The Valse of the Season.

From the music publishers, Suckling & Sons, The World has received a valse entitled "Reve D'Amour," composed by Mrs. George W. Torrance of this city. Notwithstanding the fact that the valse has only seen the light of day for a couple of weeks, the first edition is nearly exhausted. The valse is extremely danceable, possessing a graceful flowing melody, and it may be mentioned that the merits of the composition do not terminate with the first figure, as is usually the case, but the other figures, while differing in character from the first, are tuneful and original. The Grenadiers' Band, to whose officers it is dedicated, performed it at their entertainment. It is sure to be popular.

In his Vegetable Pills Dr. Parmelee has given to the world the fruits of long scientific research in the whole realm of medical science, combined with new and valuable discoveries never before known to man. For Delicate and Debilitated Constitutions Parmelee's Pills act like a charm. Taken in small doses the effect is both a tonic and a stimulant, mildly exciting the secretions of the body, giving tone and vigor.

Lowe and Buchanan Sent for Trial.

Magistrates Baxter and Fleming yesterday afternoon committed Frank Lowe and A. A. Buchanan for trial. They were charged with obstructing Inspector Ward while searching for liquor in their room, No. 6 Queen-street east. Mr. Curry pointed out that the case could be disposed of summarily. While Mr. Fleming did not altogether agree with Magistrate Baxter he believed that the latter had acted on high authority.

A Water Rate Reduction.

The water rate sub-committee yesterday decided to recommend that a rate be struck just sufficient to bring in a revenue covering the current expenses of the department. This means, if the recommendation is carried out, that the present rate will be reduced 50 per cent.

NOTICE

WEIGHTS AND MEASURES

Traders, Manufacturers and Owners of Weights, Measures and Weighing Machines generally are specially requested to read carefully the following instructions and act accordingly:

1. The Weights and Measures Act provides for a regular biennial inspection of all Weights and Measures used for trade purposes, as well as for irregular inspections of the same, which may be made at any time when deemed necessary by the inspector, and it also imposes a heavy penalty on any trader or other person who wilfully obstructs or impedes an inspector or assistant inspector in the performance of his duty under said Act, or who refuses to produce the whole of his weights and measures for inspection when called upon to do so by an inspecting officer.

2. Every Trader, Manufacturer and Owner of Weights, Measures and Weighing Machines when paying moneys to Inspectors or Assistant Inspectors of Weights and Measures for verification fees is entitled to, and is specially requested to, demand from the officer who makes the inspection an official certificate ("Form O. 6") with the words "Original for the Trader" printed at the head thereof) properly filled out and stamped, and also at the same time to carefully ascertain whether or not the stamps attached to such certificate represent exactly the value the amount of fees paid. Traders are requested to bear in mind that certificates of verification are of no value whatever unless stamps covering the full amount of fees charged are attached.

3. Owners and holders of these official certificates are specially requested to keep them carefully for two years, and in order to secure their safe keeping it would be advisable to placard them in their places of business in the manner in which ordinary license certificates are done, for it must be distinctly understood that all traders who are unable to produce their properly stamped certificates when asked to do so by an inspector or assistant inspector may, in all probability, have to pay over again their verification fees.

SHIPMENT TO A BETTER MARKET readily relieves a glut in gold or grain or other merchandise—but this cannot be done with a glut in vacant lots in the distant outskirts of the city. They must remain outside the usual custom of commerce for relieving a flooded market. The influx of population is the only source that can be counted on to create a legitimate demand for this class of property. 100,000 lots recently blocked out call for 500,000 people to make use of them, without which they can have no practical value and must remain 20 or 30 years dead stock and dead money to all concerned.
