weather in the early part of the season, and the subsequent drouth, but it will probably be much heavier than could have been reasonably anticipated. This is very gratifying, for there is every reason for supposing that all descriptions of provisions will be scarce and high during the coming year.—*Eastern Chronicle.*

PRINCE ALFRED.—It has been officially announced in the *Royal Gazette* that it is the intention of His Royal Highness Prince Alfred to visit Charlottetown, during the present month, and that it is the wish of His Royal Highness that no public demonstration should take place on the occasion of his visit,—it being of a strictly private nature.—*Jour.*

The *Eastern Chronicle* says the report of the discovery of gold at Mount Thom, Pictou County, is not true. A man in that neighborhood has exhibited specimens from Tangier, which he is trying to make the people believe he procured at Mount Thom.

The Steamer Westmorland is again conveying the Island mails, the difficulties between her owner and the Government having been satisfactorily arranged.—*Eastern Chronicle.*

The *Express* says that all the money necessary for the purchase of the Water Works has been loaned to the city.

New Brunswick

NEW BRUNSWICK UNIVERSITY.—Although no official announcement has yet been made, we believe that the appointments at the University, which we mentioned in our last on the authority of the Fredericton *Reporter*, are substantially correct. William Brydone Jack, Esq., D. C. L. Professor of Mathematics and Natural Philosophy, has been appointed President of the University, retaining also his Professorship. G. Montgomery Campbell, Esq., has been appointed Professor of Classical Literature, Moral Philosophy, and Metaphysics. Mr. Bailley, of Harvard University, Mass., has received the appointment of Professor of Chemistry and Natural History, vacant by the death of the lamented Dr. Robb. There can be little doubt that these are most judicious appointments, made wholly irrespective of parties or politics, and looking solely to the abilities of the parties appointed, and their fitness for the respective situations.—*Colonial Empire.*

THE FISHERY COMMISSIONERS are again on the high seas. The United States Government have apponted Elijah H. Hamlin of Bangor as American Commissioner. The British Commissioner (Mr. Perley) is at St. Stephens, where both gentlemen had a conference the other day. The former gentleman, it is said, will proceed to the mouth of the St. Lawrence," while Mr. Perley goes to Newfoundland. We hope the Southern Privateers will not get hold of them.—*St. John News.*

RICHIBUCTO.—When in this town a few days ago, we were forcibly struck with the great change that has taken place in its appearance. A number of vessels, a larger number than we have witnessed there for years, were loading at the wharves—This ass is unusual, for owing to the shallowness of the water over the bar, vessels drawing over twelve feet of water were compelled to load outside; and as it was an unsheltered roadstead this was attended with much danger, trouble and expense, and many vessels consequently suffered shipwreck. While a good deal of negociation was going on with the Government, and surveys being made with a view to deepen the passage over the Bar, Nature stepped in, and very unceremoniously, and without any expense, accomplished the desired work. Vessels drawing 16 feet, we believe, can now cross the bar at high water.—*Gleaner.*

P. E Island.

An unusual number of accidents, resulting fatally, have recently occurred in this colony. We subjoin a few, the particulars of which have been communicated. On the 19th inst., Mr. J. Cameron, Miller, Montague, did not return home from the Mill at the usual hour in the evening. Some neighbors having heard of his absence, became suspicious, and, late at night, called at Mr. Cameron's house, procured a light, and went and examined the Mill, when, to their sorrow, they soon discovered the dead body, torn and bruised, having evidently passed over the water-wheel, and lying just where it had been thrown.

On Saturday last, a young man, nephew of Mr. D. Stewart, went out in company with a friend, for recreation, early in the morning, to the suburbs of the Town. In the course of their walk, they discovered one of our Volunteers at Ball-practice; leaving his piece, while he adjusted the target, the young men took advantage of his absence, and, as the rifle had been discharged, they loaded with blank cartridge. Young Stewart stood quite close to his companion, when the latter, raising the piece, discharged it.—The wadding entering the hip, severed an artery, and despite every remedy, death ensued, from loss of blood, a short time after. An inquest was subsequently held, and a verdict returned of "accidental death."

Last Wednesday week, a child of Mr. Archibald White, aged 5 years, was left at home, with the other little ones, while the mother ran out for a few minutes. During her absence, a spark of fire caught in her light clothing, and before assistance could be afforded, fatal injury was inflicted. The little sufferer lingered until the following Thursday, when she was happily released.

