all of whom are well armed and provided for. The immediate object of these rebels and brigands, is the destruction of the loyalists of Missisquoi Bay, in revenge for their having been soundly thrashed here, and their ultimate object is to induce them to retaliate by a visit to the American side, during which it is deemed probable they will make such ample atonement as will force on a war between the two countries.—*Montreal Herald.*

Montreal, Dec. 29th.—The Hon. Mr. Justice Vallieres de St. Real, Resident Judge at Three Rivers, has been suspended from the exercise of the functions of his judicial office, until Her Majesty's pleasure shall be known, in consequence of having followed the illegal example of Justices Panet and Bedard by granting a writ of *Habeas Corpus* to a prisoner committed on suspicion of treasonable practices, while that law stood suspended by an Ordinance of the Administrator and the Special Council.

We understand that Mr. Justice Rolland, of this city, has been directed to proceed to Trois Rivers for the purpose of discharging the duties of Resident Judge *ad interim*.—*Gazette.*

Quebec, December 25th 1838.

Canada has lost one of her ancient and most respectable inhabitants, by the death of the Hon. John Hale, member of the Legislative Council, and Her Majesty's Receiver General for the Province.

Mr. Hale belonged to an ancient and distinguished family in the North of England, and was allied, by marriage, to the family of the late Sir Jeffery Amherst, Commander in Chief of the British forces in America, who received the Capitulation of Canada, at Montreal, in 1760. He was brother-in-law, we believe, of the present Lord Amherst, late Governor General in India.

We do not know exactly when Mr. Hale came to Canada, but he was here in 1791 with His Royal Highness Prince Edward, the father of our present sovereign. After some absence from Canada, Mr. Hale returned as Paymaster General to the forces, which office he held till it was merged in the duties of the Commissariat. He purchased from the De Lanaudiere family the Seigniory of Ste. Anne de la Perade, and lived some years at the Domain, on the best terms with the inhabitants, among whom he introduced several improvements. In 1824 he was appointed Acting Receiver General, which office he held till the time of his death, the duties being discharged, during the infirmities of his last illness, by his son Jeffrey Hale.

Mr. Hale was of the old school, with the usual liberality and independence of an English Gentleman; he had some strong hereditary notions about the duties of a public officer, which, we apprehend, are better securities than the strictest laws and superintendence, in those times when offices are frequently sought and obtained through intrigue and popular favour. No one ever doubted Mr. Hale's correct discharge of the duties of his situation. He neither gave nor asked for favours, ever prepared and punctual to do all that he was *authorized* to do, according to the regular course and the responsibilities of his office.—*Gazette.*

It is stated that Sir John Harvey has expressed his readiness, should occasion require, to come up himself, on the shortest notice, with two thousand of the militia of that Province.—(*Transcript.*)

"Montreal, Dec. 24, 1838

"The trial of the eleven prisoners taken at Napierville commenced this day before the Court Martial. Captain Morin challenged four members of the Court, but his objections were overruled. Lavesque pleaded guilty. Two or three witnesses were examined, and proved beyond all doubt the guilt of Decoigne. There is not the slightest chance of his escaping the punishment of death. And next in enormity comes Capt. Morin.

"The Court adjourned at 4 o'clock till Wednesday morning at 10 o'clock.

Toronto, Dec. 18th.—Letters are in town, stating that in that nest of piracy Detroit, the walls are placarded with offers of a reward of $800 in specie, to any one who will bring to that den of Assassins, the body of our gallant Col. Prince, dead or alive!!!

Toronto, Dec. 19th.—We are glad to perceive His Excellency the Lieutenant Governor has offered a reward of £250 for the discovery of the miscreants who destroyed the valuable breed of horses belonging to Messrs. Simmons and Hogg at Lancaster. The system of murder, incendiarism, and destruction of private property must be checked, and that speedily. We have just learned and, from what appears to us undoubted authority, that the valuable Mills belonging to Mr. Gibbs, a staunch Loyalist, in Whitby, have been burnt to the ground, along with a large quantity of grain and flour, supposed to have been effected by political incendiaries.—It is rumoured that an extensive system of destruction of the life and property of the Loyalists, by secret agents, and in blackness of night, is organized by the secret societies on the other side the water, so often alluded to;—and, that every man of any consideration, in the good cause of British Supremacy, on this side, is marked.

