R. R. R.
THE PROPHECY FULFILLED.

IN the month of August, 1849, we promised to the world that we would produce a medicine that would instantly stop the most severe pangs of pain, and speedily remove its cause.

We proposed to Hospitals, and all other Institutions for the reception of the sick; to Physicians, Surgeons, and all Medical Institutions and Bodies, to introduce our Ready Relief for their investigations, and to illustrate its marvellous and miraculous power over pain upon the patients.

We claimed that it would allay, in a few minutes, the most severe Cramps and Spasms—it would arrest the progress of that dread scourge, the Cholera—that in a few minutes it would change the hard, knotty, cold, and listless body, to warmth, pliancy, and vigor.

That in a few minutes it would relieve the most severe pains in the bowels, that in fifteen minutes it would stop all pastoral disorders, diarrhœas, dysentery, and impart a genial warmth to every organ and secretion of the body; that it would positively relieve the most severe and dangerous fits of sick and nervous headache in fifteen minutes, and effectually cure this distressing complaint.

That it would in an instant mitigate the cruel pangs of Neuralgic pains, and permanently cure this excruciating affliction. That it would stop the most vexatious toothache in a few seconds.

That it would relieve all Rheumatic pains in fifteen minutes, and cure many Chronic cases of Rheumatism in a few hours.

That it possessed a miraculous soothing and relieving influence over all pains originating from Rheumatic, Neuralgic, Nervous, and Bilious complaints, and that the patient suffering the most excruciating torture, would feel its soothing influence in a few minutes.

The world was astonished at the publication of our discovery. The wise sayers of Medical Science shook their heads in doubt. The sick and afflicted hoped yet feared that, like other remedies, it would cure quickly, or pause than by practical experimenting, thousands who were suffering with the most excruciating pains, at once determined to try it; the consequence was, that from almost every village, town, city, within 300 miles of New York, we were the daily recipients of orders for our extraordinary remedy. The people tried it and found it need; the most dreadful pains were stilled; weak and feeble sufferings of Rheumatism, who had been bedridden for years, were suddenly relieved from pain and restored to health. So with the sufferers of Neuralgia, Sick and Nervous Headache, Chill Fever, Diarrhœa, Cramps, Spasms, Chronic Mortiers, and, in fact, all painful and distressing Acute complaints, were suddenly relieved from their torturer, and restored to health. In these spread from city to city, the people sounded its wonderful virtues far and wide, and are the earth had run as rapidly as it could.

FIVE MILLION BOTTLES WERE SOLD!

In every town in Maine, New Hampshire, Vermont, Rhode Island, Massachusetts, Connecticut, New York and Ohio; in Michigan, Wisconsin, Illinois, Indiana, Missouri; the people have tested its merits, and pronounced it a sufficient remedy for disease, and a quick antidote for all pains. In New Jersey, Pennsylvania, Virginia, Maryland, Delaware, the Carolinas, Georgia, Alabama, and Louisiana—in every town in each State it has made friends, and proved its efficacy.

TO THOSE WHO KNOW NOTHING OF IT.

If you seem to be made with the cases in advance.)

From the Rev. B. Davis. D. D., Minister of the Baptist

I most willingly bear testimony to the good effects of Smith's Exterminator. I found my present dwelling over-run with Beetles; the nuisance bid defiance to all efforts to abate it, until this preparation was applied. One Box has sufficed to exterminate the insects almost entirely from the house. Similar cases of success have occurred in my neighborhood. HENJ. DAVIS.

ELEGANT AND INVALUABLE
ARTICLES FOR THE TOILET.

BOGLE'S HYPERION FLUID,
FOR RESTORING PRESERVING, AND EMBELLISHING THE HAIR.

The following Certificate from Dr. Wendelle Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one of many similar testimonials.

BOSTON, Feb. 15, 1847.

Mr. Wm. Bogle,—Sir,—The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and clears the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patented compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in place and gives it a fine silky appearance; it keeps the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,
A COMPOUND FOR SHAVING.

