurai à M^r^ De la Pauzai qui Commandait le Ruby que la première terre que nous verrions ce seroit l'Ile Royal ou cap de Ray ce qu'il eut de la peine à croire ; mais si tôt que la brume fut dissipée nous nous trouvâmes entre l'Ile St Paul et le cap de Ray à peu près à mi canal, la différence de l'Estime à cette vue de terre étoit de 23 lieues pareille chose m'est arrivée dans le fleuve et l'orsque je ipassai l'Escadre de Mr Dubois de la Mothe par le détroit de Belle-ile, il est arrivé à plus eurs batiments de se trouver dans la Baie St George, se croyant encore dans le Nord des iles aux oiseaux et il y en a qui s'y sont perdu, ou n'entre guere mois vite dans le golfe et dans la rivière par les raisons contraires[2].

Je commencerai par donner une idée des précautions qu'il faut prendre lorsqu'on va en Canada, il est d'abord essentiel de s'assurer de l'accord du grand banc, pour cet effet il faut lorsqu'on en approche sonder souvent pour s'assurer autant qu'il est possible de cet accord de l'Est, souvent on a des indices certains des approches du dit banc, soit par des oiseaux qui ne s'éloignent guéres que des fonds comme pénigoueu et gode, ou loup marin à 10 à 15 lieues du banc, rarement plus loin, l'orsqu'on s'est bien assuré du bord du banc, on navigue selon le tems mais toujours en s'entretenant entre 45 à 44° de l'attitude et tacher de sortir du grand banc par 46° pour aller chercher le banc avert par cette l'attitude et le traverser selon sa direction c'est à dire en prenant un peu plus du Nord, si on faisoit tout ce trajet sans avoir de hauteur, j'aimerai mieux m'entretenir sur le banc avert ; pour attendre une bonne latitude observée ou la vue de terre que de risquer d'aller chercher L'ile Royale ; un seul accident arrivé doit nous faire tenir sur nos gardes, en 1728 la flûte du Roy le Chameau allant à Québec périt corps et bien sur l'ile

[1] Celle de Mr Ballin est assez bonne quant à la route depuis le grand banc jusqu'à l'entrée du fleuve.
[2] On doit ranger autant que faire se peut entre 45° et 44° de latitude.

Royale, il y a apparence que ce batiment avoit pris le banquereau pour le banc avert et qu'il croiyoit aller chercher le Cap de Nord ou l'ile S[t] paul, il est certain que dans ce tems la on ne connoissoit pas bien la qualité des fonds, car les fonds du banc quereau ne sont presque pas tout que du sable et du Gravier au lieu que ceux du banc avert sont des cailloux très remarquables, ces cailloux sont de la grosseur, depuis une noisette jusqu'a une grosse noix et tachés de vin surtout les gros et les petits sont ordinairement couleur d'olives. on trouve ces qualités de fond si on traverse ce banc vers son milieu et sa profondeur et depuis 45 jusqu'à 35 brasses ; mais on ne trouvera ces fonds bien réguliers que l'orsqu'on aura dépassé l'ouverture de la baie de plaisance, car vis-à-vis cette baie on trouve des fosses de 100 brasses qui inquiettent d'autant plus que souvent on ne fait pas une lieu sans trouver tout d'un coup 40 ou 45 brasses ; mais ces grands fonds sont ordinairement des fonds de vase ou sable, je dois faire observer aussi que depuis le banc avert jusqu'a l'île de terre neuve on ne perd pas le fond, on trouve depuis 95 jusqu'a 115 brasses, mais toujours fond de vase noir, au lieu que l'accord du sud du dit banc et jusqu'a perdre le fond toujours en allant vers le Sud, les fonds sont de sable assez fin, voila une observation qu'on ne doit jamais oublier surtout l'orsqu'on sort du grand banc allant vers l'ouest avec des vents contraires et de la brume, en 1737 le jason pensa se perdre sur le chapeau rouge faute de cette connoissance se croyant au sud du banc avert tandis qu'il étoit au Nord et qui faisant le Nord pour monter sur le banc avert avec une brume très épaisse il manqua monter sur le chapeau rouge, il est essentiel de s'entrenir par le banc avert lorsque le vent est contraire ou calme, afin que lorsque le vent vient bon et pour l'ordinaire la brume s'en suis on puisse faire route avec certitude, il y a cependant une chose à bien observer c'est de s'entretenir sur ce banc par la latitude de 46° 15 ou 30. et lorsque la brume survient de faire valoir la route S. O. N. O en sondant très souvent, c'est à dire toutes les fois qu'on aura 4 lieues au plus sur cet air de vent jusqu'à ce qu'on ait perdu le fond des batures St Pierre ; mais pour faire cette manœuvre il faut être assuré d'une bonne hauteur ou la vue de terre avant que de quitter ces fonds et lorsqu'on sera assuré de la latitude et de [3]la chute des batures ci dessus, on est sur de son point. J'observerai en passant que la carte de Mr Bellin donne une trop grande distance entre le banc avert et les batures St Pierre, et c'est un grand hasard lorsqu'on donne un coup de plomb entre les deux. Je n'estime pas plus de deux lieues de l'un à l'autre et son banc avert est trop court de 10 lieues dans la longueur de S. E. S. à O. N. O. lors donc qu'on est assuré d'une bonne hauteur et de la chute des fonds à deux ou trois lieues près, ma méthode est de faire 20 lieues à O.$_4$ N. O. du monde et si la brume continue ou que ce soit de nuit, alors je fait valoir la route le N. N. O. du monde et je donne dans le golfe à peu près à mie canal entre l'ile S[t] paul et le cap de Ray, je fait cette route de N. N. O. encore 20 lieues et alors je fait valoir la route le N. O. pour aller chercher les fonds des iles aux oiseaux qui portent environ 5 lieues au large dans l'Est, les fonds sont d'un sable très fin et rouge dans la partie du S. S. E. des dites iles, les fonds beaucoup plus au large sont du gros sable ou gravois, lorsqu'on est assuré de ces fonds et qu'on s'estime dépassé les iles, on fait valoir la route le N. O.$_4$ O. et lorsqu'on s'estimera à 15 lieues des iles dans ces alignements, si on veut encore assurer son point, on pourra donner quelques coups de plombs pour trouver un fond de 55 à 60 brasses gros gravois qui est une continuation du banc aux orphelins et qui en forme la pointe, si on était plus Est que la Direction du S. E. et N. O. des iles aux oiseaux on ne trouve point de fond et conséquemment si on est plus Ouest on trouve moins d'Eau, mais si on ne trouve point de fond c'est une preuve qu'on est trop est et alors on prend un peu plus du Ouest que la route que j'ai indiqué, jusqu'à ce que l'on s'estime Est à Ouest de la baie de gaspay, alors dans la crainte que la baie de Chaleur ne vous attire à Ouest plus que l'Estime, je conseille si la brume est épaisse et qu'on ne veuille pas perdre de temps en restant bord sur bord on a le cape, je conseille d'aller chercher[4] les fonds du gros de l'ile Danticosty, cette ile porte des fonds jusqu'à 4 lieues au large dans presque toute sa longueur à la partie du Sud, il n'est pas besoin d'avertir qu'on doit aller chercher les fonds à petite voile et en sondant souvent, on voit

[3] De la chute des Batures des iles St-Pierre à l'ile St-Paul, il y a 38 lieues.
[4] Les fonds des iles D'anticosty sont de gros graviers et souvent de roche.

bien aussi que ce n'est qu'en tems de brume et d'un vent du S. E. que je propose cette manœuvre. dès lors qu'on aura trouvé le fond de 45 à 50 brasses, alors on peut diriger la route sans rien craindre à O. N. O. 4° Ouest, on peut faire à ces airs de vent 40 lieues et même plus, mais dès que par l'Estime on se fait N. & S. des monts Louis et même plus en deça, ont peut aller accoster la côte du Sud qui est très seine, et il faut que la brume soit bien épaisse si on ne voit pas la terre à un tiers de lieue, sitôt qu'on est à connaissance on ne doit plus l'abandonner ou que les vents ne changent, si la brume est si épaisse qu'on n'ose pas trop approcher de terre, alors on a recours à quelque coups de canon qu'on tire de tems en tems et lorsque l'Écho ne répond pas c'est une preuve qu'on est trop au large et on s'en rapproche en dépendant, la route et la manœuvre que j'indique a réussi deux fois en 1737. et en 1756. ou le vent de S. E. et la brume m'ayant pris sur le banc avert, l'un et l'autre ne point laissé que vers le métis c'est à dire à 70 lieues en rivière.

Ce que j'ai dis jusqu'à présent ne regarde que le tems de brume dans le beau tems, cette navigation est très aisée, mais les temps clairs sont rares sur tout dans le mois de juin, juillet et août, l'orsqu'on est entré sur le banc avert si le tems le permet et qu'il fasse assez clair pour accoster la terre, il sera bon de prendre connaissance du chapeau Rouge ou des iles St Pierre pour prévenir la brume, afin quétant bien assuré de son point on puisse donner dans le golfe sur tout si le vent est de la partie de l'Est, c'est à dire depuis le N^{e}. E. jusqu'au S. E., car si le vent étoit de la partie du S. O. il ne faut pas trop ranger terre neuve, ni les iles St Pierre et quand même de S. S. O. S. O. & O. S. O. seroit brumeux on ne court aucun risque d'aller attaquer le cap de Nord sur l'île Royale ou l'ile Paul attendu qu'on est sur qu'a 3 ou 4 lieues de terre le tems est clair de ce vent là.

Je dois avertir que le banc avert et les batures des iles St Pierre sont très mal placés sur les cartes de Mr Bellin et qu'on ne doit pas trop s'y fier, l'ile Danticostie sur les memes est trop courte de 12 lieues au moins, c'est à dire qu'elle se prolonge plus dans le S. E. de cette quantité de lieues, je l'ai vérifié sur les lieues avec Mr Dubois de la Mothe. ces cartes donnent trois grandes lieues de distance de plus qu'il n'i en a depuis les iles aux oiseaux jusqu'au cap des rosier.

L'orsqu'on entre en rivière si le vent est à l'Est ou S. E. quoiqu'il n'i ait point de brume il est bon de ranger un peu plus la côte du Sud que celle du Nord ; mais si les vents sont contraires il faut si tot qu'on a doublé l'ile Dantiscostie gagner la côte pour avoir la ressource des mouillages en cas de nécessité. Ces mouillages sont la baie des sept iles en dedans de toutes les iles et à tribord en entrant et une demie encablure d'une plage de sable. l'autre mouillage est au Caoue en dedans de la grosse ile à 9 lieues dans l'O.$\frac{1}{4}$ S. O. des sept iles aprés avoir dépassé la Caoue, on peut mouiller tout le long de la côte jusqu'a l'anse à la trinité en faisant attention de ne pas trop ranger les environs de l'ile aux œuf et ne point mouiller vis à vis d'elle par ce que les fonds y sont de roche, une fois doublé la pointe à la trinité il n'y a plus de mouillage à la côte du Nord, il faut si on est mouillé au Caoue ou à la trinité, profiter des premiers vents de N. O. qui se font sentir quelque fois dans la nuit pour traverser à la côte du Sud en se méfiant de la bature de manicougant qui est a 12 à 13 lieues à Ouest de la pointe trinité, Nord et Sud de cette bature, vous avez la rivière Mataux qui est remarquable par une montagne de majeure hauteur en forme de mamelle qui en arrière de l'Embouchure de cette rivière. depuis cette rivière jusqu'au Bic vous trouver des mouillages à une lieue de la côte, j'entend le long de la Côte du sud ; mais on n'y mouille guerre que par nécessité, c'est à dire en cas de calme pour établir la marée, quoique les courants ni soient pas violents il est toujours désagréable de rétrograder, mais on fait son possible pour gagner Rimousquic ou St Barnabé ou sont les premiers habitants et ou les mouillages sont beaucoup meilleurs.

Il y a eu un tems ou on n'osoit pas passer en terre de l'ile de Bic, mais l'ayant visité en 1738 & 1739 avec beaucoup de soin, j'ai trouvé que cétait le meilleur mouillage de toute la rivière attendu qu'il n'y a jamais de courant et que 200 vaisseaux de guerre pourroient y mouiller à l'aise, il n'y a que les deux extrémités de l'ile à l'Est et Ouest qu'il ne faut pas trop ranger à cause des batures de roches qui quoiqu'elles découvrent il faut être très prés pour les appercevoir, toute la grande terre est très saine ainsi on

ne court aucun risque de la ranger si tot qu'on est dépassé l'ile St Barnabé et il y a mouillage par tout, je conseille de passer toujours en terre de l'ile de Bic, non seulement pour la commodité du mouillage, mais encore pour éviter les courants qui sont quelque fois très violents au large de la dite ile, de la jusqu'a l'ile verte on trouve d'abord les iles à la rasade, ensuitte l'ile aux basques et l'ile aux pommes, elle sont toutes très saine du côté du large, mais elles sont liées avec la grande terre par des batures qui découvrent de basse mer à bien des endroits, il ne faut même pas s'engager entre leurs alignements, mais à une $\frac{1}{2}$ lieue au large vous avez mouillage tout le long, l'orsqu'on est arrivé à l'ile verte, on ne doit point entreprendre de la monter si le vent est mou et en jusant attendu qu'il n'y a point de mouillage le long de cette ile et que les courants y sont très violents, à la pointe de l'Est de la dite ile il y a une bature de roche qui découvrent de basse mer, elle porte $\frac{1}{3}$ de lieue dans le Nord on doit s'en méfier, vis à vis l'ile verte à peu près vers son milieu il y a l'ile rouge qui est basse et qui porte une bature dans l'Est au moins d'une grande lieue ainsi si tot qu'on a paré la bature de l'ile verte, on peut ranger l'ile à un quart de lieue sans crainte, j'ai bien mouillé sur les fonds de l'ile rouge du côté du Sud, mais je ne conseille pas de le faire que dans la dernière des nécessités, attendu que les courants y sont d'une violence extrême sur tout le jusant, j'y ai filé jusqu'a 3 nœuds d'ailleus si on attend le flot pour se tirer de ce mouillage, on court risque d'Etre entrainé dans le nord des batures de l'ile aux lièvres ou que les vents d'Est ne soient assez fort pour faire au moins quatre nœuds et dans ce cas il faudroit gouverner sur Cacoua pendant un bout de tems jusqu'a ce que l'on soit à $\frac{3}{4}$ de lieue de cet ilot qui est un peu au dessus de l'ile verte, ensuite on va chercher le pot à l'Eau de vie lorsqu'on veut y aller mouiller, il faut le ranger de très prés à cause d'un petit banc qui est au dessus de cet ilot et ou il ne reste que 9 à 10 pieds d'eau de basse mer, on passe ordinairement au Sud de ce banc en gouvernant sur la grosse ile des Camorasqua dès qu'on a dépassé l'ile verte le cap au S. O$\frac{1}{4}$ O. et S. O on ne doit pas trop ranger les pélerins d'en bas, je veux dire ceux du N. E. à cause d'un haut fond, on doit autant que faire ce peut passer à mi canal entre l'ile aux lièvres et les pélerins, ceux du S. O. sont extrèmement sains, on doit sonder en faisant le passage et il n'y a jamais de risque en le faisant à flot parce que si on échouoit le flot vous tireroit sans danger, attendu que le fond n'est pas dur, lorsqu'on est par le travers de la grosse ile des camorasqua qu'on peut ranger à discrétion, on gouverne sur le cap aux— la route est à O.$\frac{1}{4}$ S. O. on—ce cap a un jet de pierre avec les plus gros vaisseaux, à un quart de lieue au dessus on trouve le mouillage de la grosse roche en cas que les jusants vous empéchent d'aller à la prairie, l'a on prend des pilotes pour monter à québec.

CANADA.

Versailles. 1743. February 7. The President of the Navy Board to M. de Broague. Regrets that fish were less abundant last year.

February 7. The same to M. le Marquis de Beauharnois. The father of the Sr. Panet, soldier, has remitted 150 livres for the discharge of the young man. As it is the latter's intention to settle in Canada and his conduct is good, begs him to render the service asked for. Folio 1, ½ page.

February 13. The same to the same. On the subject of the design of the English on the settlement at the post of Chouenguen, and the construction of two barques on Lake Ontario. February 13. The same to the same. Does not understand how they could have apprehended a scarcity to the extent of requiring wheat from France for the subsistence of the inhabitants seeing that vegetables, Indian corn and meat should suffice. Nevertheless, has given orders to provide the colony with what they ask. Folio 3, 2 pages.

February 13. The same to M. Hocquart. Will reply by *Le Rubis* as to what he says on the subject of the construction of vessels. Has taken the orders of the King on the armament and destination of the *Caribou* which will be launched in the coming spring. On the representations he has made of the quality of the Canadian spruce orders will be given for the construction of a frigate to carry 24 guns. The timber will be sent to Brest by the *Caribou*. Folio 4, 3 pages.

February 13. The same to the Bishop of Quebec. Will reply to his letters by *Le Rubis*. Takes the present occasion to inform him of an affair that relates to Ile Royale. Is informed by M. Duquesnel that the Sr. Maillart, whom he had appointed his vicar-general at Ile Royal, uses his authority only to disturb the Récollects. In the present state of things and taking into account the character of Sr. Maillart, there is no other way of restoring peace than by recalling this missionary. Proposes to take the orders of the King to that effect and this determination is reached all the more willingly from the fact that he had learnt he had constituted Sr. Miniac his vicar-general as well for Acadia as in Ile Royale. The Provincial of the Récollets regrets his departure from the usage of his predecessors of naming the Superior of the Récollets his vicar-general at Ile Royale. Cardinal Fleury had granted him before his decease a gratuity of 3,000 livres. Folio 6, 2 pages.

April 11. The same to MM. de Beauharnois and Hocquart. On the subject of the crew of the newly constructed flute. Since the difference between the Sr. de la Verenderye and Srs. Lamarque and Gamelin has been amicably arranged there need be no further question about it. The Jesuits have abandoned their representations with regard to the boundaries of their seignory of Cap de la Madelaine. It is probable that he has been misunderstood on the part of the Procureur of their missions. Folio 9, 2 pages.

April 11. The same to the same. On the subject of timbers for the construction of vessels. Folio 10, 4 pages.

April 11. The same to M. Hocquart. On the subject of the armament of the *Caribou* and of the *Castor*. He might also acquire the land of one Lefevre if the price does not exceed 7,000 livres. Folio 12, 4 pages.

April 11. The same to the same. Has learned with satisfaction that the flute *Le Canada* had been launched successfully. She has arrived happily at Rochefort. She has been found well constructed and her interior well distributed. It remains to be seen whether the quality of the timber is equally satisfactory. A better judgement on this point can be formed after her return from Cayenne and Martinique. Reflections on the cost of this flute. Folio 14, 4 pages.

April 11. The same to the same. On the subject of bills of exchange. Folio 16, 4 pages.

April 11. The same to the same. On the same subject. Folio 18, 2 pages.

April 11. The same to Levasseur. The King to testify his satisfaction concerning the construction of the flute *Le Canada* has named him Master Constructor. There should be no further question of building a frigate of 26 guns, of spruce timber. MM. de Beauharnois and Hocquart having suggested her being built of oak. Nevertheless to be assured of the value of spruce there will be built at Brest of this timber a frigate of 24 guns. The King has granted an extraordinary gratuity of 500 livres. Folio 19, 1½ pages.

April 15. The same to M. de Beauharnois. On the subject of the dowry of Mlle de Lantagnac. The Srs. of St. Castin. Folio 20, 2 pages.

April 15. The same to the same. Divers instructions. Folio 21, 2 pages.

April 1. Appointment of clerical member of the Supreme Council of Quebec for the Sr. Vallier, théologal of the Chapter of the said town. Folio 22, 2 pages.

April 15. The President of the Navy Board to MM. de Beauharnois and Hocquart. The King has not considered that the position of Superior of the Seminary of Quebec should exclude the Sr. Valier from that of clerical member of the Supreme Council of Quebec. Folio 23, 2 pages.

April 15. The same to M. Hocquart. Has approved the measures he has taken to secure seed wheat. Hopes this year's harvest will be better than the last two. Will induce Abbé Gosselin not to give up the search for plants for the King's garden at Paris

Has procured the rank of lieutenant of frigate for Sr. de Beauvais, captain of the port of Quebec. Folio 24, 2 pages.

April 15. The same to the same. The Sr. de La Fontaine has said nothing of the abuses to which the store of the Dlles Désauniers has given rise. What has passed in this regard implies no prejudice of any kind against the purity of intentions of the missionaries. The Srs. Le Verrier, de la Barre and de Lantagnac. Effects left by the Sr. D'Esgly, deceased. Folio 25, 2 pages.

April 15. The same to MM. de Beauharnois and Hocquart. Cannot procure for Sr. Benoit, Jr., the warrant of physician at Montreal, the King not being willing to grant any more. Dowry of the daughter of Dame de Rigauville.

April 10. Works at fort St. Frédéric. Folio 26, 2 pages.

April 30. The same to MM. de Beauharnois and Hocquart. Has minutely examined the question of the St. Maurice forges. Has convinced himself the want of success is attributable only to bad management. The abandonment of the working would be an extreme measure, for besides renouncing the advantages the colony might obtain, there would be an actual loss to the King of 192,642 livres, the amount of the advances to the Compagnie des Forges. Besides, the merchants who have made advances would be met with the preference held by the King on the effects of Sr. Cuznet, cashier of the Company. On the other side, to carry on the working for account of the King would be necessarily onerous. It only remains to form a new company, but there are no people in the colony sufficiently well to do to take it in hand, and it would be difficult to form a company in France under an obligation to reimburse the King. There would be no other way than to give to a company the exclusive privilege of the sale of iron in Canada in spite of the inconvenience that would result. A person has offered to form a company on this basis. As regards the advances made by the King he might take over the establishment at the expiration of the privilege. He would not be responsible for the other debts of the company the partners being all insolvent with the exception of Sr. Cuznet. The latter has proposed that he be given by preference the farming of the posts of Temiscamingue, Nepigon, Michipicoton and Kamanistigoya for 9 years and on this condition he will take upon himself the payment of the debts of the old company. This proposition seems acceptable. Folio 48, 5 pages.

Previously the returns showed an excess of imports. It is evident that these returns were not exact, otherwise the colony would have found itself long ago unable to maintain its commerce. What is surprising is that the trade of Canada does not make the progress that could be looked for. It is certain that the population increased and the cultivation of the land developed, as well as the fishery establishments. Why then does trade not show a proportionate increase? It will be well

The same to MM. de Beauharnois and Hocquart. In view of the condition in which the Montreal General Hospital is found a definite decision must be taken as to that establishment. It has been proposed to bring into the institution some of the Réligieuses from France, and also to give the charge of it to the Filles Séculaires. The opinion of the present Bishop is that it should be connected with the Hôtel-Dieu. This proposition would have the advantage of diminishing the number of the religious communities, and that merits consideration, but it has also its inconveniences. Look into

The same to the Bishop of Quebec. The first thing to do before deciding anything with regard to the Montreal General Hospital is to take fully into account the financial condition of the institution. Has had a memorandum on this subject prepared, which he forwards to M. de Beauharnois, showing the property possessed in France by the Frères Charron and their debts. It is now a question of making an inventory of their possessions and debts in Canada. His project would have the advantage of suppressing one religious community. Should consult with MM. de Beauharnois and Hocquart. Advantages of the appointment to. Gathering of tithes. This is a delicate question. Should at the same time look into the question whether it is advisable to exempt the religious communities from tithes. It is well that the Abenakis of Narandrouak who wintered at Béconcourt have returned to their village. Should neglect nothing to confirm these Indians in their resolution not to abandon their lands to the English. The farming of the posts in the west; observations on this subject. Is surprised that they regard as impracticable the imposition of an income tax in the rural districts, seeing that they themselves had proposed this expedient to lighten the burden, always heavy, of the expenses the colony has to carry. Hopes they will apply themselves resolutely to render this measure practicable, and has too much confidence in their prestige and their ability to believe they will not succeed. Does not wish to exact anything that will be too burdensome to the colony, but at the same time it is but just that it should contribute its share towards the expenses. Folio 88, 24 pages.

May 31. The President of the Navy Board to M. de Beauharnois. Has reason to believe, by a letter that M. de Bienville has received from the Sr. de Bertet, major commanding in Illinois, that the Sioux, not satisfied with having broken the peace that they had themselves solicited, have engaged the Foxes to act with them in undertaking something against the French, and that the Sakis, being unwilling to join, had separated from them. This information may be false or exaggerated, but it will be advisable to closely watch the movements of these Indians. The rumour that the Illinois and Chicachas were concerting together was without foundation and the proof is that the Illinois have made war against the Chicachas, without much result so far. Has reason to believe that the Chicachas, tired of the losses they have sustained, will leave their lands and retire towards Carolina. M. de Bienville tells him that a certain number have already taken that direction and that the remainder are only kept back by the chief who had most

June 12. The same to MM. de Beauharnois and Hocquart. There is a question in England of not renewing the trading privilege in Hudson Bay given to a particular company and of making the trading free. The reasons given are of lively interest to Canada, for it is claimed by this means they will be able on the one hand to push their establishments to the great lakes and cut communications between Canada and Louisiana, and on the other make the discovery of the Western Sea. This project is strongly supported, and the danger seems still greater in the case of a single company than in that of free trading. No matter which course may be adopted it appears that the objects mentioned will be kept in view. Look into this matter together to study the best methods of frustrating the designs of the English. Fontainebleau. October 28. The same to MM. de Beauharnois and Hocquart. The Sr. Mendez, merchant, of Martinique, and Tilly lePelée, merchant captain of the Department du Havre, purpose to carry on between Canada and the Windward Islands in addition to the trade already established a trade in horses. They propose to build in Canada five or six large vessels for transportation and 25 to 30 boats yearly for the requirements of the islands. Those interested reserve to themselves a one-half interest in the company, a quarter is reserved for the Sr. Dugard, merchant, of Rouen, and his constituents, and the other quarter is intended for Canadians. This project is one of great interest to Canada. It remains to be discovered whether there are sufficient experienced workmen at Quebec to meet the requirements, without injury to the work of construction of the King's vessels. Will look into this question in all its aspects. Folio 113, 2 pages.

February 13. The same to the same. June 12. The same to MM. Duquesnel and Bigot. It is surprising that the inhabitants of Ile Royale and Ile St. Jean care so little about profiting by the help of the contraband salters. June 27. The same to MM. Duquesnel and Bigot. Same subject. Folio 18, 1 page.

The same to M. Bigot. Should be pleased if he deferred his voyage to France, but in case the arrangement of his affairs obliges him to go, he might take advantage of the leave of absence that he sends. Folio 18, 1 page.

1743. June 27. The same to the same. Concerning the new bargain made with the Sr. Muiron. Divers instructions. Folio 19, 2 pages.

June 27. The same to MM. Duquesnel and Bigot. Will give to the Srs. Pascaud all the facilities in their power for their operations at the Magdalen islands. It has not been possible to provide for the forwarding of the artillery that M. Duquesnel asks for. Folio 20, 2 pages.

June 27. The same to the same. The account they have given of the works on the fortifications show that they have been actively pushed. Hopes that with the works in course of construction the town will be found by the end of the year enclosed as well on the land side as on that of the sea. Folio 21, 2 pages.

June 27. The same to M. Verrier. On the subject of the works on the fortifications. Folio 22, 5 pages.

June 27. The same to M. Bigot. Has procured for the Sr. Sabatier, an extraordinary gratuity of 300 livres. Has procured him the commission of Controller of the Navy. Folio 24, ½ page.

June 30. The same to M. Boucher. Is satisfied with the plan of the harbour of Petite Brasdor that he has forwarded. Folio 24, ¼ page.

June 30. The same to M. de Ste. Marie. Hopes he will neglect nothing to render effective the services of the company of gunners that has been formed. It is only with this expectation that the King has confided him the command. Folio 24½, ½ page.

June 27. The same to M. Duquesnel. Concerning the fortifications. Affairs generally are in the same uncertain state, and it is to be hoped M. Verrier does not take the holiday he asks on account of his health. Folio 25, 2 pages.

June 30. The same to the officers of the Admiralty at Louisbourg. Has received the statements of the vessels that have followed the fishery and commerce at Ile Royale and of those that have been constructed. Folio 25½, ½ page.

June 27. The same to M. Duquesnel. The Chev. Bégon being the oldest of the King's Lieutenants in Canada has been preferred to M. de Bourville for the Government of Three Rivers. Will it not be better for him to retire? It is not possible to retire M. Rousseau de Souvigny on the terms he asks. The Lieutenancy of the King held by M. de Ste. Marie has been given to M. de la Vallière. Folio 26, 1½ pages.

June 27. The same to MM. Duquesnel and Bigot. As the merchants and peddlers pass depreciated sols at Ile Royale and will not take them back in payment, an ordinance has been issued on this subject. Folio 27, 1 page.

June 30. The same to M. Prévost. Is satisfied with the account he has rendered in the absence of M. Bigot. Folio 27, ¼ page.

June 30. The same to M. Duquesnel. On the subject of the leave of absence asked by the Chev. de Bellemont. Folio 27½, ½ page.

June 30. The same to M. Du Vivier. Is pleased that he has not taken advantage of the leave of absence given him. Folio 27½, ¼ page.

June 30. The same to MM. Duquesnel and Bigot. States that in the light they give on the choice to be made between Port La Joie, St. Pierre aud Three Rivers as chief town of Ile St Jean, they absolutely exclude Port La Joie. It is certain, in effect, that if the soil there is not so good as elsewhere, if there is neither commerce or fishery to be followed, if the position is not central it will be better to choose another place. It is surprising that it should have been the first choice. From their information it would seem that St. Pierre should be selected, but the fact that the harbour is closed by a bar is a great obstacle, and it seems to him Three Rivers should be preferred to it as the water is deep and it offers good shelter. It will be well to examine the question more minutely. Has had representations made to the English Court on the complaints of the difficulties caused by the English fishermen to the inhabitants of Petit Degrat and St. Esprit. Has written to the Bishop of Quebec concerning the Sr. Maillard, who he hopes

1743. will cease the functions of Vicar-General. If he does not, will procure the King's orders to have him sent away from the colony, useful as he is as a missionary. Folio 28, 2 pages.

June 30. The same to M. Duquesnel. On the representations he has made M. de Cailly will be reinstated in the Karrer Swiss Regiment but he will serve elsewhere than at Ile Royale. Will maintain the privileges that have been granted to this regiment whilst preventing their abuse. Cannot grant the additional artillery he asks. If M. Bigot takes advantage of the leave of absence given him to come to France, the Sr. Sabatier the elder will preform his duties during his absence. Folio 29, 1½ pages.

June 30. The same to MM. Duquesnel and Bigot. The King has determined to give an extension of six years to the exemption of duties on fish and on oils the product of fish. Has also issued a regulation defining among other things the conditions that the inhabitants should make with the fishermen they employ. Folio 30, 1 page.

June 30. The same to the same. Concerning the confiscation of the effects of Etienne Duvaux on the Schooner *La Concorde* of Louisbourg. Folio 30, ½ page.

June 30. The same to M. Bigot. Has received his report of the fishery of Ile Royale for the year 1742. It seems by this that the product of this fishery has been only 1,782,680 pounds against 2,585,440 the preceding year. This diminution is due to the failure of the fishery as the number of vessels was not less than that of 1741. Explanations on the subject of the regulations passed. The introduction of English codfish into Ile Royale must be stopped. Concerning the statement of vessels constructed in the colony and of those purchased. It is extraordinary that those who have sent this codfish to San Domingo were not satisfied if the hurricanes experienced by others off the island of Guadaloupe are remembered. The action he has taken of establishing a sheep butchery at Ile Royale can only be approved, but the lessee should be obliged to supply himself in part in Canada in order to increase the markets of this colony, as was done in the case of the beef butchery. Folio 31, 4 pages.

June 30. The same to the same. It is to be hoped that the progress of cultivation in Ile Royale and Ile St. Jean is such as to dispense with the establishment of storehouses on the King's account in the colony, which would be subject to many abuses. What he states as to the quality of the soil at Port Dauphin and at Petit Brador and of the possibility of succeeding there with wheat should induce the inhabitants to pay more attention to the cultivation of the land. It is not practicable at least for the present to send out colonists from France. As to the Ile St. Jean it is grievous that the fires have partly consumed the crops, and that some of the inhabitants even have perished in the flames. These accidents are becoming too frequent to justify means not being sought to prevent them. Respecting the works for lodging the garrison at Port Dauphin. Has done well to prohibit the curé of Niganiche to perform marriages between the girls of that island and the French settled at Cap de Ré. The order he has given to prevent these women going to rejoin their husbands will have the effect of forcing the latter to return. It does not appear that anything can be grown except grass at Niganiche. Folio 33, 4 pages.

June 30. The same to MM. Duquesnel and Bigot. It is *La Gironde* that will carry provisions and munitions this year to Ile Royal for the troops of the colony. She will be commanded by the Sr. Desgouttes Lassale, lieutenant of the navy. Instructions that have been given him. Folio 35, 2 pages.

June 30. The same to the same. With the two missionaries who have gone to Ile Royale on *Le Profond* and the one that the Bishop has sent direct to Acadia, all the missions to the Indians ought now to be provided for. More efficacious measures must be taken to cut short the trade done by the French

at Cap de Ré. As some English are also found in it, it was agreed with the English Court that measures should be taken in common to drive out both. Events having occurred to prevent the execution of this intention it will be well to take the matter up again. In the meantime all that lies in their power should be done to suppress the foreign trade going on at this place. Will not permit vessels to complete their loading with English codfish. Folio 36, 4 pages.

June 30. The same to M. Bigot. On the subject of the statement of the commerce of Ile Royale for the year 1742: imported 1,429,181 livres, exported 1,389,238, increase over 1741, 114,045 livres. Detailed statement of merchandise from France and other countries. Folio 38, 4 pages.

June 30. The same to M. Du Chambon. Is glad to know that the inhabitants of Ile St. Jean have increased the acreage seeded notwithstanding the fires that devasted their crops last year. Hopes that the eight Acadian families who were to settle at Malpec have carried out their intention. Have given promotion to the Srs. Du Chambon Verger and Du Chambon Mézillat. Folio 40, 1 page.

June 30. The same to M. de la Pérelle. Will make representations to MM. Duquesnel and Bigot with the view of punishing cases of abuse committed at the distribution of liquors. Will remember his children when opportunity offers. Folio 40½, 1 page.

June 30. The same to MM. Duquesnel and Bigot. Concerning the company of gunners at Louisbourg. Folio 41, 2½ pages.

May 1. Commission of captain of a company of gunners at Ile Royale for the Sr. de Ste. Marie. Folio 42, 1½ pages.

August 13. The President of the Navy Board to M. Duquesnel. The position of affairs becomes more and more interesting. In case of rupture with England, the King will send him the necessary orders before communications by sea are interrupted. If he receives no further news he will notify the Sr. Lassale Desgouttes on his departure for France to take precautions in navigating his vessel. In case of war the King will have vessels sent out to Ile Royale early in the spring. Folio 43, 1 page.

August 26. The same to M. Bigot. Foreign commerce. Instructions on this subject. Folio 44, 2 pages.

ORDERS OF THE KING AND DESPATCHES CONCERNING THE COLONY.

1744.
Versailles.
January 1. The President of the Navy Board to M. de Beauharnois. The Chérakis explain that they have made incursions into Louisiana only for the purpose of revenging themselves on the Indians of Canada.

It will be well for him to confer with M. de Vaudreuil on this matter to decide what is best to be done to put a stop to the incursions of these Indians. Folio 1, 1½ pages.

February 8. The same to M. de Brouague. Respecting the Fisheries on the coast of Labrador in 1743. Is sorry to hear of the wrecks of three vessels in the ice and of the disturbances caused by the Esquimaux. Folio 2, 1 page.

March 13. The same to M. de Beauharnois. A rupture with England appears inevitable and near. Take measures of precaution at once for the defence of the colony. Folio 2½, ½ page.

March 13. The same to M. Hocquart. The vessel *Le Caribou* will be fitted for war. At Brest 104 men have been raised who will leave at once for Quebec to compose the crew of this vessel which will first proceed to Louisbourg under the direction of the Sr. Le Gardeur de Beauvais if he is then at Quebec. Folio 3, 2 pages.

March 13. The same to MM. de Beauharnois and Hocquart. Same subject. Folio 4, 2 pages.

March 13. The same to the same. It is not without sorrow, after the hopes of a good harvest to which the disappearance of the caterpillars gave rise, that it is learned a new misfortune has greatly affected the situation regarding the crops. Have given orders for the dispatch of 6,000 quintals of flour. Folio 5, 2 pages.

March 17. The same to M. Hocquart. The expense occasioned by the forwarding of food to Canada is not the worst inconvenience of the scarcity experienced in the colony. The interruption of the trade in provisions between Canada and Ile Royale and other colonies is another and a greater. It is to be hoped the next harvest will enable Canada to provision Ile Royale before the winter. The ribs of spruce timber that were used in the flute *Le Canada* being pronounced very suitable for the construction of vessels, use must be made of the same material for the ship of 60 guns that is to be constructed at Quebec, and which the King has named *Le St. Laurent*. In the regulations that he should propose for the preservation of the forests, should be included an article respecting spruce timber fit for vessel's ribs. The dry dock that has been made opposite the ship-building yard will be of great

1744. utility as much for the facility of construction as for vessels grounding in launching and for those it might be desired to winter in Canada. Memorandum on the construction of the *St. Laurent* for the guidance of M. Le Vasseur in the plan he is to prepare. In the meantime he will work on the preparation of the timber necessary for the building of this ship. Folio 7, 2 pages.

March 17 The same to the same. Respecting the quality of the different kinds of timber used in building the flute *Le Canada*. This flute, which has returned from the islands has been fitted out for a fresh voyage, and on her return an even better judgement can be formed as to the value of the various descriptions of wood that have entered into her construction. The trial of red pine for the masts of the *Canada* caused him to hope this timber would be used for the masts of the *Caribou*. On the subject of the *Castor*. It is to be hoped a good pinery of the red variety will be found. That of Saurel can no longer furnish large timber. The one of which the Sr. de Tonnancour speaks, on the St. François river, does not appear to be worth more than that found by the Sr. Baron on the Chateaugué river. As to the timber of the Baie St. Paul it cannot be cut down and transported to Quebec without great difficulty. Hopes the iron he is to send will be free from the defects in the manufacture that were found in that employed on the *Caribou*. Folio 8, 4 pages.

March 17. The same to the same. Bills of exchange. Expenses. Folio 10, 2 pages.

March 17. The same to the same. Same subject. Financial statements for the year 1742. Folio 11, 3 pages.

March 17. The same to the same. Respecting the gunpowder. Folio 12, ½ page.

March 17, The same to the same. Respecting the account of the management of the Western Domain. The Tadousac lease. Folio 13, 4 pages.

March 24. The same to the same. Relating to the finances and changes to be made to reduce the excess of expenditure of the colony. Folio 15, 2 pages.

March 24. The same to the same. Has approved the appointment of the Sr. De L'Isle to the Bureau des Décharges at a salary of 900 livres per annum. The salary of the Sr. Foucault cannot at present be increased. Will take a favourable opportunity to place the son of the Sr. de la Gorgendière in the navy. Sends him the warrant of store-keeper at Montreal for the Sr. Martel. On his representations a new extra gratuity of 300 livres has been granted to the Sr. Le Vasseur. Will state without favour the facts relating to the conduct of the officers of the sword and of those of justice on the occasion of the affair of Sr. de Mourepas at Montreal. The King has broken the Sr. de Varennes, captain, who by his inexcusable conduct in that affair caused all the scandal. Is satisfied with the reduction effected in 1743 in the expenditures for presents for the Indians. Has approved the repairs made to the storehouses in the Palace yard. Has revoked the order detaining in the colony one François Magnan whom he employs in his service. The same favour will be granted to one Nicolas Français if he merits it by his conduct. Folio 16, 3 pages.

March 24. The same to the same. Relating to Canadian iron. Folio 17½, ½ page.

March 24. The same to the same. Will choose some one fitted to command *Le Caribou* in case of the absence of M. de Beauvais. The munitions necessary for the armament of the frigate will be sent this year, but it is strongly to be hoped the colonly will be able to furnish bread and meat. Has approved of the acquisition of the land of one Lefèvre for the sum of 4,590 livres, also that he proposes to make of the workshop used by the blockmakers. Will profit by the stay in the colony of one Lainé to instruct carpenters. Will render a detailed account of the working of the forges since it has been carried on for account of the King. Folio 18, 2 pages.

1744. March 24. The same to M. de Beauharnois. Will assist in the execution of the ordnance concerning the preservation of arms for the suppression of abuses. Will conform strictly to what has been prescribed in regard to the distribution of leaves of absence. Under existing circumstances, he will not permit any officer to absent himself from the colony. It has not been possible to give the preference to the Sr. de la Fontaine over le Sr. Daine with respect to the position of Lieutenant-General de la Prévoté at Quebec. Folio 19, 1½ pages.

March 24. The same to the same. Has not heard his conduct disapproved touching the Sioux and the Foxes who went to Montreal to solicit peace. He believed in their sincerity and even if he had doubted it he could not have done otherwise than appear to place faith in their assurances. Will continue to keep a watch on them and this will be easily done seeing that the Sr. Marin has brought together the Foxes and the Sakis at the place indicated by him. Will endeavour to re-establish good relations and union between the Indians of Sault St. Louis and those of the Lake of Two Mountains. The imminence of war gives new importance to this object. Since it has come to his knowledge that the Delles. Desauniers continue to carry on a trade with foreigners the King will give orders effectually putting an end to it. Chouanons. The Chicachas having asked M. de Vaudreuil for peace, and as it would be opportune in order to render it solid, to bring in the Cherakis, he will take measures, if peace is made, to prevent the Indians in his jurisdiction molesting the Cherakis. It is a pity the incident that occurred between a party of Nontagnés and an English detachment has not had the effect of raising the Iroquois against the latter. In the present situation of affairs it would have been of great importance. In the meantime, as it is probable that these Indians dissimulate their resentment it would be well to arouse it or to foment it by the means of the Iroquois of Sault St. Louis. Folio 20, 4 pages.

March 24. The President of the Navy Board to MM. Beauharnois and Hocquart. It is to be regretted that the Srs. D'Aragorry have not carried out their whole fishery enterprise in the river St. Lawrence. It is to be hoped the undertaking will be taken up by others; in default the privilege will be revoked. Notwithstanding the mischance suffered by the Srs. Pascaud, the working of their privilege at the Magdalen island has met with fairly good results. The individuals settled in the islands who interfered with the operations of the Srs. Pascaud have concluded an arrangement with them and it is believed it has been observed, as he has not received any complaints since. The increase of the card money that they propose cannot take place; besides, it is not necessary. Folio 28, 2 pages.

March 24. The same to M. Le Vasseur Is satisfied with the manner in which he has followed the construction of the *Caribou*. Will give all his attention to that of the frigate *Le Castor*. Will make a new plan for the vessel *St. Laurent*, the proportions of which he should change. Folio 24, 2 pages.

March 24. Memorandum from the King to MM Beauharnois and Hocquart. General recommendations. The Sr. Guillemin having well performed his duties as assessor is appointed councillor. The Sr. Gautier, physician, having assiduously and with success followed the Sr. Verrier's lessons in jurisprudence is also appointed councillor. Has approved the choice of the Sr. Pertuis as assessor. The bad harvest and the loss of animals is regrettable. Will grant no concession to the Sr. Fornell at the Baie des Esquimaux. The seal fishery. The success of the porpoise fishery though better than the preceding year, is not very interesting. The herring fishing at the Isles des Pelerins. Has been glad to learn that the Sr. Péan, de Noyan, de Beaujeu fils and Foucault have settled their grants on Lake Champlain. Has seen with pleasure that 21 inhabitants have settled at Fort St. Frédéric. Settlement at Missisquoi. Hopes that Father Lauverjat will neglect noth-

1744. ing to remove the English, the Loups and the Abenakis settled at this place. Post of Detroit. The information as to the manner in which the Chev. de Longueuil fills his command. Approves their having farmed the posts of la Baie des Ouyatanons, of Michipicoton and of Temiscamingue. Will do the same for those of Camanistigoya, Chaquamigon, the Miamis, the St. Joseph river and Lake Alepimigon. The sums received from the farming of these posts will be remitted to the office of the Clerk of the Treasurers-General with the exception of 10,000 livres intended for the poor families of the colony. Has been sorry to learn that the construction of vessels for private individuals has been totally suspended owing to the scarcity of food, Construction of the King's vessels. Preservation of the forests. Reiterated experience of the tiles manufactured in the colony leaves no further doubt of their quality and they should neglect nothing to persuade people to make use of them in the roofing of their houses. Hopes that the Sr. Cotton will resume work at his tile-kilns interrupted owing to the dearth of food. Beaver trade. Militia. Folio 25, 15 pages.

