WITH THE FARMERS

RED DEER FARMERS MEET.

Red Deer, Alta., Feb. 3.—The Red Deer branch of the Alberta Farmers' Association held a meeting of its members in the council chamber in the fire hall on Friday last. James Bower, president of the local, occupied the chair. About 20 members were present.

After the adoption of the minutes of the previous meeting, Secretary J. A. Caswell read a communication from the secretary of the Red Deer Board of Trade cordially inviting the members of the association to a meeting of the board in the Oddfellows' Hall on Tuesday, February 4th, to discuss the question of establishing a pork packing factory at Red Deer, and to co-operate with the board in bringing these matters before the authorities. The president favored the proposal and considered it would be advantageous to the association and the town to work in conjunction. The following committee was then appointed a delegation to attend such a meeting: Messrs. J. Bower, H. Jamieson, Jos. Cole, J. Spiers and J.S. F. Ward.

R. L. Gaetz and R. B. Wellner who were present from the board of trade, heartily endorsed the invitation of the board. Mr. Gaetz pointed out that the interests of the two bodies were identical, and he believes it would be very advantageous to have a joint discussion of the question of the establishment of a pork packing plant at Red Deer. Mr. Gaetz also explained that the interests of the two bodies were identical and good results were certain to accrue from a joint discussion. He also explained that the board were intending to move in obtaining a separate standard for the grading of Alberta oats. At present we were ruled by Manitoba prices and they were not fairly represented at present on the grain commission, and wanted a representative who was not interested in the milling business.

President Bower gave a report of the work of the delegates of the Red Deer local at the second annual convention held in Edmonton recently. He stated that Premier Rutherford and Minister of Agriculture Finlay were present during a portion of the proceedings, and appeared favorably impressed with the claims of the farmers and the arguments put before the convention. They would like to have interviewed the Premier personally, to present the claims of Red Deer as the most desirable point at which to establish a pork packing plant, but were unable to do so. The representatives of the association present were men able to put their views before the convention, and they were men of whom they might be proud. Farmers were the only class who had not previously organized, and now they had made a start to come to the front they must endeavor to remain there. He advocated the appointment of a paid organizer to represent the A.F.A. and thought if they could secure the right man much good would result.

A. McBlane considered the local associations were too numerous in this district and would be better if they were 20 miles apart at least. Mr. Jamieson agreed with the last speaker to a certain extent, but thought it as well to split up a little and keep the farmers united and interested, no matter where the meetings were held.

After some discussion regarding politics, in which the president declared that as an association they would not introduce politics at all, the regular business of the meeting was proceeded with. It was resolved that the members should hand the secretary their subscriptions for "The Alberta Homestead," the official organ of the A.F.A.

The delegates to meet the board of trade were instructed to take up the pork packing and beef canning subject at their meeting and were empowered to draw up a resolution to be forwarded to John T. Moore, the member for the Red Deer constituency.

PROVINCIAL SEED FAIR.

The second annual provincial seed fair for Alberta, conducted under the auspices of the provincial department of Agriculture, assisted by the seed branch of the Dominion department of agriculture, will be held this year at Lethbridge on February 18th, 19th and 20th. In addition to the liberal prizes offered for the various classes of grains, grasses and clover seeds, Farm Crops Magazine, of Winnipeg, has offered a valuable silver trophy, known as "The Farm Crops Trophy," for the best bushel of spring wheat. The trophy will be supplemented by a cash prize of fifty dollars to the winner, thirty dollars as a second and twenty dollars as a third prize. In this class, as well as all other classes of wheat, exhibitors must have at least 50 bushels of seed for sale, as represented by the sample exhibited. On exhibits sent to the fair all express charges over fifty cents will be paid by the department of agriculture. The grain judging competition, in which all farmers and farmers' sons will be allowed to compete, will also be conducted.

An interesting program, in which competent speakers will take part, is being prepared. Among the speakers will be Prof. Atkinson, agronomist, from the Agricultural college, Bozeman, Montana. Arrangements have been made with the railways, whereby convention rates will apply to all attending the exhibition. Prize lists, which contain all information, can be had on application to the department of agriculture, Edmonton.