On Tuesday, of same week, a little child of Mr. Treanor, Pownal Street, stumbled backward into a bucket of boiling soap-suds, placed on the floor for a moment before using it. The injury was fatal, as, a few days after, the child died.

Several other painful cases, the particulars of which we have not learned, have lately occurred in this community,—which, with the above, justify the remark, that God's judgments are abroad. May the living learn wisdom from them.—*Protestant.*

The Surveying Steamer *M. Stevenson* arrived at 2 a. m., on Friday 28th ult., from Halifax. Captain Orlebar has been engaged sounding off the East Coast of Nova Scotia. Whilst at Halifax, Henry Green, son of Mr. Green of Stanhope, died, from inflammation of the bowels.—His illness was short, and his death most unexpected.—*Ib.*

Canada.

DESTRUCTIVE FIRE IN ST. LEWIS SUBURBS, QUEBEC.—More than fifty tenements were yesterday destroyed by fire, in this good old city of Quebec, which boasts of having the best supply of water of any place on the continent. Over two hundred people were rendered houseless, and $25,000 worth of property was destroyed.

The fire broke out at about two o'clock, the ringing of the convent bell giving the first alarm; it was then confined to the dwelling house of Constable Plante, in Scott Street, whose wife said she was in the garden at the time, and that there had been no fire in the house since noon. A few pailsful of water would have extinguished it; but unfortunately there are no water-pipes in Scott Street, and owing to the regulations of the Water Works authorities, there was none at the time in the neighbourhood. The wind being pretty high, and the houses all of wood, the fire soon spread, and in half an hour several tenements were in flames. The water was then turned on, but that part of the city being very high, and the supplementary reservoir not being built, it issued from the hose in a miserable stream, deficient both in force and quantity, so that although the Police worked hard, a number of labouring men from the ship-yards, as well as from the neighbourhood, seconded their efforts, and a detachment of the Royal Artillery rendered efficient help, they were unable to stay the flames until, borne upwards by the wind, they had completely destroyed all the houses on both sides of Scott Street from that where it broke out, up to that of Mr. Walcott, which was injured but not burnt down. A complete forest of chimneys is all that now marks the spot where some two hundred people resided yesterday morning.—*Chronicle, June 28.*

THE GRAND TRUNK REPORT.—At length this document, which has been so loudly called for by the provincial press, has made its appearance. The commissioners, after going over the whole history of the company, stating the cost of the entire undertaking, its revenue, expenditure and losses, come to the conclusion that it is impossible that any increase of traffic, or any improvement of management, can make head against such a load of debt. It is melancholy, they say, to think of the disappointed expectations, of the heavy losses of those who have made repeated advances to sustain the road, and of the individual distress which must be the result; but it is impossible to be blind to the fact that nothing but the sacrifice of a large part of the capital invested can justify a hope of saving anything of the remainder. In the present position of the company, they are of opinion that no external aid can avail anything; and that, even if it were possible to obtain means to effect a temporary relief, it would only the more speedily, and the more certainly, bring on the final crisis. The first and the greatest consideration recommended by the report is, that by the united action of the various creditors and the legislature, such a compromise be made amongst all parties interested as will make solvency possible. One fact alone, as stated in the report, is sufficient to show the utter unprofitableness of the concern. It is this—that during the eight years the road has been open, *the annual charge upon the revenue has been double the amount of the aggregate net earnings!—Quebec Gazette, June 28.*

A MIRACULOUS ESCAPE.—On Wednesday afternoon, just after the express train on the Detroit and Port Huron branch of the Grand Trunk Railway had passed Utica, the engineer discovered in advance of the train upon the track a collection of children. He whistled down brakes, and all the children but a little boy three years old left the track. Notwithstanding the utmost exertions of the engineer to stop the train, it continued on its course, and as it came within a few yards of the boy, he lay down upon the track and was struck by the pilot of the engine and thrown some distance from the track. The train was soon brought to a stand, and the child picked up in an insensible condition. He was taken to the next station, and a physician called to examine him, when it was found that, save a few slight bruises, not the least injury had been inflicted.

