NEW YORK MARKET LETTER.

New York, Aug. 31—Latest developments seem to indicate bullish operations for the stock market today. The general list appears to be in a trading area as yet, with the high-priced stocks under manipulation and preferred by professionals as short sales on rallies, while the low priced issues, particularly the industrials, are preferred as a purchases on little recessions in the belief that industrials have not discounted the prosperity thead. We suggest a conservative attitude along these lines, with purchases protected by stop orders. We advise against climbing after stocks.

The Harriman statement is, of course, the most important official document this morning. The Herald says he is going away to Texas for a rest. The report should set at rest the rumors, and it is likely that Harriman department of the market will now quiet down. Our information indicates greater Morgan activity than for a time. There is noted a resumption of odd lot buying, showing that the public is watching closely lthe activities on the stock exchange.

Press comment is more bullish, while market literature appears to exhibit a more cheerful feeling. The market's technical position is, beyond question, improved. Further short covering may make it vulnerable again.

MORNING COTTON LETTER

New York, Aug. 31—At the opening this morning the report of Burch will available. In our letter of yesterday morning, we gave comparisons for this report. The Giles report will be issued at midday. The presumption is that the report of National Ginners will also be available, while the report of Journal of Commerce will undoubtedly be out on Wednesday morning.

The firmness of yesterday's market will probably the result of two underlying considerations. First, the expectation of very bullish figures; second, a feeling that as the market has not developed weakness about the new crop movement, the movement may without influence on the ground that southern offerings would have cheapened, had they sufficient demand already.

We are inclined to doubt whether the market deterioration will exceed four P. C. It may reach five p. c., which will be giving it out around 66 to 67.

LOCALS IN BRIEF

The Artillery Band will give a programme at Seaside Park this evening, weather permitting.

Miss Angela Diller and E. B. Manning, of New York, will give a choice programme of violin and piano music in St. John's (Stone) church on Thursday evening, Sept. 9.

Dunphy Downy,who was injured in Stetson & Cutler's mill a few weeks ago, is gradually improving in the hospital Amputation of his leg will not be necessary.

Harvard, Mass., Aug. 30—Seized with a fit while fishing in a boat with four companions, Thomas Herbert Wilkes, aged 19, of Clinton, fell overboard and was drowned today.

A very enjoyable dance was held last evening in the rooms occupied by Prof. Goudie, King street. There were about thirty people present and the varied programme of dances proved very entertaining. The affair was termed a "shirt waist dance."

The funeral of Miss Mary Shea was held from her late home, 121 King street east, this afternoon at 2 o'clock, to the cathedral, where burial service was conducted by Rev. Fr. O'Brien. Interment was made in the old Catholic cemetery.

Word has reached the city that Miss Brown, daughter of M. D. Brown, who is ill at her father's summer home, Lower Jemseg, is very low and that as the result of the development of spinal meningitis, it is reported that she has lost her sight.

The members of the Ridgeway Outing Club will hold a garden party on the club's grounds at Golden Grove on Labor Day. It promises to be very successful. The following committee has the affair in charge: S. G. McIntyre, H. Patchell, F. Smith, G. W. Thompson and W. T. McLaughlin.

Efforts are being made today by the Renforth Athletic and Outing Association to arrange for acquatic sports in connection with the big programme for the night of Labor Day. The idea is that there might be some single scull events that would bring Hilton Belyea out against the best of the local talent, and have the best four-oared crews compete against each other. The sports would take place in the afternoon.

P. E. I. ELECTION CASE AGAIN

Charlottetown, P. E. I., Aug. 31—(Special)—Yesterday Justice Fitzgerald heard an application to set aside the petition against Cyrus W. Crosby, Liberal, elected in the by-election in the first district of Queens on July 7, on the ground that the petition stated the election was held on the 8th. Applicant's counsel contended the error was substantial and could not be amended without a new petition being filed, and the time for doing so has expired. On the other side it was argued that the election continued from nomination to declaration, and any day between these dates could be named. The court reserved judgment.

This morning Rev. S. J. Woodroof, rector of St. Paul's Episcopal church, left for his new charge in Dartmouth. Prof. W. H. Watts, organist of the First Methodist church, left for Edmonton. Both were recipients of addresses and purses.

LITTLE HOPE FOR HIS RECOVERY

A telephone message from Plaster Rock to the Times this afternoon stated that the young Irishman, Jas. Gorman, was not expected to live. It was thought that peritonitis had set in, and, though the patient was very ill, he was still conscious. Dr. Coffin, who attended him, said that he had about one chance in ten to recover.

