COPY.

County of York, } To Wit: }

I, Price Brown, of the City of Toronto, in the County of York, Dominion of Canada, do solemnly declare that I am the Foreman of the Press Room of The Mail Printing Company. That the number of copies of THE WEEKLY MAIL printed at this office during the last three months of the year 1880 has averaged over Forty Thousand per week. That the circulation of the said paper has been rapidly increasing, and to-day, January 6th, 1881, the issue of THE WEEKLY MAIL amounts to over Forty-seven Thousand copies.

And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the Act passed in the thirty-seventh year of her Majesty's reign, intituled "An Act for the suppression of voluntary and extra-judicial oaths."

PRICE BROWN.

Declared before me at the City of Toronto, in the County of York, this 6th day of January, A. D. 1881. }

W. BARCLAY McMURRICH,
A Commissioner and Notary Public.

TORONTO WHOLESALE MARKETS—WEEKLY REVIEW.

WEDNESDAY, January 19.

PRODUCE.

The past week has been an uncommonly dull period in this market. Offerings of everything have been very small, but the demand has been so slack that they seem to have been sufficient. Still holders have not been inclined to push sales, and the upshot has been that prices have varied but little. Stocks on hand have shown a slight increase, and stood on Monday as follows:—Flour, 7,417 bbls.; fall wheat, 80,214 bush.; spring wheat, 56,645 bush.; oats, nil; barley, 42,291; peas, 54,367; and rye, 12,242 bush.; against on the same date last year—Flour, 14,848 bbls.; fall wheat, 148,898 bush.; spring wheat, 154,522; oats, 4,000; barley, 182,125; peas, 45,338; and rye, 7,340 bush. An interruption in the cable reports has left us without any news of English markets to-day; but yesterday's quotations show a fall of 1d. on red and red winter wheat, but prices otherwise the same as on this day week. The feeling on Monday and Tuesday seemed to be quiet and easy. Markets were quiet during last week; the attempt to raise prices made at the beginning of it proved a failure. Home deliveries showed an improvement both in quantity and quality. Foreign breadstuffs were quiet but rather firmer towards the close of the week. The general opinion was that offerings from abroad would be in excess of the consumptive demand, and this feeling kept all quiet. Cable disarrangements leaves us without details of last week's imports, and unable to compile the total supply in it. The quantity of wheat and flour in transit on the 13th inst. again showed a slight increase, and amounted to 2,350,000 qrs., against 2,327,000 qrs. on the 6th ult., and 2,210,000 qrs. on the corresponding date in 1880. Mail advices to the 31st ult. state that the imports of wheat and flour into the United Kingdom from August 29th to December 23rd, 1880, amounted to 5,619,620 qrs., against 6,775,895 qrs. last year; and the total deliveries from farmers in the whole of the United Kingdom during the same time were computed to have amounted to 2,910,136 qrs., against 2,002,540 qrs. last year, making the total supply in the above time 8,529,156 qrs., against 8,838,435 qrs. in the corresponding period of the preceding harvest-year, being a decrease of 308,679 qrs. in the first seventeen weeks of the harvest-year. Mail advices state that stocks of wheat at ten leading ports were on the 31st ult. 600,000 qrs. less than at the end of 1879, or little more than one-half. Against this fact, however, has to be set the further fact that the stocks of wheat in the hands of farmers are much larger than they were at the close of 1879. A similar state of affairs, both as to stocks in store and stocks in farmers' hands, seems to prevail on the continent. Continental advices by mail state that in France the wheat trade continued to show very little animation, partly owing to the holidays, and partly owing to the fact that many mills had to stop working owing to the swollen rivers. Most of the country markets quoted some decline, whilst foreign wheat met hardly any demand, and was nominally unchanged. At the close there appeared, however, to be a better feeling. Red winter was quoted at 48s. to 48s. 6d. per 480 lbs., duty paid, in the various ports. The quantity of American wheat on passage to France by sailers remained very small, viz., 130,000 qrs., whilst of Danubian wheat there were about 40,000 qrs. on passage to Marseilles. At this latter port business remained very slack. At Antwerp trade was quiet, but improving somewhat, with red winter quoted at equal to 47s. 6d. to 48s. 0d. per quarter. Imports and the quantity in transit were both small. German advices state that the "term" markets were rather firm and improving for both wheat and rye. But at Berlin wheat was freely offered and gave way in value, with a dull trade. Rye was dearer for December "term," from speculative causes, but distant periods were rather lower. At Hamburg spot wheat continued very quiet, and prices still left no margin for exports. German imports of wheat were very small, but there were at the close of the year 62,000 quarters of corn in transit from America. Advices from Russ an Black Sea ports state that business was virtually at an end, Nicolaieff and the Azof ports being closed to navigation, whilst at Odessa, according to last advices, there was very little passing. About 68,000 qrs. wheat were reported as on passage from the Azof to the U. K., but part of this quantity was expected to be diverted to the continent. Odessa advices of the 27th ult. report a stagnation in business and prices receding all round. States markets have not varied very much in price since our last. It is now admitted that their surplus is larger, and that the wants of Europe are less than in 1879; and "hence it would appear quite absurd to insist on higher prices as the season advances unless the growing crop in this country and Europe should be seriously damaged." This contingency seems improbable, and yet it appears that farmers are holding their wheat firmly, and stocks in the Western States are increasing. At New York the demand for export has fallen off and the markets have been weak. The visible supply of grain, comprising the stocks in granary at the principal points of accumulation at lake and seaboard ports, and on rail from western lake and river ports and frozen in on New York canals:—