March 30. The President of the Navy Board to MM. de Beauharnois and Hocquart. The commissions of the assessors are limited to 3 years but are renewable. Grant of the Sr. Marsal to the north of the river. Instructions concerning these concessions. Circumstances are still less favourable than last year for procuring the pension they asked for Dame de Boishébert. Folio 34, 2 pages.

March 30. Ordinance respecting the circulation of old sols in Canada. Folio 35, 1½ pages.

March 30. The President of the Navy Board to MM. de Beauharnois and Hocquart. On the subject of the above ordinance. Folio 35½, ½ page.

March 30. The same to M. Hocquart. Concerning the measures to take to obviate the scarcity of food and ensure the grain. Has approved the arrangement he has made with M. de Beauharnois to terminate the dispute between the Srs. Estèbe, the widow Pommereau, the Joliet heirs and Sr. La Fontaine as donee of the Sr. de Lalonde, with respect to the grant made on the north side of the river to the Sr. Estèbe and the late Sr. Pommereau. Folio 36, 2 pages.

March 30. The same to MM. de Beauharnois and Hocquart. Before coming to a decision on the settlement respecting the division snd sub-division of the lands *en censive*, they will look into it anew. The account that the Sr. de la Véranderye has given of the progress of his discovery should not cause a more favourable judgment than in the past on the attention that he gives to it or the desire he has to perfect it. Be that as it may, it is necessary to wait for information as to the result of the last voyage his two sons were to make. It is much to be feared nothing will come of this voyage as of most of the others. Should not have suspended the arrangement concluded with the Sr. de la Véranderye; it should be executed. It is better to demolish the chapel of the Bishop than to repair it. Respecting the repairs of the gateway. Folio 37, 2 pages.

March 30. The same to the same. Furloughs for the soldiers. The Sr. de Sarrobert, cadet à l'aiguillette. The Chev. de Beauvillé has not returned to his family and it is to be believed that he has remained in Canada. Folio 38, 1½ pages.

March 25. Letters of dispensation of age for the Sr. Boisseau fils. Folio 30, 1 page.

March 30. The President of the Navy Board to M. Gaultier. Has procured him the position of assessor to the Council. Folio 39, ½ page.

The same to M. André de Leigne. The King has granted him permission to retire from the service with the enjoyment of the salary of his position. The vacancy has been given to the Sr. Daine, but will remember the Sr. de Rainville, his son-in-law. Folio 39½, ½ page.

1744. March 30. The same to MM. de Beauharnois and Hocquart. Relating to the nomination of the Srs. Guillemin and Gaultier to the Supreme Couucil. The last named has been preferred to the Sr. St. Simon. Other nominations. The Sr. de Rainville. Folio 40, 2 pages.

March 30. The same to MM. Hocquart. As he thinks some advantage might be derived from the observations that could be made with the thermometers, the invention of M. de Réaumur, has given an order for four to be sent. Will endeavour to replace by a white the negro who was the hangman and who is deceased. Try to sell for what she cost the negress who was sent for this negro. Folio 41, 1½ pages.

March 30. The same to the same. Will have loaded as many planks as he can for the use of M. Bégon. Folio 41½, ½ page.

March 30. The same to MM. de Beauharnois and Hocquart. Will have the fort established by the English in the vicinity of the post of Témiscamingue destroyed, and will not suffer any encroachment by that nation in the colony. Could have them harassed by the Nipissingues. It would be difficult to break up the settlement that certain Iroquois have made at the river Blanche. Will limit themselves to the prevention of difficulties. Will induce the Indians who form this settlement to keep their word to drive out the English. Folio 42, 2 pages.

March 30. The same to M. de Beauharnois. As the Hurons at Sandoské have decided to remove to the mainland below Detroit he will take the necessary measures to settle them there. This success does honour to M. de Céleron. Hopes M. de Chev. de Longueuil will labour to dissuade the Hurons from any fancy for a further change. Has reason to believe that Father Degoner who has succeeded Father de la Richardie will conduct himself better than the latter. Will maintain peace between the Indians. It is to be desired that the Indians make incursions against the posts that the English have established at Ouinipigon. The inconveniences he looked for from the farm of the posts do not appear to give reason for apprehension.

March 30. The same to M. Hocquart. The representations made to his brother, Farmer-General, on the necessity of raising the price of tobaccos in Canada have produced no more effect on his company than former representations. Should nevertheless encourage the inhabitants in this culture, particularly at lake Champlain where the climate appears to be most propitious. Will equally encourage the Sr. Gosselin not to relax his botanical researches. Folio 44, 2 pages.

March 30. The same to M. de Beauharnois. Has approved his selection of the Sr. de Fonville for the command at Fort St. Frédéric in the place of the Sr. de Contrecœur. This post requires an able commandant. It is annoying that they have not prevented the establishment of the post of Chouenguen, for it permits the English to associate with our Indians. If hostilities should take place between the two nations, his first care will be to destroy this post and from this time forward he should work with a view to prompt action. Hopes that in view of the situation, for a long time menacing, he has taken his precautions to place the colony in security. It is too late to do anything more with the fortifications of Quebec, but it is not the same with regard to Fort St Frédéric, where useful works may yet be carried out. Cannot send to the colony the artillery he asks for but will see it is amply supplied with gunpowder. Folio 45, 2 pages.

March 30. The same to the same. The King does not judge it fitting to aid in the dowry to Mlle de Lantagnac, the more so that she does not postulate for either of the hospitals the maintenance of which might be useful. Has approved his granting to the Srs. de Saint Castin some increase on the products of the farm of the posts, and will procure for them all the facilities necessary for the execution for the enterprises they may be

1744. able to undertake against the English. Sends 24 medals for the Indians. Has done well to have M. de Léry visit the route from Chambly to Fort Frédéric. Approves his proposition to establish at Montreal a captain of the gates, and that he has chosen the Sr. Tremont for this position. Folio 46, 2 pages.

March 30. The same to M. de Beaucours. If, as he believes, the affair between the English and a detachment of the Iroquois going to the Terres Plates has aroused resentment among the latter he will not fail to take advantage of it. Should have furnished a more detailed account of the conduct of the officers in the affair of the Sr. de Monrepos. Folio 47, 2 pages.

March 30. The same to MM. de Beauharnois and Hocquart. As it appears it is by the help of the domiciled Indians that the soldiers desert, and that without them desertion would be well nigh impossible, they should notify the Indians that those who become guilty of aiding deserters will have no share in the distribution of presents. Folio 47½, ½ page.

March 30. The same to M. de Beauharnois. Hopes that the operations that the King looks for in his part in case of war, will place him in a position to obtain for him the Grand Cross of the Order of St. Louis. With regard to the Chev. de Beauharnois, has not been able to make the change he asked for him. He will therefore return to Canada and hopes he will so comport himself as to merit future favours. Folio 48, 1 page.

March 30. The same to M. Piquet, missionary at the Lake. The King has granted 2,900 livres for the Indians of his mission to place them in a condition to continue the work on the fortifications of their village. Folio, 48, ½ page.

March 30. The same to Father St. Pé. Has been satisfied with his zeal in providing missionaries for the posts of the west, and the Abénakis. Folio 48½, ½ page.

March 30. The President of the Navy Board to M. de Beauharnois. It is regrettable that after having escaped the injury that the caterpillars seemed likely to cause, other misfortunes, much more damaging, have occurred and that after two bad harvests. Folio 50, 2 pages.

The same to M. Hocquart. The King, to whom the inheritance left by the Abbé de Norey comes by right of escheat, has been pleased to make a gift of one half to the hospitals of Canada and of the other half to the Sr. de Norey, lieutenant in the navy, the deceased's brother. Has taken measures to the end that the Sr. de Dormicourt pays the 3,888 livres he owed to the Abbé de Norey. Folio 50½, 1 page.

April 6. The same to M. de Beauharnois. Instructions to prevent desertions among the soldiers. Has not been able to give to the Sr. de St. Simon the position of councillor that he solicited. M. Hocquart has not complained of him. Folio 51, 1½ pages.

April 6. The same to the same. Observations with regard to the proceedings against the Sr. Plichon dit St. Louis, soldier, a deserter. Has not been willing in the meantime to set aside the judgment of the council of war. Folio 52, 1 page.

The same to MM. de Beauharnois and Hocquart. Will look into and report on the representations of the inhabitants of rivière du Sud to compel the Sr. Couillard to repair and maintain his mills, and state the reasons for the decree of the Superior Council on this subject. Folio 52½, ½ page.

1744. April 6. The same to M. Hocquart. Concerning the Sr. Châles, lessee of the posts of Frontenac and Niagara. What he knows of the abilities of this gentleman leads him to believe he will make a good use of his lease. Folio 53, 1½ pages.

April 6. The same to M. de Lanouiller. His request cannot be granted at present. Folio 53½, ¼ page.

April 6. The same to MM. Beauharnois and Hocquart. Observations on the subject of the lease of the posts of Frontenac and Niagara. Folio 54, 1½ pages.

April 6. Order of the King, prolonging the furlough of the soldier Jean Zablet, otherwise Lafortune.

April 6. The President of the Navy Board to M. Hocquart. It is annoying that the inhabitants of Canada do not make experiments that might place them in a condition to judge of the advantages to be derived from the manufacture of fish glue. Culture of hemp. Has received the supplementary volume of the Papier Terrier. Will await the one that should now be finished. Gratuity to the Sr. Verrier for this work and his law course. Cargo of timber for the supply of Chev. Bégon. Timber of lake Champlain. Folio 55, 2 pages.

April 6. The same to M. Varin. Has been satisfied with the various statements that he has sent him. Folio 56, 1½ pages.

April 6. The same to M. Michel. Will take advantage of an opportunity to procure him promotion. Folio 56½, ¼ page.

April 6. The same to M. de Léry. The King approves the establishment of the dry dock that he has made opposite the ship-yard of the St. Charles river. As to the one he proposes at the point of Ile d'Orléans there can be no question of it at present. It will be well in the meantime that he speak of it with MM. Beauharnois and Hocquart. Works for the repair of the bishop's palace. Gratuity. Folio 57, 1¼ pages.

April 6. The same to M. Rigaud de Vaudreuil. M. de Beauharnois has not prohibited the inhabitants in his seignory from trading; he has simply wished to prevent its being carried to an excess. Folio 57½, ½ page.

April 17. The same to M. the Bishop. It is to be desired that the arrangement he has made dividing between the Sr. Maillart and the Superior of the Recollects the powers of Vicar-General of Ile Royale may cause the discontent to cease. He should recommend the missionaries of Acadia to conduct themselves towards the English officers in such a manner as not to cause difficulties. Is of the opinion he should have consulted with MM. Beauharnois and Hocquart on the arrangements to be made for the appointments to cures, the tithes and marriages. Hopes he has reduced the number of festivals as has been done in France. Folio 58, 2 pages.

April 17. The same to MM. de Beauharnois and Hocquart. The King has been forced to declare war against England notwithstanding all the efforts to avoid it. Will have the ordinance on the subject posted up. Instructions. Folio 59, 1½ pages.

April 17. The same to M. Hocquart. Reflections on the statements concerning the trade of the colony. It is to be feared the vessel-owners do not care to carry the surplus of the next harvest to Ile Royale or the islands. The King will in the meantime take measures for protecting them. Folio 60, 2 pages.

April 17. The same to be the same. Has this year stopped the gratuity to the Sr. de Léry Sr. seeing he has made no voyages for the service. Has granted one of 200 livres to his son. Fund in aid of the Montreal Hospital. Folio 61, 1½ pages.

The time allowed M. de Ramezay, captain for the working of the post of Alepemigon having expired, the King has disposed of it in favour of the Sr. de Laporte Lalanne, Cemmissioner of the Navy, serving in the department of the Colonies, as a mark of satisfaction with the services he has rendered, particularly in the voyage he has made to Canada. Folio 64½, ½ page.

Hocquart to take the sum of ten livres per annum on the proceeds of the lease of the four posts to pay his creditors cannot be approved ; MM. de Beauharnois and Hocquart will consider the possibility of another arrangement. Folio 70, 1 page.

April 24. The same to MM. de Beauharnois and Hocquart. With respect to a sum of 4,000 livres belonging to the Montreal hospital that the Sr. Beaudry de la Marche has on hand regarding the distribution of which he asks for directions. Folio 70, 1 page.

April 24. The President of the Navy Board to MM. de Beauharnois and Hocquart. Two merchant vessels have been chartered to carry passengers and supplies to Ile Royale and Canada that *La Gironde* has not been able to take. Folio 72, 1 page.

April 30. The same to M. de Beauharnois. Has already represented to him that in case of a rupture with England he has nothing to fear on the side of the sea, seeing that the attempts of the English in this direction have always proved fruitless. They would still have the same difficulties to surmount without making very considerable preparations and expenditures. There is reason to believe, besides that if they undertake armaments of that importance they will use them for other objects that excite their interest to a greater degree. Will in the meantime neglect nothing. There is ground to think the colony will have no greater reason for fear on the land side, the forts of St. Frédéric and of Chambly and the fortifications of Montreal securing it against attack. In any case he ought to have sufficient troops to hold in check a considerable force. Hopes they will be able to take the offensive, and in that case, if he believes it will not cause a hostile movement on the part of the Iroquois, he could attack fort Chouengouen. He could also attack the English ports on the Hudson Bay side and as in the past disturb the New England and New York settlements. Another object that holds a strong place in the heart of the King is the conquest of Acadia, it is from Ile Royale that the attack should be directed. Will examine the question whether an enterprise could not be attempted by land. M. Duquesnel has orders to look after the inhabitants of Acadia. It is to be hoped that the Iroquois will observe neutrality as they did during the last war, but it may be relied on that the English will neglect nothing to induce them to declare for them. The choice of commandants for the posts requires particular circumspection, for on their conduct will depend the events that are to be feared or hoped for on the part of the Indians. Folio 73, 3 pages.

ILE ROYALE.

DESPATCHES AND ORDERS OF THE KING.

1744.

1744. Versailles. March 13. The President of the Navy Board to M. Duquesnel. We are on the eve of a rupture with England. Has not a moment to lose to prepare himself for events. Folio 1, ¼ page.

March 3. The same to M. Bigot. The Compagnie des Indes has adopted measures to have the vessels they expect from the Indies take refuge at Ile Royale, where they arrive towards June or July. Will procure them all the supplies they may require. Folio 1½, ½ page.

March 13. The same to the same. Has taken measures to have forwarded from France all the vegetables that Canada has been in the habit of supplying. The King proposes to send out two vessels for the defence of the colony and the protection of the fishery and commerce. Divers instructions. Folio 3, 1½ pages.

March 29. The same to the same. Sends them a dispatch in the form of an Edict concerning the one-tenth of the prizes taken at sea claimed by the Admiral of France. Folio 3½, ½ page.

March 29. The same to the same. The King has ordered *L'Ardent* to Ile Royale as well as the *Caribou*, but the armament of the last-named will only be completed at Louisbourg. M. de St. Clair will command *L'Ardent* and will have the *Caribou* under his orders. It is not probable that the English will attempt an enterprise against Louisbourg this year. If they see no danger of an immediate attack, M. de St. Clair will devote himself by preference to the protection of the commerce and the fisheries in the neighbourhood of the Gulf and to take prizes from the enemy. Folio 4, 2 pages.

March 29. The same to the same. Respecting shipments for the colony as well as for the armament of the *Caribou*. Divers instruction and information. Folio 5, 1½ pages.

April 17. The same to the same. Approves the Sr. Muiron continuing to employ soldiers on the fortification works. The Srs. Pascaud last year had good success in the killing of sea cows at the Magdalen islands. Fears their work may suffer gravely in consequence of the war. It will be well to advise the missionaries in Acadia to do nothing that may serve as a pretext for sending them out of the country. As to those of the Indian Missions, he hopes they will second the views of M. Duquesnel by inducing them to organize enterprises against the English. Folio 62, 2 pages.

April 17. The same to the same. No new recruits will be sent to Ile Royale. Will not grant furloughs to soldiers, even at the expiration of their terms of service, if the war is not then ended. Hopes that the arrangement of the Bishop dividing the functions of Vicar-General between the Sr. Maillart and the Superior of the Recollets will give satisfaction. Folio 7, 2 pages.

April 17. The same to the same. Half-pay cannot be granted this year to Surgeon Descout at Ile Royale. The choice of chief town cannot be settled in the

1744. present conjuncture. Respecting the Sr. Poulard, accused of having traded with the English. The best way of putting an end to the difficulties with the English with regard to Canceau is to profit by present circumstances to take possession of it. Cannot for the present grant to the Sr. Couagne the the position of assistant engineer, which is filled by the Sr. Verrier Jr. Folio 8, 2 pages.

April 17. The same to M. Duquesnel. Concerning the illicit trade of the Srs. Poulard and Boismory. If a sufficient number of daughters of officers are not found to fill the eight places founded at the convent under clauses of the will of the Sr. de Forant, what remains will go to the Sisters. Folio 9, 1½ pages.

April 9. The same to MM. Duquesnel and Bigot. Will give to the Sr. de la Garande, merchant, at Granville, who has fitted a vessel for war, all possible assistance. Folio 10, ½ page.

April 17. The same to the same. Will give to the Sr. de Corbier the first vacancy as cadet l'aiguillette. Folio 10, ½ page.

The leaves-of-absence asked for various officers have not been accorded. Has granted him a gratuity of 3,300 livres. Folio 11, 2 pages.

April 21. The same to the same. There can be no question for the present of increasing the troops at Ile Royale. Has approved his having again designated the Sr. Dangéac to relieve the Sr. de Chambon Vergor in the command of Port Dauphin. Will leave that of Port Toulouse for one year to the Sr. Benoit. Will cause them to be relieved by other offcers, for the purpose of giving a larger number an opportunity to prepare themselves to fill these positions. Approves his having disposed of two vacancies for cadets in favour of the Srs. de Cournoyer and Potier Du Buisson. If he thinks the appointment of a captain of the gates is necessary at Louisbourg, he can give the appointment to the Sr. Artel. Folio 22, 2 pages.

April 21. The same to M. Bigot. Respecting the expences of the hospital. Is satisfied with the report he has sent of the accounts of the fiscal years 1741 and 1742, and of those for the same two years of the receipts and expenses of the Louisbourg lighthouse. Folio 13, 2 pages.

April 21. The same to M. Bigot. Measures to be taken to provide for the needs of the colony while awaiting the arrival of supplies from France. Will bring as many of the inhabitants as he can to Ile St. Jean to increase the production of wheat. The balance of the same produced by the confiscation of the effects of the Sr. Desvaux should go towards the expenditures on the fortifications. Is satisfied with his information on the subject of the goods sent from the storehouses of Rochefort in 1720 to M. le Comte de St. Pierre. Folio 14, 2 pages.

April 21. The same to the same. Will endeavour to dispose of the 500 barrels of coal furnished by the Sr. de la Boulardière, as *La Gironde* should take nothing on board for her return to France. Will supply nothing to the Sr. de la Boulardière from the King's storehouses unless he pays the same as other persons. Will also oblige him to repay the advances made to him. Will give an account of the qualifications of the Sr. de Cournoyer for the duties of bailiff. Folio 15, 2 pages.

April 21. The same to the same. Concerning the food supplies and the accounts of purchases and sales. Folio 16, 2 pages.

1744.
April 21. The same to the same. Respecting the flour sent last year by *La Gironde* which was found to have been spoilt by the heat at the bottom of the ship's hold, the fraud in regard to the butter and the leakage of oils. Will first have the old flour consumed. The pork will be sent by *La Gironde* as well as the clothing for the company of gunners. Approves his having sent food for one year to ports Dauphin and Toulouze. Divers instructions. Folio 17, 3 pages.

April 21. The same to the same. Considerable errors found in the examination of the Statements of the commerce of Ile Royale for the year 1743. Observations on the subject. Folio 20, 4 pages.

April 24. The same to the same. Bills of exchange. Observations on the expenditures of the colony. Folio 21½, 1 page.

April 24. The same to the same. Is pleased that the delay in the voyage of *La Gironde* last year did not affect the circulation of specie in the colony. The same storeship will make the voyage to Louisbourg and will leave at the end of the month. Expenses. Folio 22, 4 pages.

April 30. The same to MM. Duquesnel and Bigot. Send the list of officers chosen to serve on *Le Caribou*. Folio 23½, ½ page.

The same to M. Duquesnel. The colony of Ile Royale excites the jealousy of the English to a high pitch, and it is to be presumed they will neglect nothing to take possession of it, but they can do nothing of value without the occupation of Louisbourg. For that they would require to make great preparations of such a kind there is nothing to fear for the present year. The King relies much on his zeal and activity, and hopes that if he is not forced to keep to the defensive he will not lose sight of enterprises against Acadia. It is too late this year to prepare an armament specially intended for this conquest by sea. Will submit a plan showing what can be done by land equally from Ile Royale as from Canada. He will do the same

April 30. with regard to Plaisance. Folio 24, 2 pages.

The same to the same. The King having regard to the representations of M. de Bourville, has granted him leave to quit the service with a pension of 1,200 livres, 400 of which are reversible to his wife, besides a gratuity of 1,500 livres. April 30. to Ile Royale, to continue his services there. Folio 26, 1½ pages.

The same to MM. Duquesnel and Bigot. The health of M. de St. Clair not allowing him to command *L'Ardent*, it is M. Meschin who will replace him. M. de la Souzaye will command *Le Caribou*. Folio 26½, ¼ page.

1744. April 30. The same to the same. Concerning the fortifications. Will send the artillery, but does not think it necessary to mount guns on all sides of the fortifications. As it is not probable that the enemy will be strong enough to assail this town on all sides at once, guns could be removed as required to defend the side attacked. Works that can be carried out next year. On their representations a new powder mill will be constructed. Folio 27, 3 pages.

April 30. The same to M. Du Vivier du Chambon. Has promised him the lieutenancy vacant by the promotion of Sr. Thierry de Chassin. Folio 29½, ½ page.

The same to M. Bigot. The satisfaction he has given by his services here led the King to give him the rank of commissary general. The increased pay he will receive by this appointment will not prevent his still receiving the extra gratuity he has enjoyed. Hopes the present difficult conditions of the colony will cause him to give up the leave of absence he has obtained. Will assist him if needed in arranging the family affairs he may have to look after in France. Folio 30, 1 page.

CANADA: THIRD PART.

DESPATCHES AND ORDERS OF THE KING, 1745.

1745. Versailles. March 10. The President of the Navy Board to MM. de Beauharnois and Hocquart.

The command of the frigate *Le Castor* has been given to the Sr. Morpain, captain of the fireship and of the port of Louisbourg. The duty of this vessel is to protect the commerce between Canada and Ile Royale entering and leaving the St. Lawrence in vessels going to or coming from France. Folio 1, 1½ pages.

March 10. The same to M. Hocquart. The 200 men composing the crew of the frigate *Le Castor* will be sent on a merchant vessel from St. Malo to Louisbourg, where it will discharge provisions for supplying the frigate for five months, and there take the Sr. Morpain on board for passage to Quebec. Will notify the merchants to place themselves under the protection of this storeship to proceed from Quebec to Ile Royale. Will take advantage, if possible, of the frigate or some vessel that she will convoy to send M. Bigot 1,200 to 1,500 quintals of flour and a supply of vegetables. Folio 1½, 2 pages.

March 16. The same to MM. Beauharnois and Hocquart. The Compagnie des Indes has consented on their representations to raise the price of beaver during the war. Will notify the merchants of this change, without omitting to tell them that the old price will be restored after the war. The merchants and voyageurs must not in the meantime take advantage of this rise to increase the price of their goods, as such a course would dispose the Indians to discontinue trading with the French. Folio 3, 2 pages.

March 17. The same to M. Hocquart. The King has approved the use of the small timber found in Quebec for the construction of a frigate of 22 guns. Although the proposal for the new ship-yard in the Lower Town is not yet accepted he will proceed in the meantime with everything necessary for the construction of the vessel *Le St. Laurent.* Will furnish M. Bigot such supplies as he is able. Folio 4, 1 page.

March 25. Warrant ratifying grant in favour of the Sr. Foucault of a piece of land in fief and seignory with two leagues frontage on the Chambly river and a depth extending to the Baie de Missiskuoy, in addition to a league of front, with the same depth to be taken at the end of the said two leagues in ascending the Chambly river. Folio 5, 2 pages.

March 25. Warrant ratifying grant in favour of the Sr. Péan de Livandière, town and castle major at Quebec, of a piece of land of three quarters of a league front with three leagues in depth bounded in front by the rear line of the

1745. Seigneurie de Vincennes, on one side to the north-east to the line of the Seigneurie de Beaumont on the other side, to the south-west by the Seigneurie de Montapenne. Folio 6, 2 pages.

March 25. Warrant of ratification of grant in favour of the Sr. Chavoy de Noyan, captain, of a piece of land of two leagues front with a depth of three leagues, bordering the fief of the Sr. Foucault. Fo. 7, 1 page.

March 25. Warrant of ratification of grant in favour of the Sr. Daniel Liénard de Beaujeu, Jr., lieutenant, of a piece of land of two leagues front, with a depth of three leagues, bounded on the north by the Seigneurie of the Sr. Chaussegros. Folio 7, 1 page.

March 25. Warrant of ratification of grant in favour of the Sr. Estèbe, Councillor of the Superior Council of Quebec, of a piece of land of two leagues front with three in depth, adjoining the grants of the Srs. Péan, de St. Vincent, Jr., facing Lake Champlain. Folio 7½, ½ page.

March 31. The President of the Navy Board to MM. de Beauharnois and Hocquart. Has selected *Le Vigilant*, *La Renommée* and *Le Castor* to protect the commerce of Canada and Ile Royale. Has granted an extraordinary gratuity of 800 livres to M. Deschaillons, and to Mde. de St. Vincent the ordinary gratuity enjoyed by Mde. de Langloiserie. The pension of Mde. La Chaissaigne cannot be granted to the Dames de Boishébert and Des Méloises owing to the war. It does not appear necessary to establish the position of Captain of the Coastguards on the north side of the lower St. Lawrence, but the Sr. Volant may in the meantime enjoy the commission that M. de Beauharnois has sent him. Folio 8, 2 pages.

March 31. The same to the same. Has approved the expenditures incurred during the past year for the re-establishment of the batteries and utensils of artillery at Quebec, occasioned by the news of the declaration of war. On the fortifications of the colony. Will encourage privateering. The facilities the Canadians would find at Louisbourg, as much in artillery, arms and munitions, as well as the letter from the King authorizing the Commandant and Intendant commissary to give effect, jointly with the officers of the Admiralty, to judgements relating to prizes, should attract them there. Recompense promised to corsairs who signalise themselves. Folio 9, 2 pages.

March 31. The same to M. Hocquart Will be provided with supplies of everything necessary for the fitting out of *Le St. Laurent* which is to be constructed at Quebec. The establishment of flour mills at Ile Royale, proposed by M. Bigot for the purpose of supplying bran and meals has not been accepted. This undertaking would be too costly if carried on at the expense of the King. The Farmers general, will not increase the price they pay on Canadian tobacco. Orders have been given to M. de Selle to forward to Canada 3,000 livres in pieces of 2 sols. Folio 10, 2 pages.

March 31. The same to the same. The captain of the port can perform the details of duty alone. Will in the meantime continue to employ the Sr. de la Morille, and in accordance with the testimony that may reach him subsequently, the King may give him the position of ensign of the port. Sees that the presents to the Indians for the past year have increased to 60,099 livres. It may be necessary during the war to make special distributions to them, but it must be avoided as much as possible for fear that when peace is declared they will complain of a reduction. Uselessness of the position of assistant surgeon of Quebec. Folio 11, 2 pages.

March 31. The same to the same. On the manufacture of glue from fish. The culture of hemp. Leaves to him the deed of the lease of the post of Tadousac, and to fix the extent of this post. Gratuities to the Srs. de Boisclerc and Verrier. The wife of one Gochereau is notified that she will be given a passage on *La Gironde* with her children. Folio 12, 2 pages.

April 12. The same to the same. Concerning the accounts of the Western Domain. Folio 13, 4 pages.

1745.
April 12. The same to the same. On the finances of the colony. Folio 15, 2 pages.

April 12. The same to the same. Respecting the bills of exchange drawn to cover the expenditures of the colony. Folio 16, 2 pages.

April 12. The same to the same. On the bills of exchange drawn for the purpose of the ordinary expenses of Canada. Folio 17, 2 pages.

April 12. The same to the same. On the funds of the colony. If they cannot settle the expenditures they should at least endeavour to prevent abuses in the transactions of subordinates. Folio 18, 2 pages.

April 12. The same to the same. Observations on the state of trade. The excess of imports of merchandise over the exports is explained by the deficiency in the harvest. Folio 19, 2 pages.

The same to the same. On the provisioning of the King's storehouses in the colony. On the contract for supplies with the Srs. Pascaud. Folio 20, 2 pages.

April 12. The same to the same. It would be necessary to have cables and anchors always in reserve at Quebec for the service of the King's vessels, but the consumption of these articles this year has been so large, the wants of Quebec cannot be supplied. Will ascertain if the acquisition of the Sr. Foucault's house for a block-maker's workshop has not become unnecessary since the King has approved the proposal for the establishment of a new shipyard at the Cul-de-Sac of Lower Town. On the reports in favour of David and Etienne Corbin, carpenters, hehas given them the position of foremen. Folio 21, 2 pages.

April 12. The same to the same. Has done well to to raise the number of the crew of the *Caribou* to 150 men. Has approved his having sent 25 bars of iron for the fortifications of Louisbourg. Has seen with pleasure that the good will of the Indians generally can be counted on during the war except perhaps the Iroquois of Sault St. Louis. Had already learned the taking of three vessels last year that had been fitted out for Canada. The German, Makey, who called himself a Wolf Indian has died at Brest. Folio 22, 2 pages.

April 12. The same to the same. Concerning the inheritance left by the Abbé de Norey. The thermometers of M. de Reaumûr sent last year being useless on account of their graduation, four others, such as he asks for will be sent. There will also be sent an astronomical clock marking the seconds, with a telescope by the aid of which Father Bonceau and the Sr. Gauthier will be able to make useful and curious observations. Folio 23, 2 pages.

April 12. The same to the same. Is well persuaded he has done all in his power to induce the inhabitants to make a good seeding so that the colony may be in a condition to supply foodstuffs to the Islands and to Ile Royale.

The King has destined strong squadrons for the Southern Islands so that nothing need prevent the merchants of Canada following their ordinary trade. It would no doubt have been better to have had their vessels convoyed, but the expense would have been too great. It was a great imprudence on the part of Captain Dulonquet to carry the crew of the English vessel he had taken to the Sr. Brouagues' house. It is to be hoped that no bad results will follow from the knowledge the two pilots who were in the party were able to gain of this post.

April 12. The same to MM. de Beauharnois and Hocquart. The Sr. Macarty, post captain at La Rochelle, has been made captain of the port of Quebec in the place of the Sr. de Beauvais, deceased at St. Domingo. Although he may command the frigate of 22 guns that is being constructed at Quebec it is not thought that the details of the port duties require the appointment of an ensign. Has approved the salary of 800 livres proposed for the Sr. Trémont, captain of the gates at Montreal. The situation at the arsenals does not permit the sending of the artillery asked for to Canada. The coming year it will be sent, the whole or in part. Will send by *La Gironde*

1745. 500 guns from Tulle ; Those from St. Etienne will be furnished by the Srs. Pascaud. Folio 25, 2 pages.

April 24. The same to M. Hocquart. The news of an enterprise by the English against Louisbourg interferes with the arrangements made. If the crew for the *Castor* cannot go on board at Louisbourg it will proceed to Quebec. Folio 26, ½ page.

April 24. The same to the same. As the English are to make an attempt on Louisbourg in the spring, and the Sr. Morpain cannot take the command of the *Castor*, he will give it to the Sr. Dubois who is going to Quebec on the vessel *L'Heureuse Marie* with the crew for the *Castor*. Will give to the Sr. Dubois the instructious called for by the circumstances. Folio 26, 1½ pages.

April 26. The same to the same. Will propose the increases and exceptions that conditions in Canada seem to require with regard to the Declaration of the King concerning the religious orders and cases of Morte-main. The acquisition of the land at Portneuf by the Ursulines being prior to the registration of the above Declaration, he will not disquiet them on the subject but will only remit to them one fifth of the seignorial dues. The enjoyment for life of the grant to the Sr. La Fontaine on the bank of the St. Lawrence cannot be extended to his wife and children. Approves his having sent a new title for six years only. Settlement with M. de la Lanne as to the working of the post of Lake Alépimigon. Folio 27, 2 pages.

April 26. The same to the same. The Sr. de Rouville has been made Lieutenant-General of Three Rivers. Will revoke the new title sent to the Sr. Marsal for his grant and will dispose of it in favour of someone who will work it properly. Respecting the grant to the Sr. Bazile. Will leave to M. the Bishop, the question of the Chapel of the Episcopal Palace. Will confirm by a deed in due form the renunciation by M. the Bishop to the reserves he had set aside for the repairs of the Episcopal Palace and which he had disposed of for the sum of 1,220 livres. Will notify the Sr. Morin and other inhabitants of the South River that they have no reason to agitate against the decree of the Superior Council in favour of the Sr. Couillard, and if their agitation does not stop the matter will be dealt with. Folio 28, 2 pages.

April 26. The same to the same. If the English Settlements on the shores of Hudson Bay have been destroyed in accordance with the plan of M. de Beauharnois, this success will have the effect of changing their views of aggrandisement on that side. It will be well to avoid difficulties that may arise from the settlement of the Iroquois at the Rivière Blanche in regard to other posts. Desire that the Indians at least hold to the promise they have given to drive out the English at this post. It seems to be evident from the journal of the Sr. de la Vérandyrie that neither he nor his children have followed the route which should lead them to the Western Sea. The Sr. de la Vérandyrie having asked to be relieved of the command of the Posts that he has established, the King approves having given the command to Sr. des Noyelles to whom the adventurer should pay 3,000 livres yearly for the lease of the posts but does not believe this officer will work more sincerely than his predecessor for the discovery of the Western Sea. On the subject of the Ordinance relating to the subdivision of lands in Canada. Folio 29, 2 pages.

April 26. The same to the same. Has reason to believe the working of the Frontenac posts been advantageous to the Sr. Chasles, but regrets that the wreck of a boat has lost him the trade of Niagara. This is all the m ore regrettable as the withdrawal of the English from the Chouenguen post compelled the Indians to take their furs to Niagara. Approves the increase on merchandise asked by the Sr. Chales having been settled by a tariff. The complaints of the French and of the Indians would not have been so per-

1745.

sistent if the Sr. de Céloron, who commands at Niagara had been better disposed to favour the welfare of this farm. The increase in the price of beaver granted by the Compagnie des Indes may partly recompense the Sr. Chasles for that occasioned by the war on trading goods. Reinforcements of

April 26. 22 men for the Niagara garrison. Folio 39, 2 pages.

The same to M. Hocquart. Approves his having relieved the Sr. Chales of the transport from Montreal to Lachine of the supplies for the garrisons of Frontenac and Niagara. May reduce the payment under the lease by the

April 26. Sr. Chales to 2,000 livres during the war. Folio 31, 2 pages.

The same to M. de Beauharnois. The King has been greatly pleased with the sentiments of fidelity expressed by the Indians of the Two Mountains in the harangue that has been transmitted to him. Is pleased with the zeal of Father Piquet their missionary. The experience the Iroquois of Sault St. Louis met with at Orange gives a not very flattering idea of their attachment. Send him an order to expel the Dlles Desauniers from the Sault St. Louis Mission.

Relating to the new obstacles that have arisen in the transfer of the Chanouns. Hopes that the Sr. Poudret, sent for the purpose, has been able to remove these obstacles. On his representations and in consideration of the former services rendered by the Sr. de la Vérandyrie, the King has

April 26. given him the company he has asked for. Folio 32, 2 pages.

The same to the same. As it is not probable the English will make an attack on Canada this year, it is unnecessary to undertake new works on the fortifications of Quebec. Approves his having strengthened the garrison of St. Frédéric. General instructions on the measures to be taken for defending the colony. The campaign against Acadia has been without result. It is hoped to retake it this year. In that case, he will give M. de Chateaugué who is to replace M. Duquesnel all the assistance in his power.

April 28. Folio 33, 4 pages.

The same to M. Hocquart. The King has granted him the additional land he has asked for to extend his seignory at Lake Champlain. Folio 35, ¼ page.

Warrant confirming grant in favour of the Sr. Hocquart. Folio 35, 2 pages.

April 28. The President of the Navy Board to M. de Beauharnois. Will recompense the Srs. de St. Castin for their services in accordance with the proofs they give of their zeal under present circumstances. Medals for the Indians. Is not aware whether M. de Vaudreuil has made peace with the

April 28. Chicachas. Folio 36, 2 pages.

The same to the same. Will remember the good conduct of the Sr. de Boisrond during his stay in Canada. On the discipline of the troops, precautions to prevent desertions, the difficulty of sending recruits. Will renew at the age of 16 years, the engagements of those who had not previously reached that age. Will grant no leaves of absence to officers during the war except in cases of absolute necessity. Has procured for the Sr. de Cry, who had charge of his despatches, a traders' license to compensate him for his expenses. Would have done something for the Sr. de Chivremont if he had not heard of his death. Folio 37, 2 pages.

April 28. The same to the same. The conduct of the Sr. de Varennes has been too irregular and too bad an example to recommend him to favour. Observations on the importance of the destruction of the English post at Chouengouen. The King is not disposed to appoint a Commissary General at Montreal notwithstanding his desire to procure promotion for the Sr. Michel. Should have no doubt of his good-will and will not neglect to

April 28. prove it when opportunity offers. Folio 38, 2 pages.

The same to the same. M. de Vaudreuil, Governor of Louisiana, has established small posts on the banks of the Missouri with the view of putting

1745. a stop to the irregularities committed by the coureurs de bois from Illinois. It would be well to define the trading limits of the two colonies. Knows the disposition of M. de Vaudreuil too well to think he would do anything contrary to the subordination he owes to him. Will confer with him. The Sr. de Lusignan, who commands at la Baye, may have good reasons to complain of the Sr. Augé and to send him to Montreal, but at the same time it cannot be ignored that most of the officers seek only to disgust the lessees of the farms of the posts in the hope of re-establishing things on the old footing, and it is this conduct that compels the lessees to send them away. Folio 39, 2 pages.

April 28. The same to the same. The precautions he has taken to prevent the English establishing themselves on the Chicat river, were very fitting. Will have incursions made on the side of Orange as well as on Acadia. Will have the post established by one Lydius on the banks of the Grand Portage destroyed. This post is the market for the Canadian beaver and it is to be feared that the English in more tranquil times would profit by it to stretch out on the side of Lake Champlain. It would be well, if that be possible, to remove the Sr. Lydius for the purpose of sending him to France. Has seen by the census of the militia of Canada that the men in a condition to carry arms, counting 976 absentees, number 12,261. Regrets that he is 5,000 guns short for arming them. Will take measures to increase the supply. Folio 40, 2 pages.

April 28. The same to M. Hocquart. Relating to the deficit in the office of the Sr. Roebert, store-keeper. Will endeavour to see that his successor makes it good. Folio 41, 1 page.

April 28. The same to M. de Céloron. Difficulties and opposition on his part shown by the lessee of the post of Niagara. If he does not change his course, the King will make him aware of his dissatisfaction. Folio 41, 1 page.

April 28. Order of the King enjoining the Dlles. Désauniers to retire to Montreal or Quebec, and prohibition of their return to the Sault. Folio 41½, ¼ page.

April 28. Dispensation on account of affinity between the Sr. Guillaume Guillemin, councillor, of the Superior Council of Quebec, and the Sr. Foucault, his father-in-law, another councillor in the same Council. Folio 41½, ¼ page.

April 28. Memorandum from the King to MM. de Beauharnois and Hocquart. Is pleased with the good understanding which always exists between them and with the Bishop. Could have wished they had been able to concert with the Bishop on the tithes, marriages and the appointments to cures. Has no doubt that the number of festivals has been reduced in such a manner as to avoid murmuring by the people. The King is disposed to give the position of councillor, vacant by the death of the Sr. D'Artigny, to the Sr. Perthuis. Measures taken for the protection of navigation between the colonies. Increase of live stock. Enterprise of the Sr. Fornels at the Baie des Esquimaux. Salmon fishery; should be prepared in Canada as it is in Europe. Relating to various kinds of fish. Cultivation of the land. Progress of the settlements of the river du Sault de la Chaudière of Lake Champlain. The King has approved their forming a parish in the Seignory of the Sr. Foucault; the mill he has constructed there should help the settlement. Ordinance concerning the too great division of the land. Village of Missisquoy. Distribution of commands in the Western posts. Leasing of the posts. Will give from the proceeds of the leases, 10,000 livres to the poor families of the colony, and the remainder will be paid into the office of the Treasurers-General. Complaints of the lessees against the commandants of the posts. The quality of the tiles manufactured in the colony leaving nothing to be desired, will make use of them in covering the powder houses and will encourage their production. Frauds in the beaver trade. Will assemble the chiefs of the Iroquois of Sault St.

1745. Louis to make known to them the dissatisfaction of the King on the subject of their trading with the English notwithstanding the war. Folio 42, 14 pages.

May 5. The President of the Navy Board to M. de Beauharnois. Command of the post of Detroit. The lessee of the posts of Frontenac and Niagara could not foresee that the English would abandon Choueguen and it is not his fault if he has lost the trading goods at Niagara. If the Sr. de Celoron had been better disposed towards the lessee he could have made arrangements with him to prevent the complaints of the Indians. The lease of this post merits all attention for the diminution it causes in the expenses of the colony. Folio 49, 2 pages.

May 5. The same to. M. Hocquart. The request of M. Michel to be made Commissary General of the Navy at Montreal cannot be entertained. Id. as to a leave-of-absence in France. Is pleased with the work of the Sr. Delisle in relation to the accounts concerning construction expenses Has approved the embarkation on the *Le Caribou* of the son of the Sr. de la Gorgendière as midshipman. Has apppointed him to Rochefort. Full pay of 2,400 livres granted to the Sr. Lavasseur and withdrawal of his extra gratuity of 300 livres. The Sr. de Monrepos. The Sr. de Varennes. Folio 50, 2 pages.

May 5. The same to the same. The vessel *Le Caribou* has been found well built. M. de la Sousaye, who has commanded her, is satisfied with her speed, and with the manner in which she behaves at sea, but they have been obliged to alter her fittings. The mizen-mast has been changed. It is thought that white pine is not suitable for the masts. Would be very glad if they would use more spruce in the construction of the new frigate so as to be able to judge better of the value of this timber for the purpose. Has approved his project for a new shipyard at the Cul-de-Sac of the Lower Town. Is pleased with the new discoveries of white oak as well as of timber for masts. Must increase the manufacture of pitch and tar. Has heard no more of the establishment that was to be formed for that object at Lake Champlain. The Sr. de la Perrière. Has the intention of sending to Canada after the war cultivators of the Kingdom to devote their attention more particularly to the cultivation of hemp. Must look into measures to be taken to manufacture at St. Manrice not only nails but arms and cannon. Proposes to send a founder capable of making experiments. Hopes he will be able to find a young man of ability in the colony to assist M. Levasseur in construction with a view to replace him later on. Folio 51, 3½ pages.

May 5. The same to M. Levasseur. Felicitations respecting the construction of the *Caribou*. General instructions. Folio 52½ 1 page.

May 5. The same to MM. de Beauharnois and Hocquart. Is pleased with the new discoveries of timber, and it is not permitted to doubt them as M. Levasseur has himself visited them. To ensure the transportation of this timber from Lake Champlain to the St. Lawrence, he approves the measures which may be taken to remove the rocks in the Chambly rapids. Returns them the plans, approved, for the vessel the *St. Laurent* and the frigate of 22 guns. Folio 53, 2 pages.

May 5. The same to the same. It is evident it would be difficult to build large vessels at the shipyard on the St. Charles river, on account of the inconvenience arising from the small quantity of water brought up by the tide in this part, as well as from the difficulty that is experienced at certain times of taking vessels in safety to the roadstead after they have been placed in the water. M. Hocquart will without delay take the proper steps to form a new shipyard at the Cul-de-Sac in order to put it to use as soon as possible for the construction of the *St. Laurent*. Reasons that lead him to prefer the Cul-de-Sac to the locality suggested at the Ile d'Orleans. In-

1745. structions on the subject of the acquisition of land at the Cul-de-Sac. Folio 54, 3 pages.

