TAYLOR IS LIABLE TO THE LASH

Farm Hand Is Now Charged With Serious Crime of Indecent Assault—Committed for Trial.

Neil Taylor, the Westminster farmhand, arrested on Saturday, on a charge of assaulting Annie H. Taylor, the 19-year-old daughter of a farmer, living about three miles south of the city, on the Wellington road, will have to answer a charge on which, if he is found guilty, he will be liable to a term to the penitentiary, and the lash.

Taylor was arraigned before County Magistrate Taylor this morning at the courthouse for his preliminary hearing, but the charge, instead of being one of common assault, was changed to indecent assault. The evidence of Miss Taylor was taken, and it was to the effect that the accused met her on the road about 4 o'clock in the afternoon, and made an indecent proposal to her. Finally he threw her on the ground, whereupon Miss Taylor screamed and secured assistance. Her assailant escaped.

Taylor will be arraigned before the county judge tomorrow for election. He is believed to be of unsound mind. Since his incarceration he has given the officials at the county jail considerable trouble, both by his loud and offensive language, and by his refusal to do what he is ordered to do.

CONDENSED LOCAL NEWS

OPENS ON OCT. 1.

The Southwestern Traction Company is making good headway with the construction of its line from St. Thomas to Port Stanley, and it is expected that the cars will be running from London to the lakeside by the end of September.

PROGRESSING FAVORABLY.

Mr. Wm. Taylor, the aged watchman, who was struck by a train at the Waterloo street crossing of the G. T. R. yesterday noon, is progressing favorably toward recover. His collarbone was broken and his head badly cut.

HARVEST HOME SERVICE.

A harvest home service will be held in the Church of St. John the Evangelist on Sunday next. The sermon will be delivered by Rev. Provost Macklem, of Trinity College, Toronto, and a special musical programme will be rendered under the direction of Mr. Vivian Reeves. A feature of the service will be a ladies' choir, which will render a specially prepared programme of appropriate sacred music.

MR. F. SHUFF PROMOTED.

Mr. Frank Shuff's London friends will be interested in the following item of news from the Clyde (Iowa) Republic of Sept. 6: "Mr. Frank Shuff has just received word that he has been elected chief engineer of the Iowa State College of Annes, Iowa, at a splendid salary. Mr. Shuff's many friends in this city will be glad to learn of his good fortune, as he is a very able and competent electrician, and will prove equal to his position. On the other hand, they are all sorry to have Mr. Shuff and his estimable wife leave the city."

A MARVELOUS CHANGE

Wrought in Homeless Waif Through Efforts of Children's Aid.

The board of management of the Children's Aid Society held its regular monthly meeting in the city hall yesterday afternoon, Sheriff Cameron presiding. Accounts to the amount of $120 97 were passed and ordered to be paid. This amount includes the cost of printing the society's annual report.

Among the many communications which had accumulated since the board's adjournment last June, was a number of interesting letters from wards of the society and their foster parents. A photograph of a little girl about 4 years of age, accompanied one of these letters, and all present at the meeting commented on the wonderful improvement this child had made in the short time in which she had been in her foster home, as at the time she had been taken from her original surroundings and placed in the shelter, it was feared by the officers of the society that she would have to be placed in some institution for defective children. A good home and the love and care of good foster parents have, however, worked a miracle in the child and she is now as bright a little one as anyone could wish to see.

The inspector submitted a report on the work of the society since last June. He dealt at length with the details of sixteen of the more important cases which have come under his notice during the summer months. The inspector was given authority to visit certain of the society's wards with a view to adjusting some little difficulties which have arisen concerning them.

At present there are nineteen children in the Shelter Home on the Wharncliffe road, London South, fourteen boys and five girls, whose ages range from 3 to 11 years. Five children have recently been placed on trial in well-recommended foster homes, and it is expected that several others will be so placed during this week.

TOKEN OF HIGH ESTEEM

Newbury Daughters of Rebekah Make Pretty Present to Sister Callen.

Mrs. Coral Callen (nee Gage), whose recent marriage at Newbury was described in yesterday's Advertiser, has received the following interesting communication from Amity Rebekah Lodge, No. 77, of Newbury, dated Sept. 10, 1906:

To Our Noble Grand Sister Coral (Gage) Callen:

We, the members of Amity Lodge, desire to offer our hearty congratulations to you. We trust that all good success and blessing will attend you and your marriage so recently solemnized. We cannot help but regret that you must now sever your connection with us, but what shall we say? Rebekah of old left home and kindred and went into a strange land. You follow her example, and we bid you Godspeed. We desire also to congratulate your worthy husband, William Callen. We remember that he was a Newbury boy, and where else could he have found so worthy a wife as a Newbury girl?

