to have elected your government of Commerce upon this principle, its beneficial effects were immediately felt and acknowledged. Industry felt its reviving influence; Mechanics and artisans found steadier employment and a better recompense.—Some branches of manufacture were established with varying prospects. Commerce—which is always forgetting that its permanent interest is identified with a prosperous and diversified Home Industry—started fully in the general improvement. And from that day to this, there has been no period of seven years so disastrous and discouraging to American labour as that which brought the old Continental Confederation to a close.

IV.—Whenever the advocates of Protection have succeeded to the control of our National Policy, they have uniformly found Industry, Commerce, Manufactures declining, Property unsaleable except at a heavy sacrifice, and the country overwhelmed with Foreign and Internal Debt. Indeed, they have repeatedly been succeeded with power for that very reason, and on the hope that they would inaugurate a radical change in the Tariff. Opponents have differed with them as to the cause of the prevailing distress, but the fact of its existence has not been, because it could not be, disputed. Now how it been, and could it be, disputed that, for some reason or other, the enactment of a Protective Tariff has uniformly been followed by a decided improvement in Business—more Employment, better Wages, and fewer demands for relief or charity?

On the other hand, the opponents of Protection have so often come into power, and have succeeded to cut down the Tariff to accordance with their theories; but they never yet said—they never could say without stultifying themselves—"We seek to reduce the Tariff because it has paralyzed Industry, deprived Labor of employment; sent the Artisan to the public soup-house, and overwhelmed the country with debt." Not one of the Treasury Reports or Congressional efforts for the overthrow of Protection ever even pretended that such was the state of things at the close of a period of Protection.

Men and Brethren! ponder these facts!

HOUSE OF ASSEMBLY.

(Telegraph to the News Room.)

FREDERICTON, Feb. 26.

This morning, Mr. Boyd moved the consideration of his motion for withholding further grants from Sectarian Schools. His motion was met by Mr. End moving the previous question, which latter was carried.

The House was thinned out in the early part of the day from the sitting of several Committees.

The Revenue Bill was taken up at half-past 12 o'clock, and Mr. Boyd's opposition to some of its items has exhibited very small minorities. It was got through by half-past 3 without a single amendment. The House went into Committee on a Bill of Hon. Mr. Ritchie authorising the service of the legal documents of this Province in England. Progress reported. A Parish Bill passed, and the House adjourned.

Married.

On the 19th inst. W. Ford, A. M., Mr. Matthew Broyles, to Miss Margaret Jane McAlee, both of Portland.

On the 24th ult., by the Rev. James Bennet, Mr. Robert Ellison, to Miss Elizabeth Moore, both of this city.

On the 24th ultimo, in St. Mark's Church, St. George, by the Reverend J. McGovern, Douglas Wetmore, Esq., to Miss Jane Russell, both of St. George.

Died.

On Wednesday morning, 8½ o'clock, Mr. Hugh M'Cracken, in the 50th year of his age, formerly of H. M. Customs, St. John.

On Thursday morning the 1st inst., George G. Barber aged 37 years. A native of Gulmelarum, Aberdeenshire, Scotland. Funeral on Saturday at 3 o'clock, P. M., from the residence of Peter Cormack, near the Valley Church.

Marine List.

Chamberlain's Office,

CITY OF SAINT JOHN, February 3, 1855.

SEALED Tenders will be received at this Office until the 1st day of March next, at noon, from parties disposed to loan Money on Debentures to be issued by the Corporation of this City, under the authority of the Act 18th Vic., cap. 4, entitled "An Act to authorise that part of the City of "Saint John called Carleton, to obtain Water "from Spring Lake and other Lakes, and the "Mayor, Aldermen and Commonalty of the said "City to issue Scrip to defray the expenses of so "doing." The sum now required is £5000. The tenders to express the amount which the party tendering may be disposed to loan—the number and value of the Debentures they would like to have, none to be of less value than £25—the rate of interest they require, not exceeding the legal rate, payable semi-annually—and which of the following days they would prefer having the Debentures made payable, viz., 1st May or November, 1862, '67, '70, '74, '75, '77, '79, '81, '82, '84, '86, '87, '88, or 1890.

The sums provided by the above recited Act, for the payment of both Interest and Principal, are, 1st—the receipts accruing from the use of the Waters and Sewers, estimated at over £1500, viz., 800 families at an average rate of £1 a year; steam machinery to the extent of 350 horse power; shipping to a large amount, &c., &c.; 2d—£600 a year from the Carleton Common Lands Revenue, and 3d—should a deficiency at any time occur, an assessment upon the owners of property, real and personal, either or both, as well resident as non-resident.

By order of the Common Council,
THOS. MERRITT, Chamberlain.

The Committee appointed on the 16th January last to take into "consideration the propriety of a separation of that part of the City on the Western side of the Harbour from the Eastern side, and making it a separate Corporation:"

REPORT that they have attended to duty, and in their opinion the separation of the Eastern part of the City from that part on the Western side of the Harbour and making it a distinct Corporation, with all the powers and privileges necessary for their local self government, is desirable, and would tend to the better government and promote the local interest of each, due regard being had to the manner and terms in which such a separation is effected. The principal things considered by your Committee was giving a deep water line for the extension of Wharves on the Western side of the Harbour, which is not only necessary to the inhabitants on that side but requires for the accommodation of Ships resorting to the Port. This they propose to be a line commencing at the South Eastern part of the Beacon bar, thence following the line of lower water as defined on the plan agreed to under the law, until it strikes a projection on the Bar 650 feet to the Northward and Eastward of the Beacon Block; thence in a line North Easterly that will pass 60 feet to the eastward of Adams Wharf and continued on in the same direction until the prolongation of the South side line of Rodney Wharf easterly, intersects it. As a consideration for this addition to the line existing, the Eastern side to reserve and forever retain, the absolute control of the Harbour outside the pier heads on the Western side; to receive for this separate use all income derived from anchorage and all and any other Harbour dues that may from time to time be levied—to have the sole and absolute control of the Ferries, the right of Landings on the Western side and all and every the income that may be derived therefrom, and to establish new ferries as may be required, henceforth and forever. The Lancaster lands to the use and benefit of the Eastern side. The remainder of the Common Lands of Carleton above Rodney Wharf bounded by the water to be confined to the low water line now existing. They would further recommend that Navy Island should be conceded to the Western side provided a fair equivalent can be agreed upon.

The amount of the Public debt secured on the Common Lands on the Western side, not to be in any way effected by a separation but to remain a first charge on the income and on the Lands as now existing. Should this outline of a scheme meet with the approval of the Common Council and the Citizens generally, the details necessary to be embodied in a Bill to carry it into effect, and also for the Government of the new Corporation could be prepared and laid before this Council, as soon as the same can be attended to by the Recorder.

All which is respectfully submitted,

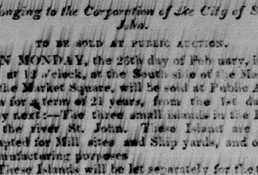
J. RUSSELL SPALDING'S



AND CASTOR OIL

IS decidedly the nicest and best toilet article in the world for the Hair. The ablest chemist who have examined it testify that as an agent for preserving the Hair and promoting its growth it surpasses any other article.

After a long series of experiments, Mr. SPALDING succeeded, by an intricate process, in freeing the Castor Oil used in this preparation from its *peculiar odor and all greasiness*, and in blending it with the ROSEMARY, &c., in such manner as to form the cheapest and best *OIL OR WASH* Ever made, for which all who desire to preserve a good head of Hair until late in life, will be grateful.

The Sale of the Article has been Immense!

And its Success Astonishing—Use it if you wish.
