## The Weeping Willow.

BY JOHN DAVIS WATSON.

Mournful waves the weeping willow,
Rocking gently in the breeze,
Like a bark upon the billow,
Sweeping o'er the stormy seas.

Like a maiden's 'kerchief waving
Farewell to her lover's eye,
On his heart her image graving,
As he turns to heave a sigh.

O'er the grave of worth and beauty,
Graceful waves the willow green,
Warning mortals of their duty
To the God that reigns unseen.

By the gully dancing river,
Bending o'er the surface bright,
While the shadows on it quiver
In the yellow golden light;

There is found the weeping willow,
In whose shades I love to lay,
With the green earth for my pillow,
When my thoughts are far away,

—*Philadelphia Messenger.*

# NEW GOODS

March 22, 1844

**SHARP'S COMPOUND**

Concentrated Alkaline

*Infusion of Sarsaparilla.*

SARSAPARILLA Has of late years been much used, and with great success in cases of Chronic Rheumatism, as an alterative in Scrofulous affections, Scurvy, Obstinate Cutaneous Eruptions, Indolent Ulcers, diseases of the Periostrum and bone, attended with obscure pains, wasting of the flesh, tenderness of the parts, tumours and nodes unconnected with Syphilis, and in that state of the habit known among medical men under the term *Cachexia*, but which it is not easy to define; in such cases Sarsaparilla proves a most valuable remedy, and often effects a cure when all other remedies have long been administered in vain, and when the diseased state of the system has been of many years duration.

It is also considered by the most eminent surgeons of the present day, to be the best medicine for re-establishing the constitution after it has undergone the effects of mercury.

The infusion contains all the properties of the Sarsaparilla, in a highly concentrated state, together with the addition of an alkali, which is strongly recommended by the late Abernethy, also by professor Brande, who in a late edition of his valuable work on Pharmacy, says, "the addition of an alkali in the preparation of Sarsaparilla, seems greatly to facilitate the extraction of the soluble matter, and may be used with great advantage."

Amongst the advocates for this medicine, may be mentioned the names of sir B. C. Brodie, Bart., sir James Clarke, the late sir A. Cooper, Bart., Drs. J. A. Paris, M. Ryan, Graham, Marshall Hall, M D. F. R. S. &c. &c. Prepared and sold in bottles, in 3s. 9d. each by J. G. SHARP,

October 28, 1842. *Chemist.*

3d May. J. R CRANE.

## McKibbin's

**Improved Sheathing, Dry Hair, Roofing, and other Felt.**

IMPROVED SHEATHING FELT,

*For covering Ship's Bottoms, &c.*

The advantage this Sheathing Felt possesses over any other materials hitherto offered to the public, are such important improvements, as will recommend themselves, on inspection, to those ship-builders who have been in the habit of using Felt.

"In all the oldest Vessels discovered, the Hair was perfectly fresh, although the timber was in a state of decay. * * * The worm never penetrates through an inner sheathing of Hair. * * The strong and adhesive inner sheathing has proved mainly instrumental in preserving vessels from sinking, when the outer sheathing or caulking have failed or been destroyed." [Teatise of the Institution of Civil Engineers.

IMPROVED DRY HAIR FELT,

*For Steam Boilers, &c.*

Dry hair felt is justly considered indispensible for the exposed parts of Boilers, Cylinders and Steam Pipes, by those who study economy in fuel, and is now becoming in general use in all large Establishments, and on board steamers.

THE IMPROVED ROOFING FELT

Is peculiarly applicable as a substitute for Slate, Zinc, Tiles, and other materials used for roofing, for its economy, lightness, and durability.

AN IMPROVED IMPERVIOUS FELT,

Which, for the inside of walls, will be found an efficacious remedy for dampness, etc.

☞*Orders will meet with prompt attention if addressed to*

SAMUEL STEPHENSON.