Well; be it so:—if we are to have a national war, which, from appearances, we again repeat, is unavoidable—it will be a holy one on our side.—It will be a war of sound principle, public and private integrity—unredressed, and desperate wrongs, and of claims that must be satisfied. It cannot be doubted on which side the fountain of all Justice and truth, and the Will of "Him" who alone can see in "secret and reward openly," will decide. We have no doubt of the issue!—(*Palladium.*)

Fire.—During the night of Friday the 21st ult., the Dwelling-House of Capt. James Corbitt, in the Coothill settlement, Parish of Petersville, Queen's County, was destroyed by fire, together with several articles of furniture, provisions, and clothing. The inmates did not awake until the building was in flames, and in their endeavours to save some of the property contained in it, three females had their feet frost-bitten. It is supposed that the fire was caused by the falling of a brand which was left standing in the fire-place when the family retired to rest.—*Courier.*

Launched on Monday the 31st ult., from the ship yard of Messrs. Francis and Joseph Ruddock, Portland, a fine barque of 330 tons, old measurement, called the *Londonderry*, built for the late Mr. Samuel Thompson, of this city.—*Observer.*

Melancholy Occurrence.—*Coroner's Inquest.*—On the 26th ult., a Coroner's Inquest was held at Sussex Vale, on view of the body of Joseph M'Mungle, and a verdict was returned that "he came to his death in consequence of a blow from a shovel thrown at him by Edwin Hazen."

AT THE COURT AT WINDSOR,

the 5th of November, 1838.

Wheras the Governor of Her Majesty's Province of New Brunswick, with the Council and Assembly of the said Province, did in the month of March, 1838, pass an Act which has been transmitted, entitled as follows, viz.:

No. 1158. "An Act to amend the Laws relating to the solemnizing of Marriage," and whereas the said Act has been referred to the Committee of the Lords of Her Majesty's Most Honorable Privy Council, appointed for the consideration of all matters relating to Trade and Foreign Plantations, and the said Committee have reported as their opinion to Her Majesty that the said Act should receive Her Majesty's special confirmation; Her Majesty was thereupon this day pleased, by and with the advice of Her Privy Council, to declare Her special confirmed, ratified and finally enacted accordingly, wherefore the Governor, Lieutenant Governor or Commander in Chief, for the time being, of Her Majesty's Province of New Brunswick, and all other persons whom it may concern are to take notice and govern themselves accordingly.

We are informed that the land was seen from the Frigate previous to her striking, but it was not imagined that the reefs extended so far out. In order, however, to give the Ship plenty of room, her course was altered two points, (from N. E. to N. N. E., wind N. W.,) but she soon after struck, and almost directly bilged.—On the vessel being perceived, immediate assistance was sent from the Dock Yard, under the charge of that active officer, Mr. Sinholom, who reached the vessel about 9 o'clock at night, by which timely aid, assisted by the Somerset Boat, her Officers and Crew, consisting of 495 persons, were fortunately saved.—The Commodore being among the last to leave the wreck.

On the following morning, the Government Steam Vessel and Boats of the Dock Yard, with the assistance of the Officers and Crew of the Andromache, succeeded in saving a part of the Frigate's Stores, which have been landed at the Dock Yard.—Boats continue to be employed in saving the public and private property.—Joseph Ballingall, Esq., has, we understand, given the Officers and Crew of L'Herminie, the use of the Royal Oak Receiving Ship, and has also directed that they shall receive daily Rations from the Naval Yard; which supplies, we are informed, will be continued, until an opportunity offers for them to leave Bermuda.

UNION HARMONY,

OR

British America's Sacred Vocal Music.

FOURTH EDITION,
ENLARGED AND GREATLY IMPROVED,

Will be published and ready for sale early in the ensuing summer.

PROSPECTUS.

THE encouraging reception of the three former editions of this work, and the frequent applications to the publisher for a continuance has induced him to offer a Fourth Edition, upon an enlarged and improved plan.

The progressing improvement in Sacred Music within the British Provinces, which received its early stimulus from the publication of the Union Harmony, &c. requires at this time a more comprehensive work, comprising greater variety in style and manner, to meet the requirements of elementary instruction, the practice of schools, singing societies, and devotional music on public occasions.

It is intended to comprehend fully the above objects in this edition; the work will be executed on fine paper, splendid typography, and substantially bound in boards; and will consist of 350 pages—two-thirds of which will comprise a proportion of standard Church Music, adapted to the various metres in general use among the respective denominations of Christian worshippers; other Music of easy acquirement to young beginners in the art of Vocal Music; and also of such music for the use of schools and singing parties as is calculated to raise the admiration and excite the genius of the lovers of sacred harmony. The remaining third part will comprise original music, Anthems on various occasions, and other select pieces from the most celebrated composers, both European and American.