O'er the voyage of life, with its calm and its storm,
May the angels of God keep you both safe from harm;
May we all meet again with Rebekah of old,
And with all that have entered the heavenly fold.

We ask you in parting to accept this badge, the emblem of our order, as a memento from Newbury Lodge. Wear it always in remembrance of us. We bid you farewell.

Sister Callen made a very suitable reply, with many thanks, wishing the lodge and its members every success.

TORONTO'S SMALL SURPLUS

The Exhibition Have a Net Surplus of Only Eight Thousand.

Toronto, Sept. 11.—It was learned this morning that great disappointment is in store for citizens who looked for a big surplus from Toronto Exhibition. The net surplus will not be more than $8,000. Last year some $3,500 was cleared. This year, with larger attendance than ever, great things were expected, but expenditure has been extraordinary, and receipts have not been in proportion.

PERSONAL MENTION.

Miss M. Gemmell, of this city, is in Toronto.

Mr. and Mrs. A. Fairlie, of Thorold, are visiting in this city.

Miss Kate Spearin is the guest of Mrs. Thomas Molloy, Stone street, Port Huron.

Mrs. James Herman and daughter Helen, of Forest street, Chatham, are visiting London friends.

The Hon. Adam Beck, Mrs. Beck and Mr. E. S. Clouston (Toronto), have gone for a trip to the Pacific Coast.

Mrs. J. H. Dempster and son Wilfrid have returned to Windsor from spending the summer in Ridgetown and London.

Miss Hazel Ferguson has gone to Flint, Mich., to attend the wedding of her cousin, Miss Cora E. Ferguson, which takes place there today.

DIED IN THE HOSPITAL

Charles Norris, a St. Thomas Man, Succumbs to Acute Pneumonia.

Charles Norris, the St. Thomas man, who was found in a fainting condition at the rear of the Grand Trunk depot yesterday, died in Victoria Hospital at 2 o'clock today.

It was at first reported that the old gentleman was merely suffering from the effects of the heat, but it was later learned that he was developing acute pneumonia, and he died as stated this afternoon.

WHITNEY ON THOSE LEASES

Declares There Is Plenty of Power Yet Left for the People.

Toronto, Sept. 11.—"If the Government go contrary to their expressed intentions on the power question the Government will have to suffer, that's all," said Hon. J. P. Whitney, premier of Ontario, on his return to Toronto yesterday afternoon. He had been jokingly asked by a reporter if it were true that he had hurried home to save what waterpower was left to the Province. "I don't understand the question," was his first reply, "as I have not been very closely in touch with provincial affairs lately, so far as the papers go, but I started for home on the date I had set previous to leaving Toronto. I didn't hurry for anything," he said.

It was explained to him that in his absence the Government had come in for a good deal of adverse criticism because of the leasing of Healey's Falls and other water powers to private corporations, contrary to the declared principle of the Government to save the power for the people.

"Oh, I guess there's enough power for the people yet," he retorted. Then he followed up with the declaration stated at the outset, that if the Government went contrary to their expressed intentions the Government would have to suffer. However, he was not prepared to discuss the question so soon after his return.

ERIE'S MAYOR DEAD.

Erie, Pa., Sept. 10. — Mayor R. J. Saltsman, of Erie, died today at Cambridge Springs. He suffered a stroke of paralysis last week in the dining-room of a hotel at the Springs, since which time his life had been slowly ebbing away.

KILLED BY PULYJANES.

Manila, Sept. 11.—Lieut. R. E. Treadwell, of the Philippine Scouts, was killed last night by Pulajanes, six miles south of Barouen. He was in command of a small detachment of scouts, whose bivouac was attacked during the night by 100 Pulajanes. Lieut. Treadwell was the only man hit. Troops are in pursuit of the band.

SLAP CONDUCTOR AND PAY $14.50

Employe Was Slow in Stopping His Car—Youths Confessed Stealing Cigars.

The yonug man who was arrested last night on a charge of assaulting a street car conductor appeared at the police court this morning, and was fined $10 and $4 50 costs or one month at hard labor. The prisoner paid his fine. His only excuse was that the conductor did not stop the car when he wanted him to, and so he slapped him in the face.

Toney Caravella, the young Italian, who was arrested yesterday on a charge of stealing cigars from the firm by whom he was employed, appeared this morning and pleaded guilty to the charge of stealing. He was remanded for one week for sentence.

Goes To Jail.