CANADIAN CENSUS.—The Bureau of Statistics has furnished an amended return of the population of the Canadas.

Population of Upper Canada,	1,394,013
Population of Lower Canada,	1,062,519
Surplus of Upper Canada over Lower Canada,	301,494
Total population of Canada,	2,486,532

The population of each of the principal cities of Western Canada, according to the last Census and that of 1850, is also given as follows:

	1854	1861
Hamilton,	14,112	19,072
Kingston,	11,585	13,873
London,	7,035	11,550
Ottawa,	7,760	14,669
Toronto,	30,775	45,156

In Lower Canada the population in the three chief cities is thus:

	1861
Montreal,	91,006
Quebec,	61,117
Three Rivers,	6,058

SCARCITY OF RIVER PILOTS.—The Montreal Witness says:—Among the many other inconveniencies incident to the immense shipping business of this season, is the scarcity of Pilots on the St. Lawrence. The great number of seagoing vessels now passing up and down the river, has kept up a constant demand upon the pilot-service. Many more could be fully employed than are at present licensed.

Mr. Russell, the *Times* special correspondent, passed through Hamilton on the 19th ult., travelling east toward Toronto and Montreal.

American States.

From the Halifax Reporter.

President Lincoln goes into a full history o the capture of Fort Sumpter, and other acts of the Secessionists since his inaugural in March last.

He argues at length against the right of secession, and condemns in strong language the position of armed neutrality assumed by some of the border States, which he considers inimical to the best interests of the Union.

He thinks the suppression of the Habeas Corpus Act necessary under the circumstances, and that the power to suspend it in certain cases lies with the Executive.

He says that the Sovereign rights of the United States are now everywhere practically respected by foreign powers.

He asks Congress for four hundred thousand men, and four hundred millions of dollars, to meet the emergencies of the country, and to make the contest short and decisive.

He makes no allusion to a peaceful settlement of the existing troubles.

BOSTON, July 2.

The special correspondent at Washington of numerous papers, claim that a forward movement on a large scale is contemplated for the 4th of July. Army waggons are much wanted, numbers of those furnished by the States having been condemned.

Capt. Hollins, late of the "Susquehanna," went on board the steamer "St. Nicholas," at Baltimore, yesterday, in the disguise of a woman. After the steamer left the wharf, he seized her with the aid of secession passengers on board, and took her into Fredericksburg, Virginia, capturing three schooners on the way.

It is rumored that the Maryland Legislature, in secret session, has passed a secession ordinance.

Troops continue moving into Virginia. Gen. Scott has issued orders that no person shall be allowed to pass the lines in future, without a pass from himself or his Generals.

News meagre. Extraordinary precautions are taken to prevent intelligence being sent of army movements.

The transport steamship "Golden Fleece, from Liverpool, with troops, arrived at Quebec to-day.

BOSTON, July 5.

A fire in East Boston yesterday afternoon destroyed a half million worth of property, including eight vessels lying at the wharves, the splendid sectional dry dock, several store houses, ship yards, and seventy-five dwellings, rendering homeless a large number of families. The area burned over is nearly ten acres.

Another fire in Albany Street, at the same time, destroyed twenty buildings, mostly dwellings. Loss, $50,000.

Congress met yesterday noon. Mr. Crow, of Pensylvania, was elected Speaker of the House on the first ballot, and Mr. Etheridge, of Tennessee, was elected Clerk. The President's Message is expected here to-day.

Despatches from the seat of war report all quiet there.

West Indies.

FROM HAVANA.—We have intelligence from Havana to the 22d ult. There is no news of interest; neither is there anything new reported from St. Domingo, except that the pretended invasion by Geffrard has not been confirmed by the advices brought by the steamer Pelayo, which arrived at Havana on the 21st, from the port of Azin.

FROM HAYTI.—*Spanish Seizures.*—The schooner Sersaville, Captain Kelley, which arrived at Boston on Saturday, from Cape Haytien, 16th ult., brings intelligence of the seizure by a Spanish war steamer of three Haytien logwood barges, the crew of one barge having been taken prisonere.

