The Weekly Monitor.

WEDNESDAY, MAY 7TH, 1884.

—It has often been a source of wonderment to us why some enterprising individual has not seen the capabilities of this valley for a first class nursery. It is matter with which we do not pretend to have any very extensive knowledge; but certainly, if nurseries can be successfully maintained in Quebec, Ontario, and in New Brunswick, there is nothing to prevent as much being done here. The district in particular that lies under the shelter of the North Mountain is of the most fertile description, and peculiarly well adapted for the propogation of nursery stock of all kinds most suitable for growth in this country. As we have said the land is very fertile; it is also well watered, and the mountains shelter it most completely from north, north west and north-east winds. The advantage to our farmers of such a nursery, would be inestimable. They would then be enabled to secure trees and other stock acclimated to the country; they could with all reasonable certainty depend on what they purchase being true to name; they would have the advantage of inspecting before buying, &c. The first consideration is one of great importance undoubtedly, and we see is receiving attention elsewhere, as the following clipped from a late number of the Halifax *Herald*, from a Pictou correspondent, will show:

"It may be interesting to the fruit growers of our province to know that we are no longer dependent for our supply of young trees upon the United States. Large nurseries are springing up in every direction in the provinces of Quebec and Ontario. It is a notorious fact that a great many of our orchards have been injured, or at any rate retarded, in their productiveness by the introduction of trees from a more southerly climate that our own, and although trees from the north can be acclimated south, it is impossible to reverse the process. Here in the northern part of Nova Scotia, Prince Edward Island and Newfoundland no trees either ornimental or fruit should be used unless coming from the same latitude."

There are one or two small nurseries in this county and in Kings,—but they are not on a scale sufficiently large to enable them to enter into any successful competition with outside nurseries, whose agents are constanly travelling this Province. Until we do get a first-class nursery of our own, we should advise the fruit-growers of Nova Scotia, to patronize those located in the Dominion. There is one now advertised in our columns, that we are under the impression has given good satisfaction to its patrons. We do not recommend it particularly, but merely make a preference of pointing out the firm, from the patronage it has always accorded to the valley press. Our main point is, let us keep the money in the Dominion as far as we can. The grand fundamental principle of our American cousins is to build up home institutions, and we vote to follow their worthy example. Thousands of dollars have gone out of this province to purchase American grown stock, that should have been spent in the Dominion, and for which equally as good, and in many cases better returns could have been obtained. It is a pity anyway, that our people could not be thoroughly innoculated with the same sort of patriotism that the average American feels for his country and all that belongs to it. It is a matter of education with them, but with us it does not appear to be any particular virtue.

— The Ann. Co. Temperance League held a meeting in this town April 30th. A large number of leading temperance men were present and manifested a deep interest in the proper enforcement of law against the rum traffic.

The meeting was unanimous in its opinion that the "Scott Act" is operative in Annapolis Co. and enthusiastically resolved to see its provisions carried out.

As Ann. Co. has a Chief Inspector of Licenses with his assistant and no license law, and since it is believed that such officers are qualified to operate the "Scott Act,"—*It was agreed*, that it is wise and best for the Temperance body to use these officers in forwarding its work, and provision was made accordingly.

Every well disposed person in the county it is hoped will support the enforcement of law in the interest of sobriety and humanity.

The next meeting of the League will be held in Middleton.—COM.

The Sambro Disaster—The Captain of the Steinmann Censured.

Captain Scott, of the royal navy, who held an official investigation into the loss of the steamer D. Steinmann, at Sambro, has reported as follows:—

The master appears to have navigated the ship with all due care up to the time of making the light, and by going aloft himself in an endeavor to make it, he showed that he was cautious. It will be seen in the evidence, however, that the master had taken no observations that day and was therefore uncertain of his position, and that, by his own statement, the night was dark, foggy and rainy, and the soundings were irregular. It was highly imprudent, under all these circumstances, to attempt to enter the port of Halifax. It was clearly his duty to have hauled off shore until able to verify his position and obtain a pilot. To this circumstance alone can be attributed the loss of that fine ship and the lives of 124 persons.

Captain Scott's report is fully concurred in by Captain David Hunter, nautical assessor, who assisted in the investigation.

Granville Ferry.

—The foundation of a Temperance Hall is being laid at Granville Ferry, near the Carribean House. The frame is on the spot. It will be about 22 x 46 feet, with a store underneath and to belong to Wolsley Div. S. of T. The benevolence of Capt. Joseph Hall has materially aided the enterprise.

—We understand that the Rev. J. Matthew Fisher, Pastor of the Methodist Church at Mill Village, Queens Co., has been invited to take charge of the church at Granville Ferry.

