Rum Traffic at Joggins Mines.

To the Editor of the POST.

SIR,—I am very deeply impressed by the facts stated in your Joggins Mines correspondent's communication of last week. In towns and villages where no persons are in such authority as to do more than either as magistrates administer the law in such cases as come before them, or as clergy use moral force in pulpit and parochial ministrations, it is very difficult to control such a ruinous condition of things to the stockholders, the miners and their families, and the general community, as seems to prevail at the mines.

What I write to ask about is this:—Whether, in view of such a fearful fact as half of all the men's wages going for liquor—implying domestic misery and much poverty, and considerable incapacity upon the part of the workman to do a good honest day's work from previous excess—whether, I say, those who are in authority as managers are not in a position to put down and to stamp out completely and unreservedly those fourteen dens, Scott Act or no Scott Act?

Your obed't servant,
CLERICUS.

A Note of Warning to Suffering Humanity.

We feel that we would be wanting in the duty we owe to humanity if we did not sound a note of warning in regard to the use of Mercury and other poisonous minerals in the treatment of blood and skin diseases. If the reader could see the horrible suffering, the awful wrecks of human health and happiness, shown by our correspondence with those who have been dosed with these mineral poisons, he would shudder with horror. Arsenic, Mercury, Antimony, and Iodide of Potassium, are some of the remedies most ordinarily used for these diseases, and they are all POISON. *Do not take these poisons.* They might dry up your disease for a few days, but it will surely return, and with it you will have Mercurial Rheumatism, which may bring you years of torture. Shaker Blood Syrup will invigorate you and build you up, and force all the poison out through the pores of your skin, and cure you sound and well.

SHAKER BLOOD SYRUP

cures completely Scrofula, Syphilis, Rheumatism, Cancer, Catarrh, and Skin and Blood diseases of every description. Sold everywhere, $1.00 a bottle, or six for $5.00.

LITTELL'S LIVING AGE. The numbers of *The Living Age* for Nov. 29th and Dec. 6th contain, The Works of Alexander Pope, *Edinburgh;* Country Life, and The Croker Papers *Quarterly;* Some Lessons from Carlyle's Life, *National Review;* Mrs. Montague, *Temple Bar;* A Marshall's Training, and Chinese Horticulture, *All the Year Round;* Artificial Jewels, *Chamber's;* "Quiet Weather," *Spectator;* with instalments of "Beauty and the Beast," and "Alexander Nesbitt, Ex School-master," and poetry.

For fifty-two numbers of sixty-four large pages each (or more than 3,300 pages a year) the subscription price ($8) is low; while for $10.50 the publishers offer to send any one of the American $4.00 monthlies or weeklies with *The Living Age* for a year, both postpaid. Littell & Co., Boston, are the publishers.

To the Editor of the POST.

DEAR SIR,—In your last issue your Parrsboro correspondent made a mistake in his reference to the sitting of the County Court there. He says it was "hurried through." The facts are there was not business enough to keep the Court even as long as it did sit. In one case tried the Court *waited* until the Bank Agent went and brought his books. All the barristers knew there was not much business and took their time, tried all there was to try and the Court closed at 1.30 p. m.

Yours truly,
ARTHUR DAVISON,
Clerk of Co. Court.

PREJUDICE.—A great many people are prejudiced against Patent Medicines, and well they might be, for there are lots of Medicines foisted upon the market that are simply worthless. Estey's Iron and Quinine Tonic cannot be so classed, as it is compounded from the finest and best materials, each one having its own particular work to perform, and Physicians to whom the formula has been submitted say that it is the finest combination they ever saw, and are daily prescribing it in their practice.

—Forty years' experience, in every clime on earth, has proved Ayer's Cherry Pectoral to be the most reliable remedy for colds, coughs, and all lung diseases. Neglected colds often become incurable ailments. Deal with them in time, and prevent their becoming deep-seated in the system.

Scott's Emulsion of Pure
Cod Liver Oil, with Hypophosphites,
In Tubercular Troubles of the Lungs.

Dr. A. F. JOHNSON, Cedar Rapids, Iowa, says: "I have used Scott's Emulsion in Tubercular troubles, with satisfaction, both to patients and myself."

—Tone up the system by the use of Ayer's Sarsaparilla. It will make you feel like a new person. Thousands have found health and relief from suffering by the use of this great blood purifier when all other means failed.

LONE JACK, MO., Sept. 14, 1879.
I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.
P. M. BARNES.

ASK those who have used Philoderma and they will tell you that it is far superior to Glycerine, Camphor Ice or Cold Cream for Chapped Hands, Sore Lips, or any roughness of the skin.

Dorchester Items.

—Wm. Hickman, Esq., is home, after a prolonged visit to New York.