THE TROUBLE IN ST. DOMINGO.—A letter from St. Domingo, dated 4th of May, is as follows:—

"The nation is indignant at having been sold and betrayed. The people appear to have required time to realize and understand what has actually taken place. They begin now to conceive the measures that must have taken place privately, long ago, to ensure what has taken place. The disarming of the people has produced its fruits in Moca, where the population, without firearms, have begun to struggle. A movement has taken place in Azua, where seven persons were shot. The news received here made such an impression, that a reinforcement was asked for from Porto Rico. Spain finds herself engaged in such a labryinth that she could not have foreseen. She accepted a task, by the annexation, the trouble of which she did not expect to begin immediately.

TO CONSUMPTIVES.—Four-fifths of you are suffering from neglected colds, and consequent inflammation of the delicate lining of those tubes through which the air we breathe is distributed to the lungs—This obstruction produces pain and soreness, hoarseness, cough, difficulty of breathing, hectic fever, and a spitting of Blood, matter, or phlegm which finally exhausts the strength of the patient, and death ensues. Jayne's Expectorant never fails to removes this obstruction, and produces the most speedy and pleasing results. It is certain in its effects, and cannot fail to relieve.

Sold by Brown Brothers & Co., Ordnance Square, Halifax.—See Advertisement.

Later from Europe.

NEW YORK, July 1.—The steamship Etna from Liverpool 19th, and Queenstown 20th arrived this morning.

The Etna brings £236,000 specie.

Political news unimportant.

The departure of the Great Eastern had been postponed until the 26th.

The House of Commons rejected the bill for the abolition of church rates by the casting vote of the Speaker.

Ship Medford was condemned at Fayal.—The frigate Ariadne sailed for the American station.

A French division under Admiral Raynard is about to sail. They will visit New York, Charleston, &c.

The London Times opposes the shipment of troops to Canada, and says there is no apparent reason for it, and that America is more likely to regard it as a challenge than a precaution. The London Post defends the movement as a mere matter of routine and precaution, and says the troops were demanded by Sir Fenwick Williams.

The special correspondent of the *Times*, writing from New Orleans, under date of May 24th, says it is impossible to resist the conviction that the Southern Confederacy can only be conquered by means as irrespectable as those which subjugated Poland. The South professes a determination to resist so long as they can command a man or a dollar.

At an influential meeting at the residence of Lord Brougham, relative to the suppression of the Cuban slave trade, the conduct of Spain was denounced, and the Government recommend to suspend diplomatic intercourse while the trade continues. It was also resolved that it was a convenient opportunity to obtain the co-operation of the Government of the United States in the terms of a treaty to remonstrate with Spain.

It is asserted that the recognition of the Kingdom of Italy by France is an accomplished fact, although there has been no official account made of it.

In an article on the subject published in the Patrie, and copied in the Moniteur, there is a paragraph which insinuates a belief that the Southern States of America will succeed in establishing a separate Republic.

The towns of Saurnasco and Begriano, in Naples, had revolted, and were taken by assault by the Italian troops. Twenty of the inhabitants were shot for having burned alive four Piedmontese. Both of the towns were subsequently burned.

Spain will preserve strict neutrality in the American war.

There were some disturbances in Syria immediately after the French troops departed, but they were quickly suppressed.

Sir Henry Bulwer is dangerously ill.

LATEST.

By steamer *Persia*, at New York, we are in receipt of three days later:—

The Pope is again ill.

The Southern Commissioners are in Paris.

France will hold no communication except with the Washington Government.

Disaffection was increasing at Warsaw.

The rumored death of the Sultan is denied.

The agitation in Hungary is increasiug, 30,000 men were concentrating near Pesth.

Navard Effendi is appointed Governor of Lebanon.

Capt. Russell, who went on the Great Eastern in behalf of France, is said to said to have expressed the opinion in audience with the Emperor, that a reunion of the North and South was impossible.

Parliament proceedings unimportant.

Lord John Russell announced that France had rejected the propositions of Austria and Spain, that the catholic powers should act in concert in maintaining the temporal power of the Pope. He also said that Spain had given a pledge, whether St. Domingo was annexed or not that slavery should not be introduced into the Island.

A meeting has been held in London for the benefit of the fugitive slave Anderson and his kinsmen in Canada. He explained the necessity for killing the man to effect his escape. The meeting fully endorsed the act.

☞ We beg to call the attention of our readers to the advertisement in another column of the Hantsport Female Seminary. We have every reason to believe that the arrangements made in this establishment for the education of young ladies will give the utmost satisfaction to all parties concerned.