FLOUR—The dullness and inactivity which showed some signs of departure at our last have returned; scarcely any business has been done, and values seem to have been easier; superior extra would have found buyers at $4.90, and extra at $4.80 last week, but they were offered at these prices to-day with no buyers in the market.

BRAN—Cars sold on Friday and Saturday at $12.75 to $12.50, which is probably about the present value.

OATMEAL—Inactive, and values apparently unchanged at $4 to $4.10 for cut lots, and $4.25 to $4.50 for small lots.

WHEAT—Inactive, but held steadily, and offered only to a very small extent. No. 2 fall sold last week at $1.09 and $1.10 f.o.c., and was offered on Tuesday at equal to $1.09, but not taken. No. 1 spring has been wanted at $1.10 f.o.c., but no sales reported. No. 2 spring sold in car-lots last week and on Tuesday at $1.14 f.o.c. The market to-day was quiet, but steady; No. 2 fall would have found a sale at $1.09 f.o.c., No. 1 spring at $1.10 for $1.11 at a point east, and No. 2 would probably have brought $1.11. On street fall sold at $1.10 to $1.11, and spring at $1.10 to $1.13.

OATS—All offering have been wanted; cars sold last week and on Monday at 38c. on track; and on Tuesday a car of bagged brought 39c; cars in bulk were wanted to-day at 38c. on the spot, but held higher. Street prices from 36 to 37c.

BARLEY—Has been quiet, with offerings small and prices rather easy. No. 1 has been offered at $1.03, but no sales or bids reported. Choice No. 2 has been purely nominal. No. 2 sold on Thursday at 82c. f.o.c., and on Saturday at 80 and 81c., on track. Extra No. 3 sold on Thursday, Saturday, and Monday at 87c. on track. And No. 3 went off at 78c. on track on Friday and Tuesday. The market to-day was dull and inactive, with no sales reported, and buyers 1 to 2c. below previous prices. Street receipts small; prices ranging from 78c. to $1.

PEAS—Inactive and prices almost nominal, 66c. for No. 2, and 67 to 68c. for No. 1 inspected in car-lots; but round lots held at 70c. Street receipts small; prices ranging from 64 to 67c.

RYE—Dull and weak; cars are unlikely to bring over 50c. On street one sale was made at 50c.

SEEDS—Quiet; clover would be taken by the shipment at $5 to $5.10 for yearling, and $5.20 to $5.25 for new, recleaned in both cases; but holders generally want more, so there has been little trade done. All other sorts are purely nominal.

HAY—Pressed has been quiet and easy; a car of small bales sold at $12 on track. Receipts on the market have been irregular, but on the whole sufficient. Price stood to-day at from $9.50 to $14, with the great bulk going at $12 to $13.

STRAW—Has been rather firmer; loose has sold at $5, and cut and rye in sheaves has ranged from $6 to $7.75, with offerings sufficient.

POTATOES—Car-lots have been inactive, but worth 38 to 40c. Street receipts have been small, and price firm at 40 to 45c. per bag.

APPLES—Car-lots inactive, but would probably bring $1.40 to $1.45. Offerings on the street have been large and prices easy at $1 to $1.25 for the great bulk, but with $1.50 sometimes paid for exceptionably fine samples.

MUTTON—Has been offering more freely, and rather easy in price, at 5c. per lb. for sheep, and 6½c. for lambs by the carcase.