SEED GRAIN ASSOCIATION.

Ottawa, Feb. 4.—The preliminary meeting of the members of the Seed Grain Association of Canada, who have gathered here for three days, was held yesterday afternoon with about twenty delegates in attendance. The only two who registered from the west today were Hon. W. R. Motherwell and George Batho, of Winnipeg. The others present included Hon. Sydney Fisher, Professor W. J. Robertson, of St. Annes College, and Professor Zavitz, of the Ontario Agricultural College. Secretary Wm. H. Wewman read the report of yesterday's work, giving in detail some of the results of the experiments conducted under the auspices of the association in connection with the various seed plots throughout the Dominion. As a result of the long discussion on the value of the work which was being done by the association in the interests of all the farmers of Canada, it was decided to apply to the government for the direct vote of parliament for additional funds to carry on the work planned for this year. At present the association is assisted by funds at the disposal of the seed branch of the department of agriculture. The board of directors afterwards waited on the Hon. Mr. Fisher, who promised to bring the matter to the attention of the goverument. The board of directors considered a number of resolutions which will be submitted to full convention probably on Tuesday.

WHEAT FROM SPIRIT RIVER.

Displayed in the office of the board of trade are samples of wheat and oats grown within twenty-five miles of the 56th parallel of latitude in Northern Alberta. These samples are irrefutable evidence of the fact expressed in the legislature by Mr. Fletcher Bredin, member for Athabasca, that if there were transportation facilities, Alberta would not need to go outside of the province for seed grain. The samples are almost perfect specimens. They are of Red Fife and Alberta Red wheat and of Irish White oats. The grain was grown on the farm of W. S. O. English and H. E. Calkin, located on the Spirit river, fifteen miles south of Dunvegan and 500 miles northwest from Edmonton by the road.

Mr. English, who is at present in the city to secure supplies, has been in the north country for 10 years. He left Edmonton during the Klondike rush in the spring of 1898. He never reached the gold fields, but remained in the Spirit river country, being joined a few years later by his present partner, H. E. Calkin, who is the justice of the peace in the district, and who, in that capacity took the statement of Fred J. Trumper, who is now in Kamloops awaiting trial for the murder of Geo. W. Coleman. Mr. English is the postmaster at Spirit river, which is a settlement boasting both Roman Catholic and Anglican church missions.

Mr. English describes the Spirit river country as a prairie country with here and there wooded bluffs of an acre or two in area. There are many quarter sections to be had in the district, which are entirely free from brush. The topography of the country differs materially to the park land in the district around Edmonton in that it is more nearly a prairie country. Spirit river is 60 miles southwest from Peace River Crossing.

Messrs. English and Calkin have two half sections of land on the river. Their property extends for a mile along the river front. A settlement survey of the land along the river was made last summer, and patents will be issued to the settlers who squatted there more than four years ago.

Mr. English was 19 days on the journey between Spirit River and Edmonton. He drove two teams. He expects his partner down this week. The winter trail from the north is not a difficult one. When there is as little snow as this winter the Athabasca river makes an excellent road.

There was no summer frost in the north country last summer, and all the grain ripened. The samples of oats and wheat brought down by Mr. English show wheat stocks of 4 feet 7 inches and oat stocks of over 5 feet. The spring wheat was sown on April 30, which was exactly four weeks later than it was sown in 1906. The fall wheat which was sown in July 21, was harvested on August 12. The oats were sown on May 1 and cut on August 20. The oats from 30 acres yielded over 2,500 bushels.

Mr. English says there will be a decided shortage in fur this year. There are no rabbits, and consequently no food for the fur-bearing animals. The wolves are numerous and Mr. English is a strong advocate of Mr. T. A. Brick's, member for Peace River in the legislature, effort to secure the revival of an old ordinance permitting the use of poison in the destruction of the wolves. Mr. English has a herd of forty horses. During the last few years he has lost twenty head through the ravages of the wolves.

LLOYDMINSTER SEED FAIR.

Bulletin Special.

