OOR COPY

MYSTERIES OF HEALING.

Conclusion of the Evidence Taken in the Christian Scientist Case.

A Religion which Teaches That Disease and Sin are Hallucinations of the Brain.

A Corrupt Kind of Idealism Portrayed by a Christian Scientist.

The attendance at the police court yesterday was larger, and more ladies were present, than at any time since the examination began. The conclusion of the testimony of Miss Whitlock, the Christian Scientist, was taken on the cross-examination of Mr. VanWart, the result being as follows:—

Mr. VanWart—You say that sickness heals more easily than sin. In every case where the body is healed do you believe that sin is also cured?

Witness—I believe that the soul or mind is improved, and sin to a certain extent is destroyed.

Mr. VanWart—Do you use Mrs. Eddy's book as a guide?

Witness—It has been a great help to me.

Mr. VanWart—Do you in treating disease adopt the treatment laid down in that book?

Witness—I follow the bible.

Mr. VanWart—That is not an answer to my question.

Witness—My treatment is in harmony with the book.

The counsel repeated his question.

Witness—I think so.

Mr. VanWart—In your treatment of patients did you insist upon being alone with them?

Witness—I choose usually to be alone with them.

Mr. VanWart—Is not this work the leading work on the treatment of disease, according to your theory?

Witness—I do not consider it a work on the treatment of disease.

Mr. VanWart—Your theory is to treat disease through the mind?

Witness—We do not acknowledge disease at all. We consider all diseases an illusion. God is mind. All disease is mortal mind and all sin is mortal mind.

Mr. VanWart—What is the origin of disease according to your theory?

Witness—I say it has no origin. It does not exist.

Mr. VanWart—When and how did sin originate?

Witness—Sin does no more exist than disease. It is not a reality.

Mr. VanWart—Do you treat disease through the mind?

Witness—I treat the illusion of disease through the mind.

Mr. VanWart—Do you treat sin in the same way?

Witness—I treat the illusion of sin by mind.

Mr. VanWart—What distinction do you draw between the words "through" and "by" if any. You say *through* mind with regard to disease and *by* mind speaking of sin?

Witness—I use the distinction between by and through because the word "through" might give the idea of one, mind acting on the other.

Mr. VanWart—What do you wish to be understood by the word "by" in your above answer relating to sin.

Witness—"By mind" I mean our knowledge of God's power to destroy the illusion of evil. Other persons may understand the truth without knowledge of Mrs. Eddy's work. I never met any one who so fully understood the truth as those who have read this book.

Mr. VanWart—Have you ever met anyone who understood the truth who had not read this book?

Witness—I never met any person who could demonstrate their understanding of the truth in the manner required by our Saviour of his followers as well as those who have read this book.

Mr. VanWart—Have you ever met anyone who understood the truth that have not read this book? I desire a direct answer.

Witness—No I never have.

Mr. VanWart—Were the course of lectures you attended in harmony with this book?

Witness—Yes.

Mr. VanWart—Is or is not the theory of your treatment of disease explained in this book?

Witness (after much hesitation)—It contains the principle of the treatment of the illusion of disease.

Mr. VanWart—According to your theory, is it necessary for a person to believe in the interpretations of the scripture as contained in this book to treat disease?

Witness—It is not necessary.

Mr. VanWart—Did I understand you to say that you were cured by this theory?

Witness—I was cured of my disease by the understanding of truth without the intervention of any third person.

Mr. VanWart—To what extent must mortal mind be eradicated to subdue sin?

Witness—Every evil thought whether of disease or sin is mortal mind. (Mr. Beckwith objected here to questions having a tendency to show the defendant's construction of bible truths foreign to issue.) Court overruled objection.

Mr. VanWart—Were our first parents created in mortal mind, according to your theory?

Witness—Our first parents were created spiritual, without mortal mind.

Mr. VanWart—According to your theory all disease is an illusion, do you not hold then that grief and weeping is an illusion?

Witness—I hold that pain is an illusion. Mrs. Eddy holds that grief is an illusion. In some cases it might be an illusion. After further thought, witness said that grief as pain was certainly an illusion.

