tection of the public weal. If, Sir, Lawless, this constituting is in such a disorganized state as to require a band of irresponsible despots to control it, the earliest every decent citizen can make his escape from such a land of miseries the better.

I remain, Sir,
Your humble servant,

THE VERY LATEST FROM CHINA.

Commercial Exchange, of Mr. F. Marriott, of the

been furnished with later news from China. Our previous dates were to July 28th. We have now the Friend of China and Hongkong Gazette, dated the 2d of August. The news arrived on the ship Sicker, fifty-seven days from Whampoa. We give full accounts below. Up to the latest hour the Calcutta steamer had not arrived.

Steps are being taken by a Dr. McGowan to induce the Chinese to run an electric telegraph on the coast for the facilitation of commerce. He has published a book on the subject. The proposed terminus of the telegraph are not mentioned.

The reported ransack of Kweichefu, the capital of Kwang-si province, is still wanting in confirmation. The rebel forces have taken possession of and in trenched themselves in Kweinsing, which is situated on a high mountain. Within its area there are several villages and fields. There have been many skirmishes with the Imperial troops; but although the latter have a Commissioner, a Tartar general, and many high military officers, they have not met with success in a single stratagem.

We learn by the friend of China that the barque Trident arrived on the 18th of August, with a cargo of coals from Labuan.

This is the first of a series of vessels engaged by the Eastern Archipelago Company to transport the produce of their mines to Victoria. And for several months to come importations of at least two hundred tons per month were expected.

The settlers in Labuan are reported to be in good health. The Trident took her cargo at Port Raffles, about ten miles from the seat of Government. The coal is found in large quantities, and of an excellent quality, about five feet below the surface of the sward, at no greater distance than a quarter of a mile from the sea beach. Some five hundred Malays are busily engaged in excavation, in loading the buffalo-drawn wagons, and in transporting to vessels requiring cargoes.

The Trident anchored in five fathoms water, a cable's length from the shore, and took in three hundred tons in five days. A wharf is to be built by means of which vessels may be dispatched with even greater celerity. A species of dammer is found attached to the coal, sometimes fully an inch in thickness, which the natives are in the habit of scraping off and using in the place of candles at night. With other peculiarities of Lebuan, its anthracite is said to be free from that sootiness which is generally attendant upon coals from other parts of the world.

With regard to war news, we find the following in the North China Herald, of July 19th:

Rumors were rife in the city last week, and are still, that the Kwang-si rebels are extending their line of operations northward. After a hard fought battle of three days, they succeeded, it is said, in capturing the city of Kingkwokfoo, in Gan Hway, on the 8th of the present month. The authorities had fled and left the place in full possession of the rebels. A menacing letter was sent to the Lieut. Governor of Kang-su, which was delivered to him at Suchan by a chair-bearer, ignorant of its contents.—A letter of similar import was sent to the Pontsin-tezo or Treasurer. If this be true, the rebellion is assuming a serious aspect.

The Boston Mercantile Journal gives the following notice of the most popular remedy of the day:—

WILD CHERRY BALSAM.

We speak in the praise of Wistar's Balsam of Wild Cherry, because we believe from our own knowledge of the articlie that it is one of the best in the market for the complaints for which it is recommended.

This medicine, coming from such a respectable source and carefully prepared by an experienced and skilful physician, is received by the public with confidence. Its efficacy has been proved in many obdurate cases of disease, and its fame has rapidly extended. It has been extensively used in every part of the country, particularly in the Middle and Nothern States; and strong testimony from intelligent and highly respectable persons has been adduced in favor of its merits as a remedy for colds and coughs, affections of the chest, diseased liver, &c, &c.

THE GENUINE AND ORIGINAL.

Dr. Wistar's Balsam of Wild Cherry,

on account of its great popularity has been extensively counterfeited in Philadelphia, and some thousand bottles of the spurious imitation thrown into the market and extensively circulated.

EXAMINE CLOSE BEFORE PURCHASING!

Look Well to the Marks.

The genuine Balsam is put up in bottles, with the words "Dr. Wistar's Balsam of Wild Cherry, Phil.," blown in the glass; each bottle bearing a label on the front with the signature of I. H. WISTAR.

None genuine without the written signature of I. Butts on the wrapper.

SHARP'S Family Medicines.

NOTICE TO THE PUBLIC.

Sharp's Celebrated Family Medicines and Preparations.

Sharp's Compound Alkaline Infusion of Sarsaparilla.—Sarsaparilla has of late years been much used, and with great success, in cases of Chronic Rheumatism, as an alternative in Scrofulous affections, Scurvy, Obstinate, Cutaneous Eruptions, Indolent Ulcers, Diseases of the Periosteum and Bone, attended with obscure pains, wasting the flesh, tenderness of the part, tumors and nodes unconnected with Syphilis, and in that state of the habit known among medical men under the term of Cachexia, but which is not easy to define. In such cases Sarsaparilla proves a most valuable remedy, and often effects a cure when all other remedies have long been administered in vain, and when the diseased state of the system has been of many years duration.

This article, prepared by John G. Sharp, has performed numerous and most astonishing cures of persons who have for years been festered with sores from head to feet, and others who have been sent up with Mercurial Rheumatism, which they had been laid up with for 2 or 3 years. Prepared and sold by John G. Sharp, Member of the Pharmaceutical Society of Great Britain. N. B.—Dose, a Wine Glass full, three times daily.

Sold in bottles at 1s. 6d. to 2s. 6d. each.—Prepared by John G. Sharp, member of the Pharmaceutical Society of Great Britain, Dock street, St. John, N. B.