Samuel Colle, the Italian, who is charged with shooting him, was brought to Andover this morning and taken before Police Magistrate Neil McQuarrie for his preliminary hearing. T. J. Carter appeared for the prosecution and C. H. Elliot for the defendant.

The prisoner was remanded and on account of the uncertainty of the wounded man's recovery, it is not likely that the Italian will be examined for a few days.

In the meantime the Italian will be kept in the jail at Andover.

A meeting of committees appointed by the different Presbyterian churches in this city was held last evening in St. David's church to arrange for the reception and entertainment of the Presbyterian synod, which is to meet here in October next. There will be, it is expected, between 300 and 400 representatives, including ministers and elders, from the different sections of the maritime provinces.

Canada's Famous Men and Women

Mr. James Dingwall (Superintendent of St. Andrew's Sunday School in Williamstown, Ont., for nine years), states: "I am now over eighty years old ,and I can strongly recommend Fruit-a-tives for Bladder and Kidney Trouble and Chronic Constipation."

Mr. H. Marchessault (High Constable of Quebec), testifies: "I suffered for ten years with Severe Pain in the Back. Nothing did me any good until I tried Fruit-a-tives."

DETERMINED TO DIE BUT PREVENTED

Belleville, Ont., Aug. 31—(Special)—Luke Shaw, an Englishman, thirty years old and married, while crazed with drink, yesterday, attempted to end his life by throwing himself from the bridge into the river.

Reith, of Lucan, fought a lone battle yesterday out on the railway track two miles west of Ailsa Craig, with Frank Beaudore, an escaped lunatic from London Hospital for Insane. SAILING RACE AT WESTFIELD

As the result of the finish on Saturday of racing fixtures at Westfield, it has been arranged to have a special race on Saturday that will bring the boats of the A and B classes together for the championship of the combined classes. The contest will be a novel one, as boats of these classes have never competed against each other previously.

The A class is limited to salmon boats not over 28 feet, and the B class to sloops not more than 25 feet. The Chinook, Wabena and Mona, the fastest of the former class, and the Rosamond, Chip II. and Louise, the best of the latter class, have already signified their intention of starting.

The race will be sailed under the Seawanaka rules, which gives the boats their handicap at the start, the first boat finishing being the winner. There is much discussion among the enthusiasts as to how the Chinook and others of her class would fare against the Rosamond, the winner of the class B race Saturday, and the Chip II., her speedy rival in a race governed by Sewanaka rules. In such a contest the Chinook will give the Rosamond in the vicinity of 8 minutes in an 8 mile curse. Among other boats that are almost sure to be among the starters, are the Lolita, Glenwood, Lillian, Arrawana and Leonard's salmon boat.

MUST HAVE GOT A GOOD SORT OF WIFE

Seattle, Wn., Aug. 31—John W. Gates, financier and mining operator, was about to board his private car here yesterday when a white haired man, who had grown old preaching the gospel, stepped up to him and accosted him.

Mr. Gates quickly recognized him as the Rev. Mr. Foster, who forty years ago, as minister of the Methodist church in St. Charles, Ills., married him to Della Baker.

"When you married us I gave you a $5 fee, but I'll make up for it now," said Mr. Gates, as he wrote his check for $1,000 and handed it to the minister.

Rice is used to advantage as a border for creamed meats and vegetables.

FOUND HANGING BY NECK OVER CLIFF NEAR HARTLAND TODAY

Hartland, N. B., Aug. 31—(Special)—Yesterday morning William Brown, aged about fifty-five left his home at Mount Pleasant about nine miles from here and did not return. Toward night a search party was sent out and this morning his dead body was found hanging by the neck to a rope over a cliff. The other end of the rope was fastened to a tree. The case is thought to be one of suicide, as the man had been mentally unbalanced for some time and was only recently released from the provincial hospital.

Coroner Curtis was notified by telephone and permission was given for the removal of the body to the house about half a mile distant. He will view the body and take the testimony of those who found him, this afternoon.

Mr. Brown leaves a wife the daughter of Amasa Shaw, of Upper Brighton. He owned a good farm and was fairly well to do. Recently he was negotiating for the sale of his property to a young man lately arrived from the west, the deal was practically concluded, but he had begun to repent of the bargain he had made and it is supposed this further aggravated his mental condition. The funeral will be held tomorrow. The condition of chief Albion R. Foster is considered quite favorable today, and with no set back his recovery is assured. Benjamin McIsaac the young man who suffered a broken back at Florenceville yesterday, is still alive but with no hope of recovery. There was some frost in parts of the county last night. a heavier touch is feared for tonight in which event hundreds of acres of buckwheat and beans will be destroyed.

