MONTREAL AND BUFFALO LINE.

ARRIVAL OF THE MAIL STEAMER "HIBERNIA."

SEVEN DAYS LATER FROM EUROPE.

HALIFAX, July 11.

The Hibernia arrived at 6 o'clock this morning. Flour dull, and prices unchanged. Corn lower (3s 6d.) and Yellow 2s. lower. Limited sales at an advance of 2s. per cwt. Tallow dull at 47s. for fine. In all other descriptions the market has a declining tendency. Ashes, in demand. Lard, fair demand, and rates steady.

Advices from the Manufacturing Districts of England satisfactory.

The Atlantic arrived at Liverpool at 4 o'clock, and took the whole town by surprise!!! Her news published, from which it appears that, in the last days of her voyage, she accomplished a better distance than any other steamer. On the 28th, with a head wind, she ran 284 miles in the 24 hours. She was advertised to sail on the 10th instant.

Money Market steady. Consols closed at 95¾ for account. Bell & Sons, of London, report activity in American securities. U. S. Bonds, of '81, 103 @ 104; U. S. Sixes, of '67, of '81, 103 @ 104; U. S. Sixes, of '68, 107 @ 108; N. Y. City and U. S. Sixes, of '56, 95 @ 97; Sixes, of '60, 97 @ 98; Ohio Sixes, of '56, 95 @ 97; of '60, 99 @ 100. In Canadian Five Per Cents nothing doing. Canadian Debentures, of '74, an extensive business has been done at 99.

The weather continues extremely favorable throughout England.

At Nottingham the lace trade has improved. There is greater confidence is expressed as to the future prospects. The Cotton Market closed quiet but firm. Sales 65,000 bales, of which speculators took 22,000, and exporters 11,000.

At Havre the Cotton Market was active up to Friday, at an advance of 2 to 2½ francs on last week's sales.

TORONTO, July 11—7½, P.M.

Last night the House went into Committee on the Post Office Bill. The Government were against the proposition to give the Post Master General £300 per annum, Mr. Smith's (Durham) amendment of £750 being carried by the casting vote of the Chairman. The highest salary to inferior officers was fixed at no more than £100. An amendment was carried to give the Crown the right to receive their exchange papers free. No other parts of the Bill were passed without amendment.

Tonight a proposition, moved by Mr. Armstrong, for Morning Meetings of the House, was carried by a majority of 12.

The Bill, by Mr. Badgley, for the Codification of Criminal Laws, was read *pro forma* to-day, to be dropped for the Session—in order to allow time for inquiry.

WASHINGTON, July 11.

The Messages and Orders of President Fillmore appear officially in the *National Intelligencer*.

The Union announces the resignation of the entire Cabinet, immediately after the death of the President, and also intimates that Mr. Webster has been invited to the State Department, but will not assume the duty of that Department until the compromise scheme in the Senate has been voted upon.

Gen. J. M. Clayton was seriously indisposed yesterday.

Most extensive arrangements are making here by the numerous Military and Civil associations of Washington and its vicinity, to unite in the funeral solemnities in honor of the Chief Magistrate, which will be the most imposing ever seen in the Capital. The funeral of Zachary Taylor will take place on Saturday, the 13th instant, at 4 o'clock.

PITTSBURG, July 11.

Several cases of Cholera are reported in our city, supposed to have been brought up the river in boats.

HALIFAX, July 11.

The Steamship *Viceroy* is still on the rocks in Chedabucto. She has sprung a fresh leak forward. We have little hopes of saving her.

