Athens, Ont.

THE REPORTER

COUNTY NEWS.

INTERESTING LETTERS FROM OUR STAFF OF CORRESPONDENTS.

A Budget of News and Gossip. Personal Intelligence.—A Littl of Everything well Mixed up.

SHEATOWN.

SATURDAY, April 6.—Mr. W. Flood gave a grand sugar party last week. It takes Will to get the sap; he has the maple sap drop in the tap fine.

Mr. Ed Shea and James Keys intend giving a sugar party and dance after lent.

Mr. D. P. Shea leaves for Morrisburg next week.

Mr. John O'Connor, who has been stopping in this town for some time, intends running a grand hotel on the Onion-bed shore this (coming) summer.

FAIRFAX

MONDAY, April 8.—Mr. D. Nunn of Gananoque was here on professional business last week.

Mr. B. Gavin and Jas. Bolger were the guests at Mr. H. Leacock's on Friday last.

Three dried apple toughs left Fairfax on Friday evening for the purpose of trying to charm some of the natives of the sixth, but they met with a very cool reception.

Mr. J. Birch of Frog Hollow has been employed as a farm hand with T. Weart.

Basswood Island, near the Elm locks, is being transformed into a summer house for D. Watson. The improvements will cost $675.

The Gavin Bros. are busy running their new sawing machine.

Mr. Steacy and sister passed through here this morning.

Mr. J. T. Lappen is nursing his spine.

Visitors: J. Hardy, D. Noonan, J. Lakins; also Flash and Bridget Malone.

LYNDHURST.

SATURDAY, April 6.—An immense amount of lumber has been sawn at the three saw mills here this winter.

The roller mill has run steadily all winter to keep up the orders for the ceebrated "White Rose" brand of flour.

C. B. Tallman, our new tinsmith, is doing a rushing business this spring. Quite a few of his old customers from Frankville and Toledo continue to give him their patronage.

Mr. Wm. Chassells, late of Edinburgh, Scotland, who has been employed by Jas. Thompson as cutter and manager of his Tailoring establishment, is giving the best of satisfaction. He has taken a large number of orders for spring suits already.

D. W. Green is getting his carding mill in order for work and has already engaged the most of his hands for the season.

The Riverside House is undergoing its annual spring renovating.

Shiels Bros. will have their millinery opening in a few days.

W. D. Witherell & Son are making preparations to move and enlarge their furniture and undertaking building.

John L. Hanna has opened up a paint shop over A. J. Love's blacksmith shop.

The Lyndhurst agricultural society are getting material on the grounds for extensive improvements to the buildings, pens, fences, &c.

John Roddick is getting out timber for a new flume for his mill.

A. J. Love has the contract for making the wagon to be put on the stage route between Delta and Brockville by Copeland Bros.

The band boys are looking for a teacher and leader for the coming season.

The Editor of the Athens Reporter was in the village on Saturday last and secured a large amount of job work and several new subscribers for the paper.

THURSDAY, April 4.—Lyndhurst cheese factory commenced operations on Monday, April 1st.

Messrs. Austin & Halladay have decided to put up a Butter Factory the coming summer—a long felt want to the farmers of this vicinity.

J. G. Chapman, agent for the celebrated Chicago Windmill, is putting one in operation this week. Parties desiring a windmill would do well to consult John before purchasing elsewhere.

Our tinsmith Mr. F. B. Tallman is kept very busy attending to his many customers.

W. G. Kendrick, while attending a circular saw, had a narrow escape from losing the larger portion of his hand, the saw cutting skin deep across three of his fingers.

There is a petition in circulation getting signers to have the river between this place and Morton dredged out. It needs it badly, the weeds in some places making it almost impassable for a row boat in low water.

Messrs. Young & Charlton have started with their drilling machine, having a number of contracts in Lansdowne village and vicinity.

The month of March over, our local weather prophets were pronouncing that April would bring spring-like weather, but much to our surprise today looks like a day in February. We say, "April Fool."

CHANTRY.

