ANCHYLOS

The modern treatment for

BONE SPAVIN AND RING BONE

(1) It will not injure or eat into the parts or kill hair.

(2) Your horse may work after the third day.

(3) Guaranteed to cure; has never failed.

(4) It produces anchylosis of the joint, which your veterinary will tell you is the only cure.

To introduce my remedy in Canada I will mail it to any address for One Dollar.

I believe a practical test of the Remedy in each locality is all that is required.

The above price will only last a short time; take advantage of it now, delays are dangerous.

Address, mentioning this paper,

J. A. McLARTY,

Manufacturing Chemist THESSALON, ONT.

AYRSHIRE NEWS

Farm and Dairy is the official organ of The Canadian Ayrshire Breeders' Association, all of whose members are readers of the paper. Members of the Association are invited to send items of interest to Ayrshire breeders for publication in this column

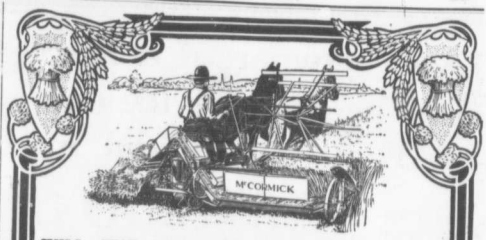
MORE AYRSHIRES FOR ALBERTA

Following the two car lots taken by J. G. Clark of Gillston, Alta., (particulars of which we were unable to secure) was another one of choice Ayrshires, consigned to A. H. Trimble, Red Deer, consigned to A. H. Trimble, Red Deer, Alta., gathered together by R. R. Ness, of Howick, Que. In all there were 20 head —14 for Mr. Trimble, and six head for J. J. Richards, also of Red Deer. In the lot for Mr. Trimble were 10 males ranging in ages from 12 to 24 months. They were selected from the best herds in this section. Stonycroft White Prince by Monkland Victor (imp.), dam Barcheskie Snowflake (imp.), is a fine type of Ayrshire, and should leave some good stock, as he is of the right dairy type. Stonycroft Farmer's Boy by the same sire and an imported cow, Miss Roy, is an animal of excellent quality. About 18 months of age. Stonycroft Sloth Prince, also by the same sire and from another imported cow, Meikle Kilmory Cowbonnie is 14 months of age, and a lusty fellow he is. These were bred at the Morgan farm at St. Anne de Bellevue, near Montreal, where is kept one of the best herds of Ayrshires in that locality.

Greenbank Sam, bred by Wm. Hay, Howick, Que., from the celebrated sire, Barcheskie King's Own, has just passed his 21st month and is a fine quality animal. General White, bred by P. D. McArthur, North Georgetown, Que., about 20 months of age, is from a milky strain. Sired by Monkland Hector (imp.) with the grand cow Sylvia as a dam, this bull should be heard from in the west. He won first place wherever exhibited last fall. One lusty fellow was selected from the herd of Mr. Duncan, Howick. He was also sired by Barcheskie King's Own (the champion bull of America) and from a dam of high milking qualities. Honey Boy, from the herd of Mr. Ness, is a choice animal, and also was sired by Barcheskie King's Own. The quota from W. W. Ballantyne of Stratford, Ont., comprised two lusty young sires of merit. Both were sired by the celebrated Monkland Rising Star (imp.) now owned by Mr. Niki in Japan. The dams were Princess and Neidpath Rose, both cows of great capacity and are making good records in the Record of Performance test. James Bryson, Bryonville, Que., contributed a choice young bull, also sired by King's Own.

Among the females was a cow from the herd of J. A. Logan, Howick, Minnie of Sunnyside, by Leader of Meadowbank. She is a fine type of a dairy cow with grand udder and teats. She is five years of age. W. F. Stephen, Huntingdon, sent two cows, Hope 2nd, and Crown Princess, both sired by Comrades Last of Glenora. They are typical Ayrshires, with splendid capacity and they carry handsome udders and grand teats. The former is six years of age, and has a milk record as a four year old of 6843 lbs. milk and 303 lbs. butter. She is due to calve in May to Mr. Stephen's last imported bull, Auchenbrain Good Gift. Crown Princess, four years old, has a 14 months record as a two year old of 6886 lbs. milk, and 328 lbs. butter. She is due to calve in April to Lessnessock Crown Prince (imp.) W. Stewart, Howick, contributes a yearling heifer sired by Barcheskie King's Own, that has many commendable points.

In the consignment to Mr. Richards was the imported bull, Barcheskie Scotch Earl selected by Mr. Ness in Scotland last summer. He is a large well developed fellow with lots of constitution and character, and was a noted prize winner in Scotland. Among the females is the imported cow Auchenbrain Craig 6th, a fine type of a producing cow. The breeding of these is a sufficient guarantee that they are animals of merit. She is due to freshen in May. Viola of Riverside, from the herd of James Cottingham, Ormstown, Que., is a good mate and is sired by an imported bull. She is due to freshen about the latter part of April. Myrtle of the Briars, by Klondyke's Best, is a choice two year old due to freshen in May. This heifer is the correct form backed up with right breeding. A beautiful yearling and heifer calf, both sired by Barcheskie King's Own fills this quota. These all go from the stable of Mr. Ness but the Viola cow.



WILL THE HARVEST FIND YOU READY?

YOU owe it to yourself to be ready to take care of your grain after it is grown. It may ripen all at once—you will need to cut it quickly. When you start in, you hope to have the work go right along. You will have neither the time nor disposition to tinker with poor working machines, when you go into the field. Be wise in time. Give some thought to the machines you will use in the harvest, and **do it now.** A McCormick binder will give you a sense of readiness for the harvest that you can get in no other way.

If you purchase a McCormick you know that when you go into the field with your hired help, you will not be annoyed with breakdowns and delays—You will be able to harvest your grain in the shortest possible time —You will do it with the least labor on your part, and the least worry to your horses—You will be able to save all your grain.

The McCormick binder has stood the test of time. Its capacity to handle tangled down grain, the simplicity and reliable work of its knotter, its strength, its light draft, easy handling, uniform good work and durability mark it as one of the greatest triumphs in harvesting machine manufacture.

Other farm machines of McCormick make, a long line, are not less valuable than the binder. Every McCormick everywhere is recognized by farmers as a leader in its class. The line includes:

Grain and Corn Harvesting Machines, Binder Twine, Mowers, Tedders, Hay Rakes and Side Delivery Rakes, Hay Loaders, Disk and Hoe Drills, Cultivators and Seeders, Smoothing Spring Tooth and Disk Harrows, Land Rollers and Scufflers. McCormick dealers also handle Gasoline Engines, Cream Separators, Hay Presses, Wagons, Sleighs and Manure Spreaders.

For catalogs and specific information on any McCormick machine, call on the local agent, or write to the nearest branch house named below.