The rules of music necessary for the learner will be simplified, both in matter and arrangement, throwing off all superfluous musical characters, arbitrary terms, and useless technicalities; every allowable deviation from the fixed principles in the science of music, will be expressed in plain English without the unnecessary introduction of Latin *lingo*, which in itself needs interpretation before it can be understood.

In short, the publisher intends that every single *page* of this work shall be of lasting utility, and the whole *book* be a permanent family companion.

STEPHEN HUMBERT.

NO CURE NO PAY!!

HAY'S LINIMENT.

NO FICTION.—This extraordinary chemical composition, the result of science and the invention of a celebrated medical man, the introduction of which to the public was invented with the solemnity of a death-bed request, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Godfley's last confession, that "he dared not die without giving to posterity the benefit of his knowledge on this subject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his discovery.

It is now used in the principal hospitals, and the private practice in our country, first and most certainly for the cure of the *Piles*, and also as extensively and effectually as to baffle credulity, unless where its effects are witnessed. *Externally* in the following complaints:

For Dropsy—Creating extraordinary absorption at once.

All Swellings—Reducing them in a few hours.

Rheumatism—Acute or Chronic, giving quick ease.

Sore Throat—By cancers, ulcers or colds.

Croup, and Whooping Cough—Externally, and over the chest.

All Bruises, Sprains and Burns—Curing in a few hours.

Sores and Ulcers—Whether fresh or long standing, and fever sores.

Its operations upon adults and children in reducing rheumatic swellings, and loosening coughs and tightness of the chest by relaxation of the parts, has been surprising beyond conception.—The common remark of those who have used it in the *Piles*, is "It acts like a charm."

THE PILES.—The price is refunded to any person who will use a bottle of Hay's Liniment for the Piles, and return the empty bottle without being cured.—These are the positive orders of the proprietor to the Agents, and out of many thousands sold, not one has been unsuccessful.

We might insert certificates to any length, but prefer that those who sell the article, should exhibit the original to purchasers.

CAUTION.—None can be genuine without a splendid engraved wrapper, on which is my name, and also *that of the Agents.*

SOLOMON HAYS.

Headache, Sick or Nervous.

The extraordinary reputation that Dr. Spohn's remedy for this distressing complaint is every day gaining is certainly a matter of much astonishment. That so much suffering should have existed for ages without any discovery of an effectual preventive, or cure, is truly a subject of much regret, but Dr. S. now assures the public that such a remedy has been invented as will convince the most credulous.—The principles upon which it acts are simple and plain. It is an admitted fact that this complaint, whether called Sick Headache, or Nervous Headache, arises primarily from the stomach—those who think they have the Nervous Headache may rest assured that this organ, the stomach, is the first cause, that the system has become vitiated or debilitated, through the stomach, and that only through the same channel must they expect a restoration of the nature and healthy functions of the system. This object Dr. Spohn's remedy is eminently calculated to attain. The truth of this position cannot be controverted, and the sooner sufferers with the headache become convinced of it, the sooner will their sufferings end in restoration of health.—Dr. Spohn pledges his professional reputation on this fact.

BALDNESS.

A BEAUTIFUL HEAD OF HAIR, Is the grandest ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintance; the remainder of their lives is sometimes spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair. To avert all these unpleasant circumstances, OLDRIDGE'S BALM OF COLUMBIA stops the hair from falling off on the first application, and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

DR. SCUDDER'S
GENUINE ACOUSTIC OIL,

For Deafness.

THIS never-failing remedy has been used many years with distinguished success, at the Eye and Ear Infirmary of Dr. Scudder, and confidently recommended as an extraordinary and wonderful remedy for either partial or complete deafness in all its stages.

By the timely use of this pungent Oil, many who have been completely deaf have been restored to perfect hearing after using from three to ten flasks. This may appear strange, but it is nevertheless true. The Acoustic Oil is not presented to the public as a nostrum, but as the prescription of one who has turned his attention exclusively to the Eye and Ear, and who pledges his professional reputation upon the success of this remedy.

Dr. Scudder has numerous certificates, but hesitates to publish them, as he considers them unnecessary to so truly valuable an article as the Acoustic Oil. Its immense sale is the fairest proof of the estimation in which it is held. It is presented as a public blessing, enabling the aged parent to mingle in conversation with his children, and to reply to their numerous questions with a facility from which he had previously been debarred by a distressing partial or complete deafness.

Celebrated Rheumatic, Nerve, And Bone Liniment,
