TOWN OF LAON SET ON FIRE BY THE GERMANS

THE TOWN OF SAINT ETIENNE CAPTURED BY THE AMERICANS

French Troops Cross Suippe River, Germans Retiring in Disorder--Docks and Wharves of Bruges Set on Fire By Enemy — Laon and Douai Burning—British Have Taken Many Towns and Villages.

Paris, Oct. 7—Laon, the stronghold to which the enemy has been clinging as the key point of his line on the southwest, apparently has been set fire to by the Germans. The town was reported ablaze yesterday and fires were still burning there today.

The Americans have captured St. Etienne.

French troops have crossed the Suippe river eastward of Orainville and have reached the outskirts of Bassancourt and Boul-Sur-Suippe after severe fighting. At Clement-A-Arnes heavy losses have been inflicted upon the Germans, who retired in disorder. Today's fighting completed the deliverance of Rheims.

The battle north of St. Quentin continued all day and Demaucourt, Tilley Farm and several fortified woods were captured. The enemy resisted furiously, but was unable to check the French, who captured several hundred prisoners.

Bruges Docks Burning.

Amsterdam, Oct. 5.—(By the Associated Press)—Some of the wharves and docks at Bruges have been set on fire by the Germans, according to the frontier correspondent of the Telegraaf. He says the Germans have removed their guns and coast defence materials from Knocke, and have destroyed the sheds. He adds that the entire garrison at Moerkerke has been withdrawn and work at Zeebrugge has been stopped, while civilian workers have removed a large number of anti-aircraft guns mounted six miles east of Bruges. At Ghent, stores are being hastily loaded by the Germans.

Give Way Before French.

With the French Armies on the Champagne Front, Oct. 6.—(By the Associated Press)—Over a wide extent of territory, outlined by burning villages the Germans are retreating rapidly before General Gouraud's troops. They are crowded by General Berthelot's forces from the west and in danger of being cut off by the Franco-Americans who have crossed the Arnes River.

British Progress.

With the British Army in the St. Quentin sector, Oct. 6.—(By the Associated Press)—Progress is reported all along the British front from the neighborhood of Lille southward. In the northern part of this zone the German retreat is said to be virtually voluntary and that the enemy is pivoting on the front before Lille.

In the local fighting on Sunday around Aubencheul-Aux-Bois, the British captured four hundred prisoners.

With the British Army in France, Oct. 6.—(By the Associated Press)—Many towns have been occupied by the British today in their advance after the retreating Germans along the sector of the front from Cambrai to Lens. In some cases the enemy's rear guards offered resistance. But they have been annihilated in each instance. This happened at Abancourt, where the railroad station was occupied and the entire garrison was killed. More ground has been taken immediately to the northeast of Cambrai. Hallum, east of Lens, has been reached and passed.

Destructive Huns.

The Germans have been engaged in further work of destruction, for, in addition to new fires which have started up along the front, many explosions have been observed in the great coal mining district northeast of Lens, and prisoners say that the coal mine pit mouths have been destroyed.

Fires have been observed today in Haubourdin, three miles west of Lille, and in the neighborhood of Le Madelaine, in the northeastern outskirts of Lille. No fires of any consequence have as yet been seen in Lille itself.

Douai is still burning and the country south of it has been flooded with the waters of the River Sensee. Fresh fires are reported to the east of Douai and prisoners just captured say that before the torch was applied there the Germans, officers as well as men, engaged in a wild orgy of looting. They scrambled all over the town, stealing the property of the inhabitants, and many cart loads of loot are said to have been shipped from the city.

DO YOU SUFFER FROM BACKACHE?

When your kidneys are weak and torpid they do not properly perform their functions; your back aches and you do not feel like doing much of anything. You are likely to be despondent and to borrow trouble just as if you hadn't enough already. Don't be a victim any longer.

The old reliable medicine, Hood's Sarsaparilla, gives strength and tone to the kidneys and builds up the whole system.

Hood's Sarsaparilla is a peculiar combination of roots, barks and herbs. No other medicine acts like it, because no other medicine has the same formula or ingredients. Accept no substitute, but insist on having Hood's, and get it today.

EXPLOSION RUINED 325 BUILDINGS

Orders Issued By Militia Department Authorizing Formation of Third Tank Battalion.

Perth Amboy, N.J., Oct. 7.—Sixty-four men are missing, and 325 of the 700 buildings of the T. A. Gillespie Loading Company plant at Morgan, N.J., were destroyed in the fire and explosions which swept the big shell factory on Friday and Saturday, according to an official statement made by Thomas A. Gillespie, president of the corporation, here this afternoon.

Mr. Gillespie declared that the labor camp, consisting of 40 buildings, is practically intact, and that the power house, docks, traffic system through the works and the storage warehouses and magazines have not been damaged to any great extent. The statement was issued after the head of the company, with the United States army authorities, had made a complete survey of the plant.

A WONDERFUL STAND MADE BY CANADIANS

(Continued from Page One.)