A text from Sir Astley Cooper.

"A stomach, gentlemen," says Sir Astley Cooper in one of his lectures, "has been compared to a laboratory, and to a kitchen, but, gentleman, it is a stomach, and like nothing but a stomach." The great surgeon was right. Digestion and assimilation resemble no other process in nature or art. It was with a vivid appreciation of this fact that the distinguished Holloway originated his system of treatment. His Pills which have become the popular specifics of the age, act directly upon this controlling organ, and through it upon all its dependencies. Dyspepsia, a terrible disease in itself, and the primal source of as many evils as were contained in Pandora's box, yields rapidly and certainly to their aperient, anti-septic and restorative properties. Unlike any other medicament in use, they seem to carry on the three processes of purgation, disinfection and invigoration simultaneously; so that the system is regulated, the blood purified and the nervous and muscular organization renovated at the same time. Hence their almost miraculous cures of nearly all internal diseases. Their popularity, and that of the Ointment for external complaints and injuries, is simply the homage of the world to Truth. Men, women and children, upon whom the disciples of a musty, unphilosophical, and vapid pathology have pronounced sentence of death, recover by the use of these medicines, and shame the oracles of the profession by taking a new lease of life. These are results that all mankind can appreciate. No interested opposition can withstand them. The old Pharmacopœia, the old practice of physic, (venerable lumber!) are being swept away by the new regime. Holloway's Pills and Ointment are supplanting them in all parts of the globe.—*N. Y. "Nat. Pol. Gazette."*

Dr. Wistar's Balsam of Wild Cherry is truly a balsam. It contains the balsamic principle of the Wild Cherry, the balsamic properties of tar and of pine. Its ingredients are all balsamic. Coughs, colds and consumption disappear rapidly under its balsamic influence.

Wesleyan Conference Office.

LETTERS AND MONIES RECEIVED SINCE OUR LAST.

(The current volume is from No. 521 to 573.)

Jas. F. More ($4 for P. W., pays to July 1, 1860.)—L. Borden ($12 for P. W. for Thomas Johnson $1, Jas. Black $2, Mrs. D. McKim $2, R. D. DeWolfe $4, R. C. Reed $3.)—S. L. Eagan ($4 for P. W.,) Dr. J. K. Wilson ($2 for P. W.,) Rev. J. S. Phinney, (new sub.—M. B. says those books arrived before he left.) Rev. C. Lockhart, (new sub., send a new list of addresses and they shall be revised.)—Thos. D. Hart ($4 for B. R.,—May 24th, $4 for P. W. for R. Colpitts $2, Thos. Colpitts $2, $2 for B. R.) Mr. A. Hart ($3 for Guides, only pays for *three*,) Mr. R. Frazer ($4 for W. M. S., $4 for B. R.,) Rev. P. Prestwood ($14.33 for P. W. for S. Abbott $2, H. Dunn $2, Jas. Saint $2, Chas. Saint $2, R. Strathie $2, Jas. Lodge $1.50, J. Perry, $2, W. Minty, 83 cts., these were omitted in our last.)—S. Fulton ($2 for Lemuel Bigney, for P. W.) Wm. Gammon ($4 for P. W.,) Jno. M. Foster, Wilmot, ($4 for P. W.,) Thos. A. Smith, Newport, ($1 for P. W.,) Joseph Johnson, Falmouth, ($1 for P. W.)

(Remainder of Letters & Monies next week.)

MRS. WINSLOW.—An experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health o your infants. Prefectly safe in all cases. See advertisement in another column.

WILLIAM NEWCOMB,
Clerk of Market.

PURIFY THE BLOOD.—Not a few of the worst disorders that afflict mankind arise from the corruption that accumulates in the blood. Of all the discoveries that have been made to purge it out none have ever been found which would equal in effect Ayer's Compound Extract of Sarsaparilla. It cleanses and renovates the blood, instils the vigor of health into the system and purges out the humors which make disease. It stimulates the healthy functions of the body and expels the disorders that grow and rankle in the blood, its extraordinary virtues are not yet widely known, but when they are it will no longer be a question what remedy to employ in the great variety of afflicting diseases that require an alterative remedy. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit certificates to show its effect. But the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken. Sufferers from Scrofula, Scrofulous Swellings and Sores, try it and see the rapidity with which it cures. Skin Diseases, Pimples Dustules, Blotches, Eruptions, &c., and soon cleaned out of the system by it.

