Shocking Accident.

MAN FIRING JOY GUNS IN HONOR OF WEDDING MEETS WITH MISHAP.

Abraham Butcher, who was a participant in the festivities of a wedding, which took place at Mussel Harbour, Placentia Bay, on Wednesday night last, figured in a gunning accident that nearly cost him his life. As it is the victim is badly injured and he arrived in the city by a special freight train for treatment. Butcher was engaged firing off guns. On this occasion he overcharged a large sealing rifle that he used with powder. The firearm exploded with the result that Butcher's joy was converted into sorrow and that his face and right hand were badly shattered, two fingers being completely blown off. His wound were temporarily dressed, after which he was ordered to Hospital, where he now is. It is not unlikely that the remaining fingers of the right hand will be amputated.

Fatal Burning Accident.

Little Florence Eddy, Aged Fourteen Months, Terribly Burned, Died from Injuries.

Yesterday afternoon at 5.40, Florence Julia Eddy, the fourteen months old child of Herbert and Eliza Eddy of 190 New Gower Street, received serious burns which terminated fatally at the General Hospital a few hours afterwards. Mr. Eddy, the child's father, informed the **Telegram** to-day, that the child was playing in the kitchen, yesterday afternoon, while her mother was preparing the evening meal. Mrs. Eddy made some remark about the fire being low, whereupon the little child took a poker and put it in between the front bars of the grate to help her mother make the fire burn. The child shortly afterwards left the stove, but upon the mother's absence from the room must have removed the poker, which had become red hot, the mother was only absent from the room for a short time, having only gone down stairs to another room to put away a flour sifter that she had been using. On her return she beheld her darling child lying on a mat in front of the stove with the upper portion of her clothing all aflame and her head and neck terribly burned. Medical aid was immediately summoned, and Dr. Fraser ordered the little sufferer to the hospital, where she was taken in a cab. In the meantime the burned parts were saturated with oil, but it was quite apparent, from the nature of the burns about the head and neck of child that there was very little hope of recovery.

Upon arrival at the hospital everything possible was done for the little one, but at 8 p.m. she was barely breathing. She died at 11.15 p.m. The parents are nearly distracted with grief over the loss of their little one, who was idolized by them and the other members of the family. She was a bright robust child, and was just beginning to talk. To Mr. and Mrs. Eddy the **Telegram** unites in extending sincerest sympathy in their bereavement.

Last Night's Alarm.

An alarm of fire from Box 32 was sent in shortly after 11 o'clock last night, summoning the Central and Western Companies to the house occupied by Thomas Alcock, of Burke's Place, just off Stephen Street. The fire was caused by an accumulation of soot in the chimney whence a few sparks were issuing when the firemen arrived. The hose was not called into requisition; in fact nothing was used saved the energies of the firemen who appeared on the scene "all-out" signal sounded at 11.15 p.m.

We know who he will buy it for? But who will he buy it from? Hundreds of Engagements and Weddings are sealed yearly in Newfoundland with Trapnell's Solid Gold Rings. Hundreds of friendships and tokens of affection to sweetheart, wife, mother, sister and friend are embodied in lasting embrace with Trapnell's Rings, the popularity of which is based upon their quality, finish and variety and beauty of design. Rings for men, women, baby and miss for every occasion. Gem Rings. Chased Rings. Signet Rings, Birthday Rings. Should you have a desire to get a ring of such design as you may create yourself, or that you had seen somebody else wear, just take your design to Trapnell; there is nothing impossible along these lines for his talented workmen. A splendid assortment of unset stones can be seen if your design calls for a Gem Ring. Ask to be shown the new White Saphires. They are hard and brilliant like diamonds, so much so that they puzzle experts. —ap20,tf

The Prophet Engineer.

"If Colonel Goethals had been an Englishman and had built the Panama Canal and governed the Zone for England, he would have been made a peer of the realm. A title for him has indeed been suggested—Lord Culebra," says the Outlook.

"At the presentation to him of the Civic Forum medal, a poem, written for the occasion, was read by its author, Percy MacKaye. It is not only a fine example of occasional verse, but a stirring description of Colonel Goethals' task, and of the spirit in which he accomplished it, as the following stanzas show:

"'A man went down to Panama
Where many a man had died
To slit the sliding mountains
And lift the eternal tide:
A man stood up in Panama,
And the mountains stood aside.
* * * * *
For a poet wrought in Panama
With a continent for his theme,
And he wrote with flood and fire
To forge a planet's dream,
And the derricks rang his dithyrambs
And his stanzas roared in steam.
* * * * *
Where old Balboa bent his gaze
He leads the liners through,
And the Horn that tossed Magellan
Bellows a far halloo,
For where the navies never sailed
Steamed Goethals and his crew.

