SONNETS ON MAY.

(BY ANDREW PARK.)

'Tis May; and, like a golden veil, the sun
Spreads o'er the earth, as if an angel smiled!
Even flowers in lonely churchyards have begun
To ape forgotten buds serenely mild;
Alike the grace the mother and the child,
However humble was their lot on earth.
And thus the mourners have their grief beguiled
While gazing on the lost who gave them birth.
Now Summer smiles o'er mountain, vale, and
firth.

And all is glad except the soul within
That dare not join sweet Nature in her mirth—
Ruled still by want, or woe, or hideous sin.
I feel as I could fly like something wild.
O, blessed month! thou art fair Summer's child!

How fresh the landscape, even near the town,
Just like a youthful bride for Hymen dressed;
The stains of commerce have made nothing brown;
The solar rays have not yet warmly press'd
The juicy sprouts within their scorching breast,
But all is sparkling green of purest hue;
And looking from the eastward to the west,
We see each blade hung with prismatic dew—
That heavenly nectar, which does but renew
The opening lips of every fragile flower,
Making them seem more beautifully true,
And give high odour at meridian hour.
Nothing is fading—Death has not begun
O'er the sweet face of the wild world to run.

A CHILD KILLED BY A CAT.—The Dumfries paper records the following painful circumstances, which occurred in a house about six miles to the north of Moffat, on the road from Dumfries to Edinburgh. The only inmate of the dwelling at the time had gone out to draw water from a spring about a hundred yards distant, leaving her child, a few months old, in the cradle. Scarcely had she shut the door when a large cat, which had never exhibited symptoms of violence before, attacked the infant, and inflicted so many wounds on the head and upper part of the body, that, although medical assistance was speedily procured, the unfortunate victim to feline ferocity died shortly afterwards.

SOLIDIFIED MILK.—It appears that a French gentleman has discovered the means of condensing all the nutritive elements of milk, abstracting at the same time all the acid and fermentive properties, so that a small package of solid material contains an equivalent to four or five quarts of fluid milk. We are informed that, even in the liquid state, the milk so produced will keep several days without turning. It appears by the advertisement that the solid material above described may be obtained in various sized packages.

A gentleman burying his wife, a friend asked why he expended so much on her funeral. "Ah, Sir," replied he, "she would have done as much or more, for me with pleasure."

Hath any one wronged thee? Be bravely revenged; slight it and the work is begun; forgive it, and it is finished. He is below himself that is not above an injury.—*Quarles.*

A Subscription is in progress for the erection of a monument to the memory of the Rev. Charles Wolfe, author of the well-known poem, "The Burial of Sir John Moore."

A man died a few days since, at Moreton Wood, Worcestershire, of hydrophobia, caused by a mad dog, which had bitten him and several other persons about two months before.

Friday night's *Gazette* announces that the Queen has constituted Hong Kong and its dependencies to be "The Bishopric of Victoria," and has appointed the Rev. George Smith, D. D. to be its first bishop.

THE HIGHEST CHURCH IN ENGLAND.—An eminent surveyor, at Bakewell, has ascertained that Chelmorton Church, in the Peak of Derbyshire, is erected on a site nearly 2000 feet above the level of the ocean, an altitude unequalled by that on which any Church is erected in England.

Out of every seventeen young men in a quadrille at an evening party, who pretend to be making love to their partners, ten are remarking that the room is very warm, five are observing that the Polka is the grandest invention of the age, and two are asking how the next figure commences.

"Papa," said a little boy to his parent the other day, "are not sailors *very very* small men." "No, my dear," answered the father, "what leads you to suppose that they are so small?—"Because," replied the young idea smartly, "I read the other day of a sailor going to sleep in his watch."

A Botany Bay magistrate, who had risen from the situation of a convict to the bench, having indulged in some harsh reflections on a person whom he fined five shillings for being drunk, the delinquent said,—"There's the money! I well remember the time in England when I should have liked much less to meet you with five shillings in my pocket."

To intending EMIGRANTS from New-Brunswick!

THE CANADA COMPANY would submit to the serious consideration of all parties who may contemplate leaving New-Brunswick, whether the Western section of Canada, (formerly the Province of Upper Canada,) does not offer every inducement for them to settle there, rather than that they should proceed to the United States. In Upper Canada they will find a most healthy climate, the soil very fertile, and abundance of excellent Lands, to be obtained upon easy terms, from the Government and the Canada Company. The great success which has attended settlement in Upper Canada is abundantly evidenced by the prosperous condition of the Farmers throughout the Country; and is also shewn by the success of many natives of New Brunswick and Nova Scotia, who have settled in many Townships of the Country; and the individual progress made by several thousands of people, who have taken Lands from the Company, corroborates the success which has attended settlement in Upper Canada.

