ERER OF A THIEF.—A man named Charles Berry, charged with stealing a yoke of oxen, the property of Capt. George Marr, of Quaco, was examined before Aldermen Porter on Saturday last, and fully committed for trial at the next sitting of Court of Oyer and Terminer for the City and County of St. John. The thanks of the public are due to police officer McGeachy, for it is chiefly owing to his promptitude and vigilance that the offender was arrested.—*Herald.*

WRECK OF THE WASP.—The brigt. WASP, Henry Lee, master, sailed from St. John on the 11th of September, bound for the West Indies, and laden with lumber: on the 16th, in lat. 40 30, long. 66 30, she thrown on her beam-ends by a heavy squall from W. and remained in that situation fifteen minutes; then away the weather backwards, when the mainmast fell by the board, carrying the bowsprit and head of the foremast with it, after which she righted, full of water, decks swept, hatches gone, &c.; the gale still increasing, the crew were compelled to lash themselves to the foremast and pallbitts to prevent being washed overboard; remained in that state till Sunday, (19th.) when the gale had considerably abated, commenced pumping her out, in hopes of finding some fresh water, and succeeded in clearing her by Friday night; on Saturday morning saw a vessel of about 500 tons, to the Southward, totally dismasted; saw a ship standing towards her, and at dark too far off and staid by her about 20 minutes, when she left her wind and stood away S. by W.; on Sunday morning (22d.) a brig hove in sight, which proved to be Ruby, of and for Yarmouth, from Jamaica, Capt. Crosby, which took them off after having been on the wreck six days and nights without food or water, and took them to Yarmouth, whence they sailed in this City on Wednesday morning, by the steamer Saxe Gotha.

LATE FROM MEXICO—HORRIBLE CATASTROPHE AT HUANAMOS.—By the schr. Fortune, which arrived yesterday from Vera Cruz; we have received files from Mexico the 14th ult. The aspect of the political horizon, instead of becoming clear, appeared to be threatening than ever.

The *Diario* of the 21st ult furnishes an account of a horrible disaster which has utterly destroyed the fortunate town of Matamoras. The news is contained in a letter from the Alcalde, dated the 5th of that month.

Yesterday about 10 o'clock, a violent hurricane set in and continued until 10 this morning. It was the most horrible tempest within the memory of man; no disaster it occasioned, so far as we have yet heard, is horrible and cannot be repaired in six months. With the exception of the houses of D. Jose de la Garza, Donna Juana Peres, and the church, not a building but has been greatly injured or levelled to the ground in a mass of ruins.—The infant son of Mr. D. Mariano Aguado, and an artillery soldier, have perished in the ruins. Three others are shocking wounded, but are still living; many the buildings are the artillery barracks, and the hospital Mata, containing near 100 sick, the wall of the prison, and half of the wall of the grave yard. In every thing in one word, the greater part of the population are compelled to live in shanties built of the ruins of their houses. I leave your Excency to imagine the miserable condition of all of produce growing in the fields.

The Mexican papers are full of details showing the frightful a nature was this catastrophe.

As to the preparations which Mexico is making for the invasion of Texas, we can learn very little of a certain nature. That active operations are going on in enlisting and equipping troops there is no doubt.—From our personal informants and our correspondents in reply to question whether the conquest of Texas be the object in view. There would seem to be none; and that is plainly indicted in some of our papers—to make Santa Anna Dictator. But this is a project on which we shall not be long left in the dark.

MEXICO AND TEXAS.—A letter from Pensacola, to the Picayune of yesterday, states the U. S. ship Cyclopath, which arrived a few days since from Vera Cruz, brings information that an army of ten thousand men had marched for the invasion of Texas. The agreement of this report with that received here last week from Galveston, gives a degree of probability to the statement. The writer in the Picayune, however, adds that a circuitous route was taken, which would not bring the army to the borders of Texas till late in the autumn. This, it is probable, if the first part of the report be true, for it must be the intention of Santa Anna to entrate a larger force than ten thousand men, if he is indeed, in earnest in his threatened invasion. Our own impression is, that the island of Galveston is more danger of attack than any other part of Texas.—*N. O. Com. Bulletin, 16th.*

