TURKS FOUGHT TO THE LAST CARTRIDGE

Inhabitants of Rodosto Tell of Gallant Defence by the Ottomans.

WARSHIP AIDS THE ARMY

First Land and Sea Fight of the Present War Is in Progress.

London, Tuesday, Nov. 12. — The Daily Chronicle today prints a dispatch from the town of Rodosto dated midnight on Nov. 10. The dispatch says:

"A severe engagement for the possession of this town has taken place. Today the issue is not yet decided. It is remarkable as being the first sea and land fight of the present war. The enemy occupied the hills to the northwest of the town with a large force, which was hurled with customary intrepidity against the Turkish infantry, which was barring the approach in that way.

Warship Opens Fire.

"The Turkish battleship Mussudiyes, which arrived off the port last night, opened a telling fire with two 9.2-inch Vickers guns and 6-inch guns on the enemy's position, and succeeded in checking their advance. The bombardment continued unceasingly throughout the day.

"Commanded by Col. Renzi Bey, the Turkish infantry behaved with the traditional bravery, and, though opposed by overwhelming numbers, fought with the utmost determination. As the night drew on, the Turks were forced to retire, and occupy a fresh position, closer to the town, where they prepared to make a final stand.

"The enemy, who included several regiments of Servian infantry, were able to creep nearer the entrenchments under cover of the darkness, and because of the darkness it was impossible for the Turkish battleship to co-operate in the further defence in the west of the town, nearest where the Bulgarian attack was delivered.

"In this part of the town the inhabitants were forced to take refuge elsewhere.

Fought to Last Cartridge.

"The bold defence of the Turks received high commendation from the foreign inhabitants of Rodosto. The third regiment of infantry, who formed a part of the heroic second corps when the latter fought with so much distinction at Lule Burgas, fought to the last cartridge, but were hopelessly outnumbered.

"At midnight, an Italian gunboat, which lies in the harbor, took off the Italian subjects who wished to leave. During the night the battleship Mussudiyes steamed out of range and was ready to renew the bombardment of the allies at daylight."

MOTHER AND CHILD KILLED IN RUNAWAY

Thrown From Rig When Horse Bolts and Were Almost Instantly Killed.

Hamilton, Nov. 11. — There was a double fatality here this afternoon about 4 o'clock, the victims being Mrs. S. T. Mitchell, of Flamboro Centre, and her 5-year-old daughter Irene. Mrs. Mitchell, with her child, was driving into the city, and when passing under the G. T. R. bridge at the Valley Inn the horse became frightened at a passing train and bolted. The rig crashed into the hotel a few yards away, and both Mrs. Mitchell and the child were thrown out.

The child was instantly killed, but Mrs. Mitchell was still alive, though unconscious, when picked up, and a hurry-up call was turned in for the ambulance. Dr. Davey responded, but before the woman could reach the City Hospital she had succumbed. Coroner Nichol has decided that an inquest is unnecessary.

The bereaved husband came to the city this evening to take back the bodies of his wife and daughter.

WM. BLACKWOOD DEAD

Editor of Blackwood's Magazine Has Passed Away.

London, Nov. 12.—William Blackwood, the editor of Blackwood's Magazine, and a well-known publisher and printer, died today. He was born at Lucknow, India, in July, 1836.

He was the grandson of William Blackwood, the founder of the publishing house of William Blackwood and Sons, Edinburgh and London.

LEMIEUX ACT CONSTITUTIONAL

Ruling of Judge Lafontaine in a Montreal Case.

Montreal, Nov. 11.—That the Lemieux act, providing for the nomination of a board of conciliation to inquire into disputes between employer and employee is constitutional, and that consequently a board named to look into certain differences between the Montreal Street Railway Company and a few of its employees was regularly and legally appointed, is the tenor of a ruling handed down by Justice Lafontaine this morning, in a case which has been occupying the attention of the local superior court off and on for the past two years.

As will be remembered, the appointment of the board, which was composed of Justice Fortin, J. L. Perron, K.C., and Charlemagne Rodier, K.C., was attacked by the Montreal Street Railway Company on the grounds that the act, in virtue of which Hon. Mackenzie King, at that time minister of labor, appointed such board, was unconstitutional.

LANTERN CAUSED WRECK

Pilot of the Royal George Thought It Light on Buoy.

Quebec, Nov. 11.—It has now come out that the carrying of a lantern on the St. Lawrence beach by a fisherman led to the pilot of the Royal George's mistake. It appears that the fisherman was visiting his fishery, and as he walked along the beach the lantern was swinging. The Royal George was then coming up the river at full speed, and the pilot seeing the light swaying to and fro, thought it was the light on the gas buoy at Beaumont Shoal, which is almost immediately opposite St. Laurent light. He gave orders to port the helm, bringing the vessel nearer the north shore. When he discovered his mistake he ordered the helm to starboard, but before the steamer swung to the south she struck and remained fast.

WABASH BUYS FERRIES

Three M. C. R. Boats Purchased for $200,000.

Windsor, Nov. 11.—An announcement of considerable importance in railway circles was made here today to the effect that the Wabash Railway has practically completed arrangements for the purchase of three of the old Michigan Central car ferries for use on the Detroit River. The boats reported to have been acquired are the Detroit, a comparatively new steel vessel, the Transport and Transfer. The cost is given as approximately $200,000. Heretofore the Wabash has used the Grand Trunk car ferries to handle its trains across the river, but owing to rapid increase in the business of both companies, it was found necessary to add the additional boats to the fleet.

CENTRALIA.

