"At the Sign of Great Opportunity"

THE GREAT DILEMMA that used to confront homefurnishers was whether (a) to make a huge hole in their cash reserve by taking advantage of spot cash prices, or (b) to pay the long price for the privilege of getting time payments.

This dilemma has now been solved by our *Homelovers' Club.* Here is the test that will prove our point: Bring the best judge of furniture you know to our 5th floor and let him compare our furniture values in this sale with any values he can find. Then go and see the club secretary (4th floor) about what arrangements can be made for spreading your payments over a certain number of months.

This test will convince you that you are getting dependable furniture at the closest cash prices—plus the privilege of spreading these payments over a convenient number of months.