—The following have been appointed Commissioners for giving relief to insolvent Debtors, and for taking Affidavits to hold to bail and recognizances of bail in the Supreme and County Courts—Jacob M. Owen, Barrister, and Isaac Harris, Esquires.

Local and Other Matter.

—Farmers are now actively engaged in getting their land ready for crops.

— At Cornwallis, potatoes are selling for 10 and 12 cents a bushel.

—The old school property at Annapolis was sold on Monday 28th ult., to Mr. John Buckler, for $501.

—Henry Kileup, contractor for carrying the mails between Bridgewater and Shelburne has asked the Government to relieve him from his contract.

—The Peters Lock combination manufactory at Moncton, has failed, but there are rumors that it is shortly to be started on a better basis than ever.

—The past few night have been quite cold and very clear. Yesterday morning the ground was covered with a white frost.

— The *Church Guardian*, hitherto printed in Halifax, is hereafter to be printed in Montreal at Mr. J. Theo. Robinson's printing house.

—The semi-annual meeting of the Municipal Council for the County of Annapolis, commenced its session in the Court House of this town, yesterday morning at ten o'clock.

— Schr. Cetewayo (of Annapolis, N. S.), Covert, at New York from Monserrat, 28 days, was 12 days N of Hatteras, with heavy NE and NW gales; lost headgear and split sails.

—The plank side-walk running by the side of the arboiteau bridge should receive the attention of the street commissioners this spring. We have noticed several holes in the planks, and the railing is in a tumble-down condition.

— In the session of the Dominion Parliament just closed, one hundred and five acts were passed, of which forty were government measures, thirty five related to railways, nine to insurance companies and five to banks.

— The Halifax city elections took place on Wednesday, when much interest was manifested in the result. Mr. J. C. Mackintosh was elected Mayor. In the three wards in which there were contests for the aldermanship, Messrs. J. E. Wilson and John McInnes were elected.

—English fruit growers are in serious trouble. A month ago they were jubilant over the splendid condition of their prospective crops, but there have been some biting frosts within the past few nights, and there is now a general blight in the southern counties.

—Mr. Abram Young of this town, returned home from North Easton Mass., on Saturday last, accompanied by his bride, to whom he was united in the city mentioned. The lady is a daughter of the late Mr. Cornelius Bishop, of Williamston, in this county. We tender our congratulations to the happy pair.

— The alteration in the running of the Bay steamer "Secret" commenced on Monday last. She will leave St. John for Annapolis every Monday, Wednesday and Friday mornings, returning to St. John every Tuesday, Thursday and Saturday mornings.

— We would call the attention of our readers to the special lines of goods dealt in by Mr. A. C. VanBuskirk of Kingston, The Carpet Fasteners are quite unique in their way, and are really a good article, and something that will save housekeepers a great deal of labor. We have also seen specimens of Mr. VanBuskirk's work with the automatic shading pen, and should judge them to be well suited to the purposes advertised.

— One of our valued subscribers, Mrs. L. C. Woodworth, formerly of this County, now of Canning, King's Co., in speaking of the record made by Mr. Kinnear's cow last winter says, that a new milch cow on her farm, one of the common stock of the country, made from the middle of February until the last of April, 100 lbs of cheese, (the majority of which are cream cheese) and 25 lbs. of butter, besides affording a number of neighbors a share of milk. Mrs. W. says the cow 'of course' is a good one, but was never considered extra. It is not stated whether or not extra feed was given.

— The following are the directors of the Nova Scotia Dairymen's Association, lately organized in Truro:—Cape Breton, R. H. Brown; Inverness,—McKeen; Richmond, John Morrison; Victoria, Hon. D. McCurdy; Antigonish, C. C. Gregory; Pictou, H. J. Townsend; Guysboro, Judge Campbell; Cumberland, Rev. A. B. Black; Colchester, Edward Blanchard; Halifax, Willoughby Anderson; Annapolis, Col. Starratt; Kings, A McN Patterson; Queens, R. H. Ford; Lunenburg, Hon. C. E. Church; Digby, Rev. John Ambrose; Shelburne, Hon. T. Johnson; Yarmouth, Hon. L. E. Baker.

—Orange Judd, Editor of the *American Agriculturist* for some thirty years, but unconnected with its business management for a year or two past, has lately retired from its editorial department and located in the West. He desires to gather a complete "*Postal-Card Album*" of his old readers and friends, and requests them all to send him now a postal giving their present location and address, naming also when convenient, the years in which they were his subscribers. Mr. Judd's address is Chicago, Illinois.

