OPPOSE RAILWAY CONTROL

Montreal Exchange Adopts Resolution Touching Proposed Fast Atlantic Service.

NO SUBSIDY FOR FREIGHT STEAMERS

Montreal and Quebec Favored for Summer Termini—Highest Speed Required.

Montreal, July 30.—The Montreal Exchange is against giving any railway control of the fast line,, and today that body put itself on record as follows:

Resolved, that, in the opinion of this association, a fast Atlantic mail and passenger service should be established from a Canadian port to a port in Great Britain; that steamers employed in such service should have a speed equal to the swiftest now in commission or contemplated on the New York route, and that they make Quebec and Montreal the summer termini, and Halifax or St. John the winter terminus; that this association, having learned thru the press that a subsidy is likely to be granted for such a service, would respectfully urge upon the Dominion government the importance of this being done, but this association does not favor the subsidizing of freight steamers nor the granting of a subsidy to a line of steamers under the control of any railway or combination of railways.

TOWN IN HANDS OF INFURIATED MOB.

POLICE AND STRIKERS IN REVOLVER FIGHT

One Thousand Shots Fired—Twenty Rioters Hit—Two Will Die—One Policeman Fatally Wounded—Prominent Citizen of Shenandoah Beaten to Death—Troops May be Called Out.

Shenandoah, Pa., July 30.—A reign of terror holds Shenandoah in its grasp to-night. Since 6 o'clock this evening Centre-street, one of the principal streets of the town, has been in the hands of an infuriated mob. Two of the borough policemen were shot, one fatally. Joseph Beddall, a leading merchant and cousin of Sheriff Beddall, was brutally clubbed to death, and upwards of a score of strikers were shot by policemen, and it is expected that many deaths will result.

Sheriff Beddall arrived from Pottsville at 7.45 o'clock with a posse of deputies. He took up his headquarters at the Ferguson Hotel, which was surrounded by several thousand men. To a reporter he admitted that he had asked Governor Stone to send the militia. The governor wired that if the citizens of the town petition for troops he will send them, and a petition was circulated for that purpose.

When Trouble Started.

The trouble started about 6 o'clock this evening when Deputy Sheriff Thomas Beddall attempted to escort two non-union workers thru the strikers' line of pickets. The workmen were dressed in their street clothes, but one of them carried a bundle under his arm and this aroused the suspicion of the strikers. The bundle was torn from him, and, when it was found to contain a blouse and overalls, the man was taken from the deputy and beaten almost to death.

In the meantime, Beddall opened fire on the mob which had gathered by this time, and emptied his revolver. Two of the shots took effect, one man being shot in the leg and the other in the foot. The deputy and the other strike-breaker were compelled to flee for their lives, and took refuge in the Philadelphia and Reading Depot. The depot was soon surrounded by an angry mob of 5000, which were becoming more threatening and demonstrative every moment.

Joseph Beddall, a hardware merchant, and brother of the deputy sheriff, was seen making his way thru the crowd in an effort to reach his brother, and the mob, divining that he was carrying ammunition to those inside the depot, seized him and beat him with clubs and billies into insensibility. He died en route to the Miners' Hospital.

Shortly after this, the entire borough police force arrived on the scene, and escorted the deputy sheriff and has man to an engine, which had been backed into the depot for that purpose. When the mob realized that their prey was about to escape, hey surrounded the engine, and the engineer was afraid to move.

Dispersed By a Volley.

In a few moments, however, the police fired a volley, dispersing the crowd for a brief period, and the engineer turned on full steam and got away with his men. Stones were thrown thick and fast about the heads of the police, whereupon Chief John Fry gave the order to fire. At the first volley the mob fell back, and several were seen to fall. Their retreat, however, was but momentary. They turned, and, with revolvers, stones and a few shotguns, they charged on the little band of policemen, and made them flee for their lives. The policemen turned in their flight, at short intervals, and fired volley after volley at their pursuers. When the Lehigh Railroad crossing was reached, a passing freight train blocked the passage of the police, two of whom were caught and brutally beaten. One of them, Stiney Yacopsky, will die.