Lloydminster, Sask., Feb. 4.—The annual seed fair held here today was a great success. The hall was crowded with farmers from surrounding districts. There were 48 entries. Some wheat graded 99 per cent and oats 83 and showed no frost. Messrs. McFadden and Quigleg, the government judges gave excellent lectures.

The following were the prizes:

Wheat—1 A. H. Bibbley, 2 J. D. McKerchaw, 3 T. Ormston.

Oats—1 G. Steer, 2 C. H. Barrett, 3 Sutton Brothers.

Barley—1 J. Amond, 2 T. C. Thomas, 3 R. G. Williams.

Flax—1 A. Barrett.

Potatoes: White—1 A. Rackham, 2 Bowden Bros., 3 C. E. Thomas.

Potatoes: Red—1 C. E. Thomas, 2 W. G. Foof, 3 S. Rackman.

ADBERTA SEED FAIRS.

Very successful seed fairs have recently been held in different southern Alberta points. The entries have been numerous and the contests keen and the quality of the grain shown has been to a large extent satisfactory. Much interest in these fairs is being manifested by farmers at all points.

The number of exhibits at the Cardston seed fair was not as large as usual. There were, however, some very good samples of wheat and oats displayed. The judging was done on the first day of the fair by W. C. McKillican.

The Magrath Agricultural Society held its third annual seed fair recently. The exhibits were judged by W. C. McKillican of the Dominion seed branch, who pronounced them quite superior to the exhibits at the fairs of the two previous years.

The first annual seed fair of the Raymond Agricultural Society was quite successful. Great interest was taken, 43 exhibits being entered in the competition. Jas. Murray, of Brandon, was judge.

FUTURE OF LIVE STOCK.

Ottawa, Feb. 2—The national convention of the Live Stock Associations assembled today. An interesting paper was read by R. G. Mathews, of McLeod, Alberta, on the future of the live stock and ranching industry in the prairie provinces. Robert Sinton, Regina, commented during the session on the theory advanced that with the advance of mixed farming and consequent inroads into the ranching country, there still would be more cattle raised and the product become more finished.

RATES FOR ONTARIO MILLERS.

Toronto, Feb. 5—C. B. Watts, secretary of the Dominion Millers' association, with Messrs. Geo. E. Goldie, Ayr; E. V. Hillson, Tillsonburg, and H. L. Rice, St. Mary's, members of the freight committee in Toronto, have returned from Montreal, where they were in consultation with the Grand Trunk railway regarding putting into effect an export rate on flour, based on the all-rail milling in transit rate from Fort William to North Bay on Manitoba wheat. It was a very difficult question to deal with, and it was found necessary to make concessions on both sides, and the members of the deputation are well pleased with the manner in which the Grand Trunk attempted to meet their wishes so as to give the mills on that road a better chance to compete with those situated on the main line, and eastern division of the Canadian Pacific railway.

Both the Grand Trunk and the Canadian Pacific will issue new tariffs as soon as the interstate commerce commission will allow them to do so, making the export rate via Portland, Boston and St. John 1 1-2c per 100 pounds over the present milling in transit tariff to Montreal, and 2 1-2c per 100 pounds to Halifax. This will place the Ontario millers in a better position to secure a portion of the export trade which has heretofore been largely handled by the mills on the Canadian Pacific railway, which had the advantage of the lower export rates.

LIVE STOCK SHIPMENTS.

H. C. McMullen, of Calgary, live stock agent of the C.P.R., was in the city recenlty en route to the Dominion live stock convention at Ottawa. Mr. McMullen, who is the best authority on live stock maters in the west, supplied some interesting facts about the traffic and the prospects for the present year. He said:

"Live stock shipments for the year 1907 from the territory, Moose Jaw west, including Alberta, have fallen off greatly as compared with the year 1906. The decrease is most apparent in cattle shipments, although sheep and horses show an alarming falling off. Hogs have almost held their own. The figures are as follows:

1906—	
Horses	19,549
Cattle	114,651
Sheep	37,024
Hogs	30,099

"Of the cattle shipments 74,900 went out for export. The figures for 1907 are:

Horses	11,382
Cattle	80,043
Sheep	28,573
Hogs	29,588

"These show a decrease in the first of 8,167; in the second of 34,608; third, 28,451; fourth, 511.