St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum Scald Head, Ringworm, &c. should not be borne while they can be so speedily cured by Ayer's Sarsaparilla.

Syphilis or Venereal Disease is expelled from the system by the prolonged use of this Sarsaparilla and the patient left as healthy as if he had never had the disease.

Female Diseases are caused by Scrofula in the blood, and are generally soon cured by the Extract of Sarsaparilla. Price $1 per Bottle or 6 Bottles for $5.

For all the purposes of a family physic, take Ayer's Cathartic Pills, which are everywhere known to be the best purgative that is offered to the American People. Price, 25 Cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., and sold by all Druggists everywhese.

May 22. 4m.

WISTAR'S BALSAM OF WILD CHERRY.—For the cure of Coughs, Colds, Hoarseness, Asthma, Influenza, Croup, Whooping Cough, Bronchitis, Predisposition to Consumption, &c., &c.

This great remedy is too well known and is preforming too much good to make it necessary to go into an elaborate discussion of its merits. Suffice it to say that it still maintains its supremacy in curing diseases of the most obstinate character, and that all who suffer from the above complaints, after having tested this remedy, seldom have occasion to resort to other appliances to insure a prefect restoration to health.

The following Certificate from a respectable Lady of Halifax, exhibits the remarkable virtue of this renowned Lung Remedy:

HALIFAX, N. S., June 16, 1860.—Messrs. S. W. FOWLE & Co Boston,—Being requested by your Agent to state the benfit I have derived from the use of *Dr. Wistar's Balsam of Wild Cherry*, I have no hesitancy in saying that I have found it to give great relief of cough and pulmonary disease, of which I was some twelve years since so sorely afflicted as to be considered beyond recovery. I therefore take occasion to say that I consider it to be a valuable remedy for coughs and consumptive complaints.

Yours respectfully,
MRS. J. WEST.

From Jesse Smith, Esq.,—President of the Morris County Bank, and who is well known and much esteemed throughout New Jersey:—

MORRISTOWN, N. J., Jan. 9, 1860.—Messrs. SETH W. FOWLE & Co.,—Dear Sirs:—Having used *Dr. Wistar's Balsam of Wild Cherry* for about fifteen years, and having realized its beneficial results in my family, it to the public as a valuable remedy in cases of weak lungs, colds, coughs, &c., and a remedy which I consider to be entirely innocent, and may be taken with perfect safety of the most delicate in health. Yours, very respectfully,

JESSE SMITH.

☞ Caution to Purchasers. The only genuine Wistar's Balsam has the written signature of "I. BUTT" and the printed one of the Porprietors on the outer wrapper; all other is vile and worthless.

Prepared by SETH W. FOWLE & Co., Boston, and for sale by Cogswell & Forsyth, and G. E. Morton & Co., wholesale agents, Halifax., and retailed by all druggists.

July 3. 4w.

Holloway's Pills.—Let reason guide you.—Dyspepsia, Costiveness.—There is no grief can be assuaged, no pain insusceptible of alleviation, or disease without a remedy. Are you dyspeptic? look for the cause in a disordered stomach or derangement of the liver. Are you costive or bound in the bowels? here again the stomach or viscera are at fault. Holloway's Pills will eradicute the source. Try them. They have never yet failed in one single instance out of millions of cases. We urge all who are suffering from Dyspepsia Costiveness, Bowel Complaints, &c., to use them at once, as they will effectually cure. The proof lies in the trial. Procure a box and be convinced of their immediate effect. Read the Advertisement elsewhere.

None but a physician knows how much a reliable alterative is needed by the people. On all sides of us, in all communities everywhere there are multitudes that suffer from complaints that nothing but an alterative cures. Hence a great many of them have been made and put abroad with the assurance of being effectual. But they fail to accomplish the cures they promise because they have not the intrinsic virtues they claim. In this state of the case, Dr. J. C. Ayer & Co., of Lowell, have supplied us with a compound Extract of Sarsaprilla, which does prove to be the long desired remedy. Its peculiar difference from other kindred preparations in market is that it cures the diseases for which it is recommended, while they do not. We are assured of this fact by more than one of our intelligent Physicians in this neighborhood, and and have the further evidence of our own experience of its truth.—*Tennessee Farmer, Nashville, Tenn.*

June 19 6w.

