CURE AND PURE.

It is a matter-of-fact much better than a hand-cuff! Yes; we think.

If they want to get rid of book all the men in the land can't stop us.

Why is a doctor better than one of their his patients? Because, he has got to bed, somebody to cure to cap him up.

A handsome youth being questioned by a rather stylish lady at Brighton concerning, replied that he was the adjutant of morantic alphabet." He was simply a prinion.

There is one Chinese man who doesn't put up the prices any more for operations. He is in hopes to find his man.

"Say!" said a town youth to a modest countryman, "got the hay-seed out of your hair yet? Why, I'd ought the dollars I'd pay to get it from the way the flower has taken root."

At the commencement exercises of Abbott Academy, Andover, Mass., Prof. Smith told the young ladies that while he was not [illegible] them forth as capitalists in the social sphere, there would never be any difficulty in their finding situations as first mates.

A reporter being called to account for the statement that a certain meeting "was a large and respectable one," when only one other person besides himself was present, insisted that his report was literally true, for, said he, "I was large and the other man was respectable."

"Route have risen," was the jocose remark of the astute small boy when a nail caught in the previously small tear in his coat tail and ripped the garment up to his neck. Subsequently, after an interview with his mother, he was heard to himself in the woodshed that "leather had fallen."

The question is again agitated, "Shall women be permitted to pass the hat in our churches?" A few years ago, when hoops were in vogue, the ladies couldn't "pass a hat" in the aisle without dragging it up to the pew they entered. But the present style of dress permits them to pass the hat easy enough.

A fellow who had been moving restlessly around for a long time with his girl, at the Dungannon Show, on the second morning, anxiously waiting for something new to occur, got tired of the suspense at last, and turning to the piece of calico on his arm he said:—"Sal, ho go hum, I'm mighty tired of hangin' 'round; an' don't you think 'twould be a durned sight nicer to do what we could have good huggin' an' kissin' time?" She coincided with his views, and they linked arms and moved away.

A gentleman, finding that the diminution of his stock of wood continued after his fires were out, lay awake one night in order to obtain, if possible, some clue to the mystery. At an hour when "all honest folk should be in bed," hearing an operator at work in the yard, he cautiously raised his chamber window, and saw a lazy neighbor endeavoring to get a large large log into his wheelbarrow. "You're a pretty fellow," said the owner, "to come here and steal my wood while I'm asleep!" "Yes, replied the thief; "and I suppose you would stay up there and see me break my neck with lifting before you'd offer to come and help me!"

Useful Information.

To PREVENT condensation in a steam pipe laid under ground, place it inside another larger pipe, filling the intervening space with pulverized charcoal. The outside pipe should be watertight.

A screen or blower of wire gauze, from 36 to 40 wires to the inch, placed in front of range or stove fires, will prevent, it is said, smoke coming into the room when the chimney fails to draw well.

To make a handy paint, break an egg into a dish and beat slightly. Use the white only if for white paint; then stir in matter to suit. Red lead makes a good red paint. To thin it, use a little skimmed milk. Eggs that are a little too old to eat will do for this very well.

When boilers are ordinarily fed with hard water, it is worth while to save the drippings of the exhaust pipe, the condensation of the safety valve blow-off, and that from the cylinder, and use the water thus obtained to fill the boiler after blowing off. The result will be surprising in effect in loosening scale.

☞ Is your throat sore, or are you annoyed by a constant cough? If so, use promptly "Bryan's Pulmonic Wafers." —They will give you instant relief. They relieve the air passages of phlegm or mucus, and allay inflammation, and no safer remedy can be had for coughs, colds, or any complaint of the throat or lungs, and if taken in time their efficacy will soon be proved. Sold by all druggists and country dealers. Price 25 cts. per box.

SCIENTIFIC ITEMS.—A writer in Putnam's Magizine says: "Its a curious fact that there is never a white colt nor a black calf. The whitest horse was blackest in its birth, and the jet black cow was unmixed red." Whether this is correct or not, we cannot positively say; but this we do believe, that the best medicine for removing pain from the system s the "Canadian Pain Destroyer." In cases of rheumatism, sprains bruises or severe colds and summer complaints, it stands unequalled. For sale by all Druggists and country dealers. Price 25 cts per bottle.

What They Say of It.

Notices from the People.

There are but few preparations of medicines which have withstood the impartial judgement of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil. Read the following and be convinced:—Thomas Rowlands, Farnham Centre, P. Q., writes, "I have been afflicted with rheumatism for the last on years, and have tried many remedies with out any relief, until I tried Dr. Thomas' Eclectric Oil, and since then have had no attack of it. I would recommend it to all."—J. M. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years and have tried different medicines with little or no benefit until I tried Dr Thomas' Eclectric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts wounds, &c., and think it is equally as good for horse as for man."—A Mayhew, Merchant, Warworth writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the whole one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rushan, Township Percy, writes, "I was persuaded to try Thomas Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."—A. M. Hamilton, Warkworth, writes, "For weeks I was troubled with a swelled ankle, which annoyed me very much. Mr. Mayhew of this place induced me to try Eclectric Oil, and before one bottle was used I was cured, it is a most remarkable medicine."

Sold by all medicine dealers, Price 25 cts.

Special Notices.

Beware of Counterfeits.

For the protection of the Public of British North America, I deem it my duty to state that my Pills and Ointment are neither manufactured nor sold in any part of the United States.