This delicatural article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the *Amole*, or "soap plant," of California, an article used by the natives of that country for washing; and thus the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, enclosed *gratis* for the dressing case or the "rough and ready" traveller, or the toilet of the most fastidious connoisseur.

BALDNESS CURED.

The following is from Sumner F. Barrett, Saratoga Street, East Boston;

EAST BOSTON, Feb. 8, 1847.

Mr. William Bog'.—Dear Sir: For several years past, my wife has been troubled with baldness on the Crown of the head, about six or seven inches in circumference.—After repeated failures of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, for the purpose of restoring her lost hair, and I am happy to say that its effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; had she used it oftener and more regular, I am convinced that the growth of the hair would have been more rapid. I am, Sir, yours respectfully, SUMNER F. BARRETT.

BOGLE'S HEBEAIONA,
FOR REFRESHING AND BEAUTIFYING THE COMPLEXION.

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate, and blooming. It is equally efficacious in protecting the skin from the hot suns of summer, and freezing blasts of winter, and is the most fragrant and delicate article to be found at the toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet invented.

SELF-PRESERVATION:

A MEDICAL TREATISE ON THE PHYSIOLOGY OF MARRIAGE, and DISORDERS of YOUTH and MATURITY, usually acquired at an early period of life, which ruin the physical and mental powers, diminish and enfeeble the natural feelings, and exhaust the energies of Manhood—with practical observations on the Treatment of Nervous Debility and Indigestion, whether arising from those causes, close study, or the Inclemate of Tropical Climates; Local and Constitutional Weakness, Syphilis, and all Diseases and Derangements resulting from Indiscretion.—with Forty Colored Engravings, illustrating the Anatomy, Physiology, and Diseases of the Reproductive Organs, explaining their structures, uses and functions, and the various injuries that are produced in them.

BY SAMUEL LA'MERT, M. D.,
No. 37, Bedford Square, London,

Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital, Medical Society, &c.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their relative conditions in health and disease. Nor are these the sole contents of the Work: the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closest attention and study, for what subject can be of more importance than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens that the unhappy victim of excessive indulgence and vicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their inevitable consequences, unwisely entertains a fear of applying to a qualified physician for relief. Shame and the dread so frequently, but erroneously, entertained, that those complaints are beyond the reach of art, alike restrict him, and prevent the seeking for assistance before alone it can be procured. In acting thus, he forgets that accurate discrimination in ascertaining the causes of disease, sympathy with the sufferer, and, above all, secrecy, invariably characterize the intelligent and practical physician, and to the medical man, who can show by his possession of his requisite legal qualification, that he is entitled to esteem and respect in his professional pursuits, the utmost confidence should be extended. Dr. LA'MERT has obtained the highest medical honors, as his diplomas testify, and the great extent of his practice for many years, is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The Work may be had for the purpose of BENJAMIN DAWSON, in St. Johns, of H. Chesn & Co., price 2s. 6d. Sterling. Holdsh, Messrs. Morton & Co.

With pleasure I assert, that the use of Smith's Exterminator was attended with complete success in destroying Cockroaches, Beetles, and Rats, in and about my premises; which was effected without any trouble.

C. F. BAILLARGEON, Pre.

Quebec, 7th March, 1848.

My premises have been infested with Rats for several years, and I have tried various means to rid myself of the nuisance, without success, until I was induced to try Smith's Exterminator. I have much pleasure in testifying that its use has been perfectly successful in the total destruction of the Rats with which my place abounded, and that without the least inconvenience.

DR. HALSEY'S GUM-COATED FOREST PILLS.

THESE PILLS are warranted not to contain any Mercury or Mineral whatever. They are composed of Vegetable Substances, and may be taken at any time without hinderance from business, change of diet, or danger of taking cold. They neither have the taste or smell of medicine, and are so mild as to be perfectly effectual in the cure of disease than any Pills in use.

Not a short time has elapsed since these great and good Pills were first made known to the public, yet thousands have already experienced their good effects. Invalids given over by their Physicians as incurable have found health restored, and are now able to pursue their business from their use.