SATURDAY, April 6.—Mrs. R. A. Sheldon has been very ill for five weeks. A complication of diseases seem to be preying upon her system. The chief difficulty is inflammation of a part of the head, which rendered a surgical operation necessary. Although very weak, she is, we hope, recovering. It is needless to add that Mrs. Sheldon and family have the sympathy of the entire neighborhood.

Notwithstanding the low price of the maple product, the sugar-makers are working might and main to keep Bastard to the front in quality and quantity of sugar and syrup.

Mr. P. A. Alford is again able to take charge of the Grand Central cheese factory.

C. Eyre has traded his propellor, James Jefferson, for a side wheeler named Maud Miller. Pacing equines are becoming fashionable.

Mr. C. H. Smith, our genial cheese man, says the Smith & Knapp combination of factories will soon be running full blast, four having started already. He seems to think that we are not only a part of this great banner county, but the very centre of the milk and cheese producing world, he having received over six thousand pounds of milk in one day at Grand Central factory. How is that for fourth day of April? With P. A. Alford as cheesemaker, we are sure of fine product.

WASHBURN'S CORNERS.

MONDAY, April 8.—After 85 days good sleighing spring is making its appearance. Although the ground is nearly covered with snow the wheels are beginning to move.

Sugar making is in full blast, although later than usual, as last year it was all finished and ploughing started by the 12th of April.

Feed seems to be sufficient in the settlement, although an occasional load is changing hands.

The milk wagon started drawing milk to the factory on April 1st.

Welt Earl and his new bride have snugly settled on the Pap Loverin farm, which his father purchased some time ago.

Charles Knapp has moved near Glen Buell on the Peter Whaley farm, and his son-in-law, Steve Darling, moves on his farm.

What has happened to our Lake street correspondent and his fish net?

Maple syrup is selling at 50 cts. per gal. and sugar at 5 cts. per pound, just half of what it brought in '78 under grit rule. So much for the free trade policy of our tory administration, with their boasted protection over the manufacturer and producer. We notice that our present N. P. spouters, with one hand extended towards the farmer and with a countenance as solemn as a grave yard, promise to protect the fruit of his toil from the foreign competition, while with the other hand extended towards the consumer (perhaps the farmer's landlord, who has not reduced the rent), he smilingly tells them he gives them free sugar for their coffee. Strange, isn't it?

Mr. William Steward, who formerly resided in Delta, started from Brockville for England on March 26th, to make his aged father a visit, after an absence of 14 years.

PHILIPSVILLE.

MONDAY, March 8.—The farmers are making sugar when the sap runs.

Thomas Cavanagh and hired man are busy getting away with a large pile of wood at the door. He does not intend to be getting up wood every winter.

Albert Brown is on the sick list.

The roads are in a very bad shape with mud and snow banks.

Walter Haskin is pushing his work to get ready to saw. You should have put in a wheel last summer, Walter.

Our public school is progressing favorably under the able management of Wm. Ackland.

Any one wishing to better themselves in a horse trade will do well to call at Maple-crest.

One of the oldest inhabitants of this village passed away on Friday the fifth inst. in the person of Daniel Phelps, at the advanced age of 84 years. He left four children three sons and one daughter—William and Linneas, living here; Eugene, at Point Edward, and Almira Monroe, living at Neligh, Neb. Mr. Phelps was a member of the Baptist church in this place for nearly seventy years. The funeral sermon was preached in the Baptist church on Sabbath by the Rev. S. Sheldon, pastor.

Visitors: C. A. Wood and wife of Toledo and Eli Wood and wife of Daytown at W. B. Phelps'; Peter Nolan of Hard Scrabble at his brother John's on Toledo st.

SEELEY'S BAY.

SATURDAY, April 6.—Copeland's express team ran away last Tuesday eve doing considerable damage to the waggon and contents. The driver escaped unhurt, he having stopped at Gilt Edge butter factory to leave off some freight when the team started and ran into Gainford's hotel yard. The waggon collided with the gate post, upset, and smashed things generally. The horses escaped with a few scratches.

Alex. Donoghue moved last Tuesday to Joyceville. He will take charge of a cheese factory during the ensuing season.