TEXAS.—The Natchitoches Chronicle, of the 9th ult., says that President Houston had called out the Militia of Sabine and St. Augustine Counties, and had succeeded in capturing Walter Morman, the leader of the "regulators." This individual was shortly put on trial on several indictments for robbery and murder. The report that a pitched battle had taken place between the rival factions is also confirmed. Sixty or eighty persons are said to have been killed. The Chronicle states that such has been the turbulent and violent conduct of these lawless men, for a year or two, that society on the frontier is completely disorganised, and the adjoining Parishes of Louisianna, kept also in a state of alarm.—Among the outrages committed, it is reported that the "regulators" pursued one of their victims into the parish of De Soto, and murdered him within a few miles of Mansfield.—*N. O. Com. Bulletin.*

INFAMOUS.—The people of Illinois are accused of a design to starve out the Mormons, and compel them to leave their city. Provisions on their way thither are intercepted, and those having them, illtreated. The farmers are fearful of their lives being taken, if they proceed in the direction of Nauvooo with provisions. Within a few days previous to the last ult numerous Mormons had visited St. Louis, to provide the necessaries of life. Such persecution of a people, for a difference of religion, is infamous and wicked.

BURN AGAIN.—A meeting with regard to the imprisonment of ex-Governor Dorr was held at Saint John on the 14th ult. The substance of some of the resolutions adopted was, that it was right for Dorr to take up arms in opposition to a form of Government erected on the charter of a dead English King; that the meeting regarded his imprisonment as an insult to the Union, and unless his release was granted, they would use physical force to obtain it.

A fire occurred at Baltimore on the 24th ult. The loss of property is estimated at about $250.

CORN.—The following statement of hemp received at New Orleans may help to show the rapid increase of the cultivation of this important article:—In 1841 and 1842 the entire receipts at New Orleans were only 1212 bales; in 1842 and 1843 they rose to 9 bales, and in 1843 and 1844 they reached 9 bales, or about 5000 tons—the increase being almost exclusively from Illinois and Missouri.

St. John's, N. F., Sept. 17.

The schooner Speculation of P. E. Island, Theophilus Wood, master, from Miramichi, with a cargo of deals, bound to this port, sprung a leak on the 4th inst., off St. Peters, and notwithstanding every exertion on the part of the crew to keep the vessel free she became water-logged on the 9th, when falling in with some fishing boats the vessel was towed into Trepassy. The master and crew arrived here yesterday.

The day previous to the Speculation becoming water logged, they fell in with the schooner Swift, M'Leod, master from Pictou, bound to St. John's, and whilst in company with the Swift struck on St. Mary's Key's, bilged and filled with water. Mr. McKenzie, a passenger on board the Speculation, leaving the crew to the protection of some fishing craft which very fortunately hove in sight at the time of his leaving the vessel.

LIFE PRESERVING SHIRT.—On Saturday last, several Gentlemen from Hamilton went to Ports' Island to witness the effect of a swimming Shirt, invented by R. J. Fraser, Esq., Lieut. R. N., Superintendant of Convicts, Ireland Island. The shirt is made of unbleached Cotton, which is not very fine nor very thick, and is double round the Body. Under the chin a tube about 3 inches long, ½ inch in diameter is inserted with a Cork attached to prevent the escape of the air after the shirt is inflated. About 2 p. m. the man who made the trial put on the shirt—he also had on a pair of thick Drawers, which are an incumbrance when wet. After plunging into the water and moistening the shirt he took the cork out of the tube and after inflating the shirt, stopped the tube. He then tried to dive but could not get his head under. He kept his arms and feet still, but did not sink.—Two other persons then approached him and hung their weight on him as if they could not swim—the man with the shirt sustained them both.—The trial gave satisfaction to all present, and although it can only be used with effect by a person who can swim, it may be the means of saving many lives. With the aid of this shirt, swimmers may with confidence render assistance, but without it they may be afraid to approach a drowning person. The shirt would also be useful in cases of stranded and wrecked vessels. The shirt may be seen at the store of D. R. Tucker, Esq.—*Bermuda Royal Gazette, Sept. 17.*

