Are Your Collars Giving Out?

Nothing so quickly ruins the best linen collars you can buy as acids and cheap soap. True, they eat the dirt right out of the linen—but they eat the linen out, too!
By using the best soap and avoiding chemicals of any kind, collars done up at our laundry have a better finish and last longer.

The rebuilt building on the south side of Main street, about opposite Fort Howe, reflects credit upon the enterprise of Phillip Grannan, the stove dealer. Mr. Grannan will have his store and home in this structure after the spring, or before.

WORK ON NEW WHARF HAS ALREADY BEGUN.

Contract Signed Saturday, But Work Began Week Ago

Contractor D. C. Clarke is Confident of Having the New Berths Completed Within the Time Specified.

The contract for the new wharf was signed and delivered on Saturday and D. C. Clark, who was awarded the contract to build the wharf for $145,337, has already made a good start.

When seen on Saturday afternoon, Mr. Clark was in a happy mood. He had taken advantage of the fine weather since last Monday when the first piece of timber was laid and had a good week's work in before the contract was signed. He has contracted for about all the lumber he will require and can get plenty of good workmen and, as he said to the Star on Saturday, "Give me good weather and the work will get along all right."

EPWORTH LEAGUE IN CONVENTION TODAY.

The Epworth League Societies of the Methodist church in St. John district met in session at 2.30 o'clock this afternoon. The meeting is being held in Portland Methodist church with Rev. C. W. Hamilton presiding.

The conference is divided into a number of circuits of which St. John is one of the largest and most important but until this year it seemed impossible to hold a district convention. Rev. Mr. Hamilton was this year ably assisted by all the churches interested and the result is most encouraging. Not only the city but Silver Falls and Fairville are represented at today's meeting.

The chief speakers are Rev. Dr. Crews, of Toronto, who is chief superintendent of young people's work in the Methodist churches of Canada and Rev. Dr. Stephenson, head of the forward movement and mission work in the Dominion, also with headquarters at Toronto.

IT MAKES NIGHT HIDEOUS.

If the dog poisoner, who was so dreadfully effective some time ago in his indiscriminate operations, would visit the region of Victora street, Indiantown, and cause the removal of a large dog who makes nights hideous, he would run the risk of being presented with a generous purse. Last night from 10 o'clock until nearly midnight this canine howled and bayed in a large field back of thirty large dwelling houses, keeping children and adults in a state of restlessness, and adding to the discomfort of a number of invalids. The owner of the brute will be haled into the court the next time the dog is allowed to disturb the community, to answer the charge of harboring a public nuisance. For several months this dog has been bothering the people.

CALL FOR REV. A. B. COHOE.

The reverend gentleman also received calls from two different churches, while on his vacation in the west.

J. N. SUTHERLAND PRESENTS CITY WITH PAINTING.

At the regular monthly meeting of the common council this afternoon considerable business in connection with the water works extension to Loch Lomond will be discussed and the meeting taken all in all promises to be a lively one, or at the least a very interesting one.

This is the first meeting in years that the evening newspapers have been unable in advance to secure copies of the correspondence to be submitted. At a recent meeting of the general committee it was decided that in future communications and reports should not be given to the press in advance, and the brakes were applied today, the mayor and the common clerk positively refusing to make any communications public.

At this afternoon's meeting his worship will accept on behalf of the city a handsome oil painting from the brush of J. N. Sutherland. The scene is Market Square as it is at present, and in his letter Mr. Sutherland asks that the picture be hung in the mayor's office, so that in years to come there will be an authentic picture of what the square looked like in 1905. Mr. Sutherland has been invited to attend the council meeting this afternoon to receive the city's thanks for his generous gift.

MORE N. B. BOYS HOME FROM SOUTH AFRICA.

John Ryan, of Quispamsis and V. A. Schofield, of Fairville, members of the South African Constabulary who are home on six months' furlough have been warmly greeted by old friends. Both men seem in the pink of condition and admit that while the work is hard they are well treated and perfectly ready to go back if they are called upon to do so. Both served with the Mounted Rifles and after coming home enlisted with the Constabulary for three years or five if necessary. Their three years will expire before their furlough is up so that they hardly expect to go back.

Mr. Ryan and his companion sailed from Port Elizabeth direct to Montreal on the steamer Bellville of the Elder-Dempster Line. Trooper Ryan was appointed a shoeing smith shortly after his arrival in South Africa while Mr. Schofield has been doing city police duty. The work, the men say, is very similar to that required of the North West Mounted Police.

WITH ADVERTISERS.

J. W. Calhoun has taken over the store formerly occupied by Reverdy Steeves at 457 Main street, where bargains can be had in fall footwear.

Tooth Hints!

"When ought we to go to the dentist?"

Many think it unnecessary to devote particular attention to the teeth until the appearance of the mouth is affected by damaged, decayed or broken teeth. Others give their teeth no attention till pain compels them.

The stupidity and short-sightedness of either policy is evident.

Every one who thinks a moment on the subject knows that we canont masticate our food satisfactorily if one or more of the teeth are tender, inflamed, decayed or otherwise out of working order; and that if this be the case the mouth requires immediate attention.

HEADACHES!

No doubt there are other causes for headaches than fatigue of the eye muscles, but when so many cases respond with such quickness to treatment based on this hypothesis it is advisable that all sufferers should try spectacles or eye glasses if defects that are remediable with glasses can be found.
