HARRISTON IS HUMMING.

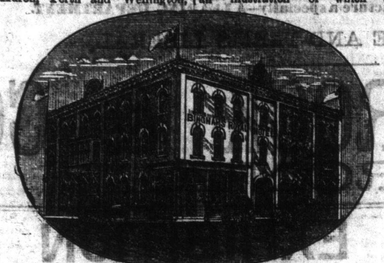
A THRIVING TOWN IN THE PROSPEROUS COUNTY OF WELLINGTON.

A Place That is Being Rapidly Built Up by Manufacturers and Business Men—The Keystone of Four Great Counties—What the World Saw During a Recent Visit.

Harriston! Did you ever visit that bustling little town up in the County of Wellington? It has 2500 of a population and is going to the front rapidly. Harriston, in its relation to the North Country, occupies a somewhat similar position to Rome of old. As did all roads lead to Rome, so do now all roads up North lead to Harriston.

The town forms a keystone to the counties of Bruce, Huron, Perth and Wellington, and it was only the other day that the four millers of these four great counties, recognizing Harriston as a central locality, chose it as a meeting place at which forty of them were in attendance to transact important business in connection with their calling. Both the Grand Trunk and the Canadian Pacific Railways run through Harriston, and it can be reached with speed and comfort several times a day from the many thriving towns and villages that abound in the country surrounding Harriston. Such enterprising towns as Mount Forest, Southampton, Wiarton, Palmerston, Listowel, Kincardine, Elora, Fergus, Galt, Teeswater, Orangeville, and the Royal City of Guelph all look towards Harriston.

The town is somewhat noted for its manufacturing enterprises, while its main street is made up of several solid blocks of brick (red and white alternate) business houses. Its hotel accommodation is ample, and what is more desirable, comfortable. Bingham's Royal Hotel, an illustration of which accompanies



BINGHAM'S ROYAL HOTEL.

this sketch, is probably the finest hostlery north of Toronto. The main street is wide, and is moreover, well looked after by the town fathers, giving it quite a metropolitan appearance, especially when the visitor beholds the welcome watering cart making its cooling trips over the dusty surface. If The World is not a false prophet there is a great future in store for Harriston and its inhabitants.

When The World was up there the other day it took a look through the principal manufacturing establishments and business places of the town, and here is something of what was to be seen.

The principal industry of the town is Leighton & Dowling's furniture factory, where from 40 to 50 hands are employed. This firm turns out furniture of every description, and their products find their way to many of the centres of trade in the Dominion.

Messrs. A. Irvine & Co. manufacture sleigh, principally for the Manitoba market, but their well known runners have also a big sale in Ontario. They employ about 40 men, and use the very latest machinery and plant. The capacity of the works is from 300 to 400 sleighs a month.

Mr. George Grey is the mayor of the town and runs an extensive sash, door and blind factory, and also manufactures cigar boxes on a large scale. He employs 20 to 30 men.

Mr. J. McQuibban runs a large flour mill.

Dr. Harvey is the leading practitioner of the town, and is a citizen than all Harristonians are proud of. Always looking to the welfare of the people and their interests, he is popular with everyone. The Doctor has so many good qualities of hand and heart that it would be hard to enumerate them. He is treasurer of the High School Board, an expert cricketer, an active participant in politics, and above all a good physician. The Doctor's next best virtue is his fervent admiration of The World and its principles.

What would Harriston be without Mr. J. B. Bingham, the energetic proprietor of the Royal Hotel? Mr. Bingham always keeps his weather eye open when the interests of the town are at stake, and anything that will attract the attention of the outside world to Harriston and its people finds Mr. Bingham head and heels into the movement. His hotel is, as before stated, a model of convenience and comfort to its patrons, especially to commercial men. Mr. Bingham is ably assisted in the management of his house by his amiable wife.

Mr. J. Collison also runs one of Harriston's principal hotels. His house is much patronized by the traveling public. Mr. Collison is a genial host.

