ed. We understand that Doctor Cogswell is still engaged in the prosecution of this subject, and when perfected, the results of his labours will be given to the public in a work we doubt not will give the author a claim to be ranked one of the most rising physiologists of the present day.—*Novascotian.*

We are informed, that the American who declared himself the accredited Agent of the State of Maine, and who was for some time past distributing money among the inhabitants of Madawaska, for the purpose of inducing them to acknowledge allegiance to the Government of the United States, and disavowing the authority of the British Government, has been arrested and safely lodged in Prison in the County of York.

From the Boston Weekly Messenger.

Nine days later from England.—By the arrival of three packet ships at New York, we have received later advices from England. The London dates are to May 17, and Liverpool to the 18th. The condition of the Money Market in England was decidedly improved, since the last previous dates. New York papers to April 24 had been received. The extracts which we publish will serve to show the state of commercial affairs.

The Westminster election took place on the 12th—the whole polling being completed in one day. After an animated contest, conducted however without any disorder. Sir Francis Burdett was rechosen by a majority of 515 votes, his poll being 3567, and that of Mr. Leader 3052. The result was declared on the following day, and on the same day he took his seat, amidst immense cheering from the opposition benches, and hissing from the ministerial side.

The King of the French has issued an ordonnance granting an amnesty to all individuals confined in the prisons for political offences. The penalty against Benireau and Meunier is commuted to banishment for ten years.

The Duchess Dowager of Saxe Meinengen, mother of the Queen of England, died April 30.

The daughter of Lord Lyndhurst died at Paris, May 9, in her 16th year.

Paris dates to the 14th quote 3 per cents at 79f. 15c. Vegetation was very backward, and the weather cold.

Thirty one persons lost their lives in the coal mines of Mold, May 10th, in consequence of a sudden inundation.

From the London Times.

LONDON, May 13.—There is not any marked alteration in the character of the commercial money market to-day. The pressure has not, however, increased although the advices from the manufacturing districts continue to be any thing but cheering. The small amount of specie which has been received from the United States, by the last two packets, cannot be expected to have afforded more than very limited relief to the houses engaged in the American trade, consequently the next packets are looked for with no inconsiderable degree of anxiety.

To the Editor of the Morning Chronicle.

19, Coleman street, May 13, 1837.

SIR—We have observed with the utmost astonishment the statement in your City Article of yesterday, in which you distinguish us from some other houses named, and state that our firm had been compelled to receive clerks from the Bank of England to wind up our affairs, &c.

We shall not say one word as to the position of others, but so far as we are concerned, there is not the slightest foundation for the statement.

Your obedient servants,
GEORGE WILDES & CO.

LIVERPOOL, May 16.—Louis Phillippe has taken a step which will probably prove more effectual in protecting him from the plots of assassins than the activity of the police, the fidelity of the army, or even the good wishes of the great body of the people;—he has granted an amnesty to all political offenders.

This is an act of great magnanimity, and probably of true wisdom. It will shame his enemies into quietness, and comes most opportunely to put the nation in a good humour at the marriage of his son, the Duke of Orleans.

From the London Times, May 17.

Money Market and City Intelligence—Tuesday evening—by the advices from Hamburgh the price of gold is 435 1-2 per mark. The exchange at Hamburgh on London at short being 13 9 3-4, it follows that gold is 0,23 per cent. dearer at Hamburgh than in London.

The premium on gold at Paris is 9 1-2 per mille, and the exchange at Paris on London at short being 25, 37 1-2, it follows that gold is 0.6 per cent. dearer at Paris than in London.

The course of Exchange at New York on London is 111 3-4 per cent. and the par of exchange between England and America being 109 23-109 per cent, it follows that the exchange is 2,17 per cent. above par.

There has been some increase within these few days in the demand for par gold, but it is not expected to be a very extensive one. The operations which have chiefly given rise to it are suspected to be those of the Colonial Bank, which is about to commence its business.

Passengers in the ship Ward, for Liverpool:—Lieutenant Colonel Slade, Lady, and Nephew; Assistant Commissary General Swinney, and Mr. F. Platt.

☞ A Sermon will be preached in Grace Church, Portland, on Sunday Evening next, by the Rev. I. W. D. GRAY, A. M. and a Collection taken up for the benefit of the Episcopal Sunday School, in that place. Service to commence at 6 o'clock.

MARRIED.

On Sunday last, by the Rev. J. Dunphy, Mr. Thomas Cusick, to Miss Bridget Spaine.—Monday by the same, Mr. Job Petty, to Miss Ann Kenney.

On the 15th instant, by the Rev. Mr. Wilson, Mr. George Craig, to Miss Jane Thompson.

In Charlotte County, on the 6th inst. John Wilkinson, Esquire, Civil Engineer, to Mary Rebecca, second daughter of the late Capt. Wm. Curry.

CONTRACTS for ERECTING
A BRIDGE.

TENDERS will be received until the fifteenth day of July next, by the undernamed Commissioners, from persons disposed to contract for erecting and completing a BRIDGE, proposed to connect the town of Bathurst with the North side of Middle River Basin, in the County of Gloucester.

The Bridge required will be half a mile long, including the Abutments at both ends and the finishing of the same, by twenty-five feet wide: to be built on Hemlock Piles; the Piles to be driven not less than twelve feet deep through the mud or sediment (unless interrupted by rock,) and to be in rows of five deep: the span between the rows to be sixteen feet: the centre and side Piles to be thorough braced: the Piles to be capped by a single piece, which shall project eighteen inches over the side piles: each pile to be tenanted into the caps. The proposed site of the Bridge is a mud-flat, dry at low water, with the exception of a channel about two hundred feet wide, over which a gate or draw is to be constructed in the Bridge twenty feet wide, to admit the passage of small vessels; the whole to be planked with Hemlock plank, four inches thick.—A foot path of four feet wide to be raised six inches above the main floor on one side, and a hand rail to extend along the Bridge on both sides. All materials to be provided by the contractor.

A more particular specification, with the size of the Scantling and design of the proposed work, can be seen at all times at the Sheriff's Office, Bathurst.

The whole will be required to be finished on or before the first of September, 1838. Good security will be required from the contractor for the faithful performance of the contract.

Payments to be made as follows viz: 25 per cent. on executing the bonds and contract, 25 per cent. on the first of March 1838, 25 per cent. on the first of June following, and the remainder one month after the completion of the work.

JOSEPH READ, CHARLES DOUCET, WILLIAM NAPIER, | HENRY W. BALDWIN, WILLIAM END, *Commissioners*

Bathurst, Gloucester, 6th May, 1837.