The Canada Company's LANDS are offered for sale by way of LEASE for Ten Years, or for SALE, CASH DOWN. *The plan of 1 5th Cash, and balance in instalments, being done away with.*

The Rents payable 1st February each year, are about the Interest at 6 per cent., upon the Cash price of the Land. Upon most of the Lots, when Leased, NO MONEY IS REQUIRED DOWN: whilst upon the others, *according to locality, One Year, or Three Years Rent* must be paid in *advance*, but these payments will free the settler from further Calls, until the second, Third, or Fourth Year of his Term of Lease.

The Settler has secured to him the right of converting his *Lease* into a *Freehold*, and of course *stopping payment* of further Rents, before the expiration of the Term, upon paying the purchase of Money specified in the Lease.

The Lessee has thus *guaranteed to him the entire benefit of his Improvements and increased value* of the Land he occupies, should he wish to purchase.—But he may, if he pleases, refuse to call for the Freehold: the *option* being *completely* with the *Settler*.

A Discount, after the rate of Two per Cent. will be allowed for anticipated payment of the purchase Money for every unexpired year of Lease, before entering the Tenth Year.—The Lessee has also secured to him the benefit of the SETTLERS' SAVINGS' BANK ACCOUNT.

☞ The Canada Company have published "*A Catechism of Information for Intending Emigrants of all classes to Upper Canada*:" copies of which, as well as further information, may be obtained *gratuitously*, by applying at the Office of G. BLATCH, Esq. Barrister at Law, Prince William Street, St. John, N. B.

Commissioner of the Canada Company's office, *Canada West,—Toronto, 20th Nov., 1848*

ST. JOHN COFFEE HOUSE,
AND
Gentlemen's Oyster Saloon.

THE Proprietor most respectfully informs the Public of Saint John, that he has taken that Commodious House in Cross street, (nearly opposite his old stand,) and formerly known as Mrs. Brook's Boarding House, and that he has, at a very great expence, and a disregard of time and trouble, fitted it up in the most approved manner, after the style of similar establishments in Great Britain and the United states. He flatters himself that he has among his friends and well wishers, a great number of highly respectable gentlemen, and to them he would now tender his most sincere thanks for the very liberal patronage he has received from them. To those who may benefitoffit honor the ST. JOHN COFFEE HOUSE with their patronage he will pledge himself to give every satisfaction both in the quality and style in serving up of the viands which he may place before them; as also to have at the earliest moment any and every variety which this and the American markets can produce.

Families can be supplied with the choicest **Oysters**, raw or cooked in any style, delivered at their own dwellings, the quality of which shall be unquestionable.

TRIUMPHANT SUCCESS OF
Buchan's Hungarian Balsam of Life,
THE GREAT ENGLISH REMEDY FOR
Colds, Coughs, Asthma, and Consumption.

THE most celebrated and infallible remedy for Colds, Coughs, Asthma, and every form of Pulmonary Consumption, is the HUNGARIAN BALSAM OF LIFE, discovered by that eminent medical chemist, Dr. Buchan, of London, England, and extensively known as the "Great Eastern Remedy."

It has been tested for upwards of seven years in Great Britain and on the continent of Europe where it is universally considered the great, and only remedy for this awful malady, and now introduced to the public under the immediate superintendence of the inventor. Within three years it has been distributed from Maine to Florida, and from Canada to Wisconsin, and its effects are every where alike ASTONISHING and TRIUMPHANT.

As a preventive medicine, and an antidote to the consumptive tendencies of the climate, it is invaluable. As a remedy for severe and obstinate coughs, inflammation of the Lungs, croup, &c. it is unrivalled. But the Proprietor is to confident of the merit of this great remedy, in the worst forms of consumption, that he prefers to have it used by the DYING INVALID, rather than by persons affected with some simple and less dangerous disorder of the throat and lungs:—this may seem strong language, but it is the result of experience in thousands of cases, sustained by the most intelligent and unimpeachable testimony. It is not pronounced an infallible remedy in all cases, but it is THE MOST INFALLIBLE remedy known to the civilized world. It is the preventive of hereditary consumption—it is the best defender against the influences of climate—it is the best remedy for incipient consumption—and it is the great and only remedy for that fearful softening in the lungs—inflammation of the membrane, and tuberculous decay, which are the last effects of that erroneously supposed to be beyond the reach of medical aid:—the agent or proprietors of other and farther beyond the reach of hope.

Such is not the case with the Hungarian Balsam It is always salutary in its effects—never injurious It is not an opiate—it is not a tonic—it is not a mere expectorant. It is not intended to lull the invalid into a fatal security. It is a great remedy, a grand healing and curative compound; the great and only remedy which medical science and skill has yet produced for the treatment of this hitherto unconquerable malady. It is in fact the *best remedy in the world!*

[From the John Bull, newspaper, London.]

There is certainly some mysterious and occult virtue in the famous "Hungarian Balsam of Life which the medical faculty are unable to discover or Dr. Buchan would not be permitted for so many years to enjoy the magnificent monopoly of the treatment and cure of Consumption in Great Britain. No satisfactory analysis of this famous compound has ever, to our knowledge, been offered to the public.