Mr. VanWart.—When Christ wept over Lazarus's grave was that an illusion then according to your theory?

A deep silence pervaded the court room when this question was put and the witness was the cynosure of all eyes. She said nothing, however, and the silence was only interrupted by counsel repeating the question. After several minutes witness said she would answer the question, but the newspapers would have it and she did not care about that. After evading the question for some time longer, she finally answered that she could not give an answer without studying it up.

Witness continued in answer to other questions: I do not know when mortal mind came into the world.

Mr. Beckwith again objected to the bible questions. Mr. VanWart said that they (the scientists) held that all disease was an illusion of the mind as founded on the bible and treated diseases as such and he, therefore, had a perfect right to examine thoroughly into the nature and origin, according to their belief of disease and the treatment of it, just as would be required to be done in the case of a physician charged with malpractice. Court over-ruled objection.

Mr. VanWart—Do you understand that the creation of man, and the formation of man out of the dust of the earth to be two separate and distinct periods?

Witness—I do.

Court adjourned at noon.

The cross-examination of the witness, Miss Whitlock, was continued after dinner.

Mr. VanWart—What time did man come into possession of the mortal mind as you understand it?

Witness—I do not know.

Mr. VanWart—Was man possessed of mortal mind at the creation according to your views?

Witness—I have no idea when the belief of evil came into the world.

Mr. VanWart—What is mortal mind?

Witness—Things that are spiritual are eternal and things that are mortal are an illusion.

Mr. VanWart—What is the primary cause of this illusion?

Witness—Illusion is nothing and the cause is therefore nothing. It is not a reality.

Mr. VanWart—You say that sin is an illusion, as well as disease, pain and grief, and that none of them are real, how are we conscious of them?

Witness—I cannot explain.

Mr. VanWart—If a disorder does not in reality exist, but is only an illusion, are we conscious of its removal?

Witness—Yes.

Mr. VanWart—As an illustration of your theory I come to you to be treated of cancer, which is visible to the natural eye on my face, how according to your theory is the illusion removed? You can consider me as a carnal or spiritual subject, just as you wish.

Witness—If you were a carnal person, I would want you to come to the truth, as I understand it. I would want you to understand that this was not my work, but of God. After remaining silent for some time the witness continued: I would ask you to have faith in God and believe that he is willing and able to heal you. I would be more anxious to have you come to the knowledge of the truth than to cure you of the cancer. I would say to you also there is no sensation in the body. If the body is separate from the mind, the body cannot feel. All sensation is in mind. As a man thinketh in his heart so is he. Sickness is an evil thought. You have been taught to resist sin but to yield to sickness, which makes disease all the more difficult to cure. We have always been taught that sickness is an affliction sent by God. You have the sensation of pain apparently in your body, but really it is in the mind. We believe, I would tell you further, that sickness is an evil thought and the same power that overcomes evil will destroy the belief of pain.

Witness was answering questions very slowly when she was requested to pass on to the second stage of treatment.

At this stage of the evidence the reporter received a note from a clergyman present which read as follows: "It is a corrupt kind of Idealism which is at the bottom of the whole thing."

Witness continued—I would tell you the least you thought of the cancer the better.

Mr. VanWart—Do you think I could wholly cease thinking of it?

Witness—I think your thoughts might be changed. I cannot say he could you wholly cured if you ceased to think of the cancer. When you came to the truth, as I understand it, you would know then that you had no cancer. I hold, of course, to the belief that the cancer did not really exist.

Mr. VanWart—Would the cancer also disappear to the natural eye of the patient and to others?

Witness—Yes.

Mr. VanWart—We understand you to say then that a person may think himself as having a disorder, which disorder can be seen by the natural eye, but that he can, by disbelieving that he has such a disorder, cause it to become invisible to the naked eye?

Witness—I do.

Mr. VanWart—Walking down the street I slip down and fracture my arm, I go to you to be treated. Would you think the break, the pain, the swelling if any all imaginary?

Witness—The break is imaginary or rather the effect of the belief of the mind. If you understood the truth as I can understand it, you would not have the pain and swelling, but I will not say whether you would have the break.