May 5. The same to M. de Beauharnois. Same subject. Folio 55, 1 page.

May 5. The same to M. de Léry. In relation to the shipyard at the Cul-de-Sac. Extraordinary gratuity of 300 livres. Id. of 200 to his eldest son and a position as second ensign to his cadet son. Will give to MM. de Beauharnois and Hocquart a memorandum on the establishment of a road from the locality called "La Bataille" to above the St. Jean rapid. On their advice a decision will be taken. Folio 56, 2 pages.

May 5. The same to M. de Beaucours. Is pleased that he has informed him minutely of the affair of the Sr. de Monrepos with the officers. Folio 57, 1 page.

May 5. The same to M. Varin. Has been able to state that his voyage to Montreal has been useful. Respecting the deficit of the Sr. Roebert. Will not purchase merchandise at Montreal if that sent by the King arrives in good time. Has not been able to procure promotion for the Sr. Dubosc. Folio 57, 1 page.

May 5. The same to Father Piquet. Is pleased with the fidelity and the attachment of the Indians of his mission as well as with his zeal. Folio 58, ½ page.

May 5. The same to Father St. Pé. The report that he makes on the conduct of the Indians of Sault St. Louis, is little calculated to remove the doubts that he himself entertains with regard to them. Will provide for the missions of the western posts. Folio 58, ½ page.

May 5. The same to M. Jacran. The state of the finances does not permit the founding at Quebec of an establishment for the custody of girls of evil life. Folio 58½, ½ page.

May 5. The same to M. Deat. Id. for a similar establishment at Montreal. Folio 58½, ½ page.

May 5. The same to Mlle de Ramezay La Perre. Should address herself to M M. de Beauharnois and Hocquart for a grant. Folio 59, ¼ page.

May 5. The same to M. Le Gardeur de St. Pierre. Has had no opportunity to promote him this year. Folio 59, ¼ page.

May 5. The same to M. Des Chaillons. Has granted him an extraordinary gratuity of 800 livres. Folio 59, ¼ page.

May 5. The same to M. de Lanouiller. Will continue for two more years the extraordinary gratuity of 3,000 livres to him on the lease of the posts. Folio 59, ¼ page,

May 5. The same to Father Bonnecamps. Sends to M. Hocquart a pendulum beating the seconds, a telescope and four thermometers. Folio 59½, ½ page.

May 5. The same to M. Gauthier. Has been made councillor. His collection of objects relating to natural history has been placed in the King's gardens. Folio 60, ½ page.

May 5. The same to M. le Baron de Longueuil. Notwithstanding the large number of applications he will give his son a position as midshipman if he is of the required age. Folio 60½, ¼ page.

May 12. The same to M. Hocquart. Will endeavour to make the Sr. Michel understand that he must show proper regard for the Sr. de Monrepos and that it does not become him to act with hauteur and without discretion. Will let him ignore the complaints of the Sr. de Monrepos. Folio 61, 1 page.

1745.
May 12. The same to M. Guiton Monrepos. Has asked M. Hocquart for information as to his claims concerning the functions of his office. Folio 61½, ½ page.

May 12. The same to MM. de Beaubarnois and Hocquart respecting the St. Maurice forges. As long as the war lasts the formation of a company in France to work these forges cannot be hoped for. In the meantime they should be operated for the account of the King. Has been very glad to see that the receipts for the past year equal the expences. But he should have liked M. Belleville who is responsible for the management to have forwarded the statement. This year two workmen skilled in foundry work will be sent. Had hoped to send a foundryman capable of casting guns but an accident prevented the person engaged from taking ship. By the details of the estimates it seems that the forges and all connected with them represent a sum of 174,849 livres and the advances of the King 192,642 livres. Nothing can be decided now as to the remission of the balance asked by those interested in the old company; it will depend on the arrangements that can be made with a new company. As to the individual debts contracted by the Sr. Cugnet, it is fortunate for him that the creditors give him time and facilities for payment. Hopes that with the lease of the three posts granted to him he will be able to meet the price of the lease and his creditors. Folio 62, 2 pages.

May 12. The same to M. the Bishop of Quebec. Has been informed by the Abbé Pontbriand that the 9,000 livres he was to receive have been paid, and hopes the special assistance he asked from the clergy has been given him. Does justice to the motives that led him to interest himself in M. de Varennes, but it was necessary to punish him as an example. Is waiting to take the King's orders on the observations of MM. de Beauharnois and Hocquart relating to the King's Declaration of the 25th of September, 1743, concerning the religious orders, and communities holding property in mortmain and will then make use of his own observations. Is glad to see the good feeling shown with respect to the diminution of the number of festivals. Cures, tithes and marriages. The Charron brothers. The King has not been pleased with the conduct of some of the priests of Acadia on the occasion of the campaign that had been planned against that country. He has been informed that only the Srs. Maillard, La Goudalie, Laboret and Le Loutre alone endeavoured to procure assistance for the French that were sent, and that the Srs. Dosenclaves, curé at Port Royal, informed the English governor exactly of all he was able to learn of the movements of the French and exhorted his parishioners to be faithful to the King of England; that the Sr. Chevreux, another curé, pronounced the excommunication against those of his parishioners who should take up arms in favour of the French, and that the Sr. Miniac, Vicar-General, concealed his doings better, but that he acted even more effectually to cause the wreck of the enterprise. Also, the King would have decided to have these three missionaries sent back to France had circumstances permitted, but will give orders that they do not participate in the distribution of funds that he grants for the maintenance of the curés of Acadia. He hopes that on his (the Bishop's) part he will make them aware of his dissatisfaction, and it is for their interest in case the French return to Acadia to efface the unfavourable impressions they have given of their attachment to his service and to the nation. It is claimed they conducted themselves in this manner only in the fear of losing the ease and independence with which they perform their duties. The King's vessel which had been to Louisiana was taken by the English on her return, and is not aware of what had taken place in Louisiana with regard to the missionaries. Folio 64, 2 pages.

1745. May 12. The same to M. de Noyan. The command of Fort St. Frédéric and the rank of major cannot be granted him. Will have many opportunities to prove his zeal. Folio 65, ½ page.

May 12. The same to M. de Beaujeu. His proposition to attach to the lieutenancy of Three Rivers the gratuity he enjoyed as major of the troops cannot be granted. Folio 65, ½ page.

May 12. The same to Mde. de la Ronde. Is very sorry of the mischances that the war occasions in the working of the post of Chagouanigon. In the meantime the increase in the price of beaver should diminish the inconvenience. Cannot, under the circumstances, procure her the pension that was enjoyed by Mde. de Chassaigne. Folio 65, ½ page.

May 12. The same to M. the Bishop of Quebec. Will take 400 livres a year from the funds for disabled curés for the maintenance of the missionary who is to perform the duties of the new parish that will be established in the seignory of Sr. Foucault. Folio 65½, ½ page.

May 12. The same to M. Taschereau. The request he makes, together with MM. Cugnet and Gamelin, to be discharged from the advances made by the King to them for the St. Maurice forges, on the transfer of these forges to the King, will be considered later. Folio 66, ½ page.

May 12. The same to M. Cugnet. Should address himself to M. Hocquart for the renewal of his lease of the Tadousac farm, in adding to it the baie de Kitchechatiou. Folio 66, ½ page.

May 12. The same to M. Bégon. Is pleased with the attention he gives to his government. Folio 66½, ½ page.

May 12. The same to M. de Gannes. Has procured for the Sr. de Gannes, his relative, an ensigncy on full pay. Folio 67, ¼ page.

May 12. The same to M. de la Véranderye. The King has granted him a company. Folio 67, ½ page.

May 12. The same to M. Péan, senr. Has appointed his son assistant town-major of Quebec. Folio 67, ½ page.

May 12. The same to M. Péan, junr. Has appointed him assistant town-major of Quebec. Folio, 67½, ½ page.

May 12. The same to MM. de Beauharnois and Hocquart. Has granted his retirement to the Sr. Dupin de Bélugard with 800 livres of half-pay. Has granted the rank of lieutenant of artillery to the Chev. de Beauharnois with an order to command that of the colony at a salary of 1,200 livres. Gratuity for the Sr. Lemercier for the attention he has given to the details of the artillery. Folio 68, ½ page.

Paris.
June 3. The same to M. Hocquart. Will send by *La Gironde* bars of iron to make sure that this mineral is fit for ordnance. Folio 70½, ½ page.

June 5. The same to MM. de Beauharnois and Hocquart. The Sr. de Cadillac having been obliged to leave Detroit for Louisiana, had to abandon the settlements that he had formed. His widow and children claimed that the post had been given to him with the title of seignory. On an examination of their claims in 1733, they were sent back to be looked into on the spot. The matter rested there, but the son of the Sr. La Mothe de Cadillac having renewed the claim, he is very glad to inform him on this subject. The command that his father had at this post conferred on him no rights of seignory nor of concessions, since the grants that were made were declared null by Letters Patent in 1716. He even so little claimed such rights that in 1720 he obtained a warrant conceding him lands on which he had built at Detroit outside the walls of the fort and the lands he had cleared on condition of establishing the boundaries of these lands and making a report in two years, which he did not do. After the warrant, it appears that he asked to be re-imbursed his expenses and in any case to re-enter on possession of his property. On these new demands it was ordered by decree of 19 May, 1722, that the warrant of 1720 shall be executed and that he should besides enjoy the right of hunting and fishing on his lands, that he should be replaced in possession of the household goods belonging to him that were found at Detroit with power to him to proceed against those who had taken possession of his other effects and that an order should be sent to him for 2,000 livres on the Royal Treasury in full indemnification. As these lands have been granted to others and it is desirable to put an end to this affair the King has agreed to the proposition made to him to refer the whole

June 19. question to be enquired into on the spot. Folio 71, 2 pages.

The same to the same. Merchant vessels have been chartered to load the surplus munitions *La Gironde* was not able to take on board for the colony. Sends copy of instructions to the Sr. Le Gardeur de Tilly who commands this storeship. Sends the duplicates of the King's estimates for the

June 19. expenditures of Canada. Folio 71½, ½ page.

The same to the same. Has learned by way of Martinique, of a revolt of the Louisbourg garrison in December that threatened nothing less than to hand over the place to the enemy. On the first notice received, caused *Le Vigilant*, 64 guns, to proceed to join a frigate of 30 guns that had left Cadiz for Ile Royale on the 9th of March. This frigate, finding Louisbourg blockaded by war ships and privateers, returned to France and as he is informed that the garrison still persisted in a state of revolt and that the town was invested on all sides, it is to be feared it has been taken by the enemy. The King has caused a squadron of 7 vessels to leave Brest for Ile Royale under the command of M. Perier de Salvert. If he arrives in time to deliver the place, he will take the command of the colony and send a frigate to Quebec to announce the condition of affairs and ask for aid. If on the contrary he finds the place taken, he has orders to attempt the conquest of Acadia, and he counts on the assistance of Canada to maintain himself at Port Royal if he can take possession of that place. Folio 72,

July 24. The same to M. de Beauharnois. Position as second ensign for the Sr. Béranger. Folio 75½, ¼ page.

Fontainebleau. November 1. The same to MM. de Beauharnois and Hocquart. The loss of Louisbourg has been followed by other grievous events. Not only did the squadron arrive too late on the scene, but it had to return to France without accomplishing the other objects of its mission. The merchants have disarmed their vessels and *La Gironde* has put into Rochefort. Under these circumstances he sends a schooner to Quebec loaded with arms and munitions. The Captain, Salaberry, who commands her, counts on reaching Gaspé, thence to proceed to Quebec next spring on the breaking up of the ice. Will also send after the month of February two other vessels loaded with such supplies as will place the colony safe from any attack. Folio 76, 1 page.

May 21. The same to M. Bigot. Has received only last month by way of Martinique the letter that he and M. du Chambon wrote to him of the 30th December. Has been grieved and surprised at the news concerning the colony, particularly of the turbulence of the garrison. Measures that he has taken to help the colony. Hopes that by the present time it is in safety although the recent news from England reports the departure of a squadron of 7 vessels to support an expedition which is to be equipped at Boston against Louisbourg. The Swiss detachment should be sent back to France and embarked on *Le Vigilant*, *Le Mars* and *La Renommée*. As to the *Castor*, she will remain at Louisbourg until next year. Details of what is to be done. Folio 9, 2 pages.

May 27. The same to M. Du Vivier. Advises him of the seditious conduct of the Louisbourg garrison and of the preparations making in England and at Boston against Ile Royale. The object of the English squadron which has just sailed is to cruise between Cape Sable and Canso to await in these waters the vessels on which the troops for the attack on Louisbourg are to be embarked at Boston. From other news, of March 22, coming from Boston, there was then no question of any armament in that colony. Reconnaissance signals in case of Louisburg being in the hands of the enemy. Divers instructions. Folio 10, 1½ pages.

June 19. The same to M. Bigot. The vessel *La Société* which he dispatched to him, has arrived at the port of———the 31st of last month. Much fears grievous results of the bad disposition of the garrison. *La Renommée*, arrived before Louisbourg the 22nd May, has returned to Brest. In the hope of being able to persuade the garrison to defend the colony the King has decided to have a squadron of 7 vessels to relieve the place. Arrangements he has made for provisioning it. Folio 11, 2 pages.

June 19. The same to MM. Salvert and Bigot. In the existing uncertainty as to the situation at Ile Royale, he will not reply to the various letters of MM. Du Chambon and Bigot. Will confine himself to the explantaion of the King's intentions on the principal features of these letters. Divers instructions. Folio 12, 3 pages.

June 19. The President of the Navy Board to M. Périer de Salvert, in explanation of the King's instructions. Folio 109, 2 pages.

1745. June 19. The same to the same. Believes that the change of destination of the two frigates *L'Argonaute* and *La Parfaite* will lead to changes among the officers and crews of those vessels. It might be necessary to set aside for them the share they were to have in prizes. Folio 110, ½ page.

June 18. The same to M. the Controller-General. The news received of late from Ile Royale is most regrettable. It seems by the letters from the Commandant and from M. Bigot, dated in the early days of May, that on the one side the garrison persisted its mutinous condition and that the port of Louisburg had been blocked since the month of March by the enemy's vessels; and on the other the King's frigate *La Renommée*, having arrived there on the 22nd of the same month, was unable to enter the port, and could only ascertain that a fight was going on between *Le Vigilant* and the enemy's vessels. In the meantime, as the officers of *La Renommée* have been informed that the inhabitants, to the number of 600 to 700, defended themselves, and that there was food to last until September, it is to be presumed the place can hold out long enough for succour to arrive. Should send *Le Mars*, *Le St. Michel*, *La Renommée* and some other vessels, hoping this squadron will be sufficient to relieve the town if there is still time. And if otherwise, these vessels might act against Port Royal or for some other purpose. Folio 110, 1½ pages.

June 23. The same to M. Bigot de la Mothe. If M. de Salvert has not yet left, he will be sure to have him take on board his vessels 400 to 500 quintals of salted meats, the flour which has been prepared at Brest and 30 to 40 thousand-weight of powder. Folio 111½, ½ page.

Will execute the orders that will be given him by the Chev. de Camilly. Folio 112½, ½ page.

June 25. The same to M. Rostan. Will have the cargo of *La Société of Louisbourg*, sold, and send her back to the colony with orders to navigate her with caution to the vicinity of Ile Royale. Folio 113, 1 page.

June 30. The same to the same. The report that has been spread that the departure of the convoy will be delayed, is without foundation. The 49 vessels from Bordeaux that are to take advantage of this convoy, form a sufficiently considerable object not to permit further delays. Folio 113½, ½ page.

Camp below Tournay. June 29. The King to M. Périer de Salvert. Additional instructions concerning his expedition. If he arrives too late to succour Louisbourg and if he cannot recover this place by a prompt *coup de main*, he will endeavour to take possession of Port Royal and of Acadia. Folio 115, ½ page.

Paris. June 30. The President of the Navy Board to the same. Will give him no definite orders. Will be guided by circumstances. Folio 115, 1 page.

June 30. The same to M. Bigot de la Mothe. There is nothing to change in the arrangements with regard to the frigates *La Parfaite* and *L'Argonaute*. August 12. The same to M. Le Chev. de Conflans. The King is pleased with the pains he has taken for the security of the fleet of merchant vessels he has convoyed to Martinique, but did not look for his return without his having attempted something against the English colonies in the islands, all the more that those colonies were in a most lively state of alarm on the subject and not in a condition to be able to make a serious resistance. Folio 134½, 1 page.

August 22. The same to M. le Maréchal de Noailles. It was only yesterday that he was in a position to reply to the questions he had asked on the subject of the taking of Louisbourg. It is true that Louisbourg was regarded as one of the strongest plans in America. The plans of the fortifications had been prepared by engineers of repute sent from France. The Maréchal d'Asfeldt, who supplied these engineers, has been informed of all they had done, and good reports had been received, with the exception of the port batteries on which they were engaged last summer. It is certain in any case they had been reduced to a grievous condition by the numerous guns of the besiegers, and it does not appear that they exerted themselves sufficiently to prevent the enemy erecting siege batteries of a kind that effected breaches at various places. He is assured that the artillery of the place had been put out of service. What chiefly contributed to the surrender was the capture of *Le Vigilant*, the commander of which vessel, instead of entering the port as he should have done, was drawn by one of the enemy's frigates leeward into the midst of the enemy's squadron which captured her. This vessel would have been able to save the place, which was sufficiently provided with food. There were however but five-thousand pounds of powder remaining when the place surrendered. It does not seem that they offered all the resistance that could have been desired. It must be said that the spring has been exceptionally fine which greatly favoured the besiegers. Results, from the point of view of commerce. The English are aware of the advantage of this position, and according to news received from London there has been a question of presenting an address to the King that Louisbourg shall not be restored, but it is said this proposal was not adopted. Hopes that the successes of the King will place him in a position on the conclusion of peace to compel this sacrifice. Folio 138, 2½ pages.

November 9. The same to M. de l'Etanduère. Is satisfied with the particulars of his voyage. The King has approved what he has done with regard to three vessels of the enemy that he captured. June 23. The same to M. Hardy, merchant at La Rochelle. Relating to the bills of exchange that were on board *Le Lion d'Or* and *L'Eléphant*, taken by the enemy. Folio 65, ½ page.

July 19. The same to M. de Barialt. The news received from England renders the departure of the convoy more and more urgent. It is to the effect that there cannot be more than three English vessels together on the coasts and that these three vessels must not be distant from *La Manche*. Folio 71, ½ page.

July 22. The same to the same. As the season for navigation to Canada and to Ile Royale is already advanced, he can, if not yet ready to leave, order M. de Tilly to sail alone with the vessels he is to convoy. Folio 72, ½ page.

July 22. The same to M. de Ricouart. Same subject. Will have a new agreement with the Sr. Simon La Pointe, for the charter of his vessel *L'Andromède*, for Canada, her voyage to Ile Royale having become unnecessary. Folio 72, 1½ pages.

Camp de Lipelle. August 17. Letter from the King to M. Du Barrialt. Being informed that the garrison of Louisbourg is to be transported to Rochefort on vessels supplied by the English, his intention is that the officers and soldiers of that garrison do duty in the port like the other companies detached by the navy. Folio 75, ½ page.

Paris. August 20. The President of the Navy Board to the same. Same subject. Folio 75, 1½ pages.

August 20. The same to the same. Is informed, by way of England, that the revolt that broke out in the Louisbourg garrison, and in which the Swiss detachment was the originator was excited by the intrigues of the enemy, and it was that which decided the latter to attack the colony. Knows by the letters of MM. Du Chambon and Bigot, from the commencement of May that the disturbance was still continuing at that period and the talk of many soldiers was that they were ready to hand over the place to the enemy whenever the latter should appear. Is not aware, however, of what took place during the siege. It is probable that those most compromised remained with the enemy. As among those who return he may find out who merit punishment, he will take measures accordingly, after having conferred with MM. Du Chambon and Bigot. Folio 75½, 1 page.

August 20. The same to M. de Ricouart. Measures to take to lodge the troops that are to arrive from Ile Royale. Folio 76, 1 page.

August 23. The same to M. Verrier. Begs him to reach Paris with all the speed his health permits Folio 78½, ¼ page.

August 23. The same to M. de Barrialt. Should hasten the departure of the Sr. de Tilly and the vessels bound for Canada. Approves his not having permitted the merchants to change the loading of the vessels that they have fitted out for Quebec. Approves *La Gironde* receiving on board an additional supply of firearms. Will take all necessary precautions that the English vessels which are to transport the garrison and the inhabitants of Ile Royale to Ile d'Aix, obtain no information that they can use to advantage. Folio 79, 1 page.

August 28. The same to M. de Macnamara Has received his letters conveying intelligence of the English squadron that is cruising between 45 and 47 degrees, and of the difficulty in which he finds himself by reason of his large convoy, under such critical circumstances. These obstacles would not have presented themseves if he had left in the course of last month. The English squadron met by the packet-boats coming from Ile Royale can be no other than that of 12 vessels which left Gibraltar the 30th of July, joined by some vessels that might have been at Lisbon, and probably as well by the three commanded by Vice-Admiral Martin that were at La Manche. It seems by letters of the 20th, from London, that Vice-Admiral Martin, who left Spithead on the 28th of June, to cruise for two months only, has had new orders to cruise during a third month for the purpose of intercepting the convoy ready to sail from France as well as that coming from America and the Indies. On the other hand, they are arming in haste at Spithead a strong squadron to be commanded by Admiral Vernon on which 3,000 men are to be embarked. It is questionable whether Vice Admiral Martin will prolong his cruise for a month, seeing he cannot have provisions to keep the sea all this time without revictualling. It must be the same, as regards the squadron of 12 vessels which cannot long delay their return to England. The most favourable period for sending off our convoy seems to be the interval between the return of these vessels and the departure of Admiral Vernon's squadron. From all appearances, the last named squadron, seeing its force, will make some attempt on our coasts in the direction of Iles de Ré and d'Oléron, and might attack our convoy on the roadsteads of La Rochelle and Ile d'Aix. Thus, there are still more risks in delaying the departure than in sailing. It might be more prudent to send at once two or three coast guard corvettes for discovery, taking different routes. Will consult with M. de Barrialt. Will send him a courier if he receives news from London. Folio 80, 4 pages.

Augu 33 The same to MM. the Syndics of the Chamber of Commerce of Aunis. On the same subject. Folio 82, 1 page.

September 6. The same to M. de Recouart. Of the two detachments from Ile Royale that had not yet arrived at Rochefort, one, commanded by the Srs. de Renon and Du Chambon Megillac, was at Noirmoutiers, detained by contrary winds Since the barracks cannot receive all the soldiers of that garrison they may be left there for the present. The Sr. Rondeau will settle as to the pay of the officers and soldiers. As the widow Pascaud has offered to receive at her home the réligieuses who have arrived at Ile Royale it will be no inconvenience to send them and leave them with her. Has done well to furnish food and remedies to the English vessels that have brought over the garrison from Ile Royale. Folio 83, 1½ pages.

Versailles. September 14. The same to M. de Barrialt. The King cannot show clemency towards the principal instigators of the revolt at Ile Royale: such impunity might have too dangerous consequences. Will cause those who are most

1745. compromised to be arrested. M. de Karrer will take his orders with regard to the Swiss. Has reason to believe that many officers do not like this affair being too deeply probed, in the fear they have that the soldiers might make complaints against them. This is but one reason the more for discovering the whole truth. Folio 84, 2 pages.

September 14. The same to M. Karrer. It is but too true that the Swiss detachment at Ile Royale was the first to raise the standard of revolt. And if, after placing themselves in order of battle, on the square, they re-entered the barracks on the promises of one of the officers, it was only to rebuke the French troops for not having followed them when they took up arms. It was after these reproaches that all the French soldiers were gained over, and it is known that the Swiss sergeants were at the head of every move that was made without the help of a single French sergeant. It has been learned from England that what chiefly determined the enemy to undertake the attack on Louisbourg was the confidence they had in the disposition of the Swiss in the garrison. It is true that in the course of the siege all did well, but such grave events cannot be passed over in silence. Folio 84½, 1 page.

September 14. The same to M. de Ricouart. Approves his having sent the soldiers from Ile Royale attacked with scurvy to the hospital d'Oléron. Had heard of the departure of the convoy from Ile d'Aix, but had since learned that it had put in at .... Hopes it will lose no time in continuing the voyage. Sends him the list of vessels that will have set sail for Canada, with statement of the lading of *La Gironde*. Folio 85, 1½ pages.

September 14. The same to M. de Barriatt. The King to show his satisfaction with the conduct of the Sr. D'Aillebout during the siege of Louisbourg, confers on him the Cross of St. Louis. Folio 85½, ¼ page.

September 14. The same to M. D'Aillebout. The King to testify his satisfaction at his conduct at the siege of Louisbourg, particularly at his defence of the Ile de L'Entrée, confers on him the Cross of St. Louis. Folio 86, ½ page.

September 14. The same to M. Prévost. Will take advantage of the good reports that M. Bigot gives of him to procure his promotion. Folio 86, ¼ page.

September 14. The same to M. Boucher. Has procured him leave-of-absence at the request of his family, can go and look after his affairs. Folio 86, ¼ page.

September 14. The same to M. Du Chambon. Will give an account to the King of the report he has sent him of the siege of Louisbourg. Will let him know what he thinks of it. But as the King desires to have in detail the conduct of each officer in the course of the siege operations, he begs him to satisfy the wish without prejudice and without favour. Folio 86½, ½ page.

September 14. The same to the Syndics of the Chamber of Commerce of Aunis. The Chamber of Commerce having fixed the departure of the second convoy for the 25th November, will take measures for the preparation of the convoying ships for sea. Folio 87½, ½ page.

September 20. The same to M. de Barrialt. Will hold the two French vessels, *Le St. Dominique* and *L'Aigle*, taken by the English at Louisbourg, at Rochefort until it has been decided whether they should be returned to their owner, the Sr. Haraneder of St. Jean de Luz. Can let the English crew of these vessels embark on the English ships that transported the garrison and inhabitants from Ile Royale. Folio 88, ½ page.

September 21. The same to M. Belamy. He received the two packages addressed to him to be sent to Canada by the vessel *Le Jupiter* which has been dismantled. Folio 88½, ¼ page.

September 28. The same to M. Bigot. Communicates to him a letter from the Directors of the Compagnie des Indes, with a statement of the sailors embarked last year for Louisbourg on the vessels of that company. Although he does not doubt that the number of these sailors reached 1,000, he will nevertheless be pleased if he will furnish proofs of it. Folio 88½, ½ page.

1745. September 28. The same to M. de Ricouart. Concerning the settlement of the accounts of Ile Royale, for the year 1774, and part of 1745, to the fall of Louisbourg. Folio 89, 1½ pages.

Will leave the réligieuses of Ile Royale at the Hôspital des Orphelines and will cause them to be supplied with the necessary assistance until they are able to be sent back to their community in Canada. Is surprised at the small quantity of munitions taken on board *La Gironde*. Folio 90, 2 pages.

Fontainebleau. October 8. The same to M. de Barrialt. Has approved the steps he has taken for the arrest of the leaders of the revolt of the Louisbourg garrison. Will take means to ascertain exactly the conduct on that occasion of each officer. Folio 93, 1½ pages.

October 18. The same to M. de Serigny. Will wait until he has forwarded the judgements against the soldiers who deserted from Ile Royale before making a search of their houses. The King desires that he should give his attention to the discipline of the troops from Ile Royale during the time they are stationed at Rochefort. Folio 95½, ½ page.

Paris. October 21. The same to M. de Ricouart. The offer of the Srs. Hiriard and Salaberry, Canadian captains, to take *L'Andromède* and *La Déesse* from Rochelle either to the Baie de Gaspé or to that of des Anguilles in the island of Newfoundland, with all the arms and munitions they can take on board, to winter with these two vessels in one of these two places and to proceed at the opening of navigation to Quebec, is much liked by the King. Recommends him to push this expedition and concert measures with M. de Barrialt who is well acquainted with Canadian waters. Folio 96, 1 page.

October 21. The same to M. de Barrialt. Same subject. Folio 96, ½ page.

November 1. The same to M. Bigot. In relation to the various expenditures concerning Ile Royale. Hopes he has shortened his stay at Bordeaux as much as his family affairs will allow. Is grateful to him for the interest he takes in his (M. de Maurepas), sickness. Folio 100, 1½ pages.

November 1. The same to the same. Awaits a reply from him before causing le Sr. Dagunet captain of the *Jaques Geneviève*, to be freed from imprisonment for his conduct towards him during the siege of Louisbourg. Folio 100½ ½ page.

November 1. The same to M. de Barrialt. It seems extraordinary that they have not been able to find 200 men to compose the crew for the Srs. Hiriard and Salaberry. Has done right, under circumstances to accept the new proposal of Captain Salaberry. Should have foreseen that his decision on the subject of the stay of the Sr. de Tilly would not be approved. Folio 101, 1 page.

November 1. The same to the same. The King has decided that a trial before a court martial of the principal authors of the revolt in Ile Royale now in prison shall take place. Will assist in having the information prepared with care. The information against the French soldiers will be made sep-

November 8. The same to M. de Ricouart. The equipment proposed by the Srs. Hiriard and Salaberry, not having been carried out, the King has approved the new proposals they have made. Presumes that he has remitted to captain Salaberry the dispatches with which the Sr. de Tilly was entrusted for Canada. If he has not done so, he can retain them until first orders. November 8. The same to M. Bigot. Concerning the claims of the Sr. Deschamps, inhabitant of Ile Royale, and Lelièvre, merchant, of Louisbourg. Folio 105½, ½ page.

November 8. The same to the same. His prompt return to Rochefort is a new proof of his zeal. His readiness to take up the expiration of the Srs. Hiriard and Salaberry is another. Hopes there will be no delay. Folio 105½, ½ page.

November 15. The same to M. de Ricouart. Divers instructions. Folio 106, 2 pages.

November 15. The same to M. Bigot. Is satisfied with the plan of attack on Louisbourg, sent to him by the Sr. Lartigue. Since this person wishes to go to Canada, he will give him his passage and afterwards procure him employment in the colony. Folio 107½, 1 page.

1745. information should be restricted, without at the same time preventing proofs being offered of the complaints the soldiers may have to make against their officers. Wishes the trial to be concluded promptly, so as to prevent the desertions that the uneasiness might cause. Folio 110, 1 page.

November 23. The same to M. de Sérigny. Has received the return of the review of the troops from Ile Royale. Recommends attention and diligence in the trial relating to the revolt. M. de Barrialt will give him the necessary orders. Folio 110½, ¼ page.

November 23. The same to M. Bigot. The representations he has made on the sad position of the widow of the Sr. de la Frézillière, killed by a bullet during the siege of Louisbourg, merit attention. Will propose to the King that help be extended to this widow. Divers instructions. Folio 112, 2 pages.

November 26. The same to M. de Barrialt. The death in prison of several of those inculpated in the revolt at Ile Royale is an additional reason for hastening the procedure. As the sergeants and corporals took no part in the revolt it would be sufficient to interrogate them and to leave the officers aside. Folio 113, 1 page.

November 26. The same to the same. Has received a letter accusing a book-seller of Saintes of having sold at Rochefort an account of the siege of Louisbourg, and as he has given the name of the author, will have the latter sought for. Folio 113, ¼ page.

December 8. The same to M. de Sérigny. Has approved his decision to cause the recruits who were on board *La Gironde*, bound for Canada, to be brought back from d'Oléron to Rochefort. Folio 118, ¼ page.

December 8. The same to M. de Ste. Marie. None but good reports have reached him of the manner in which the company of artillery performed their duty during the siege of Louisbourg and of their conduct on the occasion of the revolt. Note will be taken of his zeal. Folio 118, ½ page.

December 10. The same to M. Karrer. The escape of one Abraham la Pasquier, a soldier in his regiment, gives ground for belief by reason of the circumstance that the occurrence had been well planned to save this criminal who was the chief of the revolt at Ile Royale from justice. Regrets to have to say to him that he is himself guilty of too much leniency. Hopes he will exert his best efforts to have him searched for and arrested. Folio 119, 1½ pages.

December 17. The same to M. de Ricouart. The conditions of the Srs. Pascaud appear to be exhorbitant, but in the present conjuncture they must be accepted. Has the intention to cause another vessel to be sent to Quebec. Folio 123, 1½ pages.

December 17. The same to M. Bigot. Same subject. Folio 123½, ½ page.

December 20. The same to M. de Barrialt. Has seen by his letter that in consequence of the judgements rendered by the court martial held by M. Karrer on the Swiss of his regiment, one sergeant has been beheaded, a corporal and a soldier have been hung and others have been condemned to various punishments. The example as regards these troops would be complete if Du Pasquier, the principal instigator, had been taken and condemned. Folio 125, 1 page.

December 20. The same to M. de Sérigny. Relating to the review of the troops from Ile Royale, and desertions. Folio 125½, ½ page.

December 27. The same to M. Bigot with respect to the defences of Ile Royale. Folio 127, 1 page.

December 24. The same to M. de Barrialt. The allegation of the accused as regards the pardon they pretend was extended to them by M. Du Chambon, cannot be taken into consideration, seeing that the seditious movements were continued long afterwards and until the eve of the siege. The proceedings must be hastened and the affair terminated. Folio 128, 1½ pages.

December 27. The same to M. Bigot. Must compel the estate of the Sr. Carrérot, late collector of Admiralty dues at Louisbourg to pay to H.S.H. the 25,000 livres he has collected for him and which he has not accounted for. Folio 128½, ½ page.

December 27. The same to M. de Ricouart. It is of great importance that everything necessary for the construction and fitting out of the vessel *Le Saint Laurent* be sent to Quebec in the course of the spring or summer when she will be put on the stocks. It is the same as regards the frigate of 22 guns that is now on the stocks. Folio 129, 1½ pages.

December 27. The same to M. Bigot. The facts contained in the memorandum that he communicated to M. de Barrialt to be given to the court martial could have had no influence on its decision, for even in cases where the complaints of the soldiers against certain officers were well-founded, their revolt would not on that ground be justified. It is this reason that prevented the court martial receiving the memorandum. In what regards himself, personally, his conduct is known, the King is satisfied and he may be tranquil. Folio 130, ½ page.

December 27. The same to M. de Ricouart. Begs him to make enquiries to bring the facts to light in regard to the accusation by the Sr. Cailly, officer of the Swiss regiment against the Sr. Péan de Livaudière, which causes much talk at Rochefort. Folio 130, 2 pages.

December 29. The same to M. Belamy. Has been informed by M. Hocquart that some English sailors, prisoners at Quebec, had been embarked on the corvette *La Legère* and the brigantine *Le Péron*, bound for La Rochelle, Folio 132½, ¼ page.

1745. December 31. The same to M. de Ricouart. Approves the arrangement that he proposes for the fitting out of the vessel *La Société*, of Ile Royale, which is to be sent to Quebec under the command of the Sr. Chéron. Folio 133, ½ page.

December 31. The same to M. Bigot. Same subject. Has given orders to cause the Canadian sailors who are at Brest to be sent to Rochefort to place them on board *La Société*. Folio 133½, ½ page.

CANADA.

DESPATCHES AND ORDERS OF THE KING. 1746 (3rd part).

1746. Versailles. January 24. The President of the Navy Board to MM. de Beauharnois and Hocquart. The frigate *Le Castor* has arrived in France without accident. If Captain Salaberry has been able to approach the coasts of the Gulf, they will be informed of the measures taken for sending succour to Canada. Has obtained orders from the King for the formation of a sufficiently strong squadron, with four battalions of troops. It will be ready to leave in the course of March. To let them know, and to carry succours, he has caused to be prepared four vessels, of which one, commanded by the Sr. Hiriard, will leave in the course of this month, the second, from Bayonne, commanded by Captain Monséjur, towards the 15th of February, the third, from Brest, about the same time, and the fourth, commanded by the Sr. Chéron, the 1st of March. Details of operations that will be attempted for the retaking either of Louisbourg, or Acadia or Plaisance. Does not believe the English will attempt anything against Canada, for several reasons. First, because New England, which defrayed the cost of the attack on Louisbourg and claims this conquest should belong to it, is dissatisfied owing to its claim not being admitted. Indemnification has been promised, but nothing has been done, so that this province is not in a condition or in the humour to make the efforts that would be necessary to realize the hope of conquering Canada. England herself is not in a position to fit out an important expedition against Canada. The country is a prey to civil war. Prince Edward, the eldest son of King James, has gone to Scotland and has placed himself at the head of a powerful party. This compels the Government to recall its troops from the Low Countries and even to engage foreign troops. Folio 1, 3 pages.

February 18. The same to M. Hocquart. Sends leave of absence for M. Michel. As he is not to return to Canada, he must be replaced and this will probably be by some one sent from France. Would the Sr. Varin suit for the position of Commissary at Montreal? Folio 3, ½ page.

February 18. The same to M. Michel. Has the intention of giving him a new position in France. Will return to France on the first opportunity. Folio 3, ¼ page.

February 25. The same to MM. de Beauharnois and Hocquart. On the arrival of the Sr. Chéron, will send him with his vessel to Chibouctou, where the squadron is to assemble, to carry to the Duke d'Anville the advices that he will have to send him. Folio 3½, 1 page.

March 2. The same to M. Hocquart. Relating to fitting out of the frigate *La Martre*, under construction at Quebec. Folio 4, 1½ pages.

March 2. The same to MM. de Beauharnois and Hocquart. Same subject. Folio 5, 1½ pages.

The same to the same. The frigate *La Martre* could be usefully employed in cruising in the Lower St. Lawrence unless circumstances send her to another destination. It is not possible to procure for the Sr. de

1746. Verchères the remission of the dues that he owes to the Dominion. Approves the exchange of prisoners that M. de Beauharnois has proposed to the Governor of New England. Folio 6, 2 pages.

March 2. The same to M. Hocquart. The frigate *Le Castor* has been found well constructed in all respects. The masting of cypress is superior to that of the *Caribou*. But as it has been ascertained that this timber is stronger and more flexible in the parts nearest the circumference, it will be best that the trees to be used should not be dressed. The pulleys made of ash are excellent. The King is disposed, when *Le St. Laurent* is completed, to have a frigate of 60 guns built at Quebec. May in the meantime have the principal timbers for this vessel prepared. The frigate *Le Carcajou*, which on her arrival at Brest had been fitted out for service on the coasts, has gone down in a gale of wind and all her crew have perished. Folio 7, 4 pages.

March 2. The same to MM. de Beauharnois and Hocquart. Did not wait for their representations to make provision for the needs of the colony. Has purchased 80 pieces of ordnance of 4 calibre. Captain Salaberry has left with 30 thousand pounds of powder, 350 firearms and other weapons. *Le Tourneur* which has sailed from Brest, carried 20 guns on account of the 80, 25 thousand pounds of powder, 1000 firearms; *La Julienne*, that has sailed from Bayonne, has on board 18 thousand pounds of powder, 600 firearms, 388 sabres, etc, etc.; the *Petite Marguerite*, from Bordeaux, has taken 10 thousand pounds of powder; *La Déesse* and *La Société* will sail soon. The Sr. Dubois, who is to go to Quebec, will take the command of the frigate *La Martre* and embark another 15 thousand pounds of powder, etc, etc. Other vessels will leave at the end of March under convoy. Folio 9, 2 pages.

March 7. The same to M. Hocquart. Trade of the Tadousac domain. It is the province of the Governor alone to give orders for the King's vessels. M. de Beauharnois has instructions to concert with him thereon. Folio 10, 2 pages.

March 7. The same to M. Hocquart. Had hopes to find in the census a larger number of men carrying arms. If the number of boys under 15 is such as is shown by the census, there will be in a few years a considerable increase. It is vexatious that the cultivation of hemp should have almost enterily ceased, but it would be still worse if the inhabitants were obliged to take it up again for want of markets for their wheat and vegetables. Is very pleased to learn of the progress of settlement on the Chaudière river. They should see that the concessionaires on Lake Champlain do no work during the war. Pitch, tar and resin. It is rather extraordinary that it shall be determined at a conjuncture so little favourable for expenditures, to undertake to enlarge the Quebec cathedral. In any case, the King cannot contribute towards the expense. Folio 11, 2 pages.

March 7. The same to the same. Expenditures of Canada for account of Isle Royale. Concerning the emoluments of the Srs. Du Vivier and Rousseau de Souvigny, who left Ile Royale for Canada. Folio 12, 1½ pages.

March 7. The same to the same. Has received the accounts of receipts and expenses for the St. Maurice forges since the 1st of October, 1741, to the 1st of January, 1745. Has seen that the receipts were 254,473 livres, and the expenses a like amount. In deducing what has been paid to the workmen of the old company, there remains a nett profit of 42,846 livres since the working has been carried on for the King's account, and with the increase of which the establishment is susceptible there might be an important improvement in the receipts. These figures will be useful in the formation of a company. Two new workmen have been engaged for these forges. A master founder capable of casting ordnance should also be sent, but the risks of the voyage in consequence of the war have caused it to be deferred. Folio 13, 2 pages.

1746.
March 7. The same to the same. Has taken measures to meet his drafts. Econony is indispensable, as the expenses of the war are considerable. Has been displeased to learn that it was decided to erect fortifications at Quebec. Folio 14, 1½ pages.

March 7. The same to M. de Beauharnois. The Chev. de Longueuil not being able to absent himself from Detroit, the King has been well pleased to permit him to wear the Cross of St. Louis which has just been conferred on him, and to dispense with the formalities. The King has been much pleased to learn it was determined to send a party into New England. According to the news coming from London, the march of this party and its successes had caused lively alarm. As nothing so disconcerts the projects the enemy has formed or may form, it is well to harass them whenever this opportunity arises, and above all, on the side of Hudson Bay. Folio 15, 1½ pages.

March 7. The same to MM. de Beauharnois and Hocquart. The King is surprised that an enceinte has been commenced at Quebec in consequence of the deliberations had by the assembly convoked by M. de Beauharnois. Does not understand how he could take upon himself such a decision in face of those of the King on many occasions. Will cause the works to be discontinued on the reception of this dispatch and will convoke an assembly of the principal officers and some of the inhabitants of Quebec, to judge whether it would not be better to demolish what has been done rather than go on with the undertaking. Believes he should repeat the reasons against these works. It is considered that this fortification would be a new motive to the English to undertake in case of war the conquest of Canada, because, once masters of a town so strong as Quebec would be, they could consider themselves virtually masters of all Canada. With the strong forces they could put on foot in their colonies in America, and help from England, they would be only too tempted to possess themselves of a town that would afford them immediate protection against us, and against the climate, while, in the contrary case, they could not hope in one season to take possession of the town and protect themselves the following winter against the cold and the attacks of the Canadians when their fleet had sailed. More than this, in supposing these fortifications necessary, it is not for the King to incur the expense, above all when the funds are less than ever in a condition to give assistance to enterprises of this importance. Finally, this fortification once established, there would be required to defend it a garrison proportioned to its extent, and, besides the expense there would be the difficulty of providing this garrison whilst the kingdom is already drained by the extraordinary levies occasioned by the war. If notwithstanding all this the assembly decides that this fortification should be carried out, it should at the same time consider the imposition of a levy on the inhabitants to provide for it. Folio 16, 2 pages.

March 7. The same to the same. Has approved the arrangements made with respect to the abandonment of the lease of the post of Frontenac. It is to be hoped that M. Hocquart may induce the Sr. Chalet to continue the working of this lease. The Compagnie des Indes is not in a position to fit out the expedition that they proposed for the transportation of the munitions that it has to send to the colony, all the vessels being at present in use.

March 14. The same to M. de Beauharnois. Cannot give his retirement to M. de Beaujeu as he has not yet attained the age limit, at least he must wait to see if he recovers from his indisposition. Suspends the retirement asked by the Srs. de Perigny and de Cournoyer, captains, until the events of the war permit their being replaced by officers who have distinguished themselves. Cross of St. Louis for the Sr. Darnaud. Folio 18, 1½ pages.

March 14. The same to the same. Has felt, like himself, the grievous results of the fall of Louisbourg from the point of view of the commerce of Canada.

