"Opposition is the Life of Trade."

CITY CLOTHING and General Outfitting Mart,

South side of the Market Square.

JOHN ANDERSON

HAS received per late arrivals, a large assortment of CLOTHS, Trimmings, Fur, Caps and every other article connected, suitable for his Trade, which is too numerous to particularize in the columns of a newspaper, direct from the Manufacturers, and having made up a great part of the Cloth into

WINTER CLOTHING,

suitable for the Gent, the Farmer, the Mechanic the Labourer, and the Seafaring Man; all of which he is now selling off at such low prices for Cash, as he considers *a nimble sixpence better than a slow shilling*, that is impossible he can be

UNDERSOLD!

And if it's any criterion to judge by, the subscriber has sold and is selling more clothing than any other store in the city.

P. S.—Parties desirous of having their Clothes made to order, can have them done so expeditiously and in a superior style, as the subscriber has in his employment a foreman who cuts in the Vasmon system—a certain method of ensuring a good fit—and keeps none but first rate Workmen in his concern.

☞ A further supply is expected per *Marshall Bennett* from LONDON. May 1.

PRINCIPALLY DESIGNED FOR USE IN

COLONIAL SCHOOLS.

COMPILED BY

James Paterson, L. L. D.

AS an elementary work very great care has been taken to avoid two very common evils—that of extreme brevity on the one hand, and of too great prolixity on the other. As a Class Book for British Colonial Schools it is certainly unequalled, being the only one ever got up expressly for their use. It is printed on good paper, from a clear and distinct type, and substantially bound, for the astonishing low price of Five Shillings.

TRIUMPHANT SUCCESS OF

Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR

Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the 'Great English Remedy.'

It has been tested for upwards of seven years in Great Britain and on the continent of Europe, where it is universally considered the great and only remedy for this awful malady, and is now introduced to the public under the immediate superintendence of the inventor. Within these years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING AND TRIUMPHANT.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, inflammation of the Lungs, Croup, &c. it is unrivaled. But the Proprietor is so confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons afflicted with some simple and less dangerous disorder of the throat and lungs:—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the best preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful *softening of the lungs—inflammation of the membrane, and tuberculous decay*, which are the last effects of that dreadful scourge, and which are erroneously supposed to be beyond the reach of medical aid:—the agent or proprietors of other medicines dare not claim for their preparations a power like this: they know that in no case have such effects been produced:—the grand object and purpose of the common 'remedies' is simply to *give relief—not to cure*: this is easily done by an intelligent Physician or Druggist; but while dallying with these delusive compounds, the patient rapidly declines, and every day places him farther and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious. It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a false security. It is a great remedy—a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life," which the medical faculty are unable to discover, or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.

To be sold by Private Bargain.

ALL that large and extensive MILL PROPERTY, situated about a mile and a half from the mouth of the Nashwaak, nearly opposite Fredericton and consisting of one Mill, containing six saws in single Gates; with a GRIST MILL, in good order, driving two pair of stones.

The Saw Mills are capable of containing as many Gangs as there are now single Saws, which could be substituted at little cost; they are in perfect order and some of the Gangs could be driven throughout the entire year, as there are always several of the Saws kept going during the entire Winter; and the Grist Mill has the same advantage. The Draw is perfect and complete order, having been completed at very great expence, and runs entirely across the river Nashwaak thus securing the whole waters o the river, for the driving of the Mills.

Connected with the Mills there is a fine large Store, well adapted for the business of the country, and a Blacksmith's Shop, and a good Cottage and Garden attached, well suited for the manager of the Mills besides a number of Houses suitable for the Workmen at the Mills.

There is also a tract of Land on the Eastern side of the river, containing 500 acres, and about 200 acres on the western side, the latter embracing the Holybrooke Farm, and the whole highly capable of cultivation, and precluding any interference by other establishments on the river. These valuable Properties will be sold along with the Mills, and reasonable accommodation will be given to the purchaser. There can scarcely be found within this Province such a valuable Water privilege, and it is therefore well deserving the attention of any party wishing to embark in the Lumber trade; the whole can be seen at any time, and full particulars given on application to W. J. Bedell and Co. Fredericton, Charles Perley, Esquires, Wood-stock, or to the subscribers at St. John.

