Daily Hints For the Cook

PINEAPPLE LEMONADE

Peel a well ripened pineapple and grate or cut in thin slices. Mix with half a pound of sugar and the juice of 4 lemons. Let it stand for an hour, then mash and strain. Add ice and water and a few pieces of pineapple.

BLACKBERRY MUFFINS.

Two cups of flour sifted and rubbed together with 1-2 cupful of butter, 1-2 teaspoonful of salt, 2 heaping teaspoonfuls of baking powder, 3 tablespoonfuls of sugar. 1 egg well beaten, 1 cup of milk. After thoroughly mixing add 1 cup of blackberries carefully washed and sorted. Bake for 20 minutes in a hot oven.

WAS MUCH ENJOYED

The fine weather of last evening drew a large gathering of people to King Square to enjoy the music of the Temple of Honor Band. Their programme was greatly enjoyed and they won the praise of their auditors.

A statistician declares that 64 per cent. of the great things of the world have been accomplished by men who had passed their sixtieth year.

LINK NATIONS IN WHITE SLAVE WAR

London World's Congress Agrees on New Plans

NO SYNDICATE, IT IS SAID

But the Vice-Purveying Business is Widespread and Its Lines Are Well Known—How it is Proposed to Fight It

London, July 9—Dr. O. Edward Janney, president of the American Vigilance Association, in attendance at the Fifth International Congress for the Suppression of the White Slave traffic, in Caxton Hall, London, has given an interview on the work of the congress. He pointed out that a new method had been employed to fight the evil traffic.

"There has been always much sensational talk about this traffic being highly organized," he said, "but for the future we, who are fighting it, will be much better organized than they, for, as a result of this congress, the foreign department of the American Vigilance Committee will have highly trained correspondents in every big city of every country, where the traffickers work.

"Our plan is the instant any girl is reported missing by any of these correspondents, to have her name and description sent broadcast in as comprehensive a manner as the New York Police Department sends out its 'wanted list,' to Scotland Yard and other foreign police bureaus.

"In consequence, persons will be on the alert in all parts of the world. In fact, we hope to establish such a fine network that many thousands of girls will be rescued.

"The congress is attended by 400 delegates, all of whom have become thoroughly acquainted with each other and are pledged to put this idea into working operation as soon as they return home. The delegates are from Great Britain, Germany, Sweden, Norway, Holland. Denmark, Belgium, Switzerland, France, Spain, Italy, Austria, Hungary, Russia, China, Argentina, Australia, Egypt, South Africa, Canada and the United States.

"I have been interested to note that many police officials are among the delegates. The delegates from Russia, Hungary, and Germany are all members of police organizations.

"The delegates are also pledged to the work of obtaining a conference of all nations for the purpose of strengthening the international treaty of 1908(especially in making more stringent immigration regulations.

"The report of the United States delegation made a great impression on the congress, for it showed progress and much valuable work by the government and great increase in vigilance on the part of independent associations. It also showed that the average government convictions were one a day in addition to state, country, and municipal convictions.

"It is the belief of the entire congress that there is not and never has been a systematic organization of white slave traffickers beyond the fact that a trafficker in a European city has individual correspondents elsewhere. But despite the fact that there has been no syndicate the business is still very extensive throughout the world and also very lucrative, as was proved in the recent Chicago case, where one woman made $100,000 a year. She jumped her $25,000 bail and fled to France.

"The main lines of traffic are now Southern Italy and Russia to the United States; Germany, France, Italy and Spain to Argentina, and the United States to China and Japan. The traffic out of France is decreasing, but this is due to the general decrease in French emigration traffic. Within the confines of France it is as great as ever.

"We expect to concentrate a large force of our workers on the Pacific coast the coming year to prevent American girls being taken to the Orient.

"The very substantial assistance obtained will enable us to develop the opportunities which are constantly being presented. That great progress has been made is evidenced by the large list of American cities, where segregated district no longer exist."

DEATH AND DISASTER

Kingston, Ont., July 8—Harold Berry, of Seeley's Bay, while bathing at Pierce's Bay, met death by drowning. He took cramps and sank. His companion, who was also bathing nearby, tried to rescue him, but failed.

North Bay, July 8—F. L. Burritt, a tourist, was drowned in Lake Temagami today by his canoe overturning. Mr. Burritt only arrived today at Temagami from Cleveland, Ohio, where his address is given as 606 Broadway.

Elgin, Ills., July 8—Three men were reported killed and property damage estimated at $50,000 was done by an electrical storm here today. Four stores were unroofed by the wind, the steeple of the First Baptist church was blown down, and much damage was done to telegraph and telephone wires.

Arthur Petersen, son of a wealthy farmer four miles west of here, was struck by lightning and instantly killed. Two men reported killed at Pingree Grove when the barn in which they were seeking shelter collapsed.

To Make U. S. Dry.

Los Angeles, July 8—"Saloonless United States" in 1920 is the goal sought by the Christian Endeavor Society, which will meet here in annual convention tomorrow. This is the keynote of a campaign to be launched at the convention, it was announced today. The society would have the United States "dry" by 1920 as a fitting observance of the 300th anniversary of the landing of the Pilgrim Fathers.

GREEKS DEFEAT THE BULGARIANS

Battle Marked by Great Slaughter—Servians Recapture Town—Atrocities by Bulgars

London, July 8—The Balkan war having now been regularized by formal declaration, it is understood that the powers will make no attempt to mediate. The Official Gazette at Beigrade published tonight notice of a formal declaration of war against Bulgaria.