1746. Approves his having caused the Sr. Marin, with a detatchment of Canadians and Indians, to be sent to Acadia. It has come to him that if the Sr. Marin had used more diligence in reaching Louisbourg when he received the orders from M. Du Chambon, he might perhaps have arrived in time to force the English to abandon the siege. Willingly admits he could do no better. Hopes he will be more sucessful in the expedition he has undertaken in the direction of Boston. Must not be surprised at the steps that the inhabitants of Ile St. Jean took after the fate of Louisbourg for the preservation of their property. The Sr. Du Vivier, who commanded the detachment on that island, did well, since he could be of no assistance to the inhabitants, to take it to Quebec. Relies on him to take the best course as regards the Indians. Has been very pleased to learn that the Chauanons had finally determined to effect their transmigration to the locality indicated, and that they had taken eight English prisoners at Belle River. Hopes that the Iroquois, who showed an inclination towards neutrality, have not changed their views as the result of the Council held at Orange. Has approved the measures to place the forts of Niagara, Frontenac and St. Frédéric in a state of defense. Cannot give pensions to to the widows of the Srs. St. Michel Le Saulnier, Montmidy and Sicord. Has procured the rank of lieutenant of artillery for the Sr. Chev. de Beauharnois, but has not been able to confer on him the Cross of St. Louis; that would, in the eyes of the old officers, be too marked a preference. Folio 19, 3 pages.

March 14. The same to the Bishop of Quebec. The English leave in Acadia the missonaries who were there. The religieuses of Louisbourg should go to Canada. The English have sent Sr. Maillart, with other prisoners, direct from Boston to France. He counts on rejoining his mission. Folio 20½, ½ page.

March 14. The same to M. Varin. Awaits information before deciding whether to give to him the post of Mécatina or to the old lessees. Folio 20½, ¼ page.

March 14. The same to MM. De Beauharnois and Hocquart. Sends them the two estimates, from the King, of the expenses for the year, one of 898,273 livres and the other of 105,680 livres. Folio 21, ½ page.

March 14. The same to M. Hocquart. Relating to the contract for supplies entered into with the Srs. Pascaud. Folio 21, 1 page.

March 14. The same to MM. De Beauharnois and Hocquart. Concerning the grants of the post of Gros Mécatina. Folio 21½, ½ page.

March 15. The same to M. de Beauharnois. The King has caused the frigates *L'Aurore* and *Le Castor* to leave for the banks of Newfoundland to observe the movements of the English. If the Sr. Davigneau, who commands them, learns that Canada is to be attacked, he will send one of his frigates to Quebec and the other to Chibuctou to inform the Duke d'Anville. Instructions on this subject. Folio 22, 2 pages.

March 15. Letter from the King to M. de Beauharnois. His intention is that he return to France and resume service in the Navy. Will hand over the general government of New France to the Sr. de la Jonquière, rear admiral. Folio 22½, ¼ page.

March 15. The President of the Navy Board to M. Hocquart. The King has granted him an extraordinary gratuity of 3,000 livres, which he will cause to be paid to his brother in Paris. Folio 22½, ¼ page.

March 15. The same to M. de Beauharnois. The King has judged it proper to recall him to France to serve there in the navy. He is satisfied with his services, but is willing to accede to the request he has made to be promoted in the navy, and the fact that his age has not permitted him to take an active part in all the movements necessary for the defence of the colony. As M. de la Jonquière, who will replace him, is now serving under the Duke D'Enville, he will not take over the government until after the campaign.

1746. It is for this reason that he addresses to him the orders from the King as though there was going to be no change. Folio 23, 1 page.

March 15. The same to M. Hocquart. Concerning the replacing of M. de Beauharnois. General instructions. Folio 23½, 1 page.

March 19. Order from the King that the Sr. de Rémond be transferred to Canada. Folio 24, ¼ page.

March 19. The President of the Navy Board to MM. De Beauharnois and Hocquart. Concerning the Sr. de Rémond. Folio 24, ½ page.

March 21. The same to M. Hocquart. The 24-pounders being defective, will send 18-pounders for the armament of the *St. Laurent*. Folio, 24½, ¼ page.

March 21. The same to M. de Beauharnois. Relating to the Chev. Dubois, transferred to Canada to serve with the troops. Folio 24½, ½ page.

April 1. Memorandum from the King to serve as instructions for the Sr. de la Jonquière, Vice-Admiral, Governor and Lieutenant General of New France. Canada although suitable for solid and advantageous settlements, has made but little progress in the course of a rather long number of years. The first inhabitants were principally occupied in trading, drawn thereto by the independence they enjoyed in their operations. The success of those who have devoted themselves seriously to agriculture has served as an example, and for some years the colony has reached a condition offering opportunities to various enterprises profitable to itself and to general commerce, particularly as regards the fisheries and ship-building, which have enabled it to open up trade with the islands of South America and increase that which it had already done with the ports of the Kingdom. But this colony is still far from having reached the stage of development to which it can be carried. It is the intention to employ all practicable means to attain this end. Explanations relating to the public services, religion, administration, justice, &c., &c. Folio 25, 11 pages.

April 1. Memorandum from the King to serve as instructions to MM. de la Jonquière and Hocquart. Definition of their respective duties. Folio 31, 5 pages.

April 1. The President of the Navy Board to M. de la Jonquière. Sends to M. le Duc d'Enville his commission as Vice Admiral. If the duke reaches Canada, (M. de la Jonquière), he will continue his duties with the squadron, and not cause himself to be recognized as Governor General until after the operations on hand; during which period M. de Beauharnois will remain in charge of the civil government. In the contrary case, he will follow the duke d'Enville in the enterprises he may attempt, after which he will proceed to Canada to take possession of the Government. Instructions on the course he should follow to place himself in a position to properly perform the duties as Governor. Folio 33½, 2 pages.

April 28. The same to M. Hocquart. Concerning the Sr. Dubois, ordered to proceed to Canada to serve as a soldier. His family having given him a pension he will supply him according to his needs. Folio 34½, ½ page.

April 29. The same to M. de la Jonquière. Will enjoy his emoluments as Governor from the 15th of March, the date of his commission. Compliments him on the marriage of his daughter to the Marquis of Noé. Hopes that in eight or ten days all the squadron will be able to make sail from Ile D'Aix. It does not appear that the English have a very large fleet in America. Folio 34½, ½ page.

April 30. The same to M. Hocquart. Sends him a memorial from the Sr. Lainé, merchant of Sables d'Olonne in which he complains of the hindrances that the Sr. Taché, an inhabitant of Quebec, has placed in the way of his brother, deceased, and of himself, in regard to the payment of a sum of 15,000 livres that he has owed for 15 years. If this inhabitant does not pay his debt, he will give to the bearer of the power of attorney of Lainé all assistance to cause him to do justice. Folio 35, ½ page.

1746. Paris. June 8. The same to the same. The Sr. Dormicourt having deposited the money that he owed to the heirs of the Abbé Norey, he will cause the distribution of this sum to the Sr. de Norey, lieutenaut, and to the hospitals in the settled proportions. Folio 35½, ½ page.

April 8. Letter in the King's own hand to M. le Duc d'Enville (To my dear cousin.) Believes he may be tranquil on the defence of Canada, which is the principal object. If he cannot retake Louisbourg, he must have at least an equivalent. Should remember that too often the result of a council of war is to give rise to difficulties in the military operations. Thus, he should frequently take responsibilities on himself. Ought not to return without having made use of everything to carry on operations corresponding to the expense and strength of his armament. Folio 52½, ½ page.

April 13. The President of the Navy Board to Father Charlevoix. Should address himself to M. Belamy respecting the three religieuses for whom he desires passage to Canada. Folio 53½, ¼ page.

April 15. The same to M. de Mérie. Sends him the order from the King giving him the command of the troupes de la marine who are to embark in the sieges that may be undertaken, and of even the troops and militia of Canada, if he goes into that colony. Folio 54, bis, ½ page.

April 15. The same to M. le Duc d'Enville In the campaign he is going to engage in, the King has forseen two cases, that in which Canada might be attacked and that in which the colony would have no attempt to fear from the enemy. There is every ground for the belief that the first will not come to pass. If, however, it should occur, he should go to the assistance of the colony before everything else. But, if, as he has every reason to think, he is not obliged to go to Canada, he will be free to follow the course that appears the most suitable, for taking the offensive against the English. The King indicates three objects: Ile Royale, Acadia and Plaisance. The first would be the most satisfactory, but he will not attempt the siege of Louisbourg if he does not judge prompt success is assured. Considers, however, that he might commence his operations to the greatest advantage by the enterprise on Acadia which appears to him certain. Would then have to see whether it be advisable to attack Louisbourg, and, if he decides not to do so, he desires that he proceed to take possession of Plaisance, &c., &c. Folio 54, bis, 2 pages.

Order from the King regulating the rank of the troops and militia of Canada, in case the squadron of the Duc d'Enville reaches Quebec. Folio 54, bis, 1½ pages.

April 15. The President of the Navy Board to M. le Duc d'Enville. Letter accompanying the despatches from the King. Folio 54½ bis, ¼ page.

April 17. The same to M. the Ambassador of Holland. In relation to the letter received from the Duke of Newcastle by this Ambassador, concerning the exchange of prisoners. Folio 55½, ½ page.

April 23. The same to M. Guillot. Is surprised at his indecision as to the work of loading the ship *L'Auguste*, chartered for Canada. Folio 56, 2 pages.

April 26. The same to Mde. la Duchesse de Lorge. Despite all the interest he brings to bear, he is unable to procure a pension for the widow of the Sr. de Boisberhelot, who served in Ile Royale. Will do his best to obtain a position as officer for the son of this widow. Folio 57, ½ page.

April 30. The same to the Judges and Counsuls at Nantes. The prodigious number of vessels that are being placed under the protection of the convoys of the

1746. Chev. de Conflans, produces too much talk and it will be well to take other measures. Informs them that the King, in recognition of the fine conduct of the Comte Du Guay in his encounter with the squadron of Admiral Townsend, has granted him a pension of 1,200 livres in the Royal Treasury; and that he has also given to the Captains Bréville, La Mothe Portail and La Vigne Buisson the Brevets of lieutenants of frigate in recompense for their zeal and their valour on that occasion. Folio 60, 1 page.

April 29. The same to M. le Duc d'Enville. When the transports that sail with his squadron are discharged and he has no further need of them for his operations, he will send them back to France. Folio 60½, ½ page.

April 30. The same to M. le Comte Du Guay. Relating to the pension that the King has granted to him. Folio 61, 1 page,

June 17. The same to M. le Duc d'Enville. Sees by his letter that he proposes after passing the Capes, to let the vessels going to Canada proceed alone. It seems to him desirable that he detach a frigate from his squadron to conduct them as far as the Strait of Belleisle. Folio 81, bis, ½ page.

June 17. The same to the same. The King is much annoyed at the delays that have occurred in the departure of his squadron, for he feels they may occasion many obstacles to the execution of the orders that he has given him. It is too late to undertake anything, especially against Louisbourg. Besides the succour that the garrison has been able to receive from New England and even from England, Admiral Townsend will have had time to reach the place. In spite of all the English forces will be held mostly to cover Louisbourg and he will still have the superiority on the sea. The greatest obstacle will be the season. All the same, he still thinks he will have the necessary time to bring to a good conclusion an enterprise on Acadia. Instructions on what he shall do if he takes possession of Acadia. Folio 81, bis, 4 pages.

July 20. The same to M. Bart, Vice Admiral. The King has given to his brother the position of captain of the port at Fort Royal, Martinique, with a warrant of lieutenant in the navy. Folio 94½, ¼ page.

August 11. The same to M. Guillot. Has obtained from the King a gratuity of 500 livres to help the inhabitants of Ile Royale living at St. Servan. Folio 103, ½ page.

September 8. The King to M. le Duc d'Enville. Will learn by his frigate *La Sirène*, if she can join him, of the return to Brest of *L'Aurore* and *le Castor*, that he had detached to cruise at the entrance of the Gulf of St. Lawrence, and the reasons why M. Davigneau did not await him until the 13th of August at the rendezvous that he had given him. Will be informed at the same time that the convoy prepared in England for Louisbourg had not left by the * * * of last month, but only delayed for a favourable moment to set sail. By the advices he has from other quarters, the English have not found themselves in a condition to attack Canada, this year, at least by sea. Folio 112, bis, 1 page.

September 8. The President of the Navy Board to M. le Duc d'Enville. It is not without pain, as he can imagine, that he has seen *L'Aurore* and *Le Castor* return to Brest, as that deprives him of these two vessels. Sends him *La Sirène*, which will sail by the first favourable wind. It is not to be doubted that the enemy will make the necessary preparations, during the autumn and winter, for an attack in the spring. Hopes he will not meet with too serious difficulties in the enterprise on Acadia. Learns, by the return of the two frigates, that the detachment from Canada had arrived, that he was waited for at Chibuctou, and that everything was sufficiently well provided for to allow him to proceed with his operations. On the other hand, it is claimed that the English, counting on his squadron having been blocked at Ile d'Aix, had sent out their vessels and had distributed them in the

Will take his route towards Port Royal, unless he learns that the Duc d'Enville is elsewhere, in which case he will proceed to join him. If, contrary to appearances, he should find the squadron had returned to Europe, he will not come back without having satisfied himself whether the Duc d'Enville had made some settlement in Acadia or elsewhere. In the latter event he will take the dispatches of the officer in command, or even remain if such officer should judge it necessary. Folio 112½ bis, ½ page.

September 19. The same to M. de Rostan. The number of vessels that are to sail under the convoy of the Sr. Du Bois de La Mothe is very large, but it is better so than to leave without convoy, to avoid being taken by the enemy, as happened to the vessels *Le Bon* and *Le Joseph Louis*. It is the Sr. Sabatier who is to pay off the debts of Ile Royale. Folio 115½, 1 page.

September 21. The same to M. Guillot. Grants a new gratuity of 500 livres to the inhabitants of Ile Royale now at St. Malo. Has procured an extra gratuity of 300 livres for the Sr. Des Goutins. Folio 118, ½ page.

This crew has been handed over to an officer of his Britannic Majesty There is further reason to believe it would have been sent either to Boston or Ile Royale. Folio 168, ½ page.

December 17. The same to M. Bigot de la Mothe. Concerning Pierre Le Blanc, pilot, of Acadia. Folio 168, ½ page.

December 27. The same to M. Bigot. Approves his propositions for the keeping of the accounts of the squadron. Much regrets the bad state of his health and exhorts him to take care of it. Folio 173, 1 page.

CANADA (4TH PART).

ORDERS OF THE KING AND DESPATCHES.

1747. Versailles. January 23. The President of the Navy Board to MM. de Beauharnois and Hocquart. May have learned by way of Acadia of the mischances that prevented the operations of the King's squadron. Has taken fresh measures for the defence of Canada. Has given an account to the King of all they have said respecting the situation of the colony in their despatches sent by *L'Auguste* and *Le Tourneur* and two other vessels leaving at the same time. Has not approved their in decision in regard to the works on the fortifications. The opinion of the King was, that there were the most weighty reasons for leaving matters as they were instead of undertaking this great work. Nevertheless, he leaves it to them on the condition that if they decided to do it the cost should be borne by the colony. Sees they have gone on with the works, but not with great vigour. They should either do nothing or act vigorously. Will send a squadron to Quebec in March that will be under the command of M. de la Jonquière in going out and of M. de Beauharnois in returning. It will carry the eight companies that served in Ile Royale, 150 Swiss and 30 gunners. Has received no news of any preparations in England for an expedition against Canada. Folio 1, 2 pages.

January 23. The same to M. Hocquart. Has been surprised that the bills drawn on the Farmers-General should have amounted to such considerable sums. Believes there have been abuses. Is uneasy about their payment. Certainly cannot support such charges next year. Has been very much annoyed that they considered themselves obliged to retain M. Michel in Canada. Does not know if he can keep the position for him that he had given him. Has granted him an extraordinary gratuity of 3,000 livres. Hopes to be able to place him in France. Folio 2, 1 page.

March 6. The same to M. de la Jonquière. M. de Beauharnois has furnished him with an account of the condition of the garrisons of the ports of Canada. He tells him the Iroquois appear to be inclined to oppose the destruction of Chouëguen, but that in the meantime the successes of the Canadians have caused them to waver. It is of great importance this fort should be destroyed, but it is still more important that the Iroquois should not place themselves on the side of the English. It will be well, as soon as possible, to define the boundary between the government of Louisiana and that of Canada. The present situation results in many inconveniences. Hopes that M. de Longueuil, who commands at Detroit, has been able to make successful incursions against the English settlements at Belle River, and that the same has been done in the direction of Hudson Bay. Folio 2, bis, 2 pages.

1747. March 6. The same to the same. From what M. de Beauharnois says of the conduct of the Sr. de St. Castin, Senr., the service has not sustained a great loss by his death. Hopes that his son will do better and, in that case, may be able to extend him some assistance. Will give the medals for distribution among the chiefs of the Indian nations of the upper country who distinguished themselves by their services. All these nations have promised to go down to Montreal to follow his orders. Assistance for the widows and children of officers to be taken from the leave-of-absence fund. Has reason to be satisfied in general with the behaviour of the Indians. It is excessively important to keep them in a good disposition. For some time, suspicion was felt of the Indians of Sault St. Louis, by reason of their trading connection with the English. Since the war, they have justified themselves by their conduct, which leaves nothing to desire. For this reason, it has been determined not to cause the order of expulsion against the Dlles. Désauniers to be put into execution. He will decide whether to give effect to the order on the conclusion of peace. The Sr. de la Véranderye, who had been charged with the discovery of the Western Sea, finding he made a very profitable trade gave his attention chiefly to the establishment of trading posts. It is for this reason the King has replaced him by M. Des Noyelles. The latter appearing to devote himself still less to discovery. M. de Beauharnois says he has relieved M. Des Noyelles and that he has chosen M. de la Verandyrie to replace him. He must be warned that if he does no better than in the past he will be deprived of all commands in the colony. The farming of the posts to private individuals has greatly dissatisfied the officers who were in the habit of working the posts when they were in command. Many of them have done all in their power to thwart the projects of the lessees and disgust them with their commerce. The Sr. de Céloran has been recalled on this account. There are others against whom he ought to act with vigour if they persist in their obstruction. Folio 3, 6 pages.

March 6. The same to MM. de la Jonquière and Hocquart. Has made a new arrangement with the Compagnie Des Indes by which it continues during another year after the conclusion of peace the price fixed in 1745 for beaver. Remission to the Sr. de Verchères of one-third of the dues to the Domain. The silence of M. Shirley, Governor of Boston, as to the proposition made to him by M. de Beauharnois for the exchange of prisoners appears to indicate that he will not consent. Will send to France all the prisoners taken at sea that are in the colony, above all those of the frigate that the Sr. de Saliez captured last year on the coast of Acadia whom the Sr. de Ramezay caused to be sent to Quebec. Folio 6, 1½ pages.

March 6. The same to the same. It is vexatious that the 3,400 firearms from the manufactory of Liège sent to Canada last year are found of bad quality. Has seen to their substitution. Has approved the leasing of the posts of Temicamingue, Michipicoton and Camanistigouya to the Sr. Cugnet. Will see that the profits go towards the payment of the debts that the St. Cugnet contracted in connection with the St. Maurice forges. If the succour he has sent arrives without accident, the colony will find itself not only secure from attack but even in a state to take the offensive. Has learned nothing by way of England of the project of an attack on the side of fort St. Frédéric. The measures taken by M. de Beauharnois, there and elsewhere, to harass the enemy, may have broken up the latter's plans. With regard to the camp made by the Indians near Soulanges, it ought not to be difficult to discover the authors and to chastise them. Folio 7, 2 pages.

March 6. The same to M. Hocquart. Sees by the abstract of accounts rendered by the Srs. Estèbe and Martel de Bellevue, of the manage-

1747. ment of the forges of St. Maurice, of which they have been in charge since 1741, that the actual receipts have been 387,653 livres and the expenses about the same, but that the property remaining in the storehouses belonging to these forges represents in value 50,432 livres, which should be regarded as profit. It may be judged from this, if the working was carried on to the most advantage by individuals, it could not fail to be remunerative. Is glad that the new discoveries have put an end to uncertainty on the subject of sufficient supplies from the mines in the locality. If the Sr. de la Corne, purchaser of the settlement at Terrebonne, thinks it well to search for mines and examine the facilities there may be for the establishment of forges, he can be allowed to do so, but if he desires to establish such an enterprise he would have to receive the express permission of the King. Folio 8, 2 pages.

March 6. The same to the same. Relating to the increase in the price of beaver. Supplies that the Sr. Du Vivier claims to have furnished for the use of Ile St. Jean. Explanations asked. The detachment that has passed to Canada under the orders of this officer, will this year return to the company from which it was drawn. Has done right to retain in Canada the

The same to the same. Will cause to be paid to the widow of the Sr. Roebert the amount of the deficit which he left at his death. On the sub-

March 6. ject of various administrations. Folio 10, 2 pages.

March 6. The same to the same. Relating to various supplies. Folio 11, 2 pages.

The same to the same. Has taken measures to induce merchants to carry merchandise for trading to the colony. Last year's expences have been enormous. Since the scarcity of merchandise for trading has prevented the merchants bidding for the lease of Tadousac, he has done well to cause the working to be continued by the Sr. Cugnet, furnishing him the munitions for the maintenance of the post. The fire at the potash establishment is annoying. Sees with pleasure that the choice of M. de la

March 13. Jonquière as Governor is favourably viewed in Canada. Folio 12, 2 pages.

The same to MM. de la Jonquière and Hocquart. On the account that has been given to him of the conduct of the Sr. Salaberry in the command of the schooner *La Marie*, loaded with munitions for Quebec, has procured him a gratuity of 1,200 livres. It is annoying that the timber procured him a gratuity of 1,200 livres. It is annoying that the timber revetment on Lake Ontario to prevent the water reaching the foot of the wall should not be maintained and that the land continues to fall in. The arrangement made with the Bishop with respect to the dowry of the

March 13. for the Sr. Perthuis, Senr. assessor to the said Council. Folio 15, 2 pages.

The same to M. de la Jonquière. Has seen by the letters from M. de Beauharnois the successes gained by the Canadians on the coasts of New England, particularly by the party of M. Rigaud, major of Three Rivers. In the distribution of favours it is necessary to select the most worthy. Will be guided by that consideration in the recommendations for promo-

March 13. The same to the same. Has procured half pay for the Sr. Barolet, employed at the Quebec storehouses. Folio 21, ¼ page.

March 13. The same to MM. de la Jonquière and Hocquart. Explanations accompanying the duplicates of the two estimates from the King, the one of the expenses of the navy and the other of the charges of the Domain. Folio 21, ½ page.

March 13. The same to the Bishop. His brother should have received the 9,000 livres assigned to him on the benefices Many of the inhabitants of Lake Champlain having abandoned their settlements owing to the war, he approves his decision, in concert with M. Hocquart, to defer to a more traquil ful period the establishment of a parish in that locality. There will be no trouble as to the inhabitants of Canada not accommodating themselves to the transfer of several fete-days to Sunday; time will cause them to feel the utility of such an arrangement. Nothing has come to him of the complaints of which he speaks from the Ursulines of Louisiana against M. Le Normant, but if, as he thinks, these have reference to the arrangements made for the management of the hospital of New Orleans, these religieuses have no reason to complain. It becomes more and more urgent to make some arrangement to prevent the utter ruin of the hospital of the Charron Brothers. M. de Beauharnois has testified to him as to the zeal of the Sr. Piquet at his mission of the Lake of the Two Mountains. Has not thought it his duty to report to the King his proposition to establish the Sisters of the Congregation at Detroit, because far from His Majesty being willing to multiply establishments of this kind in the colony, his intention is, on the contrary, to reduce the number of those that have been created, when circumstances permit. For a long time the King has charged him to make him aware of his intentions in this respect, for the purpose of placing him in a position to take advantage of every opportunity to work for this reduction. It is not possible, in the circumstances, to give him any assistance for the restoration of the cathedral of Quebec. Will not forget the son of M. de Lotbinière. Folio 22, 2 pages.

March 13. The same to M. Levasseur. It is to be hoped that his action in running *La Martre* aground in the St. Charles river, for wintering, will not injure the vessel. As he hopes that the new shipyard at the Cul-de-Sac will be finished early this year, he has decided to send *Le Rubis* there to be repaired. forward the necessary rigging for the fitting out of the *St. Laurent*. Relating to the Sr. Cressé. Folio 23, 1½ pages.

The same to MM. de la Jonquière and Hocquart. Concerning the fortifications of Quebec. Folio 24, 2 pages.

March 20. The same to M. Hocquart. Leaves it to Sr. Levasseur to design the figure-head for the vessel *Le St. Laurent*. Folio 24½, ¼ page.

March 20. The same to M. de la Jonquière. The King has appointed the Srs. Boucher and de Couagne, formerly of Ile Royale to proceed to Canada to serve in the engineering department, the first as engineer and the second as assistant engineer. Has granted the Cross of St. Louis to M. Boucher. Folio 25, ½ page.

March 20. The same to M. Boucher. Same subject. Folio 25, ½ page.

March 20. The same to M. de Léry. Will write to the Governor of San Domingo to grant his protection to the bearer of the power of attorney of his children for the purpose of recovering of what may be due to the estate of the Sr. de Beauvais to which his sons are the heirs. Folio 25½, ½ page.

1747.

March 20. The same to M. Varin. Has been appointed to replace M. Michel at Montreal. Recommendations. Folio 25½, ½ page.

March 20. The same to M. Hocquart. Respecting the appointment of the Sr. Varin to replace the Sr. Michel. Might fear from what he had been told of his character, that he might not conduct himself in such a way as to conciliate all suffrages, if he were not persuaded he would watch him closely. Folio 26 1½ pages.

March 20. The same to M. Michel. Must not fail to pass this year in France to fill the new appointment he proposes to give him. Folio 26 2½, ¼ page.

March 20. The same to M. Piquet. Is pleased with the zeal of the Indians of his mission. The gratuity of 2,000 livres for them is continued. Mgr. le Dauphin has read with interest the orations of the warriors of his village. Folio 26½, ½ page.

March 20. The same to M. Hocquart. Has received his letter with the proposed regulations determining the respective prerogatives of the Judge and of the Commissary of the Navy at Montreal. Explanations and instructions on this subject. Folio 27, 2 pages.

March 27. The same to M. de la Jonquière. The King awaits his arrival in Canada and his report on the conduct and services of the officers who have taken part in expeditions before making promotions in the service in the colony. Folio 28, 2 pages.

March 27. The same to M. Hocquart. The King is waiting for M. de la Jonquière's arrival in Canada and his informing himself of the special services performed by the officers before making promotions. Has nevertheless procured a gratuity of 1,500 livres for M. de Rigault, in consideration of the manner in which he acted in command of the party of Canadians he took to New England. Folio 29, ½ page.

March 27. The same to M. Rigault. Same subject. He will not be provided for in the filling of vacant positions until next year. Will not then forget him, or the Sr. Marin, junr., and the other officers and cadets who served under him in his expedition to New England. Folio 29, 1 page.

March 27. The same to M. Hocquart. The order from the King giving the command of the artillery to M. the Chev. de Beauharnois does not in any way detract from the provisions of the ordinance concerning his powers over the artillery. Folio 29½, ½ page.

March 27. The same to M. de Beauharnois. Will take command of the squadron of the Sr. de la Jonquière, returning from Quebec to Brest. Folio 30, ½ page.

March 27. The President of the Navy Board to the same. Same subject. Folio 30, 1 page.

March 27. The same to the same. Will learn on his arrival in France the sad news of the death of his brother. Has himself lost his father. Folio 30½, ¼ page.

March 27. The same to M. de la Jonquière. Relating to the command of the squadron going as well as returning and the transfer of the government of the colony. Observations on this subject. Necessity of hastening his departure. Will send a detailed statement of what he may do in Canada and the force he will have to send to attempt the conquest of Acadia. Folio 31, 2 pages.

April 3. Order from the King providing that the troops formerly employed in Ile Royale serve in Canada. Folio 31½, ½ page.

April 3. The President of the Navy Board to MM. de la Jonquière and Hocquart. Rank that the troops from Ile Royale are to have in Canada. Their distribution. Observations on their payment. Folio 32, 2 pages.

1747. April 3. The same to M. Hocquart. A limit must be placed to the expenses, and bills of exchange must be drawn only as in 1744, or they will be allowed to go to protest. On the fortifications of Quebec. Will take measures for the reimbursement of the expense. Folio 33, 1½ pages.

April 3. The same to M. de la Jonquière. The indemnity of 750 livres paid to the Sr. Boisseau, chief clerk to the Council, with respect to his piece of land on the bank of the river taken for the establishment of a battery was not in order, seeing that the grants of lands in the name of his Majesty contain a reserve clause for fortifications. Folio 34, ½ page.

April 3. The same to M. de la Jonquière. Consents to the payment of a new gratuity of 1,500 livres to the Controller of the Domain at Quebec. Will notify him that this help will be the last. Folio 34, ½ page.

April 10. The same to M. Hocquart. Will return the bill of exchange of 400 livres for Chev. Dubois whose destination is changed. Folio 34½, ¼ page.

June 10. Letter from the King to M. le Marquis de Beauharnois. The Marquis de la Jonquière having been made prisoner on his voyage to Canada, the Comte de la Galissonnière will replace him. Will transfer to him the command of the colony. Folio 35, ½ page.

June 10. The King to M. de la Galissonnière. Causes the letters patent conferring on him the government of Canada in the absence of M. de la Jonquière, to be sent to him. Folio 35, ½ page.

Pontchartrain. June 13. The President of the Navy Board to M. Hocquart. Has taken every measure that the present state of the navy permits to prevent the ill results the misfortune that has overtaken the squadron of M. de la Jonquière might entail. Has sent orders to Rochefort to have loaded on the King's vessels *Le Northumberland* and *L'Alcyon* and the storeship *La Gironde* that were being made ready for the islands, all the war supplies that Canada requires. Folio 35½, 1 page.

July 21. The same to the same. There is reason to hope that the fleet of merchant ships which left for Canada under the convoy of the squadron of M. de la Jonquière and continued its voyage during the fight, will have arrived in the colony. Only one vessel of this fleet took shelter on the coast of Europe, which vessel was to resume her voyage. Has sent another, since, from Bordeaux, and one more is being fitted out at Bayonne. Folio 36, 1 page.

July 21. The same to M. de la Galissonnière. The King awaits with impatience his departure for Canada. It does not appear that the English have made preparations for an attempt on Canada this year. They are engaged only in raising troops for reinforcing the garrisons of their colonies, and the effort seems to limit them to the defensive with their recruits. It may well be that the check the King has given the allies in the Low Countries will send these recruits or part of them to replace the losses in the regular troops. Should nevertheless neglect nothing for the defence of Canada. Folio 36½, 1 page.

September 18. The same to MM. de la Galissonnière and Hocquart. The King has approved the action of MM. de Beauharnois and Hocquart in sending the schooner *L'Aimable Marthe* to inform him of the arrival at Quebec of the frigate *L'Emeraude* with most of the vessels bound for the colony. Has reported to the King the decision taken by M. de Beauharnois to declare war against the Mohawks. Has learned of this occurrence with pain, for it is to be feared the other Iroquois nations may join them, notwithstanding their promises to remain neutral. Had already been informed by a vessel sent from Acadia by M. de Ramezay of the occurrence that took place at Mines in the course of February last. The King will not allow to pass without recompense the valour and courage of which they gave proof. There is ground for hope that the advantage gained by M. de la Corne St. Luc over a part of the garrison of Fort Sarasteau would have allowed M. de Rigaud to attack the fort with success. It appears there is no longer a

1747. question in England of undertaking any attempt against Canada. Folio 37, 2 pages.

September 18. The same to M. Hocquart. Has done right in purchasing *L'Aimable Marthe* for the King. Sees with surprise, despite all the help he has given to the colony, the bills drawn on the Treasurers General are still excessive. Will without doubt have learned what happened to the Sr. Prévost. He has returned to France. He will next spring go back to Canada, or will be replaced by another if his health does not permit him to go there, but it is necessary all the same that M. Michel come back to France. Folio 38, 2 pages.

September 18. The same to M. the Bishop of Quebec. Is not aware what success attended his attempt with the Governor of New England to obtain permission to send additional missionaries to Acadia. Fears that circumstances may give birth to difficulties. Folio 38½, ½ page.

Versailles. October 6. The same to M. de la Galissonnière. Has learned that the detachment M. de Beauharnois had sent to Acadia has returned to Canada. The King desires him to despatch another one, 600 to 800 men, as soon as possible. It might be necessary, in case the King should decide to send other troops, either to make some attempt to attack Port Royal or to send them by that route into Canada to avoid the risks that vessels might meet with in the gulf. Folio 39, ¼ page.

(Here follow 65 pages relating to Louisiana.)

Bigot will grant some gratuity to the officers of the troops of Ile Royale who leave their wives in France. All being ready, and the wind favourable, he hopes the departure will not be delayed. Folio 40, bis, ½ page.

March 27. Letter from the King to M. de la Jonquière. As, to take possession of his office as Governor of Canada, he is to go on *Le Sérieux*, which is intended to sail for Canada, with *Le Diamant*, *Le Rubis*, the frigates *La Gloire* and *L'Emeraude* and several transports, in his capacity as Rear Admiral he will take command of all these vessels until they reach their destination. Folio 40, bis, ½ page.

March 27. Memorandum from the King, to serve as instructions to the Sr. Marquis de la Jonquière, Rear Admiral of the naval forces, and Governor Lieutenant General for his Majesty in New France, on the command with which he is charged of the squadron bound for Canada. Folio 40, bis, 1½ pages.

April 1. The President of the Navy Board to M. de la Jonquière. Is surprised to see that he is is at Lectoure at a time when he believed he was at Rochefort. His absence might entail delays, and it is important there should be none. Can count on the assurance that has been given to him of the cordon rouge after one year of government in Canada. Folio 40, bis, 1 page.

April 10. The same to the same. It becomes all the more important to hasten the departure, that the English are preparing an armament which, probably, has for its object the conquest of Canada. Commodore Warren, who commanded at Louisbourg until the arrival of Rear Admiral Knowles, went to Boston, where he planned an attack upon Canada. He has returned to London, where at first, they appeared to have decided nothing on the subject. The last news is that Warren is to have command of the squadron, the destination of which is concealed. This squadron could not be ready before the commencement of next month, so that it is very important to be beforehand. Folio 40, bis 1 page.

April 1. The same to M. de Givry. Relating to the departure of the squadron. Folio 41, 1½ pages.

April 3. The same to the same. Same subject. Folio 42, 1 page.

April 7. The same to M. de la Jonquière. Divers instructions. Folio 44½, ½ page.

1747.
April 10. The same to M. de Givry. Id. Folio 46, 1½ pages.

April 15. The same to M. de la Jonquiére. Hopes he is in a condition to profit by the northerly wind now prevailing. There has arrived in England, coming from Louisbourg, a packet-boat with the news that of the 4,000 men that were at Louisbourg there remain only 1,000, all the rest being dead. On the departure of this packet-boat, there were 400 or 500 corpses on the snow that they had not been able to inter up to that time. The armament under preparation in England is being pushed with vigour. The privateer *La Marquise de Tourney*, put in at Ile de Rhé, reports having seen an English squadron east and west of the Courreaux. This information can hardly be true; there is not a sufficient number of vessels on our coasts and still less together. It must be the fleet of the Compagnie des Indes. This should not prevent a departure, but the contrary. Folio 47, 1 page.

April 15. The same to M. de Barrailt. What was seen by the privateer *La Marquise de Tourney* could only be the remainder of the fleet that sailed from Port Louis and was dispersed by a gale the day after departure. Folio 47, ½ page.

April 17. The same to M. de Givry. Relating to the squadron. Folio 48, 1½ pages.

May 1. The same to M. Bigot. Concerning the settlement of the affairs of Ile Royale. Must be aware of his sentiments towards him. Will do everything possible for him. Folio 49, ½ page.

May 1. The same to M. Givry. Had already learned of the sailing of the squadron of M. de la Jonquière, but a letter since received informs him that it was obliged to put into port owing to a change of wind. Folio 49½, 1 page.

May 8. The same to M. Barrailt. Captain Despiet being unable, owing to his health, to proceed to Rochefort to receive the Cross of St. Louis, the King has commissioned Sr. de Bouillon for this purpose. The Sr. Despiet lives at St. Sever, Cap de Gascogne. Folio 51, ½ page.

May 8. The same to M. Bigot. Begs to be informed why Father Isidore, Récollet, has not followed the troops of Ile Royale of whom he is chaplain, and the reasons why the Sisters of the Congregation did not go on board ship and have not been paid their gratuities. Folio 52½, ½ page.

May 12. The same to the same. Instructions regarding the settlement of the accounts of Ile Royale. Folio 53, 1 page.

May 25. The same to M. de Serigny. Has written to M. de Givry to cause payment to be made of the 12,000 livres to be granted to the late M. de Chateaugué on the emoluments coming to him. Folio 56, ¼ page.

Paris.
June 7. The same to M. de Givry. The northerly wind having continued for several days after the sailing of M. de la Jonquière, there is reason to hope he has continued his voyage without obstacles. Will give orders to pay M. de Serigny for the estate of his brother. Folio 57½, 1 page.

June 7. The same to M. Bigot. Various instructions. Folio 58, 1 page.

The same to M. Morpain. It is the King's intention to avail himself of his zeal and services. In the meantime he will enjoy the emoluments he had as captain of the port at Louisbourg. Will receive out of the proceeds of his prizes the amount due to him. Folio 58½, ¼ page.

Paris. June 6. The President of the Navy Board to M. de la Galissonnière. Has doubtless heard the bad news respecting the squadron of M. de la Jonquière. Measures taken to send further help to Canada. The fitting out of three vessels. The King has thought fit to select him for general command in Canada in the event of M. de la Jonquière being made prisoner. Folio 74, 2 pages.

June 14. The same to M. Delalanne. Is satisfied with the arrangements made for the new armament for Canada. Will not return until he brings news of the sailing of the vessels. M. de la Jonquière having been invested with the general government it is not possible for the present to send him that appointment but his letters patent give him the same powers, the same rights, the same authority and the same emoluments. Will have the command of the vessels during the voyage but exhorts him to make no use of it except in case of necessity. Will take into account the expense which this hasty departure will occasion him. Folio 79, ½ page.

June 14. The same to M. Périer de Salvert. Recommends him to hasten his departure, and hopes he will be ready to set sail in a few days. Folio 79, ½ page.

June 20. The same to M. de Barrialt. Importance of sailing without delay as soon as the wind allows. October 9. The same to M. Prévost. Has been commissioned to supply the place of the Sr. Sabatier in the settlement of the expenses of Ile Royale. Folio 101, ¼ page.

October 9. The same to M. Karrer. The King will not feel favourably disposed towards the detachment of his regiment that was taken in the fight in which M. de la Jonquière was engaged, evidence having been received of the conduct of his soldiers very little to their advantage. Folio 103, ½ page.

Versailles.
December 15. The same to M. Belamy. MM. de la Galissonnière and Hocquart have asked that orders be given to all vessels sent to Canada next year obliging them to take at least one-sixth of their cargo in salt. This product would not be worth less than 12 to 15 livres the bushel. Folio 126, ½ page.

ORDERS OF THE KING AND DESPATCHES, 1748.

(4th Part.)

1748. Marly. January 18. The President of the Navy Board to M. le Comte de Galissonnière. Did not wait for representations from him to allow him an indemnification for the expenses occasioned by his passage to Canada. The King has provided for them by a gratuity of 6,000 livres which has been paid to Mde. de la Galissonnière. M. D'Ormesson will propose to the King the entra nce of his two nieces at St. Cyr. Folio 1, ½ page.

January 18. The same to the same. It is not possible this year to provide the artillery he asks for Quebec and Montreal; what the navy has lost by the taking of its vessels, and what are required for new vessels, do not allow it to be thought of at present. Besides, according to the last statements of MM. Beauharnois and Hocquart there was no question of more than 76 guns, and he asks for 103. Will take measures next year to get together a portion of what he asks. The Sr. de Ramezay has sent him a memorandum in which he deals with Port Royal and Acadia. The retention in Canada of the English children that the Indians have with them would be of no benefit, unless they remained permanently, for the moment they allowed them, sooner or later, to return to their own country the knowledge gained by them could only be injurious to us; so it will be best not to keep them long. It is not to be doubted, on the other hand, that the only object of the Indians in adopting these children is to strengthen themselves and increase their numbers, but his proposal to buy them from the Indians to send them to the islands cannot be adopted, seeing they can have no part in it, and this expatriation would make a disadvantageous impression. Folio 1, 1½ pages.

January 18. The same to MM. de la Galissonnière and Hocquart. Nothing can be added to what has been paid to the Sr. Boisseau for the land taken for a battery. It would be possible to give some encouragement to the Sr. De la Fontaine for the establisment of a whale fishery with nets, but he cannot be given an exclusive privilege. The Sr. Boucaut, Lieutenant-General of the Admiralty at Quebec, has no intention of retiring; he has, on the contrary, since his arrival in France, asked for leave for two years. With regard to the position of Clerk of the Marshalsea, vacant by the death of the Sr. de L'Isle, it has been given to the Sr. Lemalatie whom they had proposed. The Sr. Varin cannot claim a gratuity. Folio 2, 2 pages.

January 18. The same to the same. The King has been graciously pleased to grant the request made by the Hospitalières of Quebec to admit into their Community the Dlles de Saque Epée, D'Amours, de Louvières and de Bellagard with a dowry each of 1,500 livres only, to be taken from the proceeds of

1748. the leave-of-absence fund, but the King will not allow them to make further proposals of the nature in favour of no matter whom. It is to be hoped, for the purpose of reducing the number of religious communities, the Hospitalières and the Religieuses de l'Hôpital General could be amalgamated. The King is informed that the confinement to the hospital is not healthy for the religieuses and those who retire there. These religieuses having asked permission to purchase a piece of land at St. Augustin and another, uncleared, near Quebec, the King has refused, seeing that they represented at the same time that their Community could not meet their indebtedness, and the King would not place them in the way of increasing their responsibilities. Folio 3, 2 pages.

January 18. The same to M. de la Galissonnière. Relating to the companies of Ile Royale and the new levies that are to be embarked for Canada by the first vessels. Difficulties have arisen in England that prevented the return to France of the soldiers of the troops of Ile Royale. If M. Karrer can send some soldiers, their passage will be procured. On the conclusion of peace, the troops in Canada can be increased. Respecting gratuities to officers commanding trading posts. Gratuities of 100 livres to the Srs. Marin junr., and de Beaubassin, in consideration of their study of the Indian tongues. Folio 4, 2 pages.

January 18. The same to M. Hocquart. It is with pleasure that he has learned of the good condition of the St. Maurice forges. The consumption of foundry work being assured in the colony, it cannot be doubted that they will yield a profit. Is very glad to learn that the forge hammer he has had put up is successful. It is important to train up good workmen as it is expensive to have them from France. The new discoveries of mines by the Sr. de Tonnancourt removes all anxiety as to the supply of iron ore. Folio 5, 1½ pages.

January 23. The same to the same. Has not considered it fitting to confer the Cross of St. Louis on the Chevalier de Beauharnois. Such a favour would have a bad effect under the circumstances as regards the old officers of the colony not yet provided for. Has procured him a gratuity of 200 livres for his lodging. Folio 6, 2 pages.

January 23. The same to M. de la Galissonnière. Will enquire whether it will suit to transfer the fort of Niagara beyond the river. The most important operation will be the destruction of Choueguen. He ought to have sufficient strength without stripping the colony to succeed in this undertaking. In any case, if the troops that are to be sent him in the spring arrive without accident, it will be all the easier. The point that seems to him the most difficult to attain is the consent of the Iroquois. It is for him to work in this direction in making use of the services of Father Piquet. Since the battery that was proposed at l'Anse aux Senelles does not appear to him useful there should be no further question of it. His proposal to send coureurs de bois to the Islands seems to be a punishment that will have the best effect. Folio 7, 2 pages.

January 23. The same to M. Hocquart. Approves of his having made use of the rigging intended for the *Saint Laurent* for the frigate *La Marthe*. This frigate reached France without accident, and the Sr. Dubois who commands is well satisfied. Sends to Quebec on two St. Malo vessels what is required to complete the fitting out of the *St. Laurent*. The other supplies ready at Rochefort will leave with the general staff on *La Friponne*, *Le Prince d'Orange* and a merchant vessel from Bordeaux. The *Saint-Laurent* completed, the construction of a vessel of the same strength must be commenced. The Sr. Levasseur cannot be made engineer of the navy that position no longer existing in the construction of vessels, but another arrangement will be made with which he will be satisfied. Annual gratuity to the Sr.