THE FIRST POETRY WRITTEN IN AMERICA.—The following facts were taken from the archives of the Historical Society, Boston:

The first poetic effusion ever produced on American soil, originated in a circumstance which was thus humorously explained by one of the full bloods of Tippecanoe, (or, as we call them) the Chippewas. Those who have witnessed the performances of the Indians in the far west in our city, must recollect the cradle and the mode in which the Indian brings up their children. Soon after our forefathers landed at Plymouth, some of the people went out into a field where Indian women were gathering strawberries, and observed several cradles hung upon the boughs of trees with the infants therein upon them—a novel and curious sight to our Forefathers. A gentle breeze sprang up, and moved the cradles to and fro. A young man, one of the party, pealed off a piece of bark and wrote the following, which has been repeated thousands of times by thousands of American matrons, very few of whom ever knew or cared for its origin:

"Bye-baby bunting, hang on the tree top;
When the wind blows the cradle will rock;
When the bough breaks the cradle will fall,
And down will come cradle and baby and all."

TURKISH BLACK SALVE.

UNDER THE PATRONAGE OF THE HONORABLE THE EAST INDIA COMPANY.

THIS SALVE, prepared from the original Receipt procured from a celebrated Turkish Hakim, (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established Agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly entitles them.—The contracted limits of an advertisement necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, such statements of cures as have or may occur, and for the present will content themselves with merely enumerating some of the complaints for which it has been used with the most complete success—Such as Swollen Glands, Broken Breasts, White Swellings, Whitlows, Scalds from Steamboat explosions, or other causes, Burns, Fever Sores, Scrofulous Sores, Sore Nipples, Carbuncles, Scald Head, Gun-shot Wounds, Bruises, Boils, Frostbites, Wens, Chilblains, Ulcerated and Common Sore, Throats, and Bonions. If used in time, it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, Pains in the Back, Rheumatism, Gout, Pains, in the Chest, Palpitation of the Heart, Complaints in the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toothache. In fact, it is impossible to enumerate half the complaints that have been cured by the application of this Salve. It is very portable—will keep in any climate, and requires little or no care in its application, as it may be spread with a knife on any substance, such as chamois leather, linen, or brown paper.

Sold in Montreal by S. J. LYMAN & Co, Place d'Armes; SAVAGE & Co., Notre Dame Street; URQUHART & Co, Great St. James Street; W. LYMAN & Co, St. Paul Street, and in all the principal Cities in Canada.

URQUHART'S
CONCENTRATED COMPOUND DECOCTION,
OR FLUID EXTRACT OF
JAMAICA SARSAPARILLA,
As ordered by the
Pharmacopœa of London College of Physicians.
PREPARED BY
ALEXANDER URQUHART,
AT THE
Medical Hall, 7, Great St. James' Street.

THIS Valuable Preparation has been before the public for many years, during which time it has been extensively used, and has proved eminently successful in all those diseases in which this medicine is prescribed. It is considered by Physicians of the present day the very best Medicine for re-establishing the constitution after it has undergone the effects of Mercury. In Chronic Rheumatism, the most marked effects have been produced by the use of Sarsaparilla; and its continued use is often attended with improvement of appetite and digestion, increase of strength, the production of a more healthy state of mind, and the palliation, or, in some cases, complete disappearance of various morbid symptoms, as Eruptions, Ulcerations, pains of a Rheumatic character, &c., &c.

Drs. M'Culloch, Campbell, McDowell, and Fraser, who have extensively used it in their practice, have kindly favored the Proprietor with the following Certificates:—

ALEX. URQUHART, Esq.:—DEAR SIR,—I have much pleasure in bearing testimony to the faithful manner in which you prepare your Fluid Extract of the Compound Decoction of Sarsaparilla. This I am enabled to do, on account of several of my patients having derived the greatest benefit from its use.

For Constitutional Syphilis and Chronic Rheumatism, I have prescribed it with the most marked effects. I can, therefore, without the least hesitation, recommend your preparation as one possessing all the Medicinal qualities of the Compound Decoction of Sarsaparilla, while it is at the same time more palatable, and less apt to derange the Stomach.

Your most obedient servant,
W. FRASER, M.D.,
Lecturer of Medical Jurisprudence, McGill College.
Montreal, 9th February, 1847.

MONTREAL, February 10th, 1847.