Albert Leonard appeared to answer to a charge of damaging the property of Christopher Jocklin, and was fined $1 with $6 75 damages or 20 days. Leonard could not pay the list price, so he took the days. Leonard is in jail at present, where he was sent some time ago. The charge against him at the time was a double one, and the damage to property—part of his offense—was left over until this morning.

More Peculation.

Robert Beattie appeared on a charge of theft, laid by J. F. Maine. It was alleged that R. Beattie had done the insurance company represented by Mr. Maine out of some money, amounting to about $40. To this charge he pleaded guilty, and offered to make restitution, so sentence was suspended upon him.

Colon McPhail appeared for non-payment of a livery bill, and was remanded for one week.

Mary King kas remanded for one week on a charge of being drunk. James Fox was fined $5 or 20 days for being drunk.

Three men who had been drunk for their first time were allowed to go with a warning.

CHILDREN'S DAY IS ON FRIDAY

Continued from Page One.

Edwards to say he wanted a 5-cent admission.

Mr. J. W. Jones declared it would pay the Fair to put on the attractions on Saturday and give the working people a chance to see the Fair, for 15 cents, the stands to be free.

Col. Little claimed that it was unfair to penalize the children because of friction between the board of education and the Fair board. There should be some inducement to have the children come to the Fair Friday, instead of Thursday, when a tremendous crowd is assured. He thought the 10-cent gate and the 5-cent stands should be granted.

Ald. Armstrong then withdrew his motion and agreed to the terms of the motion of Mr. Gammage.

Ald. Saunders suggested that the motion be amended, so that 10 cents be charged the children for the covered stands, and 5 cents for the open stands.

Finally, on motion of Ald. Armstrong, it was decided to charge the children 10 cents at the gate, 10 cents for the covered stands, and 5 cents for the open stands. A recommendation was also added that in the future the board of education declare Monday a holiday for the children to see the Fair.

New Sheep Judge.

Chairman Scatcherd, of the sheep committee, reported that he had appointed Mr. W. H. Beattie, of Wilton Grove, a judge in place of Mr. Whitlaw, who had gone home. The chairman's actions was indorsed.

It was decided to furnish the members of the horse committee with ring badges.

President Reid, Col. Little, George Scatcherd, W. W. Gammage, Ald. Armstrong, Ald. Wyatt, Wm. Moore, Allan Bogue, R. A. Carrothers, John Pringle, Ald. Saunders, Wm. McNeil, J. W. Jones, and Secretary Hunt, were present.

THE WHITE COMPANY'S MOP-WRINGER.

The White Mop-Wringer Company, of Fultonville, N. Y., are exhibiting in the Machinery Hall what is held to be the most practical mop-wringer on the market.

Every wringer is warranted easy to work. Hot water, strong alkalies, etc., no longer injure one's hands. These mop-wringers are retailed at Cowan's, Westman's, Purdom & Gillespie's, and wholesaled in Canada by the Limited Factories of Toronto and London. This company have over 300,000 wringers in use at the present time. Ladies are especially invited to call and have this mop-wringer practically demonstrated.

THE WALLACE POWER SPRAYER.

W. H. Brand, Canadian representative for the Wallace Power Sprayers, has an exhibit of sprayers in the Machinery Hall this week.

The wonderful advantages of these sprayers over other sprayers in the market today is most noticeable. Their simplicity and ease of handling make extra help unnecessary. Their adaptability to any mixtures and the use of compressed air, make the rapidity of operation remarkable indeed. Particular attention is given to all parts coming in contact with the mixtures. Brass being used in all moving parts. The fact that no hand-pumping is required, and no heavy extension rods are used, makes the operation of these machines rather a holiday than a day of hard work. Mr. Brand handles air pressure waterwork systems for private homes, and will be glad to demonstrate and explain his exhibits to the public. 29-u

BELL PIANO.

Mr. J. G. Keenleyside, local manager of the Bell Piano Company, is at the exhibit of pianos and organs. The exhibit at the Bell Company's usual stand is indeed a beauty.

As usual, they are the center of attraction to the people who have an eye for beauty and an ear for music.

An unfortunate accident occurred with this exhibit. Two of their special exhibition pianos went astray in shipping, and have not been located yet. The local management is very much disappointed that they are unable to give the public an opportunity to view and hear two of the finest instruments on the market at the present.

If these pianos are located and can be placed before the Exhibition closes, the public may yet have a chance to see and hear them.

Intending purchasers should see "The Art Bell" with its illimitable repeating action, before buying an instrument. The management will be glad to explain the superior qualities of these pianos to anybody interested.

THE MODERN CANNER COMPANY.

