Good Teachers--Good Music

There's no question about it—your child's musical education, an all important part of a worth-while future, should be placed in the hands of a competent teacher.

That your children will have the advantage that an early start assures, is, of course, a foregone conclusion with you. But why not start them this fall?

And what instrument have you decided on for the new pupils to master? This is, of course, a very important consideration.

But most important of all is the selection of a teacher. The best available have their fall announcements on this page to-day. Be sure to read

MERCHANDISE

Radio Equipment 62—a

THE HANDCRANK AND

THE SELF-STARTER—

THE old radio "set" that cluttered up the house with wires, batteries and other paraphernalia is like the crank on the "family flivver"—obsolete—and like the self-starter, the completely equipped cabinet is "the thing."

WE have on display radio outfits that are far from being complicated, and in fact many children in London's homes are "tuning in" on some of the largest broadcasting stations without any effort whatever.

PEOPLE who hitherto have been "radio-shy" will buy when they see the beauty and compactness of our "sets."

LET us give you a free trial in your own home without any cost to you. We'll erect a set that without a doubt will be a pleasure to you always—and remember, the upkeep is practically nothing. You'll hear most of America's finest concerts, programs, etc.

THERE'S an "outfit" here for every purse, from the small size crystal set to the more elaborate tube sets that will "tune in" all stations with exceptional ease.

BUY from radio men who know radio and reap the benefit of the "real service" whenever necessary.

WE also carry a complete line of standard parts and accessories for all makes of receiving sets. Everything is reasonably priced. Do you need anything to-day?