A. Leadbeater is improving.

Chas. Blackman, sr., moved last Thursday into the house lately occupied by A. Donoghue.

Mrs. C. N. Peer is very ill with pneumonia.

Our new butchers, Haeslip & Sly, will commence business in a few days.

A meeting was held Friday evening in the Gilt Edge cheese and butter factory and was largely attended by the patrons and others. General satisfaction was expressed at the manner in the business had been conducted by the officers in charge. On motion, it was decided to continue making butter until the 15th inst., when the manufacturing of cheese would be commenced.

Joseph Gainford employed two men, R. Gainford and W. H. Ralph, to cut an elm tree on his farm a few days ago that made twenty cords of twenty-two inch stove wood. The tree was over four feet in diameter on the stump. The two men sawed and blocked the tree in two days and a half, which fact shows what two good men with a cross cut saw and axes can accomplish in a short time. The men, while making a cut near the top of the tree, sawed through a hive of bees and secured a large quantity of honey which the bees had stored there.

LOCAL SUMMARY.

ATHENS AND NEIGHBORING LOCALITIES BRIEFLY WRITTEN UP.

Events as Seen by Our Knight of the Pencil.—Local Announcement Boiled Right Down

Smith's Falls has a population of 4250.

Buy the popular D. & A. corset at G. W. Beach's.

Service in the Baptist church will be held on Easter morning at the usual hour.

You can save from 1 to 5 cents a roll by buying your wall paper at H. H. Arnold's.

Mr. Kenneth Addison returned last week from a trip to Chicago and other western cities.

Miss Cameron, who has spent the winter with her brother in Boston, returned to Athens last week.

Mrs. John Dargavel, Brockville, has been in Athens for several days, the guest of Mrs. (Dr.) Harte.

Don't forget to ask for Ferd Rouillon's celebrated kid gloves at G. W. Beach's. Every pair guaranteed.

The art school examinations will be held on April 24th at such places as are appointed by the education department.

H. H. Arnold has just received his third shipment of four thousand yards of that wonderful cotton—regular price 7½c., his price 5c. Have you seen it?

Mr. A. Patterson, of the firm of Lewis & Patterson, Brockville, spent Sunday at the home of his mother, Reid street, Athens.

A feature of the services in the Methodist church on Easter Sunday will be a grand anthem which the choir will sing at the morning service.

The Ladies' Auxiliary to the Brockville General Hospital will meet at the residence of Mrs. D. Fisher, Victoria street, on Wednesday afternoon at 3 o'clock. A full attendance is requested.

As will be seen by reference to adv't on this page, fruit growers are offered an opportunity of acquiring a lot of valuable information. The lecture will be practical and the principles thereof are profitably applicable to the orchard of every farmer in the county.

Spring Cheese.

Mr. J. A. Ruddick of Woodstock, Canada, writes in The Farmer's Advocate of the difficulty of producing a fancy article in the spring, owing to the character of the milk. A great deal of this trouble might, however, be overcome by additional care in handling it, and by modifications which should be introduced into the process of cheese making, in order to produce certain desirable qualities in the cheese.

The cheesemaker, says Mr. Ruddick, finds in the spring that if he would suit the demands of the market, he must make a mild flavored cheese that will cure quickly and be ready for the buyer as early as possible. These requirements of the market being somewhat different from those existing at other seasons of the year, it is obvious that some modification of the process of making it is necessary in order to meet them. It is here that many of our makers fail, owing to a lack of proper understanding of the particular effects that certain changes in the process of making will have on the resulting produce. The careful maker is always on his guard against a surprise by the rapid development of lactid acid in the milk or curd so common at this season. He is also very watchful of the milk as it is received, and the temperature being rather low, objectionable taints or odors are not always easily detected. There are two kinds of taints and odors—first, those that are due directly to the food eaten by the cow, and second, those due to contamination after the milk has been drawn. They may be distinguished, it is said, in the following way: The first, or "feed flavors," are most noticeable immediately after the milk is drawn from the cow, and never get any worse, while the other kind are not present at all at first, but only appear after the germs have had time to grow and develop in the milk.