I beg to certify, that I have employed very extensively, the "Fluid Extract of Sarsaparilla," made by Mr. URQUHART, in all those diseases in which that Medicine is usually prescribed, and that I have found it a most valuable preparation. I can, moreover, state, from personal investigation, that the Proprietor employs none but the purest ingredients, and bestows the greatest care and attention upon the mode of preparing this remedy.

ROBERT MCDOWELL, M. D.,
Lecturer Institutes of Medicine, McGill College,
Physician to the Montreal General Hospital.

Mr. URQUHART's Sarsaparilla is the only preparation of this valuable Medicine that I can, with entire confidence, recommend to my patients. M. MCCULLOCH, M.D.
Montreal, 10th February, 1847.

DEAR SIR,—I have frequently prescribed your Fluid Extract of Sarsaparilla, and I have no hesitation in recommending it as a very elegant and convenient form for administering that Medicine. Yours, very truly,
GEO. W. CAMPBELL.

ELEGANT AND INVALUABLE
ARTICLES FOR THE TOILET.

BOGLE'S HYPERION FLUID,
FOR RESTORING PRESERVING, AND EMBELLISHING THE HAIR.

The following Certificate, from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many similar ones.

BOSTON, Feb. 15, 1847.

Mr. WM. BOGLE,—Sir,—The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and clears the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patented compounds.

WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in place and curl, and the skin or parting of the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,
A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the *Amole*, or "soap plant," of California, an article used by the natives of that country for washing; and thus the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, calculated either for the dressing case of the "rough and ready" traveller, or the toilet of the most fastidious connoisseur.

BALDNESS CURED.

The following is from Sumner F. Barrett, Saratoga Street, East Boston:

EAST BOSTON, Feb. 8, 1847.

Mr. William Bogle,—Dear Sir: For several years past, my wife has been troubled with baldness on the Crown of the head, about six or seven inches in circumference.—After repeated failures of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, for the purpose of restoring her lost hair, and I am happy to say that its effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; had she used it oftener and more regular, I am convinced that the growth of the hair would have been accelerated. I am, Sir, yours respectfully, SUMNER F. BARRETT.

BOGLE'S HEBEAIONA,
FOR REFRESHING AND BEAUTIFYING THE COMPLEXION,

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate, and blooming. It is equally efficacious in protecting the skin from the hot suns of summer, and freezing blasts of winter, and is the most fragrant and delicious article to be found at the toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet invented.

WILLIAM BOGLE, Proprietor,
277, Washington St., Boston.

DEAFNESS.

Use Dr. McNAIR'S ACOUSTIC OIL for the cure of Deafness. Also all those disagreeable noises, like the buzzing of insects, falling of water, whizzing of steam, which are symptoms of approaching Deafness. Many persons who have been deaf for ten, fifteen, or twenty years, and were subject to use ear trumpets, have, after using one or two bottles, thrown aside these trumpets, being made perfectly well. It has cured cases of ten, fifteen, and even thirty years standing of deafness.

OVERWHELMING TESTIMONIES.

OVER HALF A MILLION OF TESTIMONIES have been received by the proprietors of
M'ALLISTER'S ALL-HEALING OINTMENT,

From Physicians the most skilful and celebrated, from Counsellors learned in the Law, from Judges of celebrity on the Bench, from Ministers of the Gospel, whose undeviating integrity have made them shining lights in the path of Truth, from enlightened Professors, from acute Merchants, and from those of every station, name and degree among mankind—all of whom, without one dissenting objection, pronounce this Ointment to be INFALLIBLE in the cure of Tumors, Ulcers, Sores, Burns, Tetter, Piles, Scrofula, Erysipelas, Chilblains, Scald Head, Sore Eyes, Quinsy, Croup, Rheumatism, Broken Breast, Ague in the Face, Corns, &c. It completely restores the INSENSIBLE PERSPIRATION, and by this means opens those avenues by which nature intended to expel the morbid matter of the body—thus is the system cleansed, the blood purified, and the health restored.

