Heligoland No Longer a Menace.

Newfoundland in the Limelight--- Nationalist Agitation in Egypt.

AN IMPORTANT DECISION.

PARIS, March 18.

The fortifications on the Island of Heligoland, Germany's formidable base in the North Sea, must be dismantled. This decision was reached to-day by the Supreme Allied War Council. It was decided also that the Kiel Canal should be internationalized and made available to the ships of all nations on even terms. Tolls will be collected to pay for the maintenance of the Canal. Germany probably will retain sovereignty of the waterway. The Council has under consideration the question of maintaining Heligoland as a port of refuge for peaceful craft.

Disposition of the German warships is not likely to be included in the Treaty of Peace, according to the view of the American Peace delegation. Germany, however, will be required to surrender title to the ships. The ultimate ownership will be determined later.

AIRPLANE SHIPPED TO ST. JOHN'S.

LONDON, March 18.

British aviators are to try for a flight across the Atlantic. A secretly built airplane accompanied by Harry Hawker as pilot, and Commander MacKenzie Grieves, Royal Navy, as navigator, was shipped from England yesterday to St. John's, Nfld., from which it will start at the earliest possible moment in an attempt to win the Daily Mail prize of 10,000 pounds for the first machine to fly across the Atlantic. The machine is a Sopwith, two seater biplane with a 350 horse-power engine. The fusilage is boat-shaped and will support the machine on the water. Newfoundland lies nearer to Europe than any other part of North America, the distance being about 1,900 miles.

IN KOREA.

TOKIO, March 17.

(By the A.P.)—Korean demonstrations continued Saturday and Sunday according to despatches printed in newspapers here, and it is indicated the National Independence movement is remarkably extensive and well organized in some of the strongest provinces of that country. Reports state that the railway station at Pingyang has been stoned by a mob of ten thousand persons, the Korean National flag being commonly displayed. There is some uneasiness at Seoul but the situation there is said to be under control.

MEETING OF PREMIERS.

PARIS, March 18.

An important Conference with Premiers Lloyd George, Orlando and Clemenceau will be held at President Wilson's residence to-day. This gathering of Premiers, representing the supreme directing force of the Peace Conference, takes the place of the session of the Supreme Council which has been postponed until to-morrow to permit the meeting. The question to be discussed is the large one of securing accord between the Great Powers on all phases of the peace treaty and its early presentation to the Germans. It is expected an agreement will be reached as to the inclusion of the League of Nations as an integral part of the peace treaty in accordance with the resolution which has been already accepted by the Peace Conference. Special interest attaches to to-day's conference in view of recent reports of divergencies between the powers as to the inclusion of the league plan in the treaty. The meeting is looked upon as an earnest, decisive effort to reconcile all views into a common understanding for an early conclusion of peace in a comprehensive form, including military, naval, economic and financial terms as well as the League of Nations.

HOW LONG MORE?

LONDON, March 18.

The more aggressive section of the Sinn Fein Party in Ireland, contemplates a campaign similar to that adopted by the militant suffragettes. At the moment it is hoped to have the Peace Conference intervene in behalf of Ireland. This will be for the purpose of focussing public attention on the demands of the party, according to despatches received by the Press Association. The authorities, however, are prepared to afford adequate protection to life and property, and the belief is expressed that with tact and discretion it will be able to tide over the threatened trouble. It is understood the Government does not intend to further postpone consideration of the Home Rule Bill which was suspended by an Act which automatically expires six months after the Treaty of Peace is signed.

PAYING IN CASH.

BRUSSELS, March 18.

In accordance with an agreement which has been reached, the German Government has contracted to deposit 450,000,000 francs in gold in the Brussels National Bank. There will be two payments, one of 175,000,000 francs within four days, and the other which will be 275,000,000 francs will be made within ten days.

WANT FULL VOICE.

STOCKHOLM, March 17.

In announcing Sweden's acceptance of the invitation extened to her and other neutral nations to attend a conference in Paris on the subject of the League of Nations, Premier Eden said to-day that the Government had confined Swedish representation to a committee which had been long studying the question which would act in conjunction with the Swedish Ministers in Paris and London. "Naturally," the Premier said, "this procedure in itself cannot satisfy the neutral powers. We maintain unconditionally the demand to be permitted to take part in the actual full official deliberations on this world problem before we shall find ourselves able to decide upon our own attitude."

RIOTING IN CAIRO.

LONDON, March 18.

In the recent rioting at Cairo, Egypt, believed to be due to the Nationalist agitation, six persons were killed and thirty-one others wounded, according to a Cairo despatch received to-day. At Tanta on the Nile, 75 miles above Alexander, where rioting also occurred, the casualties were eleven killed and fifty-one wounded. The message which was filed on March 13th, stated that order had been restored and that the troops were able to cope with the situation.

CABLE OWNERSHIP.