Military news was lacking today. Servian despatches admit that a strong Bulgarian column has invaded Servia at Konagevatz, which town they occupied after setting fire to the adjacent villages. Cholera has been brought to Belgrade by the wonuded. Official Greek despatches claim a great victory at Doiran, where the Bulgarians, recently reinforced, were in superior strength to the Greeks.

The latter assert that a whole division of Bulgarians was completely destroyed and that the Bulgarians fled in such a precipitate manner, that they even left loaded guns behind. This victory is considered of great importance because Doiran was the Bulgarian victualling centre and all the provisions fell into the hands of the Greeks.

It is reported from Sofia that the 10th Bulgarian division which reinforced Gen. Ivanoff was brought from the Tchatalja district. This seems to indicate compliance with Turkey's demand that the Bulgarians evacuate Turkish territory.

Belgrade, July 8—The Servians have re-captured Istip, after routing the Bulgarians, says an official despatch received tonight. A desperate battle was fought with heavy losses, but the Servian guns previously lost were re-taken.

Saloniki, July 8—Father Michel, superior of the French-Catholic mission at Kilkish, confirms the report of massacres committed in that district by Bulgarian irregulars. In one instance they burned to death 700 men belonging to Kurkut by imprisoning them in a mosque, under which they exploded bombs, setting the building on fire. They had previously assembled the victims' wives and daughters around the mosque to witness the spectacle.

Even more terrible scenes were enacted at Kilkish, Planitza and Raynovo, women being burned to death.

ANNOYING DANDRUFF

Will Make Canada a Baldheaded Nation if Not Checked.

M. Pasteur, the great French physician of Paris, once said: "I believe we shall one day rid the world of all diseases caused by germs."

Dandruff is caused by germs, a fact accepted by all physicians.

Dandruff is the root of all hair evils. If it were not for the little destructive germs working with a persistency worthy of a better cause, there would be no baldness.

Parisian Sage will kill the dandruff germs and remove dandruff in two weeks or money back.

It will stop itching scalp, falling hair and make the hair grow thick and abundant.

It puts life and lustre into the hair and prevents it from turning gray.

It is the hair dressing par excellence, daintily perfumed and free from grease and stickiness. It is the favorite with women of taste and culture who know the social value of fascinating hair.

Comes in large 50-cent bottle at all druggists, and leading druggists and toilet goods counters everywhere. "The Girl with the Auburn Hair" is on every package.

TUNNEL UNDER THE ENGLISH CHANNEL

Matter is Being Taken Up Seriously With Better Chances of Success

London, July 8—The proposal to drive a tunnel under the English Channel between England and France, which for years was opposed by military men on the ground that it would destroy the isolation of England, is now being taken up seriously with a better chance of going through than ever before.

The advance in flying made in recent years has already virtually taken away the advantage of isolation, but even more than this the good relations now existing between England and France have overcome the opposition to the scheme. The government is being urged to take the matter up seriously; people who cross the channel frequently favor the plan, and the railways who have to keep up costly steamers for the channel service, are not opposed to the tunnel idea, for they know that with the abolition of the much dreaded channel crossing by sea, passenger traffic would increase immensely.

In the West-End of London the infant deathrate is 11 per cent. In the East-End it is 38 per cent.

THE COAL TRADE OUTLOOK

While there are some soft spots in the hard-coal trade, there is, nevertheless, a strong healthy undertone apparent. Dealers are becoming over-stocked on some grades, but there is no indication of any let-up in the demand. However, it is becoming clear that many consumers carried over fair supplies, because of the mild winter which will, of course, curtail the summer stocking, but it is difficult to tell how the fall trade will line up yet.

In bituminous, the West Virginia strike situation is assuming serious proportions again, and the eastern bituminous market hinges almost entirely on developments there. As a result the trade is firm in every particular, many operators being forced into the open market for prompt tonnages to fill out their contract obligations. There has been a perceptible rush to cover on the part of consumers, and preparations for the worst are being made at a number of points. At the moment there is a good car supply, but the feling prevails that there will be a serious shortage the coming fall. Operators, as a rule, are afraid to accept further orders, and the situation in the eastern market may be regarded as fairly tense at the present time.

The Pittsburgh district is operating at full capacity and making heavy shipments on contracts and into the Lake trade. The labor and car supply are good, but the men cannot be induced to work steadily. No surplus coal is available and it is difficult to get tonnages to fill out cargoes, while some dealers are persistently advocating an advance in quotations. Conservative members of the trade, however, are against any such increase, although recognizing the general stiffness of the market.—Coal Age.

"REGAL" FLOUR

I can now supply the trade with barrels, half barrels, bags and quarter bags of the above very highest grade of hard wheat flours.

My reports on "Regal" are so satisfactory that I feel warranted in saying that no bread maker can afford to do without it.

No flour that I have ever handled has met with such general approval from my customers.

Iroquois Chief is Dead

Sault Ste Marie, Ont., July 9—Hiawatha, chief of the Iroquois Indians in the reservation at Oka, Quebec, is dead, aged sixty-nine years, following an operation for appendicitis. Hiawatha had been chief of the Iroquois for thirty-six years, succeeding his grandfather. His most noted work was in keeping his tribe from separating and leaving the reservation. He is survived by two daughters and one son, Prince Lazarus, who is soon to be ordained into the Methodist Ministry of Quebec.
