Dr. Moore's New Residence

Work is progressing favorably on Dr. D. R. Moore's new residence on Pleasant street. The doctor expects to take possession before the winter sets in.

Making More Room

The Waverley Hotel management finding that their present room is not sufficient to meet the demands of their increasing business, are having several of the larger rooms divided in two with entrances to each room. It is also Mr. Menzies intention to build an addition to the rear at an early date, which will make room for nine or ten more bedrooms.

Hydrant in Danger

We have been asked to call the attention of the proper authorities to the bad state of the road at Lingley's corner, and also to the danger the water hydrant there will be this winter if left in its present state. The drain by the hydrant is low and the hydrant now stands in a pool of water. Unless this low ground is filled up so that the water will run off, it will leave the hydrant in danger of freezing up this winter. Jane street from Hennessy's Corner to Pleasant street is also in bad shape, and has been so for some time. If the numerous ruts were filled up and some grading done, this much used street would be made more pleasant for driving.

Wetmore- Snell

Miss Bessie Katherine, daughter of Rev. and Mrs. Fredk. T. Snell, of Harvey, Albert Co., formerly of Newcastle, was recently married to Cyril Budd Wetmore, son of Rev. and Mrs. J. D. The groom is an employee of the Smith Brokerage Co., St. John, and the bride is late assistant superintendent of the General Public Hospital there.

Steamer From Newcastle Wrecked

The Belgian steamer Indutonmare, 962 tons, which sailed from this port on August 18th ult., for Calais, France, with a cargo of lumber, valued at about $250,000, and understood to be shipped for the use of the British Admiralty, and was wrecked on the Magdalen Islands and abandoned, was brought into Port Mulgrave, N. S., last week. She is said to have sustained little damage. The Indution mare drifted clear of the rocks after being abandoned and was picked up in the Gulf of St. Lawrence a few days ago by the tug Amelia. A five days' tow brought the steamer into Port Mulgrave.

The trestle on which the beacon fire will be lighted next Monday evening, to announce the active recruiting of The New Brunswick Kilties, has been erected on the Buckley Commons, at the lower end of the town. Great excitement prevails around town, anticipating the coming grand opening ceremonies.

New Overhead Bridge

A new overhead bridge has been put in by the railway authorities about a mile north of Newastle station, the work having been one with such rapidity that few people knew it was going on. The bridge is about 40 feet long with concrete abutments. The steel work was brought here on flat cars and swung into place on Sunday by the aid of the large crane. The work has greatly added to the convenience and safety of the public.

Baptist Church Services

Rev. Samuel Gray of Brighton, England, preached in United Baptist Church, Sunday last. His subject for the morning was "The Burning Bush" and in the evening "Bespoken by Christ." He also conducted service at Lower Derby in the afternoon. Mr. Gray has been in Canada but one year, previous to which he was pastor of Richmond Baptist Church, of Brighton, England, for a period of 27 years. He is a man of culture and refinement, and the Newcastle church may extend a call to him. Mr. Gray will occupy the Newcastle and Derby pulpit next Sunday also.

Artillery units—Major Randolph Crocker's 28th Battery, and Major Boyd Anderson's 8th—at the front. When he secures the 50 men he will proceed overseas with them. He is having good success.

Happy Hour Thursday

In presenting "Her Great Match" on Thursday, at the Happy Hour, the Popular Plays and Players are featuring Gail Kane, the talented dramatic actress, in one of the greatest of Claude Fitch's romantic dramas. Miss Kane, who starred in "Seven Keys to Baldpate" and "The Miracle Man" has repeated her former successes in her artistic rendition of the character of Jo Sheldon, the beautiful American girl for love of whom a prince renounces his title to a throne. "Her Great Match" is in five acts, three hundred scenes and required an unusually large cast. It is brimful of touching sentiment and gripping situations, and contains a plot which for tensely dramatic power has seldom been equalled on the screen.

Delayed at Derby Junction

The Whooper train coming to Newcastle, was considerably delayed on Saturday morning last, at Derby Jct., in consequence of having to do shunting there and take on several cars of freight left there by Train No. 204 from Chatham. This not only held this train back, but caused inconvenience to passengers anxious to reach Newcastle as early as possible. While this is the first instance of the Whooper having to do shunting and act as a freight train, it is hoped by the people who have occasion to travel on this popular train, that it will be allowed to continue its services to the public as a first class train.