So nevermore the tropic routes
Need poleward warp and veer,
But on through the Gates of Goethals
The steady keels shall steer,
Where the tribes of man are led toward peace
By the prophet-engineer.'"

Celebrated Norwegian Jigger!

Fishermen should use these Jiggers and rig them with swivels same style as in Norway, then the Jigger acts like a minnow and when spinning attracts the fish, so that instead of jigging they really snap the Jigger and in this manner you never fail to catch them. Ordinary leads can be used but the Norwegian style seems more simple and easily made. Our fishermen should try this great Norwegian fish killer.

Capt. Dennis to Sail Vanitie.

AT A VERY HIGH SALARY.

Moston, Mass., April 15.—Captain W. W. Dennis, who has been selected by A. C. Cochran, of New York, to sail his yacht, the Vanitie, in the triangular race for the privilege of defending the America's cup, will receive the highest salary ever paid to the skipper of a racing yacht.

For the four months that the Vanitie will be in commission, the Yonkers carpet manufacturer will pay Dennis at least $10,000, and there will be perquisites that many skippers would consider a good salary. A bonus of $1,000 has been promised, if the Vanitie wins the triangular race.

Mr. Cochran admitted that he will pay Captain Harry Haff, the mate, $5,000, and, according to yachting authorities, the skipper's stipend will be no less than twice that of the mate. Mr. Cochran is making a total outlay of over $400,000 in his venture in yachting. He has told friends that Captain Dennis's success with Morton F. Plant's Elena last year makes him well worth the money he will get next summer.

New features of one of the Vanitie's rivals, the Herreshoff yacht Resolute, were revealed to-day. The Resolute wil have two masts stepped, instead of one, and will have the biggest mainsail spread ever on a 75-footer. There will be two rigs, one a big mainsail, with small head sails, and the other the conventional peaked head sloop rig, like the New York 50-footers.

25,000,000 Debt to be Paid

American Conscience Money For Colombia.

A telegram from Bogota announces that the treaty between Colombia and the United States, setling he controversy arising out of it that United States gaining control of the Panama Canal zone, has been signed.

The United States will pay an indemnity of £5,000,000 in six months, and will grant certain privileges for Colombian commerce via the Panama Canal.

A Colombian-Panama boundary will be fixed, and the United States wil lend its good offices for the settlement now pending questions between Colombia and Panama.—Reuter.

This ends the long quarrel between the United States and Colombia over the acquisition of the Panama Canal zone. The United States was unable to obtain the zone from Colombia, and instigated the secession of the State of Panama, which it set up as an independent republic, and from which it obtained the territory desired.

Schoolday "Howlers."

The 'Cantonian,' the sixth form magazine of the Canton Secondary School, Cardiff, quotes the following schoolboy "howlers," says the South Wales Daily News:

The Pope lives in the Vacuum.

The people of India are divided into casts and outcasts.

The seven great powers of Europe are gravity, electricity, steam, gas, flywheels, motors, and Mr. Lloyd George.

Tennyson wrote a beautiful poem called "In memorandum."

During the interdict in John's reign, births, marriages, and deaths were not allowed to take place.

Caesar was noted for his great strength; he threw a bridge across the Rhine.

The King was crowned in the Crystal Palace with his sepulchre in his hand.

Dreaming of Home and Mother.

Dreaming of home, dear old home!
Home of my childhood and mother;
Oft when I wake 'tis sweet to find
I've been dreaming of home and mother.
Home, dear home, childhood's happy home,
When I play'd with sister and with brother;
'Twas the sweetest joy when we did roam
Over hill and thro' dale with mother.

Chorus:

Dreaming of home, dear old home,
Home of my childhood and mother,
Oft when I wake, it's sweet to find
I've been dreaming of home and Mother.

Sleep, balmy sleep, close mine eyes,
Keep me still thinking of mother;
Hark! 'tis her voice of home and mother.
Angels come, soothing me to rest,
I can feel their presence as none other;
For they sweetly say I shall be blest
With bright visions of home and mother.

Childhood has come, come again,
Sleeping, I see my dear mother;
See her lov'd form beside me kneel,
While I'm dreaming of home and mother.
Mother, dear, whisper to me now,
Tell me of my sister and my brother;
Now I feel thy hand upon my brow,
Yes, I'm dreaming of home and mother.

Sir John Murden Sanderson was notoriously absent-minded. Of the cycle of anecdotes that gathered around him much was fabricated. The story of his boiling his watch while holding an egg in his hand, often related also of Newton, is in La Bruyere's "Caracteres." But there seems to be some foundation for the suspicion that in his laboratory he once lunched on a frog and was afterward found deeply contemplating a sandwich.