HEAD OF HARVARD CANADIAN CLUB VISITS ST. JOHN

H. E. Bigelow, who is president of the Canadian Club at Harvard, having been re-elected for a second year, is in the city today. The club has from forty to forty-five resident members, and quite a large number of life members, from among former students. The club has decided to have a club house of its own at 12 Oxford street, and in order to be in a position to meet the expense has appealed to former members to become life members. Lord Strathcona sent the club $100, and Sir Frederick Borden and other old students have already responded.

The club is particularly glad to meet Canadians who visit Boston, and proposes to have luncheons with addresses by distinguished Canadian visitors from time to time. Any British subject at Harvard may join this club, which has enlarged its scope for that purpose. Among the present year's officers are Canadians, a man from Newfoundland and one from India. Mr. Bigelow is a Nova Scotian, formerly of Mount Allison.

A glance over the list of former New Brunswick students at Harvard shows a remarkably long list of well known names. Judge McLeod, Judge White, Judge Forbes, Judge Armstrong, Dr. R. F. Quigley, Sheriff Ritchie, A. W. Baird, and a great many other familiar names catch the eye in a passing glance.

A LITTLE WOMAN AND HER POCKET BOOK IN DEPOT

A lady claiming to have been robbed of her pocket-book, caused a flurry of excitement in the Union depot this morning between the arrival of the Atlantic and the departure of the Halifax train. She came to the city on the Montreal train, and went into one of the cars of the train on the other track. After remaining there for a few minutes, she went into the ladies' waiting room. Here also she stayed for only a short time returning again to the car. In the meantime policeman John Collins had gone into the ladies' waiting room and found a peculiar looking purse which on failing to find teh owner, he placed in his pocket and went back again to the station platform in the yard.

It was not long before a little woman, apparently very much excited, ran up to him, ordering him to arrest two women in the train, who had robbed her of her pocket-book containing $7 and some valuable cheques. Very cooly the big policeman listened to her story that they had sat in the seat opposite her and, when she had left her purse on the seat, and chanced to turn her head slightly, they had snatched the pocket-book. She wanted, through the medium of the police, to have it restored. She then described the appearance of the purse, and its contents, and policeman Collins knew at once that the purse in his possession was the property of this excitable little woman, who jumped so readilly to conclusions. It was laughable to behold the surprised look on her face when, from his pocket, the policeman brought her lost pocket-book and handed it to her. With many expressions of thanks and relief, she went back to her seat in the train, opposite the two members of her sex whom she had been terming pickpockets and thieves.

CASE AGAINST MR. CURRIER MAY BE DROPPED

Woodstock, N. B., Aug. 31—(Special)—There is great interest in the examination of Rev. F. Allison Currier, charged with obtaining money under false pretences from William Everett and others by selling property to them in the Whatcom Valley (B. C.). BALL GAME MATTER IN HANDS OF POLICE NOW

There is apparently trouble aplenty in the base ball situation. Manager D. B. Donald, of the Marthons, today said that while he desired to be fair with Edward Ramsay, the player under suspension, the affidavit of the latter as published in morning papers, was entirely at variance with statements the former captain of the Marathons made to him in his (Donald's) room last evening, and that in a statement he is preparing for the morning, he will show that there is evidence that the illness, if there was any, was brought on purposely by Ramsay.

Mr. Donald further said that the whole affair was in the hands of the police. The affidavit of Ramsay referred to, will be found on another page of this paper.

He also wished to state that the protest made by him was not for the purpose of calling bets off.

"You cannot get gold without digging," but it is absolutely necessary that you dig in the right place. The Currie Business University is an institution with such a well organized employment bureau that the chances and opportunities for the young are multiplying and increasing. The pupil who enters this school with a determination to work, who is able to say in the morning: "I know I can do it," and at noon: "I have done my level best so far," and at night: "I did the best I could all day," will certainly be recorded among the list of high salary earners in a reasonably short space of time.

The proof of this has been recorded in the daily papers almost every day, under the well known heading, "Another Position," which means that another pupil has secured a position at a salary of $300 to $800 per year. A business college that fills positions at two and three dollars a week, acknowledges a weakness, which must be apparent in the pupil's training, and lowering to the school standard.

The Currie Business University is recognized by the business community as the modern high standard business school of the maritime provinces.