—The Winnipeg Daily *Times* says that custom's officials are in charge of Messrs. Pollock & Co's jewelery store in Winnipeg. Mr. Gilbert Fowler a former resident of this town, is one of the firm. Mr. Fowler told a reporter that the cause of the action of the authorities was on account of a man leaving in their store a box of watch movements on which the officers claimed duty had not been paid. The latter say that the man mentioned was a friend of the firm, and had received the confiscated goods at Pembina from Mr. Fowler, who had gone to the latter place by a roundabout route. The friend afterwards brought the movements from Pembina to Winnipeg. Some suspicions having arisen in the minds of the officials, Mr. Fowler was shadowed from the time of his leaving Winnipeg, as was also the Pembina gentleman, with the result, that now an examination of the firm's stock is in progress, and all goods are to be confiscated upon which, according to invoices, duty has not been paid.

— H. A. Longley, son of the late Avard Longley. Esq., is at present in the office of the Minister of Railways, Ottawa. Mr. Longley joins the survey on the Canada Pacific Railway in the capacity of an articled pupil to a deputy land surveyor, and will in the course of a few weeks be locating curves among the Rocky Mountains.—*Acadia Athenæum.*

—We clip the following from the Clifton *Courant*:—

"H. G. Bishop, for several years in the employ of the J. B. Barker Machine Co., has closed his engagement there, and goes to Paradise his former home. Mr. B. was the baritone player in the Clinton Brass band, and his loss will be keenly felt by the members."

Another paper has the following:—

"Previous to the departure of H. G. Bishop for Nova Scotia his comrades of the Clinton Brass band gave him a nice and costly meerschaum pipe; the presentment took place in the dining-rooms of the Oriental House, Mr. Thompson passing the gift to Mr. B. as "a pipe of peace."

— Dr. Baker, the oldest journalist in Ontario and founder of the Kingston *Whig*, is dead, aged 85.

— Builders and contractors can receive low quotations in Window Glass and Hardware generally, at R. Shipley's. 1i

—It is feared that the steamer, State of Florida which sailed for Glasgow on the 12th of April has met with disaster and been lost at sea. Two of her life boats have been picked up in mid ocean. Another steamer also reports that she was signalled by a sailing vessel that the latter had saved the crew of the State of Florida.

— Galvanized Boat Nails, in all sizes, at a small advance on cost, R. Shipley. 1i

—Sir Leonard Tilley will sail for England on the 24th of May. He goes to borrow fifty millions.

— Timothy and Clover Seeds, for sale by R. Snipley. 1i

— An explosion took place in a powder magazine in Havana, which was communicated to the gas house, and thus caused a double explosion of a terribly destructive nature. A number of persons were killed and wounded, and many buildings were badly damaged.

— Mrs. Gould, of Ellershouse, was lately seriously poisoned by partaking of the contents of a can of peaches which had been left open for a few hours.

— The *Island News* (Grand Manan) has ceased publication. The editor goes to the mainland to start a new paper. The field it occupied appears to be taken up by the Island Press, a well printed and well filled sheet of eight columns, hardly six months ago.

— Rev. Mr. Foreman, is the name of the clergyman, who is to have charge of the Presbyterian Church of this town this summer. He comes highly recommended. He is to enter upon his duties on the 18th inst. No service will be held next Sunday.

SHIPPING NOTES.—Schr. Ivica, Longmire from St. John ar. 5th inst., cleared yesterday. Schr. A. M. Holt, Graves, from St. John, ar. 2nd cld. 3rd.

Schr. Chieftain, Shaffner, cld. 3rd inst., for Boston, with a load of cordwood.

— Eleven Fenians were arranged at Sligo, Ireland on the 5th inst., charged with being Invincibles, and for murder of landlords and others. An Invincible named Moran has turned informer, and is giving evidence against the eleven.

— About 1000 immigrants arrived at Montreal on the 2nd inst. Half the number were Germans and Finns, and the remainder English and Scotch. The British were a superior class of farmers and farm laborers, with a few mechanics and servant girls.

— The revenue of the Dominion for the ten months of the fiscal year ended 30th April, amounted to $25,602,257. and the expenditure to $22,608,593, being an excess of revenue of $2,903,764.

WANTED.—Hotels and summer boarding houses, to send in their names, terms, &c., for publication in our new folders. A prompt attention will much oblige T. S. WHITMAN, General Manager New England and Acadia S. S. Co. Annapolis, N. S. tf

— We are requested to state for the information of those whom it may concern, that the Board of School Commissioners for Annapolis West, will meet in the Court House at Annapolis, on Tuesday, the 13th inst., at eleven o'clock standard time. The Board of School Commissioners for Annapolis East, will meet at Bent's Hotel, in Lawrencetown, on Friday the 16th inst., at half past ten o'clock.

