MEMBERS' DAY AT THE PAVILION.

A Number of M.L.A.'s Discuss Temperance on Sabbath Afternoon—Mr. Marter's Bill No Political Dodge.

It was local members' day at the Pavilion yesterday afternoon. The assembly of prohibition sympathizers were addressed by Hon. G. W. Ross, M.L.A., A. F. Wood, M.L.A., Joseph Tait, M.L.A., and George F. Marter, M.L.A.

Of course the member of the Government was in the chair. He said he had been 30 years publicly advocating temperance. Dropping into statistics, he said that temperance is now studied by over one-third of the scholars of the Public schools in Ontario, and that one-half of the pupils of the Separate schools were also studying temperance. Also that scientific temperance is taught in 30 states of the American Republic, and nearly 14,000,000 children are studying that branch of education.

Discussing the situation from a legislative standpoint, Mr. Ross stated that in Great Britain Mr. Harcourt, Chancellor of the Exchequer, had now a local option bill before his colleagues. In Canada the Government had given a commission to investigate the liquor traffic and report if it is as great a source of evil as is asserted by many petitioners.

In the Ontario Legislature the matter of temperance legislation has become more important than that of any other issue.

Mr. Wood opened with the statement that he was a strong supporter of the prohibition movement, no matter from which side of the House favorable legislation was proffered. He had found a number of men who sympathized with the temperance movement, but were in doubt as to the course to be pursued to bring prohibition into effectiveness. To these men he wished only to say, what are sympathizers in any agitation good for if not to overcome every difficulty, no matter how great it seems? [Cheers.]

No Necessity for a Plebiscite.

Mr. Marter informed the assembly that his wishes in the morning influenced him to remain away from the Pavilion in the afternoon, because he had no liking for too much notoriety. However, he had gone to church, and had there met friends who assured him that if he did not attend the temperance meeting an unjust construction might be placed upon his action in absenting himself. Therefore he had decided to go and speak.

He said there was no necessity for a plebiscite, for the people of Ontario were ripe for prohibition and a vote upon prohibition would prove his statement to be correct. He considered a plebiscite would be about as effective as the commission appointed by the Federal Government, it would simply stave off the day when prohibition Marter's come.

Mr. Marter's main contention on the temperance issue was that if wrong is being done by men who are licensed to sell liquor, then wrong is being done by the Government that grants licenses to sell liquor. He stated that if the prohibition bill were a political dodge, as prejudged by several people, then he was willing to turn the bill over to Mr. Ross and guarantee a continuation of his support of the measure.

Mr. Tait introduced himself as a man who does not know the taste of any kind of intoxicating liquor. Referring to the numerous petitions for prohibition sent to the Government from municipal councils and societies, he called attention particularly to Orange lodges, and the assembly applauded.

He, too, believes that the province is ripe for prohibition, and that the courts would sustain the legality of a prohibition bill after having pronounced favorably upon the Local option bill. He repeated Sir Oliver Mowat's statement that the highest courts had decided that there is no distinction to be made between legislation on the retail and wholesale liquor business, and that, therefore, prohibition is practicable.

It was great satisfaction to him to know, he said, that the Legislature will discuss this session means more practical than formerly for enforcing liquor laws. He characterized laws enacted and unenforced as acts of the most demoralizing kind.

The meeting next Sunday afternoon will be addressed by Dr. G. W. Bryan of Philadelphia, who is a negro.

Have Not Secured the Garden City.

Captain Wigle of the Garden City gives a flat denial to the statement made to The World by Mr. F.P. Bosely to the effect that the Garden City had been bought and that it would run as one of a line between Toronto and Montreal. "The statement is absolutely untrue," said Capt. Wigle, "and the publication of it tends to injure our business. The Garden City this summer will ply between Toronto and St. Catharines as usual. Capt. Murray will be in charge."

The World wishes it to be understood that these statements and counter-statements are what the gentlemen named say, not what this paper says. Speculators in Richelieu and Navigation Company stock will please take note of it.

Cab Drivers Take a Hand.

A motion was made to Chief Justice Galt on Saturday for a writ of certiorari in Reg. v. Thomas Somers. Somers was convicted by Justice Baxter of infringement of the bylaw against driving a cab for hire on Sunday and was fined $2 and costs. The Cab Drivers' Association has taken the matter up and is making a test of this case. Mr. Tytler appeared for Somers, while Mr. Baxter was represented by Mr. DuVernet. His Lordship made the order.

Court House Tenders.

Architect Lennox is of the opinion that the erection of the Court House by day labor will be cheaper than by contract labor, and the City Council may aid him to-morrow night to settle the matter.

The tender of William Garson of St. Catharines was the lowest, but his sureties are not acceptable.

The tender of Arkles H. Rundle is next lowest, but was not accompanied by the requisite cheque.

The next lowest tender is that of Brown & Love, but it is $80,000 higher than that of William Garson, and the architect thinks $20,000 can be saved by utilizing day labor.

City Hall Notes.