Never has any remedy had more reliable and stronger proofs of its good qualities than Dr. Halsey's Forest Pills.

Testimonial after testimonial, showing their great powers of healing, in almost every class of disease, have been tendered to us by individuals of undoubted character and respectability. The following testimony is from a respectable and wealthy farmer residing near Utica. New York:—

UTICA, Nov. 9, 1848.

Every fall, for several years back, I have had much sickness in my family of Bilious Disorders, and Ague and Fever. In the fall of 1848, two of my sons were taken at the same time with Bilious Fever. In former seasons, when sickness occurred in my family, I had always employed a Physician. But at this time having two boxes of your Forest Pills in the house, I concluded to try them. I gave to each of them six Pills, and four hours after I gave them three Pills more. They soon operated, bringing away much black and green matter. On the following day the fever had left them, and they both recovered without any more medicine. Since this time I have always kept your Pills at hand, and in all cases of sickness we have used them with the most happy results.

DR. G. W. HALSEY. ISA S. GOODNOE.

READER!!!—If you wish to be sure of a medicine which does no evil than that lurking poison, Calomel or Mercury, purchase Halsey's Gum-coated Forest Pills, and avoid all others.

If you desire a mild and gentle purgative, which neither nauseates nor gives rise to griping, seek for *Halsey's Pills.*

If you would have the most concentrated, as well as the best compound *Sarsaparilla Extract* in the world for purifying the blood, obtain *Dr. Halsey's Pills.*

If you do not wish to fall a victim to dangerous disease, be sure of procuring Dr. Halsey's Pills, and be careful to take a dose of *Dr. Halsey's Pills* as soon as unfavorable symptoms are experienced.

If you would have a Medicine which does not leave the bowels costive, but gives strength instead of weakness, procure *Halsey's Pills.* Thousands testify to this, as all common Purgatives.

If you would have your families to continue in good health, keep a box of *Halsey's Pills* in your house.

Ladies, *Dr. Halsey's Pills* are mild and perfectly harmless, and well adapted to a peculiar delicacy of your constitutions. Procure them.

Travellers and Seafaring men, before undertaking long voyages, provide yourselves with *Dr. Halsey's Pills*, as a safeguard against sickness.

Almost every day new Certificates are received from persons of the highest respectability bearing testimony to the great cures made by

DR. HALSEY'S FOREST WINE AND PILLS!

Certificate of Mr. John Crawford, No. 546, Pearl Street, New York.

This is to certify, that on Thursday, June 16, I was attacked with violent spasmodic pains in the stomach, attended with high fever and great thirst. So violent was the pain that I could not sit up. I took a dose of Dr. Halsey's Forest Pills and three half wine-glasses of the Forest Wine, which gave me immediate relief, and on the following day I was able to attend to my business, although I continued the use of the Wine. The good effects I experienced from the Wine and Pills, induced me to try them on my son, who had been wasting away with ill-health and bad cough for nearly a year, and tears were entertained that he was fast declining into Consumption. I am happy to say that he has recovered entirely, through the use of your excellent remedies. I gave him one Pill every night, and a little more than a teaspoonful of the Wine three times a day. My own experience, and what I have seen others say who have been benefited by your remedies, gives me the most entire confidence in recommending them to the public. Very respectfully,

J. CRAWFORD, 546, Pearl-street, N. Y.

Hear the testimony of Dr. J. F. Dodge, a celebrated Physician, residing at 264, Hudson Street, New York:—

I have great pleasure in testifying to the virtues of Dr. Halsey's Forest Wine as a remedy against general decline of health, weakness, and consumptive habits. In a number of instances I have administered it with entire satisfaction, and have used it with great success in my family for various complaints. My daughter had been in very feeble health for more than fifteen months—she was very weak, had a dry ugly cough, and was fast declining, so much so that I began to consider her in an almost hopeless condition; at this time I gave her the Forest Wine, and procured for her Dr. Halsey's Forest Wine. She improved greatly by the use of the first bottle, and, on finishing the third bottle, she was restored to good health. She is delighted with the Forest Wine, and appears to enjoy the most perfect form of health, every appetite and comfortable in her compliant having disappeared. I am pleased to have an opportunity of recommending the Forest Wine, as I believe it to be a most valuable medicine, well deserving the attention of the Medical Faculty as well as those laboring under disease. ST. LEON AND CAXTON SPRINGS.

