SPANISH RIVER WILL PAY DEFERRED INTEREST

The Spanish River Pulp & Paper Mills, Limited, announce the payment of deferred interest coupons on the six per cent. first mortgage sinking fund gold bonds, and Spanish River Pulp & Paper Mills, and the first mortgage sinking fund bonds of the Ontario Pulp & Paper Co. Spanish River proposed to pay six months from 1st of August, the 1915 and 1916 deferred interest coupons.

On the same dates Spanish River also is paying the promissory notes in lieu of interest on six per cent. sterling notes of the Spanish River Pulp & Paper Mills, and the promissory notes issued in lieu of interest on the six per cent. sterling notes of the Lake Superior Co. These are both under the terms of supplementary trust deeds entered into in the spring of 1915.

PUBLIC MAIN SUPPORT OF NEW YORK MARKET

J. S. Bache & Co. say in their weekly market letter: The conclusion to be reached from the survey of the action of the market for the last two weeks is that public buying power, which has been the source of the rise for some months, has not yet exhausted itself. The fact that the public is now the main support of the market is shown by the very large increase in loans. It is, of course, a fact that, as these margin loans increase and become widespread, the staying quality becomes weaker.

Nevertheless, the comparatively small disturbance caused by the break earlier in the week shows that the public's money is still in supply for fuel, and that the fires may be kept burning until it becomes evident that future prosperity has been overdiscounted.

LIVE STOCK MARKET.

With 4200 cattle on sale yesterday at the Union Stock Yards the quality generally was to medium and common classes, with a large percentage of lightweight heifers and steers, with neither fat nor quality.

There was a good demand for heavyweight well finished steers and the prices for this class of cattle were strong. Trade for all other classes was slow and undoubtedly from 25c to 50c lower.

There is very little inquiry at present for stockers and feeders. Bulls were lower in sympathy with other classes. There was a fair inquiry for good to fair milch cows and springers at satisfactory prices.

There was a good demand for canner cows at steady prices.

There are altogether too many unfinished cattle coming on the market, and the prospects are that this class will go lower.

For the choice steers and good well finished butchers the outlook appears to be distinctly favorable.

The decline in prices yesterday, where there was any, is undoubtedly due to the extremely hot weather and the consequent falling off in consumption. The cattle have been, and are still selling high. The run as stated was about 4200 and at the close a good many were left unsold, probably 500 at least.

The calf market with a run of about 850 head held pretty steady for all classes, especially the better class, but a good many of the calves were of the common and grasser class and hard to sell.

There was a big run of sheep and lambs, 2412 head all told, and whether from this or some other causes the market broke very badly, especially for spring lambs, the bulk of which sold around from 16c to 17c per lb., and at the close a lot of them are reported selling at 15c and 15½c, a loss of fully 4c per lb. from last week. The yearlings were off $2 per cwt. and the butcher sheep $1 per cwt. It is many a long day since the lamb trade got trimmed to the extent of $4 per cwt. in one day.

The hog market with a heavy run of 3266 held steady for the day at last week's prices. For the balance of the week the packers are quoting 23c to the farmer, 23¼c f.o.b., 24¼c fed and watered, and 24½c weighed off.

OUTLOOK IN COBALT CHEERS UP MARKET

Stocks Are Bought More Confidently and Market Tone is Improved.

Mining stocks yesterday reflected the somewhat more hopeful aspect of the strike situation in Cobalt, and, while there were only moderate advances here and there the undertone was distinctly stronger. The volume of transactions, practically 104,000 shares, also showed some improvement. Advices from Cobalt are to the effect that a committee of men representing one of the largest silver producing companies, have notified the management that they are willing to return to work under the conditions prevailing before the strike. The mine owners have made it quite clear that under no circumstances will they recognize the miners' union unless it cuts loose from the Western Federation of Miners, and many of the strikers appear to recognize the futility of staying out in the hope of securing such recognition. On the floor of the Standard Exchange yesterday the belief was expressed that the collapse of the strike was the matter of a few days only. If such predictions proved well based, large buying orders which are being withheld should make their appearance in the market.

Among the gold stocks Davidson again commanded a good deal of attention, and the stock, in which dealings ran to 9,400 shares, remained firm around 67 1-2. Wagers were made yesterday that Davidson will reach 80 within a month, from which circumstance it may be inferred that some individuals hold very bullish views on the immediate market future of the stock. Dome was in good demand and firm at $14.25, while in New York Dome sold at $14. It is believed in some quarters that both Dome and Dome Extension are on the eve of a brisk upward movement. Dome Extension was up half a point yesterday at 3¼ 1-2. McIntyre moved up two points to $1.79, and it would not be surprising if the stock were quoted considerably higher before it sells ex-dividend in the middle of August. Hollinger was in brisk demand and strong between $6.50 and $6.55. Other steady to firm stocks included Wasapika at 81, Lake Shore at 98, with odd lots selling at 99, Porcupine Crown at 28, Schumacher at 23 1-2 to 24 1-2, Keora at 16 1-2 to 17, and Thompson-Krist at 7 7-8.

Adanac was, as usual, the most active of the silver stocks, with transactions of 31,700 shares. Opening unchanged at 10 1-4, an advance to 10 3-4 followed, but the gain was relin