Mr. VanWart—Believing now that doctors are of no use, how would you treat a broken bone?

Witness—If you would believe that it existed in the mind and that God made you perfect there would be no break. I have had no experience yet in such cases. I have given it no thought.

Mr. VanWart—According to your theory, believing the truth as you understand it, may we not live forever?

Witness—I do not think they will live forever, surrounded by sin and disease. Mrs. Eddy teaches a person may never die.

Mr. VanWart—Do you hold that death is a reality?

Witness—Remove the belief and a person would never die. Death is only a belief.

Mr. VanWart—Do you not instruct your patients, as a part of your treatment, to take their thoughts off their ailments?

Witness—I often instruct my patients not to think of their ailments but to banish them from their minds. In treating a person for lameness I do not always instruct them to use the limbs affected as a help towards the cure.

Mr. VanWart.—According to your theory is every disease capable of being cured?

Witness—I do not know how much power may be given me; I am not perfect.

Witness here broke down, and after sobbing a moment or two wiped away her tears and was ready for the fray again, although her counsel had in the meantime asked for an adjournment.

Witness continued—I would not care if a person had faith in me or not if they had faith in God. If a person has faith in God and understands the truth as explained in Mrs. Eddy's work they can cure themselves. I believe that persons have been cured by faith in God who have never seen Mrs. Eddy's work. I make no special charge to my patients for teaching or effecting cures. I take money so much a visit, sometimes more and sometimes less. When I came here I expected to receive money as a thank-offering to God. My work is to teach the truth and instruct any person whether they have ailments or not. I have no idea of the amount of the money I have received since coming here. A good many persons have come to me to be treated since I came here, over fifty I think. The money I received was paid by persons who came to be treated for ailments.

According to your theory, is hunger or thirst imaginary or real?

I do not know.

Do you ignore altogether the use of internal or external applications in treating disease?

Witness—We do not prescribe medicine or drugs of any nature.

Mr. VanWart—Do you entirely ignore internal and external appliances according to your system?

Witness—As far as I know I think we do.

Mr. VanWart having finished his cross-examination of witness, court adjourned until this morning at eleven.

To-Day's Proceedings.

At the court this morning it was announced at the opening that all the evidence in the case had been taken. Mr. Beckwith asked to put in evidence the letter written by the Registrar of the Council of Physicians and Surgeons to Miss Whitlock. This was objected to and allowed. Mr. VanWart then offered in evidence list of doctors registered in the province as published in the Royal Gazette, April 28th, 1886. Objected to and allowed.

Mr. Beckwith in closing for the defence occupied the attention of the court until the adjournment at one o'clock, speaking over an hour and a half. He supported the grounds of objection as previously advanced by him for the dismissal of the case, as already published, and then proceeded to discuss the question whether or not defendant had practised physic under the interpretation of the medical act. He claimed that the act was passed when the alleged offence of christian science was not known therefore the act could not extend to it. The broad and popular meaning of the word must be taken. He held that Miss Whitlock's manner of treatment did not come within the meaning of the word physics and referred to various dictionaries in supporting the same. Continuing he claimed she practised theology not physic, and that physic as used in the act is meant only in a medical sense, not to hamper theology in any way. Mr. Beckwith contended that if in the United States there was allowed such a prosecution as those moving in this matter seek, there would arise a cry which would end in rebellion. He charged the Fredericton doctors and they alone for the prosecution. If they were not alone responsible, why were not actions taken against Christian Scientists practising in other parts of the province. In conclusion he referred to the presence of the ladies during the examination and stated that the court had treated them courteously, but he could not say the same for the counsel of prosecution who had reprimanded a lady for interfering with witness.

Mr. VanWart is addressing the court this afternoon.

A WILD SCENE AT GIBSON.

A Drunken Fight Which Ended in a Bullet Wound—A Hotelkeeper's Life Threatened.

Gibson last evening was the scene of one of the most serious altercations that have taken place about here for a long time past. A gang of about a dozen young desperadoes have been on the beat, drinking and carousing for several days past, and they have been spoiling to get into trouble.