MONTREAL, June 3, 1850.

For the past twelve months I have frequently recommended the Waters of the St. Leon and Caxton Springs, and have formed a favorable opinion of their efficacy as aperients in various demugements and diseases. I have found both Waters well adapted, in the generality of cases, to produce the effect desired, viz., a free but not violent saline aperient draught, over which their tonic and alterative ingredients give them, for continued use, a superiority.

THE BRITISH PERIODICALS
AND THE
FARMERS' GUIDE.

LEONARD SCOTT & Co.,
No. 54, Gold Street, New York.

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; a selection which they have recently commenced the publication of a valuable Agricultural Work, called

"THE FARMERS' GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE,"

By Henry Stephens, F. R. S., of Edinburgh, Author of the "Book of the Farm," &c., &c., assisted by John P. Norton, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c.

This highly valuable Work will comprise two large royal octavo volumes, containing over 1400 pages, with 18 or 20 splended Steel Engravings, and more than 600 Engravings on Wood, in the highest style of the Art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the *perfect* feature of the book is unique, and will render it of inestimable value to the student of agriculture.

The Work is being published in Semi-Monthly Numbers, of 64 pages each, exclusive of the Steel Engravings, and is sold at 25 cents each, or $5 for the entire Work in Numbers, of which there will be at least 22.

The British Periodicals Re-Published are as follows, viz.:—

The London Quarterly Review, (Conservative.)
The Edinburgh Review, (Whig.)
The North British Review, (Free Church.)
The Westminster Review, (Liberal.)

Blackwood's Edinburgh Magazine, (Tory.)

Although these Works are distinguished by the political shades above mentioned, yet a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of their class. *Blackwood*, still under the masterly guidance of *Christopher North*, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial Tales of Mr. Lever and other talented novelists, now in course of publication in that Magazine, and first appearing in its columns here in Great Britain and in the United States. Such works as "Tom Burke of Ossory," "My New Novel," (both by Lever,) "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, *after it has been issued by Messrs. Scott & Co.*, so that Subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

Plantagenet Water.

Let all who wish sound health to get
Jest try the famed Plantagenet;
Though others vainly try to puff
And gain a market for their stuff,
This only can make good its boast,
The friend of all who need it most.

AS this is the season of the year when the public are most disposed to seek the aid of mineral waters, it is necessary that parties should be strongly warned against the lame-laced attempts to give a spurious reputation to certain other Springs, by the unauthorized and unwarrantable use of the name of eminent Physicians. To such an extent has this practice been carried, that many of the Springs in the Province have felt compelled publicly to deny that he ever gave a certificate testifying to the rare qualities of one of these Springs.

Under these circumstances, the undersigned parties, in the publication of *old certificates granted to other Springs*, as if they had been given in favor of their own Springs, in fact, such is the spirit of jealousy excited at the overwhelming success of the far-famed Plantagenet Water, that it can hardly contain itself, and is now seeking the most unfair means to impose on the credulity of the public. Such attempts, however, cannot succeed; everyday the fame of the Plantagenet Waters is spreading wider and wider. Whilst it has its place in the Pharmacopœia as one of the most innocent and efficacious of aperients, its use as a pleasant summer beverage is almost unbounded. There never was a mineral water which combined so admirably the two qualities of *use of* and *pleasant* taste, and in lack of competition or comparison it simply absurd. Ask the medical man what in nine-cases out of ten is the first thing he prescribes, and he answers Plantagenet Water. Ask the merchant what is his morning's draught, still the reply is, Plantagenet Water. Ask the professional man what inducements he labors and invigorates his health, and again we are told Plantagenet Water. Ask the hard-working mechanic, or inducement to the cheapest medicine for himself and family, and he will reply, a bottle of the Plantagenet Water. Ask the extraordinary success in the introduced strength, both in Montreal and the country, to substitute other spring waters for the Plantagenet—a fact, of which the Proprietor has been directly informed by many of the gentlemen of this city. In short, no attempts is left untried by these persons who wish to trade on the unparalleled reputation enjoyed by the Plantagenet Water. To guard against deception, therefore, the public are requested to supply themselves *direct from the Depot, Place D'Armes, Montreal.* Price per gallon, 1s; bottled, 3s the dozen, bottles returned and 1pd per glass. The demand for this Water, by the glass, average 200 glasses every morning.