SATURDAY'S GRAIN MARKET.

Winnipeg, Feb. 1.—After the break in the American markets yesterday it was astonishing that the Liverpool cables came practically unchanged, having failed to respond to the bearish movement on this side. The strength in Liverpool caused a decided firmness to the wheat markets which made a spurt upwards at opening, but they fell away again shortly after the opening and it certainly looked as if the toboggan sliding would continue. In fact at one time prices had fallen below the close of yesterday, but when the session was over the market, which has varying features, was leaning to the side of the bulls. The volume of business done was very large.

The May option in Winnipeg which declined 3¾ cents yesterday, opened at the same figure, but this was the lowest of the day, whereas the highest price was 1.09⅝ or 1¼ higher. July opened very strong, being ¼ higher and closed ⅞ higher.

The world's shipments are estimated by Broomhall to amount to 10,400,000 bushels, of which quantity Europe will take about 9,200,000 bushels. The shipments last week were 48,000 bushels in excess of this amount, while a year ago the total equalled 9,126,000 bushels. The Australian shipments for the week were very light. The total of wheat only amounting to 320,000 bushels against 1,408,000 last week and 528,000 bushels last year.

Winnipeg options: Wheat—February opened 1.04¾, closed 1.05; May opened 1.08¾, closed 1.09¾; July opened 1.11¼, closed 1.11⅞.

Oats—February closed 48; May opened 54, closed 52⅞.

Winnipeg cash prices: No. 1 hard, 1.06; No. 1 Northern, 1.05; No. 2 Northern, 1.02; No. 3 Northern, 96; No. 4, 89; No. 5, 78; No. 6, 63¾; No. 1 feed, 48⅜; No. 2 feed, 43. Oats—No. 2 white, 48; No. 3 white, 45.

American options: Chicago—May opened 98¼, closed 95¾; July opened 93, closed 93⅛; September opened 90⅝, closed 90⅜. Minneapolis—May opened 1.05¾, closed 1.04¾; July opened 1.05⅝, closed 1.04¾.

MONDAY'S WHEAT MARKETS.

Winnipeg, February 3.—Wheat opened decidedly bullish this morning, being higher on the advance in Liverpool, but the market was nervous and was dull and featureless. The bulls seemed to have slightly the better of the argument, and though it had declined somewhat during the session wheat always recovered, closing about teh same at Saturday, with a fair amount of bulsenss have been transacted. Wheat inspected for two days amounted to 158 cars, as against one car a year ago, while for the week there was an increase of 879 cars, or an average increase of over 146 cars per day. The world's shipments for the week, which amounted to 11,312,000 was a slight increase over last week. There was a fair demand for all low grades of wheat.

Options: Winnipeg Wheat—February open 1.05¾, close 1.05⅞; May open 1.10, close 1.09½; July open 1.12, close 1.12. Oats—February open 47¾, close 48; May open 52⅜, close 52⅞.

Cash wheat—No. 1 Hard, 1.06¼; No. 1 Northern, 1.05¼; No. 2 Northern, 1.02¼; No. 3 Northern, 96¾; No. 4 wheat, 89; No. 5, 787¼; No. 6, 64; feed No. 1, 49; No. 2 feed, 44. Oats—No. 2 white, 48; No. 3 white, 46½; rejected, 37¾. Barley—No. 3, 56; No. 4, 53. Flax—1.08.

American options: Chicago—May open 96⅛, close 96; July open 93¼, close 92¾; September open 90⅞, close 90¾. Minneapolis—May open 1.05, close 1.04¾; July open 1.05, close 1.04½.

TUESDAY'S GRAIN MARKETS.