On Sunday afternoon, as mentioned elsewhere, they succeeded in creating a big rumpus in St. Mary's village. Last night about dusk, two young men, who were on their way to the drives, named John Lamb and Ed. Ferrin, belonging to Salmon river, Queens Co., had just come out of their boarding house, White's hotel, and started to come over to the city when they were attacked by the gang. They asked them for some money and threatened vengeance if refused. The strangers did refuse the money whereupon the roughs viciously assaulted them. The drivemen struggled as well as they could in the fray, but the gang were too many for them and soon overpowered them. Another boarder at White's named Ross, also a stranger here, hearing of the rumpus, went out, and he was also attacked and beaten back, but not until he had kept his opponents at bay for some time and dealt one after another some deadly blows. During the fray with Ross a revolver shot was heard and a lad named Peterson was shot in the legs. It is not known by whom the revolver shot was fired, but it had the means of assuaging the contest to a considerable extent. The men made some loud threats swearing that they would have White's life, which was heard by a number of bystanders. They also threatened to break every window in his hotel before two or three nights. Justice will no doubt be dealt out to these fellows as they deserve. Lamb and Ross are badly bruised about the head and body. It is said also that several members of the gang got some ugly wounds.

Millard Peterson, who received the shot wound, is quite badly wounded. The bullet lodged in the knee and it is stated that the knee bone is fractured. Another member of the gang named Boswell was badly cut about the face.

A Gagetown Sensation.

The messenger sent to carry the parliamentary despatch to Dunn on Friday arrived there in the early part of the evening and had to remain for an hour or so waiting for the notorious schoolmaster to return from his day's gunning in the woods. In the meantime, it had been noised about the village that Dunn was to be placed under arrest, the messenger having been mistakened for a constable, and the quiet village was thrown into quite a state of excitement which was not allayed until the facts became known. The messenger received a sealed reply from Dunn which he was given orders to convey to the telegraph office. It is the general belief at Gagetown that Dunn has destroyed the ballot papers as charged by Mr. Weldon in Parliament.

Floods in Montreal.

The low lying section of Montreal is inundated by the rise of water in the river. Several factories have had to suspend operations. The yards in some places are covered with water, and one enterprising householder has had a skiff moored to his back gallery in which he navigates the yard. Some of the citizens are loud in their complaints against the corporation who, they say, have not taken necessary precaution against the flood.

HANGS HIMSELF WITH A BED CORD.

Dennis Crowley Attempts Suicide at the Mills this Morning.

Dennis Crowley, a resident of the mills, attempted suicide this morning by hanging. He has been afflicted with mental troubles for some time past which have grown upon him of late. He was in town early this morning and went home possessed with the idea that the clerks of a certain store were very hostile to him, and that they were calling him all kinds of objectionable names. He imagined strange noises even after he got home, and when his family attempted to dissuade him of these strange notions, he grew furious. Taking a bed cord out of the house he went into the wood-house and tied one end of the cord to a beam and made a noose into the other, making a well contrived hangman's cord. The members of the household hearing groans proceeding from the wood-house went out and found his body dangling in the air. Before he could be cut down, life was almost extinct. Dr. Currie was summoned and after attending the injured man placed him under the guard of two men. The unfortunate man will be removed to the asylum to-morrow.

Children's Service.

A large congregation was present at the children's musical service in the cathedral, on Sunday afternoon. They sang some beautiful Easter carols opening with "Let the Merry Church Bells Ring." The entire service, the general confession, absolution, creed, etc., were intoned by the Rev. Mr. Alexander and the children. The lessons were read by Rector Roberts, and His Lordship the Metropolitan delivered an interesting address to the children. The two carols "Christ is Risen! Alleluia," and "Come ye Faithful," were very beautifully rendered. The interesting service occupied about forty minutes closing with the hymn "Above the Clear Blue sky." The children were trained by Mrs. Black, by whom they were led in their singing.

The River and the Ice.