NEW CERTIFICATE.

The following from Dr. Munro, Chief Physician of the Hotel Dieu, adds one other to the overwhelming testimonies borne to the virtues of the Plantagenet Water by all our leading Physicians:—

To Mr. Lariocque, Proprietor
of Plantagenet Water, Place
D'Armes.

SIR,—I have hitherto refrained from giving you my opinion of the Plantagenet Water; but the time has now arrived when it is just, both to the public and yourself, that I should do so. I state, then, frankly, that I have the highest opinion of the Plantagenet Water, and consider superior—in fact, far beyond comparison with any other mineral water with which I am acquainted. I have used it extensively in my practice at the Hotel Dieu Hospital, and with the most remarkable success. As a gentle aperient, its use is invaluable, which I am accustomed to prescribe, in all common Purgatives.

Wishing you, my dear sir, and your families to continue in good health, keep a box of *Halsey's Pills* in your house.

Ladies, *Dr. Halsey's Pills* are mild and perfectly harmless, and well adapted to a peculiar delicacy of your constitutions. Procure them.

Travellers and Seafaring men, before undertaking long voyages, provide yourselves with *Dr. Halsey's Pills*, as a safeguard against sickness.

DR. HALSEY'S FOREST WINE AND PILLS!

In conclusion, let it be borne in mind, that it is not simply as a saline drink that these waters are beneficial, but because they have no oily, fattening property, unknown to any waters besides. There is, in fact, but one Plantagenet Spring, and the more that is known, the higher its reputation, and the more all others sink into insignificance beside it.

It is needless to add the names given below, of parties who have used the Plantagenet Waters, to be satisfied of their superior excellency over all others:—

Doctors W. Nelson, W. Fraser, G. W. Campbell, A. Hall, A. McCulloch, R. L. McDonnell, Crawford, J. G. Bland, E. P. Tracey, H. Morgan, J. L. Leprohon, S. S. Sewell, F. Badgley, — Pelletier, J. E. STRONG RECOMMENDATIONS.

Regarding the effects of Dr. Sherwood's *Galvanic Embrocation*, a distinguished Physician of New York remarks as follows:—"The extraordinary rapidity with which this Galvanic Embrocation is conquering the prejudices entertained against it, and the enthusiasm it excites in those who have given very general satisfaction here, (having proved singularly efficacious in the removal of COUGHS AND COLDS,) and which the increasing demand is sufficient evidence. We shall, probably, realize for the Winter a further supply of FORTY OR FIFTY DOZENS, which you can forward at first convenience by one of the Canal Steamers, via Liverpool, for

DR. HALSEY'S GUM-COATED FOREST PILLS.

THESE PILLS are warranted not to contain any Mercury or Mineral whatever. They are composed of Vegetable Substances, and may be taken at any time without hinderance from business, change of diet, or danger of taking cold. They neither have the taste or smell of medicine, and are so mild as to be perfectly effectual in the cure of disease than any Pills in use.

Not a short time has elapsed since these great and good Pills were first made known to the public, yet thousands have already experienced their good effects. Invalids given over by their Physicians as incurable have found health restored, and are now able to pursue their business from their use.

Never has any remedy had more reliable and stronger proofs of its good qualities than Dr. Halsey's Forest Pills.

