WORLD'S FAIR POSTOFFICE.

Tremendous Business Done by It—A Surprise to Officials.

CHICAGO, Nov. 3.—James J. Hastings, superintendent of the model postoffice in the Government building at the World's Fair grounds, made a report yesterday to Postmaster Sexton on the work of the office during the period of the exposition. It shows that during the six months 7,987,467 pieces of mail matter were dispatched and 7,121,916 pieces were received. This total has surprised all who had to do with the organization of the postoffice. It is as large a business as is done in a city like Detroit or New Orleans.

Nothing impure or injurious contaminates the popular antidote to pain, throat and lung remedy and general corrective, Dr. Thomas' Eclectric Oil. It may be used without the slightest apprehension of any other than salutary consequences. Coughs, rheumatism, earache, bruises, cuts and sores succumb to its action.

BOILER EXPLOSIONS.

Three Terrific Explosions—Five Persons Killed in New York and Several Badly Injured—A Steamer Burned by an Explosion—The Steam Boiler and Plate Glass Insurance Company, of London, Ont., Inspect and Insure Against Any Such Losses.

The frequency with which boiler explosions occur and the terrible nature of the disasters which results are conclusive proof that all engineers should be competent and their work and the boilers examined periodically by inspectors.

The Steam Boiler and Plate Glass Insurance Company of this city are organized to meet such a demand.

They inspect the boilers and indemnify against loss.

BOILER EXPLOSION BY OVER-PRESSURE.

NEW YORK, Nov. 2.—A boiler in the stables of the Dry Dock, East Broadway and Battery Surface Railroad Company, at Fourteenth street and Avenue E, exploded at 1 o'clock to-day and tore out the building, causing death and destruction. The section of the building in which the boiler was located collapsed. The boiler flew across the street and struck the double tenement, No. 534 East Fourteenth street, just below the first story. The side of the building was crushed in. Three men were instantly killed and nearly a score were injured, several of whom have since died.

The dead are: Joseph Quinn, Samuel McMullen, Thomas Hassan, John Gillespie, William Royal. The missing—James Armstrong, the engineer, believed to be under the ruins. The injured—Charles Breslin, Patrick Sheehan, James Harlan, Mike Brennan, Michael McDonald, George L. Martine, Thomas Parnell, William Egan, John Peters, Annie Gallagher, Myrtle Gallagher, John Ruhle.

There was a mighty roaring, a crashing of falling bricks and broken timber. Like a shot the boiler was lifted out of the stable and flew across the street. It struck the tenement directly opposite with a shock that shook the whole block. Windows were smashed everywhere in the vicinity. Screams from the score of wounded rang out wildly. Women with children in their arms rushed in a frantic panic to the street and a cloud of dust and pieces of building material shot high into the air. Men staggering with wounds that in some cases were fatal ran through the street and dropped everywhere. Thomas Hassan was standing in front of the railing of 534, just across the street from the stables. A corner of the boiler struck him in the body and skull and sent him flying twenty feet.