The Queen's Hotel will take good care of you if you are a visitor to Harriston.

Mr. J. Slemmon is always reliable and prompt with his express wagons.

Mr. A. Robertson is a competent blacksmith.

Brockest & Wilson are successful stove and tinware men.

Mr. T. Small supplies the town with savory steaks and juicy roasts of beef.

Mr. A. G. Campbell is a rising young barrister, a graduate of Toronto University.

Mr. Grey is the courteous manager of the Standard Bank's branch.

Mr. J. Rutherford runs the livery stable in connection with the Royal Hotel, and always has a good horse and carriage for his patrons.

Mr. G. Fulton has an extensive sawmill and does a buzzing business, and employs 20 to 30 men.

Mr. A. Yuel is the boss baker of the town.

Mr. J. Eere makes brick by the millions, hence the many handsome stores and residences that have been built from the product of his extensive yards.

Mr. C. H. Ward has a commodious livery stable and runs the union bus to the depots. He is never missing when the locomotive hoots.

Mr. J. Waddell presides over a model grocery store, as the well-kept shelves in his establishment indicate.

Mr. R. Blackwell makes harness and saddles for the fleet-footed roadsters of Harriston and vicinity.

Mr. J. A. Henry lays just claim to be counted among Harriston's successful business men. He is in the grocery business. 'Nuf said.

Mr. J. Smith is in the boot and shoe line, doing an extensive trade.

Mr. T. Small knows more about the butcher business than any one in the County of Wellington, as his sales well show.

Mr. F. S. Dunn is the station master for the C. P. R., and is a friend to the traveling public—when they go by his line.

Mr. J. C. Harris is the man that keeps the Railroad Hotel, and many tired and hungry travelers have found succour in his establishment.

Mr. J. Livingston is the bailiff of the town, but he never has much to do, for the people in Harriston always pay their debts.

Mr. J. Miller's grocery store is one of the main stores of Harriston. Mr. Miller has a keen eye to business.

Mr. J. Burr is the jeweler par-excellence of these parts. His specialty is wedding rings. This is a hint to the young men and maidens fair of Minto.

If Harriston is a successful business town, its spiritual welfare is well looked after. There are several fine churches in the town, notably Knox and Guthrie (both Presbyterian), the Wesleyan Methodist, the English Church and the Baptist.

Editor Robinson of The Tribune and his paper are among the mainstays of the town. Mr. Robinson is the Reeve, and the Warden of the County of Wellington.

COMMERCIAL MISCELLANY.

The extension of the Gulf, Colorado and Santa Fe Railway from Ballinger has been completed to San Angelo, and construction trains are now running to that point.

It is stated that the Canadian Pacific is trying to secure an independent outlet from Montreal and the East to Chicago, by building new extensions and negotiating for control of existing lines.

The imports of grain into the United Kingdom last week were 2,416,000 bushels of wheat and 1,104,000 bushels of corn. The flour imported was 99,000 barrels.

The amount of wheat and flour now in transit to Europe, together with the visible supply of wheat in the United States and Canada, is equivalent to 47,450,952 bushels of wheat, as compared with 48,860,750 at this time last year.

The eastbound shipments from Chicago last week were 40,953 tons, comparing with 46,562 tons for the previous week.

The Russian Government has authorized the railway companies to make advances to farmers on the security of wheat stored at railway stations for future transportation and sale. The effect of this will be to enable the farmer to hold his wheat more firmly.

Grain and Produce.

On call at the Board of Trade to-day 10,000 bushels of No. 1 red winter wheat was offered at $1.15, 95 cents bid; 10,000 bushels of No. 2 red winter at $1.10; no bids.

THE STREET MARKET.

