The American News Letter Ceased after its publication of the 4th instant.

Willmer & Smith's European Times
Is written and published expressly for despatch by all the steam ships which leave England for THE UNITED STATES AND CANADA.
Three Essential Features distinguishes it from all contemporaneous publications.
FIRST.—It contains a full, correct, and comprehensive Shipping List. Persons interested in the Marine of America may turn in an instant to the information which they seek, with the certainty of relying on its truth. It thus supersedes Shipping Lists, and other expensive publications from Europe, some of which are six times the price of "Willmer & Smith's European Times."
SECONDLY.—It contains a Price Current of all the great British and European Markets, devoted principally to the articles of trade and commerce, more immediately appertaining to the United States and British America, and in which the Merchant, the Trader, and the man of business must feel an immediate interest. On the score of correctness, the Tabular Figures, and the remarks accompanying the various Markets, showing their actual condition may be relied on and are, in fact, *an authority with most of the first houses in the principal cities of the United States and Canada.*
THIRDLY.—As a newspaper, it presents to the American reader, in a concentrated state, and where the interest or the importance of the subject demand it, in the most detailed and ample form, every topic of political, commercial, domestic, and miscellaneous interest which has occurred in Europe or elsewhere, since the departure of the previous packet—especial regard being paid to whatever is mostly connected with or relates to the political well being of the United States and Canada.
Of this paper the "Boston Morning Post," says—"We are greatly indebted to this newspaper for our Foreign, Miscellaneous and Commercial News—One number of Willmer & Smith's European Times is worth a whole file of any other English paper."
Subscriptions to "Willmer & Smith's European Times," four dollars a year, received by the following Agents:—

WHICH is now opening and selling Winter Coats

A good assortment of Seamen's Clothing. The remainder of the stock expected by the Marshall Bennett from London.
N. B.—The subscriber does not think it necessary to say that he is selling 20 or 50 per cent. cheaper than any other store, but the public can judge for themselves;—as the goods were bought by himself for cash, in London, he has of course a greater advantage than those who buy on credit, or from the importers; therefore the consumer has only one profit to pay at the British Clothing Store.