The river ice is yet firm and shows no signs of breaking up. The water in the river has not risen to any considerable extent since the thaws began. The ice opposite the city and for several miles up is probably strongr than along any other part of the river. Up river the ice is said to be very weak, owing to the deep snow. It is more than likely if the chilly weather of the last week continues that dynamite will be used to break the ice in the vicinity of the bridge here. A heavy freshet has been predicted all along owing to the great depth of snow, but now that the first of May is so near and so little of it has disappeared, there seems to be nothing to prevent the floods looked for.

Notes from Bathurst.

BATHURST, April 16.—A social dance was given in the Masonic Hall Friday evening, April 15th. About 30 couples were present and dancing was kept up till 4 o'clock.

Indian Island in Bathurst Harbor is generally a lively place, from 6 to 8 on pleasant mornings. Parties from town and village go there with sleds and toboggans. This morning the coasters "posed" for a short time, while a photograph of the scene was taken.

Dr. G. M. Duncan and Mrs. Duncan left Friday night via Halifax, for a three months visit in Scotland.

Protests and Petitions.

On Monday morning the petition against Mr. Temple's election and return was filed. Mr. J. W. M. Ruel is the petitioner.

Protests were served on Monday on Dr. Montague, Haldimand; Sir Adolphus Caron of Quebec county; and Col. Tisdale, South Norfolk. Both tories and liberal candidates claim the seats.

In Short Metre.

Sheriff Sterling and Messrs. Everett and Weddall, school trustees, paid an official visit to York street school this morning.

Creamers and strainers for sale at reduced prices at L. P. LaForest's, Phœnix Square.

See the card of Dr. J. A. McAllister, dentist, in another column.

Lace curtains laundried equal to new, 60 to 75 cents per pair. Creamed, $1.00 per pair, at Ungar's steam laundry. W. S. Carvell, agent.

During the progress of the trial yesterday an alderman took a look into the dingy court room filled with ladies, and it is said made a vow there and then that he would not let the matter rest until some improvements were made in the police headquarters.

Personal.

Hon Mr. Pugsley, speaker of the assembly, is in the city.

Rev. Dr. McLeod lectuers on temperance in Woodstock to-night under the auspices of the W. C. T. U. of that place.

Rev. G. H. Sterling, who has taken leave of his Maugerville parishioners, left here on Saturday, for St. Louis, Mo. Mrs. Sterling remains at present with friends in this city

Supreme Court.

The court did not sit yesterday morning. In the afternoon the case of Moffat vs. Hodgson, et al—equity appeal—was taken up. Mr. Pugsley and Mr. Rand supported the appeal: Mr. Forbes and Mr. Palmer contra. The case is still before the court.

Dramatic Entertainment.

The dramatic club of St. Dunstan's T. A. society will give a dramatic entertainment in Lee's opera house the early part of next week. The Irish melo-drama entitled "More Sinned Against than Sinning" will be produced. Further particulars in another issue.

Horses Drowned.

A horse broke through the ice at Gagetown wharf on Saturday last and was drowned, making the third horse drowned at Gagetown within a week. The ice is very rotten below the Oromocto and is breaking up in places.

A perfectly sound body and a mind unimpaired are possible only with pure blood. Leading medical authorities indorse Ayer's Sarsaparilla as the best blood purifying medicine in existence. It vastly increases the working and productive powers of both hand and brain.

What True Merit Will Do.

The unprecedented sale of *Bouvnee's German Syrup* within a few years, has astonished the world. It is without doubt the safest and best remedy ever discovered for the speedy and effectual cure of Coughs, Colds and the severest Lung troubles. It acts on an entirely different principle from the usual prescriptions given by Physicians, as it does not dry up a Cough and leave the disease still in the system, but on the contrary removes the *cause* of the trouble, heals the parts affected and leaves them in a purely healthy condition. A bottle kept in the house for use when the diseases make their appearance, will save doctor's bills and a long spell of serious illness. A trial will convince you of these facts. It is positively sold by all druggists and general dealers in the land. Price, 75 cts., large bottles.

THE UPPER PROVINCES.

A Senator Threatens Resignation--Bolters in Session.

Queen's County Case Likely to be Referred to Committee of Privileges and Elections.