Each Pot and Box bears the *British Government Stamp*, with the words, "Holloway's Pills and Ointment, London," engraved thereon. On the label is the address, 533, Oxford Street, London.

This notice has become necessary, in consequence of vile and spurious imitations of 'Holloway's Pills and Ointment,' being fabricated at 78, Maiden Lane, New York, by parties styling themselves "Holloway & Co.," with an assumed trade mark, thus—

Unprincipled vendors can obtain this trash at a very low price, and so deceive you by selling the same for my genuine Holloway's Pills and ointment, which are manufactured only at 533 Oxford Street, London.

Persons who may be so deceived will be pleased to communicate with me.

Many respectable Firms in the British Provinces, who obtain my medicines direct from here, have very properly suggested that I should, for the benefit of themselves and the public, insert their names in the papers, that it may be known that my medicines can be had genuine from them.

The following is a list of the Firms alluded to; and I particularly recommend those who desire to get my medicines to apply to some of the Houses named:—

Evans, Mercer & Co., Montreal.
Messrs. Avery, Brown & Co., Halifax, N. S.
Messrs. Forsyth & Co., Halifax, N. S.
Messrs. T. B. Barker & Sons, St. John, N. B.
Apothecaries' Hall Co., Charlottetown.
Messrs. Langley & Co., Victoria, B. C.
Messrs. Moore & Co., Victoria, B. C.
Dr. John Pallen, Chatham, N. B.
Messrs. Munro & Co., Montreal.
Messrs. J. Winer & Co., Hamilton, Ont.
Mr. H. J. Rose, Toronto.
Mr. A. Chipman Smith, St. John, N. B.
Mr. John Bond, Goderich, Ont.
Messrs. Elliot & Co., Toronto.
Mr. J. Chaloner, St. John, N. B.
Messrs. Hanington Bros., St. John, N. B.
Mr. R. S. Priddy, Windsor, Ont.
Mrs. Orpen, Morden, N. S.
Mr. George C. Hunt, Jun., Fredericton, N. B.
Mr. W. H. Thompson, Harbor Grace, N. F.
Mr. J. M. Wiley, Fredericton, N. B.
Messrs. W. & D. Yuile, Montreal.
Chas. I. Davies, Fredericton, N. B.

The medicines are sold at the lowest wholesale prices, in quantities of not less than £20 worth—viz., 8s. 6d., 22s., and 34s per dozen boxes of Pills or pots of Ointment, for which remittances must be sent in advance.

Chemists and other vendors of Holloway's genuine Pills and Ointment may have their names inserted in the local papers if they will please apply to—

Local Agents Wanted.

An Agent wanted for each Town and County in the United States.

Parties desiring to act as agents, must accompany their application by a letter of recommendation as to character and responsibility, from and signed by the Editor of a newspaper published in the town or county for which agent proposes to act. The agency is to sell the bonds of the *Industrial Exhibition Co.*

Whole Bonds	$20 each.
Half "	10 "
Quarter "	5 "

The Industrial Exhibition Company will furnish agents with Circulars, etc., etc.

Each agency will be published in the town where agent is located, will as soon as agency is established, be given an advertisement, advertising such agency and the Company, and fully explaining the plans, purposes and objects of the Company. Such advertisement will continue in such papers, as long as agents are successfully concerned.

The Industrial Exhibition Company is the first to adopt the plan so long in use by the European government, of issuing bonds when the principal is made secure and not risked, but where there is a chance for a large premium, an investment of $20 is sure to return to the investor $21—one dollar more than cost—and the holder of a $20 Bond, may obtain a premium, either of $50, $100, $200, $5 0, $1,000, $2,000, $5,000, $10,000, $25,000 or $100,000. The interest, which is ordinarily distributed to all the bondholders pro rata, is in this loan distributed by chance. The purchaser of a bond knows he will receive back his investment, with a small rate of interest added, and in consideration of taking this small rate of into est, he has a chance in the above named premiums, which are simply the distribution of interest on the whole loan.

Each bond participates in four drawings each year until it has drawn a premium, when it is surrendered, the premium paid, and the bond cancelled.

The Industrial Exhibition Company, under a special charter, granted by the State of New York, is given authority to issue these bonds. The Legislature of the State, recognizing the great benefits which will arise from the success of this enterprise, have exempted all the real estate and property of the Company from taxation and assessments for five years, and has also conferred other great privileges.

Every American who understands the purposes of this Company will, of a necessity, feel a pride in aiding it to a successful termination.

Each individual who buys a bond becomes an owner and an interested party, and when he views the structures erected with his money, can say, "I aided to erect in our country, the most magnificent building the world has ever seen a palace which, in truth represents the industry, energy and mechanical genius of the American people."

The manufacturers and the inventors of America are peculiarly interested in the success of this enterprise, for the reason that it is to be their home, where all their inventions and manufactures can be exhibited and sold.

The building will contain 5,326,000 square feet space.

Purchasers desiring Bonds before an agency is established where they reside, will communicate direct with this office, from where they can be supplied.

Parties desiring to act as agents, or to purchase bonds will address,

It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

Acknowledged

by Business Men to be a thoroughly practical business school. A large number of its graduates and members are occupying responsible positions in Canada and the United States, on their own as well as on others' accounts, and by the satisfactory manner in which they discharge their duties plainly evince the great benefit to be derived by pursuing a systematic course of instruction in accounts and business practice, under the supervision of a practical accountant and a man of business experience, before entering into mercantile life; and to which all, both Principals and employees, give their unqualified assent and endorsement.
