EDUCATION.

At this the beginning of the scholas B tic year, it is useful to reflect upon the character and importance of any educational system. Few systems have had 1 such a run and few have so little to commend themselves as the public school or godless one. Its founders and advocates claimed for it that it

was the key which alone would open "the temple of peace and the halls of

learning. Religion was not on the programme of studies. It belonged not to the school but to the Church. One day a week was enough to devote to God's knowledge and worship. And as for morality and ordinary virtue there need be no anxiety : home training would supplement what Sundayschool might omit. The details of the plan were expected to be filled in by an occasional shaking and that adjustment to circumstances which marks man's ability and good will. Plan this system was not, for it aimed at I nothing. Its methods were erroneous and its principles contradictory and antagonistic to man's highest interests Modern education was content to give a little intellectual training. And even this it does not impart with vigor and

though it is significant.

A debate took place in the Senate, on the 17th of July, on a bill introduced for the purpose of regulating the sale of proprietary or patent medicines. The discussion on this measure revealed a condition of affairs in some parts of the Dominion which calls for swift and drastic action on the part of those who have at heart the welfare of the country. Speaking of the drug habit, the venerable and respected Secretary of State, Hon. R. W. Scott, stated that a majority of medical men had admitted to him that the evil effects of drugs were unlimited, but that the people demanded inspectors and the granting of licenses them, and that, if simple prescriptions were left in the hands of the county or advice were offered, they were not court judges we think it would prove accepted. The people, the doctors said, a great improvement on the present were not educated up to the highest system.

A BRIGHTER FUTURE FOR IRE LAND.

It seems there are Orangemen and Orangemen. In Ireland they have two kinds, the Old Line Orangemen, and what is called the Independent Orangemen. The latter seems to be a wholly sane class. The former, together with their prototype in Canada, consisting of persons of all nationalities, including Mohawk Indians, are, taken in the bulk, far from being rational. They are as a class almost en-

ANIMALS IN THE BIBLE.

We trust the Canadian brethren will give this statement their careful conderation.

A DESPATCH THAT is likely to procend with tremendous force if he violates note much comment appeared in the daily press a few days ago to the effect that Cardinal Vannutelli, who is expected to represent the Pone at the Eucharistic Congress in London, will deliver an address in Latin which will be a strong appeal to England to return to the unity of the Catholic faith. "He will recall," it is further stated, " the bonds uniting England to Rome from the time of St. Gregory, who called England terra angelorum (land of angels) rather than terra anglorum (land of Anglicans) to the time of Cardinal Vaughan, the founder of the new cathedral at Westminster, where the congress is to be held Although the King will not be mentioned, the Pope will send him his re spectful homage as a wise ruler. Cardinal Vannutelli says that he expects the congress to be a great success and

an imposing demonstration of the Cath olic faith." It is a little too much to expect that the eminent Cardinal has opened his mind to the press interviewer. Cardinals and other church dignitaries are not in the habit of doing this. There might be a grain of truth in the despatch, or there might not be any foundation for it whatever. The associated press representative has no doubt built up his despatch upon what he conceived to be a probability or a possibility. However, the return of England to the true faith is a consumnation devoutly to be wished for. The glory of the British Empire, the freeom and the happiness of its people, would not be retarded, but rather enhanced, were Englishmen to return to

The Independent Orangemen are active members of what is known as the Irish Imperial Home Rule Association. The motto of this body is "Federation, not Separation." A short time since it issued a statement setting forth its aims, the chief of which is the establishment of a Parliament in Ireland, and of an executive responsible to it for the internal administrative government of that country, definitely subject and contributory to the Imperial Parliament in matters of Imperial importance. "Extravagant and unsympathetic Irish Government in the past has," the statement says, " identified Imperialism in the minds of Irishmen with Irish national decay. The reaction

The Rev. John T. Without any weapon except his fists, the brave priest set upon the thugs, and so effective were his blows, the two men were soon put to flight. Then Father Tracy assisted the stranger to his home. Father Tracy has a record as a life-saver. In 1904, when the grand stand collapsed at the National League Park in Phila-delphia, he saved the lives of four persons by tearing heavy beams and timbers away, and two years later, at the risk of his own life, he rescued a little girl from a tangle of live wires in St. Louis, being the Biblical parlance, includes all quad-rupeds living on the earth, with the exseverely shocked and burned.