POULTRY—There has been very little coming forward, either by rail or by farmers' wagons. Box-lots have been worth 8 to 9c. per lb. for turkeys and ducks, and 5 to 6c. for geese and fowl. On the street, turkeys have sold at 9 to 10c. per lb., or 80c. to $1.25 each; geese at 55 to 65c.; ducks not offered but worth 60 to 70c. per pair, and fowl 40 to 50c.

PROVISIONS.

TRADE—Has been improving and generally fairly active.

BUTTER—Some enquiry for shipment has been heard, and some lots have changed hands at firm prices; one car of selected sold at about 19c., and a lot of 67 packages of extra-choice selections at 20c. Whether the wants of buyers have been yet satisfied is not clear, but those prices would probably be repeated for choice qualities for the local market. Ordinary round lots have shown no improvement; they continue to be neglected, and purely nominal in price. Rolls have been offering freely, and selling much as before; the great bulk of good lots has gone off at 16 to 17c., but very choice has occasionally gone to 18c. Street receipts have been small, and prices steady at 21 to 24c. for pound rolls, and 19 to 20c. for tubs and crocks of dairy.

CHEESE—Has been quiet but firmer in sympathy with the advance outside; small lots have usually sold at 13½ to 14c., with nothing doing in round lots.

EGGS—Fresh have been very scarce and in good demand; any offering have brought 20 to 21c.; limed quiet and unchanged at 17 to 18c., with offerings sufficient. Street receipts very small; new-laid wanted at 25 to 28c., and fresh bringing 20 to 21c.

PORK—Quiet and firm; a few small lots have sold at $16.50, but car-lots were held at this price to-day.

BACON—Has been active, at advancing prices. Long-clear has been wanted; cars have sold at 8¾ and 8½c., and on Tuesday evening a sale of five cars for March delivery was reported at 9c.; small lots were held to-day at 9½c. Cumberland has been quiet; but the advance has extended to it, and 8½c was asked for small lots to-day. Rolls have been firm at 10c.; but no movement reported in shoulders.

HAMS—Active and steady; smoked have sold in lots of 100 at 10½c., and in small lots usually at 11c.; pickled hams were held to-day at 10c., but it has not been paid. Green have sold freely; one round lot sold at 9c. and another of 1,000 hams at 9½c.

LARD—The late active demand has been maintained at steady prices; tinnets have usually sold at 11, and pails at 11½c.; tierces at 10½ to 10¾c., but there is some inclination manifested to charge an advance on these prices.

HOGS—Were inactive during the latter part of last week, with buyers and sellers apart; but an advance was established on Tuesday, when sales were made at $6.37 and equal to $6.40, and to-day $6.45 was paid for cars. Street receipts very small, and prices up to $6.50 to $7.

SALT—Has shown no change since our last; sales seem to have been limited. Cars of Liverpool are held at 75c.; small lots usually bring 85 to 87½c.; dairy has ranged from $1.25 to $1.40, according to quantity and quality of the bags; Goderich quiet at $1.10 for cars here, being equal to 80c. at the wells; small lots at $1.15 to $1.25.

DRIED APPLES—Country lots have been more active, and have changed hands at 3¾ to 4c., closing with the former price still bid. Dealers sell as before at 5c. for barrelled in small lots.

HOPS—Quietude has continued to be the rule, with buyers and sellers apart; for choice first-class 18 to 21c., and for good medium 17 to 18c. has been bid and refused. Yearlings have not been much in demand, but good qualities worth 10 to 12c.

CATTLE.

TRADE—Has been quiet but firm.

BEEVES—There has been very little change during the week—small receipts; poor qualities, and high prices have remained the rule. As before the easy way of getting any fit for shipment was by picking a couple out of a load; prices have been firm at $4.75 to $5.25 for steers weighing 1,300 lbs. and over. Second-class, consisting of light steers and heifers and heavy cows, have been in sufficient supply, and all offering readily taken for the local market at steady but unchanged prices; the general run has been $4 to $4.25, with $4.50 sometimes paid for steers. Third-class also have been scarce, firm, and selling well, usually at $3.50 to $3.75, but some poor bulls going as low as $3.

SHEEP—Offerings have been on the increase, and fully equal to the wants of the market. Prices have remained easy, but showed no change of any consequence. Choice first-class, weighing not under 150 lbs., have been easy at $4.00 per central, or $6.00 to $6.75 each. Ordinary first-class, weighing 125 to 150 lbs., have been much as before at $5 to $6 each; and third-class are not wanted at any price.