Winnipeg, Man., Feb. 4.—On quiet cables, wheat opened steady, but slightly lower than yesterday. Later in the day, Liverpool strengthened up which caused firmness in the markets. On this wheat rapidly recovered as the morning wore on and strengthened so much that by the close the market had developed into a strongly bullish one, closing about 1½ cent higher with a large volume of business transacted. The principal feature was the heavy covering by shorts. Shorts in oats became very uneasy today, and in their efforts to cover, short lines ran the market up on themselves about five cents higher than the previous close with offerings extremely light all day and very few of good milling oats are coming forward. Demand for oats is picking up and there is no desire on the part of the holders to part with their property even at present prices. Crop conditions in world generally are very good, the outlook in most countries being favorable. From Minneapolis it is reported that the stock in the country elevators in the States is not over eight to ten million bushels as against more than thirty million bushels a year ago while the farmers' deliveries are practically nothing. During the first months of the year the number of cars inspected showed a remarkable increase over last year, the increase being 2,667 bushels over January of last year. Yesterday 16 cars were reported, as against twenty last year.

WEDNESDAY'S GRAIN MARKETS.

Winnipeg, Man., Feb. 5.—With the cables opening higher this morning, wheat opened strong and the increased strength of the Liverpool market at the close caused by heavy buying by Odessan interests, the market on this side became very bullish, selling at one time at 1½ cents above the previous close. At the opening, buying was very heavy and the bulge came with so much ease that it scared the pit shorts into covering. The moment the bulge stopped they tried to resell but found the pit bare of buying orders and the decline, was as rapid as the advance, the market being very quiet at the finish.

The wheat situation everywhere is steadying. Just at the close Crosby wired from Chicago that every trader in the pit who had any wheat there had thrown, and every one that was not short is getting short.

The latest estimates regarding exportable surplus of wheat from Argentine are placed by Broomhall at 144,000,000 bushels. It is thought by him that shipments from there will be very heavy during the months of February and March. The estimate is 4,000,000 bushels short of the official estimate made last November.

Winnipeg options: Winnipeg options were fairly active, having a decidedly bullish feeling at the opening, but in sympathy with the American markets eased off at the close, being slightly higher than Tuesday's close. Though the demand for oats was strong the holders would not let go and prices again went up four cents, being an advance of nearly ten cents for two days.

Cash Wheat.

Winnipeg cash prices—No. 1 hard, 1.08; No. 1 Northern, 1.07; No. 2 Northern, 1.04; No. 3 Northern, 98; No. 4 wheat, 92; No. 5, 81; No. 6, 66½; feed No. 1, 54½; feed No. 2, 46; rejected 1, No. 1 Northern, 1.00.

Oats—No. 2 white, 56⅞; No. 3 white, 55; rejected, 38. Barley—No. 3, 56; No. 4, 54. Flax—1.08⅜.

Winnipeg options—February opened 1.07½, closed 1.07; May opened 1.11, closed 1.11¼; July opened 1.13¼, closed 1.13½. Oats—February opened 54, closed 56⅝; May opened 59¾, closed 62.

American options: Chicago—May wheat opened 97¾, closed 97¼; July opened 94¼, closed 93⅜; September opened 91, closed 91. Minneapolis—May opened 1.06¼, closed 1.06; July, opened 1.06¾, closed 1.05⅞.

WEDNESDAY'S GRAIN MARKETS.

Winnipeg, Feb. 5.—The wheat markets became very strong today, advancing 1 to 1½ cents over yesterday's close, but they turned downwards before the close and lost practically all of the advance. Liverpool opened ⅝ to ¾ higher and closed 1¼ to 1⅜ higher, which, of course, gave the initial strength to the American markets. The United States markets sold off again under the pressure of short selling and taking of profits and closed at ⅛ under to ¼ over yesterday's close. The Winnipeg market followed the other markets in advancing and declining, and futures closed ⅞ higher on May, but ⅜ lower on July. Cash wheat is firm and ⅗ to 1 cent over yesterday with demand good. To-day's prices are: No. 1 Northern, 1.07; No. 2 Northern, 1.04; No. 3 Northern, 98; No. 4 wheat, 92; No. 5, 81; No. 6, 66½; feed wheat, 50¾; feed No. 2, 46. Futures closed: February 1.07, May 1.11¼, July 1.13⅜. Oats very strong and 3 to 4 cents higher on contract grades; No. 2 white, 56; No. 3 white, 55; rejected, 38½. Barley unchanged. Flax—No. 1 Northwestern, 1.08½.