The receipts of grain on the street to-day were small, and prices steady. One load of new fall wheat sold at 97c; spring is nominal at 93c to 95c, and goose at 78c. About 400 bushels of oats sold at 35c to 37c. Barley is purely nominal. Peas quoted at 65c to 70c. Hay in moderate supply and steady, fifteen loads selling at $19 to $22 a ton. Straw is scarce and firm at $12 to $14 a ton. Dressed hogs sold at $8.75 to $9. Beef, $3 to $4 for forequarters and $5 to $6 for hindquarters. Mutton, $7 to $7.50. Lamb, $10 to $10.50. Veal, $7 to $9.

THE RETAIL MARKET.

At the St. Lawrence market to-day the receipts were small and prices steady. Quotations: Beef, sirloin, 18c to 15c; round steak, 10c to 12c. Mutton, legs, 12½c; chops, 15c. Lamb, hindquarters, 50c; forequarters, 10c. Veal, best cuts, 12c; inferior, 5c to 8c. Pork chops, 12c. Bacon, pound rolls, 12c to 13c; large rolls, 18c to 20c. Inferior, 12c. Lard, 12c. Cheese, 10c to 14c. Bacon, 10c to 15c. Eggs, 15c to 16c. Spring chickens, 50c to 70c. Spring ducks, 40c to 50c each. Ducks, 60c to 70c. Potatoes, bag, 50c to 60c. Apples, bushel, $1.25 to $1.50. Onions, per dozen, 30c. Onions, per dozen, 15c to 20c. Celery, 25c to 30c per dozen bunches. Turnips, bag, 75c to $1. Carrots, dozen, 20c to 25c. Cabbages, dozen, 30c to 50c. Cauliflower, per head, 10c to 25c. Corn, 10c per dozen. Tomatoes, per bushel, 60c to 75. Watermelons, 30c to 50c. Vegetable marrow, 10c each. Beans, 30 to 35c a peck.

FRUITS AND VEGETABLES.

There was an active day's trading in fruits at the wharves and Union Station. American peaches was the feature; a large quantity were disposed of at $1.50 a bushel. Canadian peaches sold at 75 cents and $1. Plums sold at 75 cents a basket; pears at 10 cents and $1; common pears at 40 and 50 cents a basket and $3 and $3.5 a barrel; tomatoes at 20 and 40 cents a basket, and grapes at 6 and 7 cents a pound.

To-day's wheat market looked very much as if someone was "under" the August and September options. The fact that October wheat is 2 cents under September is more than enough to tempt anyone to corner Chicago wheat, as made a great deal last May, but the Hutchins failed and so did the Lincoln bank of Cincinnati, so it takes money to corner Chicago wheat.

Liverpool—Spot, wheat and corn rather easier.

LIVERPOOL MARKETS.

Liverpool cables wheat quiet to-day with demand fair and holders offering moderately. Corn steady with fair demand. Quotations: spring wheat, 7s 8d to 7s 10d; red winter, 7s 9d and 7s 10 d; No. 1 Cal., 8s 2d and 8s 3d; corn, 4s 11d; peas, 6s 4d; pork, 73s 9d; lard, 42s 9d; cheese, 46s.

Accident on Saturday.

An upset occurred on Saturday on King-st. by which a lady and gentleman were both seriously injured. The buggy was considerably damaged. The harness on the contrary, the gray train well. It is merely supposition on our part that the latter came from the Canadian Harness Company.

High License in Minnesota.

ST. PAUL, Aug. 30.—The Pioneer Press reviews the first year of high license in Minnesota, and finds that the system has proved all its friends claimed for it. There are in the State only 1,597 saloons now, as against 2,606 when the law went into effect. A decrease in the consumption of liquor is shown in nearly every county. Low groceries have been closed up and the liquor business is under better police supervision. Under the old system the average cost of a license was about $300, and the total approximate income was about $850,000. Under high license the average cost of permission to sell is about $600, and the total approximate income is about $1,200,000.

Canadian Pacific Railway Changes.