It has power to cause all external Sores, Scrofulous Humors, Skin Diseases, and Poisonous Wounds, to discharge their putrid matter, and then heal them, and will certainly be found to be efficient and certain.

LET THE SKEPTICAL READ THIS.

From Edward Brinley, Esq., No. 3, South side Faneuil Hall, Boston.

BOSTON, Jan. 19, 1847.

Dear Sir: Having for some time purchased of your agent the article of hair restorative prepared by you, and having found it the most valuable preparation for the hair, in my estimation, ever offered the Public, I feel it a pleasure, as well as a duty, to offer you my humble testimonial as to its worth, begging you to make such use of it as may seem best to you.

The public has long been deluded and imposed upon, and still are, by thousands of nostrums, promising a benefit to the hair, whilst they have proved but an injury. But the article you have produced, I feel a pleasure in saying, is the most agreeable preparation for dressing the hair, and bringing it in a healthy, vigorous condition, that I have ever known. And wishing you that full success in its sale which its merits so fully and pre-eminently entitle it to, I am, dear sir, very respectfully, your obedient servant,

EDWARD BRINLEY.

Latest from Toronto.

The following opinion of the beneficial effects of the Plantagenet Water, is from the last number of the *British American Medical and Physical Journal*, edited by Dr. Hall. The Doctor recommends the employment of this water to the special attention of the Profession, both in Canada and the United States. Nothing further is required to ensure their general use by all classes of our citizens:—

Remedial nostra, or matters professing to be such, and depending for their employment upon the extensive use of the circulation of laudatory advertisements, and the amount of money consequently paid by their proprietors for these, have at no time, since we undertook the management of a Journal intended solely for the advancement of medical science, found favor in our eyes. *Nor shall they.* We have always adhered to the old maxim, "Ne sutor ultra crepidam." We have always thought, and are daily more convinced of the truthfulness and correctness of our opinion, that all the world was never intended to practice the medical art, inasmuch as all men—age, and all women too—are unable to make themselves masters of the science of medicine; and it must be admitted, without a travil, that without a foundation there can be no superstructure. Not that we would dare to question the qualifications of all to become, perhaps, even scientific practitioners of the Healing Art—far from it; but seeing that different gifts have been assigned to different individuals, from the foundation of our world, and that one class is necessarily dependent upon another for its comfort and support—the rich and poor, the educated and illiterate, the professor of science and the simple mechanic—so we hold, that the public should be directed, under God, in the maintenance and preservation of health, by men who have given, and continue to give, the best energies of their mind to this particular study. It is under impressions of this kind that we direct the attention of our professional brethren to the advertisement of Mr. Lariboisière on the cover. We have, in common with our medical friends in this city, taken occasion, from time to time, to prescribe, in fitting cases, the Plantagenet Water, derived from a spring on that gentleman's property, in the Ottawa District. Commendatory certificates from medical men, perfectly well known to us, have been published in the daily newspapers of this city; our own has appeared among the number. But we now hesitate not to recommend the employment of this Water to the special attention of the profession both in Canada and the United States. Mr. Hunt's analysis, as to its constituents, furnishes at once the key of its applicability and usefulness. We are informed that the proprietor has made arrangements for supplying, during the forthcoming season, the Plantagenet Water throughout our own Province and the United States, by the establishment of necessary depots and the appointment of proper agents.

These waters are to be had only from the Agent, A. MANN, at the Depot 4, *Place d'Armes*, also from Dr. Picault; Mr. Mercier, Quebec Hotel; Mr. Beriau, St. Paul Street; and at the principal Hotels in the City.

A fresh supply of the above Waters have just been received, and for sale by the above Agents.

CONNELL'S
MAGICAL PAIN EXTRACTOR!!!
THE WORLD'S WONDER—PRONOUNCED SO BY ALL WHO HAVE EVER USED IT.

