should be more extensively and earnestly enlisted in the mission of the Sunday Schools.

This resolution was most powerfully advocated. Mr. McKenzie referred to a case in which seven gentlemen, once rude boys, in New Hampshire, had erected a monument to their deceased female teacher. Three of them were now preachers of the gospel, and four respectable merchants, one being the rich and generous friend of many good institutions. The latter told the story of the lad who was ready to die, on an Atlantic voyage, rather than tell a falsehood, as illustrative of the materials on which Sunday School teachers had to operate. He also described, partly quoting an American newspaper, the joy of the Sunday School scholars, that the Governor remained among them after his elevation. In this connection Mr. McKenzie mentioned, that the late Governor Briggs, of Massachusetts, used to say he felt lowered in going into the State House, but raised when engaged in teaching African children to read.

More singing followed, then another delightful address from the Governor to the audience, and frequent addresses to the boys and girls, which they, perhaps, will never forget, followed by the singing of the Doxology. The Benediction was pronounced by the Rev. Mr. Cameron. Miss Esty presided at the organ. —*Telegraph.*

General Intelligence.

FATAL ACCIDENT AT ARGYLE.—On Saturday last Mr. Joseph Surette, of Morris' Island, Argyle, was struck in the upper part of his back, near the neck, by a limb from a tree, prostrating him headlong to the ground, and a root striking the scalp inflicted a severe wound; the blood poured from both nostrils, and one eye was badly contused. He was able to walk to the house, and Dr. Bent was immediately called, but could render little assistance the wounds being fatal. Mr. S, expired fifteen hours after the occurrence of the accident.—*Yarmouth Herald.*

EDUCATIONAL.—We learn with much regret that the Commissioners for Halifax are extending the sectarian system. We are informed that a new school has recently been built in connection with the Convent, and that the people of Halifax are to be taxed to pay the interest of the money required to erect that school as well as to keep it open as a free school. We are told, moreover, that negotiations are proceeding with the ecclesiastical authorities for the erection of another Sectarian School in "St. Patrick's Parish,"—the Board to pay the interest of the money, as well as to keep it open as a free school. Is it not time for the people of Halifax to open their eyes and see whither they are drifting? Is it not time to demand that the Board be reconstituted?

Educational matters are still unsatisfactory. We are not yet told whether or not the Government has withdrawn its Illegal Minute. If that Minute be not withdrawn,—if the people will quietly submit to it, tolerate it, we predict that before many months are passed, another and another blow will be dealt to our Common School system. Sectarian books will be introduced. The "Nova Scotia series" will be crowded into the background. The books now used surreptitiously in Separate Schools will be recognized. Step by step our Common Schools will be ruined—Now, the remedy is easy and patent. Let the Government waken up, and manfully do its duty to the whole country. Let us have no more paltering with illegal and underhand measures. Away with the "Sapping and mining" process now so industriously pursued, not by the Government, but by astute men who unfortunately have the power to manipulate the Government and the feeble tools who are connected with the Education office.—*Presbyterian Witness.*

SERMON TO YOUNG MEN.—The Rev. Mr. Clarke, M. A., preached a sermon to young men last evening in Grafton Street Wesleyan Church. The building was crowded, principally by the persons who were specially addressed. The Rev. Gentleman took his text from Psalms 119, Chap. and 9th verse. "Wherewithal shall a young man cleanse his ways, by taking heed thereto according to thy word." In the course of a very earnest and powerful discourse, he pointed out the many temptations to which young men are exposed, the gambling house, the drinking saloon, and the house of questionable fame. He urged upon them the necessity of avoiding such places, as they could only lead to ruin both in this life and the life to come. He showed that in the study of the bible lay their surest help and safeguard against temptation. He referred in most pointed terms to the recent investigation in the Police Court, and condemned the want of judgment and discretion evinced by the person who presides over that institution in permitting the examination to be held in public. The sermon was listened to with wrapt attention and the audience seemed deeply impressed by the eloquence and earnestness of the speaker.—*Citizen 16th inst.*

ALMOST FATAL OCCURRENCE.—We learn that on Thursday last a man residing in Fisher's Grant, while crossing over from Pictou in the afternoon, got his arms and feet very badly frozen. It is said that he was under the influence of intoxicating liquors, and getting bewildered on the ice lay down and was frozen as above stated. It is feared that it will be necessary to amputate one of his arms.—*East. Chron.*

MORE SKATES FOR EUROPE.—We noticed to-day on Seeton's wharf being shipped per R. M. S. City of Limerick another large lot of Forbes' Patent Skates addressed to parties in London, Sheffield, and Vienna; and from the manager at the factory we learn that the demand for them in London and Liverpool has been enormous, and orders by cable telegram have been received before sailing of every steamer for the last two months, notwithstanding which several gentlemen in both these cities write to their friends here that scarcely a pair is to be had, and dealers are asking an exorbitant price for them. One house in Sheffield has had this season between seven and eight thousand pairs, besides several thousand to other houses in London and and on the continent where an increasing demand is springing up. This augers well for the prosperity of the manufacturers who, we believe contemplate an enlargement of their works at Dartmouth in order to meet large demands next season. Another proof this of the destruction of Nova Scotia. Only let us have more of such.—*Reporter 13th inst.*

