WEATHER MAN NOT KIND TO THE FANS

Marathons Were Defeated 10 to 6 By Houlton in League Game This Morning

The Marathons have once more suffered defeat, this time at the hands of the Houlton baseball club. Although the weather was very threatening the teams lined up at ten thirty o'clock and were able to play a full nine-inning game. The score was ten to six in favor of the Maine team. The game was marked with heavy hitting, the visitors having fifteen hits and the locals twelve. Dolan led his team in the hitting line, having two good hits. Jack Nelson had the longest hit of the game, sending out the sphere for three bags.

Wood started in to pitch for the Marathons and pitched fairly good ball up to the sixth inning when he was hit on the head with a batted ball and was forced to retire. He was replaced by Duffy. The visitors had ten hits of Duffy and five off Wood. Martini pitched for the Houlton team for seven innings and was followed by Anderson. The Greeks had seven hits off Martini and five off Anderson. Eddie Ramsay, who started in to play second base for the Marathons, had to retire from the game in the fourth inning, having been spiked in making a fast play at first base. Dolan went to second base in his place, while McGovern went to third.

Both teams played fairly good ball, but the grounds were quite soft, making good playing difficult. The Houlton team look very nice with their maroon uniforms with white lettering. This is the first time they have played this season, and, judging from their play today, they will make a good bid for the championship. Several familiar players, including Tanker Hughes, Biddo (Happy) Iott and Joe Neptune, were with the team today. All played good ball.

The teams lined up as follows:—

Marathons.	Houlton
Catcher.	
Cannon	Watt
Pitchers	
Duffy and Wood	Martini and Anderson
First Base.	
Ganzel	Iott
Second Base.	
Ramsey and Dolan	Fredette
Third Base.	
Dolan and McGovern	McElwee
Shortstop.	
Pinkerton	Neptune
Left Field.	
Nelson	Siney
Centre Field.	
Riley	Johnson
Right Field.	
Berran	Hughes

Umpire Murray officiated. This afternoon's game is scheduled to begin at three o'clock but it will likely be a little later, as the morning game was not over until after one o'clock. Barry will be on the mound for the locals while Urquhart will do the heaving for the visitors. The attendance this morning was very slim, but a good crowd is expected this afternoon.

When Umpire Duffy returned from Woodstock the opening game of the N. B. and Maine League in the Carleton county town having been called off, he received a letter stating that he had been recommended by President Ban Johnston of the American League to act as arbitrater at the Andover-Exeter annual game on Saturday, June 8. This is one of the most important intercollegiate games played in the Eastern states annually and evidently Mr. Duffy is well thought of as an umpire or he would not have been selected by the president of the American League to handle such an important contest. Mr. Duffy is arranging with the N. B. and Maine league officials to get leave of absence to go to Massachusetts to handle the game.

WILL APPEAL.

The four dealers, T. Dean, R. H. Cother, J. D. Williams and T. F. Foley, who were fined $20 or forty days in jail for forestalling in the country market, have appealed the case and will take it to the higher courts. They intend engaging counsel to fight their case.

BARN ENTERED.

The barn and storehouse occupied by Hedley Northrup, milk dealer, in Sheriff street was entered early Saturday morning by some unknown persons with robbery apparently the object. So far as is known, however, they took but one can of milk, and left many articles untouched.

SUMMER HOME ENTERED

The cottage occupied during the summer months by C. Magnusson, at Ketepec, was broken into recently, but little of value was taken from the house. Mr. Magnusson had not moved his household goods in up to the time of the break. It is thought that entrance was forced during one of the recent heavy rainstorms.

The annual June white sale at F. W. Daniel & Co's, corner of King and Charlotte street, is announced to commence on Wednesday next. Plans for this summer want have been in process for months past and many thousandss of dollars worth of the newest white goods have been gathered together at advantageous prices. See further information on page 5, and details in tomorrow evening's papers.

MR. SCLANDERS GIVES COUNSEL

Here From Saskatoon, Says St. John Should Spend Some Money

"We have heard a lot of the awakening of the east but what the westerners cannot understand is why St. John is not going ahead faster." This was the greeting of F. Maclure Sclanders, commissioner of the board of trade of Saskatoon, who arrived in the city today on a short holiday trip. Mr. Sclanders has taken a large part in the development of Saskatoon and his opinion with regard to civic development and his advice on the subject is well worth listening to. In discussing the possibilities of this city this morning he could not have been more earnest and enthusiastic if this were the city in which his interests lay.

