McSpirrit, or Toronto Gore, was concluded in the Assize Court there Wednesday, and the jury returned a verdict for the plaintiff.

The coroner's jury at Fort Erie, Ont., in the case of the colored boy, Charles Brown, who died on Saturday evening last as a result, it was alleged, of a blow on the head inflicted by Constable Sheppard, brought in a verdict Monday night that death was caused by lockjaw, by a rusty nail running into his foot.

In the death of Mrs. Charlotte E. Hatt, which occurred at Montreal on Monday, the last of the family of Col. De Salberry, the hero of Chateauguay, disappears. Mrs. Hatt was the youngest daughter of the great French-Canadian soldier and patriot, and was 80 years of age at the time of her death. She was the widow of the late Augustas Hatt, of Chambly.

RUSSELL VISITS CLEVELAND.

He was accompanied by Secretary Olney and two other gentlemen. They were met at the flag station by the President's carriage and carried to Gray Gables, where they were met by President and Mrs. Cleveland.

ITALY'S LATEST DESTROYER.

London, Sept. 24.—The new Italian cruiser Carlo Alberto was launched at La Spezzia today, in the presence of King Humbert and a large assemblage of distinguished persons. The new cruiser is 105 meters in length and 18 meters in width. Her engines will be 13,000 horse power.

A RUSSIAN GRAB.

London, Sept. 24.—Considerable feeling exists in China owing to the seizure by Russia of some disputed territory at Che Foo, which is claimed by Ferguson & Co., an English firm. The latter applied for an injunction against the Russian Government, but were refused. The British Minister has taken up the case, and the firm are to receive compensation.

ALL AGAINST ABDUL.

London, Sept. 25.—The afternoon newspapers which have hitherto advocated the intervention of Russia in Turkey now scarcely allude to any possible interference on the part of the Czar, but all the papers print columns of editorials, communications, reports of meetings, etc., all directed against the Sultan. The general tone of these articles is in deprecation of isolated action on the part of any power in Turkey, but strongly favoring an immediate concert of action.

WHAT IS RUSSIA UP TO?

London, Sept. 4.—A dispatch to the Globe from Shanghai, published yesterday, says it is believed there that the dispatch of a Russian squadron to Shanghai will be the first result of an agreement reached between Li Hung Chang and Russia, which is viewed with great anxiety and suspicion in Japan. China, it is added, is preparing the docks and workshops of Port Arthur, and is storing there vast quantities of coal. It is thought these movements indicate a startling development in Russian policy.

VICTORIA'S SUBJECTS REJOICE.

London, Sept. 24.—At the opening of the Stock Exchange here yesterday, all those present sang "God Save the Queen," in honor of her Majesty, who this day has reigned longer than any sovereign in English history. The church bells throughout London and in other cities were rung in the morning in honor of the event, and the National Anthem was played in the theaters in the evening, but in accordance with the desire of the Queen, the occasion will not be celebrated officially until 1897, when her Majesty will have completed the 60th year of her reign.

A TRIUMPH FOR TERRY.

London, Sept. 24.—The production of "Cymbeline" at the Lyceum was chiefly notable for the chance offered Miss Ellen Terry to score one of her greatest triumps. Her Imogen dominated the entire play in its poetic beauty and graceful juvenility. Irving's Iachimo accentuated perhaps somewhat unduly the devilish malignity of the character, but for this very reason is a forcefully picturesque embodiment of the wily Italian. The piece, of course, is mounted to perfection, Alma Tadema's assistance practically insuring success in this direction. It needs scarcely be added that Irving's reception was almost deliriously enthusiastic. He promised a revival of "Richard III.," as well as the production of "Sans Gene."

MR. BAYARD SPEAKS.

London, Sept. 24.—Hon. T. F. Bayard, United States ambassador to Great Britain, was a guest last evening at the dinner at Liverpool of the American Chamber of Commerce, given in connection with the annual meeting of the British Association, which closed today. Mr. Bayard, in responding to a toast to President Cleveland, referred to the long reign of Queen Victoria as the triumph of good settled government of a free country. He also spoke in warm terms of President Cleveland's financial integrity, his fidelity to public obligations and his firm upholding of the national good faith. There never was a truer friend to human rights and privileges, declared Mr. Bayard, than is President Cleveland. The utterances of Lord Russell of Killowen, the Lord Chief Justice of England, in favor of arbitration, made during his lordship's present visit to the United States, were enthusiastically referred to by Mr. Bayard.

