scarcely of food for cattle is gradually subsiding in the continuance of unusually mild and beautiful weather. While above all these things the whole country has escaped these ravages of the fierce and fatal cholera—the angel of the Lord has saved us—while thousands have fallen on the right hand and upon the left, he has stood between the living and the dead and the plague is stayed. There were many contrite hearts and fervent prayers upon the day when the Country pleaded with the most high for mercy. May God save us on the day of Thanksgiving from any thing akin to the reproach of the enquiry, "Were there not Ten cleansed but where are the Nine?"—*Halifax Church Times.*

We understand that the Rev. Mr. Stavely leaves this morning for the United States, on a mission connected with the erection of the proposed new Church in this City, for his congregation to worship in, and that he will be absent some weeks. We trust he will meet with much success. The Rev. Mr. Lawson will officiate in Mr. Stavely's Church during his absence.—*Newbrunswicker.*

MASONIC FUNERAL CEREMONY.—The New York Masons turned out in great strength at Gen. Worth's interment, and we find the following account of their ceremonies at the grave in the report of the services:

The Masonic Grand Lodge of Saint John then surrounded the remains, and Mr. Henry Atwood, Grand Master, addressed the brethren moralizing upon the lesson of death before them. He then threw a masonic apron upon the coffin, and then a handful of earth, and lastly, a sprig of myrtle, when all the brethren imitated him, and a shower of sprigs fell on the coffin. All then gave the parting farewell by folding their hands across their breasts in token of faith and brotherly love, then raising them to heaven, the source of hope, and to express their sorrow, they let them fall upon their thighs, with the exclamation of "Alas! our brother!"

QUEBEC, Nov. 30.

THE SEASON.—Winter has fairly set in. On Tuesday night, at 10 o'clock, the ground was whitened with snow; on Wednesday it was clear and frosty; but in the afternoon there were two or three light snow showers; on Thursday morning at nine o'clock the thermometer marked 20°; carioles were partially in use, fur caps were put on—winter was acknowledged. Last night about 10, it was quite fresh and we feared a thaw; however it appears some more snow has fallen during the night, and the thermometer is a degree or two below the freezing point. The navigation between this port and Montreal may probably remain open until the 10th of next month.—*Morning Chronicle.*

The Hamilton *Spectator* says—if Brother Jonathan cannot annex the Province of Canada to his territory just now, he is in a fair way of annexing the British steamers which touch at his inland ports. During the past week the "Chief Justice," "Emerald," and "London" were seized for an infraction of the revenue laws, and the "Canada" has for some months been in the possession of the United States authorities.—*Ib.*

INDIAN DISTURBANCES.—We regret to learn that the Indians, in taking possession of Mica Bay, killed two of the miners; but Mr. Bonner gives us no further particulars. From the tenor of the telegraphic despatch, we think it probable Mr. Bonner will remain at the Sault Ste. Marie till the troops arrive. Great pains have been taken to excite the Indians against the Mining Companies, but it is well known that two or three desperate men, who act as their leaders, are the main cause of all the present troubles.—*Ib.*

SOUTH CAROLINA.—Governor Seabrooke, of South Carolina, in his message to the State Legislature, approves of the plan of a Southern Convention in case Congress passes the Wilmot proviso, and recommends that he be empowered to convene the Legislature in such case, or to call a convention of the people. He also advises the re-organization of the military, and an appropriation of $50,000 for the purchase of arms and ammunition. *Nov. 8*, submits a plan for winding up the affairs of the Bank of the State, against which Baring, Brothers & Co., of London, have formally protested.

Severe regulations have been enacted by the government of Havana, for the regulation of passports. All persons sojourning for any length of time in the island of Cuba, must be provided with passports, and obtain a license for permission to remain in the island.

SWEDEN, *Stockholm*, Oct. 26.—*Navigation Laws.*—On and after 1st January, next year, British vessels will be treated in Swedish ports in the same manner as native vessels in respect to tonnage, port dues, and all other charges. All goods that may be legally imported in Swedish vessels, may also be imported in British ships, and all goods legally exported may also be carried in British vessels. In both cases, on the same terms, as if imported or exported in Swedish vessels.

Colonel Chatterton, tory and protectionist, has been returned for Cork by a majority of 293 over Mr. M'Carthy, a repealer and free-trader.

VERY LIKE APATHY!!—We copy the following from a late Boston Journal:

CANADA.—"It is stated in military circles in Montreal, that advices by the last steamer are to the effect, that England intends keeping the Canadas, and will not give them up without a struggle. Four regiments, it is said, are under orders for Canada, and also that a Military Governor is to relieve Lord Elgin."

Our own impression is that the annexation fever has entirely abated. Indeed, the great bulk of the sensible people of Canada have *always* been of opinion that the excitement in favour of annexation would end in smoke. Hence, thousands and tens of thousands, have been influenced against signing anti-annexation addresses, deeming the affair wholly beneath contempt, and requiring no serious disavowal of participation in it. If it were solemnly proclaimed by half dozen newspapers, that the moon was made of green cheese, would it be incumbent upon *sane* editors to deny the allegation? Would silence on the *momentous* subject, be equivalent to an admission of the "great fact"? ED. CHRON.