HOLLOWAY'S OINTMENT.

Extraordinary Cure of a Case

ABANDONED BY

Guy's, the Metropolitan, King's College and Charing Cross Hospitals.

SUMMARY OF AFFIDAVIT.

Wm. BROOKE, Messenger, of 2, Union street Southwark, London, maketh oath and saith, that he (this deponent) was afflicted with FIFTEEN RUNNING ULCERS on his left arm, and ulcerated sores and wounds on both legs, for which deponent was admitted an out-door patient at the Metropolitan Hospital, in April, 1841, where he continued for nearly four weeks. Unable to receive a cure erhe the deponent sought relief at the three following hospitals:—King's College Hospital in May for five weeks; at Guy's Hospital in July, for six weeks; and at Charing cross Hospital at the end of August, for some weeks more; which deponent left, being a far worse condition than when he had quitted Guy's where sir BARNSBY COOPER, and other medical officers of the establishment had told deponent that *the only chance of saving his life was to LOSE HIS ARM!* The deponent then o upon called upon Dr. Bright, chief physician, o Guy's, who on viewing deponent's condition, kindly and liberally said, "*I am utterly at a loss what to do for you! but here is half a-sovereign: go to Mr. HOLLOWAY, and try what effect his Pills and Ointment will have, as I have frequently witnessed the wonderful effects they have in desperate cases. You can let me see you again.*" This unprejudiced advice was followed by the deponent, and a *perfect cure* of deponent in three weeks, by the use alone of HOLLOWAY'S PILLS and OINTMENT, after four Hospitals had failed!!! When Dr. Bright was shown by the deponent, the result of his advice and charity, he said, "I am both astounded and delighted, he said, "I am both astounded and delighted" ed, for I thought that if I ever saw you again alive it would be without your arm. I can only compare your cure to a 'charm'!!"

Sworn at the Mansion house of the city of London, this 8th day of March, 1842. } WM. BROOKE.

Before me, JOHN PIRIE Mayor.

IN ALL DISEASES of the Skin, Bad Legs Old Wounds and Ulcers, Bad Breasts, sore Nipples Stoney and Ulcerated Cancers, Tumours, swellings, Gout, Rheumatism, and Lumbago, likewise cases of Piles; the Pills, in all the above cases ought to be used with the Ointment; as by this means cures will be effected with a much greater certainty, and in half the time that it would require by using the Ointment alone. The Ointment is proved to be a certain remedy for the bites of most chettoes, Sand-flies, Chiego-foot, Yawns, and Coco bay.

Burns, scalds, childblains, chapped Hands and Lips, also Bunions and Soft Corns, will be immediately cured by the use of the Ointment.

The Pills are not only the finest remedy known when used with the Ointment, but as a General Medicine there is nothing equal to them. In nervous affections they will be found of the greatest service. These Pills are, without exception, the finest purifier of the Blood ever discovered, and ought to be used by all!!!

N. B.—Directions for the guidance of Patients are affixed to each Pot.—*Sold at PETERS & TILLEY'S, No. 1, King street, St. John, N. B.*

Daguerreotype Portraits.

THE Public are respectfully informed that Messrs. FOULIS and MERRICK take Daguerreotype LIKENESSES, in the premises lately occupied by Mr. Wentworth, in Prince Wm. street, (nearly opposite Ranney, Sturdee & Co.) every day from 10 to 4 o'clock.

The Portraits are executed by an improved process in the manipulations, which secures a distinctness of light and shade, and also a faithfulness in the representation by a new arrangement of the lenses.

The Pictures are finished by being coated with Gold, agreeably to the directions lately promulgated by the Paris Academy of Sciences. This invention not only improves the tone, but effectually secures the impression on the plate from any future alteration, arising from the effects