FRUIT GROWERS' ASSOCIATION.—The annual meeting of the Fruit Growers' Association was held at Woltville on Wednesday, 11th inst.; and from the Kentville *Star* we learn that several committees were appointed, the duty of one of which is to make arrangements for a Bazaar and Exhibition of early fruits, to be held at Wolfville in September next, the proceeds of which are to pay off a debt on the building used for exhibition purposes. The Annual Exhibition will be held in October, and is to last four days, at which time it is proposed to have a Convention, to be composed of Fruit Growers' from all parts of the Dominion of Canada and the United States. It was resolved to petition the Dominion Parliament for a protective duty on early vegetables, fruit and fruit trees, as American products of this class are admitted in the Dominion of Canada, free of duty, while ours are taxed about thirty per cent. before they can be landed in the United States. A petition will be presented to the Local Legislature for the old grant of $400 to the Association.

We append a list of officers for the ensueing year:

TELEGRAPHIC NEWS.

Special Despatches to Morning Chronicle.

LONDON, Jan. 14.—A special despatch dated LeMans Jan 10, midnight, says that the army of the Loire, the hope of France, has been defeated in a bloody battle within seven miles of that city.

The carnage was fearful. Fifteen thousand French had fallen before five o'clock, when the whole French army was in full retreat.

It is estimated that the number of troops, French and German, actually engaged, was about 600,000 on each side.

Jan. 15.—The Conference on the Eastern question is summoned to meet next Tuesday.

The Nova Scotia bark "Crescent" was lost by coming in collision with the ship "Calliope" in the Mersey. Both vessels sunk.

Count Von Bismarck's reply to Minister of State of Luxemburg is in tone reassuring. The count proposes that the Duchy of Luxemburg appoint a German council as mediator.

Jan. 14.—The French Foreign Office has protested against the bombardment of Paris, on the ground that it was commenced without the formal notice required by the usages of civil warfare.

Jan. 16.—Paris papers of 10th inst., by balloon, have been received in this city, and furnish interesting and shocking particulars of the bombardment of that city.

An incessant rain of destructive projectiles, some weighing as much as 16 killogrammes, are pouring within that portion of the city lying between Hotel des Invalides and the Odeen.

The hospitals, ambulances, schools, the public libraries, the churches of St. Sulpice, the Sorbonne, and Neldgran, and many of the private houses had suffered terribly.

Shocking scenes of death and destruction occurred in the streets; women were killed both in the streets and in their beds, and infants in their mother's arms. One projectile, which fell in the Rue Vanguard, killed four children and wounded five others.

The unrivalled works of art in the Luxemburg Palace and the Museum were destroyed.

Hospitals suffered greatly, many soldiers being killed in their beds.

Paris is transformed into a battle-field, more shocking than Sedan. The continuous explosion of shells, the falling walls, and the burning buildings, together with the killed and wounded, present a dreadful picture of the ruin and desolation of war, scarcely equalled during the present century. Yet in Paris the women show themselves as brave as the men

TORONTO, Jan 16.—The Hon. Wm. McDougall, has received a requisition signed by the Attorney General of New Brunswick, the Mayor of St. John, and a large number of merchants and others, requesting him to address the people of the city and county of St John, on the political questions of the day—especially in reference to the North West. Mr. McDougall accepted the invitation, and will speak at St. John on the 9th of February.

The object of this Periodical is to supply, in short, pointed Articles, thoroughly recreative reading which shall at the same time be healthy and invigorating. The style will be attractive and popular; the range of subjects ample and diversified; the spirit free, devout, genial, and earnest. It will be faithful to the principles of those ever-venerated worthies whose names are inseparably associated with the endeared locality from which it takes its name. Well-recorded worth: the Grace of God manifested in Memorials of eminent Christians, written with care, candour, and veracity; The Word of God Illustrated, in brief and animated expositions of Holy Writ; The Providence of God Asserted, in striking history and suggestive incident; The Truth of God Defended, in fair and fearless *exposes* of the prevailing errors of the day; The Works of God Displayed, in a popular and untechnical, yet unchallengeably accurate presentation of recent scientific discoveries; discussions of important social questions; papers on devotional, practical, and experimental godliness; Religious and General Intelligence; with genuine Original Poetry, and Notices of New Books, will form the principal elements in a Magazine written in language which the simplest can readily understand, and which the most cultivated cannot despise. A large and efficient staff has been secured, consisting of Ministers and Laymen, many of them amongst the most eminent in their various denominations, or the most distinguished in their respective departments of literature and science.

The first number shows that the promise of the prospectus will be well fulfilled. It is such a MAGAZINE as a Christian Parent should delight to have read by all the members of the Family Circle.
