THEIR NEW CLUB HOUSE.

THE CANADIANS IN NEW YORK MAKING MERRY OVER THE OPENING.

A Description of the Premises—Sir Roderick Was Not Seriously Injured—Mr. Grant Allen En Route to Canada.

NEW YORK, May 20.—That vigorous Canadian cutting, the Canadian Club, having showed signs of withering, has been transplanted to new and richer soil, and now flourishes in the hot-bed of fashionable New York. The new Club House, No. 12 East Twenty-ninth street, was formally opened with many bottles of Roederer, last Saturday evening. Most of the members were on hand and found it hard to believe they were such swells. The place is perfectly adapted to the purpose, a large bow-window in front provides ample opportunity for the ogling without which club life were not club life; generous kitchens await but the spell of the chef; and a garden on the roof is ready for an awning and 80 in the shade. On the first floor are the drawing rooms and a cozy chamber connected with the buffet; above are reading rooms and library, which, with the generous contributions of two members, Messrs. Lovell and Munro, is completely supplied as to English fiction at all events. Up another flight are the billiard and pool rooms and a pleasant writing room; and, up again, four or five cheerful apartments, in which out-of-town members can put up at night.

A personal in the Herald this morning announced that Sir Roderick Cameron had been seriously injured and was confined to his room with the prospect of staying there some weeks. The truth is he was thrown from his horse about a week ago and a little shaken up, but has not been confined at all and has been attending to business as usual all this week.

Mr. Wiman, who is still in Europe, has had a little bit of ill luck. He brought along with a number of Staten Island and Baltimore gentlemen an action against one Barnes who has tricked them all out of a good round sum, and yesterday his complaint was dismissed. There is no doubt of the fraud, but the action was not rightly brought.

Mr. Richard Walkem, Q.C., of Kingston, and Mr. Wm. Pape, of Belleville, have been in town taking the testimony of Drs. Jacobi and Stinson in the case of Betts vs. The Grand Trunk before Mr. W. A. Shrort as commissioner.

Mr. Grant Allen, of England, a Canadian who has made himself famous in many lines of literature, will arrive here on the City of Berlin probably on Friday en route to Canada, where he will spend the summer. S. A. W.

Blind Drunk.

CLEVELAND, O., Oct. 30, 1885.—A few years ago I suffered intensely from uric acid poisoning. Would become totally blind and stagger. My friends repeatedly thought I was drunk. Took twelve bottles of Warner's safe cure and am well.—GEORGE F. RIDGEWAY, ex-Deputy Sheriff, 93 Murison street.

Messrs. Stewart & Robinson, Felt Roofers.—In a report published of the proceedings of the Public School Board, held May 6th inst. from information received, I appear to have made a statement reflecting upon the character of the workmanship in a contract for the felt roofing of the Hope Street School, by which the business reputation of Stewart & Robinson has been impeached. An examination was ordered of their work, and the Trustees and Mr. Denison, Architect, opened the roof and found it in accordance with contract, and from the fact that no inspector was sent by the Board to superintend the work much credit is due them for their honesty. I publicly withdraw any words spoken by me tending in any way to injure the business or reputation of the said firm. STEPHEN WILLCOCK. x

Oak Hall.

"Oak Hall," King street east, Toronto, opposite St. James' Cathedral, means an immense emporium for ready-made clothing. Clothing made in large quantities, and retailed by the firm who manufacture it, can be sold at prices that would astonish some people if they only knew it. Fully 50 per cent. can be saved by making your purchases at "Oak Hall." Mr. Rutherford, the Manager, states that the stock of summer goods is large and varied, and he asks the pertinent question: "Why should the city young man pay double price for his clothing when he can get the same value at 'Oak Hall' for 50 per cent. less?" x

Easily Cured.

—Mrs. Berkinshaw, 26 Pembroke street, Toronto, cured of a bad lameness of the knee joint, upon which the surgeons were about to operate. Other treatment had been tried in vain. Hagyard's Yellow Oil was the remedy used. 246

The World on the Island.

—The World will be delivered to any part of the Island on arrival of first boat. Leave names at office. x

—A man must be master of his business to make it successful. A practical workman generally gives satisfaction. What W. D. Felkin, 5 Shuter street, don't know about upholstering isn't worth much. A 1 material only is used and satisfaction guaranteed. Mr. Felkin has been a number of years in business and has a good record for doing first-class work. x

Five Years of Torture.

—Mrs. U. Aston of Bracebridge writes to say that Burdock Blood Bitters cured her of headaches from which she had suffered for five years, all other means having failed. 246

For High Park and the Humber.

The steamer Hastings commencing to-day will leave Yonge street wharf for the above points at 2 and 4 p.m., calling at York street and the Queen's wharf. On Monday she will leave at 9.30 a.m., 11.30 a.m., 1.30 p.m., 3.30 p.m., 5.30 p.m. and 7.30 p.m., returning on last trip from the Humber at 9 p.m. x

Yankee Sharpness.