NIPISSING, Aug. 30.—Important changes on the C. P. R. in the Nipissing district are said to be under consideration. The announcements of the alleged changes are rather conjectural. One is that the Ottawa and Montreal section will be sold and the official headquarters removed to North Bay. The other indicates that Sudbury will become, on the completion of the Claremont branch, the official headquarters of the Eastern Division of the C. P. R., and that the chief divisional points east of the Sault will be Carleton Place, Mattawa and Sudbury. These are the hopes that cheer the hearts of Nipissing real estate speculators.

France's Reply to Italy.

PARIS, Aug. 30.—The reply of the French government to the note of Signor Crispi, the Italian Prime Minister, announcing Italy's seizure of Massowah, is published. It says that France desires to avoid entering upon irritating polemics and does not care to prolong the debate, but it is impossible to avoid recalling the fact that a French consulate, sanctioned by the Porte, was established at Massowah 25 years before the date of the Italian occupation.

Sweet Flowers.

The fairest buds are often the first to wither, and the ravages of disease make havoc with the beauty, as well as the strength and happiness of the fair sex. The prevalent disorders among American women are those of a most distressing description. These "weaknesses," as they are euphemistically termed, insidiously sap the health, and the nation becomes pale and emaciated, the appetite grows delicate and feeble, the loins weaken as the attacks increase in severity, and is in despair. There is relief for all such sufferers in Dr. Pierce's world-famed *Favorite Prescription*, which *cures* all "female complaints," its use is followed by cessation of the "dragging-down" pains, return of appetite, and in due course, vigorous health.

Ferdinand Sticks.

LONDON, Aug. 30.—A despatch from Sofia says Prince Ferdinand, in a recent interview, declared that he would never leave Bulgaria of his own accord. He refused to believe that his position would ever be threatened by the Bulgarians themselves, and he fully believed that his mission would be fulfilled and Bulgaria be made tranquil and prosperous.

First Vice-President—James M. Smith, Boston.

Second Vice-President—Edward Trevett, Utica.

Treasurer—Daniel Batchelor, Utica.

Secretary—T. W. Yeaston, Washington.

Corresponding Secretary—S. Wansifleth, Hamilton, Ont.

Chaplain—Rev. James Stone, Philadelphia.

First member of Executive Committee—W. H. Barram, London, Ont.

Second member of Executive Committee—G. W. Longstaff, of Bridgeport, Conn.

The nominees were declared elected by acclamation. The subject as to time of meeting, whether annually, so now, or every two years, was taken up and excited general discussion. A vote resulted in retaining the present course.

Taken Destitute from Service.

CANSO, N. S., Aug. 30.—The schooner Margaret Mathers, of Gloucester, arrived at Canso, N. S., the other day from Grand Banks, having on board Robert Campbell, Francis Mitchell, Albert Parker and Cyrus Decosse, belonging to the schooner Abbie Fleming of Gloucester, who got astray and after 36 hours in dories were picked up. They were in a very destitute condition and had to be supplied with clothing by the United States consular agent at Canso.

Windsor's Civic Holiday.

WINDSOR, Aug. 30.—Yesterday was observed as civic holiday in Windsor. The laying of the corner-stone of the new high school building was the event of the day and was witnessed by a large crowd. The stone was laid by Judge Horne. After the ceremony a banquet was held at which fully 200 representative men of the town and county were present.

If attacked with cholera or summer complaint of any kind send at once for a bottle of Dr. J. D. Kellogg's Dysentery Cordial and use it according to directions. It acts with wonderful rapidity in subduing that dreadful disease that weakens the strongest man and that destroys the young and delicate. Those who have used this choice medicine say it acts promptly, and never fails to effect a thorough cure.

Strange Appearance of Anacondas.

From The Philadelphia Record.