Cost of Dominion Franchise Act up to April 11th.

Special to Gleaner.

OTTAWA, April 19.—Delegates to the dominion alliance which opens its session here on Wednesday, are beginning to arrive.

Senator Haythorne, of Prince Edward Island, is contemplating resigning his Senatorship, but it is by no means certain whether he will do so at present. His friends are naturally averse to such a step, so long as he continues to be qualified.

A number of conservative bolters of Quebec, including Bergeron, held a caucus yesterday and determined to send their names to Sir John Macdonald to be placed on committee. Amyot refused, and several others declined to attend the bolters caucus, and will act with the liberals. Six or seven others will form a strictly independent party, led by Gigault, to whom adhere Dupont, Des Jardins, Coursol, and several others.

Sir Leonard Tilley will arrive here shortly on a visit.

Advices to Speaker Ouimet state that a telegram to produce papers was served on returning officer Dunn, of Queens County at 7 o'clock on Saturday night. It is not expected the papers will reach here before the end of next week.

The latest report is that the government will refer the Queen's county matter to the committee of privileges and elections.

Election protests were served on Labelle, of Richelieu, and Ivers, of Richmond, both tories, and upon Beausoliel, of Berthier, liberal.

Up to April 11th the Dominion has spent over $352,000 on the Dominion Franchise Act, and this only included part of the salaries.

In the Quebec legislature last night there was quite a scene during the home rule debate. Owens, tory member for Argenteuil, attacked the proposed resolution and this led to hoots and yells from the galleries which were crowded. The spectators indulged in cheers and counter cheers, and the Speaker was called upon to clear the galleries, but this extreme step was not taken. The motion in favor of home rule was carried.

The people are asking whose million dollars it is that Sir Donald Smith and Sir George Stephen, the Canadian Pacific Directors, are going to give the people of Montreal to found a hospital as a jubilee commemoration.

A C. P. R. Offer.

MONTREAL, April 18.—At a meeting of the city council to-day a letter was read from Sir George Stephen and Sir Donald Smith, M. P., offering to denote one million dollars to establish a jubilee hospital for the sick and suffering poor, to be called the "Royal Victoria Hospital." They only ask the city to grant a site on the mountain side, known as the Taylor property.

Milling Notes.

Some decided improvements have been made in the machinery at Morrison's mills which will greatly facilitate and extend the operations at the mills. Sufficient contracts have been made for sawed lumber to keep the mill running for twelve months. The mill will resume operations as soon as the ice goes out.

* * * * Rupture radically cured, also pile tumors and fistulæ. Pamphlet of particulars 10 cents in stamps. World's Dispensary Medical Association, Buffalo, N. Y.

Persons who have been troubled all their lives with nervous Headache, Neuralgia and Sciatica have found relief from Tapley's Remedy. It acts directly upon the nervous System. For sale by all druggists.

LOST!

AT OR NEAR THE CHURCH HALL, A GOLD RING, on which were the letters B. F. S. The finder will be rewarded by leaving it at E. Clark's boot and shoe store.
April 19

NOTICE.

THE SUBSCRIBERS having closed up their business in Fredericton, it becomes necessary to collect all outstanding accounts at once. All accounts not paid on or before the 10th May next will be placed in an attorney's hands for collection
FRODERICK BROS.
Fredericton, 19th April, 1887.

Still They Come!
—TO—
W. R. Logan's
—FOR—
GROCERIES & PROVISIONS,
And no wonder. He keeps the very best

MOLASSES, TOBACCO,
SOAPS, KEROSENE OIL,
FLOUR, HAMS & BACON,
And everything found in a first-class family grocery.
I RECEIVED
BANANAS, COCOANUTS,
HADDIES, ROLL BACON,
NEW MAPLE SUGAR,
NEW MAPLE SYRUP,
NEW MAPLE CANDY.
Good TEA at 24 cts. per lb. Try it!
Will sell you TIMOTHY and CLOVER SEED as low as any in the trade.
W. R. Logan.
April 19 QUEEN STREET.