White Swellings, Inflammation, Pain in the Back, Weak Limbs, Tender or Sore feet, and all Scrofulous Sores, are speedily and permanently cured by Connell's "Magical Pain Extractor;" Affections of the Lungs, Ague in the Face, Breast, Tic Doloureaux, Chronic Sore Eyes, Blistered Surfaces, &c. It is equally beneficial in all kinds of Inflammatory Diseases, such as Sore Nipples and Eyes, Sprains, Rheumatism, White Swelling and Ulcers, Bruises, Burns, Chilblains, Erysipelas, Bloes, &c., —will quickly be relieved by the application of this salve. This remarkable sensitive possesses many virtues never found in any other salve. It has the most perfect power over all pains by fire, positively allaying the suffering almost immediately upon its application. If any disbelieve the statements, we would earnestly invite them to call and examine the numerous unsolicited certificates of remarkable cures wrought by this salve. It has for months past been sold upon the following liberal terms, to wit:—If the cure was not perfectly satisfied, and even delighted with its effects, and furthermore, if it did not fully answer our recommendations, their money was returned immediately at their request. On these terms this absolute heal-all is now sold; and we simply ask if the public can demand anything more reasonable? Kind parents, keep it constantly on hand; in cases of accident by fire, life may be lost without it; but by its use, all burns are subject to its control, unless the vitals are destroyed.

☞ CAUTION.—No "Pain Extractor" can be genuine unless you find the signature of Comstock & Co. on the wrapper of each box. Beware of the counterfeit.

3. For Diarrhœa, Indigestion, and Loss of Appetite.
4. For Costiveness in females and males, and Nervous Complaints.
5. For Stomach Affections, Dyspepsia, Piles, Rheumatisms, &c. The great points are, it is not bad to take, never gives pain, and never leaves one costive.

☞ *Dyspepsia and Liver Complaint cured, and all Western and Southern Fevers prevented*, in every case, by the use of Longley's Great Western Indian Panacea, warranted to cure the most severe cases of the above complaints. Loss of Appetite, Bilious Affections, and Indigestion, are permanently cured by its use. The great points are: it is not bad to take; it does not leave the bowels costive, and never gives pain in its operations. This panacea will remove all the bad bile from the stomach, and give tone to the system, and keep off all attacks of malignant fevers. If the stomach is in a healthy state, and the pores of the skin are open, so as to admit of free exhalation from the body, there can be no attack of fever. This office the Panacea will positively perform, and we recommend all to try this article if they wish to secure health during the year. As a family medicine, it is unquestioned for Coughs, Colds, and all Diseases of the Blood, and Kidney and Bowelds Complaints.

TO THE LADIES.

THE GENUINE BALM OF COLUMBIA FOR RESTORING THE HAIR.

"Long hair is a glory to woman," says Paul,
And all feel the truth of the pious quotation;
Preserve it then, ladies—your glory may fall,
Unless you protect it with this preparation.

If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness, it will more than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this balm. Age, state, or condition, appears to be no obstacle whatever; it also causes the hair to flow with which the delicate hair tubes is filled, by which means thousands (whose hair was gray as the Asiatic eagle) have had their hair restored to its natural color by this invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used.—A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalled. It holds three times as much as other misnamed hair restoratives, and is more effectual.

☞ CAUTION.—Never buy it unless you find the name of Comstock & Co., Proprietors, on the wrapper of each bottle, or you are cheated with a counterfeit article.

BRITANNIA LIFE ASSURANCE CO
No. 1, Prince's Street, Bank, London.

Capital, One Million Sterling.

Empowered by Special Act of Parliamen 4 Vict., Cap. 9.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this institution has induced the Directors to REDUCE the RATES originally required in British North America to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits of Life Assurance *at much lower Rates of Premium* than those of any other Assurance Company transacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America, without affecting their interest in their respective Policies.

PETER MORRISON,
Resident Director.