The salient they drive into the enemy line becomes enfiladed, and if power is not at hand to widen it out into a practical front, the troops in the apex must either fight it out against overwhelming odds or fall back. The latter is not the lesson the Canadian Corps has learned, and it was this desperate clinging to positions, tactically untenable, that contributed to our heavy casualties. Incidentally it was just such stands that stemmed the enemy waves and frustrated his savage efforts to win back Bourlon Wood. Such a situation was brought about Tuesday morning when a famous Ontario left flank was exposed and shattering enemy masses were advancing upon it. A retirement would have been perfectly justified, but such would have uncovered our centre, and imperilled all the gains on our right, brilliantly made in the early morning. So that battalion, much weakened as it was, stood fast. At the end of the battle the gallant colonel, formerly of the Canadian Engineers, was the only officer unwounded.

The Vital Trench.

Holding the vital trench of the flank was a party of seventeen of this unit, whose commands had been taken over by a staff captain, attached to the intelligence staff of the brigade. He had been sent forward by the Brigadier to help fill the depleted rank of officers, after having been recalled hastily after only three days of leave, to take his place in this battle. This little party was entirely isolated, but for hours they held on to the trench that was the key to the position. They were still grimly carrying on, taking a great toll of the enemy, when supports were pushed into them. Few were unwounded, and the captain, an M.C., with bar, died of his wounds. The intelligence officer of another brigade, engaged in like operations, particularly distinguished himself by brilliant reconnaissance work, pushing out beyond our outposts under a continual fire. He comes from British Columbia.

Lieutenant's Devotion.

A lieutenant in a Manitoba battalion, D.C.M., and M.M., and formerly a non-commissioned officer, by his devoted example inspired his men to stand fast under extraordinarily heavy punishment. Though wounded in both legs, he carried on until he fainted from loss of blood, and was carried out. The commanding officer of a Nova Scotia battalion, though wounded in the cheek, temporarily losing the sight of an eye, refused to be evacuated and stayed by his unit throughout the operation, contributing greatly to its success. The colonel of an Ontario battalion, though seriously wounded in the hip, which ended fatally, directed his command until he lost consciousness. His brilliant leadership had proved a great asset in a critical part of the struggle. These are but a few haphazard cases. Never have the Canadians fought harder nor to better purpose. In those five days of battle they dealt a blow at the enemy from which he still reels. Above everything else it was the unconquerable spirit of all ranks that gained the decision, the effects of which are hardly yet realized. Notwithstanding his lavish and repeated outpourings of blood, he has not shaken our strangle hold on his vital pivot of Cambrai.

With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.

SPANISH INFLUENZA CONTINUES TO SPREAD IN THE DOMINION

Many New Cases in Halifax, Sydney, St. Johns, Que., Hamilton, Ottawa, Montreal and Toronto —Case in Fredericton--Ten Cases in Yarmouth and Schools Closed.

Yarmouth, N.S., Oct. 7.—The Board of Health met at 11 o'clock this morning and have advised the closing of all schools and churches, theatres, pool rooms and bowling alleys until the 19th inst. No public gatherings of any description must be held and social gatherings must stop for that period. After noon today there was nothing open in either the town or municipality.

There are but ten cases of Spanish influenza in town, but this step was taken in an effort to check the disease.

At Niagara Camp.

Niagara Camp, Ont., Oct. 7. — A third death has occurred in the Canadian camp from Spanish influenza. Private Gillespie, of Stratford, Ont., who came to the camp with the London section of the 259th Battalion, Siberian field forces, and had been in training for a few days, died here last night. There were 125 cases of influenza in the camp hospital this morning, seventeen having been admitted yesterday.

Severe in South Africa.

Cape Town, Oct. 7.—(Canadian Press despatch from Reuter's Limited.)—Spanish influenza has obtained an extraordinary grip in South Africa and is spreading extensively. Many shops in Cape Town have been closed and every business is finding it difficult to carry on. The epidemic is not usually over quickly in the case of whites, but is most virulent among the natives. The public services are severely disorganized. Kimberley's trade and mining industries are at a standstill. A terrible toll has been taken among native workers and the dead are being buried in batches hourly.

Cases in Fredericton.

Fredericton, Oct. 7.—The first cases of Spanish influenza reported in Fredericton have occurred in the military hospital, Woodstock Road.

Major Luton, officed commanding the hospital, said today that the disease was of a very mild type. Four nurses and five soldiers are reported to have the disease.

Spreads in Halifax.

Halifax, Oct. 7.—At a meeting of the board of health here today twenty-two new cases of Spanish influenza were reported since Saturday, making a total of ninety-two cases reported. Eleven of these were among citizens, and eleven military cases. Two death were reported locally, and one at Lawlor's Island quarantine station.

City Medical Officer Bruce Almon, who also is attached to the A. M. C. here with rank of captain, refused to devote his entire time to the city during the crisis. He receives $1,200 a year as C. M. O.

Eleven Deaths in Hamilton.