LAMBS—Have been in increased supply, but all offering have been wanted, if not for this market then for export to the States. This steady demand and the high prices now ruling for skins have kept prices steady, but no advance can be quoted. Picked have sometimes brought $4.50; but drovers of first-class, dressing not under 45 lbs., have usually sold at $4 to $4.25. Good droves of second-class, dressing from 35 to 43 lbs., have ranged from $3.37 to $3.75; and third-class and culls have run from $2.75 to $3.25; but offerings of the latter few and these few fully sufficient.

CALVES—The supply has been small but apparently equal to the demand; all of good quality offering have found a sale at steady prices. Choice first-class, dressing from 125 to 150 lbs., have brought $7.50 to $9.00; ordinary first-class, dressing from 100 to 125 lbs., have been firm at $6 to $6.75, and any of lighter weight have not been wanted.

HIDES, SKINS, AND WOOL.

TRADE—Seems generally to have been fairly good for the season.

HIDES—Prices of green have advanced 50c. per central, but this must not be taken as indicative of any change in the market, being purely the result of local competition. Cured have sold at 10c., and could probably still be bought at this figure.

CALFSKINS—Offerings small, and selling as before at 14 to 16c. for green; cured nominal.

SHEEPSKINS—The demand has been slack, as dealers are not very anxious to buy at present prices, and certainly want no more than they have been getting. Prices continue moving upwards slowly; the best green now bring $1.65 to $1.75; country lots range from $1.30 to $1.50.

WOOL—Has been quiet but fairly steady; one round lot of 8,000 lbs. of fleece sold on Saturday at 30c., which price would have been repeated, but holders generally want more; some small lots have sold at the same price. Pulled of all sorts has been dull, and super not worth over 29 to 30c.

TALLOW—There has been no change in the condition of the market either as regards price or movement.

Quotations stand as follows:—No. 1 inspected, $9.50; choice No. 1 steers, $10; No. 2 inspected, $8.50 to $9; No. 3 inspected $7.50; calfskins, green, 14 to 16c.; calfskins, cured, 17c.; calfskins, dry, none; sheepskins, $1.25 to $1.75; wool, fleece, 30 to 31c.; wool, pulled, super, 29 to 30c.; extra super, 34 to 35c.; wool, pickings, 11 to 12½c.; tallow, rough, 3½c.; rendered, 6c.

JERSEY CITY.

Jan. 19, 10.50 a.m.—Cattle—Quiet, 8½ to 10¼c.; receipts, 156. Sheep—Quiet, 5 to 5c.; receipts, 20 cars. Lambs—Quiet, 5½ to 6¼c.; receipts, 3 cars. Hogs—Steady, 6¼ to 7c.; receipts, 38 cars.

EAST BUFFALO.

Jan. 19.—11.45 a.m.—Hogs—Higher, very few here; receipts, 22 cars; shipments, 16 cars; 8 cars Yorkers at $5.40 to $5.60; pigs and light Yorkers at $5 to $5.70; medium and heavy at $5.40 to $5.55; six cars reported to arrive, probably through stock.

Jan. 19.—Cattle—Receipts, 1,326; hogs, 2,530; sheep, 2,700. Shipments—Cattle, 2,711; hogs 2,173; sheep, 1,800. Cattle—To-day there was quite a fair supply on sale, but there was only one or two shippers on the market, and trade ruled dull and slow at a decline of 10 to 15c. per cwt. on nearly all grades; the bulk of the offerings, however, changed hands; the highest price received was $5 per cwt., no very prime steers being on sale; light Missouri fair Michigan brought $4.15 to $4.75; common mixed to good butchers' lots, $2.90 to $3.87½; a load of Missouri cows went at $3.75, and a load of Cherokee steers brought $3.25. Oxen sold with a few unsold. Veals—Easier, but not quotably lower. Sheep and lambs—The demand was fair, and prices about the same as on Monday for good lots of fresh stock, but a number of common stale lots sold very poorly; the bulk of the offering, however, was sold, and the market on the whole ruled fully as strong for good grades as at the opening of the week, but sales were not as readily effected. Hogs—There was scarcely enough stock on sale to form a market, the few loads offering being quickly disposed of, mostly on orders from the country and to outside buyers, hence sales made to-day do not form a fair criterion of the market, as with a fair run values would rule lower.