Perhaps the newest and best money-making article exhibited in the Machinery Hall this year is the Modern Canner. This canner is complete in itself. It will attract grocers. Fruit growers will be especially concerned. The Modern Canner offered by the company will handle any fruit or vegetable and every grocer or fruit grower can have his own canning plant at a small expense, thereby saving his fruit and being always sure he has a good article on his shelves. Call and see this exhibit at the Machinery Hall. The local representative will gladly explain the many advantages of this system and the detail of the work.

YORK LOAN CASE

Judge Intimates That More Charges Wil Be Laid Against Phillips.

Toronto, Sept. 11.—That more charges may be laid in connection with the collapse of the York Loan Company was intimated by Judge Winchester today in his address to the grand jury in opening the general sessions. The charge of conspiracy against President Joseph Phillips, he said, was a wide one, and it was not necessary to prove commission of act intended by those conspiring.

QUEBEC ELECTIONS

Conservatives Aid in Returning Minister Weir for Argenteuil.

Montreal, Sept. 11.—Two bye-elections are being held for the Quebec Legislature in consequence of recent cabinet changes.

Hon. W. A. Weir was returned for Argenteuil on his appointment as minister of public works. The Conservatives held a convention in Victoria Hall this morning, and decided, as a courtesy to Mr. Weir's promotion, not to oppose him. Mr. Henry Slater, of Lachute Mills, had been spoken of as a candidate.

Mr. W. F. Vilas, Cowansville, another Liberal, was nominated for Brome County in place of Hon. J. C. McCorkill, provincial treasurer, who has accepted a judgeship.

Mr. Westover, Independent Liberal, will oppose Mr. Vilas.

FLYING MACHINE FLIES

Santos-Dumont Gains Triumph With His New Apparatus.

Paris, Sept. 11.—Though Santos-Dumont broke his flying machine in his experiments today, he proved that it was able to fly. The moment the big 50-horsepower Antoinette motor was set in motion the machine took a flying leap forward about two yards above the ground, the bicycle wheels on which the light craft is built continuing to revolve rapidly from the impetus of the start.

The rate of speed was calculated at about 25 miles an hour, but Santos-Dumont stopped the machine after going 200 yards, bringing it gently to the earth. He was greatly surprised at the ease with which he could steer the craft sideways and up and down.

In starting the machine was so damaged as to make it evident that some mechanical secrets are still to be learned in connection with the important matter of getting off the ground. In spite of this mishap, this was at least, as one of the few witnesses remarked, "the first time recorded in the history of the world, certainly before trustworthy spectators, that mechanical flight for any appreciable distance was attained."

SCOTS ARE POPULAR

Have No Trouble in Getting Along With the Canadians.

London, Sept. 10.—Commenting on Ernest Terry's statement that Englishmen are not popular in Canada, the Aberdeen Daily Free Press claims that Scotchmen are well liked in Canada, and throughout the colonies Scotchmen are adaptable, cosmopolitan. Englishmen are not.

The Englishman is tremendously self-satisfied, and complacent, and disdains to take advice from even those who have lived in the country. He is provincial in that he is too fond of judging everybody by what is known in England, and has not the reticence to conceal it.

A Scotchman may sometimes make the same foolish comparisons between other countries and his own, but his shyness and diffidence as a rule save him from showing it. There is also wanting in him that peculiar air of superiority and condescension which is so intensely resented by Canadians and New Zealanders.

NEW DRUNK CURE

The "Wheelbarrow" Remedy Works Fine Out in Iowa.

Des Moines, Ia., Sept. 11.—"Our wheelbarrow cure for dipsomaniacs is working wonderfully well," said John Cownie, of the state board of control, speaking of the Dipsomaniac Asylum.

"Do you know, we have the only cure that is a success?" continued Mr. Cownie.

"The other day a Des Moines man left the Knoxville institution as cured, who had taken three other 'drunk cures,' and all of them had failed.

"He says now that he believes he can withstand the temptation of liquor.

"We don't give them any medicine except what is necessary to make them well. No effort is made to nauseate the patients at Knoxville against whisky by the used of medicines.

"We build them up physically and then put the men to work out in the open air. With plenty of good food, regular hours for sleep, and good, hard work, th patients go away feeling like new men.

"The wheelbarrow cure is the best thing we have found yet. We have over 50 m in the wheelbarrow squad.

"I tell you, when the men get through with that cure they will hesitate before they touch whisky again and have to go back to the wheelbarrow squad."

Truss Service

To secure trusses that will give adequate service you must have right service when you buy them.

The fitting of the truss is the important thing. Right fitting requires right trusses and right knowledge of the particular uses of each. We make a specialty of trusses and guarantee a fit in all cases.