PARIS, March 18.

The British delegation to the Peace Conference, it was announced to-day, has committed to the Supreme Council the question of the future ownership of the German cable to America. All parties interested in the question are preparing briefs.

TO VISIT PEERSHING.

CHAUMONT, March 18.

King Albert and Queen Elizabeth of Belgium, will arrive to-morrow for a three days' visit to General Pershing. They are expected to make the trip from Brussels by airplane, if weather conditions permit.

BOLSHEVIKI PROPAGANDA.

WASHINGTON, March 17.

The Russian Bolshevik Government is planning to use aircraft in a propaganda campaign in England and France, according to Swedish press reports made public to-day by the State Department. Aviators for the work are said to be in training at Moscow.

PAYING UP.

BERLIN, March 15.

The Tages Zeitung says it is informed that Germany has completed the delivery to the Allies of five thousand locomotives and 150,000 cars, as provided for in the armistice. The value of the rolling stock, it is said, is three billion marks. The Prussian railways furnished three-fourths of the locomotives and cars.

KEEPING THEM OUT.

OTTAWA, March 17.

Entry to Canada of immigrants of German, Austria-Hungarian, Bulgarian or Turkish races or nationalities has been prohibited, except with the permission of the Minister of Immigration and Colonization.

ALLIES IN AGREEMENT.

LONDON, March 17.

Andrew Bonar Law, Government leader in the House of Commons, told that body to-day that to the best of his belief, there was no foundation for the report that a hitch had occurred in the presentation to Germany of the draft of the peace terms because of divergencies of opinion on the subject of the League of Nations. Mr. Bonar Law made this statement in replying to a question by H. W. Bottomley, who wanted an assurance "that the terms agreed upon by all the representatives at the Conference prior to President Wilson's return, would be communicated at once to the enemy."

THE ALLIES IN GERMANY.

BERLIN, March 15.

A special despatch from Frankfort to the Nord Deutsche Allegemaine Zeitung, says that the French in advancing to Frankfort, have occupied the Ridda Bridge across the Main, in the western part of the suburb of Bodelheim. The French are said to have posted notices saying that the passage was closed to all traffic. Another report says that the authorities of Remscheld, northeast of Cologne, and Kronenburg, northwest of Remscheid, have forwarded a protest to the German Government at Weimar and also to the German armistice commission against the occupation of the towns by British forces.

Nfld. Scotch Cured Herring.

Reported offerings of fall Newfoundland Scotch cured herring at prices well below the quotations of large factors in the business, appear to have failed in the stimulation of immediate business. The fact is that there is little or no demand for Newfoundland Scotch cured herring at this time. Those who have good quality large fulls on the spot are holding at from $25 to $28 per barrel, according to quality, and there are matfuls and matties which have been quoted—and sold—at from $24 to $22, respectively, according to the trade. The sales at these low prices for small fish are understood to have been in accordance with the quality of the offering. Some large fulls are also reported to have sold at $25, but these consisted of slack packages and dry fish. The trade of New York, while admitting the utter lack of interest on the part of jobbers, appears to be content to await further developments and in the meanwhile to maintain prices which do not permit of losses. The variable quality of the herring held in warehouse is such that when the demand is resumed, a wide range of prices may be expected and, doubtless, there will be some very low quotations on stocks which are not carefully graded and packed. The remaining supply in Newfoundland probably will be largely held until spring. The supply in New York is sufficient at present to meet the requirements of the trade, almost without regard to its volume.—N. Y. Fishing Gazette, March 8.

At Rest.

The remains of the late John P. Flynn were interred at Belvidere yesterday evening, guards of honour from the Holy Name, Christian Doctrine and B. I. S. Societies being present at the funeral obsequies, while the Rt. Rev. Mons. McDermott read the burial service.

MINARD'S LINIMENT CURES GARGET IN COWS.

Templeton's

Cure the Skin Through the Skin

It is now thoroughly established among skin specialists that eczema is purely a skin disease, due to a germ beneath the skin and curable only through the skin. Thousands of people suffer with skin disease who are perfectly healthy otherwise, which shows that that their blood is not diseased. Ugly-tasting stomach remedies are therefore as worthless for skin diseases as they are for a toothache.

Eczema germs must be WASHED AWAY. Smeary salves do no good if they cannot penetrate the skin. They merely close the pores and aid the rapid increase of germs. The only way to reach the germs is by a penetrating liquid.

The D. D. D. Prescription, a wonderful new discovery for skin diseases, is a simple, scientific wash—a reliable home remedy that brings about marvellous cures in all forms of Eczema, Bad Leg, Pimples, Ulcers, Barber's Itch and all other skin ailments. D. D. D. relieves distress instantly, kills and washes away disease germs and leaves the skin wholesome and healthy.

Get a bottle of D. D. D. Prescription to-day. Sold everywhere.