A JAPANESE HORROR.

Floods, Fires and Earthquakes Help the Storms in Destroying—2,500 Lives Lost.

San Francisco, Sept. 23.—The city of Kobe, Japan, was recently wiped out by a disastrous conflagration on Aug. 26, and floods and storms and earthquakes caused a loss of 2,500 lives and the destruction of millions of dollars worth of property in northern Japan.

The steamer Doric, from the Orient, brought news of a series of catastrophes that have befallen the Mikado's realm that are unprecedented in its history. In Gifu prefecture 4,300 homes were blown down, and along the Haji-Gawa 400 persons lost their lives. The severest storm occurred on Aug. 30. Along the Isatsugawa 84 lives were lost.

The great flood was preceded by severe earthquakes. Then followed a downpour such as has never been experienced on the islands. European residents were panic-stricken, and sought shelter on the high lands. The Minatogawa overflowed its banks at midnight on the 26th inst., and the waters inundated the streets and fields and swept away 300 houses and drowned 200 people at Kobe. After twelve hours' work the broken embankments were repaired by sand bags. To make the fate of Kobe worse, a fire broke out late in the evening, and, fanned by the high wind, spread over the entire city. One thousand nine hundred blocks, including 2,260 houses and twelve go-downs, were destroyed totally, and ten houses, two police boxes, one fire brigade station, four temples and one theater.

The burned area comprises ten streets. The total damage by fire was 1,000,000 yen. On Sept. 1, in Rokugo district, a terrible series of earthquakes shook the country. Nine people were killed there, and more than 40 at Hataya, Senya, Takanashi, Yokohori, Yokozawa, Nagashida, Shimuz and Fujik, where the disaster was especially great. The hills at Senya cracked. Fire broke out here and there. Water gushed out in many places, and rumblings continue. At Obononai eleven persons were killed. At Rokogu the people killed number more than 20, and houses overturned about 1,000. A ferry boat at Hizuma capsized, and 20 Japanese and whites lost their lives.

"No Parallel in History."

A Further Extract From Gladstone's Figaro Letter.

The Sultan "the Great Assassin" — Will France Aid a Settlement?—Lowles Corrects Himself.

London, Sept. 24.—In his latest deliverance on the Eastern question, Mr. Gladstone (writing to the editor of the Paris Figaro) says: The question whether effect can be given to the national indignation is now in the balance, and will probably soon be decided. I have read in some Austrian newspapers an affected scruple against sole action by any one state in European crises, but there are two first-class powers who will not make that scruple their own. One of those is Russia, who, in 1878, earned lasting honors by liberating Bulgaria and helping onwards the freedom and security of the other Balkan States. The other is France, who, in 1840, took up the cause of Egypt, and pushed it single-handed to the verge of a European war. She wisely forebore to bring about that horrible transcendent calamity, but I gravely doubt whether she was not right and the combined powers wrong in their policy of that period. Mr. Gladstone proceeds to denounce the "great assassin," and continues: "For more than a year he has triumphed over the diplomacy of the six powers. They have been laid prostrate at his feet. There is no parallel in history to the humiliation they have so patiently borne. He has therefore had every encouragement to continue a course that has been crowned with much success. The impending question seems to be not whether, but when and where, he will proceed to his next murderous exploits. The question for Europe and each power is whether he shall be permitted to swell by more myriads the tremendous totals of his victims. In other years, when I possessed power, I did my best to promote the concert of Europe, but I sorrowfully admit that all the good done in Turkey during the last twenty years was done, not by it, but more merely despite it."

The Daily Graphic will today publish a dispatch from its Paris correspondent, claiming that he has authority for the statement that M. Hanotaux, the French Minister of Foreign Affairs, has initiated urgent negotiations with the object of effecting a speedy settlement of the Turkish question by France, England and Russia. There is strong reason to believe, the correspondent declares, that the respective diplomatic representatives of the three powers in Constantinople will, within a few days, communicate a decisive resolution to the Sultan.

Mr. John Lowles, M. P. for the Haggertson division of Shoreditch, has written a letter to the Daily News, in which he asserts that the remarks made by him at the meeting, held in Shoreditch, on the evening of the 21st inst., to protest against the massacre of Christians by Turks, were incorrectly reported. Mr. Lowles declares that he did not state that he was authorized by the Foreign Office to say that Great Britain was confronted by an agreement between the three powers, and that if she fired a single shot or took action alone it would mean that at that moment there will be an European war.