1748. Foucault. Sends an order as apprentice to ship building for the Sr. Cressé. Folio 8, 2 pages.

January 23. The same to M. de la Galissonnière. Will retain in the colony the son of the Sr. Olive, Marshal of the King's stables. Folio 9½, ½ page.

January 23. The same to MM. de la Galissonnière and Hocquart. *La Friponne* will be under the command of the Sr. de Tilly, with le Sr. de Beauharnois as second. On their arrival at Quebec, the first will take the command of *Le St. Laurent*, and that of *La Friponne* will go to the Sr. de Beauharnois. If the vessel that is to be constructed after the sailing of *Le St. Laurent* can be completed in the course of next year, work will then be started on the building of a third vessel, of 70 guns. Exchange of prisoners in America. If the Irish Catholics taken as prisoners to Canada ask to remain there, sees no difficulty in their being allowed to do so; the manner in which the English treat their nation ought not to cause them to regret such a change. The same could be done with respect to the Scotch catholics. Folio 9, 2 pages.

January 23. The same to M. Hocquart. The King would not have approved his retaining the Sr. Michel longer in Canada. He is to go to Louisiana. witn the rank of Commissary General. If the health of the Sr. Prévost does not allow him to properly fill the position of Controller of the Navy at Quebec, he must be replaced, and there is another person, quite competent to perform the duties of this important post. Has given warrants as King's Scriveners to the Srs. Landriève and Michel. Folio 11, 2 pages.

January 31. The same to MM. de la Galissonnière and Hocquart. It is true, as the gazettes of Boston have announced, that there has been a question in the English Parliament of reimbursing the English colonies for the advances made for the Ile Royale expedition. This reimbursement has not yet been granted. There is no longer any question in England of an expedition against Canada, and their gazettes state that the troops collected for the object referred to have been disbanded. The succour received in Canada from France in September last and the good countenance shown by the Canadians on all occasions may have caused it to be thought the undertaking would have no chance of success. There has been no question of Commodore Warren for the government of Louisbourg. This officer has even sent his family, which was in one of the north American colonies, to England. M. Knowles, for his part, was to proceed to Jamaica. Has received none but good reports of Father Piquet, and the good conduct of the Indians of his Mission sufficies to testify to his own. The good use to which he has put the assistance given him has decided the King to present him to a benefice in France. He might be of great utility near the Iroquois. Is glad the stranding of *L'Alcyon*, ascending the river, had no serious consequences. The shallows where she ran aground must be placed on the charts. Folio 12, 2 pages.

January 31. The same to M. Hocquart. Respecting the chartering of the vessel *Le Tourneur* belonging to the Sr. La Garande le Pestour, of Granville. Folio 13, ½ page.

January 31. The same to MM. de la Galissonnière and Hocquart. The vessel to be constructed after the departure of *Le St. Laurent* will be named *L'Original*. Folio 13, ¼ page.

Versailles, February 7. The same to M. de la Galissonnière. Relating to an agreement with Governor Shirley for the exchange of prisoners. To meet the difficulties they raise regarding the Indians, M. de Beauharnois should insist strongly with M. Knowles on the extraordinary fact that the inhabitants of Ile Royale who by the capitulation were not prisoners and should have been given over to us were sent to France while they asked to go to Canada. Recall the conditions of the agreement to him. Folio 14, 2 pages.

1748. February 7. The same to M. Hocquart. Relating to the troops of the colony. The tar and the staves-wood thas he sent to France have been lost in the wreck of *La Gironde* on the coast of Brittany. Should not allow everyone who asks for permission to leave for France. Folio 15, 1½ pages.

February 7. The same to M. de la Galissonnière. Same subject. Folio 15½, ½ page.

February 7. The same to M. Hocquart. The Srs. Pascaud, being unwilling to take the risks of the supplies to be prepared for the King's storehouses in Canada, has agreed with them to furnish them this year in consideration of five per cent commission and six per cent on the money they advance. Folio 16, ½ page.

February 7. The same to M. de la Galisonnière. M. Loppinot, adjudant of the companies of Ile Royale, cannot go to Canada this year. Captain de Bonnaventure will be charged with the duties of the adjutancy. Folio 16, ¼ page.

February 7. Order from the King on this subject. Folio 16, ¼ page.

February 7. The President of the Navy Board. Instructions concerning the Sr. de Beauharnois, lieutenant in the Navy. Folio 16½, ¼ page.

February 7. The same to MM. de la Galissonnière and Hocquart. Relating to the the companies of the garrison of Ile Royale. Folio 17, 1 page.

February 12. Decree of the Council of State permitting the Religieuses Hospitalières of Quebec to admit to the sisterhood four novices, taken from among the officers of the colony, with a dowry of 1,500 livres instead of 3,000. Folio 17½, 1 page.

February 12. The President of the Navy Board to M. de la Galissonnière. Thanks him for his observations concerning the measures to take with respect to our possessions in America, when the question of the treaty of peace arises. It is on this subject that the English will probably show themselves most difficult to deal with. If Ile Royale is restored, the number of the former troops must be added to. It is to be desired that the arrival of the convoys of merchandise at Detroit and at Michilimakinac will have restored transquillity. The Sauteux should be punished, as the most guilty. It is certain that the best means of placing Detroit in security from the incursions of the Indians would be to people the locality with agriculturalists. Up to the present attempts of this nature have not been successful. Might apply himself to this question after the war. Folio 18, 2 pages.

February 12. The same to MM. de la Galissonnière. and Hocquart. Has reported to the King the provisional arrangement they have made, conjointly with M. the Bishop of Quebec touching the administrations of the Montreal General Hospital, and it is approved, the King is not disposed, nevertheless, to what may lead to the formation of a new community of girls, the communities being already too numerous. This community, on the contrary, should be amalgamated with that of l'Hôtel Dieu. Will procure for the Sr. Lajus a position as surgical pupil at Rochefort. Has taken measures to send a great deal of salt to the colony. Folio 19, 1½ pages.

February 23. Memorandum from the King to serve as instructions to M. Bigot, Intendant of New France. Folio 20, 12 pages.

February 23. The President of the Navy Board to MM. de la Galissonnière and Bigot Will permit the Sr. Verrier, Procureur-Genéral, to leave for France to settle family affairs there. Folio 26, ¼ page.

February 23. The same to M. de la Galissonnière. The widow of the Sr. de Boisberthelot, who has gone to Canada, asks that two of her children, still young, enter the companies that served in Ile Royale and are going to Canada, to place her in a position to bring them up. The King approves in advance what he may do in this respect. Folio 26, ½ page.

February 23. The same to M. Hocquart. The widow of the Sr. D'Amours represents that she is refused the payment of the emoluments due to her late husband because she cannot procure a certificate of his death. She alleges that he is

1748.

aware that her husband is drowned. Will inform M. Bigot as to what has
February 23. taken place in this matter.

The same to M. Bigot. It is not just to compel the Sr. Taschereau, clerk of the Treasurers to make advances on the pay of officers. That involves
February 23. inevitable losses to which it is not right to expose him. Folio 26½ 1 page.

The same to M. le Chev. de Beauharnois. Relating to the expenses of the artillery service of Canada. Will conform to the custom. The company of gunners of Captain de Ste. Marie will not go to Canada until next year. It will be the same with regard to the artillery asked for the fortifications of Quebec. It is to M. de la Galissonnière that he should submit his observations on the subject of the work on the batteries. Folio 27, 1
February 23. page.

The same to M. de Léry. There should be no more question of what has passed on the subject of undertaking the fortifications of Quebec, the King having approved their being proceeded with. The Sr. Boucher will not go to Canada. He will be replaced next year. In the meantime, the Sr. de
February 23. Couagne, assistant engineer, will go the colony. Folio 27½, ½ page.

The same to M. Rigaud de Vaudreuil. The King has appeared to be satisfied with his account of his expedition. Has profited by the changes in the general staff of the colony to give him promotion. The King, nevertheless, considering the forces he had at his disposal, hoped for more
February 23. important results from his expedition. Folio 27½, ½ page.

The same to MM. de la Galissonnière and Hocquart. The position of captain of the port of Quebec becoming vacant by the new appointment given to the Sr. Macarthy, the King, accepting the suggestion of M. de la Galissonnière, has given it to the Sr. D'Aillebout de Céry. The King, unwilling to leave the services rendered by the Sr. Chéron since the beginning of the war without recompense, has granted him a gratuity of 2,000 livres. Has given to the Sr. Lamarille, Junr, the position of ensign of the port of Quebec. Has granted an extraordinary gratuity of 500 livres to the Sr. Gauthier, inhabitant of Acadia, for his services. Will endeavour to continue this grant until circumstances allow something more substantial being done for him. Does not accept the proposal to continue the working of the post of Chaguamigon for three more years for the widow of La Ronde. It would be perpetuating in one family what with equal justice others might profit by; besides, this post, like the others, ought to be given to the highest bidder. As to the post of Gros Mécatinat, the grantee, having experienced losses, can be given a new concession for six years. M. de la Galissonnière will do what is in his power to render the working of the post of lake
February 23. Alepinigon more remunerative to the Sr. de Lalanne. Folio 28, 2 pages.

The same to M. Levasseur. Is much pleased with the qualities of the frigate *La Marthe*. Relating to *Le St. Laurent*, and the other vessels projected. After the war, measures will be taken to make provision for carying on repairing of all kinds in the colony. Is very satisfied with his zeal
February 23. and his ability and will not forget him. Folio 29, 1 page.

The same to M. Bégon. Is always disposed to procure him favours from
February 23. the King. Folio 29½, ¼ page.

The same to M. Verrier. Has procured him a new gratuity to recompense him for the attention he has given to his lectures on law and following up the making of the papier terrier. Has also given him leave-of-ab-
February 23. sence to come to France. Folio 29½, ½ page.

The same to M. Hocquart. Following his advice, has settled the claim of the Sr. Monségur for the chartering of his vessel for the voyage he made to Acadia. With respect to his claim for supplies furnished to the detachment sent to Acadia, has returned it for his decision. Would have prevented all discussion and saved money to the King if he had at first made a bargain with the Sr. Monségur. Folio 30, 1½ pages.

1748. February 23. The same to M. de la Galissonnière. History of the causes that led the Chouanons to leave Detroit to establish themselves on La Belle Rivière, and the negotiations to bring them back or near to Detroit. Three years ago they took the decision to settle on the Ouabache near the Kickapous and the Mascontins, friends of the French, with the consent of M. de Vaudreuil. Since the war, a large number of Indians of all the nations have joined them, forming a sort of republic, in which the Iroquois who are with them predominate, and the wants of which the English almost entirely supply. Begs him to look into it, for, if the Iroquois succeed in seducing these Indians, the consequences might be all the more serious from the fact that they could easily interrupt communications between Canada and Louisiana. Folio 31, 1½ pages

February 28. The same to the same. The King has granted the Cross of St. Louis to the Srs. de Ramezay and de Croisille, captains of infantry. Folio 31½, ½ page.

February 28. The same to the same. Promotions. Has agreed to the application, frequently reiterated, of M. de Beaucours, Governor of Montreal, to be retired. Has procured him a distinguished pension of 3,000 livres and an annual gratuity of 600. Has thought of M. Bégon, Governor of Three Rivers, to replace him, but will await his advice. His alliance with M. Bégon will not prevent his receiving his ideas with entire confidence. M. de Beaujeu, Lieutenant of the King at Three Rivers, is given his retirement. By the death of MM. Deschaillons and de Gannes, three lieutenancies of the King have to be filled; that of Montreal is given to the Baron Longueuil, that of Quebec to M. de Rigaud, and that of Three Rivers to the Chev. de St Ours. The majority of Montreal is given to M. de Lantagnac, that of Three Rivers to M. de Coulon, and that of Quebec, vacant by the death of M. Péan, to the Chev. de Longueuil. By the death of MM. de Périgny and de la Gauchetière, the retirement granted to the Srs. de la Franière and de Cournoyer, and the promotion of some others, eight companies were vacant. These have been given to the Srs. de Vassan, Marin, de St. Pierre, de Muy, Senr., de Contrecœur; Herbin de Beaujeu, Senr., and Deschaillons. Other promotions: MM. Drouet de Baudicourt, Chev. de Villiers, de Longueuil, de Repentigny, de la Corne St. Luc, de la Périère, Croizille de Courtemanche, de la Ronde Denis, Milan and de Boishébert, Lieutenants. Drouet de Carqueville, de la Chauvignerie, de Léry, Senr., de Bellestre, Chev. de Repentigny, de St. Ours, Croizille de Montesson, de Montigny, Chev. de Niverville, Du Plessis Faber, de la Plante, de Lotbinière, Le Peux and de Sennville, Ensigns. Hertel de Rouville, de la Noue, le Cadet, Hertel de Beaubassin, de Langy, Senr., de Langy Fontenelle, Marin, de Bailleul, Du Bosc, de Sarrobert, Joncaire de Clozonne, de Godefroy, de Portneuf, Nouvillette, de Lusignan, Du Verger, St. Blin, de St. Vincent, Junr., and Des Méloizes, Ensigns on full pay. Other promotions for the Srs. Bonat, Chev. de Langy, Chev. de la Véranderye, de Bleury, Desjordy, Senr., de Villebon, de la Véranderye Senr., Firé, Du Buron, and Chev. de la Périade. A commission as captain has been given to the Sr. de Sabrevois, adjutant at Montreal. Folio 32, 3 pages.

March 1. The same to the same. Sent him the list of officers who are to compose the General Staff of *Le St. Laurent*. Will report to him on the operations in which it will best to employ *Le St. Laurant*, *La Friponne* and *Le Zéphir*. It does not appear that there will be occasion to make use of them in the colony. Will nevertheless keep one of the two frigates to take M. Hocquart back to France. Might employ the other two vessels in cruising either on the Grand Banks or on the coasts of New England. Folio 33½, 1 page.

March 1. The same to Father St. Pé. It is not without cause that complaint has been made of the conduct of the Iroquois of Sault St. Louis in the war against

1748.

the Mohawks. It is true that they behaved well with the detachment of the Chev. de la Corne. Folio 34, ½ page.

March 1. The same to M. le Baron de Longueuil. The King has granted him a gratuity of 200 livres in connection with the expenses that the Indians may have caused him. Has been promoted. Folio 34, ¼ page.

March 1. The same to M. Perthuis. Has received the memorial from the merchants concerning the expiration of the bills of exchange. Folio 34, ½ page.

March 1. The same to M. Bigot. Choice has been made of the Sr. Bréard, Senr principal King's scrivener, to replace the Sr. Prévost in the Control of the Navy Department in Canada. It is only on the good report he will give of him that he could be appointed Commissary of the Navy. Folio 35, ½ page.

March 1. The same to MM. de la Galissonnière and Hocquart. Sends them the two statements from the King relating to the expences. That of the navy is 2,382,610 livres, the other, for the Domain, is 97,892. Folio 35, ½ page.

March 1. The same to M. Piquet. Counts on M. de la Galissonnière having made arrangements to pay the 4,000 livres granted on the proceeds of the posts for the establishment of the village du Lac. His conduct with regard to the project formed by the Iroquois of the Five Nations of embracing Christianity calls for much prudence. Folio 35½, 1 page.

March 1. The same to M. de la Galissonnière. He should have an understanding with M. de Beauharnois respecting the sharing of the duties on beaver. His intention is not to interdict the trade in furs to those who are engaged in the discovery of the Western Sea, seeing it is only with the profits of this trade that they can work effectively to this end, but it is certain, at the same time, that the Sr. de la Vérandyrie has devoted himself a great deal too much to this trading, and that is apparent even from his Journal. Would be very glad if he gave his attention to measures to be taken to push the achievement of this enterprise. Folio 36, 1½ pages.

March 1. The same to M. the Bishop of Quebec. Is always disposed to ask the King to extend him his help. On the occassion of his request for the establishment of the Religieuses of the Congregation at Detroit, he observed to him that the intention was to reduce the number of communities rather than to increase them. Will see whether the Hospitalières cannot be united with the Hôpital-Général. Is surprised that he has taken on himself to permit the Hospitalières of Quebec to receive four sisters of the choir with a dowry of 1,500 livres only for each. The King has nevertheless approved the arrangement. If the Sr. de Lotbinière resigns his deanery, he must find him a successor. Will propose the Abbé de Beaujeu to the King as Councillor in the place of the Sr. Vallier if he consents to go to Canada. Folio 37, 3½ pages.

March 6. The same to M. de la Galissonnière. His observations on the expences of Canada are very just, if the interests of the colony alone are considered, but it is to be remarked that the colonies have no special budget. Their expences are taken from the Navy funds, and a great deal is required from these funds to provide what is wanted for their own needs. It results that the administration is heavily indebted and has been unable to undertake all that is useful or even necessary for the success of the war. For these reasons, he must confine himself to the dispositions necessary for the protection of Canada from the enemy, unless he is able to send the expedition to Hudson Bay. Folio 38½, 1 page.

March 6. The same to the same. The King has granted to M. Hocquart the permission he requested to return to France. M. Bigot, who replaces him will sail on *La Friponne*. Hopes they will maintain a good understanding. Does not ignore his desire to return to France. Will perhaps be in a position to satisfy him sooner than he thought. Folio 39, 1 page.

1748.
March 6. The same to M. Hocquart. All orders are addressed to him, in case of M. Bigot being prevented from reaching Canada. On his return to France will endeavour to arrange matters in such a manner as to content him. Folio 39½, 1 page.

March 6. The same to M. Bigot. Relies on his doing nothing to delay the sailing of the vessels. Folio 39½, ½ page.

March 6. The same to M. de Beaucourt. The King has granted him permission to retire from the service. Pension of 3,000 livres, of which 1,000 are reversible to Mde. de Beaucours, plus 600 livres, yearly gratuity. Folio 40, ½ page.

March 6. The same to M. de Beaujeu. The King has granted him permission to retire from the service with a yearly gratuity of 2,000 livres. Folio 40, ½ page.

March 6. The same to M. le Baron de Longueuil. The King has given him the King's Lieutenancy at Montreal. M. de Beaucourt not being replaced as Governor of Montreal, he will be charged, until a successor is appointed, with all the duties performed by the Governor. Folio 40½, ½ page.

March 6. The same to M. Rigaud de Vaudreuil. The King has given him the King's Lieutenancy at Quebec in place of M. Des Chaillons. Folio 40½, ¼ page.

March 6. The same to M. de St. Ours. The King has given him the King's Lieutenancy of Three Rivers, vacant by the retirement of M. de Beaujeu. Folio 40½, ¼ page.

March 6. The same to MM. de la Galissonnière and Hocquart. Sends them the King's decree, imposing import and export duties on goods previously exempted. Believes this measure to relieve the expenditures for the fortifications of Quebec will meet with less objection than any other. This import will remain suspended except during the war. Goods exported to the islands will be exempt. Folio 41, 1½ pages.

March 6. The same to the same. The King is not willing to prolong for three years the enjoyment of the post of Chagouamigon by the widow de la Ronde. Nevertheless having regard to her position the King grants her for three years one third of the proceeds of the lease. Folio 41½, ¼ page.

March 6. The same to M. Hocquart. Relating to the bills of Exchange drawn for the expenses of the colony. Folio 42, 1½ pages.

March 6. The same to MM. de Lantagnac, de Longueuil, Coulon de Villiers, de Croizille, de Ramezay, de St. Pierre, de Muy, Senr., Marin, Des Chaillons, De Vassan, de Contrecoeur, Herbin, de Beaujeu, Senr., relating to their promotion. Folio 43, 2 pages.

March 6. The same to M. Hocquart. Respecting the accounts of the Domain. The King has granted to MM. de le Salvert, Desherbiers, de la Jonquière Taffanel, not to be taken as a precedent, remission of the duties on the wines and brandy remaining out of the supplies they brought into the colony. The storeship *La Gironde*, carrying 100 barrels of oil on account of the debt of the Sr. Cugnet is lost on the coast of Brittany, on the way from Brest to Rochefort. No one presenting himself for the lease of the Tadousac Domain, he has done right to continue the management in the hands of the Sr. Cugnet. Folio 44, 2 pages.

March 6. The same to MM. de la Galissonnière and Hocquart. Had not believed the war would have occasioned so considerably a derangement of the working of the trading posts. Will judge for themselves what is best to be done with the lessees of these posts, whether to free them from liability under the leases, or reduce it. In any case, it is right that the lessees should pay the gratuities to the commanders of the posts. Finds it well that they have given to the Sr. de la Corne, Senr., the concession he asked to establish a sea-cow fishery at the Iles Miscou for 9 years. Folio 45, 1½ pages.

1748.
March 6. The same to the same. Will be glad if they will propose the names of persons whom they consider suitable as recipients of the gratuities granted to the widows of officers and to retired officers. Folio 45½, ¼ page.

March 6. The same to M. de la Galissonnière. Has accepted all his suggestions with regard to the promotions on the general staff and in troops of the colony. It is at the instance nevertheless of M. de Beauharnois that the Sr. Marin has been made captain. It is reported to him that this officer is not without parts but that he has not always put them to good use in the service and that this was the case during the campaign of M. de Rigaud. M. de Beauharnois claims these statements are only the result of jealousy. Begs him to verify the facts. Is not far off from making use of the idea he has suggested of appointing some of the Canadian officers for the service in San Domingo. Folio 46, 1 page.

March 6. The same to Mde Péan. It is not possible for him to procure for her son this year the promotion she asks for him. Has granted her a pension of 300 livres in recognition of the services of her late husband. Folio 46½, ½ page.

March 6. The same to MM. de la Galissonnière and Hocquart. Has procured pensions for the widows Des Chaillons, Péan, de Gannes and to the son of Sr. de Lusignan. Folio 47, ½ page.

March 6. The same to M. de Lusignan, junr. The King, informed of his zeal and of his good conduct, has given him a second ensigncy, and a pension of 150 livres, in consideration of the valour of which he gave proof at the affair of Mines and the wounds he received there. Folio 47, ¼ page.

March 6. The same to Mde Des Chaillons. Has granted her a pension of 400 livres. Folio 47, ¼ page.

March 6. The same to M. Hocquart. Concerning what is due to the treasury of Canada by the Sr. de Lanouiller. Since his return to France his wife has died and it is impossible to refuse him some forbearance, though not to the extent of losing the debt, if its recovery is possible. Folio 47½, ½ page.

March 6. Decree of the Council of State suspending for three years the edict imposing duties on goods previously exempt. Folio 47½, ½ page.

March 6. The president of the Navy Board to MM. de la Galissonnière and Hocquart Is glad that the precautions taken have prevented the Mohawks from attacking the French settlements nearest to them. Hopes peace will be made with them. Under present circumstances the English would not agree to a treaty between the French and English colonies. It would be of importance to the colony if salt-pits could be established on the Lower St. Lawrence. M. Duhamel sends to M. de la Galissonnière instructions for making salt without salt-pits, as practiced in several provinces of the Kingdom. It will not do to allow new woollen manufactures to be established except such as can do no injury to the market of those of France. The fort established at Ste Thérèse rapids to serve as an entrepôt for goods intended for Fort St. Frédéric may be necessary, but they should have disposed with the enceintes for the villages of the Sault St. Louis and the Lake of the Two Mountains, or at least waited for orders. It is annoying that the stream at St. Maurice has not enough water to allow the casting of heavy guns, but as there are others, it will be seen what can be done when there is peace. Folio 48, 2½ pages.

March 6. The same to M. Hocquart. The King has granted an extraordinary gratuity of 300 livres to M. Levasseur. Folio 49, 2½ pages.

March 11. The same to M. Bigot. Will examine the petition of the widow of the Sr. Lagrois, asking assistance in recognition of the services rendered by her husband at the siege of Louisbourg. Folio 49, ¼ page.

Marsh 13. The same to M de la Galissonnière. To increase the number of vacancies to be filled, the King has granted retirement to several officers. Folio 49½, ½ page.

1748. March 5. The same to the same. The King has given to the Sr. Roebert de la Morandière, cadet in the troops of Canada, a provisional second ensigncy in the troops of Louisiana. Folio 50, ¼ page.

March 25. The same to the same. There appeared to be no question in England of an expedition against Canada, but the latest news is that they are preparing a squadron of six vessels for Louisbourg under the command of commodore Watson (or Warren). The design of the English is more likely to be the protection of their colonies, for they would hardly expect to take possession of Canada with these few vessels. Folio 50, ½ page.

April 1. The same to M. Hocquart. The wool of the Illinois oxen being of use in manufactures, particularly in those of stockings and hats, hopes to have a bale to test it. Folio 50½, ½ page.

April 8. The same to M. Hocquart. The Sr. de Lanouiller, Councillor of the Superior Council of Quebec, being unable on account of his health to go back to Canada at present, he is granted a year's leave. Folio 50½, ¼ page.

Agril 25. The same to M. de la Galissonnière. Begs him to examine the question whether it is preferable to unite Illinois to Canada or leave that post attached to Louisiana. Folio 51, ½ page.

April 25. The same to M. de la Galissonnière. The three cannon made at the St. Maurice forges have been tested. The material was found to be suitable for making cannon, but the guns were badly manufactured. The man Gouvernet has not the knowledge neccessary for such work. When peace is declared, the sending of a competent master founder will be seen to. Folio 51, ½ page.

April 29. The same to the same. The King has established a position as ensign in the company of gunners of Ile Royale. This position has been given to the Sr. Jacau. Folio 51½ ¼ page.

May 13. The same to M. Bigot. Sends him copies of assignments given at the house of the Procureur General at Paris for various individuals in Canada. Folio 51, ¼ page.

May 31. The same to M. de la Galissonnière and Hocquart. Reasons for deferring until next year the fitting out of *Le St. Laurent*. As there is every reason to hope that peace, the preliminaries of which have been signed, will then be concluded, it is probable this vessel will be fitted as a storeship only. M. de Tilly should not give up the command of *La Friponne*. Folio 52, 1½ pages.

May 31. The same to the same. A test has been made at Rochefort of the iron manufactured by the forge hammer at the St. Maurice forges, as well as the steel and the bombs. The iron was found suitable for use in all respects but it was far from being the same with the steel. Folio 53, 1 page.

May 31. The same to the same. Will consign the Sr. de Nauray to the commandant of the vessel in which he will go to France, to be confined in prison at the port where he lands. Folio 54, ½ page.

May 31. The same to M. Hocquart. Concerning the permission given to the Sr. D'Héguerty to repurchase in England the vessel *Le Bien Aimé* of Bordeaux and let it proceed to its destination in Canada 54, ½ page.

June 3. The same to MM. de la Galissonnière and Hocquart. In consequence of the suspension of hostilities, the frigate *Le Zéphir* which was to convoy the vessels chartered for Ile Royale, will leave for Canada alone to carry the orders from the King on the suspension of hostilities and convoy M. Bigot Instructions that he has given to the Sr. Neveu. M. Hocquart will come back to France either on *Le Zéphir* or on *La Friponne*. Folio 54½, ½ page.

June 3. The same to the same. In consequence of the preliminary articles of peace, signed at Aix-la-Chapelle the 30th. of April, the King has published an ordinance directing a suspension of hostilities by land and by sea. Will send orders to the officers engaged in the campaign in the English colonies

1748. to suspend their operations. By these peace prelimiaries, Ile Royale will be restored to France. Is not aware whether the restoration will take effect this year. The King will be satisfied with sending a detatchment of troops from France to retake possession of the colony and pass the winter there. Folio 55, 1½ pages.

June 3. The same to M. de la Galissonnière. Same subject. The inhabitants who were settled in Ile Royale will have liberty to go there and resume possession of their settlements, but if they would attract others, particularly the Acadians, either to Ile Royale or Ile St. Jean, it would be very desirable. The circumstances appear to be very favourable for the purpose. Will take such measures in this respect as seem most suitable to him. Folio 56, 2 pages.

July 7. The same to the same. Will give every facility to establish the right of the Sr. Gobert, of St. Martin, to take a copy of the will of his brother-in-law, the Sr. Chalet, deceased in Canada, and to procure an inventory of the property the latter may have left. Folio 57, ¼ page.

September 28. The same to MM. de la Galissonnière and Bigot. Will give to the Sr. Kalm, professor of botany in Sweden, who proceeds to Canada all the help in their power in the researches he is to make in connection with this science. Folio 57, ¼ page.

(Here follow 80 pages concerning Louisiana.)

ORDERS OF THE KING AND DESPATCHES (3RD PART).

1749. Versailles, January 2. The President of the Navy Board to M. de la Galissonnière. It is reported from England that a petition is to presented to Parliament asking for the establishment of new colonies in various parts of America for the families of those who cannot place themselves advantageously in the older colonies. As it cannot be doubted that the English are looking to an extension of their possessions in America, has written to M. de Vaudreuil to watch the movements of the English towards the Mississippi. Will do the same in Canada. Folio 1, 1 page.

January 6. The same to M. Bigot. Sends him the petition of the Sr. Duvivier de Gourville concerning a vessel chartered at Louisbourg. Folio 1½, ½ page.

February 14. The same to the same. Will have 50 beams for the rebuilding of part of the Hotel Dieu at St. Malo put on board the King's vessel commanded by the Chev. D'Aubigny. Folio 2, ½ page.

February 14. The same to MM. De la Galissonnière and Bigot. The port of L'Orient not being among those that send out expeditions to the colonies has permitted the Srs. Pereant and Droneau, of that port, to fit out a vessel for Canada. Folio 2, ½ page.

February 14. The same to M. the Bishop of Quebec. Sends him the letter from the King, ordering the singing of the Thanksgiving Te Deum on the conclusion of peace. Folio 2½, ¼ page.

February 14. The same to M. de la Galissonnière. Same subject. Folio 2½, ¼ page.

February 14. The same to M. Bigot. Sends him the memorial of the Sr. Hiriart, ship captain, touching certain claims. Folio 2½, ¼ page.

February 28. The same to MM. de la Galissonnière and Bigot. The arrangements for taking over Ile Royale are decreed, and in the course of March, MM. Desherbiers and Prévost, appointed Commandant and Intendant Commissary, will leave for Louisbourg with a party of the inhabitants who came to France. Is having fitted out for this expedition *Le Tigre*, commanded by the Chev. d'Urtabie, *Le St. Esprit*, commanded by the Sr. Dolabarats, and four other vessels chartered for the transportation of a number of recruits complementing the increase the King intends making in the garrison of Ile Royale. All the officers and soldiers of the old garrison, who are in Canada, are to return to Louisbourg in the month of June, and the former inhabitants of the island who retired to Canada can do the same if they desire. M. Bigot will go on board *La Diana* which is now fitting out at Rochefort for Quebec. The expedition now preparing to sail for Louisbourg will be followed at once by two others. Folio 3, 2 pages.

February 28. The same to M. la Galissonnière. Will be replaced by M. le Marquis de la Jonquière, who is to leave on *Le Léopard* at the commencement of May. The King desires him to proceed to Louisbourg to visit that place and take account of what is best to be done. Will only have to stop there

1749. a short time. The troops in Canada will be considerably increased. Will inform the Sr. D'Aillebout that he has been chosen Lieutenant of the King at Louisbourg. Folio 4, 2 pages.

February 28. The same to M. Bigot. On his recommendation, M. Provost has been appointed Intendant Commissary for Ile Royale. The King has agreed that he himself should go to Louisbourg to establish order and regulations in the various branches of the service. Will make his arrangements to sail on *La Diana* so as to not to leave the service in Canada, to suffer too long by his absence. Folio 5, 2 pages.

April 7. The same to the same. Sends him the memorial of the Sr. Meyrack, formerly Registrar of the Admiralty at Louisbourg, in which he asks the re-imbursement of several sums that he advanced during the siege of that place. Folio 6, 1½ pages.

April 11. The same to the same. Detailed instructions on the same subject. Folio 4, 4 pages.

April 11. The same to M. de la Jonquière and Bigot. *Le St. Laurent* has reached Brest without accident. M. de Tilly, who commanded her, found she had all the good qualities that could be desired. The fitting out of *L'Orignal* can be deferred until next year. Folio 9, 1½ pages.

April 11. Order from the King, granting a full discharge to the soldier Nicolas Aubriet, *dit* Bellerose, of the Company de Beaujeu. Folio 9½, ¼ page.

April 11. The President of the Navy Board to M. Bigot. On the administration of the finances and of the storehouses in Canada. The necessary provisions for Ile Royale are arranged for, counting those promised from Canada. The return of the Micmacs who were at Quebec will have reduced the consumption of food. Can, if he sees fit, replace the barque of Niagara that was wrecked. Will send workmen for the St. Maurice forges next year. Wool of the Illinois oxen. Has done well to write to the Chev. de Bertet to persuade the inhabitants to raise this description of live stock. Folio 10, 2 pages.

April 11. The same to M. le Marquis de la Jonquière. On the necessity of reducing the expences of the trading posts. Abuses to be remedied. Folio 11, 2 pages.

April 11. The same to M. Bigot. Mathemetical instruments for the school of Father Bonnecan will be sent. Bills of exchange in favour of the Srs. Pascaud. Slates and nails for the roof of the Palace will be forwarded from Nantes. Folio 12, 2 pages.

April 11. The same to the same. Will pay the widow of the Sr. D'Amours, who was drowned, what was due to her husband on his emoluments. Will send the series of Edicts, Declarations, &c., &c., this year. Various instructions. Folio 13, 2 pages.

April 11. The same to the same. Instructions respecting the abuses in the expenses of the posts. Folio 14, 2 pages.

April 11. The same to the same. Other positions will be provided for the Srs. Landriéve and Martel, King's Scriveners, if they apply themselves to merit them. Will do well to pass some time at Montreal each winter. Divers instructions. Folio 15, 2 pages.

April 11. The same to the same. Thanks him for having pointed out the abuses that have occurred in the expenditures on the fortification works. Folio 16, 1½ pages.

April 11. The same to M. de la Jonquière and Bigot. The high prices of live stock should not continue long now that the war is ended. Must work vigorously to increase the supply ; abundance will lower the price, and it will become

1749. possible to attain the object sought for a long time of producing salted meats in the colony. The manufacture of salt will facilitate that of salted meats. It is without having asked the King's orders that MM. de la Galissonnière and Bigot abandoned the fort at the St. Thérèse rapids to construct another one at the St. Jean rapids. M. Bigot will take just means to verify the accusations brought against the Srs. de Léry, father and son, in connection with the fortification works at Quebec. Folio 17, 4 pages.

April 18. The same to M. Bigot. Relating to the expenses and receipts for the years 1746, 1747 and 1748. Folio 18, 2 pages.

April 18. The same to the same. Will be careful to communicate to the Sr. Levasseur the observations he sends with respect to the maintenance of the vessel *Le St. Laurent*. Various instructions with regard to the new constructions. Folio 20, 4 pages.

April 18. The same to MM. de la Galissonnière and Bigot. On the destination of the frigate *La Diane*, M. de la Jonquière, who commands her, should on his arrival in the colony, follow the orders that M. de la Galissonnière may give him, but it is not probable that there will be any occasion to employ this vessel in the colony, and, besides, it is important she should at the earliest possible moment convey M. Bigot to Ile Royale. Folio 22, 1 page.

April 18. The same to M. de la Galissonnière. Should make arrangements to embark on *Le Léopard*, which is to take M. de la Jonquière to Quebec. Folio 22½, ½ page.

April 18. The same to M. Bigot. It is to be presumed that the Sr. Taschereau, clerk to the Treasurers General, will make no further advances to the officers and employes, since he will be held responsible for losses. On his representations, the King has issued regulations increasing the emoluments of the officers attached to the administration of justice of the colony. Folio 23, 2 pages.

April 18. The same to the same. On his representations, the King has granted an extraordinary gratuity of 300 livres to the Sr. Douville, commandant with the Miamis, to indemnity him for the losses he experienced by the pillage of his post. The midwife Berry being no longer able to work, by reason of her age, will be replaced by another. Is glad to find a considerable number of Canadian vessels were employed in the trade of the islands last year. Folio 24, 1½ pages.

April 18. The same to the same. Has done well to send the different seeds that the Sr. Gauthier, doctor, has collected for the garden of the King. Has taken measures to procure the Six Savoyards, chimney-sweepers, for whom he asks. Relating to the abuses in the posts of the upper country. Folio 25, 1½ pages.

April 18. The same to the same. The profit of 72,286 livres on the receipts from the working of the St. Maurice forges, proves that the establishment is managed sufficiently well, notwithstanding the drawbacks, and that it could but prove advantageous if placed on a proper footing. There can be no question at present of manufacturing heavy artillery there, but for the purpose of instructing himself in this matter, M. Lemercier will stop in France this year and place himself in a position to conduct operations himself with a master-founder. Folio 26, 1½ pages.

April 18. The same to the same. On his representations, has granted to the Sr. Gauthier, formerly an inhabitant of Acadia, a new gratuity of 500 livres to place him in a condition to go to Ile Royale to form his settlement. It is to be desired that he use his influence with the Acadians to attract them to Ile Royale and Ile St. Jean. Folio 27, 1 page.

April 18. The same to MM. de la Galissonnière and Bigot. The King has considered it to be for the good of the service to raise to one million the card-money established in the colony. Will find herewith the Ordinance on the subject. Folio 27, ¼ page.

1749.
April 18. Ordinance of the King relating to the increase of the card-money. Folio 28, 2 pages.

April 18. The President of the Navy Board to M. Bigot. Bills of exchange. Folio 29, 2 pages.

April 18. The same to the same. Concerning the Domain. Folio 30, 1½ pages.

April 18. The same to the same. The Sr. Boucault. Gratuity to the Sr. Verrier. Will take the orders of the King on his proposition to pronounce the sentence of death on those who counterfeit the acquits signed by the Intendant. It would be desirable if he could lease the trading post of Frontenac ; experience demonstrates that abuses absorb the profits as long as it is worked for the account of the King. Folio 31, 2 pages.

April 21. The same to MM. de la Jonquière and Bigot. In favour of the Dame La Borde for the recovery of the estate of the widow Lambert, her mother. Folio 31½, ¼ page.

Has secured the consent of the King to the 1,800 livres received by M. de Beaucours in excess of his emoluments being granted to him as a gratuity. Will let him receive even his retiring pension in the colony. Folio 40, 2 pages.

The same to the same. As the Sr. Basile seems to have abandoned the working of his fishery in the Baie des Chateaux, they have done right to give the concession to the Sr. Gauthier, doctor. If the concession of the Baie des Esquimaux (discovered by the Sr. Fornel) does not injure the rental of the Tadousac farm, they can grant it for twelve years to the widow of the Sr. Fornel, who has asked for it. The King has ratified the fishery grant they have made to the Srs. Bréard and Estèbe, as well as that to the Srs. Decheneaux and Desmarets. Should make no other grants in the

1749. Lower St. Lawrence for fear of reducing the number of porpoises that frequent these coasts. Has also ratified the grant made to the Sr. de Rigaud the length of the river Maska, as well as that to the Sr. Levasseur on the river Missiskoui. Folio 41, 3½ pages.

April 30. Id. in favour of the Srs. Bréard and Estèbe. Folio 44½, ½ page.

April 30. The President of the Navy Board to M. Bigot. Concerning the Cugnet affair. It was to allow him to recover from the losses he made in working the St. Maurice forges that the King gave him the working of the posts of Temiscamingue, Michipicoton and Camanistigoya for the sum of 7,000 livres a year. The war having injured the trade of these posts, he can continue the lease to him for two or three years longer. He might also lease him the Tadousac post at the price of 6,000 livres and other conditions in the old lease, provided he accepts his proposition to pay 10,000 livres a year to the Treasurers-General towards the extinction of what he owes to the office of the Domain. Folio 45, 2 pages.

April 30. The same to MM. de la Jonquière and Bigot. Has received the observations of the merchants on the edict fixing the duties on the goods previously exempted. There is no ground for modifying what has been done. Folio 46, 2 pages.

April 30. The same to the same. The King has strongly approved the precaution taken by M. de la Galissonnière of sending a detachment to the Petit Brador and another to Ile St. Jean, after the signature of the peace preliminaries to prepare the way for the inhabitants of Ile Royale who had gone to Canada and to prevent the havoc that the English would have been tempted to commit. It is to be desired that the attempt to attract the Acadians to Ile Royale will succeed. It cannot fail to do so, when they learn that the English government is determined to settle Acadia with its own people. The King has decided nothing yet on the subject of the mission that Abbé Piquet desires to establish near Fort Frontenac with the object of attracting the Iroquois of the Five Nations. Approves his having given him 300 livres to go to the Iroquois to negotiate on this basis. Relating to the amalgamation of the two hospitals of Quebec. The Sr. Roebert de la Morandière. Folio 47, 2 pages.

April 30. The same to the same. Concerning the distribution of the gratuities that have been vacant. Those to the widows La Noue, D'Argenteuil, de la Pérade, de Sr. Vincent and de Léno, deceased, are given to the widows de la Ronde, de Tonty, de St. Michel, Du Sablé, de Lino. Nothing further to be done for the widow de la Graix. Work is being done on the levy of recruits. Replacement of used card-money. Folio 48, 1½ pages.

April 30. Memorandum from the King to serve as instructions to the Sr. Marquis de la Jonquière, Rear Admiral of the naval forces, Governor Lieutenant-General of New France. The King intends employing all practicable means to aid the developement of the colony. Appointments to cures. Tithes. Religious communities. Forts and fortifications. Iroquois. General instructions on the situation of the colony. Folio 49, 10 pages.

April 30. Memorandum from the King to serve as instructions to MM. de la Jonquière and Bigot. Information on their respective prerogatives. Folio 54, 8 pages.

Marly, May 1. The President of the Navy Board to MM. de la Jonquière and Bigot. Nothing can be added to the pension of 150 livres received by the Sr. de Lusignan from the Royal Treasury. He will be procured his retirement as ensign if he is disabled. The Sr. de la Corne is made clerical member of the Supreme Council, and the Sr. Bréard titulary councillor in the place of

1749. the Sr. Varin, called to another position. On the choice for the deanery in the place of the Sr. de Lotbinière, who is deceased. The Sr. Levrard, Jur., is appointed master-gunner in the place of his father. Will let the Sr. Hertel know that, not having performed any duty for three years as captain of the gates of Louisbourg, no emoluments are due to him. It is the Sr. Du Plessis who replaces the Sr. de St.Simon, deceased, as Grand Prevost of the Marshalsea. New gratuity granted to the Sr. Chéron, ship-captain, for his services during the war. Folio 58, 2 pages.

May 1. The same to the same. If the Sr. de la Fontaine persists in undertaking a whale fishery establishment with nets, they may give him the encouragement they consider fitting. Has procured a new extraordinary gratuity of 500 livres for the Sr. Gauthier, formerly of Acadia. Approves an Abenaquis interpreter being maintained at Quebec. Folio 59, 1½ pages.

May 1. Warrant of chief constructor in Canada for the Sr. Levasseur, ship-builder. Folio 60, ½ page.

May 4. The President of the Navy Board to M. Bigot. Concerning the warrant given to the Sr. Levasseur. Folio 60, ½ page.

May 4. The same to M. Levasseur. In conformity with the above letter. Passage granted to his son. Folio 60½, ½ page.

May 4. The same to M. de la Jonquière. Recommends harmony with M. Bigot and M. the Bishop. Folio 61, ½ page.

May 4. The same to MM. de la Jonquière and Bigot. Letter accompanying their joint instructions. Folio 61, ½ page.

May 4. The same to M. de la Jonquière. A large number of Iroquois who came down to Quebec last year, having declared that they desired to embrace Christianity, Abbé Piquet, who enjoys their confidence, has gone to confer with them on the establishment of a Mission in the direction of Fort Frontenac. It is of great importance that this negotiation should succeed, for, without placing entire confidence in the declarations of these Indians, it may nevertheless be hoped in this way to divide their councils. It would then become easy to convince them the best means to free themselves from the claims of the English to their lands would be to destroy Chouégouen, which has been established only to restrain them. Coureurs de bois. Folio 62, 1½ pages.

May 4. The same to the same. The King has been satisfied with the successes obtained at Ile Royale by the detachment from Canada, but it is regrettable that on the conclusion of peace they did not receive the orders of M. de la Galissonnière in time to prevent the loss of the establishments of M. de la Boularderie or to save the firewood the English had cut. Nothing has been received by him on the part of the English respecting what passed between the Sr. Marin, jr., and the commandant at Louisbourg with regard to the coup effected by that officer against the garrison of that place. In any case, it will not be difficult to justify his conduct. Cannot take into consideration the representations of M. de la Galissonnière in favor of the Sr. de Varennes, who has been reduced from the rank of captain. Folio 63, 2 pages.