JOHNSTON & CO.,

On the first of May, expect to be in occupancy of the Centre Store of Mr. Inches' building, opposite the City Hall. Mr. Inches is going to extend the length of the store thirty feet, so that the lower flat will be one hundred feet long—quite a large room which we intend to make attractive to all good farmers.

On the second flat, in a room 40x50, we intend keeping a good stock of Carriages, made by the Gananoque Carriage Co., whose factory is the largest and best appointed in the Dominion of Canada.

You will be able to see there Buggies, with side springs, and Buggies with end springs Then there will be some with Timken springs, and some with the horse shoe cross spring, making the very stylish American Brewster, with more comfort in riding than the old Brewster gear gave.

Beside all these, which will be made up with piano-box and corning bodies and can be had with or without tops, we will have some of the nicest Phaetons, with two, or three springs, with tops, all leather, or part leather and part rubber. We can give them to you with, or without mud fenders and lamps, just as you think best.

Sewing Machine Men will see in the No. 7 Run-about wagon something just right for their work, and farmers who want to come to market often, in comfort, and carry something in to sell every trip, will be fixed up just right with the half-platform spring wagon, which is built to carry 1,200 pounds.

We may not have the New Lawrence Surrey, with two seats, on hand early in May, but when they do come down you will find in our wareroom the very latest and the very nicest two seated vehicle to be bought for money. We can show you a picture of it at any time and guarantee that the Surrey will please you afterwards.

For Livery and Family Use the No. 20 Jump Seat is a great institution. When only two people wish to ride only one seat is visible. The second seat is tucked away underneath clear out of sight; but when four want to ride the second seat hops up into place and stands as stiffly as the other one, which has moved back at the same time to make room for all. Just call in after the first of May and see how it works.

All of these Carriages are well made, too, out of the very best materials, and the manufacturers guarantee them for one year. You can learn all about it by coming to see us.

Do not imagine from all this that we have given up the Farm Machinery business, for we have not any such idea in mind. Quite the contrary, we intend to push it, if possible, harder than ever. Contracts have been renewed with all the firms we have had goods from since 1879, and with many new ones.

Come and renew acquaintance with us in our new home after May first.

JOHNSTON & CO.
Fredericton, April 19, 1887.

NOTICE TO THE TRADE

THE TRUSTEES OF THE ESTATE OF
WHITTIER & HOOPER
INVITE TENDERS FOR THE WHOLE OR ANY PORTION OF THE STOCK NOW IN STORE, CONSISTING OF

L. P. LaFOREST,
Tinsmith, Plumber and Gasfitter,
Begs to announce that he has purchased his father's stock in trade, and will continue the business in all its various branches at the old stand.
PHŒNIX SQUARE, NORTH SIDE,
He will give particular attention to Erecting Furnaces and to Tin Roofing; and is well-prepared to meet the demands of the wholesale tin trade.
He will keep constantly on hand a superior class of TINWARE for the retail trade, which will be found to be cheaper and better than can be bought anywhere else in the city.
He solicits a fair share of the public patronage.
Remember the place:
PHŒNIX SQUARE, NORTH SIDE.
Fredericton, April 12, 1887.—3m t w

NOTICE.
OWING to severe storms MR. THURSTON was unable to fill SINGING CLASS ENGAGEMENTS during the past two weeks. Meetings for the purpose of forming Singing Classes will be held in the following places:—In Burt's Hall, Keswick, on Monday Evening, April 18th, in Douglas Hall, on Tuesday, April 19; in Jagrey's Hall, Gibson, on Wednesday, April 20th. Each meeting will be opened at the hour of 8 o'clock p. m.
Organs retuned, cleaned, or repaired at the homes of the people. All work warranted. Orders left at Thompson & Co.'s rooms promptly attended to. City reference, Messrs. Lemont & Sons.
To farmers wives and others: Mr. Thurston has a very large and well-selected stock of stamped matt patterns on the road which he will sell very cheap. The stamping and coloring can all be done by hand, and there is nothing in the coloring to destroy the canvas which is used. Mr. Thurston may be seen in a few days at Thompson & Co.'s Music Rooms, Queen Street, Fredericton.