SEEDS, RARE SEEDS.—Received ex *Kedar* from Liverpool:—Mangel, Ruta Buga, Kohl Rabi and other Farm Seeds; also, choice Flowers, including Double Balsams, Lupins, Carnation and Picatees, Antirhinum, German and other Stocks, Wallflower and Zinna.

Also, of Nova Scotia growth:—Timothy Grass, Indian Corn, Bloodred Beet, &c.

Catalogues furnished by G. E. Morton & Co., near the Province Building.

Peruvian Syrup; or, Protected Solution of Iron.—Cures all diseases arising from Disordered Digestion, Weakness, and bad state of the Blood Get a pamphlet containing the most astonishing cures on record.

JEWETT & Co., Proprietors.

☞ To be had of G. E. MORTON & Co., Halifax Agent wholesale and retail.

A GEM OF ELEGANCE.—Blodgetts's Persian Balm, for cleaning the teeth, shaving, beautifying the complexion and all toilet purposes. This is the most delightful cosmetic a lady or gentleman can use. It insures sweet breath, removes all disagreeable appearances from the skin, as tan, pimples, freckles, &c., and imparts freshness and purity to the complexion.

☞ Agents in Halifax, G. E. MORTON & Co.

BEAUTY.—The perfection of beauty even in the most beautiful woman, is gained at her toilet. There the use of *Burnett's Kalliston* is indispensable; it eradicates all unsightly objects, such as tan, freckles, and pimples, and gives the complexion a clear and blooming appearance. Prepared by Joseph Burnett & Co., Boston. For sale by dealers generally, at 50c. per bottle.

June 19 4w.

Marriages.

In the Wesleyan Parsonage, Gottingen Street, on Tuesday evening, 9th inst., by the Rev. John Brewster, Mr. John L. Perry, of Tunbridge Wells, England, to Miss Mary Forrest, of Newport, County of Hants, N. S.

On the 25th May, at the residence of Joseph Avard, Esq., Great Chemogue, by the Rev. James Tweedy, Mr. Charles F. A. Avard, to Miss Mary Oxley Black, all of Botsford.

On the 18th ult., by the same, Mr. James A. M. Ellman, to Miss Saphronia Faulkner, both of Botsford.

On the 2nd inst., by the Rev. Geo. W. Hill, B. L. Coburn, of Liverpool, N. S., to Martha, second daughter of Mr John Earle, of this city.

Deaths.

At Wolfville, Horton, on the 5th inst., after a protracted illness, William Frederick, eldest son of Elisha DeWolf, Junr., Esq., late of that place, aged 31 years.

At Berwick, Cornwallis, on the 3rd inst., Sarah Stairs, fourth daughter of James M. Silver, in the 11th year of her age.

At Mount, Hope, Albert County, N. B., on the 23d June, Mary Ann, wife of James Gifford. She was a sincere follower of the meek and lowly Jesus; an affectionate wife and mother and a true and judicious friend. She died rejoicing in Christ leaving many to mourn her loss.

At Falmouth, June 29th, Eustace, eldest son of Wm and Mary Church, aged 18 years.

On the 3rd inst., Mr. George Preston, a native of Devonshire, England, in the 60th year of his age.

On the 4th May, of small pox, while on the passage from Halifax to England, Mr. Josiah Smith, of Barrington, mate of the Sophia Banks, in the 20th year of his age. He leaves a large circle of friends to mourn his loss.

At the City Hospital, 29th ult., of small pox, Jessie McVicar, of Cow Bay, Sydney, C. B., aged 23 years.

On the 5th inst., Wm Henry, only son of Thomas and Christy Ann Clay, aged 5 years.

At Rawdon, on the 2nd inst., Thomas Fenton, in the 79th year of his age.

Suddenly, on the 7th inst., Thomas C., fourth son of George and Maria Smithers, aged 17 years.

TO CONSUMPTIVES.

THE Advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. The only object of the advertiser in sending the Prescription is to benefit the afflicted and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription will please address,

REV. EDWARD A. WILSON.
Williamsburg
King County New York