—A Yankee pedlar in his buggie overtaking another of his class was addressed, "Hello, what do you carry?" "Drugs and medicines," was the reply. "Go ahead," was the rejoinder, "I carry gravestones." The Li-Quor Tea Co. carry the largest and best assorted stock of teas in the Dominion. You ought to come today just to satisfy yourselves. Geo. Mann is booming this company by real value. 295 Yonge street. edx

A Wise Choice of Evils.

Catarrh.

—Catarrh, on account of its prevalence in this country, is attracting a good deal of attention, more especially now when there is a probability of a visit from cholera, for where either is a muco-purulent discharge, such discharge forms a nidus very inviting to cholera germs, and very favorable for their reproduction in a more violent form, thus placing sufferers from catarrh at a great disadvantage in the event of a cholera visitation.

Catarrh is a contagious disease. It is a muco-purulent discharge, caused by the presence of a vegetable parasite in the lining membrane of the nose. These parasites reproduce themselves in great multitudes, and each generation is more virulent. They spread up the nostrils and down the fauces or back of the throat, causing ulceration of the throat, up the eustachian tubes, causing deafness; burrowing in the vocal cords, causing hoarseness; usurping the proper function of the bronchial tubes, ending in pulmonary consumption and death.

The reason that catarrh has become so prevalent a disease is entirely due to the fact that it has not been understood. Physicians have been unanimous in treating it as a simple inflammation of the membrane and have signally failed to produce cures, but microscopic research has revealed the presence of the parasite, and now sufferers from this disease who appreciate the fact that it is by way of its secondary effects a most deadly one, will be glad to learn that a wonderfully successful treatment has been formulated, whereby the most aggravated cases of catarrh have been permanently cured in from one to three simple applications. The interesting pamphlet descriptive of this new treatment, from which we glean the above, is sent free to all applicants on receipt of stamp by A. H. Dixon & Son, 305 King street west, Toronto, Canada. —The Stars 15

Woodstock's new biscuit factory is now in full operation. The sons and daughters of the capital of Oxford are consequently happy. Woodstock will also shortly have a match factory run by K. of L. on the co-operative plan.

In 1873, the year in which the Opera House was built in Brockville, mechanics wages were from $1 to $1.25 per day, and it was hard work to get even that. Now, from $2 to $2.50 per day is paid to the same class of mechanics.—Daily Times.

The lightning recently struck the residence of Jacob Pound, of Glencolin, Ont. The electric fluid entered the chimney, passed down the pipe, blew off the front doors of the stove, and made its way along the floor, tearing up a large slip of carpet, and went through the floor into the cellar below.

Dr. John Bird, aged 87 years, died in Belleville jail on Tuesday. The coroner's jury condemned the heartless conduct of relatives, who refused to provide for a father and brother in his dying hours. Sir Walter Scott.

—A fact, not generally known, is that Sir Walter Scott was the first President of the Scottish Union and National Insurance Company of Edinburgh, and to show that his memory has not suffered by the Company it is only necessary to point out that the assets of the Company have accumulated to $35,000,000, and at this moment no Company occupies a higher position for prompt and liberal treatment of its patrons. They Take the Lead.

Upholstering is one of the fine arts. To be a good upholsterer, means that a man must not only be a good workman, but that he must have a certain amount of good taste. T. F. Cummings & Co., 349 Yonge street, take the lead in Toronto. They turn out none but first class work, work that cannot be excelled. Ladies' work made up to order. Drawing-room suites a specialty. 246x

A Wife Don't Know Her Husband!

—A most remarkable case of identification is to hand in Toronto. A gentleman returning home from business was refused admittance by his wife to his home. A simple explanation will show the reason. He had just donned a new summer suit, and it improved his general appearance so much that even his "own wife" didn't know him. Coulter & Gibson, the tailors, 249 Yonge street, surprise every one with their nobby suits. 246x

—Hello! Gus you look happy, what's up! Well, Fred, I'll tell you; That dude that has so much cash called on Jennie the other night, and her mother got him to help her put up some pictures, and he drove the nails in and broke the plaster off their new walls, and she got mad with him and Jennie told me of it. I telephoned R. J. Licence & Co., cor. Bay and Adelaide, and they sent a man up and put up room mouldings at my expense (and it only cost six dollars), and now I'm solid with the old lady. She thinks I've a great head. edx

These steamers are fitted throughout with the Siemen's Swan electric light, and are celebrated for the speed and regularity of their passages. From midship section and their great sail power they are usually steady in rough weather, and this, with their perfect ventilation, renders sea-sickness comparatively rare. An extreme southerly course is followed, and no attempt is made at competitive passages, comfort and safety being considered paramount to all other considerations. For rates, etc., apply to the local agents of the line, or to T. W. JONES, General Canadian Agent, 23 York st., Toronto. 246