It is necessary to draw the whey with less acid on the curd than for summer cheese, not because it requires less acid, but on account of the faster rate at which it develops it is necessary to keep it in check to a certain extent in order to secure a result uniform with the summer practice. The ripening of cheese depends very largely upon three things—namely, moisture, temperature, and salt. Moisture is an essential condition for the growth of those ferments which constitute the curing process. A high temperature is also a more favorable condition than a low one, while salt, owing to its antiseptic qualities, has the effect of retarding the curing in proportion to the amount used. The ripening process commences in the vat or sink, and in fact it proceeds very rapidly at this stage on account of the extra moisture in the curd, the high temperature and absence of salt. Since we want a quick curing cheese in the spring we can always secure the same by leaving slightly more moisture in it, using less salt and keeping up the temperature in the curing room. The curd should be allowed to "mature" fully as much, if not more, than at other seasons of the year.

In this way a close, solid, yet "meatty" cheese can be made—a cheese which will break down quickly. Of course it will not take so long for the spring curd to mature, owing to the more rapid development of the process and the absence of that class of fermentation known to cheesemakers as "gas" in the milk at this time of the year.

To sum up, I would say use enough rennet to produce coagulation fit for cutting in 15 to 20 minutes. This will help to retain a little extra moisture. Keep the curd warm—over 90 degrees F.—until time arrives for milling. Use about 1½ to 2 pounds of salt per 1,000 pounds of milk, varying the amount according to the amount of moisture in the curd. Allow the curd to cool down after salting and before putting to press to 80 or 85 degrees F. Keep temperature in curing room about 70 degrees. Be careful and not carry these modifications too far into summer, but gradually make the cheese firmer, increase the salt and lower the temperature in the curing room almost from the start.

Rural public schools close on April 11th and re-open on April 16.

Go to Beach's for wall paper, floor paints, alabastine and kalsomine.

Miss Sutherland, Kingston, was in Athens last week the guest of Mrs. W. G. Parish.

Mrs. Redmond, mother of Mr. Jas. K. Redmond, rounded the 92nd year of her age to-day.

Men's suits for $3.50; boys suits, $1.75, $2.00, and $2.50, at G. W. Beach's.

Five hundred men and boys wanted at H. H. Arnold's to buy new spring hats before Easter. Special prices for this week.

Miss Edith Falkner of North Augusta has returned to Athens and is assisting in the millinery shop of Miss A. Hanna.

Thousands of cases of rheumatism have been cured by Hood's Sarsaparilla. This is abundant reason for belief that it will cure you.

A large number heard with pleasure and profit the address on "Character Building" delivered by Rev. John Grenfell at the meeting of the Epworth League on Tuesday evening.

Rev. J. J. Wright of Lyn will occupy the pulpit of St. Paul's Presbyterian church on Sabbath next, the pastor, Rev. J. J. Cameron taking his appointments on the Lyn circuit.

Prof. Brown, who is described as the "King of Elocutionists," is announced to give one of his popular entertainments in the high school hall on Wednesday evening, April 10th. Admission, 25c.

Tenders are asked for by the post office department for carrying the mails between Athens and Plum Hollow. It is proposed to have a daily mail during the month of May, June, July, August, September and October, and three times per week the balance of the year. The new regulation will not come into effect until the 1st of July, 1895.

Passed With Honors.

The result of the final year examinations at Trinity Medical College shows sixty-seven graduates, six of whom were ladies. We are pleased to note that among the successful appears the name of Mr. C. G. Johnston, of Lansdowne, who graduated with honors.

The Oddfellows.

According to the annual report of the grand secretary of the Independent Order of Oddfellows for the year ending December 31, 1894 there was a net increase in membership for the year of 1,104, within a trifle of the best showing since 1879, and twelve subordinate lodges were instituted. The total membership in good standing is now 21,662. During the year there was paid out in sick benefits and relief $79,555. The total amount paid for current expenses was $75,842, making total disbursements $155,400. The total receipts were $202,515.

Passed at Queen's.