John McMillan commenced his duties as jail steward yesterday.

A check for $55,000 was signed by the City Treasurer yesterday and given to J. W. Leonard. That amount is the city's contribution towards the filling in of the alternative site.

A petition is being signed by North End residents against the closing of the branch library.

There were registered at the City Clerk's office last week 102 births, 16 marriages and 89 deaths.

They Never Fail.—Mr. S. M. Boughner, Langton, writes: "For about two years I was troubled with inward piles, but by using Parmelee's Pills I was completely cured, and although four years have elapsed since then they have not returned." Parmelee's Pills are anti-bilious and a specific for the cure of liver and kidney complaints, dyspepsia, costiveness, headache, piles, etc., and will regulate the secretions and remove all bilious matter.

The Canadian Beecher.

An immense congregation heard Rev. Mr. Hossack's initial sermon on "And man became a living soul" in the Parkdale Presbyterian Church yesterday. He created a most favorable impression and he is spoken of by more than one as "the Canadian Beecher." The prosperity of the church under his pastorate is assured.

THE BIGELOW ESTATE.

A Satisfactory Settlement Arrived at Between the Parties.

The master in ordinary this morning confirmed a settlement in the matter of the administration of the Bigelow estate, the parties having arrived at a settlement out of court. The arrangement made in short is that the claims of the creditors are to be satisfied and the balance of the estate divided equally between Mrs. McDougall (late Mrs. Bigelow) and her two children, the estate acknowledging the correctness of Mrs. McDougall's claim for $46,425, for monies advanced to her late husband. The mother is to get the income of the children's shares till they reach majority, or till the daughter marries, if she does so before she is 21, and the shares are then to be paid to the children.

TWO SERIOUS CHARGES.

A Suspected Highway Robber In the Toils.

John Conlin, 150 Sackville-street, is under arrest at No. 4 Police Station, charged with being implicated in the Esplanade affair, in which the Weston weaver was so badly maltreated. He is also charged with drawing a revolver on G.T.R. Detective Holman at Newtonville, recently, when the latter was about to arrest him for stealing a ride on a freight train.

TIPS FROM WALL-STREET.

Monroe, Miller & Co. of New York send the following despatch over their private wire to their Toronto office:

NEW YORK, April 22.—The stock market opened moderately active but heavy in tone, with prices lower all round, the declines extending to 1¼ per cent. The features were National Lead, Chicago Gas, Consumers' Gas, Sugar and Western Union. After the initial dealings there was a further decline in all the active stocks.

There was an inclination to sell Mo. P. Stocks having an international market were lower on disappointing cables from London. The belief abroad is that the Government will be compelled to issue bonds to relieve the financial situation. A St. Louis special says the D. C. F. has publicly announced the intention to make such low prices there as to drive all outside distillers out of business. Up to 11 a.m. arrangements had been made for the shipment of $1,850,000 gold on Tuesday. Sales of stocks to noon 58,900. It is stated at the Treasury Department that the reserve has been encroached upon about 2,000,000.

MANNING ARCADE.

GOSSIP FROM CHICAGO.

R. Cochran received the following from Kennett, Hopkins & Co.:

CHICAGO, April 22.—Wheat—Near the close yesterday wheat was sold on a little panic and the price declined when it ought to have advanced. The sober second thought was under the buying this morning, inspired by strong cables and good foreign buying orders even the weakness in May made no impression on the market for the moment. Natural influences had their sway for a time and prices rose more than a cent over yesterday's closing. Foreign crop damage reports cut more figure than our own. They are not so definite and speculation likes a mystery. The May deal is still a great drug on the market, but it is gradually being eliminated. The visible will probably show a good decrease. The market ought to do better next week. Corn and oats were firmer on less favorable outlook for the next crop with shorts covering in consequence. Provisions are somewhat lower. Longs took profits moderately on the prospects of larger receipts of hogs next week.

EPPS'S COCOA

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

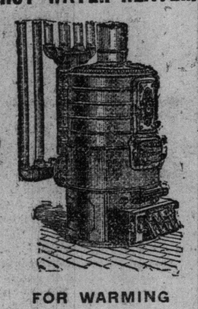
LATEST AND BEST — WITHOUT A PEER



FOR WARMING DWELLINGS, SCHOOLS, CONVENTS, CONSERVATORIES, PUBLIC BUILDINGS.

Recent Testimonial from Thomas Shortiss, Toronto, Jan. 3, 1893:

Messrs. Gurney Foundry Company, Toronto:

GENTLEMEN,—I have had some experience in Hot Water Heating, having used the Spence (your own invention), made under the name of the Gurney, and finally your Oxford Boiler, and I now have to say of the Oxford that it is not only all that you claim for it, but more. Indeed I cannot conceive of anything that would fulfil the conditions required in heating a house more fully.

You may refer anyone to me that you may see fit, and I shall be glad to give in extenso what I now give so briefly. Wishing you the compliments of the season, I am

Yours respectfully,

THOMAS SHORTISS.