—Work on the Gibson cotton mill is progressing, says the Moncton *Times*. The workmen are now putting down the floors and constructing stairs. The floors are all of hardwood, maple being chiefly used. The engines and shafting, which are being manufactured in Providence, R. I., are expected to arrive about the last of May or the first of June. It is reported that English capitalists are interested with Mr. Gibson in this mill, which is to cost a million dollars.

— Toronto was startled on Wednesday last, owing to a number of dynamite cartridges being discovered in the Parliament buildings of the city. A regular population of people live in the buildings and the distruction to life would probably have been great if the cartridges had been exploded. The cartridges which were six inches long and one and a half inches in diameter were discovered in different parts of the building, with wires attached to them, as if ready to be exploded at once, when a suitable opportunity offered. However, as no suspicious characters have been noticed around the buildings for some time, and the explosives were placed in such exposed positions, the excitement has resolved itself in the general opinion that it was a practical joke, or that the cartridges were placed as found by some one anxious for a job of watchman.

—The public examination of the school at South Williamston, took place on Friday the 18th inst., and, although the weather was very unpleasant, quite a large number of parents and friends were present. The school has been under the tuition of J. H. Balcom, of Paradise, for the last three terms, and certainly has made good progress. Classes were examined in the various branches taught in the common schools, in all of which the pupils seemed to have a pretty thorough knowledge of the work done. One thing deserves special mention, the very distinct manner in which the scholars replied to the questions asked. After remarks by some of the visitors Mr. Balcom was presented with a handsomely bound Bible and the following address.

To J. H. Balcom.

DEAR TEACHER.—We, your pupils learning with regret that you are so soon to leave us and feeling our deep indebtedness to you, are desirous of making known to you the respect and esteem in which we hold both you and the efforts which you have put forth for our benefit. We assure you, that, since our acquaintance has been so intimate, our respect for you has been increasing constantly. We feel very grateful to you that while you have been instructing us in temporal things you have not forgotten those which are infinitely more important, and we thank God that your efforts for our good have been so blessed. There have been no doubt many things among us which might have been wished otherwise; much that has been displeasing to you, but these things we ask you to write in the sand. We all join in wishing that your health may be restored by the rest which you intend to take, and, that you may be spared many years to pursue that noble work in which you have already been so successful, and in wishing that many of us may yet live to enjoy the pleasure of your instructions. You will please accept this volume of "God's Word" as a slight token of our esteem and with it be assured that none put the kindliest feelings toward you exist within the breasts of your pupils.

Mr. B. replied in a few well-chosen words, expressing the pleasure which he felt in knowing that such a kindly feeling existed toward him. It is generally regretted that ill health compels him to resign his situation, and it is hoped that he may be able to return to Williamston before very long.

ONE PRESENT.

—A large quantity of Zinc and Sheathing paper, for sale at lowest prices by R. Shipley. 1i

— Go to F. Johnson's Bookstore, Annapolis, for your Wall Papers. 4i.

NOTICE EXTRAORDINARY.—For the next thirty days there will be music in the air, and J. E. Sancton is determined to help make it, so govern yourself accordingly. Everything in his line is marked down 20 per cent. so as to meet the hard times. Now is your time to buy. tf

"PIED" THE TYPE.—A despatch from Stratford, Ontario says:—Last night some persons unknown entered the *Times* printing office here and "pied" all the type in the place, including every case and all the forms, advertisements and jobs. Mr. H. Butler, who is editor and publisher, attributes the outrage to personal spite and not to the result of party or sectional feeling. He is Deputy-Reeve of the town and thinks perhaps some action of his in the council may have led to the dastardly affair, but is unable at present to lay his finger on the guilty party. Entrance was had by a window, which was forced open. The loss is estimated at $1,500. A public meeting has been called on a requisition of citizens for to-night to consider what steps shall be taken with regard to the outrage.

A World of Good.

One of the most popular medicines now before the American public, is Hop Bitters. You see it everywhere. People take it with good effect. It builds them up. It is not as pleasant to the taste as some other Bitters, as it is not a whiskey drink. It is more like the old fashioned bone-set tea, that has done a world of good. If you don't feel just right, try Hop Bitters.—*Nanda News.*

— Prince Edward Island produce is very low at present in Newfoundland, there being still on hand from last year's importation some 3,000 barrels of potatoes, which are selling but slowly at 75 cents a barrel.