The result of the examinations at Queen's University, Kingston, was posted last week and formed interesting reading for several students from this vicinity. Mr. F. C. Hagar, son of the pastor of the Athens Methodist church, was among the list of successful final year men who passed for M. D. and C. M. Athens high school was creditably represented by former students, Mr. A. W. Bellamy passing successfully in all second-year subjects, and Messrs. A. L. Tinkess, Greenbush; H. H. Elliott, Frankville; and W. N. Condell, Kemptville, standing well to the front in their different classes.

A Grand Entertainment.

The Athens lodge of Oddfellows have arranged to offer to the people of Athens and vicinity a musical treat of rare excellence, such as has never before been equalled in this village. They have contracted with the Canadian Entertainment Bureau, Toronto, to have the "International Entertainers" give a concert here on Thursday, April 18. The company consists of Miss Stevenson, soprano; Mr. C. Ward, violinist; Miss F. M. Ward pianist; and Mr. Sim Fax, Canada's greatest comic vocalist. During last season the "Internationals" entertained in every city and town in Ontario and everywhere met with an enthusiastic reception. The admission has been fixed at 25 and 35c.

A Second John Gilpin.

One of our village medicoe's had a sudden call to visit a patient out in the neighborhood of Plum Hollow last Sunday night. At a late or rather early hour on Monday morning he started for home and it is presumed fell asleep by the way and unconsciously worked over to one end of the seat and leaned heavily against the cover. A drop into a rut brought that side of the buggy down far enough to allow the top iron to catch under the fellow of the wheel, which of course refused to revolve further. The scraping of the wheel on the frozen ground aroused the sleeper who, imagining that the axle had become heated and stuck fast hastily dismounted, and unhitching the horses from the carriage, drew it into the yard of one of the township aldermen, and gathering up the robes, blanket and two heavy saddle-bags mounted the horse's back and started *a la* John Gilpin for the village. When at the Hard Island Guide Board the horse, thinking no doubt of the hearty feed of oats that Uncle Justus had given him a short time before, decided to try and get another and headed on a good sharp trot in that direction. The Doc's hands being encumbered with a grip sack in each, he tried persuasion at first, then angry commands, to turn him on the right trail for the classic village, but it was only after giving him a sharp rap on the side of the head with the grip sack (which demolished half a dozen bottles of valuable medicine) that "Old Dan" yielded and turned his form in the direction of home. All this time the gentle spring shower was trickling down the Doctor's backbone and the mud did a like favor to the outside, and just as the first streak of dawn lit up the eastern horizon the thoroughly exhausted man and beast appeared on the western confines of the corporation. Gathering himself for a mighty effort in order to reach home without being observed, he belabored the poor horse into a sharp trot and slid down a back street to the livery barn, where he threatened "Dell" with dire vengence if he dared to tell that "Reporter feller" of his misbap, and then stole silently to his own domicile and crawled into bed.

A very important amendment in the law relating to toll roads is Mr. Flatt's bill in the Ontario Legislature to reduce toll on toll roads to one cent a mile for one horse vehicles and one cent a mile for each extra horse.

A Scotch Prayer.

The following is said to have been a prayer offered by a disappointed Scotchman shortly after reaching Canada: "O Lord, we thy disobedient children, approach thee this nicht i' the attitude o' prayer (an' likewise o' complaint). When we cam tae Canady we expectit tae fin' a lan' flowin' wi' milk and honey. Instead o' that we fund a place peopled wi' ungodly Irish. Scour them oot, drag them owre the mooth of the bottomless pit, but ye needna let them drop in. Drive them to the uttermost pairts o' Canady; rather mak' them hewers o' wood an' drawers o' water; but, O Lord, ne'er mak' them magistrates members o' parliament nor any kind o' rulers owre the people. An', O Lord, gin ye hae got ony lan' tae giv' awa' gie it tae thine ain peculiar people, the Scotch. An' the glory be a' thine ain. Amen."

GREENBUSH.

MONDAY, April 8.—Mr. Arthur Tinkis returned home on Saturday last from Queen's College, Kingston.

Mr. Morton Sandford of Brockville, with his daughter Victoria, visited relatives here Saturday.