May 4. The same to the same. It is to the Sr. de la Verandyrie and his sons that the enterprise of discovering the Western Sea by land was confided since it has been in question. As they occupied themselves more in the collection of furs than in the object of their mission, the task was transferred three years ago to M. de Noyelles. As the latter asked to return, permission was given all the more willingly that he appeared to have devoted himself even less efficiently than his predecessors to the work of discovery. M. de la Galissonnière has entered in great detail into what has taken place relative to the Srs. de la Vérandyrie, and although what he has written does not altogether justify their conduct, the King has nevertheless approved this enterprise being confided to some one among them.

1749. Can allow the father, if he has not already done so, to return, but will look after them. Should send him, yearly, a journal of their operations. Gratuities to officers. Folio 64, 2 pages.

May 4. The same to the same. To place M. Le Mercier, officer in the artillery in a position to acquire the necessary knowledge of the details of artillery, as well as the operation of casting guns, he has been sent to Metz. Thence he will proceed to Douay, then to the forges of Parcheminier, after which he will go to Canada next year. M. de la Galissonnière sent the Sr. de Gaspé, ensign, to France to be instructed in engineering. Although he is well disposed to the work he is too old to acquire the knowledge he needs. As he is a good subject, employment will be found for him when the opportunity offers. Has procured for the Srs. Marin, jr., and de Beaubassin, ensigns, a new gratuity of 400 livres each, as a reward for their zeal and industry. Will enquire if the Sr. de Lotbinière, whom M. de la Galissonnière has recommended for the position of assistant-engineer, merits this appointment, and whether he did not participate in the abuses. If the Sr. Volant has acquitted himself well in the command of the post he has exercised for several years, he can be given a commission as captain in the militia. Folio 65, 2 pages.

May 4. The same to the same. The Chouanons, in consequence of the antipathy most of the other nations show for them, are divided into two bands, of which one is established at Sonontio, where it forms a sort of republic, with a sufficiently large number of bad characters; the other went to the Chérakis river, which they ascended, and they have joined the Alibamons. M. de Vaudreuil says they behave well. It is not the same with the first-named band. It is much to be feared whether some who have joined them may not draw them into bad ways. It would be well if they could be brought to establish themselves with their brothers among the Alibamons or in some part of Canada. M. de la Galissonnière has done well to write to the Governor of New England that if he continues to make use of the Indians who have joined the Chouanons to make incursions against the French, he will retaliate on his colony. Is glad to see that the Indians of the upper country, who, at the instigation of the English, assassinated several French, have determined to give up the murderers and ask for mercy. The detachments that were sent and the firm conduct of MM. de St. Pierre and de Longueuil at Michilimakinak and at Detroit, greatly contributed to this result. It is nevertheless vexatious that the prisoners whom M. de Longueuil detained, were able to escape. Officers habitually meet the difficulties that present themselves with conciliation, but it is certain that experience has always shown well-placed severity to be more effective. The Iroquois are continual exasperated at the claims of the English that their country forms part of the English possessions and that they themselves are subjects of Great Britian. In a conference they have held they decided to hold to their rights and maintain neutrality. Since the blow that the Sr. de la Corne struck the Mohawks in 1747, these Indians have attempted nothing new against the French. Their brothers having sued for pardon have been granted it. The King relies on your wisdom in all concerning these Indians.. Folio 66, 4 pages.

May 4. The same to the same. Some officers from Canada will be given appointments in San Domingo. Passage is promised to the families of two soldiers if they ask for it. Respecting one Gaspard Augé said to be married in Canada and in France. M. de la Galissonnière's plan to establish a printing office will only be considered if a printer presents himself for the privilege, when the conditions on which it can be granted will be examined. Folio 68, 2 pages.

1749. May 4. The same to MM. de la Jonquière et Bigot. The king wishing to increase the number of the troops in Canada and desiring that the recruits be carefully chosen, four to six Canadian officers shall be sent to France to superintend recruiting. M. de la Galissonnière having proposed to fix the number of the troops in Canada at 1,200 Frenchmen and 200 Swiss, this number will be completed next year without the aid of any foreigners. Recourse may be had to foreigners if it is increased later on. M. de la Galissonnière's proposals on the subject of a reduction of duties on the wines and liquors for the officers' use. Folio 69, 2 pages.

May 4. The same to the same. Desires them to examine M. de la Galissonnière's plan respecting the Indian slaves. He represents that the Indian slaves brought up in the colony by officers or by inhabitants, generally leave them when they reach a certain age, and again become uncivilized ; that they are the more dangerous on account of the knowledge which they have acquired of the country, being better able than others to make incursions therein ; that through this habit of keeping these slaves, the whites are dissuaded from becoming domestics ; that it would be expedient to make regulations forbidding keeping such slaves of more than 16 or 17 years of age, and the freeing any such slaves ; that in this way, Indian children could be bought cheaply, and after being instructed in their religion, and taught to serve or learned some trade, they could be sold in the West Indies. M. de la Galissonnière had already written on the subject in 1747. He was told that there were many objections to his plan. What must be specially considered, is the effect which the change of climate would produce on the Indians of the colony. Folio 70, 1½ pages.

May 4. The same to the same. Respecting one Pierre Révol, contraband salter, detained in Canada. If Révol, the officers, and the crew, can be arrested anywhere, they will be sent back to Canada for trial. Folio 71, 2 pages.

May 4. The same to the same. M. de la Galissonnière has reported of the upper country, that it would be more advantageous to lease only the posts of Thémiskamingue, Népigon, Caministigoya, Michipicoton, and that of Pointe de Chagouamigon ; all the other posts should be managed by officers on leave. As regards the latter posts, he claims that the exhorbitant figures at which they are leased, obliges the lessees to sell their goods at such high prices, that the Indians are not attracted there ; that they are disgusted with this situation, and it is feared the solution of the difficulty is, that the Indians will go and trade with the English. The only way to settle this question is to place officers on leave in all the nearer posts. These suggestions have been found good and have been adopted. The remote posts shall not be given to officers. They shall have gratuities proportionate to their ranks as commanders of these posts. Folio 72, 2 pages.

May 4. The same to the Bishop. Hopes he will come to an understanding with MM. de la Jonquière and Bigot as to the fusion of the General Hospital and the Hôtel-Dieu. The same as to Montreal. The Recollets of Brittany and the Brothers of Charity have been sent back to Ile Royale. The position of clerical councillor which was vacant by the death of Sr. Vallier, was given to Abbé La Corne. Will do his best to give Abbé Piquet a pension or a benefice. The measures taken by the English government concerning Acadia, make him fear that the missionaries will be molested. Cannot recommend them too strongly to observe discretion in the exercise of their ministry. Folio 73, 2 pages.

May 4. The same to M. Bigot. Respecting the estate of a priest of St. Sulpice, who died in Canada. Folio 74, ½ page.

May 4. The same to M. de la Galissonnière. M. Daubigny, commanding *Le Léopard*, has received the King's instructions to convey him to Ile Royale.

Shall make arrangements with MM. Desherbiers and Prevost concerning this. May take with him to Ile Royale 12 or 15 ensigns or cadets from the troops of Canada. Folio 74, 1½ pages.

May 4. The same to M. Varin. Will be intendant commissary in Canada during the absence of M. Bigot to Ile Royale. Folio 75, ½ page.

May 4. The same to M. de Beaucours. Has arranged that the 1800 livres which he had overdrawn on his salary be given him as a gratuity. Folio 75, ½ page.

May 4. The same to MM. de la Jonquière and Bigot. Respecting M. de la Galissonnière's mission to Ile Royale. Sends a statement of the expenditure ordered for the year. Folio 75½, 1 page.

May 13. The same to the same. Numerous advantages offered by the post of Detroit. The commandants of this post have never interested themselves in the settlement of that district by farmers. They had no other object in view than trade. MM. de Beauharnois and Hocquart had proposed to appoint permanent commandants, who would have no interest in commerce. M. de la Galissonnière has expressed the same view. Now that the war is over, this plan must be carried out. The King has chosen the Sr. Céloron for this position. He will have the rank of major, a pay of 1200 livres, and a gratuity of 3000. Shall concern himself with the settlement of the land. They shall make him sensible of this great mark of confidence. It is not yet decided as to what shall be done in the case of Michilimakinak. Folio 75, 2 pages.

Bégon, deceased, as governor of Trois-Rivières, as king's lieutenants. Has created a new majority at Detroit. The promotion of the two last has rendered the majorities of Quebec and Montreal vacant. That of Quebec was given to M. de Ramezay, that of Montreal, to M. de Noyan, and that of Detroit, to M. de Céloron. The 4 companies vacated by these promotions and by the death of M. de Linctot, have been given to MM. de Boucherville, de Lorimier, de St. Vincent and de la Pérade. The 5 vacancies in lieutenancies created by the promotions and by the death of Sr. du Sablé, have been given to the Srs. de Blainville, D'Aillebout, Chev. de Gannes, de Gaspé, and the Chev. Benoist. Folio 79½, ½ page.

May 23. The same to M. de Céloron. Has been appointed permanent commandant of Detroit with the rank of major and a salary of 1,200 livres. A yearly gratuity of 3,000 livres, to be taken from the leave of absence fund, is also granted him. Instructions as to his duties. Folio 80, 1½ pages.

Respecting a memorial from Sr. Haymard, complaining, in his name, as well as in the capacity of tutor to his minor brothers and sisters, of obstacles raised to prevent his auditing the accounts of the estates of the Srs. de la Chesnaye and Gobin. Folio 5, ½ page.

April 10. The same to M. de la Jonquière. Respecting the Sr. Kalm. Folio 5½, ¼ page.

April 10. The same to MM. de la Jonquière and Bigot. It would be regrettable if the 3 barrack buildings at Quebec were not sufficient to quarter the troops. Respecting the canteens. Folio 6, 2 pages.

April 10. The same to the same. Awaits with impatience news of what passed concerning the projected post on the river de la Présentation. Hopes that the good dispositions of the other Iroquois nations will have the effect of preventing the Mohawks from destroying that post. Must make efforts to fortify that settlement. The post of Toronto must be maintained, as it will probably have the effect of destroying the usefulness of that at Chouëguen by diminishing the trade which the English do at this post. Folio 7, 2 pages.

April 10. The same to the same. The recruits for Canada are assembled and will embark some time this month. Observations on the King's order concerning the increase of the troops in Canada. Folio 8, 3 pages.

April 10. The President of the Navy Board to MM. de la Jonquière and Bigot. The King has not only increased the number of troops in the colony to 1500, but he has also added a company of 50 bombardiers. M. de la Jonquière's proposal to employ a company of soldiers at the works at St. Maurice Forges has not been approved. What might be done, would be to place at Trois-Rivières a somewhat larger body of troops than is required for garrisoning that town, and to allow to a certain number of soldiers to go and work there under the supervision of a corporal, and be paid for it. Folio 10, 2 pages.

April 10. The same to the same. Respecting the company of bombadiers. It will be commanded by a captain, a lieutenant, and an ensign. For the present M. LeMercier will command in his capacity of lieutenant, and the Sr. Jacan, who acts as ensign in the Ile Royale Company, will go to Canada to act in the same capacity. Folio 11, 2 pages.

Will prepare and send, in duplicate, collated copies of all maps, memorandums, and other papers concerning the boundaries of Acadia, Hudson Bay, the Iroquois, and the Abenakis, that can be found in the offices of the Secretary of the Governor, the Intendant, and the Superior Council. Folio 12, 1 page.

April 10. Order concerning the establishment of a company of bombardiers in Canada. Folio 12½, 3 pages.

April 11. The President of the Navy Board to M. de la Jonquière. Concerning the troops. Folio 14, 1½ pages.

April 15. The King to the same. In future, the companies will change garrison every year, and the officers attached to each company will follow this instruction, without allowing any deviation. Folio 15, 1 page.

The President of the Navy Board to MM. de la Jonquière and Bigot. Their observations on the beaver trade have been communicated to the Compagnie des Indes. The establishment of a trading post at Toronto is important, for, if it be well conducted, it will materially diminish the trade of the English at Chouëguen. One must not think, however, that this motive alone

1750. would decide them to abandon this post. The only way to accomplish that would be to persuade the Iroquois that the English pretend that they own their lands and their country. Respecting the farming of the post of La Baie to an on leave officer. Will report on the attitude of the Sr. Marin on that occasion. One does not wish to press him to establish a post in the Sioux country. Folio 16, 2 pages.

April 15. The same to M. Bigot. Has decided to obtain in the colony, a large part of the flour and vegetables necessary for the victualing of Ile Royale. Will do the same for the West Indies, if the flour of Canada can be preserved long enough to insure the subsistence of the garrisons of these islands. Will protect the Sr. Roger in his trade undertakings at forts Frontenac and Niagara. The Toronto post may be established without, however, encroaching on the concession of the Sr. Roger. They will prevail on the inhabitants of Lake Champlain to establish villages. Folio 17, 2 pages.

April 15. The same to M. de la Jonquière. The King has granted him the red ribbon of Honorary Commander of the Order of St. Louis. Folio 18, ½ page.

April 15. The same to M. Bigot. It is regrettable that the inhabitants have ceased to cultivate hemp. Will send to the colony a few families who thoroughly understand the preparation of hemp. Will at the same time raise its price from 25 livres to 30 livres per quintal. Advantages offered by the post of La Présentation. Has reported to the King what the bishop of Quebec has done with regard to the merchants who are suspected of being protestants. Does not think it necessary to give orders to send them back to France, but they must not be allowed to become too numerous in the colony. Folio 19, 2 pages.

April 15. The same to M. de la Jonquière. Will report on the progress made by the Sr. de la Véranderye in his discoveries. It is probable that he will try to counteract the impression which his past conduct has caused. Must establish no new post on Lakes Erie and Ontario, with the exception of that of Toronto. One might be established on the Belle Rivière; it is necessary in order to ensure communication with Louisiana, and it is not improbable that the English will get ahead of us, besides, it should prove an excellent trading post. Folio 20, 1½ pages.

April 15. The same to MM. de la Jonquière and Bigot. The canoes which carry the officers should be worked by soldiers, and the new men should be taught the management of the canoes by taking their turn with old hands at the paddles. Folio 21, 1 page.

April 15. The same to M. Bigot. Concerning shipbuilding. Folio 22, 2½ pages.

April 15. The same to the same. Upon his arrival at Brest, M. Hocquart has had a new inspection made of *Le Caribou*. Remarks on the lumber employed. When *L'Orignal* is fitted up, the construction of *L'Algonkin* will be begun. This will be followed by two other frigates of 24 and 30 guns respectively. About 60 carpenters will be sent to the colony to be employed in the shipbuilding trade. Folio 25, 3 pages.

April 20. The same to M. de la Jonquière. The King has appointed the Srs. Dumas and D'Eyma to be captains of the two new companies. The vacant lieuten

1750. ancies were given to the Chev. de la Roche Vernay and the Sr. de St. Martin. Folio 27, 1 page.

April 30. The same to M. Bigot. Will send the regimental rolls conformably to the enclosed models. Folio 27½, ½ page.

April 30. The same to MM. de la Jonquière and Bigot. The King was pleased to approve of their having promised flour rations for two years, and the necessary utensils to clear the lands given them, to the families who have gone to Detroit last year. Will approve their doing the same for the families who will go there this year. This is the best and quickest way to increase this settlement. The inhabitants must be obliged to settle in villages to be better able to defend themselves. Last year M. de la Galissonnière had sent some regulations concerning this kind of settlement, and they were found quite satisfactory. Folio 28, 2 pages.

May 19. The same to the same. Respecting the fortifications of Quebec. Have no doubt selected a site for the barracks at Montreal. The King has granted the deanery of Quebec to Abbé de Cabanac de Taffanel. The Srs. Pascaud are to enjoy the privilege of killing sea-cows at the Magdalen Islands, so that the grant of these islands made to the Sr. Taché, merchant of Quebec, cannot be ratified. Folio 29, 1½ page.

May 19. The same to the same. The grants of land made to Dlle de Ramezay Lagesse and to the Sr. Daine, on Lake Champlain, have been ratified. The concession of the seal-fisheries made to the Srs. de St. Vincent and de Beaune, on the north shore of the St. Lawrence, has also been ratified, but the duration has been reduced to 6 years. The Sr. de la Fontaine's project of fishing whales by the means of nets. Before registering the titles of nobility of the Sr. de St. Vincent at the Superior Council of Quebec, it is advisable to have them examined in France. Approves of the choice of the Srs. Nouchet and St. Sauveur to succeed the Srs. de Lotbinière and Taschereau, deceased, as councillors.

May 19. The same to M. de la Jonquière. Has not judged it expedient to employ a company of soldiers at the St. Maurice forges. Seems to think that it would be advisable to abandon the fort Frontenac and to keep the buildings only for trade. Will examine the question with M. Bigot, and if both are of the opinion that the security of the colony is not thereby endangered, they are authorized to act in this wise. Importance of Detroit. Folio 31, 2 pages.

May 19. The same to M. Bigot. The wages of the mid-wife will be increased from 400 to 600 livres. The Sr. Landriève has been allowed to prolong his stay in France by one year. Did well to have another store built at Montreal to lodge the King's effects. Was surprised at the Sr. de la Colombière's delay in paying part of the Sr. Rocbert's debts, whose widow he has married. Cannot grant a gratuity to the Sr. Varin, nor to the Sr. de Monrepos. Folio 32, 2 page.

May 19. The same to MM. de la Jonquière and Bigot. Has granted a gratuity of 300 livres to the Ursulines at Trois-Rivières. Did not think it advisable to grant one to the canons of the chapter of Quebec. Folio 32, 2 pages.

May 19. The same to the same. Is surprised that they ask for an increase of the rations for the soldiers. The quartering of the soldiers in barracks is less costly to them than was their being billetted. Respecting pensions to officers' widows. The cost of the construction of Fort St. Jean is considerable and abuses must have existed. Did well in accepting the resignation of the Sr. de Léry, junior, who was in charge of the works. M. de la Jonquière will take care that he conducts himself better in the infantry. As to the Sr. de Léry, senior, he cannot be replaced this year, for want of a fitting successor. But the King having decided to send the Sr.

1750. Franquet to Ile Royale, to decide what works are to be constructed, he hopes that he will be able to do the same in Canada. While waiting, the Sr. de Canague, who acted as assistant engineer at Ile Royale, has been ordered to go and act in the same capacity in Canada. Folio 34, 2 pages.

May 19. The same to M. de la Jonquière. The King has not judged fit to increase the salaries of the governors of Montreal and Trois-Rivières. Could not agree to his demand for a gratuity of 2,000 livres for the Sr. de La Naudière, captain, for his having gone to the posts of the Miamis. May send the Sr. de Lusignan, captain, to Fort St. Frédéric, to see whether he is fitted as the commandant of a post. Will grant leave to the Sr. de Lotbinière to come to France, to take a course in engineering. The Sr. Aubert will be given the post of warden of the gates at Quebec. Folio 36, 1½ pages.

Folio 36½, ½ page.

May 23. The same to the same. Respecting the man named Révol and his accomplices. The measures they have taken in concert with M. Desherbiers have had the effect of attracting a good number of Acadians to Ile St. Jean. This island becomes of capital importance for the preservation of Ile Royale. The Sr. Du Vivier, who has the confidence of the Acadians, has been appointed King's lieutenant and commandant at Ile St. Jean. Has obtained a gratuity of 400 livres for the Sr. Gauthier, who has distinguished himself by his zeal. Folio 38, 1½ pages.

May 23. The same to the same. Respecting the abuses which are committed in connection with the loading of the effects of the garrisons on the canoes fitted out on the King's account. Folio 38, 1 page.

May 23. The same to M. de la Jonquière. Cannot increase his salary by 3,000 livres. Nor can the proceeds of a post be given him, as the high position which he occupies forbid this. The widow Taschereau cannot receive a pension from the King. Folio 38½, 2 pages.

May 23. The same to M. Bigot. The Sr. Bréard will be granted the promotion he asks. The Srs. Estèbe and Martel's services are not yet of sufficient length to warrant their promotion to the grade they ask. Respecting the Sr. Boucault's brother. The Sr. Verrier will be detained in France a year by business. M. de Rigaud must see the Dlles de Longueuil about the lot of ground, in the garden adjoining the house of the governor general, at Montreal, which he claims. As the house which M. Hocquart occupied at Montreal, did not suit him, he approves of his renting that of Mde Bégon. Folio 39, 2 pages.

The same to the same. Approves of his having used a schooner and a brigantine to transport troops and the inhabitants who were in Canada to Louisbourg. The collection of Edicts and Ordinances which he sent will be examined. A gratuity of 1500 livres to M. de La Jonquière. The Sr. Benoist cannot be appointed King's physician. Is satisfied with the Sr. Gauthier's report, on the mines discovered at Baie St. Paul, and of their working. Folio 40, 1½ page.

May 31. The same to M. de la Jonquière. Respecting what has happened at the posts in the Upper country. Should have prosecuted Duplessis Fabert. Folio 41, 2 pages.

May 31. The same to the same. Has reported to the King on all that he has written about the pretentions of the English. Approves of the conduct of the Sr. de Boishébert at River St. Jean. Is satisfied with the precautions taken for the support of our rights in Canada, but he must undertake

MM. de la Jonquière and Bigot are of opinion that it would be preferable to unite the Montreal General Hospital to that of Quebec. They will act in concert with him. The King did not judge it advisable to accept the proposal of Dlle Youville in this respect. He must see the advantage of diminishing the number of religious communities. According to the latest news from Ile Royale, the governor of Acadia no longer prevents missionaries from exercising their functions in that colony. Could not exhort them too strongly to demean themselves in such a way as not to give any offence. Is not less favourably disposed to grant favours to Abbé Piquet than was M. le Comte de Maurepas. Has been unable to find a master founder or the other workmen for whom he had asked. Folio 65, 1½ pages.

June 14. The same to the same. Explanations respecting the affairs of the Sr. Cugnet. Folio 66, 3 pages.

September 11. The same to the same. Recommends him to avoid everything that could tend to acrimony. Observations respecting the exchange of prisoners. Folio 68 bis, 2 pages.

September 11. The same to the same. Has reasons to believe that the English government has recommended the governors of the colonies to do nothing contrary to our rights, as we have done towards them, but the restless and enterprising character of M. Cornwallis which has manifested itself on every occasion, especially in the events of the beginning of May, leads us to fear that he will make new efforts, to force the post on the River St. Jean and that of Pécaudy. Desires him to aid these posts as much as he can. Will make representations to Governor Cornwallis to the effect that things should remain in the present state while the Commission on the Boundaries sits. He will will not attack any posts in the peninsula, but will defend obstinately everything which France claims and occupies outside. If on the receipt of this despatch, the English have captured one of these posts, he may drive them out, or retaliate by capturing some of their posts, even that of Chouëgen. Hopes he will not be obliged to do this and that M. Cornwallis will have reflected on the consequences of his obstinacy. Folio 69, 2 pages.

September 11. The same to the same. The first observation which he has to make with respect to M. Cornwallis's actions is to keep the Indians as well affected as they now are, the second is that, if the English summoned the French detachments to retire from Rivière St. Jean and Pécaudy, under the pretext that their presence violates that clause of the treaty of peace which says that all things should be put in the state they were, or in which they ought have been, before the war, they will answer that it is

1750. precisely because M. Cornwallis has himself contravened this very clause, by trying to force the French at these posts to swear alligance to England, that M. de la Galissonnière and himself have been obliged to send these detachments to these Frenchmen who had appealed to him for aid to shield them from the English general's threats. Will add that another motive for sending these detachments that M. Cornwallis had formed the project of forming the settlements in these townships and that his action is so much the more regular as he only prevents their forming settlements, without forming any himself. Folio 70, 1 page.

April —. The same to M. Prévost. Will send rolls of the troops as per the models sent to him. Folio 13½, ½ page.

May 8. The same to MM. Desherbiers and Prévost. Among the 200 recruits, going to Ile Royale, there are 33 who are married and who bring their families with them. Will induce them to settle at Ile St. Jean by granting them some slight advantages. Folio 14, ½ page.

The same to the same. Concerning the operations of the vessels, *Le Prothée* and *L'Amphion*, sent to protect the cod fisheries on the Grand Bank. Folio 14, 1 page.

May 19. The same to the same. The King was well satisfied with what they did on the occasion of the evacuation of the colony. The order which M. Desherbiers gave to the proprietors of French vessels then in the port of Louisbourg, to use their ships to transport the effects and munitions of the English from Louisbourg to Chibouctou was approved. Has also approved their demand for the body of the late Duc d'Enville and of the honours which were rendered him on the occasion of his burial in the King's chapel at Louisbourg. Has appointed the Sr. Dolabarats, captain of a fire-ship, as captain of the port of Louisbourg. The contraband salters that they want will be sent next year. Will not allow foreign trade. Folio 15, 2 pages.

May 19. The same to the same. Sends the appointments the Srs. DeLort and Martissans, members of the Superior Council of Louisbourg, to replace the Srs. DeLort, senior, and Cournoyer. The Sr. de Goutins, another councillor, having been appointed to fill the post of sub-delegate and storekeeper at Ile St. Jean, the Sr. Lartigue, senior, will take his place in the Council. Will decide whether it is proper for the officers of the Admiralty to act as bailliwick officers. Approves of the appointment of the Sr. de LaBorde as clerk of the Superior Council. Will give the proprietors of land at Ile Royale a delay of one year to register their titles. Folio 16, 1½ pages.

May 19. The same to M. Prévost. Will examine, with M. Franquet, what is needed for the buildings of the civil government. Did well in returning the negro to the Brothers of Charity. Has approved of the grant of a passage to the Srs. de Renon and Boisneuf de la Vallière, officers of the garrison. Dues for the Lighthouse re-established. Folio 17, 1½ pages.

May 19. The same to the same. Shall not buy any provisions from the English. Approves of the passage on *L'Intrépede* of the Srs. de la Goudalie and Miniac, missionaries, and of three English officers. Salt provisions, vegetables, and flour. Shall strictly prohibit trade with the English, because, if the Canadians have to compete with them, they will not trade with Ile Royale, fearing that the market will be too well supplied. Was pleased to learn of the progress of arrangements for the re-establishment of the fisheries. Desires him to inspect, in company with M. Desherbiers, the sites in Ile Royale and Ile St. Jean, best adapted for settlements, and it would be well that the localities found to be the most appropriate, should be marked out by land surveyors. If none can be procured in Canada, some will be sent from France. Folio 18, 3½ pages.

May 19. The same to MM. Desherbiers and Prévost. The tainted flour may be used for biscuits. A gratuity of 800 livres is granted to M. D'Aillebout in consideration of his services, and losses during the siege. Nothing more can be done for the Sisters of the Congregation, their income being sufficient to allow them to re-establish their convent. While

1750. at Ile Royale, M. Franquet will see to the enlargement of the stores and hospital. Folio 20, 72 pages.

May 19. The same to M. Prévost. M. Hocquart, intendant at Brest, has sent *L'Amphion* and *Le Prothée* to protect the fisheries. Has obtained a commission of scrivener at Ile Royale, for his brother, the Sr. Prévost de la Croix. Folio 21, ½ page.

May 19. The same to MM. Desherbiers and Prévost. Respecting the mission of the Sr. Chabert, who is going to take geometrical and astronomical observations. Folio 21, ½ page.

May 23. The same to the same. Approves of the dispositions of the troops of the garrison in three buildings erected by the English, and to quarter some inhabitants in the old barracks. It may be true as they surmise, that the families who remained at Ile Royale after the capture of Louisbourg, were forced by the English to remain there. Folio 22, 2 pages.

May 23. The same to the same. It is well that the garrison and the inhabitants continued to use coal. Will approve of M. Prévost buying for the consumption of 1751, what M. Thownsend has caused to be mined and could not use last year, but, if it is found that it is not suitable, he will allow the Sr. Thownsend's agent to take it away within a certain time, not to extend beyond September next. Has received the two memorials concerning the working of this coal mine, one of which was sent to him by the Sr. Kingselagh, agent of the Sr. Thownsend, the other by the Srs. Milly brothers, inhabitants of the colony. That of the Sr. Kinselagh cannot be entertained, as he is a foreigner, and his working the mines might lead to abuses, on the other hand the proposals of the Srs. Milly cannot be entertained as they stand. Criticises the proposals of the Srs. de Milly. Will endeavor to have them modified in the way indicated, and, if they cannot do it, will ask for other tenders. Folio 23, 4 pages.

May 31. The same to M. Desherbiers. It is a fact that, if the English succeed in forming a settlement at Chibouctou, as planned, this will force us to take new measures to provide, in case of war, for the protection of Louisbourg and Ile St. Jean. The King is decided not to neglect anything. M. Franquet is going to inspect them. The best protection for the colony would be the increase of its inhabitants. It is thought that, owing to the situation in which they are placed the Acadians might be attracted to Ile St. Jean. The King is satisfied with the measures taken to foil the plans of the English in their new settlement. If the disposition of the Indians remains unchanged, we may expect that they will end by disgusting the new settlers and that many will follow the example of those who have already gone to Ile St. Jean and to Canada. Folio 25, 1½ pages.

May 31. The same to the same. Will help M. de la Jonquière in his endeavors to prevent the English from making encroachments in the neighborhood of Acadia. The King also intends to maintain his just rights on I'Le au Canceaux while the boundary question is pending, without, however, making any settlement thereon. If the English attempt to make any, he will call on their commandant to suspend it until the decision on the boundary is known, and, at the same time, will stir up the Indians to molest them and interrupt works in course of construction. Shall entertain for the English commandant all the consideration and regard compatible with the honour of the nation. M. de la Jonquière seems to be desirous to relieve the detachment which he sent to Rivière St. Jean, by troops from Ile Royale. The King is disposed to grant all possible aid to the French inhabitants of Acadia who will migrate. Folio 26, 2 pages.

1750. May 31. The same to the same. Has obtained half-pay for Pierre Choquet, gunner, and Etienne Berthelin. It is for him to decide whether the Sr. Du Hayet is to remain in command of Port Toulouse. Cannot grant the Cross of St. Louis to the officers for whom he asked it. Folio 27, 1½ pages.

May 31. The same to MM. Desherbiers and Prévost. The lands heretofore granted and not settled may be granted to Acadians, without respect to the claims of the first grantees. Folio 28, 1½ pages.

May 31. The same to M. Desherbiers. Concerning the gratuity which has been granted him. M. de Billy could not obtain the command of the frigate bound to Ile Royale, because, when the letter recommending him was received, the King had already appointed M. de Choiseul Praslain. The orders which he gave for the necessary quarters for the garrison of Ile St. Jean, being suitable, the King has approved of them. Folio 29, ½ page.

May 23. The same to MM. Desherbiers and Prévost. Respecting the yearly income of 1600 livres settled by the clergy of France in 1742, upon the Sisters of the Congregation of Louisbourg, and accruing from the legacy by M. de Forant, ex-governor of Ile Royale. Folio 30, ½ page.

June 7. The same to M. Desherbiers. Respecting a few deserting soldiers. Folio 30, 1½ pages.

June 7. The same to MM. Desherbiers and Prévost. The King has given M. de Choiseul Praslain the command of *La Mutine*, bound to Ile Royale. The latter has received no instructions, it will be for M. Desherbiers to give him those he may think proper, either for the protection of the fisheries, or to favour and help the removal of the Acadians to Ile St. Jean. Folio 31, 1½ pages.

June 14. The same to M. Prévost. The black fox skin which he sent him is very beautiful, he thanks him, but desires him to send no more such presents. June 14. The same to M. Desherbiers. He must no longer submit to any such relaxation of discipline in the forces as that which existed before the taking of Louisbourg. Will confer with M. Prévost respecting the pay of the pioneer soldiers. The precautions that he took of sending detachments to cut hay where the Acadians were to pass with their cattle, were timely. He must, without compromising himself, employ the Indians in cutting off the English settlements. Concerning the mission of M. Franquet, the engineer. The proposal made to Abbé Maillart by M. Cornwallis seems singular; will expect information on its results. Must act with prudence. Folio 37, 3 pages.

September 11. The same to the same. The commission appointed to determine the boundaries of Acadia has begun its work. The British court has declared that orders had been sent to the governors of their colonies not to undertake anything against the rights and possessions of France. This should tranquillize us were it not for the character of the restless and enterprising M. Cornwallis, which makes us fear that he will renew his attempts to gain the posts on River St. Jean and that of Pécaudy. It is for this reason that the King sends a vessel from Bayonne with a despatch for M. de la Jonquière. What he must do if the English attack any posts which are outside the peninsula of Acadia. In case of need he will meet force with force. Folio 49, 2 pages.

September 18. The same to M. Berryer. Had given the command of Ile St. Jean to the Sr. Duvivier. Thought he had embarked on his return journey two months ago. Learns that he is in Paris and that he has had several interviews

1750. with MM. Shirley and Mildemay, the English commissioners. Believes him incapable of treason, but these conferences with the English commissioners, without his knowledge, cause him to be at least suspected of imprudence and indiscretion, which might become dangerous under the circumstances. Prays he will inquire into his conduct towards the commissioners, and try to find out his connections with them. Knows that he associates a great deal with a M. de Solac, who resides near St. Sulpice. Folio 214, ½ page.

December 30. The same to M. de Puyzieulx. No time should be lost in lodging a complaint before the court of England respecting the outrages mentioned in the memorandum which he forwards. That committed on the brigantine *Le St. François* is without a parallel. All the circumstances are authenticated by the captain and the crew, and the Sr. de Vergor, who came here on leave, and who confirms them. Perhaps there has never been a case calling more for reprisals, under the law of nations, if reparation is not promptly offered. Folio 275½, ½ page.

MINUTES OF LETTERS.

AMERICA.

Series B. Vol. 93.

CANADA.

ORDERS OF THE KING AND DESPATCHES (4th part).

1751. Versailles. February 23. The President of the Navy Board to M. de la Jonquière. Cannot answer all his letters of last year in detail. Forwards this by way of Ile Royale, to acquaint him with what is being done on the subject of the difficulties with the English. The King wishes to uphold his rights, but at the same time, wants to avoid war. The King of England has given assurances that he had sent orders to his governors to treat him with consideration, but it does not appear that they obeyed them, judging by their actions in connection with the Indians of the upper country, the conduct of Cornwallis, and the adventure of the brigantine commanded by de Vergor. Hopes that more stringent orders will be given. Will do his best to defend the posts established on the north of the Baie Française. According to advices received, M. de Cornwallis seems to have some project concerning them during the winter. Shall do his utmost to defend them or to retake them, even by advancing his fortifications. Hopes that he will not be obliged to do so. The work of the Commissioners at Paris is not as advanced as it should be, and one must not flatter himself that it will soon end. Will neglect nothing to come to a definite understanding. Folio 1, 2 pages.

February 25. The same to MM. de la Jonquière and Bigot. They shall help the Sr. Troppez Martin, merchant at Quebec, in whom the Comtesse de Castellane is interested, whenever the occasion offers. Folio 1½, ½ page.

March 10. The same to the same. The King has renewed the fishery privilege of the Srs. Pascaud, at the Magdalen island, for a term of 9 years. Folio 2, ½ page.

March 10. Patent granting an exclusive privilege to the Srs. Pascaud to fish and to kill walrusses and seals at the Magdalen Islands. Folio 2, 1 page.

April 5. The President of the Navy Board to M. de la Jonquière. The English commissioners claimed that the boundaries of Acadia must comprehend, not only the peninsula, but all the territory from New England, that is, from the River Kinibéki as far as the St. Lawrence, all the right side on the latter river going down from opposite Quebec to Gaspé, all the lands bordering on the Gulf from Gaspé to Canceau, &c, &c. Our Commissioners have proven that, not only has Acadia no such immense extent, but that its boundaries must be fixed at Canceau, on one side, this place remaining to France, and the other, at Cap de Sable, or at Cap Fourchu, that this is all that was ceded to the English by article 12 of the treaty of Utrecht, under the title of the ancient boundaries of Acadia, and that in adding the territory of Port Royal, which was also ceded by the same article, England is entitled to only half of the peninsula, commonly called Acadia. The contentions should, strictly speaking be confined to that part which we claim. Neither shall erect any fortifications, or occupy any in the peninsula, but shall defend by every means all the country to the north.

1751. Will show the English in America every civility and consideration compatible with the national honour. Folio 3, 2 pages.

April 11. The same to MM. de la Jonquière and Bigot. A commission as cadet à l'aiguillette in the Canadian army has been given Sr. Du Roulle, whose brother is in the same troops. Folio 3½, ¼ page.

April 20. The same to M. the Bishop of Quebec. Sends him the Pope's bull on the King's Jubilee. Will consult with MM. de la Jonquière and Bigot, as to the date of its publication. Folio 4, ½ page.

The same to MM. de la Jonquière and Bigot. Same subject. Folio 4, ¼ page.

May 7. The same to M. de la Jonquière. Many complaints are received concerning the state of trade in Canada. It is claimed that the business of the posts is in the hands of a private company composed of very few persons, among whom are the officers of the posts, so that there remains very little for the merchants of the colony and for those of France. It is added that, apart from the indecency of the means employed, there result very grievous abuses in the colony trade, and the conduct of the Indians. There may be some exaggeration, but the complaints are too general not to contain some justification. Shall redouble his exertions to remedy the evil. Folio 5, 1 page.

May 7. The same to M. Bigot. Same subject. It is said that the company that was formed, in which there are no merchants, monopolizes the flour, that it is from that company that all for the King's stores is bought, and prices much above the market. Prays he will report on the matter. The good opinion which he entertains of him, his zeal, and the purity of his intentions, leads him to notify him that he must neglect nothing to nothing to stop these practices. Folio 5½, 1 page.

Marly. May 12. The same to MM. de la Jonquière and Bigot. Owing to abuses which were committed, he has given orders to the effect that, the freight allowed to the governor and the intendant on the King's ships, be limited, in future to 15 tons for the one and 12 for the other. Folio 6, ½ page.

May 21. The same to the same. It would have been desirable that the families who were sent to Detroit in 1748 and 1749, could have stored sufficient wheat to provide for the needs of those who are to go there this spring. He would do well to send disbanded soldiers there, or other Frenchmen, rather than Canadians, as the latter are more inclined toward trade than toward agriculture. If they had too many Acadian families, they might be preferred for this settlement. Is sorry that the regulation made by M. de la Galissonnière, to oblige the inhabitants of certain exposed regions, to settle in villages, has not been carried out. No wonder that these people, as well as Canadian officers, have represented that they long only for independence, even at the sacrifice of their own security. This regulation must be enforced at Detroit, on Lake Champlain, and in all other places exposed to attacks from Indians. Folio 6, 2 pages.

May 21. The same to the same. Will give every facility to the Sr. Duprè, merchant of Louisiana, to establish a trade between that country and Canada. Folio 7, ½ page.

May 21. The same to the same. The Chev. de Billy has been appointed cadet à l'aiguillette in the troops of Canada. Folio 7, ¼ page.

Versailles. May 25. The same to the same. Will grant protection to the captain of the vesssel which the Sr. Ranjard, merchant of La Rochelle, sends to Quebec. Folio. 7½, ¼ page.

June 6. The same to M de la Jonquière. Has made promotions in the troops according to his recommendations. Captain De Noyelles was made major of Trois-Rivières to replace M. Coulon de Villiers, deceased. The three companies vacant by the death of MM. de Croizille and de la Véranderye, and

1751. the promotion of M. de Noyelle, have been granted to MM. de Beaujeu de Villemonde, de Ligneris, and Chambon Vergor, the latter having at his request, been transferred from the troops of Ile Royale to those of Canada. Other promotions for the Srs. de Joncaire, de Sacquépée, senior, Duplessis Fabert, Drouët de Carqueville, De Léry, Piquoté de Bellestre, Chev de Repentigny, de St. Ours, de Rigauville, senior, de Langy, senior, de Langy, senior, de Sarrobert, Joncaire de Clauzonne, de Godefroy, Portneuf de Neufvillette, de Lusignan, Levrault Langy, Chev. de Céloron, de Longueuil, de Bienville, son of the governor of Montreal, de St. Blin, de Sacquépée, senior, de L'Epervanche, senior, De Combre, Du Sablé, de Longueuil, son of the lieutenant of the King at Quebec, and de La Fontaine. Has not the indecency to propose the Chev. de Bonne, his relative, for the majority of Trois-Rivières, this preference would have been too conspicuous. Has given the Cross of St. Louis to the Srs. de la Martinière and de la Corne, captains. Folio 8, 1 ½ pages.

June 6. The same to MM. de Noyelles, de Bonne, Chev. de Ligneris, de Beaujeu de Villemonde, De la Corne, senior, de La Martinière, Baron de Longueuil, Chev. de Longueuil. Notifies them of their promotions. Folio 9, 2 pages.

June 6. The same to M. de la Jonquière. As the Sr. de St. Ours, King's lieutenant at Trois-Rivières, is, through old age and infirmities, scarcely able to fulfil his functions, he will try to persuade him, carefully, to apply for leave to retire. Folio 10, ½ page.

June 6. The same to M. de Sacquépée. Allows him to retire with a pension and an annual gratuity, on account of the accident which has made him an invalid. Folio 10, ½ page.

June 6. The same to M. de Joncaire. Advice of his promotion to be captain on full pay. Folio 10½, ½ page.

June 6. The same to MM. de la Jonquière and Bigot. Respecting the enormous coming expenditure of the colony, and abuses. Shall try to reduce them, if not, it will be impossible to meet them. Folio 11, 1½ pages.

June 6. The same to M. Bigot. Respecting his financial statement. His report that the expenditure for the year 1750 would be as high as that for the year 1749, which amounted to 2,031,990 livres, has made him very uneasy. Folio 12, 4 pages.

June 6. The same to MM. de la Jonquière and Bigot. Respecting the copies of the official receipts for the pay of the troops. Means proposed to remedy the defects. Folio 14, 1 page.

June 14. The same to the same. Has procured an annual gratuity of 300 livres for the Sr. Briault, surgeon commissioned at Quebec. Has increased by 400 livres that of the 600 enjoyed by the Sr. Verrier, the King's attorney general at Quebec. Folio 14, ½ page.

June 14. The same to the same. Sends him an extract from the instructions given for the Chev. de la Filière, naval lieutenant, commanding the King's flute *Le Chariot Royal*, bound to Canada. Folio 14½, ¼ page.

June 18. The same to M. Bigot. Forwards him the duplicates of the proclamations for the supplementary funds for the years 1746–47–48–49. Folio 14½, ¼ page.

June 25. The same to MM. de la Jonquière and Bigot. Forwards several patents ratifying grants of land made to officers and employés in Canada, amongst others, those of the Srs. de Bonne and de Repentigny, at Sault Ste. Marie, Mde. de Boishébert, at Rivière Ouelle, de la Naudière, on the Maskinongé, Dlle Gatineau Duplessis, on Lac St. Pierre. Asks for a detailed plan of the town of Quebec. Folio 15, 2 pages.

June 25. The same to the same. Respecting the loss in launching the vessel *L'Orignal*. Hopes that more precaution will be taken with *L'Algonquin*. Such an accident is not likely to encourage ship building in Canada. Folio 16, 2 pages.

1751. June 25. The same to the same. Has approved of the tax imposed on the inhabitants of the town of Quebec to reimburse to the King the expenses incurred in the construction of barracks at Quebec. Suggestions respecting a tax on the colonists. Folio 17, 3 pages.

June 25. The same to M. de la Jonquière. Since he seriously suspected the Dlles Désauniers of doing foreign trade, he did well in suppressing their store at Sault St. Louis. It has been represented that they had for a long time ceased to do this trade, but, he has not listened to these representations, as he was sure that M. de la Jonquière would not have taken such a measure, without sure proofs of their guilt. Did well also to send Father de Tournois away from that mission. It would have been better, however, to allow the superior of the Jesuits to recall him himself. Folio 19, 2½ pages.

June 24. Patents ratifying the land grant made to the Sr. Sabrevoix de Bleury. Folio 21, 1½ pages.

June 24. Patent for the Sr. de Sabrevoix, captain in the infantry. Folio 21½, ½ page.

June 24. Patent for Mde. Geneviève de Ramezay, widow of the Sr. de Boishébert, late captain of infantry in Canada. Folio 22, 1½ page.

June 24. Patent for the Sr. La Fontaine, on the north shore of the St. Lawrence, between the concession of the post of St. Augustin and that of the Sr. Brougue. Folio 23, 1 page.

June 24. Patent for the Sr. Antoine Marshal, on the north shore, at a place called Le Petit Havre. Folio 23½, 1 page.

June 24. Patent for Dlle Marie Josèphe Gatineau Duplessis, behind the fief Gatineau, on Lac St. Pierre, originally granted to the Sr. Gatineau, her father. Folio 24, 1 page.