SEVERE STORM.—Apalachicola, Florida, was visited by a severe gale on the 9th instant, which did much damage, surrounding a number of houses and partially demolishing others. Small tenements stables, out houses, fences, and trees were prostrated and whirled in the air in every direction.—Fortunately no lives were lost, and very little bodily injury was sustained. The Advertiser says:—We have not yet learned of any disaster on our coast, but we fear that two or three vessels, which are daily expected, may have felt the effects of it. No correct estimate has yet been made of the property destroyed, but we think it will take from $18 000 to $20,000 to cover the loss, as a large quantity of goods in the stores that were unroofed are damaged. Considerable damage, we fear has been done in St. Joseph, particularly during the last part of the gale, which was from the N. W., and had a fair sweep at that place across the bay. Also, other neighboring ports have been more or less injured.

ANOTHER MUSICAL WONDER.—Among the novelties of the present day may be classed the Swiss Bell Ringers, who are now displaying their powers in New York city. If reports of their performance be correct, their music is true and perfect melody, executed with skilful exactness, by means of hand bells.

NEW AMERICAN FRIGATE.—The sloop of war "Jamestown" was launched from the Norfolk Navy Yard, at noon, on Monday week. The following are her dimensions:—

Length between the perpendiculars...	163 ft.
Breadth, moulded.....	35
Extreme.....	36 2-12
Depth to gun deck.....	18 1-12
Length of spar deck.....	170

THE SABBATH.—J. M. Berrien, of Ga., in the course of his eloquent remarks to the late Convention of Saratoga, expressive of his supreme regard for the Sabbath, stated for the encouragement of others, that upon the railroad extending from Savannah to Tennessee river, (a distance of 350 miles) no car ever moved upon the Sabbath; and that the steamboats, passing between Charleston and Savannah, uniformly rested on that sacred day. He mentioned also, that, in Savannah, it was formerly thought necessary that in so warm a climate they should have a Sabbath market; but from increasing regard for the great interests of religion, they had, the past year, adopted the plan of having the Saturday evening market, which was found to be quite satisfactory; and he gave it as his solemn conviction, the result of long experience and observation, that nothing even in a pecuniary point of view, was ever gained by Sabbath desecration; and that if this divine institution should be universally honoured, especially by the young, it would be the surest pledge of national prosperity, and of the highest blessings Heaven could bestow.

When Dr. Johnston said that the first whig was the devil, he little dreamt that a generation was approaching which would disclose every mark of the paternity down to the very tail. How the old gentleman must chuckle at the glowing family resemblance!

QUEBEC, Sept. 25.—H. M. S. Pique, Captain the Hon. M. Stopford, from Halifax, with the Head Quarters of the 52nd Regt., and specie for the Commissariat, arrived here yesterday afternoon. She will sail on the 30th inst., for Halifax, with the Head Quarters of the 74th. Among her officers are the following:—Lieuts.—J. McDougall, E. H. Kennett, R. R. Western, H. M. Baker; Master—G. Filmer; Paymaster & Purser—Jas. Giles; Surgeon—W. Folds; Chaplain—W. H. Snowe.

MONTREAL, Sept. 19.—Captain Mathew Wallace, of the bark *Jane Brown*, now in this port, stands committed to gaol for having, on board of his own vessel, been guilty of a rape, and an exceedingly aggravated assault upon the person of —— ——, an interesting and elegant looking girl of sixteen years of age.

☞ An Inquest was held on the 30th ult., before Dr. Wm. Bayard, Coroner, on view of the body of John Gillespie—killed in a row at James Dunn's, in Lower Cove. A Verdict of Murder was brought against Timothy Kennedy, and against John Kennedy and Mary Ann Kennedy as aiders & abettors.

Sir Walter Scott on Beauty.—In one of the delightful descriptions of Female Loveliness which adorn the pages of this interesting writer, he alludes to a fragrant and balmy mouth and pearly set of teeth, as ranking among the first attributes of Feminine Beauty. The care and conservation therefore of objects of high interest, and our own experience induces us unhesitatingly to recommend "*Rowland's Odonto*, or Pearl Dentifrice," as an *indispensable appendage to the Toilet of Beauty*, and calculated to *heighten and preserve the advantages* of "*Balmy Breath*," and "*Pearly Teeth*," *in all their beauty and perfection.* *See Advertisement.*