—Schr. "Ethel Emmerson" arrived on Thursday with a general cargo from Nova Scotia.

—Councillor Palmer has gone to New York. He returns in time to attend the January sittings of the Council.

—The funeral of Mrs. Robert Beckwith took place on Saturday last from the house of her father, Joseph Hickman, Esq. The services were read by the rector, Rev. Mr. Campbell, assisted by Rev. Mr. Harris, of Amherst. The funeral of Mrs. Davison took place from the Halifax express the day previous. Two such sad occurrences in the same family have created general sympathy.

From Parrsboro.

—In the darkness of the night on Monday last a woman stumbled over a pile of stones on the edge of the street and dislocated her ankle.

—The Presbyterian church is nearing completion, and by the strict care of John E. Dickenson, who has it in charge, is being thoroughly done and looks well standing on the eminence above the village.

—Messrs. B. Young & Son have a great many men and horses in the woods getting logs for their steam mills at Halfway Lake. They also have a great deal of lumber lying on their wharf here waiting for the rise in lumber next season.

—Mr. G. G. Reed has arrived from St. John, where he has been purchasing his winter goods and expects them up by water this week.

Bristol Items.

—Michael Riley, a native of Ireland, died on Friday last. He has been living here for several years at the expense of the parish.

—Lowther Bros'. mill has not ground a bushel of wheat this season. It is undergoing repairs at present.

—Mr. R. Dobson, flour merchant, sells large quantities of flour and meal. He believes in quick sales and small profits.

—Miss Victoria Comeau informs your correspondent that she not only makes anything and everything that a man or a boy wears, and is equally as well qualified to make ladies' garments, but as she cannot give due attention to both, and as she prefers devoting all her time to tailoressing, she has excluded all other work.

—The conveyance of mail matter to and from here is much more convenient than formerly. We now have a daily mail which leaves Shediac on Monday, Wednesday and Friday shortly after the arrival of the express train from St. John on those days, passes through here and reaches Port Elgin the same evening, returning, leaves Port Elgin Tuesday, Thursday and Saturday in time to reach Shediac before the train leaves for St. John on those days. We also have a weekly mail direct from Sackville, which brings us the CHIGNECTO POST and whatever else may be sent from there.

From Amherst.

Renowned Lecturers.—Election Petition.—Boston Comedy Co.—Y. M. L. C.

—Rev. A. J. Townend, of Halifax, and the world renowned Josh Billings have been engaged by the Committee to deliver lectures here the first of the year.

—Mr. Keiver Hunter, of Linden, one of the candidates for District No. 3 in the late Municipal election, has filed a petition in the County Court against the return of Messrs. Stephen Oxley and Daniel Somers, on the ground of corrupt practices. The petition will be tried at the Court House before Judge Morse on Tuesday, the 23rd inst.

—Price Webber's Boston Comedy Company played "AuroraFloyd" and a laughable after piece on Tuesday night in Music Hall and last night "The Hidden Hand" to good audiences. The company is composed of the same persons as when here before and is just as popular. Some fine new scenery has been added.

—The Young Men's Literary Club has thrown its meetings open to the public, reserving to its regular members the privilege of taking part. This has been done in the hope that the public, particularly the young men, will take greater interest in the work. To-morrow night the society resolves itself into a mock parliament to discuss a government resolution favoring manhood suffrage.

Baie Verte Items.

—Track laying on the Cape Railway is progressing rapidly, the rails are now laid within one and a half miles of Coburg.

—Mr. James Purdy, of Sackville, has completed the railway bridges over the Allen and Chappell creeks. The railway company are to be congratulated for having secured the services of so competent a bridge builder.

—Baie Verte can boast of being possessed of a weather prophet, and a pretty reliable one too, much more so than Wiggins the False, who, it is to be hoped, in his new role of "Salvation Preacher," will be more successful in leading souls heavenward than he was in convincing people of his superior prophetic knowledge of the mysterious working of the heavenly bodies.