"When we think of what we have done in the west in building prosperous cities on the virgin prairie and consider the potentialities of a city like St. John our people find it hard to understand why St. John had stood still for so many years and now that opportunity is knocking at your door and such vast sums of money are to be spent here, that you are not taking advantage of the opportunity in the way you could.

"You have everything here,—geographical situation, transportation facilities, lumber and fishing, natural resources yet barely touched, splendid agricultural country, thriving industries, unsurpassed climate. What more could you ask for? It is not like some of the western towns where they have to sit down and think what they can say in favor of their place. There is nothing that you could say about St. John that would be too strong but you are not taking advantage of these opportunities. Why not? Is it because your citizens are too mean to supply the funds needed to carry on the work?

"The best investment the city of St. John could make would be a civic appropriation of not less than $15,000 for publicity purposes. With the right man devoting his full time to the work and ample funds at his call he could produce results in one year that would make the city anxious to vote $25,000 the next year.

"St. John should make more efforts to secure new industries, and to do this it has been the common experience that inducements are necessary. In Saskatoon, with a four days campaign, we raised a fund of $1,000,000 for the use of the Industrial League to assist new industries and the same could be done in St. John. You are sending enough money to all the ends of the earth for investment and speculation to finance any number of substantial industries in your own city where you could see the results and make sure of the profits. There is enough money lying idle in the banks for the purpose. All that is needed is to make this money available and the results will come. The new industries are not subsidized but from this fund enough money is taken to supply working capital for a concern which can give satisfactory proof of its substantial nature and preferred stock, usually at seven per cent, is secured by first mortgage on the plant.

"If there was not enough money to develop new industries it would be easy to get it if you went after it. Owing to conditions in Great Britain, an immense amount of British capital is being sent abroad for investment. We are getting any quantities in the west. The C. P. R. is spending $50,000,000 this year, all English money. If you went after it you could get your share. And the same influences which are sending the money abroad seeking investment are driving the best class of British citizens to Canada and opening the finest opportunity for an immigration campaign that was ever offered.

"You want more enthusiasm here, more faith in yourselves and your city, more faith in the future. If you could arouse in your own citizens the same spirit which is found in any of the western cities you could make this one of the greatest cities on the American continent."

Speaking of conditions in the west, Mr. Sclanders said that seeding commenced on April 8 and was now completed. The heavy spring rains promise even growth and a record crop. Methods of cultivation had improved marvelously in the last few years and now they could guarantee a crop under almost any conditions as was shown by results last year, one of the worst on record, when the crops jammed every railway in the country. This was largely due to the introduction of engines for plowing and other processes which produced better and quicker results at a lower cost. The prospects for the west this year could hardly be better.

CLOSING TRANSFER OF THE GIBSON PROPERTY

The sale of the Gibson lumber lands and mills on the Nashwaak has been arranged and the property will be deeded from Jardine & Co., to the Partington Pulp & Paper Co., Ltd. It is understood that the price is in the vicinity of $2,000,000, making this probably the largest lumber deal which has ever taken place in the province. It is understood that the sale to the Partington Company is preliminary to the absorption of the latter company by the Consolidated Pulp & Paper Co., Ltd., which has been organized by Senator Jones.

The Fredericton Gleaner says:—It is almost fifty years ago that Alexander Gibson came to the Nashwaak, after accumulating considerable wealth in successful lumber operations on the Lepreaux, and bought the mills and property, then comprising seven thousand acres and splendidly timbered land, altogether valued at about $130,000 from Robert Rankin & Co.

On commencing operations on the river, Mr. Gibson saw at once that the principal obstruction to be overcome was a large boom held by a mile or two of piers. He immediately commenced the construction of dams and increased the river facilities so much that no drive has ever been hung up on the stream since he took possession. He also had his lands carefully explored and surveyed. Some of these he purchased at public auction from the crown; others he bought from the N. B. and N. S. Coal Company, and he has thus acquired all the most valuable land (nearly 170,000 acres) on the river.

He had also a mill at Blackville, on the I. C. R., that cut about 8,000,000 feet of lumber annually, a property which he bought from the Messrs. Fairley. The deals were brought by rail to Gibson, and there, with the product of the Marysville mills, placed upon lighters specially built by Mr. Gibson and towed to St. John, where the large lumber was sent to England and the shingles and laths shipped to the United States.