LET HER OFF EASY.

San Francisco, Cal., Sept. 24.—Miss Emma Ashley, who shot at E. J. Baldwin, the millionaire horseman in court, and narrowly missed killing him, has been acquitted on the ground of temporary insanity. The shooting occurred while the suit of Lilian Ashley against Baldwin for seduction was in progress.

RAILWAY WASH OUTS.

Grand Junction, Col., Sept. 24.—The worst storm for ten years has been raging here since Tuesday night. East of here on the Denver and Rio Grande Railroad, there are eleven washouts within six miles. The Rio Grande Western, running west from here, is in a worse condition. A long bridge at Saltwash has gone out, as has several smaller ones. The Denver and Rio Grande, narrow gauge, south of here, is badly damaged. Trains on all roads are water-bound at various points along the road.

In Full Flight

The Dervishes Pursued by the Victorious British-Egyptians.

Splendid Management of the Trying Campaign.

British Capture Guns, Ammunition, Grain and Flocks.

The Rule of the Khalifa Broken—Plans for the Future.

Dongola, on the Nile, Sept. 23.—The Egyptian flag was hoisted over Dongola today. The Dervishes are in full flight, and are being pursued by the gunboats on the river and by the cavalry on the west bank of the Nile. The advance was ordered at an early hour this morning, and the Anglo-Egyptian forces were close upon the Dervishes before the latter were called to arms. But the Dervishes were quickly thrown into a state of demoralization, and fled southwards. They were pursued by the gunboats, cavalry and camel corps. Emirs of importance surrendered, and a number of the Dervish troops announced their willingness to serve under the Egyptian flag, which was soon afterwards formally hoisted over Dongola, which is now occupied by the Anglo-Egyptian force. The Soudan campaign proper is thus brought to a speedy and eminently successful conclusion. The plans of Sir Herbert Kitchener have been carried out to the letter with machine-like smoothness, reflecting considerable credit upon all concerned, for the greatest of difficulties, cholera, terrible heat, fearful storms and the transportation of supplies and ammunition, for an army of over 15,000 men, over the most difficult country imaginable, have been steadily overcome, and the goal which was the object of the expedition has been reached.

Much more, however, remains to be done in order to complete the reconquest of the Soudan, reclaim that vast territory for civilization, and rescue hundreds of thousands of tribesmen from the cruel despotism of the Khalifa. But it is not believed that any further advance will be made for the present. Wad Bishara succeeded in escaping, closely pursued, and, according to the lates. advices, has not been captured. Among the emirs who fell into the hands of the Anglo-Egyptian troops were Hassan Nejumi and Abdul Diam. They say that the rule of the Khalifa will be completely broken by the repeated defeats of the Dervish forces, who, thus far, have failed almost entirely to inflict any loss upon the Anglo-Egyptian troops. In addition to the emirs and large numbers of Dervish soldiers who fell into the hands of the troops of the expedition, the latter captured six field guns, a largt quantity of ammunition, and great stores of grain, etc., besides many flocks of sheep, herds of cattle and many camels. Dongola will now be reconstructed on better lines, the work of fortifying the posts, villages and depots connecting Dongola with Wady Halfa, over 200 miles distant, will be completed, and the railroad will be carried south to this point with all possible haste.

London, Sept. 24.—Judging from the tone of the Russian press, Russia does not like the prospect of England's gaining greater power in Egypt, as she might be a menace to the powers using the Suez Canal. A growing party in military and Government circles is anxious that the Egyptian force should march to Khartoum.

MISSIONARIES WRECKED

Their Special Schooner Goes Down—Picked Up by a Vessel.

San Francisco, Cal., Sept. 23.—The South Sea missionary schooner Josephites Evanila has foundered at sea in longitude 147 degress west, latitude 14 degrees 30 minutes south, July 26. The Evanila was sailing between Pomsto and Tahiti, when she was caught in a storm which so strained her that her seams opened and she filled and sank. Capt. McGrath, the cook, and several missionaries who were on board took to the small boats none too soon to save themselves from being carried down with the wreck. After drifting about for 26 hours they were picked up by a southbound vessel and landed safely on the Island of Tahiti. The Evanila was built on this coast not long ago. It cost about $40,000 to construct her and fit her out.

"For years," says Capt. C. Mueller, "I have relied more upon Ayer's Pills than anything else in the medicine chest, to regulate my bowels, and those of the ship's crew. These pills are not severe in their action, but do their work thoroughly.