Testimonial after testimonial, showing their great powers of healing, in almost every class of disease, have been tendered to us by individuals of undoubted character and respectability. The following testimony is from a respectable and wealthy farmer residing near Utica, New York:—

UTICA, Nov. 9, 1848.

Every fall, for several years back, I have had much sickness in my family of Bilious Disorders, and Ague and Fever. In the fall of 1848, two of my sons were taken at the same time with Bilious Fever. In former seasons, when sickness occurred in my family, I had always employed a Physician. But at this time having two boxes of your Forest Pills in the house, I concluded to try them. I gave to each of them six Pills, and four hours after I gave them three Pills more. They soon operated, bringing away much black and green matter. On the following day the fever had left them, and they both recovered without any more medicine. Since this time I have always kept your Pills at hand, and in all cases of sickness we have used them with the most happy results.

DR. G. W. HALSEY. ISA S. GOODNOE.

READER!!!—If you wish to be sure of a medicine which does no evil than that lurking poison, Calomel or Mercury, purchase Halsey's Gum-coated Forest Pills, and avoid all others.

If you desire a mild and gentle purgative, which neither nauseates nor gives rise to griping, seek for *Halsey's Pills.*

If you would have the most concentrated, as well as the best compound *Sarsaparilla Extract* in the world for purifying the blood, obtain *Dr. Halsey's Pills.*

If you do not wish to fall a victim to dangerous disease, be sure of procuring Dr. Halsey's Pills, and be careful to take a dose of *Dr. Halsey's Pills* as soon as unfavorable symptoms are experienced.

If you would have a Medicine which does not leave the bowels costive, but gives strength instead of weakness, procure *Halsey's Pills.* Thousands testify to this, as all common Purgatives.

If you would have your families to continue in good health, keep a box of *Halsey's Pills* in your house.

Ladies, *Dr. Halsey's Pills* are mild and perfectly harmless, and well adapted to a peculiar delicacy of your constitutions. Procure them.

Travellers and Seafaring men, before undertaking long voyages, provide yourselves with *Dr. Halsey's Pills*, as a safeguard against sickness.

DR. HALSEY'S FOREST WINE AND PILLS!

Certificate of Mr. John Crawford, No. 546, Pearl Street, New York.

This is to certify, that on Thursday, June 16, I was attacked with violent spasmodic pains in the stomach, attended with high fever and great thirst. So violent was the pain that I could not sit up. I took a dose of Dr. Halsey's Forest Pills and three half wine-glasses of the Forest Wine, which gave me immediate relief, and on the following day I was able to attend to my business, although I continued the use of the Wine. The good effects I experienced from the Wine and Pills, induced me to try them on my son, who had been wasting away with ill-health and bad cough for nearly a year, and tears were entertained that he was fast declining into Consumption. I am happy to say that he has recovered entirely, through the use of your excellent remedies. I gave him one Pill every night, and a little more than a teaspoonful of the Wine three times a day. My own experience, and what I have seen others say who have been benefited by your remedies, gives me the most entire confidence in recommending them to the public. Very respectfully,

J. CRAWFORD, 546, Pearl-street, N. Y.

Hear the testimony of Dr. J. F. Dodge, a celebrated Physician, residing at 264, Hudson Street, New York:—

I have great pleasure in testifying to the virtues of Dr. Halsey's Forest Wine as a remedy against general decline of health, weakness, and consumptive habits. In a number of instances I have administered it with entire satisfaction, and have used it with great success in my family for various complaints. My daughter had been in very feeble health for more than fifteen months—she was very weak, had a dry ugly cough, and was fast declining, so much so that I began to consider her in an almost hopeless condition; at this time I gave her the Forest Wine, and procured for her Dr. Halsey's Forest Wine. She improved greatly by the use of the first bottle, and, on finishing the third bottle, she was restored to good health. She is delighted with the Forest Wine, and appears to enjoy the most perfect form of health, every appetite and comfortable in her compliant having disappeared. I am pleased to have an opportunity of recommending the Forest Wine, as I believe it to be a most valuable medicine, well deserving the attention of the Medical Faculty as well as those laboring under disease.