A good many years ago the Alexander Gibson Railway & Manufacturing Company took over the business, but Mr. Gibson continued as president and manager of the company until November 24, 1908, when, with the well earned reputation of being one of Canada's greater captains of industry, he retired from active business.

SCHOONER FROM ST. JOHN IN COLLISION

James Young Puts Into Bangor—The Cora Green is Sunk

Boothbay Harbor, Me., June 3—The schoner James Young, of Bath, arrived today with the crew of the Bangor schooner Cora Green, and the news that the two vessels were in collision last night, about ten miles west of Seguin.

The Green, with a cargo of car wheels bound from Boston for Halifax, was sunk.

Capt. Amos Pinkham and crew of three left the sinking schooner in their boat and were taken aboard the Young. One of the crew had an arm hurt. The Young is bound from St. John, N. B., for New York with laths. She will be repaired here.

Nova Scotia Personals

(Yarmouth Times, Friday).

Mr. and Mrs. H. B. Cann, who have been on a trip to Baltimore, are expected home tomorrow morning.

Capt. Murray Hatfield is on his way to England, where he will take command of the Battle liner Sellasia.

Rev. E. B. Moore sailed on Wednesday for Bermuda, where he will remain for a month, relieving Rev. D. B. Hemmeon, who is coming to Nova Scotia for a vacation.

The engagement is announced of Mr. Daniel Owen, barrister, son of Judge Owen, Annapolis Royal, and Miss Gothorpe, of Harbor Grace, daughter of Mr. Gothorpe, superintendent of the Direct Cable Company.

Miss Grace Pelton leaves in the morning to visit friends in Sussex, N. B.

Mrs. J. Harold Lovitt has returned from Philadelphia and is staying with her parents in Bear River.

Miss Hilda Ray returned on Wednesday evening from Sackville, where she attended the closing of Mt. Allison. Miss Doris Perry, who accompanied her, remained in St. John to visit friends.

GOING TO IRELAND.

In view of the fact that Rev. Fr. O'Donovan of the Church of the Assumption is to leave for a trip to Ireland in a few days, the reverend gentleman took occasion to say "farewell" to his people yesterday. His remarks at both the morning services were most impressive and among other matters the uncertainties of life were dealt with. The emotions of his hearers were stirred profoundly and many of his people were weeping as he spoke. Father O'Donovan is well beloved not only by his own people, but by almost every citizen on the West Side. Every one wishes him a pleasant voyage, visit and safe return.

ANOTHER AMHERST INDUSTRY

News: — There are good prospects of Amherst obtaining another large industry during this coming summer. Negotiations have been pending for some weeks beaween a Sydney and Amherst industry with respect to merging the interests of the two concerns and a big woodworking plant and furnishing establishment may be the outcome. A decision will be arrived at at an early date.

FIRST POLITICAL MEETING.

In the Temple of Honor Hall, North End, tomorrow evening, the government candidates, Messrs Wilson, Grannan, Lockhart, and Tilley, will address the electors on the issues of the campaign. On Wednesday, in the 'Prentice Boys' Hall, West End, the candidates will be heard at the second of the series of meetings.

THE OLD CROSS OF HAWICK.

In 1762 the old cross of Hawick was taken down and the stones sold for 11s. 6d. One stone, however, the large one on which the socket of the upright shaft had been inserted, was turned upside down, sunk level with the pavement of the street, a strong iron ring and staple fixed therein, and afterwards used for the purpose of tying the bulls to while being baited. It was so used till about the year 1781-82, when, the custom being abolished, the stone was removed to the side of the Teviot, fixed in, and used for tying hides and skins, at what was known as the Tanner's Pool.

The writer has often heard the late Bailie Walter Wilson, tanner, who died upwards of twenty years ago at an advanced age, relate how in his young days he had seen bulls baited, and that he saw the stone removed from its site at the Town Hall to the Tanner's Pool. It remained there till the formation of Teviot Road at the back of the High Street, when seeing it was in danger of being covered up and buried out of sight some of the members of the Archaeological Society, with the consent of the magistrates, had it removed to the museum at the door of which it now stands.

THEY'RE WINNERS.

In Queen Square this morning the Wildcats demonstrated their superior ability as baseball artists by defeating two teams which had previously claimed higher honors, the Blue Rock Bulldogs and the Blue Rock Stars. The former were losers by a score of five to two, with Laracy and Morrish as battery, while the Stars submitted to defeat by a tally of eight to four with McKenna and Haley as battery. Clark and Spears did the honors for the Wildcats.
