of a building in Morris-street. Verdict of the Jury—"That the deceased came to his death from a wound on his head occasioned by a fall."

SAILOR'S HOME.—We observe that a Petition has been presented to the Legislature for aid to get up a Sailor's Home in the City. Among the [illegible] we have seen yet new as equal weight with this. Occasions in port every where are made the prey of designing and unprincipled men, more so as much so in any other port of the Empire, while their friends and families are left unprovided for and uncared for among the intoxications of dissipation and the indulgence of passion. A "Home" under prudent guidance and regulations would be to them the saving of most aids now thrown away in intoxicating drinks and other debaucheries, and thus the commencement of a larger and great moral improvement still, the improvement of christianity, humanity to the degradate and mistaking beings. As home, such as that now contemplated, have been found to work well in England, and is recommended by its philanthropists. We trust the Legislature will not hesitate when such a benevolent work as this is in contemplation.—[Col. Advocate.

A "Sailor's Home" is indeed much required in this City, where seamen are frequently very numerous; and if well conducted, would be a most excellent and useful establishment, every way worthy of public support, and we hope the Legislature will view the project in a favorable light, and grant a liberal sum towards its endowment.

CHURCH SOCIETY OF NEW-BRUNSWICK.—The Diocesan Church Society of New-Brunswick held its Annual Meeting at Fredericton on the 9th ultimo, the Right Reverend the Lord Bishop, President of the Society, in the Chair. The Meeting was very numerously attended, and was honoured with the presence of Lady Colebrook, and other ladies of Fredericton. His Excellency the Lieutenant Governor, Patron of the Society, was likewise present. The Executive and General Committees met on the 6th and 7th. The Society has been nine years in operation, during which time it has paid the travelling expenses of two clergymen employed in missionary visits; has made grants to the building of twenty-four new Churches, and the enlarging of five others, thereby giving additional church-accommodation to twenty-nine different places; has made 173 gratuitous grants of books of the value of £812, besides selling a large quantity at very low prices; and in addition to this has accumulated property, vested in books, mortgages, notes, and balances in the Treasurer's hands, to the amount of £980; which, with the addition of the contributions of the current year, amount to nearly £2000. The following grants were placed at the disposal of the Executive Committee for distribution:—£450 for missionary visits; £500 for books and tracts; £200 for building and enlarging of churches and chapels; £100 for the creation of a fund for augmenting the stipends of poor clergymen, &c.—in all £1250. The Society attended Divine Service at Christ Church on the 8th,—the sermon by the Rev. J. W. D. Gray, Rector of St. John, a copy of which was afterwards requested, in order to its being published in the Report. The next Annual Meeting is to be held in St. John.—*Courier.*

CONTEMPLATED ERECTIONS.—We are glad to learn that a Free Church is about to be erected in the Lower Cove by the Episcopalians, if a lot of sufficient extent and suitable in other respects, can be found in that vicinity. The want of Church accommodation in that part of the City, so long admitted to be a serious inconvenience, is at length, we are pleased to hear, about to be supplied. We likewise understand that the Baptist congregation of this City have lately purchased ground adjoining the property of William Walker, Esq. Brussels St. for the purpose of erecting another Church to meet the wants of that flourishing community. The Roman Catholics are also laudably engaged in the erection of a capacious building on Sidney-street, near Duke-street, for the purposes of a Temperance Hall and Catholic Schools.—*Ib.*

FIRE.—We regret to learn that the house of Mr. Robert Burtlett, at Lepreaux, was totally consumed by fire on Friday last, about 12 o'clock, (in the absence of the adult members of the family) and with it the furniture, clothing, &c. with few exceptions. It is supposed to have caught upon the roof, by a spark from the chimney. Mr. B. has by this unfortunate accident sustained a very heavy loss, there having been no insurance on either the house or its contents.—*Herald.*

GREAT TEMPERANCE TEA MEETING.—The meeting which took place on Wednesday evening, according to previous announcement, was undoubtedly the most successful affair of the kind that has ever been witnessed in this City. Every denomination of Christians was represented by many of its members. About a two hundred persons were present, occupying all the available space in the room; and we have little doubt the number would have doubled had there been accommodation for so many. In addition to other marks of favor, Total Abstinence, we have to note the cheerful and happy faces of our fair hostesses, who vie with each other in their efforts to render matters as agreeable as the crowded state of the room would permit. The viands were choice, and the *liquors* never better—the juice of the berry being wholly unfermented. After tea, the President, in a neat address, gave a brief exposé of the reformation in Lubec, and the progress of the attachment to temperance in that place. He was succeeded by the Rev. M. Fraser, the Rev. Mr. Gallaway, Mr. Lockhart, and the Rev. Mr. Robinson, who severally bore testimony to the promises of the pledge, and the great benefits arising to society through the instrumentality of Total Abstinence.—*Temperance Telegraph.*