Two immense anacondas have been discovered on the barkentine Emma R. Smith, now discharging a cargo of phosphate rock at South Camden, N. J. Each measures over thirteen feet, and they are said to be not only the largest but the finest specimens ever seen. It is not known how the snakes came on board, but they are supposed to have reached the vessel's rigging from dense overhanging foliage while she was lying in the harbor of Para, Brazil, which is conceded to be the home of the anaconda and the boa constrictor. The serpents have thus far shown no disposition to interfere with the crew or those working on the vessel, and often remain in a comatose state for a week at a time. When they become hungry plenty of food has to be quickly procured—a live chicken or a sheep being esteemed the greatest luxury by them. The most remarkable occurrence has been the sudden disappearance of the army of rats which had multiplied in the vessel's hold for several years past. Several times during the passage the snakes were given the liberty to investigate the between decks and the lower hold in search of the rodents, and on each occasion they were so liberally rewarded that they were unable to move. Their stomachs had been stretched to the fullest tension. Many visitors, among them persons interested in science, have visited the vessel to see the curiosities.

A WIDE DIFFERENCE between medicines which affect merely the symptoms of disease and those which affect its cause. The first are used as palliatives, the second, if of genuine efficacy, produce a radical cure. To the latter class belongs Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. Thoroughness of operation is its special attribute in all cases of Biliousness, Costiveness, Indigestion, Kidney complaints, and Female Weakness.

Bereavement in the Bernhardt Family.

An English reporter, interviewing Madame Bernhardt, asked: "Where are the young lions, Madame?" "Ah, the dear things," she said. "I had to leave them in Paris. The poor little tiger, you know, is dead. I grieved for him much, more than my friends did, I am afraid." "And the famous coffin with the satin linings; have you that still?" "Oh, yes; that is in Paris, too." "Is it true, madame, that you used to sleep in it?" "Well, yes; I did sleep in it, but not always. It was this way. My sister was very ill. I wanted to be with her at night, and not being able to share her bed, I had the coffin carried into her room and slept there. I keep the coffin still, but I have come to the conclusion that I will not be buried in it. I will be cremated."

A $1000 Excursion.

An excursion from Paris to Central Asia seems a novelty. Such a novelty, however, is announced by the International Sleeping Car Company. A train will leave on the 11th prox. for Odessa via Vienna and Kief. From Odessa the travellers go by water to the Crimea, and after five days' halt cross the Black Sea and sail to Tiflis. From the latter place Baku will be reached and the Caspian crossed to Samarkand, where the party will arrive on Sept. 30. The return journey via Merv and Bokhara, will embrace Trebizonde and Constantinople, bringing the excursionists back to Paris by Oct. 30. Total cost, including food, $1000.

Stumbled on an Important Discovery.

From The Indianapolis News.

W. T. Radcliff of Olney, Ill., has found the weed that makes "milk sickness." The accidental breaking of the weed revealed a reminiscent smell to Mr. R., who had once suffered from that mysterious disease, and put him upon consulting a Dr. N. B. Allen, whose scientific proclivity and proficiency became at once interested, and he is now discussing the matter with the Illinois State Board of Health. Mr. Radcliff tested the weed on several head of his milk stock and all were affected and died like the milk-sick cattle of pioneer times. The State authorities are going to take the matter up and settle the claims of the weed, as, it is said, the State has a large standing reward ready for the fortunate discoverer of the cause of the once famous and dreaded malady. The thickening of settlement and clearing away of primeval growths have so far affected the disorder that it is rarely heard of, and there is not much rational need of a reward for any discovery affecting it.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

DO YOU WISH TO PROVIDE

For yourself the assurance that you will leave behind you, when you die, an estate which cannot be taken from those you love by any circumstances however unfortunate?

For your wife freedom from any of those distressing experiences which come to the destitute?

For your children the means to continue their education and an unbroken home for them should you be cut off before they are able to care for themselves?

For a debt, thus the honor of your good name may survive you, and your just creditor receive his own?

For your business, that it may not be sacrificed—as so often has been the case—for want of ready money to meet the demands that come in the process of forced liquidation of the estate by strangers?

The North American Life Ass. Co.,

One of our best home companies, will furnish to you this provision by its commercial policy, more securely, more equitably and for less money than can be done in any other way.