June 24. Patent for the Sr. de Bonne and the Chev. de Repentigny at the place called Sault Ste. Marie, with 6 leagues in front on the portage, and 6 leagues in depth, along the river which separates the two lakes. Folio 24½, ½ page.

June 24. Patent for the Sr. de Lanaudière, captain of infantry, of the extent of two leagues, or about, in front, to be reckoned from the extremity of the depth of the fief of Carufel, and in depth, as far as the Lake Maskinongé. Folio 24½, ¼ page.

Compiègne. July 2. The President of the Navy Board to MM. de la Jonquière and Bigot. Respecting the migration of the Acadians to Ile Royale and Ile St. Jean. The Sr. Duvivier had been appointed commandant of the latter island, but has not gone there. The Sr. de Bonnaventure has been established as commandant with the rank of major. The expenditure in aid of this island must be reduced. Folio 25, 1½ pages.

July 2. The same to the same. Must stay the execution of the order made, with the approbation of the bishop, to sell the site, building, and furniture of the Montreal General Hospital, with a view to unite it to that of Quebec. Has always understood that some kind of hospital was to remain in Montreal under the direction of the religieuses detached from the Quebec General Hospital. Before suppressing it entirely, they must see whether this establishment cannot be made self sustaining for the advantage of the public. It has been represented that Mde. d'Youville and her companions, who have been some years in charge of it, have offered to pay all its debts, and to maintain it with the aid promised them, and on which one may count. They will go into the whole matter with the bishop, who will inquire into the resources promised to Mde d'Youville to wipe out the debts of this hospital. At all events they will have to put off the sale of the property until further orders, as they have not sufficient authority without the King's written permit. As to the nuns of the Hôtel-Dieu of Quebec, their alleged inability to provide for a new ward, is only founded on the distinction they pretend to make between their funds and those of the poor. The only question to be considered is, whether from their income, they can afford the expense of a new ward, and then oblige them to do so. Folio 26, 2

1751.

pages.

July 6. The same to the same. The family of the Sr. Mauriel de Pontoy represent that this young man has made himself useful in the colony. If this is so, they will give some employment. Folio 26½, ¼ page.

July 2. The same to the same. Approves of the measures they have taken to form new companies and d istribute them through the garrisons of the colony. Will occasionally move them from place to place, even to Ile Royale. Respecting the com pany of bombadiers. Folio 27, 2 pages.

July 2. The same to the same. Respecting pensions to the widows of officers. As that to Dlle de Ramezay came from the royal exchequer, it is extinguished by her death. Folio 27½, ¼ page.

Versailles. August 27. Letters of pardon for Charles Cuisotte *dit* Ladouceur, deserter from the troops of Canada, on the condition that he will serve for the remainder of his life in the troops of that colony. Folio 28, 1 page.

August 27. The President of the Navy Board to M. de la Jonquière, accompanying the above warrant. Folio 28½, ¼ page.

August 27. The same to the same. Cannot grant to the Sr. Fleury Deschambault the title of lieutenant-colonel in the militia, a rank they do not wish to establish. Some changes might, however, be made in this respect, to secure better discipline and subordination, so as to derive more benefit from the courage and zeal of which the Canadians have always given proof. On the other hand, care must be taken not to flatter them more than is necessary as they are said to be presumptious. Folio 29, 2 pages.

August 27. The same to the same. Is surprised to learn that it is no longer any question of the plan he hadformed to expel the foreigners from La Belle Rivière. This territory is without any doubt ours, and belongs to us since the Sr. de la Salle explored the Mississippi. If foreigners from Europe are allowed to move around and trade there freely, it will come to be treated as a debatable territory. It is of the utmost importance to preserve free communication by this river between the two colonies of Canada and Louisiana. He must send troops to expel foreigners. Folio 30, 2½ pages.

September 16. Letter from the King to M. the Bishop of Quebec. Respecting the birth of M. le Duc de Bourgogne. Folio 32, 1 page.

September 16. The same to MM. de la Jonquière and Bigot. Same subject. Folio 32½ 1 page.

December 24. The same to M. de la Jonquière. Whenever deserting English soldiers come to Canada, he may, if they so desire, or he judges proper, send them to France, but to no other port than Rochefort. Folio 33, ½ page.

ILE ROYALE.

ORDERS FROM THE KING AND DESPATCHES.

Versaillles. February 23. The President of the Navy Board to M. Desherbiers. At his earnest desire to return to France, the King has appointed a new governor. His successor will sail from Rochefort at the end of April or the beginning of May. Will remain some time with him. The boundary commission does not proceed as fast as he wishes. He cannot flatter himself that an understanding will be reached soon. He must govern himself accordingly but act in such a way as not to cause the Acadians and the Indians too much uneasiness. The King's intention govern himself accordingly to always maintain his rights against the unjust pretentions of the English, and to aid in the settlement of the Acadians who will come to the colonies. If

1751. governor Cornwallis acts according to the intentions manifested by the court of England, no agression on his part, is to be feared although his conduct shows that he is harbouring designs against the Indians. Folio 1, 1½ pages.

February 23. The same to M. Franquet. Advises him of his promotion to the rank of colonel. Folio 1½, ¼ page.

March 10. The same to MM. Desherbiers and Prévost. Advises them that the King has renewed the concession to the Srs. Pascaud of La Rochelle, for their fishery establishment at the Magdalen Islands for 9 years. Folio 1½, ¼ page.

April 5. The same to the same. Object of the cruise of the vessel *Le Triton*, and the frigate *La Gracieuse*, fitted out at Toulon. Forwards an extract from the instructions given to M. De la Clue who commands them. Folio 2, ½ page.

April 5. The same to M. Desherbiers. The King has caused complaints to be made at the court of England concerning the capture of the boat *Le Loudon*, of Quebec, and of the brigantine *Le St. Francois*. Has not only asked that restitution be made, but also that punishment be meted out to the captors and the judges who ordered the confiscation. The pretentions of the court are the same as those of the judges, but it is easy to show their lack of foundation. Will make new representations. M. de la Clue has orders to capture the first English corsair, and even the first frigate, which he may meet near the coasts of Ile Royale, if it be within a league of them. Shall confer with him, and decide what is to be done according to circumstances. If, however, it be true that the French have captured three English vessels in retaliation, M. de la Clue will abstain from taking others. He will act in like manner if he thinks he may cause difficulties. Folio 2, 1½ pages.

April 7. The same to MM. Desherbiers and Prévost. Sends supplies for the posts of Rivière St. Jean and Chédaik by *La Fidèle*. Forwards a copy of the orders given to the Sr. Macarthy, who commands her. Folio 3, 1 page.

April 7. The same to the same. The two vessels about which he wrote, will sail immediately for Louisbourg. Folio 3, ¼ page.

April 20. The same to the same. The bull which he sends to the bishop of Quebec, for the jubilee will be forwarded to Louisbourg. Folio 3½, ¼ page.

April 24. Memorandum from the King to the Comte de Raymond commandant at Ile Royale, and Prévost, intendant commissary of the Navy, at Louisbourg. General instructions concerning their respective duties. Folio 4, 4 pages.

April 24. Memorandum from the King to serve as instructions to the Sr. Comte de Raymond Brigadier General commandant at Ile Royale. History of the settlement of Ile Royale. finance. justice. religion, &c., &c. Explanations concerning the articles of the treaty of Utrecht, the present state of the question of the boundaries of Acadia. Must act with civility and moderation towards the English, so that the blame be not imputed to him. Folio 6, 9 pages. Say 15 page.

Marly. May 12. Patent of concession in favour of the Sr. Darrigrand. Folio 10, 3 pages.

Fresh remarks concerning the refusal of that court to pay to the ship-owners the cost of transportation of the English from Louisbourg to Chibouctou. After the conditions concluded between MM. Desherbiers and Hobson, this refusal is most extraordinary. Folio 21, 1 page.

ORDERS OF THE KING AND DESPATCHES.

1752.

1752. Versailles. January 31. The president of the Navy Board to M. Bigot. Has prepared the statement of supplies to be sent to Canada this year and sends him a copy of it. Folio 1, ½ page.

February 26. The same to the same. Will grant a passage to France to the Sr. D'Orceval, aged from 11 to 12 years, nephew of Abbé D'Orceval, Canon of Noyan. Folio 1, ¼ page.

February 28. The same to M. de la Jonquière. Regrets that the state of his health does not permit him to prolong his sojourn in Canada His successor will start for Canada about the beginning of May. The King is satisfied with his services. Folio 2, ½ page.

February 28. The same to MM. de la Jonquière et Bigot. Has had great difficulty in securing the wheat and flour asked for Canada, the crop having been poor in France. Has reduced the quantities asked, under the impression that things were exaggerated at the time the vessels sailed. Remarks concerning the use and sale of this wheat and flour. Folio 3, 2 pages.

April 14 and May 11. Order of the King to give full discharge to the Srs. Edme Portier dit Bellerore et Antoine Louis Choquette dit La Sonde, soldiers in the troops of Canada. Folio 3½, ¼ page.

Marly. 1752. Letter of the King to M. de la Jonquière permitting him to return to France. Has appointed M. Duquesne to succeed him. Folio 5, ½ page.

May 11. The President of the Navy Board to M. de la Jonquière. Will return to France on *La Seyne*. Will not sail, however, without having given to M. Duquesne, his successor, all the information he may need. Folio 5, 1 page.

May 11. The same to M. Bigot. Same subject. M. Duquesne is warned of the excessive expenditure made for some time past in Canada and of the impossibility of its being continued. Folio 5½, ½ page.

May 11. The same to M. le Marquis Duquesne. Sends him his patents as Governor of Canada together with his instructions and a dispensation from taking the oath. Folio 6, 1½ pages.

The same to the same. Principles by which he is to be guided towards the Indians of Ohio and those further inland. The trouble the English take and the expense they incur to seduce them are not without some success with some of those nations. The project of M. de la Jonquière concerning this has been approved, but he does not seem to have done much to execute it. He throws the blame on M. de Céloron, commander at Detroit.

1752. We are not opposed to our Indians trading with the English, but we are opposed to the English trading on our lands. The Ohio river and the rivers which flow into it are unquestionably ours. It is only a few years ago that the English wish to exclude us from them. Their contention is that those lands belong to the Iroquois and that having the sovereignty over those Indians, they can exercise their rights. It is certain that the Iroquois have no rights on those lands; besides that the sovereignty of the English over the Iroquois is only chimerical. If they should succeed, our communications between Louisiana and Canada would be interrupted. The King intends to have complaints made to the Court of England. The progress before the Commission will be slow, for it is difficult to obtain proofs of the gravest facts, and orders given on matters of this kind can be very easily overlooked. Will be instructed of all that has been done by M. de la Jonquière. Will avoid as far as possible a war with the Indians which would be excessively costly and perhaps devoid of any real advantages. Will confine his efforts to the expulsion of the English who go there to trade and to convince the rebel or suspected Indians of those countries that they can go and do business with the English in all freedom. It is certain that if our posts are well provided with merchandise the Indians will not go and trade in the English cities or forts, as they do not wish to do so. Folio 7, 4 pages.

May 15. The same to the same. Of the captains who have been mentioned by M. de la Jonquière for the Cross of St. Louis, namely: MM. De Cabanac, de Vassan, de Lusignan et de Chambon Vergor, the last two only have been accepted. Principles by which he is to be guided in propositions of this kind. Folio 9, 2 pages.

May 15. The same to M. Bigot. There never has been any mention of the Sr. Varin for the place of commissary of Louisiana. Has solicited the place of intendant commissary, but has not granted it to him for several reasons. M. Varin may come to France if he has any business, but if it is to solicit his promotion, he had better spare himself the fatigue and expense of that voyage. He doubts not of the competency of the Sr. Bréard, whom he strongly recommends, but he cannot grant him the commission of commissary on account of the numerous complaints made against him as to his cupidity. He has the reputation in France and the colonies of mixing in all kinds of trades, both interior and exterior. It is said that he is interested in several supplies on the King's account, that he is having ships built in the shipyards of the King, &c., &c. All has been alleged with such detail that it is hardly possible to doubt its veracity. Folio 10, 2 pages.

May 15. The same to MM. de la Jonquière et Bigot. Has sent them a letter written to M. Franquet on the present state of the fortifications and of the Lower Town, with a view to fortifying the latter against an attack from the outside and to fortifying the Upper Town against an attack from the Lower, in case this last were occupied by the enemy. Details and remarks on this subject. Folio 11, 2 pages.

Versailles. May 15. The same to M. Bigot. Will order the Judges of the Admiralty to examine the case of the Srs. Detchevers et Camino who claim the wages due to them on effects saved from the ship *L'Aventurier* in 1748. Folio 12, ½ page.

May 15. The same to M. Franquet. On the questions to which he is to give his attention during his sojourn at Quebec. Folio 12, 1½ pages.

Marly. May 12. Decree which revokes the ordinance issued by the Governor of Canada, the Intendant and the Bishop providing for the union of the General Hospital to that of Quebec, in consequence of the offers made by the Dame d'Youville for the payment of the debts of the Montreal hospital. Folio 13, 1½ pages.

1752. Versailles. May 15. The same to MM. Duquesne et Bigot. Instructions on the same subject. Folio 13½, 2 pages.

Marly. May 15. The same to the same. Is sending a letter of the King in conformity with the instructions sent on April 30, 1749, to MM. de la Jonquière et Bigot, on their common and particular functions. Folio 14½, ¼ page.

May 15. Memorandum of the King to serve as instructions to the Marquis Duquesne. For a long time Canada has made little progress, because the first inhabitants are engaged in the fur trade, attracted by the independence they enjoy in their runs. The success obtained in culture a few years since has given an impetus to agriculture and colonization. Before the war the trade with the Islands has been much extended and had stimulated shipbuilding. The King intends to favour the development of agriculture, fishing and commerce. It is advisable to establish permanent cures. Arrangements for the collection of tithes, Religious Communities schools, troops, militia, fortifications. Government of the Indians. Of all the Indians of the posts of the further inland the Hurons of Detroit are the only ones who have embraced Christianity, and their mission is served by the Jesuits. In the last war between the English and French, the Iroquois remained neutral, excepting the Mohawks who are the least numerous. Having suffered great losses, they have since sued for a reconciliation. In the last war the post of Chouëguen was to be attacked, but as the Iroquois professed to be opposed to this, and and as they opposed any attack of the English against our post of Niagara, the project was abandoned. Encroachments of the English on the Belle Rivière. Abenakis, Micmacs, &c., &c. Folio 15, 12 pages.

Versailles. May 19. The same to M. Bigot. On the finances of the colony. Folio 21, 2 pages.

May 19. The same to MM. Duquesne et Bigot. Sends the statements of the King for the expenditure of the year on the ordinary funds and the Domain. Folio 23, 1½ pages.

May 19. The same to the same. Sends them an extract from the instructions given to M. de Vautron, commander of *La Seyne*. Besides M. de la Jonquière, the Bishop may return to France.

May 19. The same to M. Bigot. On the great expenditure in the posts on the boundaries of Acadia. Believes that it would be preferable that they be victualed directly by the Intendant Commissary of Ile Royale, so as to have better control of the expenditure. Folio 24, 1½ pages.

May 19. The same to M. Duquesne. On account of his age, M. de St. Ours has permission to retire from the service as Lieutenant of Trois Rivières. Grants him an annual allowance of 2,000 livres, in lieu of his salary. The Chevelier de Gannes, Major of Ile Royale, will replace him. M. de Longueuil, son of the Governor of Montreal, will succeed his late brother as ensign.

May 19. The same to M. le Chevalier de St. Ours. Has permision to retire from the service. Folio 25, ½ page.

May 19. The same to M. Bigot. Same subject. Folio 26½, ½ page.

May 19. The same to M. Levasseur. Same subject. Folio 26½, ½ page.

May 19. The same to MM. Duquesne et Bigot. On the necessity of encouraging the tilling of the lands. Sends them the memorandum of the Sr. Martin, who proposes to establish wheat stores in case of a famine. Will examine it with M. de la Jonquière and the bishop. Folio 27, 1 page.

1752. May 19. The same to the Bishop of Quebec. The law suit between the Chapter and the Seminary of Quebec has been sent before commissioners appointed to examine the respective claims of the parties interested. The King is disposed to grant him an increase of revenue. Has spoken of it to the former Bishop de Mirepoix. Relating to the arrangements between the Dame d'Youville, concerning the Montreal General Hospital. May come to France if he believes the voyage absolutely necessary. Folio 27½ 1 page.

June 8. The same to M. Bigot. Concerning divers complaints about the supplies and the freighting of provisions. Whenever these are important, he must ask for tenders. Folio 28, 2½ pages.

June 8. The same to the same. Sends him the memorandum and papers of the Sr. Larcher, merchant at Quebec, concerning the chartering of the schooner *L'Aimable Jeanne* for the King's service. Folio 29, ¼ page.

June 8. The same to MM. Duquesne et Bigot. Will assist le Sr. Martin in felling oak and other timber suitable for the building of ships. Folio 29, ½ page.

June 16. The same to M. Duquesne. It is alleged that the commanders of the posts have interests in the farms of those posts and that serious inconvenience results therefrom. Will examine if it would not be better to make the trade free and to impose certain conditions on those who wish to become traders. Folio 30, 2 pages.

June 16. The same to the same. Will not permit the Delles. Desaulniers to reopen their store at Sault St. Louis. Will examine the complaints made against the missionary who succeeded Father Tournois at that mission. The Iroquois claim title to the lands occupied by the mission, as do the Jesuits. Will examine the deeds of grant. Folio 31, 2 pages.

June 16. The same to M. Duquesne; On the principles by which he is to be guided in the government of the Indian nations. Folio 32, 3½ pages.

June 16. The same to the same. New posts will be established in cases of abolute necessity only. For the most part those who suggest those establishments have their particular interest only in view. Such seems to be the case of the post of Lac à la Carpe. Has approved the construction of a fort at Sault Ste Marie and the project of tilling the land and raising cattle, but it will have to be confined to the cultivation of Indian corn, as wheat will not thrive well enough; besides, the country in the vicinity of Detroit will be able to supply the wants of that post. Has approved of the settlements of Toronto and Niagara; this last one must be made above the portage for many reasons. Post of Gaspé. If it is decided to establish that of Pascadamocady, it will perhaps be expedient to leave a garrison at the head of the river St. Jean. In the establishment of any new post, care must be taken to group a few farmers around it to supply the needs of the garrison. Folio 34, 3 pages.

Compiègne. July 3. The same to MM. Duquesne et Bigot. It is true that the Fort de la Présentation has not cost much, but it must also be said that it is not of much consequence. It is said that it has not been placed on the most advantageous site. The efforts made by Father Piquet for the establishment of that post leads him to hope that it will secure the desired advantages. Has ratified the grant of land in the vicinity of the saw-mill built by the Father Piquet. The post of Detroit is much more important, and nothing must be neglected in order to increase the population, to group it around the fort and to stimulate agriculture. According to the census, the population, last year, numbered 150 men from 15 to 60 years old, without including 20 inhabitants to the south of the river and 25 dismissed soldiers settled on lands. Hopes that it has been possible, in spite of the famine, to send girls to marry to those who are of age. Folio 36, 2 pages.

1752.
July 3. Warrant ratifying the grant to the Sr. Abbé Piquet at the fort of La Présentation. Folio 37, 2 pages.

July 3. The President of the Navy Board to MM. Duquesne and Bigot. Has appointed the Sr. Foucault Premier Conseiller, to succeed the Sr. Cugnet, deceased, and the Sr. Bedon councillor. They will seek another person for the remaining vacancy. The councillors of the Superior Council of Quebec are the only ones who have a salary and, like the others, they have no fees. Notwithstanding the involved state of the finances, the first three councillors will receive 600 livres instead of 450, and the others 450 instead of 300.

July 3. The same to the same. Believes that the estimate amounting to 13,351 livres for the maintenance of the barracks, levied on the inhabitants of the town of Quebec, is not sufficient. They must make up their minds to a poll tax throughout the colony. Folio 39, 2 pages.

July 3. The same to the same. They will send this year a plan of Quebec and of the lands to be granted, with fresh explanations on the arrangements to be made. Reasons for delay in the ratification of divers deeds of grant forwarded. Has not felt bound to ratify the grant to the Cochu heirs of a township at the Baie des Chaleurs. He remembers that the lands in that section are very good a certain distance up the rivers. That is where it would be most expedient to locate grants, taking care to locate them so as to form villages. The best means of securing their defence is by uniting their strength as well as by the distance from the sea; at the same time, this will prevent the inhabitants from devoting themselves exclusively to fishing. They will send a list of all the grants made in 15 years. Folio 40, 2 pages.

July 7. The same to M. de Rigaud. It is true that M. de la Jonquière has written to him in his favour for the Government of Louisiana, but he cannot give it to him at present. Folio 41, ½ page.

July 7. The same to MM. Duquesne and Bigot. MM. Duquesne and Raymond must consult together as to the moving of the troops from one colony to the other. The sojourn will be fixed at 2 years. Folio 42, 2 pages.

July 7. The same to M. Bigot. The King will not order the building of new ships at Quebec as long as *L'Algonkin* and the two frigates which have been ordered are not completed and tried. The poor character of the timber used up to the present and the cost of those constructed tend unfortunately to destroy the hopes entertained, Is anxious to have news of the crop. Approves his having granted a passage on the King's ship to Madame Varin and to the officers comprised in the list. The accident to *L'Aimable Catherine*, laden with ammunition for the fort Beauséjour, is unfortunate, on account of the difficulty to replace as well as for the loss of the cargo. Port of Gaspe. Folio 42, 2 pages.

July 7. The same to the same. Divers instructions relating to the details of his administration. Folio 43, 2 pages.

July 7. The same to the same. Will speak to M. Duquesne on all matters concerning the troops and tell him of the abuses, with which the troops of Ile Royale were reproached, before the war. Folio 44, 1½ pages.

July 7. The same to MM. Duquesne and Bigot. Will consult together to repress abuses introduced concerning the troops. Will show to the soldiers all possible kindness. Folio 45, 1½ pages.

The same to M. Bigot. Approves of his having chosen the Sr. Daine for management of the Domaine to succeed the Sr. Cugnet, deceased, and of what he has done for the elder son of the latter. Is glad to see that the effects left by the Sr. Cugnet are more than sufficient to pay what he owes to the King and his other creditors. That seems to prove that the working of the forges had not been so unremunerative as he had pretended. The Sr. de Lanouiller has long been unable to discharge his duties of Controleur du Domaine. He has been given longer than anyone else on ac-

1752. count of his reverses and for the sake of his sister-in-law, Madame Mercier, nurse to the King. May consent to appoint in his place the Sr. Bénard, if he is qualified. Folio 46, 1½ pages.

July 9. The same to M. le Baron de Longueuil. Has been deeply grieved by the death of M. de la Jonquière. The King had permitted him to return to France as soon as he had been informed of the poor state of his health. The King wishes to avoid war with the Indians, while being firmly determined to expel foreigners who come to Belle Rivière for the trade. They alone are to blame. Will give his assistance to M. Duquesne in the execution of such measures as he thinks proper to enforce in this matter. Has not approved of his recalling the militiamen of his district from the frontiers of Acadia. Folio 47, 1½ pages.

July 9. The same to MM. Duquesne and Bigot. Instead of attempting, as MM. de la Jonquière and de Longueuil have done, to subdue the revolted Indians of Belle Rivière, M. Duquesne will first apply himself to expelling foreign traders and, if they are compelled to make war on those Indians, they will, as much as possible, employ Frenchmen only, for it is well to make them feel that we can dispense with their help. They must always have an ample supply of canoes, so as not delay the execution of any project determined on. The scheme proposed by the Abbé Piquet for making war no the Dog nation seems chimerical. Folio 48, 2 pages.

July 9. The same to M. Duquesne. Unsatisfactory accounts received from the the Baron de Longueuil concerning certain Indian nations of the upper country. MM. de la Jonquière and de Longueuil's project to make war on the rebel Indians was unwise. They had only to expel all foreign traders from Belle Rivière. On his arrival at Quebec stop the expedition which the Chevalier de Longueuil was to undertake. Deprived of supplies and ammunition by the departure of the foreign traders, the rebels will make submission, or they can then be fought with much greater advantage. There is no dearth of people in the colonies who, by affiliation with the Iroquois, favour the system adopted by MM. de la Jonquière et Longueuil. It is better, however, to risk being embroiled with the Iroquois than with the other nations who hate them. Folio 49, 2 pages.

July 9. The same to M. Bigot. Is pained at the death of M. de la Jonquière. M. Duquesne will succeed him. On the affairs of Belle Rivière. Will send him provisions. Folio 50, 2 pages.

July 9. The same to MM. Duquesne and Bigot. Will consider advice concerning the demand made by M. le Chevalier de Longueuil, for a patent of land granted by la Compagnie des Indes to the Sr. Prévost, which he again urges through his wife. They have forwarded two copies of the memorandums on the Navy made by M. de la Jonquière. They are in the hands of the Sr. de St. Sauveur, his secretary. They will learn next year the decision of the King on the application for a pension made by Delle de la Corne. They will explain to MM. de Cabanac, Dean, a nephew of M. de la Jonquière, and to M. Bonne, his cousin, the good disposition of the King towards them. They will examine into the disagreement between M. de Rigaud and M. de Longueuil about a trading post, and will report on it. Folio 51, 1½ pages.

July 9. The same to M. de Rigaud. To apply to MM. Duquesne and Bigot in the matter of his trouble with M. de Longueuil. Folio 51½, ¼ page.

July —. Letters of the King commuting the sentence of the galleys passed on the Sr. Claude du Retour de Moussy by the Superior Council of Quebec. Folio 52, 1½ page.

July 21. The President of the Navy Board to MM. Duquesne and Bigot. On the representations of the Compagnie des Indes concerning a permit given by M. le Baron de Longueuil for a trading post at point à l'Orignal above the Long Sault. Folio 53, ½ page.

1752. The same to the same. Has sent a cargo of supplies by *l'Etoile du Nord* commanded by M. Dulino. Folio 53, ½ page.

ILE ROYALE.

Compiègne. July 8. The same to M. Prévost. On the situation of the inhabitants of Ile St. Jean. Will consult with M. de Raymond as to the means to remedy the non-compliance with the orders given for the distribution of land grants. Will report on the state of the establishments which the Sr. Roma possessed at Ile St.

1752. Jean before the war and the means to indemnify him for his losses. Could perhaps give him the sub-delegation of the intendance in that island, since it is necessary to replace the Sr. De Goutins. Folio 16, 2 pages.

July 8. The same to M. Séguin. Explanations concerning his duties as comptroller. Folio 20, 1½ pages.

July 10. The same to M. Prévost. Concerning the hospital of Louisbourg and its management. On his relations with M. de Raymond. Folio 21, 2 pages.

July 10. The same to the same. His promotion and that of his brother will be granted on the first favorable occasion. Cannot come to France in the present circumstances. Warrants of scriveners for the Srs. Cochelin et Le Vacher. Folio 22, 2 pages.

July 10. The same to the same. Concerning victualling the fleet. Does not think it proper to increase the troops. Has met great difficulties in victualling the colonies, on account of the failure of the crops in Canada and in some parts of France. They had to resort to foreign countries. Folio 23, 1½ pages.

July 10. The same to the same. Will furnish rations to the inhabitants from the King's stores in the case of necessity only and at current prices. Will attend to the payment. Folio 24, 1½ pages.

July 14. The same to the same. On the finances of the colony. Folio 25, 3 pages.

The same to MM. de Raymond and Prévost. In sending the King's estimate for the expenditure of the year. Urges them to reduce the expenditure. Folio 27, 1½ pages.

July 25. The same to M. Prévost concerning the payment of the salary and gratuities of the Sr. de Surlaville, major of the troops. Folio 27¼, ¼ page.

June 21. The same to M. de Raymond. Hopes he will continue in good health. Folio 28, ¼ page.

July 21. The same to M. de Raymond. The King is not prepared to increase the troops as he requests. The formation of troops in battalions is attended by inconveniences. Awaits his proposals for filling the vacancies in the companies. Has only granted the lieutenancy vacant in the company of Montalembert to the Sr. de Corvoisin. Folio 28, 2 pages.

July 21. The same to the same. Concerning the Indians. The Abbé Maillart's mission. Has reason to believe that he will be equally satisfied with his relations with the Abbé Le Loutre. He is a man of great learning and ably applies it for the good of religion, and the State. He also enjoys, for some years past, a pension of 800 livres on a living. He needs not fear any relaxation of zeal on the part of those 2 missionaries, but rather that it will carry them too far in certain respects. Folio 29, 2 pages.

July 21. The same to the same. Has been satisfied with the good results of the operations of the ships sent on a cruise under the command of M. de la Clue. It is on that account that the King has intrusted M. de Lizardais with a frigate for the same object. Folio 30, 1½ pages.

July 21. The same to the same. Has procured an annual gratuity of 250 livres to Dame Carrérot, M. Prévost's mother-in-law. Must not slight M. Pré-

1752. vost in cases where they have powers in common. Concerning M. de la Boularderie's extraordinary demands. Folio 31, 2 pages.

July 21. The same to the same. The King has approved of his action on his arrival at Louisbourg, in sending M. de Surlaville to M. Cornwallis, at the new town founded by the English at Chibouctou. M. de Cornwallis will be succeeded by M. Hopson, who is said to be of gentle and peaceful disposition. Thinks his instructions have a more friendly tone. Will act in the same way with the English, while firmly upholding the King's rights. Will have resort to force to repel force only. Will make no establishments at Canceau for the present, but will prevent the English from making any. Nothing has yet been decided concerning the boundaries, but this matter has been studied and cleared up to such a point that it will be easy to come to a definite understanding, provided that the Court of England will act as sincerely as was announced in the declarations which it lately renewed. This affair has been carefully watched, and we feel more and more every day how important it is that it be soon terminated. Folio 33, 1½ pages.

July 21. The same to the same. Concerning certain officers. Folio 33, 1½ pages.

July 21. The same to M. de Raymond. Sends him an ordinance regulating the ranks of the officers of the ancient companies of Ile Royale and of those sent to France. The Sr. de Maizières has not left the service of Canada. His proposals for the distribution of the Crosses of St Louis will be supported. Will send this year, if he can, an annotated list of the officers and cadets. Concerning M. de Surlaville. Folio 40, 3 pages.

July 21. The same to the same. Regrets not to have given the command of one of the ships going to Ile Royale to M. de Chérisey. The same as regards M. de Chevalier de Caumont. All the officers must have their turn in commanding ships. Will take to secure the King's favour for his relative, M. de Raymond, captain in Canada. Has been unable to do anything for the Sr. Pichon, his secretary, the choice of men for the Admiralty being the admiral's concern. Will be favoured in whatever concerns the navy. There can be no question of the marriage of the Sr. Des Noyelles, sub-ensign, with the widow de Boisberthelot, after what he has said of it. Will communicate his views to M. Prévost for the establishment of a graving dock as well as for lodgings for the crews of

1752. the King's ships which may go into winter quarters. Will receive with pleasure the census he mentions of all the inhabitants, and his memorandum concerning the militia. Folio 41, 1½ pages.

July 21. The same to MM. de Raymond and Prévost. M. Franquet is left free to return to France this year. If he returns, the leave of absence asked by the Sr. Beaucher cannot be granted. Destination of the Sr. Breçon, engineer for Ile Royale with two young men, sub-engineers, accompanying him. Folio 49, ½ page.

July 21. The same to M. Franquet. Will report on the talent and ability he observes in the Srs. de Breçon, engineer, and in the Chevaliers de Ridde et de Montalon, sub-engineers. Awaits his observations on the visit he must have paid to Ile St. Jean as well as to the frontiers of Acadia and Quebec. Folio 42, ½ page.

July 21. The same to M. Boucher. Concerning the leave of absence he has solli-cited. Folio 42½, ½ page.

Will inform him of all he can learn about what is going on in Acadia as well as on the frontiers. Folio 43, 1½ pages.

July 25. The same to M. de Raymond. The King has approved of his having ordered M. de Macarthy, commandant of the frigate *La Fidèle*, to cruise in the Gulf and in the vicinity of Ile St. Jean. The presence of 4 ships, under the command of M. de Lizardais, must overawe the English, and there is reason to believe that our navigation has not been interrupted. Folio 44, 2 pages.

Ju 25. The same to the same. The project of which he has been advised, formed by the English of Acadia against the French post of Beauséjour would be so contrary to the peace, to the special agreements in virtue of which the commissioners at Paris are examining the respective claims, to the dispositions of which the King is daily giving assurances and proofs, that it is impossible to give it credence. There is reason to believe that M. de Cornwallis had to go the frontier before his departure, and that is what has probably led to the belief of an attempt against Beauséjour. Has not dis-approved, however, of the measures taken to permit M. Vassan to put this post in a state of defence. Cannot doubt the desire constantly manifested by the King of England for peace. Will avoid showing any distrust towards the English and will maintain friendly relations with them. Folio 45, 2 pages.

Suly 25. The same to MM. de Raymond and Prévost. Notes with extreme sorrow their representations on the situation of the colony in regard to food supplies. Folio 46, 1½ pages.

Julp 25. The same to M. de Raymond. Is deeply vexed about the complaints he makes against M. Prévost. He is wrong to believe that his observations concerning their respective powers, are the results of the complaints made by M. Prévost. Must change his mind about him. Folio 47, 3 pages.

The President of the Navy Board to MM. Duquesne and Bigot. Will examine on what the distinction made by the Religieuses de l'Hotel Dieu of Quebec of the funds of the poor from those of the communauté is based. Will ascertain whether, on their total revenue, without distinction, they can provide for the expense of a new sick ward. If they can, they must be compelled to do so, and if not, the King will supply one. It must be sufficient, for they ask permission to buy the land of M. Bégon, bordering on the river. That permission has been granted to them. Sends letters

June 3. patent for this object. Folio 14, 2 pages.

June 8. Letters patent stated below. Folio 14½, 1 page.

Dumont, de St Ours, de Beaujeu, de Muy, Péan et Bédon. Reasons why those of the Srs. Estèbe, Boisseau, Levasseur and Joubert, for sites in Quebec, were not sent. That asked by M. de Longueuil above Montreal is not granted, on account of the inconveniences that would result from it. Will see if that of M.

June 1. de Rigaud does not give rise to any abuses. Folio 15, 4 pages.

June 1. Warrant of ratification of grant for the Sr. de Beaujeu. Folio 17, 1½ pages.

June 1. Warrant, *id*, for the Sr. Dumont. Folio 18, 2 pages.

June 8. The same to MM. Duquesne and Bigot. Their observations concerning the establishment of an office for letters have been approved. Is pleased to learn that the abuses in the islands, about which there are complaints, do not occur in Canada. Will examine as to the best means for the preservation of timber. Will grant their protection to the Sr. Martin in his timber trade and other trades he has in view. Men of his stamp must be encouraged. Folio 25, 1¼ pages.

June 8. The same to M. Bigot. The place of Chief Road Commissioner is granted to M. Du Linot. The Sr. Levasseur's salary as inspector of timber. Has obtained a warrant as scrivener for the Sr. D'Hauterive. Has given the Sr. Bazagier the preference over the Sr. Bouron for another scrivener's warrant. In spite of the explanation he gives him on the Sr. Bréard's conduct, he is not sufficiently convinced to promote him, although he knows him to be industrious and intelligent. Notwithstanding his favourable testimonials about the Sr. Varin, he cannot have him appointed intendant commissary general, and if he intends to come to France to solicit this appointment, he had better spare himself the trouble and expense. Folio 26, 2 pages.

June 1. Certificate of naturalization for the Sr. Claude Thomas, an Englishman. Folio 27, 1½ pages.

June 8. The President of the Navy Board to MM. Duquesne and Bigot. Sends the King's estimates for the expenses of the year. Remarks. Folio 28, 1½ pages.

June 8. The same to the same. Observations on the posts of La Presentation and Detroit. Abuses occasioning an enormous increase of expenses in the posts. Folio 30, 2 pages.

June 8. The same to M. Bigot. Is well satisfied with the order he has established in the accounts of the Treasurers and with the explanations necessary for his knowledge of the state of the finances of the colony, but sees with regret the excessive expenditure. Had reason to believe that his repeated observations would have brought results, but far from that the expenditure is increasing every year. Folio 31, 4 pages.

June 8. The same to MM. Duquesne and Bigot. On the representations of the merchants of Canada, of which the Sr. Taché had charge. Observations on that subject. Folio 33, 2 pages.

June 8. The same to the same. M. Franquet having passed the winter in Canada and not having sent him the plans he has made for the fortifications, he awaits his return from Ile Royale to take the King's orders in this matter. Is pleased to see that this engineer has visited Montreal and Fort St. Frédéric. Gives them communication of a letter from M. de Léry, who not only disapproves of the plans of M. Franquet for the fortifications of Quebec, without giving his reasons for it, but also says that if they are adopted he cannot take charge of their execution. Although this letter is very inopportune, he has answered it without drawing his attention to his other

1753. letters, having regard to his long services. Will examine what it will be expedient to do if he persists in his ill-humor. The Sr. de Lotbinière, who returns to Canada, can be very useful for those works. However, he will not be able to do anything to the fortifications if the funds of the Navy are not relieved by a considerable decrease in the expenditure. Folio 34, 1 page.

June 8. The same to Madame de St. Joachim. The King will supply the deficit in the revenue of the Hôtel-Dieu for the construction of a new ward for the sick. Permission has been given to her to buy the land belonging to M. Bégon's estate, on condition that she sells the Seigniory of Ile aux Oies. Will apply to MM. Duquesne and Bigot for the lots and sales of part of the land that formerly belonged to the Hôtel-Dieu and about the burial of soldiers who die in that hospital. Folio 35, 1 page.

June 8. The same to M. de Léry. Will make known to MM. Duquesne and Bigot the King's intentions concerning the fortifications. Folio 35½, ¼ page.

June 8. The same to M. de Céloron. Will present directly to M. Duquesne the representations of the inhabitants of Detroit which he has sent to him. Folio 35½, ¼ page.

June 8. The same to M. Verrier. Is always prepared to give the young men who attend his lectures on law preference for the vacancies in the Superior Council. Will give annotated lists of them to M. Duquesne. Folio 136, ½ page.

June 8. The same to M. le Baron de Longueuil. Could not obtain for his son the company he asked for him. Has granted him the reversion for the first one vacant. Folio 36, ½ page.

June 8. The same to M. Rigaud de Vaudreuil. It is not expedient to grant to the Sr. De Chambault the brevet of colonel general of the militia which he asked for himself, this rank not being compatible with the general rules of the militia service. Folio 36½, ½ page.

June 1. Decree of the State Council imposing a tax for the maintenance of the Quebec barracks. Folio 37, 1½ pages.

June 15. The President of the Navy Board to MM. Duquesne and Bigot. Sends a copy of the decree imposing a tax for the maintenance of the Quebec barracks. This tax will serve as a preparation for a general taxation on the colony, either by a real land tax or by a poll tax. Considerations on this subject. Folio 37½, 2 pages.

June 15. The same to the same. They have no right to claim payment of their gratuities on the profits of the beaver trade in proportion to the present price. Complaints of the Company on this point. Folio 38, 1 page.

The same to M. Bigot. To restore the equilibrium in the Finances of the Navy the payment of drafts must be distributed over 2 or 3 years, &c. Folio 39, 1½ pages.

The same to the same. It is because he trusted the righteousness of his motives that he has not made known to him the numerous complaints against him. However, he thinks it necessary to apprise him of them, so as to warn him against those who might abuse his trust. The only means to silence all complaints about the purchases of flour on the King's account, is that he has adopted in having these purchases made by public tender, but he must not confine himself to that, the same must be done for all supplies and even charterings. Folio 40, 2 pages.

June 18. The same to the same. Recommends to him the Sr. Cantin to whom he has granted a passage to Canada. He belongs to a family attached to his estate of Joüy. They will enable him to exercise his trade of miller. Folio 40½, ¼ page.

June 30. The same to M. Duquesne. Has given his approval to all the operations in general of which he has given him the details, but he would have desired that his expedition in the direction of the river Oyo had been less expen-

1753. sive. Whatever may be the success of that expedition he hopes it will not be necessary to erect the 3 forts he has planned at the portage of Chatacoin, at the village of Chinengué and at Sinhioto. It would be paying very dear for the advantages of that success. Suspects those who have advised him to erect those forts of being interested. If the Iroquois have sold the territory of Belle Rivière, they have sold what did not belong to them. Folio 41, 2 pages.

The same to the same. Has not been surprised to learn that the Delles Desauniers had abused the permission granted them by the Baron de Longueuil to return to Sault St. Louis for 24 hours only. Has done well to expel them. Has received no demands for the return of Father Tournois to Canada. He had the gift of managing the Indians, and it is unfortunate that he did not make good use of it. It is to be regretted that the Superior of the Jesuits has not given Father Tournois a successor. Has done well to see to it. Will consult with the Superior. Folio 42, 1½ pages.

June 30. The same to the same. The King is willing to place the colony on a good footing of defence, but the expenditure must be decreased. Cannot increase the troops. Folio 43, 2 pages.

June 30. The same to the same. Is satisfied with the understanding between him and M. Bigot. The reports he had received about the latter had made no impression on him; he is nevertheless pleased at having his good opinion confirmed by his testimony. Folio 44, 1½ pages.

June 30. The same to the same. The behaviour of the Sr. D'Eyma, captain, towards M. de Rigaud, Governor of Three Rivers, deserved a trial with the full rigour of the ordinances. Has learnt that the Sr. d'Eyma, after his escape from prison, had taken refuge at New York. The King has disposed of his company. Has finally decided to give the post of La Baye to M. de Rigaud to compensate him for the expenses he has to incur in his government. May have a privilege for 2 years. Remarks concerning the management of posts and the means to prevent abuses. Folio 45, 2 pages.

June 30. The same to M. Bigot. The agreement made with M. Prévost for the payment of the troops while in movement, is very proper. The most necessary posts only must be maintained. Forges of St. Maurice. It would be desirable to find a company who could take charge of and work them. Folio 46, 2 pages.

June 30. The same to the same. Has given his approval to the measures taken to decrease the expenditure of the Domaine. It had been rightly thought that the Sr. Cugnet would leave enough to meet his liabilities. Will levy the 3% duty imposed by the edict of 1748. Cannot take into account the remonstrances of the merchants on this subject. Is satisfied of the testimonials given to the Sr. Daine. Has approved his having appointed the Sr. Bénard, his son-in-law, as receiver, on the resignation of the Sr. de Lanouiller. Awaits the accounts of this receiver. Folio 47, 2 pages.

June 30. The same to the same. It has been decided, by a decree of the Council of State, that the loss of the Sr. Taché's ship, chartered to convey supplies to the posts on the frontiers of Acadia, and which has been diverted from its voyage by M. de la Jonquière, must be borne by the King. It is otherwise for that of the Sr. Larcher. Must be attentive to the choice of chartered vessels and of captains. Folio 48, 1½ pages.

June 30. The same to the same. Will indicate the state in which the supplies were sent from Rochefort. Provision has been made for those demanded for 1753. Remarks on the provisions, ammunition and goods which were in the stores in September last. He must have received through Bordeaux the printed papers required and 6,000 livres in marked sols. Chimney-sweeps will be sent next spring. Folio 49, 2 pages.

June 30. The same to the same. Since he thinks it is more convenient to continue to send from Quebec the supplies for the posts on the frontiers of Acadia,

1753.

rather than to furnish them directly from Ile Royale, there can be no question of that change. Has reason to believe that the instructions sent to the Sr. Almain for the management of the stores will be better followed. The Abbé Le Loutre, who has spent several months in France, has made explanations on this subject. If the Sr. Almain does not give entire satisfaction in his management, he must be replaced. The Abbé Le Loutre has advocated the advantage of money payments for the expenses of those posts and the establishment of a currency. Has led the said Abbé to hope that next year he would send 50 or 60,000 francs. Hopes to

June 30. curtail the expenses by ceasing to aid the people. Folio 50, ½ page.

The same to the same. Respecting the wheat and flour sent from France, as well as from Ile Royale. Remarks on the excessive expenses and the

June 30. impossibility to provide for the payment of drafts. Folio 51, 1½ pages.

The same to the Bishop of Quebec. The grant of the seigniory of La Présentation to the Seminary of St. Sulpice is out of the question. The King does not seem disposed to listen to his representations in order to improve his situation. Has informed M. de Mirepoix of the fact. Will send a memorandum of his pretensions against the Seminary. They could be settled out of courts. Is disposed to induce the King to help the Religieuses of Trois-Rivières. Folio 52.