Twenty Strikers Shot.

It is estimated that upwards of 1000 shots were fired, and the wonder is that more fatalities did not result. More than 20 strikers, all of whom are foreigners, were shot, and at least two of them will die. Many of the merchants and politicians are refusing to sign the call for troops, fearing that the miners will boycott them after the trouble is over.

At 11 o'clock to-night the streets were still crowded with people, but everything was quiet.

TOHERS NOW HURRYING TO HOMES

First Special Train Expected at Levis at Noon To-Day.

Halifax, N.S., July 30.—The work of ticketing and paying off the troopers on the steamer Cestrian was finished at 3 o'clock to-day, and an hour later the steamer weighed anchor and moved up to deep water terminus. The men disembarked quickly, and one thousand went on board the military train waiting. A guard of 50 men from the Royal Canadian Regiment was stationed at the terminus to prevent the troops from leaving the train, but many escaped and made their way to the city. Those who went on the train belong to various points in the Dominion, a great number of them hailing from the west. The troopers who remained caused lively scenes on the streets to-night, and the cabbies are reaping a bonanza. The next train will leave here at 5 o'clock to-morrow afternoon, and a strong effort will be made to get all the men away.

AT LEVIS AT NOON.

Quebec, July 30.—It is expected that the first special train with some of the returned Canadian Mounted Rifles on board will arrive at Levis about noon to-morrow from Halifax.

TURNED HOSE ON FUNERAL.

Remarkable Riot Between Hebrews and Factory Employes.

New York, July 30—The funeral of the late Chief Rabbi Jacob Jacoby, head of the Orthodox Hebrews of the United States, which was held here to-day, was the occasion of one of the most remarkable demonstrations ever witnessed in this city, and led to a collision between the masses of Jewish mourners and the police. The streets were packed with thousands of Hebrews. The employes of the Hoe Co. threw water and other missiles on the members of the procession, and the latter replied by smashing every window in the factory. The hose was turned on the procession indiscriminately, and many women and children were injured in the resultant stampede. A number of arrests were made.

RUMOR DENIED.

Provost Macklem on Toronto and Trinity Medical Amalgamation.

The story has been going around for some time that the Toronto and Trinity medical faculties would amalgamate this fall, and that the idea was only opposed by two people, one of whom was Dean Geikie. Provost Macklem of Trinity University, when asked what there was in it, replied that it was utterly without foundation. There was no such proposition looking to the amalgamation of the two faculties before the authorities. Before he became provost the matter had been discussed in a way, but nothing had come of it. He accordingly gave the story an emphatic denial.

Dean Geikie of Trinity Medical College is out of town, but his son, when seen, also declared that there was no truth whatever in the statement that the two faculties would amalgamate.

ASSURANCE FROM SIR WILFRID

That Proposed Steamship Line to South Africa is Receiving Attention of Ministers.

Montreal, July 30.—Sir Wilfrid Laurier has given his personal assurance that in the event of the proposed Bond-Blaine treaty going into operation, there will be no discrimination by Newfoundland against Canadian products in favor of American products, as many Canadians have feared, but the products from both countries will be accorded the same treatment.

Mr. F. W. Thompson, vice-president and general manager of the Ogilvie Flour Milling Company, wrote the Premier concerning the matter, and he has received the following reply from Sir Wilfrid: "With reference to the proposed Bond-Blaine treaty, I may tell you that in the event of this treaty going into operation, no discrimination will be made against Canada, and Canadian products will have from Newfoundland the same treatment as accorded to similar American products.

"With reference to a steamship line between Canada and South Africa, I may say that the matter is now engaging our immediate attention. It would be premature to venture any prediction as to what the result will be, but no effort shall be spared on our part."

COULD BRING ON A CRISIS

Prominent Conservative M.L.A. Wants His Party to Carry the Referendum

AS A RETRIBUTION FOR MR. ROSS

Government Would Have to Enforce Prohibition or Get Out of Office.