THURSDAY'S GRAIN MARKETS.

Winnipeg, Feb. 6.—The wheat markets have been nervous today. Liverpool opened ⅞ to ⅝ lower and closed 1⅛ to 1¼ lower. The American markets opened ½ to ⅝ lower, then advanced to about yesterday's closing prices. Afterwards they fluctuated up and down within ¾ and ultimately closed unchanged to ¼ lower than yesterday. The Winnipeg market advanced nearly one cent, but declined with the weakness in the U.S. market, and, firming at the close, closing ½ higher than yesterday. While the markets have been nervous the day's news regarding export business, cash demand and movement, also crop advices point to a stronger tone. To-day's Winnipeg prices are: No. 1 Northern, 1.07¾; No. 2 Northern, 1.04¼; No. 3 Northern, 98¾; No. 4 wheat, 92¾; No. 5, 81½; No. 6, 66¾; feed wheat, 51; No. 2 feed, 46. Futures closed: February 1.07¾, May 1.11⅜, July 1.13¾. Oats strong—No. 1 and 2 white, nominally unchanged; rejected, 40. Barley—½ lower. Flax—No. 1 Northwestern, 1.08.

CHICAGO LIVE STOCK.

Chicago, Feb. 4.—Live mutton trade is anywhere from steady to 10 cents higher. Light lambs are in good request. The moderate supply is partly attributed to the storm and partly to the subsidence of liquidation. Light receipts in cattle today imparted a much better tone to the market. The supply was only 24,000, which was much less than the trade expected. Buyers seemed disappointed and were out early trying to get orders filled. Most cattle sold 10 cents higher and 15 cents better than the close of the last week. The demand favored light weights again. Cows and heifers sold readily and the market was 10 cents and 15 cents higher than last week's quotations. Even canners found a little more favor. Bull prices were strong and demand for feeders fully up to normal.

CHICAGO LIVE STOCK.

Chicago, Feb. 5.—In the sheep house today there was little doing. Lambs were quoted steady and sheep were 15 cents lower than Monday. The run was badly stalled out on the road owing to the storm and the market dragged all through the day. When the market opened in the morning there were 1,000 cars back and cattle buyers were not inclined to take hold till more of the supply comes in. Business was rather slow, but the prices were practically steady in comparison with yesterday. The demand is fairly strong from shippers to eastern markets and exporters were also buying freely. Good steers of all weights were popular, but the common kinds were neglected and sold slowly. Receipts were close to 20,000. Cows and heifers sold readily on steady to strong basis, though the supply was quite large. Calves were steady. There was no quotable change noticed in the feeder market.

EDMONTON MARKETS.

(Elevator Prices.)

Wheat.	
No 1 Northern	95c.
No. 2 Northern	90c.
No. 3 Northern	85c.

BABY'S OWN TABLETS A LITTLE LIFE SAVER.

Baby's Own Tablets have saved many a precious little life. There is no other medicine for children so safe and sure in its effects. The Tablets cure stomach and bowel troubles, teething troubles, destroy worms, break up colds and prevent deadly croup. And you have the guarantee of a government analyist that this medicine does not contain a particle of opiate or narcotic. Mrs. J. Laroque, Log Valley, Sask., says: "I am a great believer in Baby's Own Tablets. I have used them on many occasions and know of no medicine equal to them in curing the common ailments of babies and young children." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Spent Eighteen Dollars

"Gentlemen,—I have pleasure in stating that I have used $18.00 worth of Psychine, and as a result was cured of very serious throat and lung trouble.

My case was a most difficult one, and the doctors had practically said that I could not get well. I tried Psychine, and it did me so much good that I continued its use until I had taken $18.00 worth, with the result that I am now a new man physically. I have gained thirty-five pounds.

"It is with the greatest confidence that I recommend Psychine to all who are afflicted with throat or lung trouble.

Yours truly, C. A. PINKHAM.

Scotstown, Que., Sept., '07.

This man speaks from experience. Psychine cures all throat, chest, lung and stomach troubles and gives renewed strength and vitality to run-down people. At all druggists, 50c and $1.00, or Dr. T. A. Slocum, Limited, Toronto.