Centralia, Nov. 11.—A very successful meeting was held in the Methodist Church on Tuesday, November 5, at 4 p.m., for the purpose of organizing a mission band. Mrs. A. M. Wilson, district organizer of the W. M. S., of Exeter district, was present, and in her usual able manner explained fully the purpose and work of the band. The meeting was very satisfactory in every respect, twenty-five boys and girls between the ages of eight and sixteen becoming members, and at a meeting held the following Friday, four more became members, making a total of twenty-nine charter members. The following officers were appointed for the coming term: president, Mabel Heaman; vice-president, Llyod Baynham; 2nd vice-president, Rex Mills; secretary, Della Brooks; corresponding secretary, Ethel Bowden; treasurer, Cyril Colwill; organist, Viola Neil; superintendents for the band, Mrs. F. Colwill, Mrs. A. Brooks, Mrs. S. Andrew. Much credit is due Mrs. Wilson for the interest she aroused in the minds of the children, and a visit from her at any time will be much appreciated. Twenty-one members were present at the first meeting; next meeting to be held November 20.

BRUSSELS.

Bible Society collectors are making their annual rounds and are doing very well. Brussels branch have a great record for supporting this noble cause, an average of $140 for past 32 years.

A short time ago Miss Winnie McGuire, milliner, of Port Rowan, had the misfortune to sprain one of her ankles quite seriously and had to come home to rest off for a while.

Mr. and Mrs. C. H. Bennett and children are back from an enjoyable trip to the West. They spent a number of years out there, but on selling their farm adopted the sensible course of locating in Brussels.

Mrs. James Ballantyne and Mrs. Robt. Thomson are away to Toronto as delegates to the Provincial Women's Institute and the flower show.

First horse fair for this season will be held on Thursday, December 5.

On the 22nd instant the Jamestown Women's Institute will hold a box social and give an Al program, the proceeds of which will go to the endowing of a cot in the Hospital for Sick Children at Toronto. The Jamestown people deserve to be cordially backed up in their philanthropy. This is not the first time they have helped the needy.

At the Epworth League service last week 13 new members were received, a hopeful and helpful indication.

Leslie Lowry has taken a position in the drygoods store of G. N. McLaren in Brussels, succeeding Carl Emigh, who removed to Whitewood, Man.

Before Miss Rhea Emigh left town for the West a number of her girl friends assembled at the home of Miss Winnie Long and presented her with a fine silver mesh purse and an address expressing regret and good wishes. Miss Emigh was a general favorite and has the best wishes of all.

The Sunny South Company hold down the boards at the town hall Thursday evening.

An incident that might have resulted very seriously turned out by good fortune to sum up in only one man being hurt. George Barkley and staff were building a cement bridge abutment at what is known as the Clark Bridge, and to make the work less laborious the machine was put on a portion of the old bridge that had not been taken away by last spring's floods. Without much warning the old bridge fell, carrying Mr. Barkley, Mr. Armstrong and Mr. Little and the cement machine with it. It was a 15-foot drop, but fortunately there was plenty of water and the fall was thereby broken. The only one hurt was Mr. Little, who was struck by a timber and a nasty gash cut on his head, but he is making a good recovery. The machine and engine was fished out of the water on a raft and taken ashore. Other workmen saved themselves by jumping to the new abutment.

Alex. Forsyth and wife were waited on by a company of old neighbors and friends the other evening and were presented with two elegant chairs, accompanied by a kindly-worded address. The recipients have leased their 200-acre farm and will move to Brussels and take life a little easier. A splendid time was enjoyed at Mr. Forsyth's, and old friends are sorry to see them leave the community.

EQUALITY OF SEXES BEFORE THE LAW

Radical Changes Proposed by the British Commission on Divorce.

London, Nov. 11.—The royal commission on divorce, which has been investigating this subject for several years, has made public the result of its inquiries. The majority report recommends that the two sexes be placed on an equality before the law with regard to the grounds for divorce, which shall be adultery, desertion for three years, incurable insanity, after five years' confinement; habitual drunkenness, found to be incurable, after three years.

From the issuance of the first separation order, it is recommended that all divorce cases shall be heard by a judge only, who is empowered to close the court during the hearings and prohibit the publication of details.

The majority report also recommends that no report on matrimonial cases shall be allowed until they are finished and that the publication of the portraits of the parties thereto shall be prohibited.

The report stated that the evidence taken during the course of the investigations showed that the proposed extension of the grounds for divorce, far from tending to lower the standard of morality, has had a contrary effect, and that the present stringent restrictions and costliness of divorce are productive of immorality and illicit relations, particularly among the poorer classes. This report is signed by nine commissioners.

The minority report, which is signed by the Archbishop of York and two other commissioners, opposes the extension of the causes for divorce on the ground that this is destructive to the sanctity of the marriage ties and family life.

SLAYS HER CHILDREN AND THEN SUICIDES

Terrible Crime of a Manitoba Woman While Mentally Deranged.

Virden, Man., Nov. 11.—At their home, near Scarth Station, ten miles west of here, the wife of Arthur Clark, aged 35, last night killed her two children, aged 5 years and 1 year respectively, and then committed suicide. According to the husband all four were sleeping in the same room, and he was awakened by the noise one of the children made while his mother was in the act of cutting his throat. When Clark got up to restrain his wife she ran to the other end of the room, and cut her own throat with a razor. It was then about 1 o'clock, and Clark rushed to a neighboring farmer. John Shoemaker, and told him his story. Shoemaker accompanied him back to the house, where mother and children were found dead.

Mrs. Clark had all arrangements made for her and the children to leave for England today, while Clark was to have a sale and follow them within a month.
