CROFTS & JOHNSTON.

Our Tailoring Department

Is now under the management of Mr. Wood who has been cutting in one of the leading merchant tailoring establishments on King St., Toronto.

Having lately added largely to our stock of Tweeds and Coatings we are now in a position to invite inspection with confidence.

CROFTS & JOHNSTON.

Opening of Legislature.

THE LIEUT.-GOVERNOR'S SPEECH.

On Thursday, at 3 o'clock p. m., His Excellency the Hon. John Crawford, Lieut.-Governor of the Province of Ontario, proceeded in State to the Chamber of the Legislative Assembly, and being seated on the Throne, was pleased to open the fourth session of the second Parliament of Ontario with the following speech:—

Mr. Speaker, and Gentlemen of the Legislative Assembly,

I rejoice that in meeting you again to confer upon the public affairs of the Province, I am able to congratulate you upon another year of very great prosperity.

The remarkable progress and development of the Province of late years have been much stimulated by the liberal policy pursued in regard to new railway enterprise, both in legislating to authorise their construction and in aiding them from the public funds. Railway facilities have now been afforded to almost every part of the settled portions of our Province, and under the advantages given by Provincial assistance, are being extended to the more remote and unsettled districts of the country.

In accordance with a resolution passed at your last session with respect to the westerly and northerly boundaries of the Province, my Government and the Government of the Dominion have agreed on a provisional line, to be assumed as correct for the purpose of land grants by each Government, until the true and permanent boundary shall be ascertained and determined; and have agreed to leave to arbitration the question as to the permanent boundary. Two distinguished gentlemen have been selected for the office of arbitrators, and they are soon to enter upon their duties, and will probably finish their award in the early part of next year.

Negotiations have been entered upon with the Dominion Government, as well as with the Governments of other Provinces, with a view to the consideration of the respective agencies and efforts for the promotion of immigration; and at a conference recently held at Ottawa a system for united and harmonious action was agreed to by the representatives of the different Provinces and by the Government of the Dominion of Canada. The papers on the subject will be laid before you. The arrangements made can hardly fail to be attended with satisfactory results. Meanwhile it is satisfactory to know that the immigration of the year has in a larger degree than previously consisted of those classes of persons most needed in this Province, and that the number of immigrants who have this year settled in the country has been larger than, considering what has occurred elsewhere, we could reasonably have expected. I commend the subject to your further careful consideration.

The joint commission for the survey of the boundary between Ontario and Quebec has completed its labors, having carried on the survey northerly to the height of land, and the matter appears now to need only whatever legislation may be necessary to make the surveyed line and its continuation northerly the permanent boundary between the two Provinces for all purposes.

I regret that the other matters in difference between Ontario and Quebec have not yet been adjusted.—Government difficulties in Quebec having unavoidably interrupted the negotiations between the provinces, and it having been found impossible since to resume them with any prospect of a settlement this year.

You will probably be asked during the present session, in view of our increased population, as shown by the last census and otherwise, to consider the propriety of making some additions to the number of members composing the Legislative Assembly. This addition, if determined upon, will give you an opportunity of removing some of the existing inequalities between the electoral districts in regard to comparative population.

A Bill will be laid before you containing provisions for giving additional efficiency to the laws for the prevention of bribery and other illegal acts at elections to this Assembly.

I rejoice to perceive that the distribution of part of the surplus revenue of the Province amongst the local municipalities has given an impetus to local improvements which I trust will show permanent results in the advancement of all parts of the Province. A Bill to extend the class of objects to which municipal councils may devote the unexpended balances of the amounts to which these municipalities are entitled will be laid before you.

I have much satisfaction in calling your attention to the legislation in Great Britain and elsewhere for giving just security to land titles by shortening the period within which State claims can be set up to the prejudice of parties in possession. A Bill for this purpose will be amongst the measures which will be submitted for your consideration.

Availing myself of the appropriation which you made last session for the very important work of consolidating the Statutes relative to Ontario, I have issued a commission to eminent Judges and learned Counsel for the purpose of accomplishing your object at as early a day as practicable. The commissioners entered upon their work immediately, and have made such progress that they expect to have ready a complete revision of our statute law before the next session of the Legislature. A report from them upon the subject will be laid before you.

The financial accounts of the Province, brought up to as late a day as practicable, will be submitted to you immediately. In connection with these I have the satisfaction of announcing to you that the aggregate revenue for the present year is certain to exceed the aggregate amount which was estimated, and that the aggregate expenditure will be less than the amount authorized to be expended.

The estimates for the coming year have been prepared, and will be laid before you. You will find that they have been framed with strict regard to economy, as well as to the efficiency of the public service.

I hope that your deliberation on all the subjects which may occupy your attention will be characterized by wisdom and true patriotism, and that they will receive the blessing of Divine Providence.

The House met at three o'clock on the 13th.

A petition was presented by Mr. Farewell.—From the Huron and Quebec Railway Co., for amendments to their charter.

The Lieutenant-Governor's speech then came under consideration, and a lengthy discussion followed upon the condition of the finances of the Provinces, Mr. Crooks announced that the surplus amounted to $5,000,000 and upwards. A motion for an address from the House in reply to the speech was adopted.

Mr. Rykert gave notice of a motion on Friday next, to appoint a committee to investigate the charges preferred against him by the St. Thomas *Home Journal*.

The other day Mr. John Young cut one of the arteries of the leg, with an adze. Dr. Tennant secured the artery and he is in a fair way to recover.—*Lucknow Sentinel.*

THE MARKETS

The deliveries during the past week have been light in all kinds of produce, notwithstanding the high prices paid on our market, compared with centres of trade, such as Montreal and Toronto. We are actually paying more for spring wheat than is paid in Toronto, notwithstanding that it costs from 10 to 15 cents to convey it there from here. Farmers should take advantage of the high prices, and bring in their produce. With large crops all over the world, it cannot be expected that prices will advance much on present quotations.—Butter, eggs, poultry, &c., for home consumption, bring as good, if not better prices here than in most of the other markets in Canada.

Gold 110½. Salt, per bbl 99 to $1.00 retail; wholesale 80 to 85.

CANADIAN PACIFIC RAILWAY,

GEORGIAN BAY BRANCH,

SEALED PROPOSALS for the construction of the Georgian Branch of the Canadian Pacific Railway will be received by the Department of Public Works at Ottawa, until the hour of Noon on MONDAY the 21st day of December next.

Intending Contractors must give satisfactory evidence that they possess a capital of at least four thousand dollars per mile, of which twenty-five per cent. must be deposited with the Receiver General or placed to his credit in one of the Chartered Banks of the Dominion, in money or in Government securities, before their tender can be accepted.

The length of this Branch will be about 87 miles.

Specifications and general conditions, with a plan or map showing the route, and such information as the Government possess concerning the country through which the line passes, may be obtained at this Department on and after Monday, Nov. 16.

Forms of tender will also be supplied on application after the above date, and no tender will be received except on such forms.

Tenders to be endorsed, "Georgian Bay Branch." The Government will not be bound to accept the lowest or any tender.