When a new truss is needed, come and see us.
All prices from $1 50 up.

CANADIAN FAILURES.

Dun's Review for Sept. 8 says: Canadian defaults in August were 88 in number and $696,631 in amount of indebtedness, compared with 99 failures last year, when liabilities were only $346,337. Manufacturing defaults were 23 in number and $322,347 in amount, against 19 failures last year for $81,077. There were 65 trading failures for $357,539, against 79 last year when liabilities were $241,732. The Canadian failure statement is very similar to that of the United States, in that while losses were much heavier than last year, they compared favorably with the month of August in other recent preceding years.

$30,000 A REASONABLE FEE.

Montreal, Sept. 10.—The now celebrated Holt-Wright case was reopened this morning in the superior court. The case is that of Charles M. Holt, K.C., who is suing Mrs. Wright for the sum of $30,000, the same being claimed as attorney's fees.

The case up to the present has brought out the fact that Mrs. Wright obtained quite mysteriously from the late James Cooper during the latter's lifetime a large fortune.

The first witness today was J. S. Buchan, K.C., who gave it as his opinion that the charges were reasonable enough.

Any woman is willing to obey her husband if he does as she wants him to do.

Republics may be ungrateful, but a ward boss seldom is.

Good manners are liable to get the strangle hold upon evil communications.

CHICAGO EXCHANGE.

G. T. R. MEETS MEN

Employes and Leading Officials Gathered at Toronto.

Toronto, Sept. 10. — An important meeting is being held here between the officials of the Grand Trunk and representatives of the men of the entire G. T. R. system from Montreal to Port Huron.

The object of the meeting is to discuss a request of the men for an increase of wages and other slight changes in their working rules.

Fourth Vice-President F. H. McGuigan is president, and associated with him are all the superintendents.

Both sides decline to talk for publication.

The officials say it is just their annual meeting with the men.

CHURCH LOSES $160,000

Presbyterians Hard Hit by Philadelphia Smash—Directors Make Good.

Philadelphia, Pa., Sept. 10.—All of the directors of the wrecked Real Estate Trust Company have agreed to Receiver Earle's plan for reorganizing the company. Today Mr. Earle received word from Dr. S. Weir Mitchell agreeing to the proposition that the directors contribute the amount deemed necessary by the receiver.

Receiver Earle expects to call a meeting of stockholders and depositors to acquaint them with his purpose. The loans made to Segal aggregate more than $5,000,000, and securities are believed to be worth about $2,000,000. Consequently the directors will subscribe about $3,000,000.

A statement issued tonight by Rev. Dr. Roberts, clerk of the general assembly, shows that the Presbyterian Church will lose about $160,000

ELECTION WRITS

Those for East Elgin and North Bruce To Be Issued Wednesday.

Ottawa, Sept. 11.—Writs for elections in East Elgin and North Renfrew will likely be issued tomorrow. It is said that neither party is ready in North Bruce. Writs for Quebec constituents will not be issued for some days, and the position of affairs is such that there can be no contest in Shelburne and Nova Scotia until the supreme court has disposed of the appeal. Contests in East Elgin and North Renfrew will take place early in October.

SLID INTO OCEAN

Train on the Southern Pacific Wrecked in Peculiar Manner.

Santa Barbara, Cal., Sept. 10. — A southbound train on the Southern Pacific Coast Line was wrecked today at Sea Cliff, a side track 20 miles south of Santa Barbara, and 27 persons were injured, two of whom may die. This wreck occurred at a point where the roadbed runs near the Pacific Ocean on an embankment. Some part of the locomotive broke and dropped on the ties, causing the locomotive to leave the rails. The baggage car and four coaches followed, and all toppled over and slid down the embankment.

TORONTO LACKS MILK

Serious Famine Threatens Populace of the Queen City.

Toronto, Sept. 10.—Toronto is just now facing a dreaded milk shortage, and unless the supply increases soon there is probability of the shortage verging on a famine.

This morning an inspector was sent out by the medical health department to secure samples of milk for analysis. The inspector returned with the statement that he could not get milk from dealers because they did not have it.

The dealers complain that the farmers were not bringing in anywhere near enough to meet the requirements of the citizens.

The medical health officer, Dr. Sheard, says there is considerable adulteration going on amongst the dealers.

FLEEING FROM CUBA.

Tampa, Fla., Sept. 10.—A Cuban general arrived here today traveling incognito on his way to Washington on a Government mission. Three hundred passengers also came on the same steamer, fleeing from the troubles on the island.

They report that the rebel army has now more than a thousand men armed and equipped. The situation, they report, is more gloomy than ever before, and the Cuban Government is powerless to help itself.