MILL RESERVES.—The Law Officers of the Crown have decided that the Government of this Province is not authorized to reserve certain lands, and to grant license to cut thereon to Mill-Owners only, at whose request such lands may have been reserved, but that such grant is at variance with the Civil List Bill, and not sanctioned by the Act 7th Victoria.—*N. Brunr.*

COUNTY OF GLOUCESTER.—Richard Smyth, a Farmer, residing in the Tetagouche settlement, perished on the road, between Bathurst and his own house, on the evening of Tuesday, 24th ult., within a quarter of a mile of a farm house. He had left the village about dusk, and his body was found on Wednesday, early, lying extended on the road-side. Mr. Smyth was a native of Ireland, and emigrated to this country a few years ago, and has left a widow and eleven children.—*Miramichi Gleaner.*

Public Spirit in the East.—The Pictonians are going to light their little town with Gas! Well done. The capital of the Company which proposes to engage in this enterprize is to be £5000, to be raised in shares of £5 a share. We hope the public will not have to pay so dear for their whistle as we Haligonians have. Eighteen Shillings per foot! and bad Gas to boot.—*Halifax Sun.*

MONTREAL, Feb 23.

Great excitement has been created in the commercial circles here, by the recent news from England of the contemplated withdrawal and diminution of the protective duties. Well informed persons here, however, do not contemplate any serious or lasting injury to colonial interests, as the proposed measures will necessitate the introduction of improvements which otherwise would not have been thought of.

The anniversary of the Montreal branch of the Wesleyan Missionary Society was held during the last week. The income of the society during the past year was $529.935, and the expenditure $515,-910. There are 165 chapels and 382 missionaries.

A fire has occurred at the Penitentiary at Kingston, by which property to the amount of $10,000 was destroyed.

The Toronto *Globe* concludes some observations on the Oregon correspondence with the following remarks:—"In relation to Canada. If the States have given themselves up to the demon of territorial conquest, and if they are founding anything on Canadian destruction, we can say that we have conversed with people of every class and from every quarter of the Province, of every shade of political principle—from the ultra Tory to the most ultra Democrat, and we have never met a single individual who has not heartily and emphatically condemned the unprincipled conduct of the American Government in relation to the Oregon question. They will find no quarter here for the ambitious and unjust projects, and will meet the most stern opposition if they venture to plant a foot on the Canadian territory."

The healthy state of the 82nd regiment, since they have been stationed in Toronto, is worthy of notice. In the course of three year's service in Canada, the 82nd have had 6 officers and 244 men.

The two years service in Toronto of the head quarters of the 82nd will terminate in May next, and during their stay here they have not buried a single man.—*Toronto paper.*

CANADIAN COMMERCE.—There are now twenty three vessels building at the port of Quebec, amounting to nearly fourteen thousand tons, giving employment to 1980 men.

LUMBER.—Great preparations are making on the Ottawa for this year's lumber trade; the estimated number of cubic feet to be sent down is thirty millions; the estimate last year was twenty millions, and the actual number nineteen millions.—*Canada paper.*

THE N. Y. PACKET SHIPS.—The packet ship Havre, from Havre, arrived at New-York 27th Feb. after fifty-one days passage. She met with a succession of gales before reaching the Grand Bank, during which, for eleven days, she only made twenty miles. She passed the South of the Banks on the 8th of February, enveloped in ice and snow, and was driven by a continuation of the Westerly gales nearly to Bermuda. On the 18th, these westerly gales ceased, and in nine days from that time she arrived at New York. During much of the time the Havre was under close reefed topsails, and it is represented that this new & strong ship with difficulty held herself up under the repeated gales.—[Boston Daily Adv.

TRADE WITH HAVANA.—On the 7th February, there were noless than one hundred and sixty-five vessels in the port of Havana, Cuba—among them were English, American, French, Danish, Prussian, Russian, and Mexican. The Trade of the port is in a prosperous state.

The Medal for China.—Mr. Wyon, the engraver to the Mint, has just completed the die for the medal to be distributed to the officers and soldiers who have served in China during the late war. The die has been successful, and preparations are making for striking the medals, of which 18,000 are commanded. They are to be all of silver; no difference being made between those to be presented to the officers and those to be given to the men.

Prince Jules de Polignac, President of the Council of the last Ministry of Charles X. has lately purchased a charming house at Versailles. Prince de Polignac had been allowed to reside at St. Germains, but easily obtained this change of residence. He now inhabits the house which he has just bought.