"The Conservative party," said a prominent member of the Local House yesterday, "is within one vote of tying the Ross government. It is in this position notwithstanding the fact that it secured a majority of the whole people of nearly 7000, and it has this clear majority in its favor, in spite of all the election atrocities committed by the Liberal party in the conduct of the election, and in spite of the active antagonism of the liquor interest in the Province."

And it was at this point that the Conservative member began to boil over and say very strong things against the liquor interest for supporting Mr. Ross, who had brought on the referendum, who had always been a professional prohibitionist and who was always supposed to be an enemy to the trade. "And yet," the indignant Conservative member went on to say, "with the exception of Mr. Corby of Belleville and Mr. Seagram of Waterloo, nearly the whole liquor interest, whether distilling, brewing or hotel keeping, or in any way connected with the trade, had gone to great lengths to try and secure the election of Mr. Ross.

"That being the case," he went on to say, "why should not the Conservatives, in order to bring the present situation to a head, and to get into the office to which they are fairly entitled by reason of the vote of the people, why should they not use the referendum, when it comes on this fall, to help themselves, and to put the Ross government in a hole, by carrying the referendum?" The Conservative party, he alleged, could easily bring on a crisis by voting in overwhelming numbers in favor of the referendum. The temperance people would support them in carrying it, and it would then be up to the Ross government to enforce its prohibitory law, or get out of office, and the Ross government knows that the enforcement of its prohibitory law is an utter impossibility.

And the Conservative member who made the above statement said he was not speaking for himself alone, but for many members of the legislature who had experienced the antagonism of the liquor interest, and for most Conservatives thruout the Province.

Spokane, Wash., July 30.—County Attorney M. R. BALFOUR'S MAJORITY IS 41

Most Important Sections of Education Bill Carried By House of Commons.

HARCOURT PITCHES INTO OPPONENTS.

Characterizes Measure as the Negation of Popular Control—Liberals to Fight the Issue.

London, July 30.—After being subjected to vigorous attacks from the Liberal leaders, one of the most important sections of the government's education bill was passed in the House of Commons to-night by 230 votes to 189. This small government majority was greeted with prolonged cheers from the opposition.

Previous to the vote Sir William Vernon Harcourt (Liberal) made a speech which was characterized by all his old-time vigor. He declared the present House did not reflect the opinion of the country, and that if the government did not know this it would soon learn it. The speaker said Mr. Balfour, the Premier, demanded unconditional surrender, but that he would never get it, that the education bill was the negation of popular control and a violation of every principle of sound finance, whether Imperial or local. Sir William declared the country did not live clericalism, and that the new clericalism imposed by the education bill was loved by the country least of all. He said the Liberals meant to fight the issue to the bitter end.

A reference to the bye-election for member of the House to represent North Leeds, which resulted in a Liberal victory, elicited enthusiastic applause from the Liberals.

WANT TO JOIN UNITED STATES

Merchants of Jamaica Anxious to Be Severed From Britain.

Kingston, Jamaica, July 30.—Agitation in favor of the annexation of Jamaica to the United States is very general and is becoming more pronounced, as a result of the smallness of the grant by the Imperial government for the assistance of the sugar industry.

Prominent merchants have taken up the matter, and with members of the executive council are writing letters to the press deploring the present situation. One of the leading merchants of the city writes that for many years the colony has depended on America and Americans to save it from bankruptcy and ruin.

"It is a true, even if a painful and disagreeable fact," he says, "that soon we will have to decide whether to starve under the Union Jack or seek prosperity and happiness under the Stars and Stripes."

London, July 30.—King Edward's progress continues to be in every way satisfactory. During the day he slowly paced the deck of the royal yacht Victoria and Albert without any assistance, and the exercise is reported to have done him good.

The Earl of Denbigh, one of the King's lords in waiting, speaking at a public meeting to-day, said he saw no reason why the King should not be strong enough to undergo the fatigue incident to the coronation on Aug. 9.

DON'T EXPECT TOO MUCH.

London, July 30.—A correspondent writes to The London Globe warning people against indulgence in extravagant expectations from the career of Lord Dundonald in Canada. Those interested in Canada's military service, says the writer, need not be too sanguine of the results of Dundonald's accession to office.