—There was a large attendance at the Temperance meeting held in the Hall on the evening of the 3rd inst., every seat being occupied. Mr. Edward Wood was in the chair, and on the platform were Rev. S. R. Ackman and Robert Goodwin, D. G. D. P. After music by the choir and reading a portion of the opening ceremony from the sublime ritual of the S of T., the chairman in a few well chosen remarks stated the object of the meeting, and called upon Mr. Asbury Goodwin, and old and well tried friend of Temperance, to address the same, who responded to the call, and spoke for about fifteen minutes in ye ancient, but soul enlivening manner, and recounted, among other thing, the many reminiscences and systems of dram drinking in the days when he was young. Mr. Robert Goodwin, the next speaker called upon, rose amid the deafening cheers of the audience, and in language fluent and style impressive, gave vent for about twenty minutes to his feelings in regard to temperance matters. Several other gentlemen were called upon, but sought protection under the usual "unaccustomed as I am to public speaking, &c," and begged to be excused. The last speaker, but not least, called upon, was Rev. S. R. Ackman, who upon rising was greeted with round after round of applause. The gentleman occupied about thirty minutes in portraying the evils of intemperance from different stand-points, and the glorious results which would and must follow in leading a temperance life, not only morally, socially and physically, but nationally. Before resuming his seat, the Rev. gentleman announced that a communication had been received from Mrs. Josiah Wood, President of the "Women's Christian Temperance Union," Sackville, stating that as soon as the roads were favorable, she, accompanied by other officers, would pay the Bay a visit and inaugurate a branch of the society, also a "Band of Hope" for the young. A vote of thanks was was tendered the choir for their kindness in entertaining during the evening. The meeting closed with singing "God Save the Queen." We may say in connexion with the above announcement, that the ladies of the Bay are very anxious to have the W. C. T. U. organized, also a Band of Hope, and are in hopes that their wishes in the matter will soon be realized.

CUMBERLAND MINING MATTERS.—On Friday, a portion of the roof of the Minudie mine fell in. The long wall system is there pursued. The coal supply will be restricted until the work is re-opened.—At the Scotia Mine (formerly operated by the late Col. Bennett), Messrs. Cutten & Freeman are getting out a lot of good coal.—Mr. Wm. Patrick has sunk a shaft and also a slope on the Mulgrave area—(west of the Lawson Mine)—from which he is taking coal. He drains them by means of siphons. He is raising a very excellent article of house coal.—Messrs. Dewar & McAloney, have leased the River Hebert Mine and propose to operate it extensively. They propose to supply the local demand this winter with prime house coal.

DENOMINATIONAL AMITY. — The Church of England people and Baptists of Hillsboro have joined hands to hold a fair and concert on Tuesday next in the same building, the proceeds to be divided for denomational purposes. This shows a commendable state of feeling between denominations, each of which is too apt to regard the other as a rival to be kept down. The Church of England has long possessed a church at Hopewell Hill and funds are now being raised for one at Hillsboro and a parsonage house, to be located probably at Riverside.

TIRED

HOW often we hear people say "I'm tired" even when they have done nothing to tire them. They have no appetite, and feel dull and languid. To such we would recommend a bottle or two of

Estey's Iron & Quinine TONIC.

It is the most **Powerful, Invigorating,** and **Health Giving Tonic Known** and never fails to perform all that is claimed for it.

Persons of Weak Constitutions may take it without the least difficulty, as it contains nothing injurious, but is a pure Chemical Compound based on scientific principles.

PREPARED ONLY BY

GRIP'S

Canadian Gallery!

Full figure Portraits, in Colors, of Prominent Canadians.

GIVEN AWAY TO ALL THE

SUBSCRIBERS TO "GRIP."

No. 1.—Rt. Hon. Sir John A. Macdonald, was issued August 2nd, 1884.
No. 2.—Hon. Oliver Mowat, was issued September 20th, 1884.
No. 3.—Hon. Edward Blake, was issued October 18th, 1884.
No. 4.—Mr. W. R. Meredith, will be issued November 15th, 1884.
No. 5.—Hon. H. Mercier, will be issued December 20th, 1884.
No. 6.—Hon. J. Norquay, will be issued January 17th, 1885.
No. 7.—Hon. Sir H. L. Langevin, will be issued February 14th, 1885.

These plates are printed in colors, on fine plate paper, and will be issued monthly to our subscribers, free of charge.

In these sketches an effort is made to hit off not only the facial expression, but the general figure as well, each subject being given in some characteristic pose. Wherever possible the drawing will be made from life, so as to ensure accuracy in these respects. At the same time a staid matter-of-fact portrait is not aimed at, but that far more attractive and unique thing—a *caricature* embracing a *likeness*. Each portrait is accompanied by a brief biographical notice written in a spirit to correspond with the picture.

When we call upon Canadians to *encourage* this enterprise we are after all not asking them to do anything vast. They already have in Grip abundant value for $2 per annum, and as has been already stated the GALLERY, *which alone is worth more than the amount of subscription*, is a free gift. All we request therefore is that those who are not already upon our list shall *subscribe* for GRIP. We decline to argue as to whether $2 per year can be spent in any better way intellectually. There is no question to argue. The intelligent citizen of Canada who has that amount per year to invest for his mental pleasure may safely take our word on this point, he will certainly find nothing to buy for the money which will be so satisfactory as a receipt for a subscription to GRI
