DUNBAR—GARLAND.

Miss Isabelle McKinnon Garland Becomes the Wife of Mr. George E. Dunbar at Strathgowan.

Over 100 guests attended the celebration of a charming wedding last evening at the beautiful residence of the bride's father, "Strathgowan," Eglinton. The contracting parties were Miss Isabelle McKinnon, only daughter of Mr. and Mrs. N. Garland, and Mr. George Edward Dunbar, son of the late Richard Dunbar of Deer Park.

The interesting event was performed in the drawing room, which the bride entered leaning on the arm of her father. Gowned in white brocaded satin, with court train, trimmed with duchesse lace and orange blossoms, her hair decorated with a diamond and pearl star, the gift of her mother, the bride looked the picture of happiness. The Rev. Thomas Wilson, who had baptized the bride, and had performed the marriage rites between her father and mother, undertook the service, and was assisted by Rev. John Kay, Deer Park, and Rev. A BRAVE WOMAN.

How a Drunken Husband Was Made a Sober Man by a Determined Wife.

A PATHETIC LETTER.

She writes:—"I had for a long time been thinking of trying the Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for your Samaria Prescription and put it in his coffee as directed next morning and watched and prayed for the result. At noon I gave him more and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered something that set every nerve in my body tingling with hope and happiness, and I could see a bright future spread out before me—a peaceful, happy home, a share in the good things of life, an attentive, loving husband, comforts, and everything else dear to a woman's heart, for my husband had told me that whiskey was vile stuff and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promises before. He never has, and I am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst cases."

A pamphlet in plain, sealed envelope, sent free, giving testimonials and full information, with directions how to take or administer Samaria Prescription. Correspondence considered sacredly confidential. Address The Samaria Remedy Co., Jordan street, Toronto, Ont.

MAYOR FOOLED THE W.C.T.U.

He Told the Ladies They Might Hold Their Annual Convention in the New City Hall,

BUT HE HADN'T THE AUTHORITY.

Who Runs the New Pile?—That is a Question Which Seems to Be in Doubt.

Mayor Shaw has been assuming a little too much authority. When the W.C.T.U. waited upon him with a request that they be given permission to hold their annual convention in the new City Hall he gave them to understand that they might do so, when, as a matter of fact, Council alone had that right. The matter should have first come up in committee and the members of that committee, if they saw fit, should have recommended to Council that the application be granted. As it was the question did not come up at Monday night's Council meeting, because, apparently, those who had led the W.C.T.U. to believe that they would have a room, were afraid it would be thrown out. However, they thought they saw a way out of the difficulty and had the matter brought up before the Allocation Committee yesterday who refused to have anything to do with it. If it had passed that committee it would have had some semblance of authority, and the Mayor would have then perhaps had an excuse and could have given orders to have the room prepared for the convention. But the action of the committee in throwing the matter out has effectively stopped up this loop hole of escape out of the trouble and it now remains to be seen what the Mayor will do to "square" himself with the ladies of the W.C.T.U.

Refuse to Deal With It.

When the matter came up before the Allocation Committee, which met yesterday, some strong opinions were expressed on the subject.

Ald. Bowman said he was not only opposed to granting this particular request but all others of a similar nature, and the present time was the best to put a stop to it altogether.

Controller Burns took an opposite view of the question. The W.C.T.U., he said, were entitled to the room. They were the wives and daughters of the citizens who built the City Hall and consequently had a right.

Chairman Lamb: This committee, it should be remembered, has no power whatever to deal with the question; it can do nothing but make suggestions.

Who Runs the City Hall?

Ald. Dunn thought a precedent would be established if the request was complied with. He also wanted to know who was in charge of the Municipal Buildings, the Mayor and Board of Control or the Council.

The question was finally disposed of by referring it to the Property Committee for consideration.

They Might Catch Cold.

Those aldermen who sit on the west side of the Council Chamber are annoyed with the continual draught, and to remedy this nuisance it was recommended that the architect be requested to build a vestibule.

Ald. Bowman took this opportunity of drawing attention to what he termed the barn-like appearance of the eastern portion of the Council Chamber. The old linen blinds there, he said, were very much out of place, and visitors were all struck with the bareness of the place. The matter will be looked into.

To Settle Cost of Maintenance.

At the conference between the Allocation Committee and the York County Council in connection with the latter's quarters in the new City Hall, Chairman Ald. Lamb suggested that 25 per cent. of the cost of maintenance be borne by the county and 75 per cent. by the city. A great deal of discussion took place, but the County Council at last agreed to consider Ald. Lamb's proposal and in the meantime an agreement will be drawn up by Corporation Counsel Fullerton and County Solicitor Robinson, which will be left to a neutral party, to be selected by the above gentlemen.

The New Police Court.

The committee also recommended that Architect Lennox be instructed to report on the cost of both rubber and cork flooring for the new Police Court.

In regard to the allocation of rooms for the Public School Board, the committee agreed with the report of the Property Committee that the board room at the southeast corner of the building on the fourth floor was for the use of the Public School Board on condition that the Separate and High School Boards be allowed to hold their meetings there. Part of the room on the ground floor which is at present being used for bicycles was also recommended to be given to the Public School Board for a storage and supply room.

A committee consisting of Ald. Dunn, Architect Lennox, Ald. Lamb, Mr. Mathews and Ald. Steiner was appointed to select suitable places for hanging the Council's pictures, and forward their selections of such places to the Property Committee.

Spencer's Special Committee.

Ald. Spence's special committee called for the purpose of discussing the question of providing for the cost and keeping in repair roadways and pavements of the city also met yesterday. In a carefully prepared memorandum the alderman for Ward 2 set forth his views on the matter.

"The greatest mistake in our present system of dealing with roadways," he said, "is our failure to make provision for regularly maintaining them after they have been constructed." Continuing, he said the present local improvement plan was a good one, although there was much force in the argument that the streets are for everybody and the whole public ought to pay for their construction. He then pointed out how some of the objections to the system might be guarded against, and made a number of suggestions regarding the construction of roadways and for providing the funds therefor.

Will Meet Next Week.

Very little discussion took place on the question, but a further meeting will be held next week, and the matter will then be taken up more fully.

THOSE ALASKA EARTHQUAKES

Were Recorded by the Seismographs at Toronto, Agincourt and Victoria, B.C.

Referring to notices of severe earthquakes in Alaska and the Aleutian Islands, contained in a recent issue of The World, Mr. R. F. Stupart, director of the Meteorological Service, says: These quakes were beautifully recorded by the seismographs at the Toronto Observatory, and at Victoria, B.C. They were also recorded at the Magnetic Observatory, Agincourt, the photographic records showing that during the most severe shakes, all the three magnets were set swinging.

The first indication of disturbance was recorded at Toronto on Sunday, the 3rd inst., at 7h. 30m. 14s. eastern standard time, and the maximum seismic waves occurred about a quarter of an hour later.

The most violent disturbance occurred on the following Sunday, the 10th, on which day there were two shocks, the first of which was recorded at Toronto at 12 minutes past noon, and the second at 5 p.m.

The recording of these disturbances at Toronto means that the earthquake was of a sufficiently violent character to cause the propagation of earth tremors thousands of miles, and probably throughout the globe.

President Booth, General Superintendent Chamberlain and Traffic Manager Smith of the Canada Atlantic Railway passed through the city yesterday on their way to Buffalo.