PORTUGAL'S KING ASSASSINATED

Together With Crown Prince Louis—Nation on Verge of Revolution.

Lisbon, Feb. 2—King Charles, of Portugal, and Crown Prince Louis were assassinated and the king's second son, Emanuel, wounded by revolutionists late Saturday afternoon. Three of the assassins were instantly shot down on the spot by soldiers and one was captured and committed suicide in prison. A volley from the carbines of the conspirators sent the king and the crown prince to death.

The royal party were returning from Villa Vicosa, the country estate where they had been sojourning. The carriage had just passed through the gates of the city.

Owing to the strict military censorship, it is impossible to obtain details. Premier Franco appears to be in charge of the situation, and mounted troops are stationed everywhere.

The royal carriage was at the corner of Prado De Commercio and Rue De Arsenal, when the assassins suddenly sprang towards the carriage and levelling the carbines which they had concealed upon them, fired, mortally wounding the king and the crown prince, and slightly wounding Prince Emanuel.

The queen bravely sprang to her feet in the carriage and tried to shield the crown prince with her own body but it was too late. The king fell back at the first shot, and at the same moment, the crown prince rose and sank back dead. Prince Emanuel was hit in the lower jaw and one arm. The carriage guard recovered from the amazement, and whirled and fired on the regicides. The king and crown prince were hastily conveyed to the marine arsenal nearby. The king died on the arrival there, and the crown prince expired shortly afterwards with three bullet wounds in the chest and head.

Assassins Were Killed.

Lisbon, Feb. 2—The government issued the following statement: "The king, queen and crown prince were in the first carriage. Prince Emanuel with the officers of the royal household, were in the second. In front of the Prado De Commercio, a man armed with a carbine suddenly broke through the front row of the crowd and shot the king. The distracted queen tried to shield the crown prince who was bravely defending himself with a walking stick against the other men. Suddenly more shots were heard and the prince fell wounded. The queen, shouting for help, bent over the prince, receiving the last kiss from the prince, who immediately expired. All three perpetrators of the crime were killed by the mob and the police."

Lisbon too Hot for Him.

Lisbon, Feb. 2—It is announced that Jose V. Alpoim, a prominent opponent of Premier Franco, who was under surveillance, has left Lisbon for Salamanca.

Nation in Revolt.

Madrid, Feb. 2—Badajoz, correspondent of El Paris, declares Portugal is in full revolution and the position of Premier Franco is said to be precarious.

Nation is Staggered.

Lisbon, Feb. 2—The assassination of King Charles and the crown prince here in the streets today has created consternation bordering on anarchy. Troops are patrolling every avenue and hundreds of arrests have been made. The populace is apparently stupefied by the tragedy which has no parallel in history. The shutters are up in all the shops and places of business. Railway and street car services are suspended. Everywhere are the police hunting suspects. The plot was so entirely unsuspected and was the most successfully ordered affair of the kind on record. The assassination was committed in broad daylight and the shock has staggered the nation.

The Republican party have apparently been prostrated by the catastrophe, and its leaders are assuring the ministers of their entire ignorance of the plot. It was undoubtedly the work of the anarchists and appears to have been planned from Barcelona and Geneva.

Recognize Assassin.

Lisbon, Feb. 2—Late tonight it was announced that one of the assassins was recognized as Manueo Bueola, sergeant of the Seventh Cavalary and instructor in an elemental school. He is about thirty years of age. He was for several years a private tutor. His dead fellow conspirators are supposed to be Portuguese, but the police profess not to know them. The entire army and navy have sworn alegiance. Most significant of all King Manuel immediately confirmed the dictatorial power which was vested in Premier Franco.

Prince Emanuel Made King.

Lisbon, Feb. 2—Under the title of Emanuel II, Prince Emanuel Maria Phillippe Charles Ammaco, was proclaimed king of Portugal today. He succeed his father, Carlos, his eldest brother Louis being killed at the same time. Early Sunday morning a hasty council was called together and the members proceeded at once to the royal palace,