Sugar-making is taking the attention of most of our citizens just now and during these pleasant evenings the merry shouts of the boys can be heard resounding through the woods.

Quite a number from here attended the social at Mr. Clarence Blanchard's on Friday evening last and report having a good time and lots of sugar.

Miss Grace Unsworth of Brockville is the guest of Miss Bertha Blanchard, and Miss M. Gault is visiting Mrs. Norton Olds.

Miss Anna Culbert, of Merrickville, has returned home after an extended visit to friends and relatives here.

Our enterprising blacksmith, Mr. Jas. Hewitt, is giving his shop a new coat of paint.

Miss May Johnson of Irish Creek is the guest of Miss Helen Dixon who recently returned from New York where she was visiting her sister, Mrs. Howard McGrath.

Miss Rose Peterson of Belleville is visiting her aunt, Mrs. John Loverin.

MCINTOSH MILLS.

MONDAY, April 8.—T. Preston and Henry Shotts passed through here en route for Caintown.

Sugar making seems to be the predominant subject of conversation among the people of Frog Hollow.

C. Willcox and F. Andrews, proprietors of the saw mill here, are doing a good lively business.

Mr. D. Andrews and J. Flood's boat shop on slab street has begun business for the spring trade with several orders to fill, the proprietors having given up moving their plant to Fly Creek, as contemplated some time ago.

Mr. George McIntosh arrived home from Harriston last week to spend a few days in town with his many friends.

Mr. John Shea and Allen Kavanagh of Fly Creek reserve passed through here on Tuesday en route for Hodges with a large consignment of rat roofing which they had snared last week.

The pike marsh is opening up, so now Johnny get your gun.

James Watson has secured the contract for the underground sewerage in Frog Hollow.

A Hopper for Feeding 100 Pigeons.

It is a very convenient way to feed pigeons from a hopper. The birds, especially if allowed to fly at large, and thus obtain abundant exercise, do well. Whether it is best the plan is open to question, but it is a plan generally pursued by pigeon-keepers.

A hopper consists of a narrow box, say about a foot wide, with openings in front for the pigeons to feed from. These openings are usually about three inches wide and five or six high, square at the bottom and rounded at the top. The following rough sketch (Fig. 1) will give an idea of the front of the hopper:

The back of the hopper should be considerably higher than the front, so that the top, which is hinged as a lid, will permit

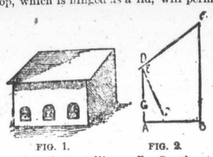

FIG. 1. FIG. 2.

the droppings rolling off. Or the top ridge may be constructed with sharp spikes projecting upward, and thus prevent the birds from roosting upon it.

Inside the box, starting from the front edge, where the bottom of the lid rests, is placed a board of the width of the inside of the box, slanting sufficiently to carry its bottom out two or three inches from the front side of the inner part of the hopper, and terminating within about an inch of the bottom. When it is united in place, the grain runs out beneath its lower edge as rapidly as the pigeons eat the food. The diagram (Fig. 2) will perhaps make this description clearer. A B is the bottom of the hopper, C D the top, hinged at C. A D is the front and G the opening at which the pigeons feed. E F is the slanting board inside the hopper, the grain passing out under F into the space between F and A. The grain is poured into the hopper by lifting the lid C D.

Eighteen inches is a very good height for a hopper. If one is made for a hundred birds it should be long enough to have at least ten or twelve openings, each one at least four inches distant from any other. This would make the dimensions say four or five feet long, twelve inches wide and eighteen inches high.

Mice sometimes get into the grain and give it a flavor which is distasteful to the pigeons. To prevent this, the hopper is sometimes placed on a table in the middle of the loft, the table itself being supported by a single smooth metal leg which prevents the mice from reaching the grain.

It scarcely seems necessary to urge the importance of keeping the hopper filled, but it is a fact that many neglect this, because the supply given will last some days.—Country Gentleman.

Lucky Poor Relations.