Hamilton, Ont., Oct. 7.—Eleven deaths from Spanish influenza here were reported during the last forty-eight hours. The disease has taken a firm hold on the city, although the number of deaths is comparatively small.

3,000 Cases in Ottawa

Ottawa, Oct. 6.—It was estimated by Dr. Law, medical health officer, that there are 3,000 cases of influenza in the city. The majority, he said, were of a mild nature. The churches observed the request of the board of health that services be cancelled, aside from low masses in the Catholic and short services in the Anglican churches in the morning.

More Than 1,000 Cases.

Montreal, Oct. 6.—Twelve more deaths of soldiers from Spanish influenza were reported over the week-end and seventy-one new cases at the hospitals. This makes a total of forty-two soldiers dead from the disease up to midnight Saturday. Major-General Wilson said today that at last reports there were 493 cases of Spanish influenza at St. Johns baracks and at Montreal military hospitals 349, including eighty-four cases sent in from St. Johns. The total of cases at St. Johns out of 2,300 soldiers stationed there was 784, while the total number of cases reported at Montreal was 273, making a grand total of 1,057 with the probability of others having occurred since the last report was prepared.

General Wilson takes a serious view of the epidemic and urges the closing of all places of public amusement and the prevention of assemblies of people anywhere.

Serious in Toronto.

Toronto, Oct. 6.—Instead of subsiding, the epidemic of Spanish influenza is becoming worse. Hospital accommodation has been taxed to the limit and orders were given today for the largest civic institution, the general hospital, that no more cases of influenza were to be admitted. The general hospital, aside from several beds in the emergency ward, is full.

More Than 700 in Sydney.

Sydney, N. S., Oct. 6.—There are more than 700 known cases of Spanish influenza in Sydney, and the board of health has followed the banning of dance halls, theatres, and schools by closing churches, bowling alleys, pool rooms and all meetings. Unless the situation improves within a day or two, the tram service will be stopped.

TRIES TO SETTLE THE TELEGRAPH DISPUTE

President Konenkamp Working on Canadian Press, C. P. R. and G. N. T. Cases.

Toronto, Oct. 7.—President S. J. Konenkamp of the International Commercial Telegraph Union, has been in Toronto for a day or two endeavoring to effect a settlement in connection with disputes between the employes and the management of the Great Northwestern Telegraph Company and the Canadian Press, Limited, respectively. Mr. Konenkamp left for Montreal tonight to appear before the Canadian Railway War Board relative to the interpretation of sundry clauses in the agreement recently made between the C. P. R. and its commercial telegraphers. He will later go to Ottawa.

PRINCE ALEXANDER OF SERBIA IS HONORED

King Peter Promotes Him in Recognition of His Victories in Macedonia.

Corfu, Oct. 7.—Prince Alexander of Serbia has been promoted to the rank of general by King Peter, in recognition of his victories during the Macedonian offensive. The Serbian government wished to make this promotion last June, but Prince Alexander asked that it be deferred until after a victory had been won.

London, Oct. 7.—The Serbian war statement follows:

"After the capture of Vranje our advance guards continued energetically to pursue the enemy. It is reported that up to the present 1,500 prisoners, including the commander of an Austrian regiment, 12 guns, mostly heavy ones, and 30ma chine guns have been captured."

MOSCOW CONSUL SAFE.

London, Oct. 7.—R. H. B. Lockhart, the British consul general at Moscow, who was arrested by the Bolshevik government last August, is reported to have arrived, with his party, at the Finnish frontier from Moscow, the Central News says it learns from a reliable source.

MICHAEL P. CASHIN HONORED BY KING

Acting Premier of Newfoundland Is Knight Commander of Order of British Empire.

St. John's, Nfld., Oct. 7.—Among the honors conferred by His Majesty King George, is that of Knight Commander of the Order of the British Empire in connection with the war on Michael Patrick Cashin, minister of finance and customs and acting premier. The list includes two promotions to the Commander of the Order; three new appointments of officers and twelve for membership.

HEARSE KILLS GRAVE DIGGER IN CEMETERY

Cote Des Neiges Employe Made Attempt To Stop Runaway Horses.

Montreal, Oct. 7.—Joseph Santy, 35 years of age, was so severely injured while working in the Cote des Neiges cemetery, that he died while being taken to a hospital.

The horses of a hearse belonging to the Co-operative Funeral Society became frightened, it is stated, and ran away. Santy, who was employed as grave digger, made an attempt to stop them. The hearse overturned, and he was caught beneath, being badly crushed.

PRIESTS TRANSFERRED IN CHATHAM DIOCESE

Father Paquin of West Bathurst Goes To St. Basil and Father Michaud of Edmunston To West Bathurst.

Bathurst, Oct. 7.—Rev. Father Paquin, of the church of the Holy Family, has been transferred to St. Basil, where he will be assistant to Rt. Rev. Mgr. Dugal, vicar-general of the diocese.

Rev. Father Michaud, of Edmundston, has been transferred to the West Bathurst parish to assist Rt Rev. Mgr. Varrily.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.
