WESTERN GRAIN MATTER

(Canadian Press)

Winnipeg, Man., March 9—Through the Grain Growers' Guide, the official organ of that powerful organization of the farmers in Western Canada, orders were sent broadcast yesterday that all grain of whatever character is to be withheld from the markets pending the consummation of the reciprocity agreement, as an allege. combine of grain men in the United States propose to put up the price enormously.

It looks as if no more grain will be shipped from the three prairie provinces or from the head of the Canadian lakes till after seeding as grain growers always follow their orders implicitly.

THE MISSING STONE

People are beginning to wonder when the promised investigation into the mystery of the disappearance of the missing stone will be held. Some time ago Councillor Donovan, chairman of the committee in charge of the hard labor squad, said that he had asked the county secretary to advise him as to steps he would have to take to have a sworn investigation. It was thought that perhaps the authority of the municipal council would have to be secured first but so far as can be learned this point is still undecided although several weeks have elapsed.

During that time the city engineer has discovered, that the city used 142 loads of stone, but there are still 138 loads unaccounted for. The engineer states emphatically that he knows of no more stone than the 142 loads and he contends that it is for the county officials to prove delivery of the quantity they claim the city received. The city council yesterday decided to remit the taxes charged against the Hollis property from which the stone was taken so that that phase of the matter is disposed of

ORANGE GRAND MASTER AND EUCHARISTIC CONGRESS

Barrie, Ont., Mar. 9—(Canadian Press) "Has Rome Conquered Canada?" asked Grand Master Lovelock in his address to the Grand Orange lodge referring to the Eucharistic Congress. "We have no desire to quarrel with our Roman Catholic neighbors," he said, "for observing the practices so long as they are confined to their own churches and institutions. But when our public streets are used, and public money is expended, and the representatives of people as a whole go forth to do homage in their official robes and capacity and the king's soldiers, Protestant and Catholic alike are compelled to salute the representative of the foreign potentate who disputes jurisdiction with our own august sovereign then, brethren it is time that we, as Orangemen and as British subjects, should be aroused to the situation that makes it possible for a procession to take place within our borders such as was forbidden in the great city of London.

"It is high time to ask: 'Has Rome Conquered Canada?'"

A Lighthouse Keeper's Story

From the light-house at Lobster Cove Head, Bonne Bay, Newfoundland, Mrs. W. Young sends an experience of Zam-Buk, which should certainly act as a true beacon-light guiding all sufferers from skin disease to a safe harbor of refugt.

Mrs. Young says: "I suffered with eczema for seven years, and to my great delight Zam-Buk has cured me. The disease started on my breast, and spread until it extended over my back. The itching and burning—especially when the affected parts were warm—was terrible; and yet when the eruption was scratched or rubbed, it turned to bad sores, and caused great pain. I went to a doctor and tried various prescriptions, but seemed to get no benefit, so I tried another doctor. Again I got no relief, so tried a third doctor, and then a fourth. Although they all did their best for me I got no relief from my pain.

"Seven years is a long time to suffer, and I had got used to the thought that I never would be cured when I saw a report in 'The Evening Herald' showing how benefited Zam-Buk was in cases of skin disease. I thought there would be no harm in giving Zam-Buk a trial, and bought some.

"Well, from the time of the very first box I saw Zam-Buk was going to do me good. I persevered with it, and the improvement it worked in my condition was really wonderful. It eased the irritation, stopped the pain, and the sores began to dry up and disappear. In short, I found Zam-Buk all that was claimed for it, and within a very short time it worked a complete cure in my case."

Not only for eczema, but for ulcers, abcesses, varicose veins, bad leg, poisoned wounds, cuts, cold sores, chapped places, piles, ringworm, children's eruptions, burns, scalds, and all skin injuries and diseases, Zam-Buk will be found unequalled. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

ECZEMA IS CURABLE

In Every Case Where My Remedy Fails, It is Supplied Free of Cost

In making this statement I back it up with my promise that if my remedy does not substantiate my claim in every particular I will without question or quibble return every cent you paid me for it. I take all the risk—you take none.

I strongly recommend Rexall Eczema Ointment, which posseses remarkable cleansing, antiseptic, germicidal, soothing and healing qualities. It is a grayish-white emollient with a pleasant odor, and very cleanly for use. The first application produces a refreshing sense of relief, and it quickly subdues and overcomes the inflammation, irritation and discharge then present.

It is intended to be applied on a piece of muslin or linen, or it may be applied and allowed to dry in. It affords very prompt relief for pimples, blotches, discolorations, ringworm, tetter, barbers' itch, ulcers, insect bites, nettle rash, hives, sores and wounds.

Rexall Eczema Ointment relieves itching and irritation of the feet. It is ideal for the treatment of children who are tormented with itching, burning and disfiguring skin diseases. Try a box at my risk. Two sizes, 50c. and $1.00. Remember it is only sold at my store—The Rexall Store—Chas. R. Wasson.

A SPRY MAINE OCTOGENARIAN.

(Kennebec Journal.)

At the governor's ball last week the oldest dancer but a rival of any of the youths for friskiness was Judge Grenleaf T. Steevens, former judge of probate of Kennebec county. Lacking at that time but a few days of 80 years, the ease and agility with which he went through the evolutions astonished the onlookers. In his early days the judge was one of the most accomplished dancers in his county, and at the ball he proved that he possessed much of his old time skill.

Paste This up in Kitchen

Here are a few rules that it would be well to cut out and paste up in your kitchen, says the New Era:

1—Wash a saucepan in plenty of hot water; but never wash cake tins or frying-pans. Wipe them well with a piece of paper, which is afterward burned, and polish them with a dry cloth.

2—Stand saucepans, fish kettles, etc., in front of the fire for a few minutes after washing them, so that they may be thoroughly dried inside. This makes them last longer and helps to keep them in good condition.

3—Pudding cloth, jelly bags, and so on should be well washed, scalded and hung up to dry. It is not necessary to iron them, but they should be smoothed and folded before they are replaced in the drawer.

4—Add a little soda to the water in which you wash plates and dishes. The soda loosens the grease on them and gives the china a good, shiny surface.

5—Never add soda to the water in which you wash silver. Use a wooden tub, with plenty of hot water and soap, and dry the articles with a soft cloth. If silver is carefully washed and dried, once a week will be found often enough to clean it with powder and a leather. Silver should be kept in a baize-lined drawer or basket for if it is laid on hard wood it is apt to be scratched.

6—Never put the handles of knives into hot water, or they will split. If a knife has been used for cutting onions or any other strong scented vegetable, dig the blade of it once or twice into garden mold to remove the smell before it is washed.

7—If a pan is burned or blackened rub the inside of it with a hard crust of bread dipped in salt and afterward wash it with hot soda and water.

8—Be very careful to keep the lids of saucepans clean, for the flavor of one dish may cling to a lid which has not been washed and spoil a second dish which is prepared in the same dish.

9—After washing up, wipe out the dishtub and allow it to stand by the fire till it is dry. The dishtub should be scrubbed with boiling water and soap at least once a week.