Poor relations have rarely had such a windfall as that reported from Bordeaux. It is stated that a merchant in the said town died intestate and without any direct descendants. His fortune, amounting to 22,000,000f., or £880,000 sterling, is accordingly to be divided among a certain number of humble families, the members of which live in Cognac and Jarnac. Among those entitled to shares in the estate are two barbers, a cooper, a shoemaker and several laborers, all of whom were distantly related to the rich merchant of Bordeaux.—London Telegraph.

The Punishment Was Postponed.

"Katie," sternly exclaimed the little girl's father at the breakfast table, "you are too noisy! I shall certainly have to punish you."

"Well, there ain't anybody holdin' you, is there?" said Katie, with flashing eye and quivering lip.

A number of very important changes in the law regarding the running of agricultural fairs has been recently passed by the Ontario Legislature. One is that it is now compulsory on the officers to prevent gambling, etc. on or within 300 yards of fair grounds. Another is that trials of speed, under the control and management of the officers of the fair, are allowed.

MR. GEO. MERRETT

Toronto, Ontario.

As Well as Ever

After Taking Hood's Sarsaparilla

Cured of a Serious Disease.

"I was suffering from what is known as Bright's disease for five years, and for days at a time I have been unable to straighten myself up. I was in bed for three weeks; during that time I had leeches applied and derived no benefit. Seeing Hood's Sarsaparilla advertised in the papers I decided to try a bottle. I found relief before I had finished taking half of a bottle. I got so much help from taking the first bottle that I decided to try another, and since taking the second bottle I feel as well as ever I did in my life." GEO. MERRETT, Toronto, Ont.

HOOD'S Sarsaparilla CURES

Hood's Pills are prompt and efficient, yet easy of action. Sold by all druggists. 25c.

SALE REGISTER.

Hiram Cross will offer for sale on lot 16, con. 8, Kitley, on Saturday, April 13, at 1 p.m., 1 horse, 4 heifers, 4 sheep, and a lot of valuable vehicles, implements, etc.

Fruit Growers, Attention.

Members of the Brockville E. D. Farmers' Institute and all interested in fruit culture are requested to attend a meeting in Brockville on Tuesday the 16th April at 10 a.m., to be addressed by A. H. Petitt of Grimsby, sec'y of the Central Farmers' Institute, on the advantages of spraying fruit trees. Mr. Pettit is one of the best posted men on fruit in Canada and all who are interested in the improvement of the quality and quantity of our fruit should not fail to attend.

W. H. McNISH, Sec'y. WM. STAFFORD, President.

Music Lessons.

Any person desiring to be instructed on either Piano or organ can make arrangements with me at the Gamble House, Athens, on any or every Thursday at 1 o'clock p.m., or address to

JASPER CHAS. EATON, Music Instructor

1 mo. Frankville, Ont.

License District—Brockville and Leeds.

Pursuant to sub sections 5 and 6 of section 11, chapter 194, R. S. O., and amendments thereto, I hereby give notice that the Board of License Commissioners, will meet on Thursday, the 18th day of April, 1895, at the hour of 10 o'clock a.m., at the Registry Office in the Town of Brockville, for the consideration of licenses for the ensuing year.

Total number of licenses issued during the current year was 43, and the total number of applications for licenses for the ensuing year 43.

R. R. PHILIPS, Inspector.

2in. Dated at Caintown this 1st day of April, '95.

SPRING MILLINERY OPENING.

At the old stand "Mr. McLaughlin's Store" now occupied by T. V. Vanarnam.

On the 13th of April and following days, I will shew a fine stock of Millinery, both trimmed and untrimmed.

My stock consists of the newest and very latest styles—Prices moderate—Call and see my goods before purchasing elsewhere.

C. M. SEXTON.

MILLINERY OPENING.

APRIL 6th.

AND FOLLOWING DAYS.

I take much pleasure in calling the attention of the Ladies of Athens and vicinity to my millinery opening, consisting of Paris, English and New york Patterns, Ribbons, Silks, Velvetoens, Jets, Birds, Feathers, Tips, and numerous articles in display on above date and following days. Remember the place—Rear Phil. Wiltse's store, Main street, Athens.

MISS A. HANNA.