June 30.

The same to M. Levasseur. On the fitting out of *L'Algonkin* and the dismantling of *Le Tigre*. M. Duquesne will regulate his duties of inspector of woods and forests. Something will be done for his son when he is old

June 30. enough to enter the service. Folio 53, 1 page.

The same to M. Rigaud. Was sorry to hear of the two fires at Trois-Rivières, and especially of the loss suffered by the nuns. Has approved his conduct towards the Sr. D'Eyma. Has given him the post of La Baye.

June 30. Folio 53½, ½ page.

The same to M. Martin. Could not approve his plan for creating general stores in the colony. M. Duquesne as been instructed to assist him in

Compiègne. July 20. establishing other branches of trade. Folio 53½, ½ page.

Patent of a pension of 6,000 livres in favour of Marie Francois de Matignon, Comte de Gacé, which had been granted to the Comtesse de Matignon and transferred to the Duchesse de Noirmoutiers, in consideration of the expenses and losses caused to M. de Chevry through the cession of Acadia in 1713. Folio 8, 1½ pages.

May 2. The President of the Navy Board to MM. de Raymond and Prévost. Respecting the Srs. Cova and Co. traders of Dunkirk, who intend establishing fishing stations for cod and salmon. Folio 8½, ¼ page.

June 30. The same to the same. Granting protection to the Sr. D'Huart who has established a fishing and trading station at Ile Royale. Folio 8½, ¼ page.

Compiègne. July 11. The same to M. Prévost. Respecting the finances of Ile Royale. Folio 9, 3 pages.

July 11. The same to MM. de Raymond and Prévost. Sends estimates for the expenses of the year. Folio 10, ¼ page.

July 11. The same to M. de Raymond. The majority of Louisbourg has been awarded to the Sr. Du Hayet. Has approved the creation of an assistant-majority at Ile St. Jean in favour of the Sr. de la Bregeonniere. Transmission of a warrant as retired captain for the Sr. de Thorigny. The vacancies in the other military offices have not been filled this year on account of his not having indicated the officers who were entitled to them. The King does not concede to a governor the right of filling vacancies. Folio 11, 2½ pages.

July 13. The same to the same. Nothing has resulted from the remarks which he says have been circulated on his account. His disputes with MM. Prévost and Duquesne should cease. Folio 12½, ½ page.

July 13. The same to M. de Raymond. Sends him the permission he solicits to return to France. M. D'Aillebout is to take command of the colony when he leaves. Sends the leave of absence asked by M. de Surlaville and the warrant appointing the Sr. de Villejoin to the majority of the troops during his absence. Folio 13, 1½ pages.

July 13. Warrant of the King appointing the Sr. de Villejoin major of the troops of Ile Royale during the absence of M. de Surlaville. Do. granting leave of absence to the latter. Folio 13½, 1 page.

July 13. The President of the Navy Board to MM. de Raymond and Prévost. The King has not judged proper to approve the increase of pay they have asked for the officers, but he has applied a sum of 6,000 livres to be distributed to those most in need. The inhabitants have been excused repayment for the assistance furnished them in 1749. M. Prévost will

1753. see to the refund of those given in 1750. By the means taken this year, we hope that the ships freighted to transport supplies will not be obliged to put into port. Folio 14, 2 pages.

July 13. The same to the same. Respecting the dues exacted from the masters of vessels by the captain of the port of Louisbourg. Will give orders to the commanders of the King's vessels to to provide the Sr. Dolabarats with the sailors and other equipments needed to cleanse the port. Sends a

July 13. brevet of lieutenant of port to the Sr. Dolabarats, junior. Folio 15, 2 pages.

The same to M. de Raymond. Cannot get the red ribbon for him. Is sorry. The ratification of the purchase of the property which belonged to M. de St. Ovide, will be sent to him with the increase he asks, but without seigniory or title of comte, the property being too small, besides the King has decided not to grant any seignorial titles in the colony. Well disposed to do something for the Sr. Pichon, secretary. Will take proper

July 13. measures if he is willing to settle in the colony. Folio 16, 2 pages.

The same to M. D'Aillebout. Respecting divers matters to be examined whilst holding the command of Ile Royale. Will send a list of those subjects

July 18. who are to share in the filling of vacancies. Folio 17, 1½ pages.

The same to MM. Raymond and Prevost. Remarks on the statement of the cargoes of English vessels which have entered Louisbourg, Should have been more explicit. This toleration can only apply to those articles of which he has a pressing need. On the suggestions respecting

July 17. taverns. Folio 18, 2 pages.

The same to the same. Relief to the Acadians who have retired near Beauséjour. The Abbé Le Loutre warrants that an expenditure of 50,000 livres abboiteaux could be constructed that would provide fertile lands to a large number of these inhabitants; they will build their own houses. Will have an estimate made for these works by the Sr. Jacau de Tiedmont, and if they do not exceed 50,000 livres, the King will grant them in spite of the cramped state of his finances. Cannot establish a mint in these quarters,

July 17. as proposed by the Abbé Le Loutre. Folio 19, 1½ pages.

The same to M. de Raymond. Among the suggestions for the development of Ile Royale, some are very interesting, but the King cannot do more, on account of the state of his finances. Has approved the arrange-

July 17. ment made for the instruction of the officers. Folio 20, 2 pages.

The same to the same. Has no doubt expected that the English would not fail to mention in their newspapers the peace they had concluded with the Indians of Acadia. Did not believe that that peace was general, and has advised the King, that such as it was, it was nothing else but the price of presents lavished on a few individuals, anyway it would not last long. Was not surprised to learn the events which followed; much less so at the excitement caused throughout the Micmacks by the massacre of 2 families of that nation by the English. At the most the English alone will be to blame for the consequences of this adventure. Will recommend the officers who are near those Indians and to the missionaries to avoid doing anything that would compromise them in that respect. The King desires that no just cause of complaint be given to the English. Is aware of the views of the English on the capture of Louisbourg, as expressed in the printed paper, an extract of which has been sent to him. The main point to keep in mind, is to put that place in a good state of defence. Has noticed the exaggeration in the English paper of the trading advantages of Ile Royale. He has never touched the point attributed to him by the writer

July 11. of that paper. Folio 21, 1½ pages.

The same to M. D'Arrignand. Is willing to give him passage to Ile Royale, with 2 servants. Folio 21½, ¼ page.

1753. July 17. The same to MM. de Raymond and Prévost. Respecting the Sr. D'Arrignand, and his concession at the barachois of Plédieu. Folio 21½, ½ page.

July 17. The same to M. Prévost. Has looked upon the peace concluded between the English and the Micmacs as the result of presents lavished on a few individuals. Was satisfied that it would not be adopted by the nation; it seems, however, that the English themselves struck the first blow. For all that, if the orders which the King of England says he has given, are carried out, everything will pass quietly between the 2 nations, pending the settlement of the boundaries. We work as much as possible for the consummation of that settlement. The questions relating thereto are sufficiently elucidated. It suffices to adopt them; but that matter is all the more difficult because the inquiry was not favourable to the pretensions of the English. However we must hope that an understanding will be reached. Folio 22, 1½ pages.

July 17. The same to the same. Do not blame him since he has judged proper to remove the Sr. Lartigue from his office of store-keeper but disapproves his having appointed in his stead the Sr. Morin whose reputation is doubtful. Will have to put some one else in his place. Hopes he will be able to give other employment to the Sr. Lartigue. Folio 24, 1½ pages.

July 17. The same to the same. Was sorry to see the decrease of trade for the year 1752 compared to that for 1751. As the reasons he gives are accidental, he hopes that the fishery will succeed better. Remarks on the imports and exports. Folio 25, 2 pages.

July 17. The same to the same. Has approved the agreement entered into with the contractor for the supply of coal on account of the fires in the mines, and that he has made good to the officers and men the clothing they had lost in that fire. Believes with him, that if the establishment of a brick yard and lime-kilns in the Baie des Espagnols, is a success, it will be necessary to make new arrangements with the lessee for working and supplying on the spot the coal needed. Will confer with M. D'Aillebout about the vacancy in the Superior Council, if he cannot come to an understanding with M. de Raymond before his departure. Folio 26, 2 pages.

July 17. The same to M. Seguin. Respecting his duties as comptroller. Folio 26½, ½ page.

July 17. The same to M. Prevost. Remarks on his proposal to use the 260,000 livres due by Canada to Ile Royale, to purchase flour from New England for provisioning the stores of Louisbourg. May buy to the amount of 100,000 livres. Folio 27, 1½ pages.

July 17. The same to the same. Knew that the ship *La Marie Anne* bound for Ile Royale had been obliged to put in at San Domingo. Is satisfied with the various statements and balances sent by him. Is pleased also to see his care in provisioning the posts on the boundary of Acadia. Folio 28, 2 pages.

July 17. The same to the same. Will examine with M. D'Aillebout what are the establishments deserving support, and whether others could be started as the population increases. Is convinced that his disputes with M. de Raymond have had the effect of paralysing the development of the colony. Folio 29, 1½ page.

July 19. The same to the same. The Abbé Le Loutre has been reimbursed of the 2438 livres for wheat and flour bought by him for the garrison of Louisbourg. Will require M. Bigot to make due settlement of that expense. Will give his opinion on 2 bills presented by this missionary, one from Joseph Le Blanc dit LeMayre, an old inhabitant of Acadia, who claims payment for supplies furnished on the King's account, the other from Sr. Faribault for compensation when his schooner *La Maria* was freighted. Willa rrange with M. Bigot for payment of the expenses incurred on the boundaries of Acadia. They are so large that there must be abuses. This

1753. intendant is not pleased with the Sr. Almain, who is instructed with that duty. Folio 30, 1½ pages.

August 6. The same to the same. Has learnt with pleasure the arrival at Louisbourg of the flute *Le Rhinoceros*, of the vessel *Le Bizarre*, and of the frigate *La Thétis*. Anxious to hear of the arrival of M. Franquet at Ile Royale to arrange concerning the fortifications. It would be a pity if M. Boucher was not fit to work on them. Everything tends to show the Indians of Acadia will not give the English much peace but we must not give them any cause to complain. Folio 31, 1½ pages.

Fontainebleau. October 26. The same to MM. D'Aillebout and Prevost. Explanations respecting the treasury and the stores. Folio 32, ½ page.

The same to the same. Is sorry to learn that Captain Marin has been obliged to postpone his expedition to river Oyo on account of the water level being too low in Rivière aux Bœufs. Should have known that before going too far. The advance of this detachment has made great noise in the English colonies, especially in Virginia If we can rely upon the news, the governor of that province has asked for assistance from surrounding colonies to march upon Belle Rivière. It is anything but probable, however, that he will obtain the consent of the English Government. If he should obtain it, it would be sufficient to oppose force to force. Folio

The same to the same. About what he mentioned regarding his return next year, M. de Vaudreuil will start next spring to take his place. Folio

June 1. 25, ½ page.

The same to M. Bigot. Observations regarding expenses and the necessity to curtail them. Is very pleased with his punctuality. Could not say so much on the matter of expense since his administration. Impressions against him here are most unfavorable. All resources are exhausted and this state of affairs is due to excess of expenses in Canada during 4 or 5 years. Warns him that if we have to choose between the trade of Canada and other things, it has been decided to let the trade fail at all risks. Fol. 26,

June 1. 3 pages.

The same to the same. It is said that the excess of expenditure is due to everything being under the control of a party. "The Sr. Breard is "quoted for all charterings for the king, the Sr. Péan for the supplies of flour "and vegetables, the Sr. Claverie for all other supplies for the store at "Quebec, and one Calot for those at the slaughter house. The same disorder "is said to exist even in Montreal where the Sr. Martel, store-keeper, fur- "nishes supplies of all kinds with his assistant one —— ——. Furthermore

1754. "that they have taken possession of all the trade at Detroit, and it is even "stated that M. Varin is implicated in those dealings. June 1. The same to Mr. Duquesne. His complaints against the Sr. de Macarthy, who is in command of the Illinois, do not agree with testimonials received from Louisiana. The diary of the Sr. de St. Pierre on the occasion of his voyage to the posts of the Western sea, is not calculated to do away with the idea that those making such voyages are more intent on trade than the discovery of the sea. Nevertheless, he has confidence in that officer and he did well to intrust him with the expedition to the river Oyo, in the absence of M. Marin, who was sick. Has been very pleased to learn that the Hurons at Detroit returned to their village, and that with the Saulteux and Ontaouais, they have sent detachments against the Chicachas and Têtes Plates. It is believed that everything will stay quiet at Acadia on account of the orders which were given by the English Government to its officers. The establishment of a post at Gaspareaux, for the landing of goods for Fort Beauséjour, was very convenient. Folio 29, 2 pages.

June 5. The same to M. Bigot. Shall concert with M. Duquesne on his proposal to release forts Niagara, Frontenac and Rouillé to dealers for the trade. Folio 30, 2 pages.

June 5. The same to the same. Awaits his return to promote the Sr. Bréard to the position of store-keeper at Quebec and the retirement of the Sr. Estèbe, who is obliged to give up his position on account of bad health. June 14. The same to the same. Is sending an order from the sub-contractor to the Sr. Cressé. Will give employment to the Sr. Levasseur, junior, asassistant contractor. May get the boards from the saw-mill belonging to the Sr. Levasseur if they are of good quality. Shall wait for him to decide about the buildings and Canadian timber for the harbours of France. Versailles. August 19. The same to M. Duquesne. The King has been sorry to learn the adventure which befel M. de Jumonville. This matter may not end as he expects. It was decided, during M. de Beauharnois' government, to make all the cures permanent. Desires to know what has been done in that respect, and will consult with the Bishop. Collection of the tithes. Communautés religieuses. Militia. Fortifications. Posts. Government of the Indians. Rather than leave the Indian nations to exterminate each other, it is proper, just and humane, to assume the part of protector and pacifier. Efforts have been made, in the interest of commerce, to bring the Indians to settle near the French posts. Except for special reasons other than the above, the Indians must be left at liberty to settle where they wish, to roam and wander at will in the lands of the colony. For some years those Indians have made it a game to receive English necklaces and flags and to take them afterwards to the French and exchange them for presents. All this is very costly, and morever improper. It is not proper to be the dupes of such manœuvres. Will strive to help the missionaries in the exercise of their duty, but he will see that they do not abuse their ministry to injure the French, or the influence they may acquire over the minds of the Indians to make themselves masters of the position Folio 3, 9 pages. Say 15 pp.

May 15. The same to MM. de Vaudreuil and Bigot. Has obtained a place of cadet à l'aiguillette in the troops of Canada for the Sr. Cadet de Fonterran. Folio 10½, ¼ page.

The same to M. de Vaudreuil. Has provided, on M. Duquesne's recommendations, for filling the vacancies occurring in the troops of Canada. The command of Detroit will not be taken from M. de Céloron for the present, but it is understood that it will be given to M. de Muy as soon as another opening has been found for M. de Céloron. Meanwhile M. de Muy will act as major of Detroit. In his nominations for filling vacancies he will consider seniority, only where there is equality of merit. Folio 10 bis, 2 pages.

May 16. The same to MM. de Vaudreuil and Bigot. Will render to the bearer of the Sr. Beaujon's power of attorney the necessary assistance for the recovery of a debt of 4,500 livres from the Sr. Bedoul, merchant at Quebec. Folio 11, ½ page.

May 16. The same to M. de Vaudreuil. Sends him a memorandum from the Duc de Penthièvre in favour of the Sr. D'Albergati, an Italian gentleman, serving as cadet in Canada. Will report on his behaviour. Folio 11, ¼ page.

Versailles.
June 5. The same to M. de Vaudreuil. On the favorable testimonials given on behalf of the Sr. de la Corne, Canon of Quebec, the King has appointed him Dean in succession to the Sr. de Cabanac, retired. Folio 11, ½ page.

June 5. The same to the Bishop of Quebec. Same subject. Folio 11½, ¼ page.

June 4. The same to M. Bigot concerning the shipment of supplies prepared for the troops before their embarkation for Canada. Folio 11½, ½ page.

June 5. The same to MM. de Vaudreuil and Bigot. On the condition of the finances of the colony. Necessity to decrease the expenses. Means of doing it. In what manner to prepare the drafts of statements. Sends those of this year. Changes made in them. Other changes are proposed. A separate account of the expenditure of the land troops will be prepared. Folio 12, 4 pages.

June 5. The same to the Bishop of Quebec. Has written to the former Bishop de Mirepoix that he may make arrangements to procure for him the assistance he needs. Has granted him, in the meantime, an extraordinary gratuity of 6,000 livres on the Royal Trersury. It was understood that the sum of 2,700 livres assigned to the maintenance of the cures and church buildings, and that of 7,600 for part of the maintenance and subsistence of the curés, would be cancelled. Before doing this, he desires to know his opinion on this cancellation, and on the decision taken to impose a tax on the inhabitants to provide for it. Folio 14, 1½ pages.

Compiègne.
July 15. The same to MM. de Vaudreuil and Bigot. Wishes to be informed on the acts of the protestants settled in Canada. On one hand the Bishop

1755. pretends that the behaviour of some of them is suspici us and dangerous, and on the other, MM. Duquesne and Bigot maintain that no complaints have been made against them, that they have always been obedient to laws and the police, that they have no meetings, that they have 14 houses which carry on three parts of the trade of the country and that, if they were driven out, the colony would greatly suffer by it, the Canadian merchants not being numerous enough, nor sufficiently rich, to meet all requirements. Wishes them to consult with the Bishops to verify his suspicions. Will make a list of the protestants of foreign nationality, if he finds any. Folio 15, 1½ pages.

July 15. The same to the same. On the building of ships. Is grieved that the results obtained do not permit him to continue the building of big ships at Quebec, at least for th e present. The timber used in the construction of *Le Caribou* and *Le St. Laurent* has been found to be of poor quality. The opinion entertained about *L'Algonkin*, at Brest, is not very high. In any case, no others will be built before a trial is made of the 2 frigates already ordered. Will continue to seek for timber of all kinds particularly that suited for masts. Will encourage the construction of merchant ships by private persons, as was done before the war. Folio 16, 2 pages.

July 15. The same to M. de Vaudreuil. May extend to 2 years more the privilege of the post of the Baie enjoyed by M. de Rigaud, but there can be no question of a renewal after that date. Folio 17, ½ page.

July 15. The same to M. de Rigaud. Same subject. Folio 17, ½ page.

July 15. The same to MM. de Vaudreuil and Bigot. Was prepared to grant the post of Gros Mékatina to the Sr. Taché, merchant at Quebec, but as M. Hocquart has asked to exchange his post of St. Modet for that of Gros Mékatina, the Sr. Taché may have that of St. Modet, if he should desire it. Folio 17½, ½ page.

July 15. The same to the Bishop of Quebec. The King has thought it proper for him to consult with MM. de Vaudreuil and Bigot concerning the protestants settled in the country to prove if the suspicions he entertains about their behaviour are founded, and those against whom they were true would, in that case, be sent to France, the proper caution being observed not to cause too great an injury to their trade. Folio 18, 1 page.

July 15. The same to M. Bigot. Sends the Commissions as scriveners granted to the Srs. Mélis, Tourton and Fayolles. Cautions him against a too great number of these commissions. Folio 18, ½ page.

Versailles. September 5. The same to the same Has heard of the capture of *L'Alcide* and of *Le Lys* long before having news of the arrival of the rest of the squadron in Canada The English have taken care to publish also the success of their attacks on the frontiers of Acadia and their preparations against our posts on the lakes and at Belle Rivière. But no war has been declared as yet. The English squadrons have been content with searching our merchantmen without retaining them. Whatever be the consequences of their hostilities in America, the King has approved the measures taken by M. de Vaudreuil for the defence of the colony. All abuses in the expenditure must be repressed. Has approved his decision to send to Louisbourg the victuals he intended for the posts on the frontiers of Acadia. Is impatiently expecting M. Dubois de Lamotte's ships. Folio 19, 1½ pages.

September 5. The same to M. le Baron de Dieskau. Heard that he had gone to Montreal and was preparing for his advance. Knows of the conflict at Belle Rivière only by reports which came from England. Has no doubt but that the success achieved by our troops will inspire them with courage and emulation, and that he will know how to profit by it. Folio 20, ½ page.

September. The same to M. de Vaudreuil. Has received no other letters from him than those of July 2 and 10. Presumes that there were several in the

1755. package which the captain of the ship *Pierre Alexandre* declared he threw into the sea on his meeting with an English frigate that searched his ship on August 17, abreast of L'Isle-Dieu. Had already learned through English sources of the capture by the English of the posts of Beauséjour and Gasperaux, the advance of the English against the fort of river St. Jean, and those of St. Frédéric, Niagara and Belle Rivière. Has done well in deciding to send M. Dieskau to St. Frédéric to preserve this post or recover it. It is with sorrow that the King sees himself obliged, by these hostilities, to take measures opposed to his love of peace. The English do not conceal their intention of seizing all ships carrying provisions or ammunition. The news from England, concerning General Braddock's defeat, increases the King's confidence. According to private information and to what the English themselves have published, the forts of Beauséjour and Gasperaux have been very badly defended. An inquest will have to be made into the conduct of the officers who were commanding there, Folio 20, 2 pages.

February 17. The same to M. Duquesne (in cipher). The operations of last year, in the direction of Belle Rivière, have made much noise in Europe, and the Sr. Villier's expedition has given rise to particular ferment in England, so that the British Court has decided to send 2 regiments of regular troops, to Virginia with officers and arms to levy 2 others. This reinforcement sailed on the 13th of last month from the ports of Ireland. The Court of England has however given the most positive assurances that they desire the maintenance of peace, and that in sending troops to Virginia their only object is to quiet the fears of that colony and its neighbours on account of attempts with which they think they are threatened. The King is, in fact, persuad d that His Britannic Majesty has no intention of effecting a rupture, and he does not lose all hope that those operations may lead to some conciliation ; but he is prepared, at the same time, to take all possible measures not to be taken unawares. For that object it has been decided to send to Canada a troop of 3,000 men, commanded by a major-general who will be under the Governor General's orders. These troops will be convoyed by a squadron. Hopes he will sail from Brest about the beginning of April. Has equipped *La Diane* et *La Fidèle* to precede him. This letter will be carried by *La Diane*, commanded by M. Froger de l'Equille, who will immediatly set sail from Rochefort. *La Fidèle*, commanded by M. de la Jonquière, lieutenant, and on which M. Bigot is to return to the colony, will set sail from the 15th to the 20th of next month. M. de Vaudreuil will sail later on with the commander of the squadron. The troops which the English have sent to Virginia will reach port in time to operate before the arrival of our troops at Quebec. It must be expected that those troops will start operations, for such are the pretensions of the English that they will serve as a pretext to consider their attacks as defensive measures. Believes, however, that they will be confined to Belle Rivière. Must not be the aggressor. Divers observations on the measures to be adopted. Folio 21, 5 pages. Say 8 pp.

February 17. The same to M. Varin. Pending M. Bigot's arrival in Quebec, he will make active arrangements for the arrival of the coming troops. Folio 23, 3 pages.

March 17. The same to M. Duquesne. Since his last letter, the King has decided to send direct to Louisbourg, two of the six battalions, which were intended for Canada. This change is to be known to no one in Brest when the fleet leaves ; it will be only when sealed orders are opened at the Grand Bank, that M. Dubois de Lamothe will pick out the vessels *Le Défenseur*, *Le Dauphin Royal*, *L'Espérance* and *L'Aquilon*, to carry the two battalions and their provisions to Louisbourg under the escort of a cruiser and a frigate. Folio 25, 1 page.

1755. March 25. The same to M. Bigot. M. de la Jonquière has orders to stop at Louisbourg. Has two reasons, first to leave his goods; the second, to permit him (M. Bigot) who knows the colony well, to have time to come to some understanding with M. Prévost on pressing matters. Reckons that two or three days in Louisbourg will suffice for that. Folio 25½, 1½ pages.

The same to M. de Dieskau. Is sending him the King's instructions as to how he shall conduct the campaign with which he is charged. Folio 27, 1 page.

March 25. Orders of the King to the Baron de Dieskau. His military operations, just now, must only have for object, the defence of the rights and possessions of His Majesty against usurpers. Will be under the orders of the Governor in the exercise of his duties, who will of his own will decide all details, without any council of war and without previous communications. Folio 28, 3½ pages.

April 1. The same to M. Duquesne. Is sending him the permission he asked to return to France in order to resume his service in the navy. The King grants him liberty to sail with M. Dubois de Lamothe after the landing of the troops, but he hopes he will not abuse this liberty so that he may have time to give M. de Vaudreuil all necessary explanations. It is for this reason that M. Hocquart, who is in command of *L'Alcide* has orders to wait for him. Folio 30, 1 page.

April 1. The same to M. de Vaudreuil. Is sending him two special orders from the King, one as to the service of the troops on land, and the other concerning the disturbances in the colony for some time past and as to the pretexts of the English who have caused them. The small success, so far, of the negotiations begun with the English, on their most excessive and unjust pretensions, and the great preparations they are always making, no longer permit the thought that their aims are so peaceful as the British Court had, at first, pretended. If their intention is not to come to an open rupture, it is at least to be expected they will neglect nothing in order to maintain their proposed usurpations in Canada. The King explains his intentions. Folio 31, 2 pages.

April 1. Instructions to M. de Vaudreuil concerning the land forces. The Baron Dieskau will have under him the Chev. de Rostaing, employed as a colonel of infantry and the Chev. de Montreuil as assistant major general. The King's intentions are to leave to M. de Dieskau, all the details of the command, discipline, police and good of the interior service of the army, giving him a statement of everything that he will do. Various observations. Folio 32, 8 pages.

March 25. Ordinance concerning the duties and the discipline of the troops sent to Canada. Folio 36, 4½ pages.

March 25. Order of the King providing that the soldiers sent to Canada will receive a certain sum on account of their not being able to profit by the two full discharges granted, by the King every year, throughout the infantry. Folio 39, 1 page.

April 1. Special instructions for M. de Vaudreuil on the line of conduct he will hold towards the English. History of the boundary question between the two countries. Claims of the English and discussion of the facts. Folio 40, 12 pages.

April 1. The President of the Navy Board to M. Bigot. In relation to the instructions which have been forwarded to him concerning the payment of the land forces and the accounting for the expenses in connection therewith. Distinction to be made in these expenses. Concerning the drawing of bills of exchange. Sum of money which is intended for Canada to prevent the high prices of everything. Statement of facts concerning the situation of the colony and its wants, to be sent. Folio 46, 3 pages.

1755.
March 25. Memorandum of the King to be used as private instructions by M. Bigot, concerning the troops which are being sent to Canada. Folio 48, 4½ pages.

April 10. The President of the Navy Board to M. Dieskau. The King has decided to send directly to Ile Royale the two battalions of Artois and Bourgogne. Has sent word to MM. de Drucourt and Prévost to prepare for their reception. Shall give his orders to the officer commanding the troops. Folio 51, 1½ pages.

April 10. Letter of the King to M. de Dieskau. Same subject. Folio 52, 1 page.

April 10. The President of the Navy Board to M. Bigot. As there is no Commissary with the two battalions which are sent to Ile Royale, M. Prévost will act in that capacity. If there is any particular orders to give to that officer on his duties he will give them willingly. Folio 53, 1 page.

March 25. The same to M. de Vaudreuil. Concerning the arrangements made in regard to the two battalions sent to Ile Royale. Folio 54, 1 page.

March 25. Instructions to Sr. Doreil, Commissary General, who will be attached to the 6 battalions of land troops which the King is sending to Canada. Folio 55, 3½ pages.

The President of the Navy Board to the same. M. Bigot, jr., will give him more definite instructions on all details concerning the troops. Folio 56½, ½ page.

ILE ROYALE.

Folio 5, ½ page.

Compiègne.
July 15. The same to MM. de Drucourt and Prévost. The King has granted another sum of 6,000 livres to be distributed to those officers who are most needy. This favour will be abolished next year. Folio 7, 1 page.

July 15. The same to M. de Drucourt. The King has not deemed it proper to increase his salary which is higher than that of his predecessors before M. de Raymond and higher also than those of the different governors of the other colonies. Will make further representations in his favour next year, taking as a basis the increase of the garrison. Folio 7, ½ page.

July 21. The same to the same. Has learned by way of England and *La Henriette*, on which vessel M. Loppinot has mailed a letter for him, of the taking of *L'Alcide* and *Le Lys*. Hopes that the remainder of the fleet has been able to reach Quebec and Louisbourg. Does not know whether the English have carried hostilities so far as to stop French vessels. Folio 7½, ½ page.

July 29. The same to MM. de Drucourt and Prévost. The King has learned with much pleasure of the arrival at Louisbourg of that portion of the fleet of M. Périer de Salvert, intended for that place. On receipt of the news of the capture of *L'Alcide* and of *Le Lys* by Admiral Boscowen, the King immediately recalled his Ambassador in London and his Minister at Hanover, to return at once without their taking leave. Preparations to put Louisbourg in a good state of defence. Folio 8, 2 pages.

The same to M. Franquet. Has received his letters by *L'Espérance*. He leaves it to himself and M. de Drucourt what work shall be done this year. Folio 9, ½ page.

July 29. The same to M. Périer. Is writing him at Louisbourg although he thinks that he has already left for home. Has learned with pleasure the arrival of all his squadron in that port. Folio 9, ½ page.

August 7. The same to MM. de Drucourt and Prévost. To warn the Sr. Dolabarats, captain of the Port of Louisburg, that he must no longer delay the payment of his debts to Sr. Sonolet, merchant of Rochefort. Folio 9½, ½ page.

September 5. The same to M. Franquet. Is sending him a copy in triplicate of a letter he wrote him on the 29th July last. Folio 10, ½ page.

September 5. The same to M. de Drucourt. Admits that the situation is embarrassing, on account of the unexpected movements of the English. Hopes that the English will not be more successful in their operations in the lake district than on the Oyo, if they have attempted anything in that direction. All the same it is vexatious that the English have captured the posts on the boundaries of Acadia. It is stated that they found it easier than had been expected. Is ignorant of all the details, and has received no reports from Sr. de Vergor. The Sr. Drouilly, of whom he had informed him, did not present himself. The conduct of the officers who have taken part in these engagements should be investigated. Folio 10, 2 pages.

September 5. The same to M. Prévost. Is not without anxiety as to what is going on at Louisbourg, especially with regard to rations and clothing to be furnished the battalions recently arrived. Will personally review those troops. Folio 11, 2 pages.

September 5. The same to M. de St. Julhien. Has learned with pleasure that the two battalions of Artois and Bourgogne arrived at Louisbourg in good shape. Hopes that everything between M. de Drucourt and himself will pass off well. Folio 12, 2 pages.

1755. September 5. The same to MM. de Drucourt and Prévost. Is sending the frigate *La Valeur*, commanded by the Sr. Macarty, to Louisbourg. There is no declaration of war, and the English are not seizi g our merchantmen any longer, but it necessary to watch them closely. Trusts M. de Drucourt to judge if he keep the frigate or not. Is expecting M. de Salvert with great impatience and is surprised that he has not yet returned from Louisbourg. There is a rumor in England, since the taking of Beauséjour, that the English have also taken the fort on the river St. John and that on Pointe à la Chevelure. The defeat of General Braddock is generally admitted in England. Louisbourg requires the greatest attention. Folio 13, 2 pages.

Fontainebleau. October 1. The same to the same. The frigate *La Comète* commanded by M. de Ruis, has arrived at Brest. It is true that M. de Salvert's prolonged stay at Louisbourg has greatly assisted the putting this place in a state of defence, but it prevented his leaving any large amount of provisions. The arrival of *L'Outarde* at Louisbourg gave him much satisfaction. Has given orders to despatch from Brest *La Mutine* and *La Fauvette* with supplies. Folio 14, 1 page.

The same to M. Prevost. Has received by *La Comité* his letter of the 31st August. Folio 14½, ¼ page.

The same to MM. Drucourt and Prévost. Sends *Le Rhinocéros* freighted with flour and pork. Folio 14½, 1 page.

The same to M. Drucourt. Was pleased to learn the arrival of *L'Outarde* at Louisbourg. Was not without anxiety, because she had on board two engineers and a great sum of money. According to news from England, Admirals Boscawen and Mostyn were at Halifax with 17 vessels, at the beginning of August. This left on the coast of Ile Royale, only Admiral Holburn with 5 or 6 ships, and Admiral Boscawen was preparing to return to Europe. M. Dubois de Lamotte has returned with all his fleet. Matters are almost stationary except that the English have captured several merchantmen on the coast of France. Folio 14 bis, 1½ pages.

Octob r 1. The same to M. Franquet. Is waiting for the details of the work on the fortifications. The arrival of Srs. de Pontleroy and Paisley, engineers, should facilitate his work. Folio 14 bis, ½ page.

October 29. The same to the same. Will despatch four ships, laden with provisions, from St. Malo, at intervals of 20 to 30 days. If all these vessels arrive safely, there will be plenty in the colony. It is the Sr. De Lalande de Magon who is sending them on the King's account. Folio 17, 1 page.

October 29. The same to M. Prévost. Concerning the review of the two battalions. Folio 17½, 1 page.

November —. The same to MM. de Drucourt and Prévost. Was surprised at not receiving any letters by *L'Aguilon* which arrived at La Rochelle on the 10th of that month. It is true that M. de Bourville, in command of *L'Espérance*, was then on the point of leaving Louisbourg, but they must not neglect to give copies in triplicate of their letters to all the ships sailing. It is the way he does himself when any ship sails. The English capture every French ship they meet and they seem to place no limit on their ambition. Fears that the three vessels sent from Bordeaux have been captured. Folio 18, 1½ pages.

1755. December —. The same to the same. *L'Espérance* was captured and sent to England As they neglected sending their letters by the vessel preceding *L'Espérance*, he is without news of the colony. Folio 18½, ½ page.

January 9. The same to the same. Concerning a plot to smuggle goods. Folio 19, 1½ pages.

February 15. The same to M. de Drucourt. General instructions. Folio 20, 2 pages.

March 17. The same to M. Prévost. Same subject. *La Diane* is bringing 30,000 livres in specie. Gives orders to ship 40,000 livres on *La Fidèle*. The ships on which the troops will sail will carry their pay for 19 months. Other funds. Folio 22½, 1 page.

March 17. The same to M. Franquet. Concerning the works of defence. Folio 23, 1 page.

April 10. Memorandum of the King to serve as orders to Chev. de Drucourt in relation to the land force which the King is sending to l'Ile Royale. Folio 25, 4 pages.

April 10. Order of the King for MM. de Vaudreuil and Dieskau, Drucourt and the commanding officer of the two battalions sent to Ile Royale, to carry out the ordinance of the 25th of March last concerning the service of the land and naval forces in Canada and at Ile Royale. Folio 26 bis, 1 page.

April 10. Order of the King in relation to the furloughs and the pay of the 6 battalions. Folio 27, ½ page.

Is sending him a commission as Commissary for him to act, pending the appointment of another. Instructions in accountantship. M. Dorcil will send him special memoranda concerning the inspection of the troops of the two battalions before their sailing. The Sr. Pourtrait, scrivener, sailing on *Le Bizarre*, will stay at Ile Royale until the following year to assist him. M. de Salvert has orders to leave all the provisions he will not need for his return at Louisbourg. Folio 27 bis, 2 pages.

April 10. Instructions for the Sr. Prévost, naval supply officer at Ile Royale, in relation to the pay of the two battallions of land forces which the King is sending to that colony, and the keeping account of their expenses. Folio 28, 4 pages.

April 10. The same to MM. de Drucourt and Prevost. Two things have decided the King to send the two battallions to Louisbourg ; the defence of that place and the hurrying of the fortification works. Will consult with the officer commanding these two battalions and M. Franquet as to the distribution of the work to be done by them and by the ordinary garrison of the colony. This increase of workingmen must naturally diminish the cost of the works, whether they be let by contract or be done by day labour. Folio 30, 1 page.

September 1. Patent appointing the Sr. de St-Julien commandant of Ile Royale in case of the death or absence of Chev. de Drucourt. Folio 31, 1 page.

1755. September 1. The same to M. de St Julhien. Same subject. Folio 31, 1 page.

ORDERS OF THE KING AND DESPATCHES.

1755.

1755. Versailles. February 5. The President of the Navy Board to M. Rostan. Will advise ship-owners that when their ships sail for Canada they will have to take with them provisions sufficient for the whole trip, because their victualling in Canada is prohibited. Folio 8½, ½ page.

February 5. The same to the former Bishop of Mirapoix. He repeats M. de Rouillé's representations, in relation to the Bishop of Quebec. His sole revenue consists of a pension of 9,000 livres charged against the bursary; a grant of 1,200 to 1,500 livres, which the French clergy give him, and about 1,300 livres annuity left by one of his predecessors on the Hotel de Ville de Paris. He has not even enough to live with proper decorum. The King was concerned in the matter, and until he can make some lasting arrangement, he has been pleased to grant him an extra sum of 6,000 livres of the funds of the Royal Treasury. Hopes he will take the first favourable opportunity of allowing the King to arrange the matter in a proper manner. Folio 9, 1 page.

March 2. Letter of the King to the Admiral. In relation to the whale fishing privilege in the St. Lawrence river, granted to Srs. Darajorry. Folio 15, 1½ pages.

ORDERS OF THE KING AND DESPATCHES.

1756. Versailles. January 17. (Cipher dispatch). The President of the Navy Board to M. de Vaudreuil de Cavagnal. As there is, so far, no declaration of war it is probable that the English will make new efforts this year to have better success than they had last in their designs on Canada. Does not know yet if they are going to send regular troops to their colonies. It appears that they will be satisfied with merely sending moneys to levy troops and for munitions of war. It is claimed also, that they are making preparations at Boston and Halifax, for a campaign against Quebec. Possibly the campaign against Quebec may not be serious, and it may be solely for the purpose of keeping our troops far from the frontier. It may be also that they wish to capture the Baie de Gaspé and thence annoy our ships. If they reach Quebec it will be without their big ships and their landing will be made at the Cap Tourmente. Folio 1, 1½ pages.

January 17. (Cipher message). The same to MM. de Vaudreuil and Bigot. Will reply at length a little later, to all their letters forwarded by the fleet of the Comte Dubois de La Motte and *La Fidèle* and *La Sirène*. Is taking advantage of the sailing of some ships for Louisbourg to inform them of the arrangements made concerning the increase in the troops. Has obtained two battalions, and hopes they will sail from Brest at the end of March or the beginning of April. The present companies will be brought up to 65 men, by recruiting. Provisions. Folio 1½, 1 page.

February 20. The same to M. de Vaudreuil. The various reports concerning the defence of the forts Beauséjour and Gaspéreaux, made to the King, tend to show that it was not what it should have been. The English themselves do not hide the facility with which they captured them. The facts must be investigated and those who deserve it punished, a severe example being indispensable. Not only must an investigation be made, but also the two officers who commanded the forts and the garrisons will be tried by a formal court-martial. Before making any outcry, he will take precautions necessary to discover and establish the facts. Pending that he will keep everything secret. Will ask M. de Drucourt beforehand to send to Quebec the officers required to compose the court. M. de Drucourt has been advised. Will compose the court-martial from the officers of the staff of the colony together with a few from the land forces. Folio 2, 1½ pages.

February 20. The King to M. de Vaudreuil. Same subject. Folio 2½, ½ page.

February 20. The President of the Navy Board to MM. de Vaudreuil and Bigot. Matters with the English continue in the same condition although war

1756. has not been declared. Preparations are being continued on both sides especially for North America. Hopes that the re-inforcements he has prepared will start at the time appointed. Folio 3, ½ page.

February 20. The same to M. de Vaudreuil. Since the receipt of his letter of the 17th January, he has learned that the English will not satisfy themselves by sending money to make new levies of troops but they will send three regiments of regular troops in command of Lord Loudon, who will succeed General Braddock. Thinks that these regiments will number 600 to 700 men each and that they will sail next month. Although the King has great confidence in him and in the officers in Canada, it has nevertheless been deemed necessary to replace MM. de Dieskau and de Rostaing in command of the troops by the Marquis de Montcalm and the Chev. de Lévis, and the Chev. de Bourlamarque is added as third in command. Informs him that M. de Montcalm will have only the same powers as M. de Dieskau, on which the King will express himself very clearly. M. de Montcalm and the two other officers are known to be of such character that they will be glad at the way in which they will be treated by them. Folio 3, 1 page.

February 21. The same to M. Bigot. Has decided to send Sr. de Villiers for service in Canada. Will employ him in the capacity of chief clerk. Independently of his general knowledge obtained at the Colonial office in 10 years service, he has acquired special knowledge of the administration of Canada at the Bureau des Comptes. Folio 3½, 1 page.

March 3. Pardon granted to one Pierre Charuier dit la Victoire, a soldier in the troops in Canada. Folio 4, 1½ page.

March 3. The President of the Navy Board to MM. de Vaudreuil and Bigot. The Sr. de Cologne, has been appointed a cadet à l'aiguillette in the troops in Canada. Folio 4½, ¼ page.

March 14. The same to the same. Has received from M. d'Argenson his orders for the first, and hands him the King's orders for the second. He will not deviate from what he has been told, unless the Governor permits, or, in unexpected and urgent cases, by making an immediate report of the changes required and of the motives which decided him. Moreover, he has been appointed assistant port captain of Quebec. He will endeavour to educate pupils for the navigation of the river. Has appointed his son assistant port warden at Quebec. March 17. The same to the same. Has not deemed it advisable this year to appoint a successor to the Governorship of Montreal, rendered vacant by the death of M. de Longueuil. If M. de Lantagnac, King's lieutenant at Montreal, is too old to allow him to discharge the details of government with due punctually pending the appointment of a new governor, he will intrust the duties of this office to M. They must be tried before a court-martial for what they have done. Nevertheless will delay the carrying out of the sentence until further orders. Folio 16½, ½ page.

March 31. The same to M. Bigot concerning the supplies. It is expedient to stop abuses which have arisen immediately. Is willing to let him make a bargain with the Sr. Cadet, for all supplies, as soon as he is able and has the necessary means to carry out his bargain. The bargain must be made in such a way as the Sr. Cadet cannot abuse it to the detriment of the King and the public. April 12. The same to M. de Vaudreuil. Wishes to explain the reasons which have prevented the King from appointing his brother as Governor of Montreal. The King fully acknowledges the zeal and high sense of honour and honesty of his brother, M. de Rigaud. He knows he has conducted himself with valour during the last war, but are these advantages enough to enable the King to entrust him with the government of Montreal if that position became suddenly vacant? He does not think so. To fitly fulfil the duties of this position, a certain amount of knowledge and ability is required, which nature does not give to everybody, and which the utmost willingness can not procure. The King has thought it better to appoint, as Governor of Montreal, an officer who could succeed him if occasion arose. Knows too well, the importance of the duties of Governor General and all the qualities required, not to feel the necessity for this arrangement, and at the same time, is too good a servant not to concur in it. Will not advise the appointment of Governor of Montreal until he has received his answer. Folio 24, 2 pages.

The President of the Navy Board to MM. de Vaudreuil and Bigot. Although there has been no formal declaration of war with the English, and matters continue about the same, the King has been obliged, for many reasons, to put a stop to his moderation and to take necessary measures to obtain satisfaction from the acts of piracy and violence which the English have been committing for some time, in contempt of all the laws and to the scandal of all the nations. It is in view of this that the King sent a body of troops in command of the Maréchal de Richelieu, to capture Minorque. The ships carrying the troops were convoyed by a

1756. squadron in command of M. de la Galissonnière. Ile de St. Philippe has been captured with the exception of the fortress which defends the port. It is on this account also, that warrants are given to ship-owners, to whom great encouragement has been given, to intercept all English vessels. Quebec not being favourably situated in this regard, they will judge what to do.

May 20. Folio 25, 1½ pages.

Will send him back without delay with their despatches Will give their views of what they think of the qualities of that vessel. Hopes that the fleet from Brest has arrived at Quebec. A good many ships have sailed, loaded with provisions for Quebec, from the ports of Bordeaux and Rochefort. The rest of the shipments is on *L'Outarde* and *L'Anna Sophia.* If all these ships which have sailed or are sailing reach their destination, the colony will be

The English are carrying things so far that the King ordered his ships and frigates to attack and capture all English warships and merchantmen which they meet. Privateering has not yet been authorized; the English employing so far only warships for that purpose. As the English keep their prizes or sell them in order to deposit the products of the sale without confiscating them and as they are keeping the crews prisoners, we shall do the same. Thinks he had better employ the three vessels and the 3 frigates which are at Louisbourg, to capture ships from the English.
